Retention and disposal: Following the match, all identifiers are removed from the records kept at the Social Security Administration. The Census Bureau retains identifiers for possible longitudinal updating. Records with identifiers will be held in secure storage areas at the Census Bureau and will be disposed of as soon as they are determined to be no longer needed for Census or SSA analysis. Means of disposal will be appropriate to the record storage medium, e.g., erasure of tapes, shredding of printouts, etc. As long as identifiable records exist, a periodic review will be made at least every two years to determine the need for their retention

System manager(s) and address:

Assistant Commissioner for Research and Statistics
Social Security Administration

V 43/188

Universal North Building/Room 1121
1875 Connecticut Avenue, N.W.
Washington, D.C. 20009

Notification procedure: For purposes of access, write to the system manager. He will request name of the system and social security number (on a voluntary basis). Also to verify identity, provide name (woman's maiden name, if applicable), address, date of birth, and sex.

Record access procedures: Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (45 CFR, Section 5b.5(a)(2)) Federal Register, October 8, 1975, pg.47410).

Contesting record procedures: Write the system manager at the address above and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (45 CFR, Section 5b.7) Federal Register, October 8, 1975, pg.47411).

Record source categories: Social Security Administration master beneficiary record; Social Security Administration earnings recordings and self-employment income system; Internal Revenue Service tax returns; Census surveys; Social Security Administration Supplemental Security Income record.

Systems exempted from certain provisions of the act: None.

09-60-0149

System name: Matches of Internal Revenue Service and Social Security Administration Data (Joint Social Security Administration/Treasury Department Statistics Development Project) HEW/SSA/OPP.

Security classification: None.

System location:

Social Security Administration
6401 Security Blvd.
Baltimore, Maryland 21235

Social Security Administration
1875 Connecticut Avenue, N.W.
Washington, D.C. 20009

Treasury Department
15th & Pennsylvania Ave., N.W. Washington, D.C. 20220

HEW Data Management Center
330 Independence Ave., S.W.
Washington, D.C. 20201

Categories of individuals covered by the system: Samples of persons filing Federal Income Tax returns for 1970, 1972, 1975, and selected subsequent years

Categories of records in the system: Social Security Administration demographic data; Social Security Administration earnings and benefit record information; tax return data.

Authority for maintenance of the system: Section 702 of the Social Security Act (42 USC, Section 902) and Treasury Regulations

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made:

1. (through the Treasury Department) to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
2. to the Treasury Department in connection with statistical studies conducted for Social Security Administration and Treasury Department purposes.
3. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are stored on magnetic tape.

Retrievability: Records are indexed by social security number during the matching steps at the Social Security Administration, but identifiers are not retained at the Social Security Administration. The major matching step is carried out entirely at Treasury.

Safeguards: Safeguards established in accordance with Department standards and National Bureau of Standards guidelines will be used, (such as the use of passwords, locked-files, etc.) restricting access to authorized personnel. Employees having access to records are notified of criminal sanctions for unauthorized disclosure of information about individuals. Microdata files prepared for research purposes outside the research staff will be stripped of personal identifiers.

Retention and disposal: Identifiable data are retained by the Social Security Administration only during the match process. Once matching is complete all computer tapes are turned over to the Treasury Department. A matched SSA-Treasury file is provided to Social Security for its research use. The Social Security Administration does not have detailed Internal Revenue Service data with identifiers at any point in the matching process. The minimum amount of Internal Revenue Service data with identifiers needed to validate the processing is used by the Social Security Administration. Identifiers may be retained on the Treasury copies of intermediate and matched files. The retention of these identifiers is needed for possible further matching: for example, with similar data for different years.

System manager(s) and address:

Assistant Commissioner for Research and Statistics
Social Security Administration
Universal North Building/Room 1121
1875 Connecticut Avenue, N.W.
Washington, D.C. 20009

Notification procedure: For purposes of access, write to the system manager. He will request name of the system and social security number (on a voluntary basis). Also to verify identity, provide name (woman's maiden name, if applicable), address, date of birth, and sex.

Record access procedures: Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (45 CFR, Section 5b.5(a)(2)) Federal Register, October 8, 1975, pg.47410).

Contesting record procedures: Write the system manager at the address above and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (45 CFR, Section 5b.7) Federal Register, October 8, 1975, pg.47411).

Record source categories: Social Security Administration master beneficiary record; Social Security Administration earnings recordings and self-employment income system; Internal Revenue Service Federal tax returns.

Systems exempted from certain provisions of the act: None.

09-60-0159

System name: Continuous Work History Sample (Statistics) HEW SSA OPP.

Security classification: None.

System location:

Bureau of Data Processing
6401 Security Boulevard
Baltimore, Maryland 21235

Bureau of Census
Washington, DC 20233

Categories of individuals covered by the system: A sample of persons with social security numbers issued through the cutoff date of the file. Included are those working for the Federal government and those covered by the Railroad Retirement Act, as well as those covered under social security.

Categories of records in the system: Demographic characteristics; employer information; type of work information; earnings information; self-employment information; insured status information; benefit status; geography information (residence).

Authority for maintenance of the system: Section 702 of the Social Security Act. (42 USC Sec. 902).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made:

1. Energy Research and Development Administration for their study of the long-term effects of low-level radiation exposure;
2. Department of Labor for administering provisions of Title IV of the Federal Coal Mine Health and Safety Act and for studies on the effectiveness of training programs to combat poverty;
3. Civil Service Commission for the study of the relationship of civil service annuities to minimum social security benefits; and the effects on the trust fund;
4. Bureau of Census when it performs as a collecting agent or data processor for research and statistical purposes directly relating to the Social Security Act;
5. A congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual;
6. A Federal or State agency (or its agent) lawfully charged with the administration of a Federal or State unemployment compensation law or contribution or tax levied in connection therewith, for the purpose of such administration but solely for use in compiling statistics to be used in aggregated or anonymous forms.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Data are stored on magnetic tape.

Retrievability: The file is indexed with social security numbers.

Safeguards: Initial processing is performed by Census Bureau. During the matching steps which occur at the Social Security Administration, identifiable data is under the control of a limited number of social security employees who have sworn to uphold the Census statute. For computerized records, safeguards established in accordance with Department standards and National Bureau of Standards guidelines (e.g. security codes) will be used, limiting access to authorized personnel.

Retention and disposal: This is a longitudinal sample. Records with identifiers will be retained as long as needed to permit addition of future earnings and other Social Security Administration program data for individuals in sample.

System manager(s) and address:

Assistant Commissioner, Office of Research and Statistics
Social Security Administration, Room 1121
1875 Connecticut Avenue, NW
Washington, D.C. 20009

Notification procedure: For purposes of access, write the system manager; he will require name of system, social security number, and for verification purposes, name (woman's maiden name, if applicable), address, date of birth and sex, and to ascertain whether the individual's record is in the system, years during which covered earnings were reported and years of self-employment, if any.

Record access procedures: Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (45 CFR, Section 5b.5(a)(2)) Federal Register, October 8, 1975, page 47410.).

Contesting record procedures: Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (45 CFR, Section 5b.7) Federal Register, October 8, 1975, page 47411.).

Record source categories: Master beneficiary record; earnings summary record; quarterly earnings items file; employer identification file; 'Notification of Personnel Action' (SF-50); Railroad Retirement Board master file; Internal Revenue Service name and address file.

Systems exempted from certain provisions of the act: None

System location: All Hearing Offices (See Appendix G)

Categories of individuals covered by the system: Claimants - Titles II, XVI, XVIII, and Black Lung

Categories of records in the system: A list of all cases pending in the hearing office

SE 27 78

V 43 / 188

Authority for maintenance of the system: Sections 205, 1631(d)(1) and 1872 of the Social Security Act, as amended, and Section 413(b) of the Federal Coal Mine Health and Safety Act, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made:

1. to a congressional office from record of an individual in response to an inquiry from the congressional office made at the request of that individual.
2. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Folders in filing cabinets.

Retrievability: Social security number. Enables the hearing office to ascertain location of case within the office and maintain control of the pending case load.

Safeguards: Limited access to SSA offices; limited employee access to need to know.

Retention and disposal: As each case is disposed of, it is removed from the master calendar.

System manager(s) and address:

Director
Bureau of Hearings and Appeals, Room 402
3833 North Fairfax Drive
Arlington, Virginia 22203

Notification procedure:

Social Security Administration
Bureau of Hearings and Appeals
801 North Randolph Street
Arlington, Virginia 22203

Written request to above address. Individual should provide name and social security number.

Record access procedures: Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (45 CFR, Section 5b.5(a)(2)) Federal Register, October 8, 1975, page 47410.).

Contesting record procedures: Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (45 CFR, Section 5b.7) Federal Register, October 8, 1975, page 47411).

Record source categories: Hearing office personnel, from information on incoming cases.

Systems exempted from certain provisions of the act: None.

09-60-0186

System name: Litigation Master Record File--HEW,SSA,OPP.

Security classification: None.

System location:

Social Security Administration
OPR Litigation Staff
Room 4-H-6 WHR
Baltimore, MD 21235

Categories of individuals covered by the system: Individuals who are involved, as plaintiffs or defendents, in civil litigation concerning one or more of the programs administered by SSA.

Categories of records in the system: Complaints filed by individuals against the Secretary, HEW. Court orders and decisions regarding cases in litigation. Related litigation materials.

Authority for maintenance of the system: Section 205(a) Social Security Act (42 USC 405(a)).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made: the record of an

(1)to a congressional office from individual in response to an inquiry from the congressional office made at the request of that individual.

(2)In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: On paper files in filing cabinets.

Retrievability: The records will be stored alphabetically by plaintiff's name. Records maintained by the OPR Litigation Staff will be used by the Staff in the course of their responsibilities for formulating and coordinating responses to interrogatories and recommendations regarding the appeal of adverse court decisions. The records will also be maintained to enable Staff personnel to review and analyze court decisions and to direct the implementation of interim and final court orders.

Safeguards: The file will be maintained in locked file cabinets and staff personnel will limit access only to authorized personnel. All personnel having access to the records will be informed of criminal sanctions for unauthorized disclosure on individuals.

Retention and disposal: Normally, records will be retained for two years after the expiration of the appeal period. Certain cases in which constitutional/policy issues are involved (e.g., Supreme Court cases) will be retained indefinitely by Litigation Staff. All other records will be transferred to OPR Reference Room to be retained for history purposes.

System manager(s) and address: Director, Office of Policy and Regulations

Social Security Administration
6401 Security Boulevard
Baltimore, Maryland 21235

Notification procedure: For purposes of access, write the system manager: he will need name, and for verification purposes, social security number, address, date of birth, and sex. Furnishing the SSN is voluntary, but it will make searching for the individual's record easier and avoid delay.

Record access procedures: Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (45 CFR, Section 5b.5(a)(2)) FEDERAL REGISTER, October 8, 1975, page 47410.)

Contesting record procedures: Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (45 CFR, Section 5b.7) Federal Register, October 8, 1975, page 47411.)

Record source categories: The social security claims folder, the Master Beneficiary Record, the Supplemental Security Record, the Social Security Administration Data Access and Retrieval System, plaintiff's complaints, court orders, court decisions, and court directives.

Systems exempted from certain provisions of the act: None.

09-60-0194

System name: Direct Deposit Survey (Statistics). HEW SSA OPP.

Security classification: None.

System location:

Evaluation and Measurement Staff
Office of Program Policy & Planning
6300 Security Blvd.
Baltimore, Maryland 21235

Bureau of Data Processing

6401 Security Blvd.
Baltimore, Maryland 21235

Contractor Site--unknown--when known, this information will be available from Systems Manager upon request.

Categories of individuals covered by the system: A sample of individuals from these groups:

a. Individuals who are receiving social security benefits and having them deposited directly in financial institutions.

b. Individuals receiving social security benefits who have not elected to have their benefits deposited directly in financial institutions.

c. Individuals receiving social security benefits who had elected the direct deposit option but who subsequently elected to stop using it.

Categories of records in the system: Selected Survey Responses reflecting individuals' knowledge of and experience with the Direct Deposit option; Social Security Administration program benefit and demographic data.

Authority for maintenance of the system: Section 702 of the Social Security Act (42 U.S.C., Section 902).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made to: a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual; An organization under contract with the Social Security Administration of inforamtion necessary to enable the contractor to comply with the conditions of the agreement to perform research and statistical functions.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Completed data tape and questionnaire hard copy with identifiers will be kept by EMS Project Officer: The questionnaire hard copy in a locked file; the tape in a secure computer facility.

Retrievability: Records from the survey data tape and questionnaire hard copy will be retrievable by name and social security number until after merger with SSA program data; i.e., until end of calendar year 1979.

Safeguards: During field survey and editing, identification of tapes and documentation of tape data contents are restricted to the SSA Project Staff and the contractor's project staff. Hard copy of questionnaires are kept in locked storage cabinets located in locked rooms and can only be accessed with the permission of the project manager. All persons using tape data or having access to hard copy are notified of criminal penalties for unauthorized disclosures of information about individuals. Similarly, the contractor's staff operates under the same sanctions. Contractor transmits all survey data to SSA Project Staff at the end of field survey. Access to completed data tape is controlled by the SSA Project Officer. Security measures have been incorporated in the software specifications of the system that were designed to prevent accidental and intentional unauthorized disclosure.

Retention and disposal: Questionnaire hard copy and completed tape with identifiers will be retained until the end of calendar year 1979 at which time both will be destroyed. Retrieval will then no longer be possible.

System manager(s) and address:

Chief, Evaluation and Measurement Staff, OPP
6300 Security Blvd.
Baltimore, Maryland 21235

Notification procedure: Provide system manager with name of system, name and social security account number, on a voluntary basis.

Record access procedures: Same as notification procedure. Requestor should also reasonably specify the record contents being sought. These access procedures are in accordance with DHEW Regulations (45 CFR, Section 5b.5(a)(2)), Federal Register, October 8, 1975, page 47410.

Contesting record procedures: Contact the systems manager at the address specified, and reasonably identify the record and specify the information to be contested. These procedures are in accordance with Department Regulations (45 CFR, Section 5b.7), Federal Register, October 8, 1975, page 47411.

Record source categories: Interview data completed with individuals in the survey sample. SSA program information and demographic data from social security records.

Systems exempted from certain provisions of the act: None.

09-60-0196

System name: Disability Studies Survey Records, (Statistics) HEW.SSA.OPP

Security classification: None.

System location:

Social Security Administration
6401 Security Blvd.
Baltimore, Maryland 21235

Bureau of the Census
Washington, D.C.
Jeffersonville, Indiana

Contractor sites: Addresses may be obtained by writing to the system manager (see below)

Categories of individuals covered by the system: Sample groups of adults who are current or potential recipients of Social Security disability payments.

Categories of records in the system: Socio-economic, demographic, medical and disability characteristics, attitudes, earnings and employment history, benefits, and use of medical and rehabilitative services.

Authority for maintenance of the system: Section 702 of the Social Security Act (42 USC, Section 902)

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made:

1. to a congressional office from of an individual in response to an inquiry from the congressional office made at the request of that individual.
2. To contractor under contract to the Social Security Administration (SSA), or under contract to another agency with funds provided by SSA, for the performance of research and statistical activities directly related to the Social Security Act.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Data may be stored on hard copy questionnaire forms, microfiim, punch cards, magnetic tape, disc, or printouts.

Retrievability: Files based on SSA sample populations are indexed by SSA-assigned case numbers or social security numbers. Files based on Census sample populations are indexed by Census-assigned case numbers cross-referenced to social security numbers.

Safeguards: Magnetic tapes or other files with personal identifiers are retained in secure storage areas accessible only to authorized persons. Employees having access to records are notified of criminal sanctions for unauthorized disclosure of information about individuals. Microdata files prepared for research purposes for use outside of the research staff will be stripped of personal identifiers. For computerized records, safeguards established in accordance with Department standards and National Bureau of Standards guidelines will be used, (such as the use of passwords, locked files, etc.) restricting access to authorized personnel.

Retention and disposal: Hard copy questionnaires will be destroyed when survey reports are completed. Records with identifiers will be held in secure storage areas and will be retained only as long as needed for SSA analysis. Identifiers will be removed at the earliest possible time after data collection is completed. The need to retain identifiers will be evaluated at the time each survey is completed. Records with identifiers will be disposed of as soon as they are determined to be no longer needed. Means of disposal will be appropriate to the record storage medium, e.g., erasure of tapes, shredding of printouts, etc. As long as identifiable records exist, a periodic review will be made at least every two years to determine the need for their retention. In longitudinal studies, working files are stripped of identifiers and given randomly assigned case numbers. A separate link file will be maintained in secure storage for updating with individual identifiers.

Categories of individuals covered by the system: Personnel described in research project proposals submitted for grant or contract consideration.

Categories of records in the system: Professional qualifications and other relevant information about project personnel. Direct or indirect information on individual salaries may be included.

Authority for maintenance of the system: Section 702 of the Social Security Act (42 USC 902); Section 1110 of the Social Security Act (42 USC 1310).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made:

1. to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.
2. To the court or to a party in connection with any civil or criminal action to which the Secretary is a party or otherwise involving a program administered by the Social Security Administration.
3. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Data may be stored on hard copy forms, magnetic tape, disc, punch cards, or printouts.

Retrievability: Files are indexed by HEW-assigned number. Data are used within HEW for administrative analyses

Safeguards: Magnetic tapes or other files with personal identifiers are retained in secure storage areas accessible only to authorized persons. Employees having access to records are notified of criminal sanctions for unauthorized disclosure of information about individuals. For computerized records, safeguards established in accordance with Department standards and National Bureau of Standards guidelines will be used, (such as the use of passwords, locked-files, etc.) restricting access to authorized personnel.

Retention and disposal: Records with identifiers will be held in secure storage areas and will be disposed of as soon as they are determined to be no longer needed for analysis. Means of disposal will be appropriate to the record storage medium, e.g., erasure of tapes, shredding of printouts, etc. As long as identifiable records exist, a periodic review will be made at least every two years to determine the need for their retention.

System manager(s) and address:

Assistant Commissioner for Research and Statistics
Social Security Administration
Universal North Bldg./Rm.1121
1875 Connecticut Avenue, N.W.
Washington, D.C. 20009

Notification procedure: For purposes of access, write to the systems manager. He will need to know the project title and number, name of contractor or grantee organization and the name of the person requesting notification.

Record access procedures: Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with DHEW Regulation (45 CFR, Section 5b.5(a)(2)) Federal Register, October 8, 1975, pg.47410).

Contesting record procedures: Write the system manager at the address specified above and reasonably identify the record and specify the information contested. (These procedures are in accordance with Department Regulations (45 CFR, Section 5b.7) Federal Register, October 8, 1975, pg.47411).

Record source categories: Project proposals submitted for grant or contract consideration.

Systems exempted from certain provisions of the act: None.

09-60-0199

System name: Extramural Surveys (Statistics) HEW/SSA/OPP

Security classification: None.

System location:

Social Security Administration
6401 Security Blvd.
Baltimore, Maryland 21235

Contractor sites: Addresses may be obtained by writing to the system manager (see below)

Categories of individuals covered by the system: Samples of individuals who are current or potential recipients of benefits from Social Seucrity and related programs; personnel administering SSA and related programs.

Categories of records in the system: Socio-economic, demographic, medical and disability characteristics; attitudes concerning subjects such as health, work experience, and family relationships; earnings and employment history, benefits, use of medical and rehabilitative services.

Authority for maintenance of the system: Section 702 of the Social Security Act (42 USC, Section 902) Section 1110 of the Social Security Act (42 USC, Section 1310).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made:

1. to a congressional office from of an individual in response to an inquiry from the congressional office made at the request of that individual.
2. To contractor under contract to the Social Security Administration (SSA), or under contract to another agency with funds provided by SSA, for the performance of research and statistical activities directly related to the Social Security Act.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Data may be stored on hard copy questionnaire forms, microfilm, punch cards, magnetic tape, disc, or printouts.

Retrievability: Files based on SSA sample populations are indexed by SSA-assigned case numbers or social security numbers. Files based on contractor sample populations are indexed by contractor-assigned case numbers which may be cross-referenced to social security numbers.

Safeguards: Magnetic tapes or other files with personal identifiers are retained in secure storage areas accessible only to authorized persons. Employees having access to records are notified of criminal sanctions for unauthorized disclosure of information about individuals. Microdata files prepared for research purposes for use outside of the research staff will be stripped of personal identifiers. For computerized records, safeguards established in accordance with Department standards and National Bureau of Standards guidelines will be used, (such as the use of passwords, locked files, etc.) restricting access to authorized personnel.

Retention and disposal: Hard copy questionnaires will be destroyed when survey reports are completed. Records with identifiers will be held in secure storage areas and will be retained only as long as needed for analysis. Identifiers will be removed at th earliest possible time after data collection is completed. The need to retain identifiers will be evaluated at the time each survey is completed. Records with identifiers will be disposed of as soon as they are determined to be no longer needed. Means of disposal will be appropriate to the record storage medium, e.g., erasure of tapes, shredding of printouts, etc. As long as identifiable records exist, a periodic review will be made at least every two years to determine the need for their retention. In longitudinal studies, working files are stripped of identifiers and given randomly assigned case numbers. A separate link file will be maintained in secure storage for updating with individual identifiers.

System manager(s) and address:

Washington, D.C. 20009

Notification procedure: For purposes of access, write to the system manager. He will request name of the system and social security number (on a voluntary basis). Also, to verify identity, provide name (woman's maiden name, if applicable), address, date of birth, and sex.

Record access procedures: Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (45 CFR, Section 5b.5(a)(2)) Federal Register, October 8, 1975, pg.47410).

Contesting record procedures: Write the system manager at the address specified above and reasonably identify the record and specify the information contested. (These procedures are in accordance with Department Regulations (45 CFR, Section 5b.7) Federal Register, October 8, 1975, pg.47411).

Record source categories: Supplemental Security Income Record, SSI applications, State supplied SSI data, program records of other Federal/State welfare programs, master beneficiary record, earnings recordings and self-employment income system, disability claims folder, disability data record, Health Insurance Master file and related files, and other SSA administrative records; case service reports of the Vocational Rehabilitation Agencies.

Systems exempted from certain provisions of the act: None.

09-60-0205

System name: Indochina Refugee and Sponsor System, HEW-OS-IRTF (Indochina Refugee Task Force) VOLAG Billing and Validation System, VOLAG Program Progress Reporting System, HEW/SRS Refugee Financial Assistance System HEW SSA OFA.

Security classification: None.

System location:

Donohoe Bldg., HEW/SSA/OFA/Special Programs Staff
400 6th Street., S.W.

Washington, D.C. 20201
and at HEW/SSA/ODD, Operations Bldg.
6401 Security Boulevard
Baltimore, Maryland 21235

Categories of individuals covered by the system: Individuals who are refugees from Indochina as defined in the authorizing legislation and individuals and voluntary resettlement agencies (VOLAGS) who have sponsored refugees.

Categories of records in the system: Names and addresses of individuals and voluntary resettlement agencies (VOLAGS) who sponsored refugees. Names of refugees, resettlement camp ID Numbers, INS Alien Number, Age, Sex, English-speaking capability, Education, Occupational skills, Health status, and Administrative data (e.g., arrival date, camp assignment, camp departure date, destination). VOLAG billing and validation data including progress reports on status of refugees, HEW/SRS refugee financial assistance data.

Authority for maintenance of the system: The Indochina Migration and Refugee Assistance Act of 1975 (P.L. 95-145).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made:

1. As listed in Departmental Regulations (45 CFR, Part 5b), Appendix B, items 1, 3, 4, 5, 6, 8, and 9.
2. to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual. Regulations (45 CFR Part 5b), Appendix B, items 1, 3, 4, 5, 6, 8, 9.
3. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained in electromagnetic form (disk and tape) in a dedicated IBM 370/165 computer located at:

HEW/SSA/ODD, Operations Bldg.
6401 Security Boulevard
Baltimore, Maryland 21235
Hard copy (printouts) are maintained at:
HEW/SSA/OFA/Special Programs Staff, Donohoe Building, Room 1123
400 6th Street, S.W.
Washington, D.C.

Dept. of State, D/HA-ORM
SA 6, Room 231
1700 N. Lynn St.
Arlington, Va. 22209

Red Cross Refugee Locator Service
4th Floor
18th and D Sts., N.W.
Washington, D.C.

Retrievability: Records concerning refugees are indexed by name and cross indexed by A (Alien) number. Records are available to HEW on a need to know basis above. Hardcopy and folders are maintained in limited access space. Direct access to the computer site is restricted to authorized operating personnel.

Retention and disposal: Authorization for the program terminates on September 30, 1981; HEW/SSA/OFA/Special Programs Staff will maintain records until that date, or until work is completed, whichever comes first, at which time another component of HEW will maintain these records.

System manager(s) and address:

Director,
Special Programs Staff/OFA/SSA/HEW
Donohoe Building - Room 1124
Dept. of Health, Education and Welfare
330 Independence Ave., S.W.
Washington, D.C. 20201

Notification procedure: System Manager.

Record access procedures: Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (45 CFR, Section 5b.5(a)(2)) Federal Register, October 8, 1975, pg.47410).

Contesting record procedures: Write the system manager at the address specified above and reasonably identify the record and specify the information contested. (These procedures are in accordance with Department Regulations (45 CFR, Section 5b.7) Federal Register, October 8, 1975, pg.47411).

Record source categories: Department of State, Intergovernmental Committee for European migration (ICEM), national voluntary resettlement agencies, Inter-Agency Task Force (through Dec. 31, 1975), State welfare agencies.

Systems exempted from certain provisions of the act: None.

09-60-0206

System name: Repatriate Records System, HEW SSA/OFA.

Security classification: None.

System location:

Social Security Administration, HEW
Office of Family Assistance
Special Projects Staff
Repatriate Program
330 C. Street, S.W. Room 4115
Washington, D.C. 20201

Categories of individuals covered by the system: U.S. Citizens and their dependents returned from foreign countries by the Department of State because of mental or physical illness, destitution, war, threat of war or international crisis.

Categories of records in the system: Identifying data such as name, date and place of birth, Social Security number, resources, employment, eligibility for other Federal, State or local programs and related data. Other categories include State and Regiuonal reports, correspondence and accounting data. fund accounting data, educational data, and employment records and skills, financial reports, military service and civil and/or criminal records.

Authority for maintenance of the system: Public Law 86-571, Public Law 87-64 (Title XI of the Social Security Act, Section 1113).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made:

1. to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Provides a basis for the expenditure of Federal funds. Information is used for the administration of the programs, by HEW regional staff, State and local health and welfare agencies and other private and public agencies, as required.

2. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained in individual case folders by program office. Records are indexed by name and stored in locked metal cabinets. Files are confidential. Records are maintained for five years prior to retirement to the Federal Records Center, Suitland, Md.

Retrievability: Records are indexed by name and are maintained in alphabetical order. Active and closed files are maintained. State expenditure funds are maintained. Provides a basis for the expendi-

SEP 27 78 UMI

V 43/188

ture of Federal funds. Information is used for the administration of the programsa by HEW regional staff, State and local health and welfare agencies and other private and public agencies as required.

Safeguards: Files are stored in metal cabinets with lock and key. Files are of a confidential nature and other personnel would not normally have access to their contents.

Retention and disposal: The policy is to maintain records for five years and then send them to the Federal Records Center in Suitland, Maryland. Some records are maintained in the active files for considerably longer periods.

System manager(s) and address:

Chief, U.S. Repatriate Program
Special Programs Staff/OFA/SSA/HEW
Donohoe Building, Room 1124
330 Independence Ave., S.W.
Washington, D.C. 20201

Notification procedure: System Manager.

Record access procedures: Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (45 CFR, Section 5b.5(a)(2)) Federal Register, October 8, 1975, pg.47410).

Contesting record procedures: Write the system manager at the address specified above and reasonably identify the record and specify the information contested. (These procedures are in accordance with Department Regulations (45 CFR, Section 5b.7) Federal Register, October 8, 1975, pg.47411).

Record source categories: Information is secured from the individual or his relative and submitted to HEW by the Department of State.

09-60-0207

System name: Cuban Refugee Registration Records. HEW SSA/OFA.

Security classification: None.

System location:

U. S. Cuban Refugee Emergency Center
747 Ponce de Leon Boulevard
Miami, Florida 33134

Categories of individuals covered by the system: Cuban refugees who, on their own initiative, have registered at the Cuban Refugee Emergency Center in order to qualify for Federal benefits under the Cuban Refugee Program. (Registration is not required).

Categories of records in the system: Name, names of family members, places and dates of birth, occupation, and related data.

Authority for maintenance of the system: Migration and Refugee Assistance Act of 1962.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

1. Voluntary resettlement agencies working under contract with Federal Government in connection with possible resettlement of refugees from Miami to other locations.

2. Florida Division of Family Services, to verify eligibility of refugee to apply for Cuban refugee assistance.

3. State welfare, health, or social services agencies to verify eligibility under Cuban Refugee Program and to enable State to claim Federal reimbursement for assistance provided.

4. HEW Regional Offices in order to provide information to State agencies.

5. Federal law enforcement and security agencies, including the Federal Bureau of Investigation and the Immigration and Naturalization Service, when requested.

6. Courts, when subpoenaed.

7. Statistical research and reporting, provided the record will be used solely as a statistical research or reporting record and is to be transferred in a form that is not individually identifiable.

8. In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

9. Disclosure may be made to a Congressional Office from the record of an individual in response to an inquiry from the Congressional Office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Magnetic tape and punched card.

Retrievability: Name, Center file number, alien registration number.

Safeguards: Locked areas, access only by record and data processing personnel to record areas, or accompanied by such personnel; guard service during non-office hours.

Retention and disposal: Records will be maintained permanently for the duration of the Program.

System manager(s) and address:

Director, Miami Operations
Cuban Refugee Program
P.O. Box 340188
Miami, Florida 33134

Notification procedure: System Manager.

Record access procedures: System Manager.

Contesting record procedures: System Manager.

Record source categories: Individual who is subject of record.

Systems exempted from certain provisions of the act: None.

09-60-0208

System name: Program Integrity Management Information and Control System HEW SSA OPO.

Security classification: None.

System location:

Bureau of Data Processing
6401 Security Boulevard
Baltimore, Maryland 21235

Categories of individuals covered by the system: All individuals suspected of criminal violations involving the supplemental security income (SSI) program.

Categories of records in the system: Information about the supplemental security income recipient, supplemental security income suspect, program integrity case development and information about the violation aspects of the case.

Authority for maintenance of the system: Sections 106, 208, 1106, 1107, (42 U.S.C. 1306 and 1307), 1631(D)(2) and 1632 of Title XVI of the Social Security Act and 18 U.S.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made: the record of an

(1)to a congressional office from individual in response to an inquiry from the congressional office made at the request of that individual.

(2)In the event of litigation where one of the parties is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to effectively represent such party, provided such disclosure is compatible with the purpose for which the records were collected.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Magnetic tape and paper listings.

Retrievability: The record of each individual is retrieved either by social security number, name, or case identification number./ Information in this system is routinely used by Office of Program Operations Intergity staff (1) to monitor the progress of development of individual suspected fraud cases to insure timely resolution; and (2) for statistical analysis purposes to identify (a) types of cases which occur with such frequency as to suggest the need for revision of policies and procedures relative to establishing eligibility for payments and (b) trends and averages with respect to the processing time of such cases and their disposition under the Federal judicial system. All information identifiable with a specific individual is protected from access by an individual other than to whom the record pertains by statute (section 1106 of the Social Security Act (42 United States Code 1306).

Safeguards: All data is encrypted on magnetic tapes. These tapes are retained in secure storage areas accessible only to authorized persons within the Bureau of Data Processing. The storage area is controlled by marshalls responsible for insuring that only authorized personnel are permitted. Official identification badges or passes are required to gain entrance to the storage area. All employees having access to records have been notified of criminal sanctions for unauthorized disclosure of information on individuals. Paper listings are locked in a secured area.

Retention and disposal: Six months retention for magnetic tapes. A procedure is available to select and delete any case that is deemed irrelevant.

System manager(s) and address:

Director
Office of Program Operations
6401 Security Boulevard
Baltimore, Maryland 21235

Notification procedure: A request may be forward to the Director, Bureau of Supplemental Security Income, 6401 Security Boulevard, Baltimore, Maryland 21235. The social security number /name or card identification number is needed as identifying information. (These notification and access procedures are in accordance with Department Regulations (45 CFR, Section 5b.6) Federal Register, October 8, 1975, page 47411.).

Record access procedures: Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (45 CFR, Section 5b.5(a)(2) Federal Register, October 8, 1975, page 47410.).

Contesting record procedures: Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (45 CFR, Section 5b.7) Federal Register, October 8, 1975, page 47411.).

Record source categories: Information is provided by supplemental security income applicants, informants, Social Security Administration offices and other Federal, titles II and or XVI, State, or municipal agencies, by letter, telephone or in person.

Systems exempted from certain provisions of the act: None.

09-60-0209

System name: Readership Surveys of Office of Research and Statistics (ORS) Publications (statistics) HEW/SSA/OPP

Security classification: None.

System location:

Social Security Administration
1875 Connecticut Ave NW
Washington, DC 20009
Social Security Administration
6401 Security Blvd
Baltimore, MD 21235 contractor sites: addresses may be obtained by writing to the system manager (see below).

Categories of individuals covered by the system: 0Groups of readers and potential readers of ORS publications

Categories of records in the system: Type of access to publications, frequency and extent of use, revelance of publications to job and professional interests, socioeconomic and demographic characteristics, attitudes.

Authority for maintenance of the system: Section 702 of the Social Security Act (42 U.S.C.,Section 902).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made: the record

(1)to a congressional office from of an individual in response to an inquiry from the congressional office made at the request of that individual.

To contractor under contract to the Social Security Administration (SSA) or under contract to another agency with funds provided by SSA, for the performance of research and statistical activities directly related to the Social Security Act.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Data may be stored on hard copy questionaire forms, microfilm, punchcards, magnetic tape, disc, or printouts.

Retrievability: files based on lists of readers are indexed by name and/or by social security number or contractor-assigned case numbers.

Safeguards: magnetic tapes or other files with personal identifiiers are retained in secure storage areas accessible only to authorized persons. Employees having access to records are notified of criminal sanctions for unauthorized disclosure of information about individuals. Microdata files prepared for research purposes for use outside of the research staff will be stripped of personal identifiers.

For computerized records, safeguards established in accordance with Department standards and National Bureau of Standards guidelines will be used (such as the use of passwords, locked files, etc.), restricting access to authorized personnel.

Retention and disposal: hard copy questionaires will be destroyed when survey reports are completed. Records with identifiers will be held in secure storage areas and will he retained only as long as needed for SSA analysis. Identifiers will be removed at the earliest possible time after data collection is completed.

The need to retain identifiers will be evaluated at the time each survey is completed. Records with identifiers will be disposed of as soon as they are determined to be no longer needed.. Means of disposal will be appropriate to the record storage medium: e.g., erasure of tapes, shredding of printouts, etc.

As long as identifible records exist, a periodic review will be made at least every 2 years to determine the need for their retention. In longitudinal studies, working files are stripped of identifiers maintained in secure storage for updating with individual identifiers.

System manager(s) and address:

Assistant Commissioner for Research and Statistics
Social Security Administration
Universal North Building, room 1121
1875 Connecticut Avenue NW Washington, DC 20009

Notification procedure: for purposes of notification, write to the system manager. He will request name of the system, and on a voluntary basis, social security number. Verification of identity may be required in accordance with Department Regulations (45 CFR 5b.5(b)(2)), FEDERAL REGISTER, October 8, 1975, page 47410.

Record access procedures: same as notification procedures. Requestors should also reasonably specify the record contents being sought. (These access procedures are in accordance with the Department Regulations (45 CFR 5b.5(b)(2)), FEDERAL REGISTER, October 8, 1975, page 47410.)

Contesting record procedures: write the system mamager at the address above and reasonably identify the record and specify the information to be contested. (these procedures are in accordance with Department Regulations (45 CFR, Section 5b.7), FEDERAL REGISTER, October 8, 1975, page 47411.)

Record source categories: Mailling lists maintained by ORS and by the Government Printing Office and survey data collected by SSA or contractor.

Systems exempted from certain provisions of the act: None

APPENDIX A Retirement and Survivors Insurance Claims

1. Determining Appropriate Office to Contact

Records relating to retirement and survivor insurance claims are maintained primarily in six program service centers across the country. The responsibility for the payment of benefits and the

V 43/188 SE 27 78 UMI

maintenance of records is assigned to each office according to the first three digits of the social security number.

However, if the only individual entitled to survivor's monthly benefits on one claim number is also entitled to a retirement benefit on another claim number, the office which is assigned the responsibility for the retirement benefit claim also handles the survivor claim. If the only individual on the record is entitled to a survivor benefit which has been reduced because the survivor is under age 65, and the individual is also entitled to a disability benefit (which is higher), on another record, the Bureau of Disability Insurance certifies the payments and maintains both records (see Appendix B). The Bureau of Disability Insurance is also responsible for payment certification and record maintenance if the only survivor on a record is entitled as a childhood disability beneficiary and the survivor is also entitled to a disability benefit on another record.

In addition, when one of the individuals in the record resides outside the United States or its possessions, the responsibility for payment certification and record maintenance is assigned to the Division of International Operations without reference to the social security claim number or the type of benefit.

With the exceptions noted above, the appropriate program service center to contact can be determined by checking the first three (left side) digits of the social security number and comparing to the chart below. For example, if the first three digits are 076, the appropriate program service center to contact will be the Northeastern Program Service Center; similarly, if the first three digits were 437, the appropriate office would be Mid-America Program Service Center, and if they are 728, the appropriate office would be the Great Lakes Program Service Center.

If the first three digits fall within the range of:

001 - 134 contact the Northeastern Program Service Center;
135 - 222 the Mid-Atlantic Program Service Center;
223 - 231 the Southeastern Program Service Center;
232 - 236 the Mid-Atlantic Program Service Center;
237 - 267 the Southeastern Program Service Center;
268 - 302 the Great Lakes Program Service Center;
303 - 315 the Mid-America Program Service Center;
316 - 399 the Great Lakes Program Service Center;
400 - 428 the Southeastern Program Service Center;
429 - 500 the Mid-America Program Service Center;
501 - 504 the Western Program Service Center;
505 - 515 the Mid-America Program Service Center;
516 - 524 the Western Program Service Center;
525 the Mid-America Program Service Center;
526 - 576 the Western Program Service Center;
577 - 584 the Mid-Atlantic Program Service Center;
585 the Mid-America Program Service Center;
586 the Western Program Service Center;
587 the Southeastern Program Service Center; or
700 - 729 the Great Lakes Program Service Center.

Appendix D Supplemental Security Income Claims

1. Addresses for Records

Supplemental Security Income claims records are maintained in district and branch offices until a decision has been made regarding eligibility (see Appendix F). If payment has been awarded, or the appeal period has closed on claims with unfavorable determinations, the claims records are sent to the following locations:

Claims for benefits based on age are maintained in the program service centers (see Appendix A);

Claims for benefits based on disability or blindness are maintained by the Bureau of Disability Insurance (see Appendix B).

2. Regional Planning office for Supplemental Security Income

Appendix G Bureau of Hearings and Appeals

The Bureau of Hearings and Appeals is charged with the responsibility for making decisions on appeals taken above the reconsideration level by claimants for retirement, survivors, disability, supplemental security, medicare, or black lung benefits.

Files for cases awaiting action by the Appeals Council based on the claimants' request for Council review and records of hearings decisions by Administrative Law Judges are maintained at the Bureau headquarters. The address is:

Bureau of Hearings and Appeals
801 North Randolph Street
Arlington, Virginia 22203

Files for cases awaiting hearings or decisions by Administrative Law Judges based on requests for a hearing submitted by claimants are maintained in the appropriate hearing office.

The selection of the office is based on the Region and the District Office Service Area in which the appellant claimant lives. The Regions, the addresses of the Administrative Law Judges and the District Office Service Areas from which the Judges accept cases are listed below. Correspondence should be addressed to the Bureau of Hearings and Appeals, Administrative Law Judge at the appropriate address.

APPENDIX I Availability of Records, Manuals, Etc.

All administrative staff manuals of the Social Security Administration and instruction to staff personnel which contain policies, procedures, or interpretations that affect the public are available for inspection and copying. These manuals are generally not printed in a sufficient quantity to permit sale or other general distribution to the public, but many are maintained at district offices and field offices and may be inspected there (See Appendix F). A complete listing of staff manuals and instructions is published in Social Security Rulings which is available from the Government Printing Office, Washington, D.C. 20402.

The Social Security Act is codified at 42 U.S.C. 301 and the Federal Coal Mine Health and Safety Act may be found at 30 U.S.C. 901.

The Regulations relating to Federal retirement, survivors, and disability insurance and health insurance for the aged, are published in the Code of Federal Regulations under title 20, chapter III, Part 401 et seq.:

A. Part 401 contains Regulation No. 1, Disclosure of Official Records and Information.
B. Part 402, which contained Regulations No. 2, has not been published in the Code beginning with the 1949 edition since Regulations No. 2 applies only to the Social Security Act in effect before 1940.
C. Part 403, which contained Regulations No. 3, has not been published in the Code beginning with the 1965 edition since Regulations No. 3 relates to the period from 1940 to 1950. The extent to which Regulations No. 3 remains in effect is indicated in Sections 404.3(a) of Regulations No. 4.
D. Part 404 contains Regulations No. 4, Federal Old-Age, Survivors, and Disability Insurance (1950-).
E. Part 405 contains Regulations No. 5, Federal Health Insurance for the Aged and Disabled (1965-).
F. Part 410 contains Regulations No. 10, Federal Coal Mine Health and Safety Act of 1969, title IV, Black Lung Benefits (1969-).
G. Part 416 contains Regulations No. 16, Supplemental Security Income (1973-).
H. Part 422 contains Regulations No. 22, Organization and Procedures.

Title 20 of the Code of Federal Regulations (Part 400 to End, revised as of April 1, 1973), can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

Requests for accessing an individual's own records should be directed to the systems managers listed in the foregoing notices. Requests for other records and manuals may be made to: (1) the Director, Office of Information, Social Security Administration, 6401 Security Boulevard, Baltimore, Maryland 21235, or (2) the Information Center Officer, at the Regional Offices of the Department of Health, Education, and Welfare. The locations and service areas of these offices are as follows:

APPENDIX J Social Security Administration Data Security Measures

The confidentiality of records has been a cornerstone of Social Security Administration policy from the very beginning of the agency under the mandate of Title 20, Chapter III, Part 401 of the Code of Federal Regulations issued in 1937 and Section 1106 of the Social Security Act Passed by the Congress in 1939. Data security measures begin with the thorough training of employees in the restrictions against disclosure contained in the Act and the Regulations, the criminal sanctions for unauthorized disclosure, and the procedures used to assure that disclosures authorized by statute and regulation are released to the proper parties. The physical security measures established to safeguard records are discussed below:

1. Manually Maintained Records

Manually maintained records are kept in locked file cabinets or in otherwise secure areas. Access to the records is limited to those employees who require the information contained in the records to perform the duties assigned to them. In most cases, the records are selected for the employees needing access to them by other employees who are specifically charged with the maintenance of the records. This restricts the number of persons authorized to be in the storage areas and facilitates the control over the access to the information contained in the records to those who need it. Those records not handled in this manner are securely stored so that unauthorized individuals may not gain access to them.

2. Automated Records

Entry into the computer rooms in the headquarters complex located in Woodlawn, Mayland is restricted to those employees whose duties require such entry. A special pass containing the employee's photograph is issued to all personnel authorized to enter this area. Marshals are stationed at each entrance to assure that only possessors of the special passes are admitted. Magnetic tape records and records stored on other automated devices are kept in a library to which entry is further restricted by a lock whose opening combination is known only to a select few authorized to enter this area. Access to the information contained in these records is controlled by various manual and automated devices. Only employees who require the information to perform their duties may obtain it.

Some automated records are maintained in program service centers located across the country (See Appendix A). Entrance to the program service center buildings is restricted to employees with building passes. In addition, special passes identify those employees whose duties require entry into the computer rooms. Access to the information contained in these records is also controlled. Only employees who require the information to perform their duties may obtain it.

Data is transmitted from field offices and program service centers to headquarters and return. For the most part, sensitive and urgent traffic is sent over lines leased by the Social Security Administration for its sole use. The remaining traffic sent directly by wire is sent via lines leased by the Federal Government for use of all Federal agencies. Sometimes the length of the record precluudes direct wire transmission and magnetic tape stored on reels must be used. When this occurs, special procedures assure the delivery of the tape reels to the proper location.

Internal computer security is safeguarded by access codes, edit checks, data reformatting and return address codes. These assure that only authorized access to the computer system is permitted, that the particular data requested from the system can be released to the requester, and that control is maintained over the locations to which systems data may be sent.

APPENDIX K

An individual must present sufficient evidence to establish identity in order to obtain information pertaining to him from the Social Security Administration's records.

Requests for disclosure of information may be made in the following ways:

1. In Person--No special documents of identity are required if a request for disclosure of information is made in person. It is expected that documents an individual would normally carry on his person would be sufficient; the following would be acceptable although this list is not intended to be all-inclusive: credit cards, driver's license, motor vehicle registration card, building pass, voter registration cards, and selective service registration certificate. A social security number card is acceptable only when presented with other evidence.

2. Via Mail--An individual requesting disclosure of information from the Social Security Administration's records via mail must provide his name, date of birth, and address in order to establish his identity, plus any additional information required (in the system notice) to access his record within a specific system.

3. Via Telephone--An individual requesting disclosure of information via telephone must furnish the same information as listed in 2 above.

V 4 3 / 1 8 9

SAINT PAUL, MINNESOTA, WORKSHOPS

HOW TO USE THE FEDERAL REGISTER

FOR: Any person who must use the Federal Register and Code of Federal Regulations.

WHAT: In cooperation with the Minnesota State Metropolitan Council of the Twin Cities Area, free public workshop (approximately 2½ hours) to present:

1. Brief history of the Federal Register system.
2. Difference between legislation and regulations.
3. Relationship of Federal Register and the Code of Federal Regulations.
4. Important elements of a typical Federal Register document.
5. An introduction to the finding aids of the FR/CFR system.

WHEN: October 2 and 3, 1978, at 9:00 a.m. (Each session identical)

WHERE: Suite 300, Metro Square Building, Seventh and Robert Streets, St. Paul, Minnesota.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them, as part of the General Services Administration's efforts to encourage public participation in Government actions. There will be no discussion of specific agency regulations.

RESERVATIONS: Call Chuck McDrew, 612-291-6421.

federal register

Area Code 202 Phone 523-3240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

PROCLAMATION 4602

National Farm-City Week, 1978

By the President of the United States of America

A Proclamation

The interdependence of farms and cities is one of the basic strengths of the Nation.

Farm people and city people have long been partners in economic and social progress. Their partnership in the use of land, labor and capital is essential if this country is to have a continuing and adequate supply of safe, wholesome food and an abundance of goods and services and reasonable prices.

To achieve a better mutual understanding of the interdependence that farm and city people bring to one another, and for the strength, well-being and benefit of all Americans, our Nation has traditionally set aside one week in November as Farm-City Week.

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America, do hereby designate the period November 17 through November 23, 1978, as National Farm-City Week.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-seventh day of September, in the year of our Lord nineteen hundred seventy-eight, and of the Independence of the United States of America the two hundred and third.

Jimmy Carter

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[3410-05]

Title 7—Agriculture

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Warehouse Stored Peanut Price Support Regs., Amdt. 1]

PART 1446—PEANUTS

Subpart—General Regulations Governing 1978 and Subsequent Crops, Peanut Warehouse Storage Loans and Handler Operations

CONTRACTS FOR ADDITIONAL PEANUTS FOR CRUSHING OR EXPORT

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

SUMMARY: The purpose of this amendment is to alleviate hardship in situations where producers of 1978 crop additional peanuts have entered into contracts with handlers for crushing or export, or both, prior to June 15, and handlers are unable to perform under the contracts. Since there is no provision in the regulations to cover this situation, the regulations are unduly restrictive and cause inequities under special circumstances where the handler is unable to perform under the contract. This amendment would authorize the parties to agree to the delivery of peanuts by the producers to other handlers under the terms of the contracts, if specifically approved by deputy administrator, State and county operations, ASCS.

EFFECTIVE DATE: September 26, 1978.

FOR FURTHER INFORMATION CONTACT:

Dalton Ustynik (ASCS), 202-447-9224, P.O. Box 2415, Washington, D.C. 20013.

SUPPLEMENTARY INFORMATION: This amendment will be beneficial to producers since it will enable producers to work out arrangements for other handlers to take delivery of peanuts under the terms of the contracts. It is essential that this amendment be made effective as soon as possible since farmers have harvested and are now marketing 1978 crop peanuts. Accordingly, it is hereby found and determined that compliance with the procedure for notice and public participation would be impracticable and contrary to the public interest. Therefore, this amendment is being issued without compliance with such procedure.

FINAL RULE

7 CFR 1446.5 is amended by revising paragraph (a) to provide that contracts for additional peanuts cannot be sold or traded except as specifically authorized by deputy administrator, State and county operations, ASCS. The amended paragraph (a) reads as follows:

§ 1446.5 Contracts for additional peanuts for crushing or export.

(a) *Contracts between handlers and producers.* Handlers who have a U.S. address may contract with producers on form CCC-1005 to buy additional peanuts from the producers for crushing or export, or both. The type and quality of each lot of contract peanuts delivered under contract shall be determined by an inspector when such peanuts are received. All such contracts shall be completed and submitted to the county office for approval prior to June 15 of the year in which the crop is produced. Such contracts cannot be sold or traded: *Provided,* That if a handler is unable to perform under such contracts because of conditions beyond his control, including but not limited to insolvency, bankruptcy, death, or destruction of warehouse facilities, the handler and the producers may agree to the delivery of the peanuts to other handlers under the terms of the contract, if specifically authorized by the deputy administrator, State and county operations, ASCS. The county office shall summarize contracts and send such summary to the association through the State office. Contracts shall include at least the following provisions:

(1) Name and address of operator, State and county code, and farm serial number of the farm.

(2) Name, address of handler, and registration number.

(3) Amount of segregation 1 peanuts in pounds by type, not to exceed the difference between farm base production poundage and the sum of the farm poundage quota and the quantity of additional peanuts covered by prior contracts for additional peanuts.

(4) Contract price shown as a percentage of quota peanut support rate.

(5) Requirement for disclosure by producer of any liens on peanuts on date of delivery.

(6) A provision that the producer shall not be liable for failure to deliver against such contract above the actual production of such type and quality on the farm: *Provided,* Such physical loss of production resulted solely from an external source such as drought, fire, lightning, inherent explosion, windstorm, tornado, flood, or other acts of God.

(7) Signature of farm operator and producer if different than operator.

(8) Signature of handler or authorized agent.

(9) The following agreement by the handler:

I agree that I will either export or crush the peanuts delivered under this contract by August 31 following the calendar year in which the crop is grown or contract with another handler to export or crush such peanuts by such date, as provided in Part 1446, Subpart—General Regulations Governing 1978 and Subsequent Crops Peanut Warehouse Storage Loans and Handler Operations.

(Secs. 4 and 5, 62 Stat. 1070, as amended (15 U.S.C. 714 b and c); secs. 101, 108, 401, 63 Stat. 1051, as amended (7 U.S.C. 1441, 1421); sec. 359, 52 Stat. 31, as amended (7 U.S.C. 1359).)

Signed at Washington, D.C., on September 22, 1978.

RAY FITZGERALD,

Executive Vice President, Commodity Credit Corporation.

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

PART 341—CERTIFICATE OF CITIZENSHIP

Suspension of Regulatory Provision

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Final rule, extension of suspension of rule.

SUMMARY: This notice further suspends until April 1, 1979, the special procedure provided in 8 CFR 341.1(b) which permits certain naturalization applicants to make application for certificates of citizenship for their children who are under 16 years of age and will derive citizenship under section 320 or 321 of the Immigration and Nationality Act, in advance of the naturalization of the parents. This further suspension is necessitated by manpower considerations in the Service.

EFFECTIVE DATE: October 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Lowell R. Palmes, Deputy Assistant Commissioner for Naturalization, Immigration, and Naturalization Service, 425 I Street NW., Washington, D.C. 20536, telephone, 202-376-8459.

SUPPLEMENTARY INFORMATION: On September 1, 1970, the Service implemented a procedure whereby applicants for naturalization who believed that their children under 16 years of age would derive U.S. citizenship under section 320 or 321 of the Immigration and Nationality Act could apply for certificates of citizenship on behalf of such children in advance of the parents' naturalization. However, due to manpower considerations which arose subsequently, it became necessary to suspend the operation of this procedure by notices published in the FEDERAL REGISTER October 21, 1974 (39 FR 37355), September 15, 1975 (40 FR 42532), March 17, 1976 (41 FR 11172), October 1, 1976 (41 FR 43393), March 28, 1977 (42 FR 16378), September 26, 1977 (42 FR 48869), and March 31, 1978 (43 FR 13494). The provisions now stand suspended to October 1, 1978.

Due to the continuing manpower considerations which resulted in the temporary suspension of the special procedure provided by 8 CFR 341.1(b) as set forth in the above-cited prior notices, it is necessary to suspend the provisions of § 341.1(b) for an additional period, until April 1, 1979, unless manpower considerations render feasible or practicable their reinstitution at an earlier date.

In the light of the foregoing, the provisions of 8 CFR 341.1(b) are hereby suspended until April 1, 1979, unless the suspension is revoked prior thereto by notice published in the FEDERAL REGISTER.

Dated: September 25, 1978.

LEONEL J. CASTILLO,
Commissioner of Immigration and Naturalization.

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION[1]

[Docket No. ERA-R-77-4]

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

PART 212—MANDATORY PETROLEUM PRICE REGULATIONS

Public Hearing on Entitlements Program Adjustments for California Crude Oil and Request for Comments

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of public hearing and opportunity for submission of written comments.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces that it will hold a public hearing and receive written comments regarding the effect of the amendments to the entitlements program and other measures which were adopted in June 1978 to provide greater incentives for refiners to purchase California crude oil at prices that will enhance the potential for maximum domestic crude oil production.

DATES: Requests to speak due on or before October 10, 1978, 4:30 p.m. Hearing: October 18, 1978, 9:30 a.m. Comments due on or before October 31, 1978, 4:30 p.m.

ADDRESSES: Send requests to speak to: Department of Energy, Region IX, Attn: Robert Laffel, 111 Pine Street, Third Floor, San Francisco, Calif. 94111. Send comments to: Docket No. ERA-R-77-4, Office of Public Hearings Management, Economic Regulatory Administration, Room 2313, 2000 M Street NW., Washington, D.C. 20461. Hearing location: Long Beach City Hall, City Council Chambers, Plaza Level, 333 West Ocean Boulevard, Long Beach, Calif. 90802.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

I. *Background.*
II. *Specific comments requested.*
III. *Public hearing and comment procedures:*
A. Written comments.
B. Public hearing.

I. BACKGROUND

On June 15, 1978, we adopted certain amendments to the entitlements program with respect to crude oil produced in California (43 FR 26540, June 20, 1978). The purpose of these amendments is to provide greater incentives for refiners to purchase price-controlled California crude oil at prices that will enhance the potential for maximum domestic crude oil production, by better equalizing the afterentitlements costs to refiners of controlled California crude oil and uncontrolled crude oils. Under the amendments, refiners of lower tier and upper tier crude oil prouced in California receive additional entitlement benefits which are graduated by reference to the gravity of the crude oil so as to provide greater benefits for the lower gravity crude oils. In addition, the regulatory provisions previously in effect for California crude oil were amended to spread the burden of offsetting the increased costs associated with the entitlement benefits for California crude oil among all participants in the entitlements program on a nationwide basis.

[1] Editorial Note: Chapter II will be renamed at a future date to reflect that it contains regulations administered by the Economic Regulatory Administration of the Department of Energy.

At the same time, the DOE announced that it was adopting expedited procedures to provide exception relief to refiners outside California to make it economical for them to purchase California crude oil and transport it to their refineries for processing. In addition, the DOE announced that amendments would be adopted to the Department of Commerce's export regulations to allow increased export of surplus residual fuel oil on the west coast, thus allowing refineries to increase their crude oil runs. These amendments were adopted on August 16, 1978 (43 FR 36618, August 18, 1978).

These measures were the latest in a series of actions by the DOE, and previously the Federal Energy Administration (FEA), which have addressed the special problems that California crude oil producers have experienced during the period that the pricing and allocation of domestic crude oil have been regulated under the Emergency Petroleum Allocation Act of 1973 (EPAA, Pub. L. 93-159). Throughout this period, a number of factors, including the operation of the allocation and price regulations adopted under the EPAA as well as California market conditions and environmental constraints, have contributed to the disincentives for refiners to purchase California crude oil (particularly low-gravity, or "heavy" crude oil) from producers at the current maximum lawful prices. In recognition of this situation and its potential for inhibiting maximum production of domestic crude oil, the FEA and the ERA have adopted, over the past several years, certain amendments to the allocation and price regulations with respect to California crude oil, which are described briefly below.

On October 29, 1976, pursuant to section 122 of the Energy Conservation and Production Act (Pub. L. 94-385), the FEA amended the price regulations to increase the allowable ceiling price for heavy lower tier California crude oil (41 FR 48324, November 3, 1976). The purpose of these amendments was to permit the sale of heavy California crude oil at prices more nearly approximating current market valuations of gravity price differentials in order to maintain production incentives for such oil.

After the adoption of the October 1976 amendments, the FEA obtained data indicating that producers of heavy lower tier California crude oil generally were not receiving the intended benefits of the increased ceiling price and that such crude oil actually was selling for substantially less than the allowable ceiling price. To alleviate this situation, on March 17, 1977, the FEA proposed amendments to the entitlements program under which refiners purchasing heavy lower tier crude oil produced in California would have a portion of the entitlement obligation ordinarily associated with the purchase of controlled "old" crude oil reduced (42 FR 15419, March 22, 1977). The proposed measure was designed to remove any disincentives for refiners to purchase heavy lower tier California crude oil at the full ceiling price.

On December 8, 1977, we adopted amendments pursuant to the March 17, 1977, proposal that reduced refiners' entitlement obligations under the entitlements program for low-gravity (25.9° API gravity or below) lower tier crude oil produced in California by $1.74 per barrel (42 FR 62897, December 14, 1977). The intent of this adjustment was to permit the purchase price of heavy lower tier California crude oil to rise by lowering its after-entitlements acquisition cost and so encourage continued production of crude oil that otherwise was in danger of being shut in. The cost of this adjustment was offset by imposing increased entitlement burdens on imported and Alaska North Slope crude oil processed in California refineries.

In continuing to monitor developments in the California crude oil market, however, we received information indicating that, while some postings for California crude oil had increased in response to the December 8 amendments, in general prices for California crude oil remained depressed and substantial volumes of crude oil production continued to be threatened with imminent shut-in. Accordingly, on February 22, 1978, we issued a further notice of proposed rulemaking and public hearing on the issues concerning California crude oil (43 FR 8150, February 28, 1978) which led to the adoption in June of the final amendments discussed above.

II. SPECIFIC COMMENTS REQUESTED

We are issuing this notice in order to obtain comments and data concerning the effects of regulatory actions taken to date relating to the west coast crude oil situation. The information that we receive in response to this notice should enable us to evaluate the impact of these actions and determine whether they are achieving the objective of providing incentives for maximizing the production of California crude oil. Accordingly, we request that you submit any comments, views, or arguments that you may have concerning the operation of the June 15 and earlier regulatory actions. In addition, we would like to receive, insofar as possible, specific empirical data regarding the factors currently at work in the California crude oil market.

In particular, but without limiting the scope of the information requested, we solicit your views on the following questions:

1. To what extent have the price postings for California crude oil increased to ceiling or near-ceiling levels since the June 15 amendments were adopted?

2. If California crude oil prices have not reached ceiling levels, what factors are responsible for this situation?

3. What volumes of California crude oil currently are shut in or are in danger of being shut in?

4. What factors account for the fact that stripper well crude oil produced in California sells at a price substantially below that of stripper well crude oil of the same quality produced east of the Rocky Mountains?

5. To what extent have refineries increased their runs of price controlled California crude oil as a result of the reduction in entitlements penalties for such oil adopted in the June 15, 1978, rulemaking?

6. What plans or projects are in progress to increase production and refining capacity of heavy, high-sulphur California crude oil, and what regulatory obstacles remain that inhibit such expansions?

7. Are refined product supplies adequate, less than adequate, or more than adequate to meet demand?

8. What additional regulatory or nonregulatory actions should be undertaken by the DOE to further the objectives set forth in the June 15 notice?

III. PUBLIC HEARING AND COMMENT PROCEDURES

A. WRITTEN COMMENTS

You are invited to participate in this proceeding by submitting written views, data, or arguments with respect to the matters discussed in this notice. Comments should be submitted to the address indicated in the "Addresses" section of this notice and should be identified on the outside envelope with the designation "California Crude Oil." Twenty copies should be submitted. All comments received will be available for public inspection in the DOE Reading Room, Room 2107, Federal Building, 12th and Pennsylvania Avenue NW., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday.

You should identify separately any information you consider to be confidential and submit it in writing, one copy only. We reserve the right to determine the confidential status of the information and to treat it according to our determination.

UMI
V 43/189
SE 28 78

B. PUBLIC HEARING

1. *Procedure for requesting participation.* The time and place of the public hearing are indicated in the "Dates" and "Addresses" sections of this notice. If necessary to present all testimony, the hearing will be continued to 9:30 a.m. of the first business day following the date of the hearing.

You may make a written request for an opportunity to make an oral presentation at the hearing. The request should contain a phone number where you may be contacted through the day before the hearing. Since it may be necessary to limit the number of persons making such presentations, you should be prepared to describe your interest in this proceeding; if appropriate, why you are a proper representative of a group or class of persons that has such an interest; and to give a concise summary of your proposed oral presentation.

The DOE will notify each person selected to be heard before 4:30 p.m. on October 12, 1978. Persons selected to be heard should bring 100 copies of their statement to the hearing address indicated in the "Addresses" section of this notice on the day of the hearing.

2. *Conduct of the hearing.* We reserve the right to select the persons to be heard at this hearing, to schedule their respective presentations, and to establish the procedures governing the conduct of the hearing. The length of each presentation may be limited, based on the number of persons requesting to be heard.

An ERA official will be designated to preside at the hearing. This will not be a judicial or evidentiary-type hearing. Only those conducting the hearing may ask questions, and there will be no cross-examination of persons presenting statements. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

You may submit questions to be asked of any person making a statement at the hearing to the address indicated above for requests to speak before 4:30 p.m. on October 16, 1978. You may also submit any questions, in writing, to the presiding officer at the time of the hearing. The ERA or, if the question is submitted at the hearing, the presiding officer, will determine whether the question is relevant, and whether the time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made, and the ERA will retain the entire record of the hearing, including the transcript, which will be made available for inspection at the Freedom of Information Office, Room 2107, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. You may purchase a copy of the transcript from the reporter.

Issued in Washington, D.C., on September 21, 1978.

DAVID J. BARDIN,
Administrator, Economic Regulatory Administration.

Title 13—Business Credit and Assistance

CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Revision 6, Amdt. 20; Revision 9, Amdt. 14]

PART 120—BUSINESS LOAN POLICY

PART 122—BUSINESS LOANS

Improvements to SBA Blanket Guaranty

AGENCY: Small Business Administration.

ACTION: Final rule.

SUMMARY: These revised rules: (1) Allow lenders to use quarterly status report, (2) initiate an automated billing system to collect guaranty fees from lenders, (3) extend the time for automatic termination of a guaranty agreement to 1 year after maturity, and (4) eliminate case-by-case notifications to SBA for uncured defaults. The circumstances which created the need for these amendments included involuntary cancellation of guaranty agreements because of inadequate time frames and misunderstandings by personnel, an outdated billing system which was incapable of proper servicing, and a notification procedure which did not work well. These amendments are intended to correct these problems.

EFFECTIVE DATE: October 1, 1978.

ADDRESS: John M. Trask, Jr., Associate Administrator for Finance and Investment, Small Business Administration, 1441 L Street NW., Washington, D.C. 20416, 202-653-6632.

FOR FURTHER INFORMATION CONTACT:

Timothy F. O'Leary, Chief, Programs and Systems Division, 1441 L Street NW., Washington, D.C. 20416, 202-653-6429.

SUPPLEMENTARY INFORMATION: The Small Business Administration (SBA) has revised the guaranty agreement (deferred participation) to remedy guaranty fee problems, to place greater reliance on participating lenders and to create a simplified and effective computer supported reporting system for the lenders. Participating lenders will be permitted to make ministerial adjustments in the terms and conditions of a loan without prior consent of SBA. The revised regulations, which implement the new agreement, also provide that: (1) Lenders use an SBA generated quarterly status report instead of the staggered annual reporting system, (2) an automated billing system will be used in collecting guaranty fees from lenders, (3) the possibility of automatic involuntary cancellations will be lessened because the time for automatic termination is extended from 60 days to 1 year after maturing, and (4) case-by-case default notifications are eliminated for uncured defaults occurring on or after October 1, 1978. The new guaranty agreement will be effective for all guaranty loans on and after October 1, 1978. The amended regulation takes into account the existence of loans outstanding prior to October 1, 1978, as well as loans made on and after such date. Thus, in collecting guaranty fees and in the disbursing and servicing of guaranteed loans the regulations are separated into sections applicable to loans made and servicing actions required prior to October 1, 1978, and on and after such date.

PART 120

With respect to guaranty fees, § 120.3(b)(1)(i) retains the present rule concerning loan guarantees which were approved prior to January 1, 1973—the guaranty fee is one-fourth of 1 percent per annum. Section 120.3(b)(1)(ii) retains the present rule with respect to loan guarantees which were approved between January 1, 1973, and October 1, 1978—the guaranty fee continues to be 1 percent, payable at first disbursement of the loan by the lender. The regulation also retains the present rule with respect to short term loans, viz, those with a maturity of up to 12 months—the guaranty fee is one-quarter of 1 percent per annum of the guaranteed portion.

The new provision, § 120.3(b)(1)(iii), changes the guaranty fee payment for loans approved on and after October 1, 1978—the fee is a one-time 1 percent of the guaranteed portion payable within 90 calendar days of SBA's approval, not disbursement. If the lender does not pay the fee within this time period, an automatic billing sequence will be initiated. These are substantial changes more favorabale to the lender. Under the old rule, the lender was to pay the guaranty fee within 5 days of first disbursement. Some guarantees were canceled because of inadvertence and error. The new system will be of substantial help to participating lenders because of the positive notification procedures built into the system. Even if, with all the safeguards, the guaranty is canceled, SBA may reinstate the guaranty pursuant to the standards now published in § 120.3(b)(1)(iii); no individual notice of reinstatement will be published in the FEDERAL REGISTER. If the lender has made no disbursement, SBA, at lender's written request, will refund the guaranty fee upon the lender's written request for the refund and for cancellation of the loan authorization.

PART 122

§ 122.10(b)(1)(i) retains the notification of uncured default provisions relating to loans made prior to October 1, 1978. Thus, with respect to such loans, the 45-day notification rule concerning uncured defaults will still be applicable. SBA will not pay accrued interest to lender from the date of default to date SBA receives written notice of the default, where SBA receives written or actual notice more than 45 days from the date of uncured default. However, the regulation is clarified by defining "uncured default" so that repayments after the due date by the borrower from its own resources will cure the default on the due date. Additional borrowing from the lender to make such repayments will not constitute payment from the borrower's own resources. The regulation also retains the present rules on reliance upon postmarks.

The quarterly report system in § 122.10(b)(1)(ii) becomes effective October 1, 1978, and will be a combined listing of all outstanding guaranteed loans with each participating lender. Accurate delinquency information from the lender on the quarterly list of outstanding loans will replace the individual notice of default previously required except as to those loans with uncured default beginning before October 1, 1978. In loans where borrower's default in payment occurred before October 1, 1978, and continues uncured after that date, then the old notification requirement in § 122.10(b)(1)(i) will continue to apply. However, if payments after October 1, 1978, from the borrower's own resources cure all defaults prior to that date, then only the new reporting requirements in § 122.10(b)(1)(ii) will be applicable.

In new § 122.10(b)(1)(iv) the former contractual requirement, that the demand to purchase the guaranteed portion had to be made unpon SBA within 60 days of the loan's maturity, has been changed to permit the demand within 1 year of maturity for all guaranteed loans that mature on or after October 1, 1978. If the date of maturity occurs before October 1, 1978, the old 60-day rule will continue to apply to any such loan; otherwise the new 1 year rule will be applicable. The guaranty also continues if a request to extend the maturity is received by SBA within 1 year after maturity, even if SBA's approval of the extension request is made by SBA more than 1 year after maturity. However, if SBA rejects the extension request, the lender will have 6 months after SBA's denial within which the lender can demand purchase of the guaranteed portion.

The lender will receive additional freedom of action without the consent of SBA under the provisions of new § 122.20(c)(2). The present rule is retained in § 122.20(c)(1), and these provisions will continue to govern applicable loan administration actions by lenders prior to October 1, 1978. Loan administration actions by lenders on or after October 1, 1978, will be governed by the new § 122.20(c)(2) regardless whether the loan was approved or disbursed before or after October 1, 1978. It is the date the lender takes the servicing action (e.g., releases collateral) that determines which subsection in § 122.20(c) will be applicable. Under the new subsection (2) the lender can change, without SBA's consent, the terms of a loan instrument which are not substantial or which would not confer a preference in favor of the lender. This new subsection also greatly enlarges the lender's unilateral authority to release collateral by increasing said authority to 20 percent (cumulatively) of the original loan amount from the prior contractual limit of 10 percent of the outstanding loan balance.

Finally, the deletion of § 122.10(b)(4) is a technical correction. It states an old rule that under the blanket guaranty program the loan had to be in default 90 days before SBA had the option to purchase the guaranteed portion. This was replaced by the current rule stated in § 122.10(b)(2) that SBA has the right to purchase at any time the guaranteed portion of any loan.

SBA has determined that publication of this regulation as a proposed rule for public comment is impractical, unnecessary, and contrary to the public interest. The primary objective is to increase financial assistance to small business concerns by improving the contractual arrangements with private lenders for guaranteed loans. This requires close coordination for the development and execution of the new guaranty agreement with the effective date of the new final regulation. Furthermore, the adoption of the final rule will make the improvements in participation for private lenders effective and available at an earlier date without adversely affecting any other person or organization. Interested persons are invited to submit written comments, suggestions or objections regarding these regulations. Material thus submitted will be evaluated and acted upon in the same manner as if this document were a proposal.

Accordingly, pursuant to the authority of section 5(b)(6) of the Small Business Act (15 U.S.C. 634), parts 120 and 122, chapter 1, title 13 of the Code of Federal Regulations, are amended as follows:

1. Section 120.3(b) is amended to read as follows:

§ 120.3 Terms and conditions of business loans and guarantees.

* * * * *

(b) *Fees and interest rates.*—(1) *Guaranty fees.* In guaranteed loans (those made by a financial institution with which SBA has entered into an agreement to guarantee as set forth in part 122 of this chapter), a guaranty fee shall be payable by the financial institution to SBA for such agreement. The guaranty fee shall be paid by the participating lender and not charged to the borrower. Receipt or acceptance of the guaranty fee by SBA shall not waive any right of SBA arising from lender's negligence, misconduct, or violation of any provision of these regulations or of the guaranty agreement.

(i) For guaranties approved prior to January 1, 1973, the guaranty fee is one-fourth of 1 percent per annum of the portion of the loan which SBA has guaranteed.

(ii) For guaranties approved between January 1, 1973, and October 1, 1978, the guaranty fee is set on a one-time basis of 1 percent of the authorized and guaranteed portion of the loan, and is payable at first disbursement by the lender. For loans made with a maturity up to 12 months, the guaranty fee is one-quarter of 1 percent of the guaranteed portion payable by the lender at the time of SBA's approval of the loan. Longer maturities or extensions are to be prorated on the basis of one-quarter of 1 percent per annum, payable to SBA at the time of SBA'a approval: *Provided, however,* That no additional guaranty fee is payable when an extension is for the sole purpose of effecting collection of the then outstanding principal balance and where there are not further loan advances.

(iii) For guaranties approved on and after October 1, 1978, the onetime guaranty fee shall be one (1%) percent of the authorized and guaranteed por-

V 43 / 189 SE 28 78 UMI

tion of the loan, and shall be payable by the lender within 90 calendar days of the date of the SBA's approval as stated in the loan authorization. If the guaranty fee is not paid by the lender within this time period, SBA will send the lender a written notice stating that the guaranty will be terminated if SBA does not receive the fee within the time period stated in the notice. If the lender does not pay the guaranty fee within the stated time period, then the guaranty on the loan will be automatically canceled. SBA, at its sole discretion, may reinstate the guaranty on the loan where SBA determines that the lender's failure to pay the guaranty fee before cancellation was not intentional and not part of a recurring pattern: *Provided, however,* That SBA will not reinstate the guaranty if the fee remains unpaid at the time of borrower's default in payment of principal or interest due on the loan, and if such default in payment continues uncured, or if there has been a substantially adverse change in borrower's condition. SBA shall refund the guaranty fee where the lender has not made any disbursement of the guaranteed loan and lender makes written request for the return of the guaranty fee and cancellation of the loan authorization. For loans with a maturity not in excess of 12 months, the one-time guaranty fee shall be one-quarter of 1 percent of the guaranteed portion of the loan.

• • • • •

2. Section 122.10(b) is amended to read as follows:

§ 122.10 Guaranteed loans.

• • • • •

(b) *Simplified blanket guaranty loans.* (1) Simplified blanket guaranteed loans are loans made by a lender under a guaranty agreement between SBA and the lender which is applicable to future loans to small business concerns as authorized by SBA. Under such a guaranty agreement, SBA is obligated to purchase not more than 90 percent of the outstanding balance of each authorized loan together with accured interest, in the event the borrower has defaulted in payment of any installment of principal or interest when due and if the default continues uncured for more than 60 calendar days, unless SBA agrees otherwise. SBA also has the right to purchase at any time the guaranteed percentage of any loan in the interest of the Government or the borrower. Any eligible loan which the lender would make only with the guaranty of SBA may be authorized by SBA under the guaranty agreement.

(i) If an uncured default occurs prior to October 1, 1978, written notification of such uncured default shall be received by SBA within 45 calendar days after such default. (Uncured default means nonpayment of principal or interest on the due date which remains uncured by subsequent payments from the borrower's own resources, but not from additional borrowing from the lender.) Where SBA receives written notice of uncured default after 45 calendar days from the date of default, the lender shall not be entitled to receive at any time accrued interest on the guaranteed portion of unpaid principal of the loan from the date of uncured default by the borrower to the date of receipt by SBA of written notice of said default: *Provided, however,* That SBA shall not purchase the guaranteed percentage unless SBA shall first determine that said delay in notification of default did not cause any substantial harm to the Government. Late receipt or nonreceipt of notice due within 45 calendar days by SBA will be excused only where written notification was sent by registered or certified mail not later than the 5th day, or by mailgram not later than the 3d day, prior to the 45th day after the original date of the uncured default. The evidence to establish the date of mailing shall be the U.S. Postal Service postmark on the wrapper or on the original receipt from the U.S. Postal Service. The evidence to establish the date of transmission by mailgram shall be the automatic date indication appearing on the mailgram. If the postmark in the case of mail or the automatic date indication in the case of a mailgram is illegible, the notification date shall be established by the best evidence available. The lender shall be responsible to establish and to retain evidence of delivery of the required written notification to SBA.

On and after October 1, 1978, lenders shall be required to report in writing to SBA the repayment status, classification (paid in full, deferred, liquidation, etc.) and principal balance (outstanding or undisbursed) of each guaranteed loan on a quarterly basis. This quarterly report shall apply to all guaranteed loans, provided uncured default by the borrower did not begin before October 1, 1978. Where the uncured default occurred prior to October 1, 1978, and remained uncured on such date, the provisions in the preceding subparagraph (i) apply. Each lender shall complete and forward to SBA, within 20 days after the end of each quarterly period, a status report which shall list each loan guaranteed by SBA and its status as current or delinquent. SBA shall not be obligated to purchase the guaranteed percentage unless SBA shall first determine that any failure by lender to provide timely and accurate quarterly status information caused no substantial harm to the Government.

(iii) SBA shall be released from any obligation to purchase its share of a guaranteed loan if the lender has not substantially complied with all of the provisions of these regulations and the guaranty agreement. Purchase by SBA of its guaranteed share shall not waive any right of SBA arising from lender's negligence, misconduct, or violation of any provision of these regulations or of the guaranty agreement.

(iv) As to any guaranteed loan approved by SBA that matures on or after October 1, 1978, SBA shall not be obligated to purchase the guaranteed portion where the demand for such purchase, or a request to extend the loan's maturity, is not received by SBA within 1 year after maturity of the note: *Provided, however,* That if SBA rejects the request to extend the loan the lender shall have 6 months from the date of such denial to demand that SBA purchase the guaranteed portion of the loan.

• • • • •

3. Section 122.10(b) is amended by deleting subsection (4):

§ 122.10 Guaranteed loans.

• • • • •

(b) simplified blanket guaranty loans.

• • • • •

(4) [Delete]

• • • • •

4. Section 122.20(c) is amended to read as follows:

§ 122.20 Loan administration.

• • • • •

(c) In guaranteed loans:

(1) Prior to October 1, 1978, the lender shall not, without the prior written consent of SBA: (i) Make or consent to any alterations in the terms of the note or related loan instruments; (ii) make or consent to any release, substitution, or exchange of collateral, except for simplified blanket guaranty loans, as stated on SBA form 750 then in force; (iii) accelerate the maturity of the note; (iv) sell, assign, or transfer the note or related loan instruments; (v) sue upon the note or related loan instruments; (vi) waive or agree to waive any claim against borrower or any guarantor, standby creditor, or other obligor in connection with the loan; (vii) directly or indirectly charge or receive any bonus, fee, commission, or other payment or benefit in connection with the making or servicing of the loan, except reimbursement for charges or expenses incurred, or compensation for actual services rendered (see also §§ 120.3(b) (5) and (6)); or (viii) increase the amount of any prior lien held by the lender on property securing an SBA-guaranteed loan.

(2) On or after October 1, 1978, the lender shall not, without the prior written consent of SBA: (i) Make or consent to any substantial alteration in the terms of any loan instrument; (ii) make or consent to releases of collateral having a cumulative value, as reasonably determined by the holder of the note, which is more than 20 percent of the original loan amount; (iii) accelerate the maturity of any note; (iv) sue upon any loan instrument; (v) waive any claim against any borrower, guarantor, obligor, or standby creditor arising out of any loan instrument; (vi) directly or indirectly charge or receive any bonus, fee, commission, or other payment or benefit in connection with the making or servicing any loan, except reimbursement for charges or expenses incurred, or compensation for actual services rendered (see also §§ 120.3(b) (5) and (6)); or (vii) increase the amount of any prior lien held by the lender on property securing an SBA-guaranteed loan. For the purposes of this subparagraph, "substantial" includes, but is not limited to, increases in principal amount or interest rate or any action that benefits or confers a preference on the holder.

CHAPTER III—ECONOMIC DEVELOPMENT ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 303—ECONOMIC DEVELOPMENT DISTRICTS

Extension of Time To Comply With the Private Citizen Representation Requirement

AGENCY: Economic Development Administration (EDA), Department of Commerce.

ACTION: Interim rule.

SUMMARY: This rule revises the regulation which requires certain district organizations to comply with the representation of private citizens requirement by May 1, 1978. EDA is making this change because it is currently reconsidering the amount of representation that private citizens must have on district organizations. The effect of this rule is to postpone the date by which district organizations must comply with this requirement until October 1, 1979, in order to give EDA time to conclude its deliberations.

DATES: Effective date: September 28, 1978. Comments by: October 30, 1978.

ADDRESSES: Send comments to: Assistant Secretary for Economic Development, U.S. Department of Commerce, Room 7800B, Washington, D.C. 20230.

FOR FURTHER INFORMATION CONTACT:

Information on Regulations: James F. Marten, U.S. Department of Commerce, Room 7009, Washington, D.C. 20230, 202-377-5441.

SUPPLEMENTARY INFORMATION: EDA is currently reconsidering the requirement of 13 CFR 303.4(c)(3) that one-third of the members of the governing boards of economic development districts must be private citizens. While EDA has not decided whether to change the requirement at this time, it will continue for the next few months to reconsider the requirement along with other economic development district organizational provisions of § 303.4. Under provisions of Executive Order 12044, the "EDA Regulatory Agenda of July 15, 1978" has tentatively scheduled final revised regulations on district organizations by January 25, 1978. Currently, § 303.4(a)(2) of 13 CFR requires compliance with the one-third private citizen provision no later than October 1, 1978. In that compliance with § 303.4(c)(3) will require districts to make changes in the composition of their governing boards over the course of the next several months, EDA believes it is unfair to require them to make these changes while it is considering modifying that requirement. In order to give EDA time to reconsider this requirement and to complete the required steps for rulemaking and thereby to avoid burdening the districts with possibly needless reorganization of their boards, EDA is issuing this interim rule to extend the time of compliance of § 303.4(a)(2) until October 1, 1979.

During this stay of implementation of § 303.4(c)(3), EDA will designate new economic development districts under 13 CFR 303.2 which meet all other requirements except § 303.4(c)(3). Such designations will be made with the understanding that EDA may issue final revised regulations requiring specific percentages of private citizen representation. Should EDA issue such final regulations, EDA will allow districts a grace period of 1 year after publication to come into compliance with the requirement.

Because this rule relates to EDA grant and loan programs, it is exempted from the notice and comment procedures described in section 553 of the Administrative Procedure Act (5 U.S.C. 553). However, in the spirit of the public policy set forth in that Act, interested persons may submit written suggestions regarding this amendment to the above address.

Due to the technical nature of this rule, EDA has determined that this document does not constitute a significant regulation under Executive Order 12044 and that it is exempt from the procedural requirements imposed on significant regulations by that order. EDA hopes to publish new proposed regulations regarding organizational requirements for economic development districts around October 27, 1978. The private citizen representation requirement, as well as all other requirements currently found at 13 CFR 303.4, will be subject to the procedural requirements of Executive Order 12044 at that time.

Accordingly, 13 CFR 303.4 is amended to read as follows:

§ 303.4 District organization.

(a) • • •

(2) Each development organization shall comply with the representation requirement set forth in paragraph (c)(3) of this section no later than October 1, 1979.

• • • • •

(Sec. 701, Pub. L. 89-136, 79 Stat. 570 (42 U.S.C. 3211); Department of Commerce Organization Order 10-4, as amended (40 FR 56702, as amended).)

Dated: September 20, 1978.

ROBERT T. HALL,
Assistant Secretary for Economic Development.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

V 43 / 189 SE 28 78

[Docket No. 15131; Amdt. No. 36-8]

PART 36—NOISE STANDARDS: AIRCRAFT TYPE AND AIRWORTHINESS CERTIFICATION

Noise Limits and Acoustical Change Requirements for Subsonic Transport Category Large Airplanes and Turbojet Powered Airplanes: Correction to Minimum Thrust Cutback Altitudes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Correction to final rule.

SUMMARY: This action corrects amendment 36-8 to part 36 of the Federal Aviation regulations published on March 2, 1978 (43 FR 8722). The corrected provision prescribes the minimum altitude at which thrust may be reduced during takeoff noise tests for certain airplanes powered by turbojet engines with high bypass ratios, which were previously type certificated under the stage 2 noise limits of part 36. The effect of this correction is to apply to these "Stage 2" airplanes the requirements applicable to new type design ("Stage 3") airplanes. This action only affects approvals for voluntary changes in type design which might increase noise levels of the affected Stage 2 airplanes and is necessary to avoid and unintended effect of amendment 36-8.

DATES: Effective date—September 28, 1978. Compliance date—Same as amendment 36-8 (Apr. 3, 1978).

FOR FURTHER INFORMATION CONTACT:

Richard Tedrick, Program Management Branch (AEQ-220), Environmental Technical Regulatory Division, Office of Environmental Quality, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-755-9027.

SUPPLEMENTARY INFORMATION:

Synopsis

On March 2, 1978, the FAA published amendment 36-8 to the Federal Aviation regulations (FAR's), which became effective April 3, 1978 (43 FR 8722). This action corrects the applicability provisions of § C36.7(b) of appendix C of FAR part 36 (14 CFR part 36) to avoid an unintended effect of the amendment as adopted. Those provisions, as amended by that amendment, read—

(b) • • •

(1) For Stage 1 or Stage 2 airplanes the following apply:

• • • • •

(2) For Stage 3 airplanes the following apply:

• • • • •

As corrected by this action, those provisions read—

(b) • • •

(1) For Stage 1 airplanes and for Stage 2 airplanes that do not have turbojet engines with a bypass ratio of 2 or more, the following apply:

• • • • •

(2) For Stage 2 airplanes that have turbojet engines with a bypass ratio of 2 or more and for Stage 3 airplanes, the following apply:

• • • • •

Discussion

Amendment 36-8 amended the aircraft noise standards for certain civil subsonic turbojet airplanes and large transport category airplanes: (1) To prescribe amended "Stage 3" noise limits for new type design airplanes; (2) to limit noise level increases of certain older type design airplanes, that were previously type certificated under the "Stage 2" noise limits of part 36, if their designs are changed; (3) to amend the noise measuring points; and (4) to amend the minimum altitude above which power or thrust may be reduced ("minimum cutback altitudes") during the takeoff noise test. This latter provision is corrected by this action. Amendment 36-8, including this correction to that amendment, is based on proposals contained in several notices of proposed rulemaking, including notice Nos. 75-37 (40 FR 51476; Nov. 5, 1975) and 75-37C (41 FR 47375; Oct. 28, 1976). As discussed in the preamble to amendment 36-8, that amendment (and this correction) does not prejudice or prejudge FAA consideration of additional proposed rules contained in notice No. 76-22 (41 FR 47375; Oct. 28, 1976), as recommended to the FAA by the U.S. Environmental Protection Agency under § 611(c)(1) of the Federal Aviation Act of 1958, as amended.

The purpose of this action is to correct FAR § C36.7(b), as amended under amendment 36-8, to achieve the regulatory scheme intended by the FAA regarding the prescribed minimum cutback altitudes during takeoff noise tests for Stage 2 airplanes powered by turbojet engines with high bypass ratios (bypass ratios of 2 or more). While the amendment adopted the various proposals contained in one or the other of the notices, it adopted some provisions based on a combination of these proposed rules. Under the amendment, after a change in type design, Stage 2 airplanes may not exceed the Stage 2 noise levels, except that Stage 2 airplanes powered by turbojet engines with high bypass ratios may not exceed the Stage 3 noise limit by more than 3 EPNdB or the Stage 2 noise limit, whichever is lower. Notice No. 75-37C also proposed to prescribe minimum cutback altitudes for takeoff noise tests at 689 feet for airplanes with four engines, at 853 feet for those with three engines, and at 984 feet for those with one or two engines. Before amendment 36-8, the rules permitted cutback at 700 feet for airpanes with more than three turbojet engines and at 1,000 feet for all other airplanes. That proposal in notice No. 75-37C was only partially adopted under amendment 36-8.

As discussed in the preamble to amendment 36-8, the FAA agreed with several commenters who pointed out that adoption of the proposed minimum cutback altitudes could result in some unwarranted relaxation of the takeoff noise standards for some airplanes. Thus, the FAA concluded that it should not adopt that proposal for those Stage 1 and Stage 2 airplanes or for Stage 3 airplanes not powered by turbojet engines. The rationale included consideration for retaining comparability of noise measurements made before and after changes in type design of existing Stage 1 and Stage 2 airplane types for which there were no concurrent reductions in the noise levels being adopted. However, the amendment did not provide the necessary distinction for derivative versions of Stage 2 airplanes powered by high bypass ratio turbojet engines for which noise level reductions were adopted. That omission resulted in applying the minimum cutback altitude requirements of original part 36 to all Stage 2 airplanes, regardless of the bypass ratio of their engines and notwithstanding the reduction in noise limits for derivative Stage 2 airplanes powered by high bypass ratio engines. That was not an intended effect of amendment 36-8.

Further, amendment 36-8 was adopted after consideration of the economic reasonableness, technological practicability and appropriateness to the aircraft type of the proposals in accordance with § 611(d) of the Federal Aviation Act of 1958, as amended. The analysis of § 611(d) considerations performed for amendment 36-8 supported and contemplated an amendment based upon a distinction in the final rule which reflects the technological differences between engines that do not have high bypass ratios (including no bypass ratio and nonturbojets) and engines employing the quieter, more

efficient technology represented in bypass ratios of 2 or more.

This action, therefore, is necessary to correct the deficiency by amending the applicability clauses of paragraphs C36.7(b) (1) and (2) to prescribe similar minimum cutback altitude requirements for turbojet airlines powered by engines in the same regulatory class. While the FAA believes the effects of the correction on measured noise levels generally are small, the unintended nature of the potential for increased stringency for some airplanes under amendment 36-8 dictates that it should be corrected as soon as possible.

FAR § C36.7 prescribes takeoff test conditions that apply to noise tests in showing compliance with part 36 for both new type certificates and acoustical change approvals. However, under FAR amendment 36-7 (42 FR 12360; Mar. 3, 1977), an airplane for which application for a new type certificate is made on or after November 5, 1975, and issued after October 1, 1977, must meet the Stage 3 noise levels adopted in that amendment. Since there are no applications still outstanding for new type certificates for the affected airplanes for which compliance with Stage 3 noise levels is not required, this corrective amendment, in effect only applies to acoustical changes to the affected Stage 2 airplanes powered by high bypass ratio turbojet engines.

Since this action is necessary to prescribe the originally intended regulatory requirements under amendment 36-8 (which became effective Apr. 3, 1978) and since this action is corrective in nature, I find that notice and public procedure hereon are impractical and unnecessary. Further, since it would not be in the public interest or consistent with sound regulatory practice to delay making necessary corrections to the amendment, good cause exists for making this corrective amendment effective in less than 30 days. While this corrective document is effective upon its publication, the corrections it makes relate back to provisions which previously became effective. Accordingly, it would not be proper to require compliance with the uncorrected provisions of amendment 36-8 in those cases in which an applicant for an affected acoustical change approval shows compliance with part 36 in accordance with amendment 36-8, as corrected. Thus, this correction applies to affected noise tests conducted on or after April 3, 1978.

Drafting Information

The principal authors of this document are Richard Tedrick, Office of Environmental Quality, and Ronn E. Harding, Office of the Chief Counsel.

Adoption of the Corrective Amendment

Accordingly, section C36.7 of appendix C to part 36 of the Federal Aviation regulations (14 CFR, part 36, appendix C, C36.7) is corrected, effective (date of publication), by amending the introductory clauses under paragraphs C36.7(b) (1) and (2) to read as follows:

Section C36.7 Takeoff test conditions.

• • • • •

(b) • • •

(1) For Stage 1 airplanes and for Stage 2 airplanes that do not have turbojet engines with a bypass ratio of 2 or more, the following apply: • • •

(2) For Stage 2 airplanes that have turbojet engines with a bypass ratio of 2 or more and for Stage 3 airplanes, the following apply:

• • • • •

(Secs. 313(a), 601(a), 603, and 611(b), Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421(a), 1423, and 1431(b)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); title I, National Environmetal Policy Act of 1969 (42 U.S.C. 4321 et seq.); and Executive Order 11514, Mar. 5, 1970.)

NOTE.—The Federal Aviation Administration has determined that this document is not significant in accordance with the criteria in Executive Order 12044 and set forth in interim Department of Transportations guidelines.

Issued in Washington, D.C., on September 20, 1978.

LANGHORNE BOND,
Administrator.

[FR Doc. 78-27112 Filed 9-27-78; 8:45 am]

[4910-13]

[Docket No. 78-NW-18-AD, Amdt. 39-3307]

PART 39—AIRWORTHINESS DIRECTIVES

Hughes Model 369D and 369H Helicopters as Modified by Chadwick Inc. STC Nos. SH184NW and SH567NW

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This airworthiness directive requires the installation of a drain hole, drain fitting, and drain line on the low side of the hydraulic pump engine mount flange, P/N 500-60405-1, installed on the Chadwick modified Hughes model 369D and 369H helicopters. The installation of a drain hole will prevent hydraulic fluid from entering the helicopter engine transmission after front seal failure of the hydraulic pump assembly, Chadwick P/N 500-60402-9.

DATE: Effective date November 2, 1978. Initial compliance as prescribed in the body of the AD.

ADDRESS: Chadwick Service Bulletin No. 500-78-01 specified in this directive may be obtained upon request from Chadwick Inc., 4375 Southwest 142d Avenue, Beaverton, Oreg. 97005. This document may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Wash. 98108.

FOR FURTHER INFORMATION CONTACT:

Mark I. Quam, Engineering and Manufacturing Branch, FAA Northwest Region, 9010 East Marginal Way South, Seattle, Wash. 98108, telephone 206-767-2500.

SUPPLEMENTARY INFORMATION: There has been one report of hydraulic fluid entering a Hughes 369 helicopter Allison engine transmission after the front seal failed on the Chadwick hydraulic pump assembly, P/N 500-60402-9. This pump is used on the Chadwick C-500 aerial spray system, STC No. SH184NW and the Chadwick C-500 fire suppression kit, STC No. SH567NW. These installations are approved for the Hughes 369D and 369H model helicopters.

Since this condition is likely to develop in the other Chadwick C-500 aerial spray systems and the Chadwick C-500 fire suppression kits, this AD will require the installation of a drain system between the Allison Engine and the Chadwick hydraulic pump. This drain system will intercept any hydraulic fluid leaking from the pump and prevent the hydraulic fluid from entering the engine.

The 100-hour compliance time to install the hydraulic drain system has been established by the agency on the basis of safety considerations and service. The units in service have seen at least one spraying season, after which pump seal wear and failure is more likely to occur. Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

HUGHES: Applies to Hughes model 369D and 369H helicopters which have either the C-500 aerial spray system, STC No. SH184NW or the Chadwick C-500 fire

V 43/189 SEP 28 78 UMI

suppression kit, STC No. SH567NW installed.

To prevent hydraulic fluid from entering the engine after a seal failure of the Chadwick hydraulic motor, accomplish the following: Within the next 100 hours time in service or 30 days, whichever comes first, after the effective date of this AD, install a drain line on the engine mounting flange, Chadwick P/N 500-60405-1, in accordance with Chadwick Service Bulletin 500-78-02 dated September 1, 1978, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer, may obtain copies upon request to Chadwick, Inc., 4375 Southwest 142d Avenue, Beaverton, Oreg. 97005. These documents may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Wash. 98108.

This amendment becomes effective November 2, 1978.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421 and 1423) sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c) and 14 CFR 11.89).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Seattle, Wash., on September 18, 1978.

C. B. WALK, Jr.,
Director,
Northwest Region.

NOTE.—The incorporation by reference provisions in the document were approved by the Director of the Federal Register on June 19, 1967.

[FR Doc. 78-27115 Filed 9-27-78; 8:45 am]

[4910-13]

[Docket No. 78-NE-21, Amdt. 39-3305]

PART 39—AIRWORTHINESS DIRECTIVES

Sikorsky S-61 Series Helicopters Certificated in All Categories

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: On July 31, 1978, a telegraphic airworthiness directive was issued requiring repetitive inspections for cracks and replacement, if necessary, of the main rotor blade spindle on S-61 type helicopters. Cracks could lead to a failure of the spindle. The AD is hereby published in the FEDERAL REGISTER as an amendment to section 39.13 of part 39 of the Federal Aviation Regulations.

DATES: Effective date: This amendment becomes effective September 28, 1978, for all persons except those to whom it was made effective immediately by telegram dated July 31, 1978.

ADDRESS: To obtain copies of the service bulletin referenced in the AD contact Sikorsky Aircraft, Division of United Technologies Corp., Stratford, Conn, 06602.

FOR FURTHER INFORMATION CONTACT:

William E. Garlock, Airframe Section, ANE-212, Engineering and Manufacturing Branch, Flight Standards Division, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Mass. 01803, telephone 617-273-7336.

SUPPLEMENTARY INFORMATION: On July 31, 1978, a telegraphic AD was adopted and made effective immediately to all known U.S. operators of Sikorsky S-61 helicopters. This airworthiness directive required repetitive dye penetrant inspections and ultrasonic inspections. It also required replacement of cracked spindles and the reporting of cracks to the FAA.

The AD was required because of the spindle failures found in two S-61 type helicopters that were involved in recent, serious accidents. The character of the spindle damage was the same in these accidents, and in each case, there were marks left on a mating part that were also consistent. Laboratory examination indicated that an origin of fatigue existed in one of these spindles at the failed section. If a spindle fails in this way, a main rotor blade separates from the aircraft.

Since it was found that immediate corrective action was required, notice and public procedure thereon were impracticable and contrary to the public interest, and good cause existed for making the airworthiness directive effective immediately to all known U.S. operators of Sikorsky model S-61 helicopters by individual telegrams dated July 31, 1978.

Since the telegraphic AD made ultrasonic inspections mandatory on August 18, 1978, the FAA has determined that there is no need for the dye penetrant inspections and accordingly these dye penetrant inspections have been eliminated from the AD as published herein.

These conditions still exist and the airworthiness directive as revised is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of part 39 of the Federal Aviation Regulations.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended, effective 1978, by addition of the following new airworthiness directive:

SIKORSKY AIRCRAFT. Applies to S-61 series helicopters certificated in all categories, including military counterparts, equipped with P/N's S6112-23027, S6112-23025, and S6110-23325 main rotor spindles.

Compliance required as indicated.

To preclude the possibility of failure of main rotor spindles, accomplish the following:

1. Prior to further flight, unless already accomplished, and thereafter at intervals not to exceed 25 hours time in service, conduct ultrasonic inspections of all unplated P/N's S6112-23027, S6112-23025, and S6110-23325 spindles with 1,350 or more hours time in service in accordance with Sikorsky Service Bulletin No. 61B10-33 or later revision approved by the Chief, Engineering and Manufacturing Branch.

2. Prior to further flight, unless already accomplished, and thereafter at intervals not to exceed 25 hours time in service, conduct ultrasonic inspections of all nickel sulfamate plated P/N's S6112-23027, S6112-23025, and S6110-23325 spindles in accordance with the above service bulletin.

3. If a crack is found during the above inspections, replace the cracked spindle with a new spindle or a serviceable spindle prior to further flight.

4. Report in writing any cracks found during the above inspections to Chief, Engineering and Manufacturing Branch, FAA, New England Region, 12 New England Executive Park, Burlington, Mass. 01803. Each report must include the length and location of the cracks and total time in service of the spindle (reporting approved by the Office of Management and Budget under OMB No. 04-R0174).

5. The helicopter may be flown in accordance with FAR 21.197 to a base where the above inspections can be performed.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Sikorsky Aircraft, Stratford, Conn. 06602. These documents may also be examined at FAA, New England Region, 12 New England Executive Park, Burlington, Mass. 01803, and at FAA Headquarters, 800 Independence Avenue SW., Washington, D.C. A historical file on this AD which includes the incorporated material in full is maintained by the FAA at its Headquarters in Washington, D.C., and at the FAA, New England Headquarters, Burlington, Mass.

Issued in Burlington, Mass., on September 18, 1978.

ROBERT E. WHITTINGTON,
Director,
New England Region.

NOTE.—The incorporation by reference in the preceding document was approved by the Director of the FEDERAL REGISTER on June 19, 1967.

[4910-13]

PART 39—AIRWORTHINESS DIRECTIVES

McDonnell Douglas Model—DC-10 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires inspection and replacement of the horizontal stabilizer drive chains installed on McDonnell Douglas DC-10 airplanes. This AD is needed to prevent possible damage to the horizontal stabilizer attachment structure due to stabilizer drive chain failure.

DATES: Effective October 3, 1978. Compliance required within 90 hours' time in service after the effective date.

ADDRESS: The applicable maintenance information may be obtained from: McDonnell Douglas Corp., 3855 Lakewood Boulevard, Long Beach, Calif. 90846, Attention: Director, Publications and Training, C1-750 (54-60).

FOR FURTHER INFORMATION CONTACT:

Kyle L. Olsen, Executive Secretary, Airworthiness Directive Review Board, Federal Aviation Administration, Western Region, P.O. Box 92007, World Way Postal Center, Los Angeles, Calif. 90009, telephone 213-536-6351.

SUPPLEMENTARY INFORMATION: McDonnell Douglas DC-10 operators have reported finding 10 horizontal stabilizer drive chains with cracks. Two of these chains were completely failed. Each DC-10 has four chains, two to drive each side of the horizontal stabilizer. If any single chain fails, the remaining chain on that side will continue to drive the actuator without any indication of failure. Failure of both chains to an actuator assembly can result in unsymmetrical loading and serious structural damage to the stabilizer.

Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued which requires initial and repetitive inspections to determine if the chain is intact, and replacement of old chains within 4,000 additional hours' time in service.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impractical and good cause exists for making this amendment effective in less than 30 days.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

MCDONNELL DOUGLAS: Applies to DC-10-10, -10F, -30, -30F, and -40 airplanes certificated in all categories, incorporating part No. SK12280-120, SK12280A120, SK12280-220, or SK12280A220, horizontal stabilizer drive chain with 6,000 or more hours' time in service on the chain.

Compliance required as indicated.

To prevent possible damage of the horizontal stabilizer attachment structure due to stabilizer drive chain failures accomplish the following:

(a) Within 90 hours' time in service after the effective date of this AD and thereafter at intervals not to exceed 90 hours' time in service, inspect to assure that each horizontal stabilizer drive chain is intact and completely engaged on the drive sprockets. If a chain is found disengaged from the sprocket or has noticeable damage, both this and the other chain on the same side must be replaced before further flight.

(b) Within the next 400 hours' time in service after the effective date of this AD, unless accomplished within the last 800 hours' time in service, and thereafter at intervals not to exceed 1,200 hours' time in service, inspect each horizontal stabilizer drive chain as follows:

(1) With hydraulic power applied, manually position the hydraulic control valve on the aft pressure bulkhead to actuate the chain in approximately 6-inch increments.

(2) Wipe the grease from the outer surface of the upper and lower side links.

(3) Visually inspect each and every side link outer surface for fracture or link damage. Special consideration should be given to the areas directly adjacent to the link pins. Move the horizontal stabilizer as required to continue the inspection sequence until a total inspection of each drive chain is assured.

(4) If any link is found cracked or visually damaged, that chain and the other chain of the same side must be replaced before further flight.

(5) Lubricate the drive chain on the completion of the inspection.

(c) Within the next 4,000 hours' time in service after the effective date of this AD, replace chain part Nos. SK12280-120, SK12280A120, SK12280-220, or SK12280A220 with chain part Nos. SK14869-120 or SK14869-220.

(d) Inspections per paragraphs (a) and (b) may be discontinued upon accomplishment of the chain replacement specified in paragraph (c).

(e) Equivalent inspections, modifications, or parts may be used when approved by the Chief, Aircraft Engineering Division, FAA Western Region.

(f) Special flight permits may be issued in accordance with FAR's 21.197 and 21.199 to operate airplanes to a base for accomplishment of the inspection or chain replacement required by this AD.

NOTE.—McDonnell Douglas DC-10 Alert Service Bulletin A27-163 dated March 30, 1978, Service Bulletin 27-163 dated July 6, 1978, and Telex Alert Service Bulletin A27-163R1 dated August 1, 1978, cover this same subject.

This amendment becomes effective October 3, 1978.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89.)

Issued in Los Angeles, Calif., September 18, 1978.

M. C. BEARD,
Acting Director,
FAA Western Region.

[4910-13]

[Docket No. 78-NE-20]

PART 39—AIRWORTHINESS DIRECTIVES

Sikorsky S-61 Series Helicopters Certificated in All Categories

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Rescission of Airworthiness Directive.

SUMMARY: This action rescinds a telegraphic airworthiness directive issued July 7, 1978, requiring magnetic particle inspections for cracks in the spindles of Sikorsky S-61 helicopters. The need for this AD has been obviated by the issuance of a new telegraphic AD on July 31, 1978, pertaining to the same problem and requiring a different inspection.

DATES: September 28, 1978.

FOR FURTHER INFORMATION CONTACT:

William E. Garlock, Airframe Section, ANE-212, Engineering and Manufacturing Branch, Flight Standards Division, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Mass. 01803; 617-273-7336.

SUPPLEMENTARY INFORMATION: A telegraphic airworthiness directive

V 43/189 SE 28 78

was adopted and made effective to all known United States operators of Sikorsky S-61 helicopters on July 7, 1978, because of spindle failures found in two S-61 type helicopters that were involved in recent, serious accidents.

It required magnetic particle inspections for cracks in the spindles and the replacement of spindles found to be cracked. It also required operators to report cracks found during the inspections to the FAA.

After additional examination and engineering analysis of the spindles that failed in the accidents, a second telegraphic airworthiness directive, adopted and made effective to all known United States operators of Sikorsky S-61 helicopters, was issued on July 31, 1978, requiring repetitive dye penetrant inspections and ultrasonic inspections. It also required replacement of cracked spindles and the reporting of cracks to the FAA. The July 31, 1978, AD obviates the need for the corrective action required by the July 7, 1978, AD which may now be rescinded.

RESCISSION

Accordingly, pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), the AD issued by telegram to all operators of S-61 helicopters on July 7, 1978, is hereby rescinded.

Issued in Burlington, Mass., on September 18, 1978.

ROBERT E. WHITTINGTON,
Director, New England Region.

[FR Doc. 78-27118 Filed 9-27-78; 8:45 am]

[4910-13]

[Docket No. 78-WE-6-AD; Amdt. 39-3308]

PART 39—AIRWORTHINESS DIRECTIVES

McDonnell Douglas Model DC-10 Series Airplanes

AGENCY: Federal Aviation Administration (FAA) DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires inspections, modification, and replacement of the leading edge outboard slat drive arms installed in McDonnell Douglas DC-10 airplanes. This AD is needed to prevent failure of an outboard slat drive arm or drum shaft allowing departure of the leading edge slats from the aircraft which may present a hazard to persons on the ground.

DATE: Effective November 7, 1978. Compliance schedule—As prescribed in the body of the AD.

ADDRESSES: The applicable service information may be obtained from: McDonnell Douglas Corp., 3855 Lakewood Boulevard, Long Beach, Calif. 90846, Attn.: Director, Publications and Training, C1-750 (54-60). Also, a copy of the service information may be reviewed at, or a copy obtained from: Rules Docket in Room 916, FAA, 800 Independence Avenue SW., Washington, D.C. 20591, or Rules Docket in Room 6W14, FAA Western Region, 15000 Aviation Boulevard, Hawthorne, Calif. 90261.

FOR FURTHER INFORMATION CONTACT:

Kyle L. Olsen, Executive Secretary, Airworthiness Directive Review Board, Federal Aviation Administration, Western Region, P.O. Box 92007, World Way Postal Center, Los Angeles, Calif. 90009. Telephone: 213-536-6351.

SUPPLEMENTARY INFORMATION: On April 28, 1978, the FAA proposed to amend part 39 of the Federal Aviation Regulations (14 CFR Part 39) by adding a new AD applicable to McDonnell Douglas DC-10 series airplanes (43 FR 20237). This AD establishes inspections, modifications, and replacement of the leading edge outboard slat drive arms. The proposal was prompted by two instances of failure of the outboard slat drive arm in flight. In one of these cases, slat system parts fell to the ground.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all comments received in response to the notice of proposal making.

One commentator stated that from a scheduling standpoint it would be desirable to accomplish McDonnell Douglas Service Bulletins 27-100 and 27-139 in conjunction with the required Service Bulletin 27-160. They suggested that Service Bulletin 27-160 be accomplished within 6,000 hours after the effective date of the AD with interim ultrasonic inspections required by Service Bulletin A27-160R2 at 1,500 hours' time in service intervals. The FAA disagrees. Service Bulletin 27-139 has been superseded by Service Bulletin 27-160 and even though it may be desirable to accomplish Service Bulletin 27-100 and 27-160 at the same time, this does not justify a 2,000-hour extension in the compliance time. Also, the ultrasonic inspections of Service Bulletin A27-160R2 are not as positive as the magnetic particle inspections of Service Bulletin 27-160.

Another commentator does not believe that there is evidence to support the contention that the ARH 0565-1 drum shaft is prone to fatigue failure. Fatigue tests have indicated that the ARH 0565-1 and -2 shafts have a limited life. This commentator also states that fatigue is not of concern with regard to the ARH 0171 arm. The FAA agrees, however, we are concerned about a possible manufacturing flaw in the ARH 0171 arm that, combined with stress corrosion, could result in failure of the arm.

Another commentator requested that the AD be revised to allow installation of a grease fitting with a modification to the fillet seal requirement. The FAA has amended the AD to allow installation of the grease fitting in accordance with Service Bulletin 27-161 in lieu of the fillet seal requirement in accordance with Service Bulletin 27-160.

The phrase "or later FAA approved revisions" has not been included in the service bulletin citations in this AD and a note has been added indicating that the cited version of the service bulletins are the only versions acceptable for demonstrating compliance with the AD under the terms of paragraphs (a) and (b).

After careful review of all available data including the comments above, the FAA believes that sufficient evidence exists in the public interest in aviation safety to adopt the proposed rule, with relieving substantive changes and with minor editorial and clarifying changes of nonsubstantive nature, as a final rule.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended, by adding the following new airworthiness directive:

McDonnell Douglas: Applies to DC-10-10, -10F, -30, -30F, and -40 airplanes certificated in all categories.

Compliance is required as indicated unless already accomplished.

To prevent failure of an outboard slat drive arm or drum shaft, accomplish the following:

(a) Within the next 1,500 hours time in service after the effective date of this AD, unless the inspection and modifications specified in McDonnell Douglas DC-10 Service Bulletin 27-160, dated March 1, 1978, are already accomplished, inspect the outboard slat drive arms ultrasonically for cracks in accordance with McDonnell Douglas DC-10 Service Bulletin A27-160 revision 2, dated March 22, 1978.

(b) Within the next 4,000 hours time in service after the effective date of this AD, inspect by magnetic particle methods for cracks and modify or replace the outboard slat drive arms and drum shafts in accordance with McDonnell Douglas DC-10 Service Bulletin 27-160, dated March 1, 1978.

(1) As an alternate to applying sealant in accordance with Service Bulletin 27-160, it is permissible to install a lubrication fitting and fillet seal in accordance with McDonnell Douglas DC-10 Service Bulletin 27-161, dated March 3, 1978, and thereafter at intervals not to exceed 2,500 hours time in service apply MIL-G-81322 grease or equivalent to the ARH 7011-1 bolt assembly fitting.

NOTE.—Service Bulletin A27-160 revision 2 dated March 22, 1978, Service Bulletin 27-160 dated March 1, 1978 and Service Bulletin 27-161 dated March 3, 1978 are the only versions of the service bulletins suitable for compliance with paragraphs (a) and (b) of this AD.

(c) Any outboard slat drive arm or drum shaft found to be cracked must be replaced prior to further flight.

(d) Equivalent inspections, modifications or parts may be used when approved by the Chief, Aircraft Engineering Division, FAA Western Region.

(e) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base for accomplishment of inspections required by this AD.

This amendment becomes effective November 7, 1978.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89.)

Issued in Los Angeles, Calif., on September 19, 1978.

JAMES V. NIELSEN,
Acting Director,
FAA Western Region.

[Airspace Docket No. 78-ANW-15]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Controlled Airspace, Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters the designation of controlled airspace in the vicinity of La Grande, Oreg. This rule designates additional 700-foot transition area to provide controlled airspace for departing aircraft executing the published departure procedure from La Grande Municipal Airport.

EFFECTIVE DATE: October 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Dale C. Jepsen, Airspace Specialist (ANW-533), Operations, Procedures and Airspace Branch, Air Traffic Division, Federal Aviation Administration, Northwest Region, FAA Building, Boeing Field, Seattle, Wash. 98108, telephone 206-767-2610.

SUPPLEMENTARY INFORMATION:

HISTORY

A notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER on July 27, 1978, which described the proposed La Grande, Oreg., transition area. Interested parties were invited to participate in the rulemaking proceeding by submitting written comments on the proposal to the FAA. The one comment received was from the Aircraft Owners and Pilots Association (AOPA) which voiced no objection to the proposal.

THE RULE

This amendment to part 71 of the Federal Aviation Regulations (FAR) designates additonal 700-foot transition area at La Grande, Oreg. as controlled airspace to encompass aircraft executing the published departure procedure from La Grande Municipal Airport.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, the La Grande, Oreg. transition area in § 71.181 of part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, effective 0901 G.m.t., October 22, 1978, as follows:

LA GRANDE, OREG.

Add the following description to 700-foot airspace: "Within a 5-mile radius of the La Grande Municipal Airport (latitude 45°17'22" N, longitude 118°00'18" W)."

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Seattle, Wash., on September 15, 1978.

C. B. WALK, JR.,
Director, Northwest Region.

[4910-13]

[Airspace Docket No. 78-ASW-28]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area: Hebbronville, Tex.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of the action being taken is to designate a transition area at Hebbronville, Tex. The intended effect of the action is to provide controlled airspace for aircraft executing instrument approach procedures to Jim Hogg County Airport. The circumstance which created the need for the action was the establishment of a navigation facility on the airport to provide capability for flight under instrument flight rules (IFR) procedures to the airport.

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

John A. Jarrell, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101, telephone, 817-624-4911, extension 302.

SUPPLEMENTARY INFORMATION:

HISTORY

On July 24, 1978, a notice of proposed rulemaking was published in the FEDERAL REGISTER (43 FR 31943) stating that the Federal Aviation Administration proposed to designate the Hebbronville, Tex., transition area. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the Federal Aviation Administration. We received one objection to the proposal. The objection was received from the Department of the Navy.

DISCUSSION OF COMMENTS

The Navy informed us they have two military low altitude training routes that traverse the Hebbronville area. They pointed out that their routes had been implemented before the transition area proposal and that the airspace avoidance criteria use in the route planning would be violated should the transition area be established. They are concerned that this situation could impose restrictions on their training activity which would not be in the best interest of the Navy.

The FAA order pertaining to military training routes recognizes the possibility of such conflicts. The order reads to the effect that if practicable or to the extent practicable, controlled airspace established for terminal air traffic control purposes and route widths should avoid each other.

Flying safety will be enhanced by providing IFR separation between the IFR route activity and instrument approaches to the Jim Hogg County Airport. We are satisfied that restrictions, if any, to the Navy training activity would be minimal and denial of an in-

V 43/189 SEP 28 78

strument approach capability to the airport by refusing to be establish a transition area would not be in the best interest of airspace utilization. Except for editorial changes, this amendment is that proposed in the notice.

THE RULE

This amendment to subpart G of part 71 of the Federal Aviation Regulations (14 CFR Part 71) designates the Hebbronville, Tex., transition area. This action provides controlled airspace from 700 feet above the ground for the protection of aircraft executing instrument approach procedures to the Jim Hogg County Airport.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 440) is amended, effective 0901 G.m.t., December 28, 1978, as follows:

In subpart G, § 71.181 (43 FR 440), the following transition area is added:

HEBBRONVILLE, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Jim Hogg County Airport (Latitude 27°20'57" N., Longitude 98°44'12" W.), within 3.5 miles each side of the 326° bearing from the proposed NDB (Latitude 27°21'13" N., Longitude 98°44'38" W.) extending from the 5-mile radius to 11.5 miles northwest of the proposed NDB.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a); and sec. 6(c), Department of Transportation Act (49 U.S.C. 1655 (c)).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Fort Worth, Tex., on September 14, 1978.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc. 78-27114 Filed 9-27-78; 8:45 am]

[4910-13]

[Airspace Docket No. 78-RM-24]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Federal Airway

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment realigns a segment of V-8 south alternate east of Grand Junction, Colo. This segment of V-8S is dually designated with a segment of V-134 which was automatically realigned one degree with the relocation of the Denver, Colo., VORTAC air navigation aid. V-8S is hereby realigned one degree to continue this dual designation and eliminate possible confusion in the use of the route segment.

EFFECTIVE DATE: November 2, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone, 202-426-3715.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to realign a segment of V-8S between Grand Junction, Colo., and Kremmling, Colo., via the Grand Junction 075° T (060° M) radial rather than the 074° T (059° M) radial. This one degree change is necessary to retain a single route from Grand Junction to the GLENO intersection and coincide with this segment of V-134. Because this one degree change constitutes a minor matter on which the public would have no particular interest, notice and public procedure thereon are unnecessary.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 71.123 of part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 307) and amended (43 FR 39753) is further amended, effective 0901 G.m.t., November 2, 1978, as follows:

Under V-8, "INT Grand Junction 074° and Kremmling 228° radials," is deleted and "INT Grand Junction 075° and Kremmling 228° radials," is substituted therefor.

(Secs. 307(a), 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Washington, D.C., on September, 18, 1978.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

PART 91—GENERAL OPERATING AND FLIGHT RULES

PART 121—CERTIFICATION AND OPERATIONS: DOMESTIC, FLAG, AND SUPPLEMENTAL AIR CARRIERS AND COMMERCIAL OPERATORS OF LARGE AIRCRAFT

PART 127—CERTIFICATION AND OPERATIONS OF SCHEDULED AIR CARRIERS WITH HELICOPTERS

PART 135—AIR TAXI OPERATORS AND COMMERCIAL OPERATORS OF SMALL AIRCRAFT

Special Federal Aviation Regulation No. 37; Carriage of Candidates in Federal Elections

NOTE.—This document originally appeared in the FEDERAL REGISTER for Tuesday, September 26, 1978. It is reprinted in this issue to meet requirements for publication on an assigned day of the week. (See OFR notice 41 FR 32914, August 6, 1976.)

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This special regulation allows persons who are not in the air transportation business to receive limited payments for carriage of candidates in Federal elections without that carriage being considered as a commercial operation. Federal Election Commission (FEC) rules require a candidate to pay for carriage in an aircraft. On the other hand, an aircraft operator must comply with the FAA's commercial operations regulations to receive compensation for a flight. This amendment will harmonize rules of the FAA and FEC consistent with the President's regulatory reform philosophy in Executive Order 12044.

DATES: Effective date—September 26, 1978. Comments by February 1, 1979.

FOR FURTHER INFORMATION CONTACT:

Mr. Raymond E. Ramakis, Regulatory Projects Branch, Safety Regulations Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-755-8716.

SUPPLEMENTAL INFORMATION:

BACKGROUND

Under the rules of the Federal Election Commission (FEC), a candidate in a Federal election must pay for carriage in an aircraft. Ordinarily, under the Federal Aviation regulations where common carriage is not involved, receipt of payment for carriage by an aircraft operator requires an appropriate commercial operator certificate. The FAA has been advised that several instances have occurred in which individuals or corporations operating aircraft have desired to carry a candidate in a Federal election, free of charge, but the candidate would be required to make payment to those aircraft operators in order to comply with the rules of the FEC. Receipt of the payment by an aircraft operator without an appropriate commercial operator certificate could result in a violation of the Federal Aviation regulations. A situation is, therefore, created in which compliance with the regulations of one agency of the Federal Government results in a violation of the regulations of another agency.

The carriage of candidates in Federal elections is infrequent and the aircraft operator does not intend to engage in the business of an air carrier or commercial operator. The FAA has reviewed this situation and has concluded that it would be in the public interest to allow certain aircraft operators to receive payments required by the Federal Election Commission without being required to comply with the rules applicable to operations for compensation or hire. Pursuant to this regulation, the carriage of candidates would be governed by the rules of part 91. However, the regulation would not relieve part 121, 127, or 135 certificate holders of the obligation to comply with the rules under which they are certificated even if a candidate is carried and the payment is limited to the amount required by the FEC rules.

It also would not relieve an operator whose primary business is as an air carrier or commercial operator from complying with parts 121, 127, or 135.

NEED FOR IMMEDIATE ADOPTION

Since this special regulation relieves a restriction, does not impose an additional burden on any person, and is needed to avoid the possibility of aircraft operators' experiencing conflicts between the regulations of the FAA and FEC in the imminent Federal election campaigns of 1978, I find that notice and public procedure are impracticable and contrary to the public interest and that good cause exists for making this amendment effective in less than 30 days. However, the FAA intends to review operating experience under this special regulation. Consequently, interested persons are invited to submit such written data, views, or arguments as they may desire regarding this SFAR. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue SW., Washington, D.C. 20591. All communications received on or before February 1, 1979, will be considered by the Administrator and this SFAR may be changed in the light of the comments received. All comments submitted will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons.

ADOPTION OF THE AMENDMENT

Accordingly, the following special Federal Aviation regulation is adopted, effective, September 26, 1978:

§ 1 Applicability.

Contrary provisions of parts 91, 121, 127, and 135 of the Federal Aviation regulations notwithstanding, an aircraft operator, other than one operating an aircraft under the rules of part 121, 127, or 135 of this chapter, may receive payment for the carriage of a candidate in a Federal election, an agent of the candidate, or a person traveling on behalf of the candidate, if—

(a) That operator's primary business is not as an air carrier or commercial operator;

(b) The carriage is conducted under the rules of part 91; and

(c) The payment for the carriage is required, and does not exceed the amount required to be paid, by regulations of the Federal Election Commission (11 CFR et seq.).

§ 2 Definitions.

For the purpose of this special Federal Aviation regulation, the terms "candidate" and "election" have the same meaning as that set forth in the regulations of the Federal Election Commission.

This special Federal Aviation regulation terminates June 30, 1980, unless sooner superseded or rescinded.

(Secs. 313(a), 801, and 604 of the Federal Aviation Act of 1958 (49 U.S.C. §§ 1354(a), 1421, and 1424); and sec. 6(c) of the Department of Transportation Act (49 U.S.C. § 1655(c)).)

NOTE.—The FAA has determined that this document is not significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; Mar. 8, 1978).

Issued in Washington, D.C., on September 22, 1978.

LANGHORNE BOND,
Administrator.

Title 15—Commerce and Foreign Trade

CHAPTER III—INDUSTRY AND TRADE ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 371—GENERAL LICENSES

Revision of General License GIFT

AGENCY: Office of Export Administration, Bureau of Trade Regulation, U.S. Department of Commerce.

ACTION: Final rule.

SUMMARY: For humanitarian reasons, the Office of Export Administration (OEA) has revised the provisions of General License GIFT to allow shipments of gift parcels to Vietnam. Previously, before exporting a gift parcel to a person in Vietnam, a donor was required to submit an application to OEA and receive specific written authorization to make the shipment. This revision removes that requirement and permits shipments of gift parcels with retail value not exceeding $200 to be made by an individual in the United States (donor) to an individual, or a religious, charitable, or educational organization (donee) located in Vietnam under General License GIFT.

EFFECTIVE DATE: September 25, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles C. Swanson, Director, Operations Division, Office of Export Administration, U.S. Department of Commerce, Washington, D.C. 20230, 202-377-4196.

Accordingly, § 371.18(a)(1) of the Export Administration Regulations (15 CFR Part 371) is revised to read as follows:

§ 371.18 General license GIFT; shipments of gift parcels.

(a) *Scope.* (1) A general license designated GIFT is established, subject to the provisions of § 371.18, authorizing the export of gift parcels by an individual in the United States (donor) addressed to an individual, or a religious, charitable, or educational organization (donee) located in any destination, except North Korea and Cambodia, for the use of the donee or the donee's immediate family. The gift parcel must be provided free of charge to the donee. However, the payment by the donee of any handling charges or of any fees levied by the importing country (e.g., import duties, taxes, etc.) is not considered to be a cost to the

V 43 / 189 SE 28 78 UMI

donee for purposes of this definition of "gift parcel." [1]

• • • • •

(Sec. 4, Pub. L. 91-184, 83 Stat. 842 (50 U.S.C. App. 2403), as amended; E.O. 12002, 42 FR 35623 (1977); Department Organization Order 10-3, dated Dec. 4, 1977, 42 FR 64721 (1977); and Industry and Trade Administration Organization and Function Order 45-1, dated Dec. 4, 1977, 42 FR 64716 (1977).)

Dated: September 22, 1978.

RAUER H. MEYER,
Acting Deputy Assistant Secretary for Trade Regulation.

[3510-25]

PART 371—GENERAL LICENSES

PART 386—EXPORT CLEARANCE

Deletion of General License GMS

AGENCY: Office of Export Administration, Bureau of Trade Regulation, U.S. Department of Commerce.

ACTION: Final rule.

SUMMARY: General License GMS was established to permit the export of commodities sold by the Department of Defense to governments of certain foreign countries under the Mutual Security Act of 1954. However, such sales are now made under the Arms Export Control Act and consist of commodities licensed for export by the Office of Munitions Control of the Department of State. Therefore, general license GMS is obsolete and is deleted from the Export Administration Regulations.

EFFECTIVE DATE: September 25, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles C. Swanson, Director, Operations Division, Office of Export Administration, U.S. Department of Commerce, Washington, D.C. 20230, 202-377-4196

[1] Many foreign countries permit the entry, duty-free, of gift parcels that conform to regulations regarding contents and marking. To secure this advantage, the sender should show the words "U.S.A. Gift Parcel" on the addressee side of the package and on any required customs declarations. Information regarding the foreign postal regulations is available at local post offices. Senders of gift parcels who wish information regarding import duties of a foreign country should contact the nearest Commercial Office, Consulate, or Embassy of the country concerned.

Accordingly, the Export Administration Regulations (15 CFR Part 368 et seq.) are revised as follows:

Part 371 is amended as follows:

Section 371.2(c)(7) is revised to read as follows:

§ 371.2 General provisions.

• • • • •

(c) • • •

(7) The commodity is an electronic, mechanical, or other device, as described in § 376.13, primarily useful for surreptitious interception of wire or oral communications, except that such commodity may be exported under general license GUS (§ 371.13);

§ 371.2 [Reserved]

Section 371.20 is deleted and reserved.

Section 386.6 is revised by deleting references to general license GMS to read as follows:

§ 386.6 Destination control statements.

(a) • • •
(1) • • •

(ii) General license GLV, GTF-US, GTE, or GLR; or

• • • • •

(2) Exports to the Republic of South Africa and Namibia. The following destination control statement is required for all shipments to the Republic of South Africa and Namibia made under a validated license or under general license G-DEST, GLV, GTF-US, G-NNR, GLR, and GTE:

• • • • •

(c) • • •

(1) Deleted and reserved.

(2) General license shipments. For a shipment under any general license, any of the three destination control statements may be used.

• • • • •

(d) • • •

(2) • • •

(i) *General license shipments.* For a shipment under any general license:

• • • • •

(Sec. 4, Pub. L. 91-184, 83 Stat. 842 (50 U.S.C. App. 2403), as amended; E.O. 12002, 42 FR 35623 (1977); Department Organization Order 10-3, dated December 4, 1977, 42 FR 64721 (1977); and Industry and Trade Administration Organization and Function Order 45-1, dated December 4, 1977, 42 FR 64716 (1977).)

Dated: September 22, 1978.

RAUER H. MEYER,
Acting Deputy Assistant Secretary for Trade Regulation.

[FR Doc. 78-27299 Filed 9-27-78; 8:45 am]

[3510-25]

PART 399—COMMODITY CONTROL LIST AND RELATED MATTERS

Revision of Commodity Control List

AGENCY: Office of Export Administration, Bureau of Trade Regulation, U.S. Department of Commerce.

ACTION: Final rule.

SUMMARY: Under current regulations herbicidal or antiplant preparations containing a total of 30 percent or more by weight of certain ingredients having chemical warfare uses are subject to validated license control for national security reasons to all destinations, except Canada. The Office of Export Administration has determined, after consultation with its advisory agencies, that unless such preparations contain 80 percent or more of these chemical warfare ingredients, validated license control for national security reasons is no longer necessary. Accordingly, this rule modifies the current licensing requirement so that validated license control to all destinations, except Canada, applies to these herbicidal and antiplant preparations containing a total of 80 percent or more by weight of the chemical warfare ingredients. However, foreign policy controls remain in effect on exports or reexports of these preparations (notwithstanding the percentage of content of chemical warfare ingredients) to Southern Rhodesia, Cuba, North Korea, Vietnam, and Cambodia, and to the Republic of South Africa and Namibia if intended for delivery to or for use by or for military or police entities in South Africa or Namibia.

EFFECTIVE DATE: September 25, 1978.

Accordingly, the commodity control list, incorporated by reference in 15 CFR Part 399, is revised, as follows:

1. Entry No. 4707 subitem (b)(6) of the commodity control list.

§ 399.1 [Amended]

Section 399.1, is revised to read as follows:

Export Control Commodity Number and Commodity Description	Unit	Processing Code	Validated License Required	GLV $ Value Limits T	V	Q
4707B (a) Chemicals as follows:	Lb.	MG	QSTVWYZ	500	500	100
• • •						
(b) Synthetic organic agricultural chemicals, as follows: (1) Alkyl aryl carbamates (including isopropyl N-phenylcarbamate and isopropyl N-(3-chlorophenyl)-carbamate), (2) Aminochloropicolinic acid and its salts and esters, (3) Bromoalkyl pyrimidines, (4) Cacodylic acid, (5) Chlorophenoxyacetic and chlorofluorophenoxyacetic acids and their salts and esters, and (6) Herbicidal or antiplant preparations containing one or more of the above in amounts totaling, alone or in combination with another, 80 percent or more by weight.						

§ 399.2 [Amended]

2. In § 399.2, interpretation 24 is amended by adding the following to the commodities listed under the heading "Chemical materials and products, n.e.s., as follows:"

Herbicidal or antiplant preparations, n.e.s.

(Sec. 4, Pub. L. 91-184, 83 Stat. 842 (50 U.S.C. App. 2403), as amended; E.O. 12002, 42 FR 35623 (1977); Department Organization Order 10-3, dated December 4, 1977, 42 FR 64721 (1977); and Industry and Trade Administration Organization and Function Order 45-1, dated December 4, 1977, 42 FR 64716 (1977).)

Dated: September 22, 1978.

RAUER H. MEYER,
Acting Deputy Assistant Secretary for Industry and Trade.

[6750-01]

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

SUBCHAPTER B—GUIDES AND TRADE PRACTICE RULES

RESCISSION OF OBSOLETE PARTS

AGENCY: Federal Trade Commission.

ACTION: Rescission of obsolete trade practice rules.

SUMMARY: On June 21, 1977, the Commission published in the FEDERAL REGISTER a notice of proposed rescission or revision of 41 sets of trade practice rules, each of which has been codified as a separate part in this title 16, chapter I. After giving careful consideration to all comments received on the public record in response to that notice, the Commission now rescinds trade practice rules in full for 34 industries and retains rules for 7 other industries for further study.

EFFECTIVE DATE: September 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles H. Slayman, Jr., Attorney, Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580, 202-724-1478.

SUPPLEMENTARY INFORMATION: The Commission nears completion of its review of trade practice rules to eliminate the obsolete and keep only those provisions considered useful in obtaining compliance with laws it administers.

This document deals with further Commission action in its comprehensive review of trade practice rules for 152 industries. In previous actions, the Commission has rescinded 111 sets of such rules. This document concerns the remaining 41 sets.

In a notice on June 21, 1977 (42 FR 31457), the Commission invited comments concerning proposed rescissions or revisions of 41 listed sets of rules. Comments were received concerning 17 sets (industries). All comments were carefully considered and have been placed on the public record. The Commission found unconvincing arguments of interested persons to retain any of the 34 parts listed below.

The Commission also stated in the notice of June 21, 1977, that it intends to rescind the following provisions that may be in any of the 41 sets of rules:

(i) Group II rules because they are merely "expressions of the trade" and are not Commission interpretations of law;

(ii) Industry committee references because authority to establish such committees was rescinded in 1971;

(iii) Stereotype sections (commercial bribery, sales below cost, prohibited discrimination, etc.) because acts and practices covered are not limited to particular industries; and

(iv) Particularized sections where no convincing showing was made that they are being used in the public interest today.

Since 34 sets of rules are rescinded with this document, only 7 sets remain in operation that may still contain any of the 4 provisions above.

Trade practice rules are identified as earlier forms of industry guides. Guides are administrative interpretations of Commission administered laws. They have provided the basis for voluntary and simultaneous abandonment of unlawful practices by members of industry. Noncompliance with guides may require corrective action under applicable statutes. Trade practice rules and other industry guides should not be confused with specific, directly enforceable trade regulation rules.

Rescission of trade practice rules and industry guides does not relieve anyone of the obligation to comply with laws and trade regulation rules administered by the Commission. In particular, rescission is not a green light to engage in unfair or deceptive acts or practices, or unfair methods of competition, which are proscribed by section five of the Federal Trade Commission Act, 15 U.S.C. 45.

Accordingly, the Commission hereby amends title 16, chapter I of the Code of Federal Regulations by rescinding as obsolete and removing in full the following 34 parts:

Part 26—Refrigeration and/or Air-Conditioning Contracting Industries.
Part 36—Poultry Hatching and Breeding Industry.
Part 40—Environmental Testing Equipment Manufacturing Industry.
Part 41—Metal Awning Industry.
Part 46—Work Glove Industry.
Part 54—Walnut Wood Industry.
Part 56—Pleasure Boat Industry.
Part 57—Residential Aluminum Siding Industry.
Part 61—Stationers Industry.
Part 67—Phonograph Record Industry.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER H—INTERNAL REVENUE PRACTICE

PART 601—STATEMENT OF PROCEDURAL RULES

Establishment of Single Level of Administrative Appeal

AGENCY: Internal Revenue Service, Treasury.

ACTION: Amendments to procedural rules.

SUMMARY: This document provides amendments to the Statement of Procedural Rules relating to the establishment of a single level of administrative appeal. These amendments are adopted to eliminate the near duplication of procedures previously existing in district and Appellate Division conferences and to make certain correlative changes in Collection and Employee Plans and Exempt Organization procedures. The amendments affect all persons desiring, and previously entitled to, a district or Appellate Division conference in the course of determining their tax or penalty liabilities, and certain employee plans and exempt organizations, and provide them with the guidance needed to comply with Internal Revenue Service procedures.

DATE: The amendments apply to conferences held after September 30, 1978. Conference cases covered by these amendments which are pending in district or regional offices as of the close of business on September 30, 1978, will be transferred to the Appeals office.

FOR FURTHER INFORMATION CONTACT:

William A. McClellan of the Appeals Division, Office of Assistant Commissioner (Compliance), Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224, Attention: CP:AP:CM, 202-566-4468, not a toll-free call.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On April 3, 1978, the FEDERAL REGISTER published proposed amendments to the Statement of Procedural Rules (26 CFR Part 601) relating to the establishment of a single level of administrative appeal, 43 FR 13896. A public hearing was held on June 20, 1978. After consideration of all comments regarding the proposed amendments, those amendments are adopted as herein revised. These amendments are issued under the authority contained in 5 U.S.C. 301 and 5 U.S.C. 552.

The revisions in this document reflect, where relevant to the adoption of single level of appeal, the amendments necessary to conform the Statement of Procedural Rules to the changes made by the reorganization of the Internal Revenue Service and the Office of Chief Counsel, effective on July 2, 1978. Amendments to the Statement of Procedural Rules necessary to reflect these changes in areas not relating to the adoption of single level of appeal will be subsequently published in the FEDERAL REGISTER.

DESCRIPTION OF PROCEDURE

IN GENERAL

As described in the preamble to the notice of proposed amendments, in general, a single appeals function is established in each region headed by a Regional Director of Appeals. This new appeals organization is referred to herein as the Appeals office. The Appeals office, for the most part, has the same characteristics as the old Appellate Division, including the authority to settle cases fully. Thus, under the amendments, taxpayers will continue to enjoy all rights and opportunities previously afforded under district conference procedures and will also be afforded the benefits previously provided by the Appellate Division.

Accordingly, as proposed, the final amendments provide that in all cases in which a taxpayer was afforded a district conference, the taxpayer may have a conference in the Appeals office where full settlement authority can be exercised. Similarly, as in previous district conference procedures, no written protest will be required to obtain an Appeals office conference in an office examination case, or in a field examination case where the total amount of proposed additional tax, proposed overassessment, or claimed refund does not exceed $2,500 for any taxable period. In addition, while not expressly provided in the amendments, the Internal Revenue Service will provide Appeals office conferences at all locations at which district or Appellate Division conferences were previously offered.

TECHNICAL ADVICE

The preamble to the proposed amendments indicated that, under the single level system, taxpayers would be offered, at the least, the same opportunity to seek technical advice from the National Office as previously existed under district conference procedures. The technical advice procedures applicable in cases considered by the Appeals office (other than Employee Plans and Exempt Organization cases, as explained below) are provided in new § 601.106(f)(10), added in these final amendments. Generally, these procedures parallel the technical advice procedures for cases under the jurisdiction of the district director provided in § 601.105(b)(5). Thus, in appropriate cases, the Appeals office may request technical advice directly from the National Office (§ 601.106(f)(10) (i), (ii), and (iii)), or the taxpayer may request the Appeals office to seek technical advice (§ 601.106(f)(10)(iii)(*a*)). Similarly, as under present district procedures, the taxpayer can protest the denial by the Appeals Officer to request technical advice (§ 601.106(f)(10)(iv)). In addition, similar National Office conference rights are provided (§ 601.106(f)(10)(v)). Also, the Appeals office may request reconsideration by the National Office of the conclusions expressed in a technical advice memorandum (§ 601.106(f)(10)(vii)(*a*)). Section 601.106(f)(10)(ii)(*b*) indicates that requests for technical advice should be made at the earliest possible stage of the examination process. However, if identification of an issue on which technical advice is appropriate is not made until the case is in Appeals, a decision to request technical advice should be made prior to or at the first conference. As in present district procedures, § 601.106(f)(10)(viii)(*c*) provides that the Appeals office is bound by technical advice favorable to the taxpayer. However, unlike present district procedures, § 601.106(f)(10)(viii)(*c*) also provides that, if technical advice is issued which is unfavorable to the taxpayer, the Appeals office may nonetheless

settle the issue in the usual manner under existing authority, for example, taking into account the hazards which would exist if the case were litigated.

COLLECTION CASES

The preamble to the notice of proposed amendments stated that future procedures would be issued providing that in all other cases in which a conference in the district director's office or regional office was afforded, including Collection and Employee Plans and Exempt Organization cases, an Appeals office conference would be offered. The final amendments provide for consideration by the Appeals office of these Collection and Employee Plans and Exempt Organization cases. The provisions relating to Employee Plans and Exempt Organization cases are described below. As to Collection cases previously considered only by the district director, § 601.106(a)(1)(ii)(*a*) provides that certain denials of extensions of time to pay estate tax liabilities may be appealed to the Appeals office. In addition, § 601.106(a)(1)(iii) provides that assessment of certain penalties provided under chapter 68 of the Code may be appealed to the Appeals office. Under § 601.106(a)(1)(iii), the appeal may be made before or after payment of the penalty, but shall be made before the filing of a claim for refund. Technical advice procedures do not apply to these appeals. Finally, under the single level system, Collection cases previously considered by the Appellate Division will also be considered by the Appeals office.

EMPLOYEE PLAN AND EXEMPT ORGANIZATION CASES

Under the single level system, appeals of adverse status determinations, or the impositions of taxes, in Employee Plans and Exempt Organization cases will be to the Appeals office. (§ 601.201 (n)(5), (n)(6), and (o)(6)). The certiorari appeal to the National Office previously provided in these cases is eliminated. However, a plan or organization retains the right to request technical advice from the National Office. Moreover, in Exempt Organization cases, the key district director or Appeals office must request technical advice on qualification for exemption or foundation status issues not covered by published precedent or if nonuniformity may exist. In addition, if a proposed disposition by an Appeals office is contrary to a prior National Office ruling or technical advice issued with respect to the plan or organization, the proposed disposition must be submitted to the National Office for approval. Cases in which the National Office issues technical advice with respect to an organization's or plan's qualification or an organization's status to the key district director may not be appealed to the Appeals office. The case will be disposed of in the district office in accordance with the holding in the technical advice memorandum. Similarly, if technical advice is issued to the Appeals office, the advice is binding and the case will be disposed of in accordance with the holding in the memorandum.

These amendments establish a new provision, § 601.201 (n)(9), which sets forth the technical advice procedures applicable in Employee Plans and Exempt Organization cases, whether considered by a key district director or the Appeals office. Generally, these procedures parallel the existing technical advice procedures for cases under the jurisdiction of the district director, set forth in § 601.105 (b)(5), with the differences reflecting only that the advice is requested by the key district director or the Appeals office, and is in connection with Employee Plans or Exempt Organization matters. Under these provisions, technical advice is issued by the Office of Assistant Commissioner (Employee Plans and Exempt Organizations) or, in a case under section 521 of the Code, by the Office of Assistant Commissioner (Technical) (§ 601.201 (n)(9)(i)(*e*)). In addition, as indicated above, § 601.201 (n)(9)(ii)(*b*) provides that, in certain Exempt Organization cases, requesting technical advice by the key district director or Appeals office is mandatory rather than discretionary if the issue is not covered by published precedent or if nonuniformity may exist. Similarly, § 601.201 (n)(9)(viii)(*a*) provides that the conclusions expressed in certain technical advice memoranda are final and will be followed by the key district office or Appeals office.

NEED FOR AMENDMENTS

The Internal Revenue Service has provided taxpayers with two opportunities to appeal administratively proposed adjustments in tax liability. The Internal Revenue Service believes that, by combining this two-tier procedure into a single level of appeal, significant improvements will be made in the administrative appeal system, which will benefit both taxpayers and the Internal Revenue Service. For the taxpayer, the single appeal system will save the time, effort, and money previously required to participate in two conferences which, for the most part, were duplicate procedures. Moreover, the merged system will provide all taxpayers with the opportunity to obtain full settlement of their disputes at the first conference. In addition, having this conference under the jurisdiction of the Appeals office will maintain and emphasize the separateness and independence of the appeal function of the Internal Revenue Service from its examination function. For the Internal Revenue Service, the merged system will also conserve the resources previously used in providing this duplicative procedure, resources which can be used more effectively in the administration of the tax laws.

With the creation of a new appeals organization, the Internal Revenue Service believes it appropriate that this organization consider all appeals, including those in Collection and Employee Plans and Exempt Organization cases. The Internal Revenue Service believes that having all appeals handled by a single organization, instead of fragmented throughout the region, will provide a uniform set of standards and procedures, and will result in an efficient use of resources, with the consequent benefit both to taxpayers and the Internal Revenue Service.

EFFECTS OF AMENDMENTS

The amendments will affect taxpayers, employee plans, exempt organizations, their representatives, and the Internal Revenue Service. For taxpayers and their representatives, the amendments will provide one instead of two levels of appeals within the Internal Revenue Service. In addition, the Appeals Officer in this single level will have full settlement authority. As to employee plans and exempt organizations, the amendments, as described above, make certain changes in the procedures relating to the consideration and processing of these cases by the Internal Revenue Service. As a result, the amendments may affect the dealings of these plans and organizations (or their representatives) with the Service.

For the Internal Revenue Service, the amendments will affect the utilization of personnel as certain cases will no longer be considered by the same regional office, district conferences will no longer be held, and a large Appeals office staff will be needed to handle the resulting case load. In addition, deployment of personnel will be affected since Appeals Officers will be stationed at all locations where there was previously a full-time district conferee or regional appellate staff, and will travel to all other locations where conferences were previously offered.

ALTERNATIVE APPROACHES CONSIDERED

These amendments represent the latest attempt in the continuing effort by the Internal Revenue Service to provide for the settling of disputes administratively in the fairest, and most expeditious manner possible, and to increase the number and percentage of cases settled without resort to the courts. Other approaches considered to achieve this goal have included in-

V 43 / 189 SEP 28 1978

creasing the settlement authority of the district conferee, liberalizing the written protest requirements, and improving the opportunities for conferences by increasing the circuit riding done by district and appellate conferees. The approach chosen is considered the least burdensome of the alternatives because it will achieve to a larger extent the aforementioned goal, while at the same time preserving for taxpayers all rights and benefits enjoyed under the previous appeal structure.

PUBLIC COMMENT

Some commenters opposed the establishment of this single level system, emphasizing that the prior system worked well in settling cases. They asserted that district and Appellate Division conferences were complementary, not duplicate, procedures in that the district conference handled small, simple, and factual issues on an informal basis, while the Appellate Division, which had more formal proceedings, handled disputes involving large proposed adjustments and complex legal issues. The commenters noted that, even in cases in which both conferences were used, many issues were resolved at the district level and those that were forwarded to Appellate were refined and clarified, thereby enhancing settlement opportunities. They further asserted that the single level system would increase the cost of administrative appeal to taxpayers, would increase the time required for settlement, and would increase the number of cases going forward to litigation. However, of those opposing the proposal, some agreed that a single level system could be developed that would be fair to taxpayers.

Other commenters supported the establishment of a single level of appeal. They emphasized that it would expedite the processing of controversies, that the previous system was duplicative and created the appearance—and perhaps also the fact—of lack of independence of the district conferee, and that the cost of maintenance of the dual system was out of proportion to the benefits to be derived from according taxpayers two opportunities to argue a case.

The proposal is being adopted. It is believed that, by eliminating duplicate procedures, the single level system will be more effective than the two-tier system in settling cases. This will lessen the overall cost to taxpayers of administrative appeal. It is believed that the full and fair consideration and resolution of legal and factual issues by the Internal Revenue Service will not be diminished under the single level system. This system will provide taxpayers the opportunity to have full settlement of their disputes at the first conference by a capable conferee who is distinctly separate and independent from the examiner. As noted, taxpayers will also continue to enjoy all other rights and benefits, other than district conference, that were previously provided. It is also believed that the single level system will allow the Internal Revenue Service to use resources previously devoted to providing this duplicative procedure more effectively in the administration of the tax laws, thereby benefiting all taxpayers. In addition, the new Appeals office will also consider Collection and Employee Plans and Exempt Organization cases, thereby providing taxpayers with a uniform set of standards and procedures for all appeals cases, while also contributing to the effective use of resources by the Internal Revenue Service.

Many commenters asserted that under the single level system taxpayers must be afforded the same opportunity to seek technical advice from the National Office as existed under district conference procedures. The final amendments provide for this same opportunity to request technical advice. The technical advice provisions applicable in Appeals office and Employee Plans and Exempt Organization cases are described earlier in this preamble.

Several commenters raised the issue of the availability of conferences under the single level system. Under this system, Appeals Officers will be stationed at all locations where there was previously a full-time district conferee or regional appellate staff and will travel to all other locations where conferences were previously offered. The Internal Revenue Service will also provide sufficient numbers of Appeals Officers to assure that single level conferences will be held with the same degree of promptness as district or regional conferences were offered.

A few commenters raised miscellaneous issues concerning procedures which are applicable only in cases under the jurisdiction of the district director. One example is the availability of Rev. Proc. 70-27, 1970-2 C.B. 509, relating to changes in method of accounting. Consistent with the goal of preserving all taxpayers' rights under the single level system, § 601.106 (f)(10)(viii)(*d*) provides that taxpayers may request permission from the Assistant Commissioner (Technical) to change a method of accounting and obtain a 10-year (or less) spread of the resulting adjustments. This request should be made prior to or at the first Appeals conference. Section 601.106 (f)(10)(viii)(*d*) further provides that the Appeals office has authority to allow a change and the resulting spread without referring the case to Technical.

REPORTING/RECORDKEEPING REQUIREMENTS

The amendments provide no new reporting burdens or recordkeeping requirements which are necessary for compliance.

PLAN FOR EVALUATING EFFECTIVENESS OF AMENDMENTS

The effectiveness of these amendments will be evaluated upon periodic collection and review of comments and data from the various offices of the Internal Revenue Service involved with the administrative appeal procedure.

DRAFTING INFORMATION

The principal author of these amendments is Mark L. Yecies of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service participated in developing the amendments, both on matters of substance and style.

ADOPTION OF AMENDMENTS TO THE STATEMENT OF PROCEDURAL RULES

Accordingly, the amendments to the Statement of Procedural Rules (26 CFR Part 601), as proposed, are hereby adopted, subject to the changes set forth below:

PARAGRAPH 1. Section 601.103, as amended in paragraph 1 of the notice of proposed amendments, is amended in the following respects:

1. Paragraph (b) is amended by revising the last sentence to read as set forth below.

2. Paragraph (c)(1) is revised to read as set forth below.

§ 601.103 *Summary of general tax procedure.*

* * * * *

(b) *Examination and determination of tax liability.* * * * If the taxpayer agrees to the proposed adjustments and the tax involved is an income, profits, estate, gift, or chapter 41, 42, 43, or 44 tax, and if the taxpayer waives restrictions on the assessment and collection of the tax (see § 601.105 (b)(4)), the deficiency will be immediately assessed.

(c) *Disputed liability*—(1) *General.* The taxpayer is given an opportunity to request that the case be considered by an Appeals office provided that office has jurisdiction (see § 601.106 (a)(3)). If the taxpayer requests such consideration, the case will be referred to the Appeals office which will afford the taxpayer the opportunity for a conference. The determination of tax liability by the Appeals office is final insofar as the taxpayer's appeal rights within the Service are concerned. Upon protest of cases under the jurisdiction of the Director of International Operations, exclusive settlement authority is vested in the Appeals office having jurisdiction of the place where the taxpayer requests the conference. If the taxpayer does not specify a location for the conference, or if the location specified is outside the territorial limits of the United States, the Washington, D.C. Appeals Office of the Mid-Atlantic Region assumes jurisdiction.

* * * * *

PAR. 2. Section 601.105, as amended in paragraph 2 of the notice of proposed amendments, is amended in the following respects:

1. The heading of paragraph (b)(2)(i) is amended by deleting the phrase *"Office audit"* and inserting in its place the phrase *"Office examination"* and by deleting the phrase *"Audit Division"* and inserting in its place the phrase *"Examination Division"*.

2. Paragraph (b)(2)(i) is amended by deleting the word "audited" and inserting in its place the word "examined", and by deleting the phrase "Audit Divisions" and inserting in its place the phrase "Examination Divisions" in the first sentence, and by deleting the phrase "audit techniques" and inserting in its place the phrase "examination techniques" in the second sentence.

3. Paragraph (b)(4) is amended by deleting the phrase "Chapter 42 taxes" in the sixth to last sentence and inserting in its place the phrase "chapter 41, 42, 43, or 44 taxes".

4. Paragraph (b)(5)(i)(*e*) is revised to read as set forth below.

5. Paragraph (b)(5)(ii)(*b*) is revised to read as set forth below.

6. Paragraph (b)(5)(iii)(*a*) is revised to read as set forth below.

7. The heading of paragraph (c)(1) is amended by deleting the phrase *"Office audit"* and inserting in its place the phrase *"Office examination"*.

8. Paragraph (c)(1)(i) is amended as follows:

a. The first sentence is amended by deleting the word "audit" and inserting in its place the word "examination".

b. The third sentence is amended by deleting the phrase "the regional Appellate Division" and inserting in its place the phrase "an Appeals office".

c. The fourth sentence is amended by deleting the phrase "Appellate Division" and inserting in its place the phrase "Appeals office".

9. Paragraph (c)(1)(ii) is amended as follows:

a. The first sentence is amended by deleting the word "audit" and inserting in its place the word "examination" and by deleting the phrase "Appellate Division".

b. The second sentence is amended by deleting the phrase "Appellate Division" and inserting in its place the phrase "Appeals office".

c. The third sentence is amended by deleting the phrase "the regional Appellate Division" and inserting in its place the phrase "an Appeals office".

d. The fourth sentence is amended by deleting the phrase "Appellate Division" and inserting in its place the phrase "Appeals office".

10. The heading of paragraph (c)(2) is amended by deleting the phrase *"Field audit"* and inserting in its place the phrase *"Field examination"*.

11. Paragraph (c)(2)(i) is amended by deleting the phrase "the regional Appellate Division" in the last sentence and inserting in its place the phrase "an Appeals office".

12. Paragraphs (c)(2) (ii) and (iii) are amended by deleting the phrase "Appellate Division" each time it appears and inserting in its place the phrase "Appeals office".

13. Paragraph (d)(2)(i) is redesignated paragraph (d)(2) and is amended by deleting the phrase "Appellate Division" each time it appears and inserting in its place the phrase "Appeals office", and by deleting the phrase "audit case" each time it appears and inserting in its place the phrase "examination case".

14. Paragraph (h) is revised to read as set forth below.

15. Paragraph (l) is deleted.

§ 601.105 *Examination of returns and claims for refund, credit or abatement; determination of correct tax liability.*

* * * * *

(b) *Examination of returns.* * * *

(5) *Technical advice from the National Office*—

(i) *Definition and nature of technical advice.* * * *

(e) The provisions of this subparagraph apply only to a case under the jurisdiction of a district director, but do not apply to an Employee Plans case under the jurisdiction of a key district director as provided in § 601.201(o) or to an Exempt Organization case under the jurisdiction of a key district director as provided in § 601.201(n). The technical advice provisions applicable to Employee Plans and Exempt Organization cases are set forth in § 601.201(n)(9). The provisions of this subparagraph do not apply to a case under the jurisdiction of the Bureau of Alcohol, Tobacco, and Firearms. They also do not apply to a case under the jurisdiction of an Appeals office, including a case previously considered by Appeals. The technical advice provisions applicable to a case under the jurisdiction of an Appeals office, other than Employee Plans and Exempt Organizations cases, are set forth in § 601.106(f)(10). A case remains under the jurisdiction of the district director even though an Appeals office has the identical issue under consideration in the case of another taxpayer (not related within the meaning of section 267 of the Code) in an entirely different transaction. Technical advice may not be requested with respect to a taxable period if a prior Appeals disposition of the same taxable period of the same taxpayer's case was based on mutual concessions (ordinarily with a Form 870-AD, Offer of Waiver of Restrictions on Assessment and Collection of Deficiency in Tax and of Acceptance of Overassessment). However, technical advice may be requested by a district director on issues previously considered in a prior Appeals disposition, not based on mutual concessions, of the same taxable periods of the same taxpayer with the concurrence of the Appeals office that had the case.

(ii) *Areas in which technical advice may be requested.* * * *

(b) District directors are encouraged to request technical advice on any technical or procedural question arising in connection with any case of the type described in subdivision (i) of this subparagraph which cannot be resolved on the basis of law, regulations, or a clearly applicable revenue ruling or other precedent issued by the National Office. This request should be made at the earliest possible stage of the examination process.

(iii) *Requesting technical advice.* (*a*) It is the responsibility of the district office to determine whether technical advice is to be requested on any issue before that office. However, while the case is under the jurisdiction of the district director, a taxpayer or his/her representative may request that an issue be referred to the National Office for technical advice on the grounds that a lack of uniformity exists as to the disposition of the issue, or that the issue is so unusual or complex as to warrant consideration by the National Office. This request should be made at the earliest possible stage of the examination process. While taxpayers are encouraged to make written requests setting forth the facts, law, and argument with respect to the issue, and reason for requesting National Office advice, a taxpayer may make the request orally. If, after considering the taxpayer's request, the examiner is of the opinion that the circumstances do not warrant referral of the case to the National Office, he/she will so advise the taxpayer. (See subdivision (iv) of this subparagraph for taxpayer's appeal rights where the examiner declines to request technical advice.)

* * * * *

(h) *Jeopardy assessments.* If the district director believes that the assessment or collection of a tax will be jeopardized by delay, he/she is authorized and required to assess the tax immediately, together with interest and other additional amounts provided by law, notwithstanding the restrictions on assessment or collection of income, estate, gift, or chapter 41, 42, 43, or 44 taxes contained in section 6213(a) of the Code. A jeopardy assessment does not deprive the taxpayer of the right to file a petition with the Tax Court. Collection of a tax in jeopardy may be immediately enforced by the district director upon notice and demand. To stay collection, the taxpayer may file with the district director a bond equal to the amount for which the stay is desired. The taxpayer may request a review in the Appeals office of whether the making of the assessment was reasonable under the circumstances and whether the amount assessed or demanded was appropriate under the circumstances. See section 7429. This request shall be made, in writing, within 30 days after the earlier of—

(1) The day on which the taxpayer is furnished the written statement described in section 7429(a)(1); or

V 43 / 189 SE 28 78 UMI

(2) The last day of the period within which this statement is required to be furnished.

An Appeals office conference will be granted as soon as possible and a decision rendered without delay.

. . . . . .

PAR. 3. Section 601.106, as amended in paragraph 3 of the notice of proposed amendments, is amended in the following respects:

1. Paragraph (a)(1) is revised to read as set forth below.

2. Paragraph (d)(3)(iii) is amended by deleting the second sentence.

3. Paragraph (f)(5) is amended by revising the first sentence to read as set forth below.

4. Paragraph (f)(7) is amended by deleting the phrase "Appellate Division" each time it appears and inserting in its place the phrase "Appeals office".

5. A new paragraph (f)(10) is added, reading as set forth below.

§ 601.106 *Appeals functions.*

(a) *General.* (1) (i) There are provided in each region Appeals offices with office facilities within the region. Unless they otherwise specify, taxpayers living outside the United States use the facilities of the Washington, D.C., Appeals Office of the Mid-Atlantic Region. Subject to the limitations set forth in subparagraphs (2) and (3) of this paragraph, the Commissioner has delegated to certain officers of the Appeals offices authority to represent the regional commissioner in those matters set forth in subdivisions (ii) through (iv) of this subparagraph. If a statutory notice of deficiency was issued by a district director or the Director of International Operations, the Appeals office may waive jurisdiction to the director who issued the statutory notice during the 90-day (or 150-day) period for filing a petition with the Tax Court, except where criminal prosecution has been recommended and not finally disposed of, or the statutory notice includes the ad valorem fraud penalty. After the filing of a petition in the Tax Court, the Appeals office continues to have exclusive jurisdiction of the case, subject to the provisions of subparagraph (2) of this paragraph. Subject to the exceptions and limitations set forth in subparagraph (2) of this paragraph, there is also vested in the Appeals offices authority to represent the regional commissioner in his/her exclusive authority to settle (*a*) all cases docketed in the Tax Court and designated for trial at any place within the territory comprising the region, and (*b*) all docketed cases originating in the office of any district director situated within the region, or in which jurisdiction has been transferred to the region, which are designated for trial at Washington, D.C., unless the petitioner resides in, and his/her books and records are located or can be made available in, the region which includes Washington, D.C.

(ii) Certain officers of the Appeals offices may represent the regional commissioner in his/her exclusive and final authority for the determination of—

(*a*) Federal income, profits, estate (including extensions for payment under section 6161(a)(2)), gift, or chapter 41, 42, 43, or 44 tax liability (whether before or after the issuance of a statutory notice of deficiency);

(*b*) Employment or certain Federal excise tax liability; and

(*c*) Liability for additions to the tax, additional amounts, and assessable penalties provided under chapter 68 of the Code.

in any case originating in the office of any district director situated in the region, or in any case in which jurisdiction has been transferred to the region. The taxpayer must request Appeals consideration and, in some instances, submit a written protest to the determination of liability made by the district director. No written protest is required in an office examination case. A written protest is required in a field examination case if the total amount of proposed additional tax, proposed overassessment, or claimed refund (or, in an offer in compromise, the total amount of assessed tax, penalty, and interest sought to be compromised) exceeds $2,500 for any taxable period.

(iii) Sections 6659(a)(1) and 6671(a) provide that additions to the tax, additional amounts, penalties and liabilities (collectively referred to in this subdivision as "penalties") provided by chapter 68 of the Code shall be paid upon notice and demand and shall be assessed and collected in the same manner as taxes. Certain Chapter 68 penalties may be appealed after assessment to the Appeals office. This postassessment appeal procedure applies to all but the following chapter 68 penalties:

(*a*) Penalties that are not subject to a reasonable cause determination (examples are additions to the tax for failure to pay estimated income tax under sections 6654 and 6655);

(*b*) Penalties that are subject to the deficiency procedures of subchapter B of chapter 63 of the Code (because the taxpayer has the right to appeal such penalties, such as those provided under section 6653 (a) and (b), prior to assessment);

(*c*) The 100-percent penalty provided under section 6672 (because the taxpayer has the opportunity to appeal this penalty prior to assessment); and

(*d*) The penalty in case of jeopardy provided under section 6658 (because there is an adequate postassessment appeal).

The appeal may be made before or after payment, but shall be made before the filing of a claim for refund. Technical advice procedures are not applicable to an appeal made under this subdivision.

(iv) The Appeals office considers cases involving the initial or continuing recognition of tax exemption and foundation classification. See § 601.201 (n)(5) and (n)(6). The Appeals office also considers cases involving the initial or continuing determination of employee plan qualification under subchapter D of chapter 1 of the Code. See § 601.201(o)(6). However, the jurisdiction of the Appeals office in these cases is limited as follows:

(*a*) In cases under the jurisdiction of a key district director (or the National Office) which involve an application for, or the revocation or modification of, the recognition of exemption or the determination of qualification, if the determination concerning exemption is made by a National Office ruling, or if National Office technical advice is furnished concerning exemption or qualification, the decision of the National Office is final. The organization/plan has no right of appeal to the Appeals office or any other avenue of administrative appeal. See § 601.201 (n)(5)(i), (n)(6)(ii)(*b*), (n)(9)(viii)(*a*), (o)(2)(iii), and (o)(6)(i).

(*b*) In cases already under the jurisdiction of an Appeals office, if the proposed disposition by that office is contrary to a National Office ruling concerning exemption, or to a National Office technical advice concerning exemption or qualification, issued prior to the case, the proposed disposition will be submitted, through the Office of the Regional Director of Appeals, to the Assistant Commissioner (Employee Plans and Exempt Organizations) or, in section 521 cases, to the Assistant Commissioner (Technical). The decision of the Assistant Commissioner will be followed by the Appeals office. See § 601.201 (n)(5)(iii), (n)(6)(ii)(*d*), (n)(6)(iv), and (o)(6)(iii).

. . . . . .

(f) *Conference and practice requirements.* • • •

(5) *Rule V.* In order to bring an income, profits, estate, gift, or chapter 41, 42, 43, or 44 tax case in prestatutory notice status, an employment or excise tax case, a penalty case, an Employee Plans and Exempt Organization case, a termination of taxable year assessment case, a jeopardy assessment case, or an offer in compromise before the Appeals office, the taxpayer or the taxpayer's representative should first request Appeals consideration and, when required, file with the district office, service center, of Office of International Operations a written protest setting forth specifically the reasons for the refusal to accept the findings. • • •

. . . . . .

(10) *Rule X—Technical advice from the National Office*—(i) *Definition and nature of technical advice.* (*a*) As used in this subparagraph, "technical advice" means advice or guidance as to the interpretation and proper application of internal revenue laws, related statutes, and regulations, to a specific set of facts, furnished by the National Office upon request of an Appeals office in connection with the processing and consideration of a nondocketed case. It is furnished as a means of assisting Service personnel in closing cases and establishing and maintaining consistent holdings in the various regions. It does not include memorandums on matters of general technical application furnished to Appeals offices where the issues are not raised in connection with the consideration and handling of a specific taxpayer's case.

(*b*) The provisions of this subparagraph do not apply to a case under the jurisdiction of a district director or the Bureau of Alcohol, Tobacco, and Firearms, to Employee Plans, Exempt Organization, or certain penalty cases being considered by an Appeals office, or to any case previously considered by an Appeals office. The technical advice provisions applicable to cases under the jurisdiction of a district director, other than Employee Plans and Exempt Organization cases, are set forth in § 601.105(b)(5). The technical advice provisions applicable to Employee Plans and Exempt Organization cases are set forth in § 601.201(n)(9). Technical advice may not be requested with respect to a taxable period if a prior Appeals disposition of the same taxable period of the same taxpayer's case was based on mutual concessions (ordinarily with a Form

870-AD, Offer of Waiver of Restrictions on Assessment and Collection of Deficiency in Tax and of Acceptance of Overassessment). However, technical advice may be requested by a district director on issues previously considered in a prior Appeals disposition, not based on mutual concessions, of the same taxable periods of the same taxpayer with the concurrence of the Appeals office that had the case.

(*c*) The consideration or examination of the facts relating to a request for a determination letter is considered to be in connection with the consideration and handling of a taxpayer's case. Thus, an Appeals office may, under this subparagraph, request technical advice with respect to the consideration of a request for a determination letter. The technical advice provisions applicable to a request for a determination letter in Employee Plans and Exempt Organization cases are set forth in § 601.201(n)(9).

(*d*) If an Appeals office is of the opinion that a ruling letter previously issued to a taxpayer should be modified or revoked and it requests the National Office to reconsider the ruling, the reference of the matter to the National Office is treated as a request for technical advice. The procedures specified in subdivision (iii) of this subparagraph should be followed in order that the National Office may consider the recommendation. Only the National Office can revoke a ruling letter. Before referral to the National Office, the Appeals office should inform the taxpayer of its opinion that the ruling letter should be revoked. The Appeals office, after development of the facts and consideration of the taxpayer's arguments, will decide whether to recommend revocation of the ruling to the National Office. For procedures relating to a request for a ruling, see § 601.201.

(e) The Assistant Commissioner (Technical), acting under a delegation of authority from the Commissioner of Internal Revenue, is exclusively responsible for providing technical advice in any issue involving the establishment of basic principles and rules for the uniform interpretation and application of tax laws in cases under this subparagraph. This authority has been largely redelegated to subordinate officials.

(ii) *Areas in which technical advice may be requested.* (*a*) Appeals offices may request technical advice on any technical or procedural question that develops during the processing and consideration of a case. These procedures are applicable as provided in subdivision (i) of this subparagraph.

(*b*) As provided in § 601.105(b)(5) (ii)(b) and (iii)(*a*), requests for technical advice should be made at the earliest possible stage of the examination process. However, if identification of an issue on which technical advice is appropriate is not made until the case is in Appeals, a decision to request such advice (in nondocketed cases) should be made prior to or at the first conference.

(*c*) Subject to the provisions of (*b*) of this subdivision, Appeals offices are encouraged to request technical advice on any technical or procedural question arising in connection with a case described in subdivision (i) of this subparagraph which cannot be resolved on the basis of law, regulations, or a clearly applicable revenue ruling or other precedent issued by the National Office.

(iii) *Requesting technical advice.* (*a*) It is the responsibility of the Appeals office to determine whether technical advice is to be requested on any issue being considered. However, while the case is under the jurisdiction of the Appeals office, a taxpayer or his/her representative may request that an issue be referred to the National Office for technical advice on the grounds that a lack of uniformity exists as to the disposition of the issue, or that the issue is so unusual or complex as to warrant consideration by the National Office. While taxpayers are encouraged to make written requests setting forth the facts, law, and argument with respect to the issue, and reason for requesting National Office advice, a taxpayer may make the request orally. If, after considering the taxpayer's request, the Appeals Officer is of the opinion that the circumstances do not warrant referral of the case to the National Office, he/she will so advise the taxpayer. (See subdivision (iv) of this subparagraph for taxpayer's appeal rights where the Appeals Officer declines to request technical advice.)

(*b*) When technical advice is to be requested, whether or not upon the request of the taxpayer, the taxpayer will be so advised, except as noted in (*j*) of this subdivision. If the Appeals office initiates the action, the taxpayer will be furnished a copy of the statement of the pertinent facts and the question or questions proposed for submission to the National Office. The request for advice should be so worded as to avoid possible misunderstanding, in the National Office, of the facts or of the specific point or points at issue.

(*c*) After receipt of the statement of facts and specific questions, the taxpayer will be given 10 calendar days in which to indicate in writing the extent, if any, to which he/she may not be in complete agreement. An extension of time must be justified by the taxpayer in writing and approved by the Chief, Appeals Office. Every effort should be made to reach agreement as to the facts and specific points at issue. If agreement cannot be reached, the taxpayer may submit, within 10 calendar days after receipt of notice from the Appeals office, a statement of his/her understanding as to the specific point or points at issue which will be forwarded to the National Office with the request for advice. An extension of time must be justified by the taxpayer in writing and approved by the Chief, Appeals Office.

(*d*) If the taxpayer initiates the action to request advice, and his/her statement of the facts and point or points at issue are not wholly acceptable to the Appeals office, the taxpayer will be advised in writing as to the areas of disagreement. The taxpayer will be given 10 calendar days after receipt of the written notice to reply to such notice. An extension of time must be justified by the taxpayer in writing and approved by the Chief, Appeals Office. If agreement cannot be reached, both the statements of the taxpayer and the Appeals office will be forwarded to the National Office.

(*e*) (*1*) In the case of requests for technical advice, the taxpayer must also submit, within the 10-day period referred to in (*c*) and (*d*) of this subdivision, whichever applicable (relating to agreement by the taxpayer with the statement of facts and points submitted in connection with the request for technical advice), the statement described in (*f*) of this subdivision of proposed deletions pursuant to section 6110(c) of the Code. If the statement is not submitted, the taxpayer will be informed by the Appeals office that the statement is required If the Appeals office does not receive the statement within 10 days after the taxpayer has been informed of the need for the statement, the Appeals office may decline to submit the request for technical advice. If the Appeals office decides to request technical advice in a case where the taxpayer has not submitted the statement of proposed deletions, the National Office will make those deletions which in the judgment of the Commissioner are required by section 6110(c) of the Code.

(*2*) The requirements included in this subparagraph relating to the submission of statements and other material with respect to proposed deletions to be made from technical advice memorandums before public inspection is permitted to take place do not apply to requests for any document to which section 6104 of the Code applies.

(*f*) In order to assist the Internal Revenue Service in making the deletions, required by section 6110(c) of the Code, from the text to technical advice memorandums which are open to public inspection pursuant to section 6110(a) of the Code, there must accompany requests for such technical advice either a statement of the deletions proposed by the taxpayer, or a statement that no information other than names, addresses, and taxpayer identifying numbers need be deleted. Such statements shall be made in a separate document. The statement of proposed deletions shall be accompanied by a copy of all statements of facts and supporting documents which are submitted to the National Office pursuant to (*c*) or (*d*) of this subdivision, on which shall be indicated, by the use of brackets, the material which the taxpayer indicates should be deleted pursuant to section 6110(c) of the Code. The statement of proposed deletions shall indicate the statutory basis for each proposed deletion. The statement of proposed deletions shall not appear or be referred to anywhere in the request for technical advice. If the taxpayer decides to request additional deletions pursuant to section 6110(c) of the Code prior to the time the National Office replies to the request for technical advice, additional statements may be submitted.

(*g*) If the taxpayer has not already done so, he/she may submit a statement explaining his/her position on the issues, citing precedents which the taxpayer believes will bear on the case. This statement will be forwarded to the National Office with the request for advice. If it is received at a later date, it will be forwarded for association with the case file.

(*h*) At the time the taxpayer is informed that the matter is being referred to the National Office, he/she will also be informed of the right to a conference in the National Office in the event an adverse decision is indicated, and will be asked to indicate whether a conference is desired.

(*i*) Generally, prior to replying to the request for technical advice, the National Office shall inform the taxpayer orally or in writing of the material likely to appear in the technical advice memorandum which the taxpayer proposed be deleted but which the Internal Revenue Service determined should not be deleted. If so informed, the taxpayer may submit within 10 days any further information, arguments, or other material in support of the position that such material be deleted. The Internal Revenue Service will attempt, if feasible, to resolve all disagreements with respect to proposed deletions prior to the time the Na-

V 43 / 189 SE 28 78

tional Office replies to the request for technical advice. However, in no event shall the taxpayer have the right to a conference with respect to resolution of any disagreements concerning material to be deleted from the text of the technical advice memorandum, but such matters may be considered at any conference otherwise scheduled with respect to the request.

(*f*) The provisions of (*a*) through (*i*) of this subdivision, relating to the referral of issues upon request of the taxpayer, advising taxpayers of the referral of issues, the submission of proposed deletions, and the granting of conferences in the National Office, are not applicable to technical advice memorandums described in section 6110(g)(5)(A) of the Code, relating to cases involving criminal or civil fraud investigations and jeopardy or termination assessments. However, in such cases, the taxpayer shall be allowed to provide the statement of proposed deletions to the National Office upon the completion of all proceedings with respect to the investigations or assessments, but prior to the date on which the Commissioner mails the notice pursuant to section 6110(f)(1) of the Code of intention to disclose the technical advice memorandum.

(*k*) Form 4463, Request for Technical Advice, should be used for transmitting requests for technical advice to the National Office.

(iv) *Appeal by taxpayers of determinations not to seek technical advice.* (*a*) If the taxpayer has requested referral of an issue before an Appeals office to the National Office for technical advice, and after consideration of the request, the Appeals Officer is of the opinion that the circumstances do not warrant such referral, he/she will so advise the taxpayer.

(*b*) The taxpayer may appeal the decision of the Appeals Officer not to request technical advice by submitting to that official, within 10 calendar days after being advised of the decision, a statement of the facts, law, and arguments with respect to the issue, and the reasons why the taxpayer believes the matter should be referred to the National Office for advice. An extension of time must be justified by the taxpayer in writing and approved by the Chief, Appeals Office.

(*c*) The Appeals Officer will submit the statement of the taxpayer to the Chief, Appeals Office, accompanied by a statement of the officer's reasons why the issue should not be referred to the National Office. The Chief will determine, on the basis of the statements submitted, whether technical advice will be requested. If the Chief determines that technical advice is not warranted, that official will inform the taxpayer in writing that he/she proposes to deny the request. In the letter to the taxpayer the Chief will (except in unusual situations where such action would be prejudicial to the best interests of the Government) state specifically the reasons for the proposed denial. The taxpayer will be given 15 calendar days after receipt of the letter in which to notify the Chief whether the taxpayer agrees with the proposed denial. The taxpayer may not appeal the decision of the Chief, Appeals Office not to request technical advice from the National Office. However, if the taxpayer does not agree with the proposed denial, all data relating to the issue for which technical advice has been sought, including the taxpayer's written request and statements, will be submitted to the National Office, Attention: Director, Appeals Division, for review. After review in the National Office, the Appeals office will be notified whether the proposed denial is approved or disapproved.

(*d*) While the matter is being reviewed in the National Office, the Appeals office will suspend action on the issue (except where the delay would prejudice the Government's interests) until it is notified of the National Office decision. This notification will be made within 30 days after receipt of the data in the National Office. The review will be solely on the basis of the written record and no conference will be held in the National Office.

(v) *Conference in the National Office.* (*a*) If, after a study of the technical advice request, it appears that advice adverse to the taxpayer should be given and a conference has been requested, the taxpayer will be notified of the time and place of the conference. If conferences are being arranged with respect to more than one request for advice involving the same taxpayer, they will be so scheduled as to cause the least inconvenience to the taxpayer. The conference will be arranged by telephone, if possible, and must be held within 21 calendar days after contact has been made. Extensions of time will be granted only if justified in writing by the taxpayer and approved by the appropriate Technical branch chief.

(*b*) A taxpayer is entitled, as a matter of right, to only one conference in the National Office unless one of the circumstances discussed in (*c*) of this subdivision exists. This conference will usually be held at the branch level in the appropriate division (Corporation Tax Division or Individual Tax Division) in the Office of the Assistant Commissioner (Technical), and will usually be attended by a person who has authority to act for the branch chief. In appropriate cases the Appeals Officer may also attend the conference to clarify the facts in the case. If more than one subject is discussed at the conference, the discussion constitutes a conference with respect to each subject. At the request of the taxpayer or the taxpayer's representative, the conference may be held at an earlier stage in the consideration of the case than the Service would ordinarily designate. A taxpayer has no "right" of appeal from an action of a branch to the director of a division or to any other National Office official.

(*c*) In the process of review of a holding proposed by a branch, it may appear that the final answer will involve a reversal of the branch proposal with a result less favorable to the taxpayer. Or it may appear that an adverse holding proposed by a branch will be approved, but on a new or different issue or on different grounds than those on which the branch decided the case. Under either of these circumstances, the taxpayer or the taxpayer's representative will be invited to another conference. The provisions of this subparagraph limiting the number of conferences to which a taxpayer is entitled will not foreclose inviting a taxpayer to attend further conferences when, in the opinion of National Office personnel, such need arises. All additional conferences of this type discussed are held only at the invitation of the Service.

(*d*) It is the responsibility of the taxpayer to furnish to the National Office, within 21 calender days after the conference, a written record of any additional data, line of reasoning, precedents, etc., that were proposed by the taxpayer and discussed at the conference but were not previously or adequately presented in writing. Extensions of time will be granted only if justified in writing by the taxpayer and approved by the appropriate Technical branch chief. Any additional material and a copy thereof should be addressed to and sent to the National Office which will forward the copy to the appropriate Appeals office. The Appeals office will be requested to give the matter prompt attention, will verify the additional facts and data, and will comment on it to the extent deemed appropriate.

(*e*) A taxpayer or the taxpayer's representative desiring to obtain information as to the status of the case may do-so by contacting the following offices with respect to matters in the areas of their responsibility:

OFFICIAL AND TELEPHONE NUMBERS (AREA CODE 202)

Director, Corporation Tax Division, 566-4505 or 566-4505
Director, Individual Tax Division, 566-3767 or 566-3788.

(vi) *Preparation of technical advice memorandum by the National Office.* (*a*) Immediately upon receipt in the National Office, the technical employee to whom the case is assigned will analyze the file to ascertain whether it meets the requirements of subdivision (iii) of this subparagraph. If the case is not complete with respect to any requirement in subdivision (iii) (*a*) through (*d*) of this subparagraph, appropriated steps will be taken to complete the file. If any request for technical advice does not comply with the requirements of subdivision (iii)(*e*) of this subparagraph, relating to the statement of proposed deletions, the National Office will make those deletions from the technical advice memorandum which in the judgment of the Commissioner are required by section 6110(c) of the Code.

(*b*) If the taxpayer has requested a conference in the National Office, the procedures in subdivision (v) of this subparagraph will be followed.

(*c*) Replies to requests for technical advice will be addressed to the Appeals office and will be drafted in two parts. Each part will identify the taxpayer by name, address, identification number, and year or years involved. The first part (hereafter called the "technical advice memorandum") will contain (*1*) a recitation of the pertinent facts having a bearing on the issue; (*2*) a discussion of the facts, precedents, and reasoning of the National Office; and (*3*) the conclusions of the National Office. The conclusions will give direct answers, whenever possible, to the specific questions of the Appeals office. The discussion of the issues will be in such detail that the Appeals office is apprised of the reasoning underlying the conclusion. There shall accompany the technical advice memorandum a notice, pursuant to section 6110(f)(1) of the Code, of intention to disclose the technical advice memorandum (including a copy of the version proposed to be open to public inspection and notations of third party communications pursuant to section 6110(d) of the Code) which the Appeals office shall forward to the taxpayer at such time that it furnishes a copy of the technical advice memorandum to the taxpayer pursuant to (*e*) of this subdivision and subdivision (vii)(*b*) of this subparagraph.

(*d*) The second part of the reply will consist of a transmittal memorandum. In the

unusual cases it will serve as a vehicle for providing the Appeals office administrative information or other information which, under the nondisclosure statutes, or for other reasons, may not be discussed with the taxpayer.

(*e*) It is the general practice of the Service to furnish a copy of the technical advice memorandum to the taxpayer after it has been adopted by the Appeals office. However, in the case of technical advice memoranda described in section 6110(g)(5)(A) of the Code, relating to cases involving criminal or civil fraud investigations and jeopardy or termination assessments, a copy of the technical advice memorandum shall not be furnished the taxpayer until all proceedings with respect to the investigations or assessments are completed.

(*f*) After receiving the notice pursuant to section 6110(f)(1) of the Code of intention to disclose the technical advice memorandum, the taxpayer, if desiring to protest the disclosure of certain information in the memorandum, must, within 20 days after the notice is mailed, submit a written statement identifying those deletions not made by the Internal Revenue Service which the taxpayer believes should have been made. The taxpayer shall also submit a copy of the version of the technical advice memorandum proposed to be open to public inspection on which the taxpayer indicates, by the use of brackets, the deletions proposed by the taxpayer but which have not been made by the Internal Revenue Service. Generally, the Internal Revenue Service will not consider the deletion of any material which the taxpayer did not, prior to the time when the National Office sent its reply to the request for technical advice to the Appeals office, propose be deleted. The Internal Revenue Service shall, within 20 days after receipt of the response by the taxpayer to the notice pursuant to section 6110(f)(1) of the Code, mail to the taxpayer its final administrative conclusion regarding the deletions to be made.

(vii) *Action on technical advice in Appeals offices.* (*a*) Unless the Chief, Appeals Office, feels that the conclusions reached by the National Office in a technical advice memorandum should be reconsidered and promptly requests such reconsideration, the Appeals office will proceed to process the taxpayer's case taking into account the conclusions expressed in the technical advice memorandum. The effect of technical advice on the taxpayer's case is set forth in subdivision (viii) of this subparagraph.

(*b*) The Appeals office will furnish the taxpayer a copy of the technical advice memorandum described in subdivision (vi)(*c*) of this subparagraph and the notice pursuant to section 6110(f)(1) of the Code of intention to disclose the technical advice memorandum (including a copy of the version proposed to be open to public inspection and notations of third party communications pursuant to section 6110(d) of the Code). The preceding sentence shall not apply to technical advice memoranda involving civil fraud or criminal investigations, or jeopardy or termination assessments, as described in subdivision (iii)(*j*) of this subparagraph (except to the extent provided in subdivision (vi)(*e*) of this subparagraph) or to documents to which section 6104 of the Code applies.

(*c*) In those cases in which the National Office advises the Appeals office that it should not furnish a copy of the technical advice memorandum to the taxpayer, the Appeals office will so inform the taxpayer if he/she requests a copy.

(viii) *Effect of technical advice.* (*a*) A technical advice memorandum represents an expression of the views of the Service as to the application of law, regulations, and precedents to the facts of a specific case, and is issued primarily as a means of assisting Service officials in the closing of the case involved.

(*b*) Except in rare or unusual circumstances, a holding in a technical advice memorandum that is favorable to the taxpayer is applied retroactively. Moreover, since technical advice, as described in subdivision (i) of this subparagraph, is issued only on closed transactions, a holding in a technical advice memorandum that is adverse to the taxpayer is also applied retroactively unless the Assistant Commissioner or Deputy Assistant Commissioner (Technical) exercises the discretionary authority under section 7805(b) of the Code to limit the retroactive effect of the holding. Likewise, a holding in a technical advice memorandum that modifies or revokes a holding in a prior technical advice memorandum will also be applied retroactively, with one exception. If the new holding is less favorable to the taxpayer, it will generally not be applied to the period in which the taxpayer relied on the prior holding in situations involving continuing transactions of the type described in § 601.201(l)(7) and § 601.201(l)(8).

(*c*) The Appeals office is bound by technical advice favorable to the taxpayer. However, if the technical advice is unfavorable to the taxpayer, the Appeals office may settle the issue in the usual manner under existing authority. For the effect of technical advice in Employee Plans and Exempt Organization cases, see § 601.201(n)(9)(viii).

(*d*) In connection with section 446 of the Code, taxpayers may request permission from the Assistant Commissioner (Technical) to change a method of accounting and obtain a 10-year (or less) spread of the resulting adjustments. Such a request should be made prior to or at the first Appeals conference. The Appeals office has authority to allow a change and the resulting spread without referring the case to Technical.

(*e*) Technical advice memoranda often form the basis for revenue rulings. For the description of revenue rulings and the effect thereof, see §§ 601.601(d)(2)(i)(*a*) and 601.601(d)(2)(v).

(*f*) An Appeals office may raise an issue in a taxable period, even though technical advice may have been asked for and furnished with regard to the same or a similar issue in any other taxable period.

* * * * *

PAR. 4. Section 601.109, as amended in paragraph 5 of the notice of proposed amendments, is amended in the following respects:

1. Paragraphs (b) (1) and (3) are amended by deleting the phrase "Appellate Division" each time it appears and inserting in its place the phrase "Appeals office".

2. Paragraph (c)(1) is redesignated paragraph (c) and is amended as follows:

a. The heading is amended by deleting the phrase *"Appellate Division"* and inserting in its place the phrase *"Appeals office"*.

b. The first sentence is amended by deleting the phrase "a field office of the Appellate Division" and inserting in its place the phrase "an Appeals office".

c. The second sentence is amended by deleting the phrase "Appellate Division" and inserting in its place the phrase "Appeals office".

3. Paragraph (c)(2) is deleted.

PAR. 5. Section 601.201 is amended in the following respects:

1. Paragraph (n)(2)(ii) is amended by revising the fifth sentence to read as set forth below.

2. A new paragraph (n)(2)(iv) is added, reading as set forth below.

3. Paragraph (n)(4) is amended by revising the last sentence to read as set forth below.

4. Paragraph (n)(5) is revised to read as set forth below.

5. Paragraph (n)(6)(ii) is revised to read as set forth below.

6. Paragraph (n)(6)(iv) is revised to read as set forth below.

7. Paragraph (n)(6)(vi) is amended by deleting the words "protest and conference" from the fifth sentence.

8. Paragraph (n)(6)(viii) is revised to read as set forth below.

9. Paragraph (n)(7)(v) is revised to read as set forth below.

10. Paragraph (n)(9) is added, reading as set forth below.

11. Paragraph (o)(1) is amended by revising the last five sentences to read as set forth below.

12. A new paragraph (0)(2)(iii) is added, reading as set forth below.

13. Paragraph (o)(6) is revised to read as set forth below.

14. Paragraph (o)(7) is deleted and paragraphs (o)(8), (o)(9), (o)(10), and (o)(11) are redesignated paragraphs (o)(7), (o)(8), (o)(9), and (o)(10) respectively.

15. New paragraph (o)(7) (formerly paragraph (o)(8)) is revised to read as set forth below.

16. New paragraph (o)(8)(i) (formerly paragraph (o)(9)(i)) is amended by revising the first sentence to read as set forth below.

17. New paragraph (o)(8)(ii) (formerly paragraph (o)(9)(ii)) is amended by revising the last sentence to read as set forth below.

18. New paragraph (o)(9) (formerly paragraph (o)(10)) is revised to read as set forth below.

19. New paragraph (o)(10) (formerly paragraph (o)(11)) is amended by deleting the phrase "(11)" each time it appears and inserting in its place the phrase "(10)".

20. New paragraph (o)(10)(i) (formerly paragraph (o)(11)(i)) is revised to read as set forth below.

§ 601.201 Rulings and determination letters.

V 43 / 189 SEP 28 78

(n) *Organization claiming exemption under section 501 or 521 of the Code.* * * *

(2) *Processing applications and requests for determination of foundation status.* * * *

(ii) * * * If a conference is requested, the conference procedures set forth in subparagraph (9)(v) of this paragraph will be followed. * * *

(iv) If the exemption application or request for foundation status involves an issue which is not covered by published precedent or on which there may be nonuniformity between districts, or if the National Office had issued a previous contrary ruling or technical advice on the issue, the key district director must request technical advice from the National Office. If, during the consideration of its application or request by a key district director, the organization believes that the case involves an issue with respect to which referral for technical advice is appropriate, the organization may ask the district director to request technical advice from the National Office. The district director shall advice the organization of its right to request referral of the issue to the National Office for technical advice. The technical advice provisions applicable to these cases are set forth in subparagraph (9) of this paragraph. The effect on an organization's appeal rights of technical advice or a National Office ruling issued under this subparagraph are set forth in § 601.106(a)(1)(iv)(*a*) and in subparagraph (5)(ii) of this paragraph.

(4) *National Office review of determination letters.* * * * The referral will be treated as a request for technical advice and the procedures of subparagraph (9) of this paragraph will be followed.

(5) *Protest of adverse determination letters.* (i) Upon the issuance of an adverse determination letter, the key district director will advise the organization of its right to protest the determination by requesting Appeals office consideration. However, if the determination was made on the basis of National Office technical advice, the organization may not appeal the determination to the Appeals office. See § 601.106(a)(1)(iv)(*a*). To request Appeals consideration, the organization shall submit to the key district director, within 30 days from the date of the letter, a statement of the facts, law, and arguments in support of its position. The organization must also state whether it wishes an Appeals office conference. Upon receipt of an organization's request for Appeals consideration, the key district director will, if it maintains its position, forward the request and the case file to the Appeals office.

(ii) Except as provided in subdivisions (iii) and (iv) of this subparagraph, the Appeals office, after considering the organization's protest and any additional information developed, will advise the organization of its decision and issue an appropriate determination letter. Organizations should make full presentation of the facts, circumstances, and arguments at the initial level of consideration, since submission of additional facts, circumstances, and arguments at the Appeals office may result in suspension of Appeals procedures and referral of the case back to the key district for additional consideration.

(iii) If the proposed disposition by the Appeals office is contrary to a National Office technical advice or ruling concerning tax exemption, issued prior to the case, the proposed disposition will be submitted, through the Office of the Regional Director of Appeals, to the Assistant Commissioner (Employee Plans and Exempt Organizations) or, in a section 521 case, to the Assistant Commissioner (Technical). The decision of the Assistant Commissioner will be followed by the Appeals office. See § 601.106(a)(1)(iv)(*b*).

(iv) If the case involves an issue that is not covered by published precedent or on which there may be nonuniformity between regions, and on which the National Office has not previously ruled, the Appeals office must request technical advice from the National Office. If, during the consideration of its case by Appeals, the organization believes that the case involves an issue with respect to which referral for technical advice is appropriate, the organization may ask the Appeals office to request technical advice from the National Office. The Appeals office shall advise the organization of its right to request referral of the issue to the National Office for technical advice. If the Appeals office requests technical advice, the decision of the Assistant Commissioner (Employee Plans and Exempt Organizations) or, in a section 521 case, the decision of the Assistant Commissioner (Technical), in a technical advice memorandum is final and the Appeals office must dispose of the case in accordance with that decision. See subparagraph (9)(viii)(*a*) of this paragraph.

(6) *Revocation or modification of rulings or determination letters on exemption and foundation status.* * * *

(ii)(*a*) If a key district director concludes as a result of examining an information return, or considering information from any other source, that an exemption ruling or determination letter should be revoked or modified, the organization will be advised in writing of the proposed action and the reasons therefor. If the case involves an issue not covered by published precedent or on which there may be nonuniformity between districts, or if the National Office had issued a previous contrary ruling or technical advice on the issue, the district director must seek technical advice from the National Office. If the organization believes that the case involves an issue with respect to which referral for technical advice is appropriate, the organization may ask the district director to request technical advice from the National Office. The district director shall advise the organization of its right to request referral of the issue to the National Office for technical advice.

(*b*) The key district director will advise the organization of its right to protest the proposed revocation or modification by requesting Appeals office consideration. However, if National Office technical advice was furnished concerning revocation or modification under (*a*) of this subdivision, the decision of the Assistant Commissioner in the technical advice memorandum is final and the organization has no right of appeal to the Appeals office. See § 601.106(a)(1)(iv)(*a*). To request Appeals consideration, the organization must submit to the key district director, within 30 days from the date of the letter, a statement of the facts, law, and arguments in support of its continued exemption. The organization must also state whether it wishes an Appeals office conference. Upon receipt of an organization's request for Appeals consideration, the key district office, will, if it maintains its position, forward the request and the case file to the Appeals office.

(*c*) Except as provided in (*d*) and (*e*) of this subdivision, the Appeals office, after considering the organization's protest and any additional information developed, will advise the organization of its decision and issue an appropriate determination letter. Organizations should make full presentation of the facts, circumstances, and arguments at the initial level of consideration, since submission of additional facts, circumstances, and arguments at the Appeals office may results in suspension of Appeals procedures and referral of the case back to the key district for additional consideration.

(*d*) If the proposed disposition by the Appeals office is contrary to a National Office technical advice or ruling concerning tax exemption, issued prior to the case, the proposed disposition will be submitted, through the Office of the Regional Director of Appeals, to the Assistant Commissioner (Employee Plans and Exempt Organizations) or, in a section 521 case, to the Assistant Commissioner (Technical). The decision of the Assistant Commissioner will be followed by the Appeals office. See § 601.106(a)(1)(iv)(*b*).

(*e*) If the case involves an issue that is not covered by published precedent or on which there may be nonuniformity between regions, and on which the National Office has not previously ruled, the Appeals office must request technical advice from the National Office. If the organization believes that the case involves an issue with respect to which referral for technical advice is appropriate, the organization may ask the Appeals office to request technical advice from the National Office. The Appeals office shall advise the organization of its right to request referral of the issue to the National Office for technical advice.

(iv) If a key district director concludes that a ruling or determination letter concerning private foundation or operating foundation status should be revoked or modified, the organization will be advised in writing of the proposed adverse action, the reasons therefor, and the proposed new determination of foundation status. The procedures set forth in subdivision (ii) of this subparagraph apply to a proposed revocation or modification under this subdivision. Unless the effective date of revocation or modification of a ruling or determination letter concerning private foundation or operating foundation status is expressly covered by statute or regulations, the effective date generally is the same as the effective date of revocation or modification of exemption rulings or determination letters as provided in subdivision (i) of this subparagrah.

(viii) The provisions of this subparagraph relating to protests, conferences, and the rights of organizations to ask that technical advice be requested before a revocation (or modification) notice is issued are not applicable to matters where delay would be prejudicial to the interests of the Internal Revenue Service (such as in cases involving fraud, jeopardy, the imminence of the expiration of the period of limitations, or where immediate action is necessary to protect the interests of the Government).

(7) *Declaratory judgments relating to status and classification of organizations under section 501(c)(3) of the Code.* * * *

(v) An organization will in no event be deemed to have exhausted its administrative remedies prior to the completion of the steps described in subdivision (iv) of this subparagraph and the earlier of:

(*a*) The sending by certified or registered mail of a notice of final determination; or

(*b*) The expiration of the 270-day period described in section 7428(b)(2) of the Code, in a case in which the Service has not issued a notice of final determination and the organization has taken, in a timely manner, all reasonable steps to secure a ruling or determination.

(9) *Technical advice from the National Office*—(i) *Definition and nature of technical advice.* (*a*) As used in this subparagraph, "technical advice" means advice or guidance as to the interpretation and proper application of internal revenue laws, related statutes, and regulations, to a specific set of facts, in Employee Plans and Exempt Organization matters, furnished by the National Office upon request of a key district office or Appeals office in connection with the processing and consideration of a nondocketed case. It is furnished as a means of assisting Service personnel in closing cases and establishing and maintaining consistent holdings. It does not include memoranda on matters of general technical application furnished to key district offices or to Appeals offices where the issues are not raised in connection with the consideration and handling of a specific case.

(*b*) The provisions of this subparagraph only apply to Employee Plans and Exempt Organization cases being considered by a key district director or Appeals office. They do not apply to any other case under the jurisdiction of a district director or Appeals office or to a case under the jurisdiction of the Bureau of Alcohol, Tobacco, and Firearms. The technical advice provisions applicable to cases under the jurisdiction of a district director, other than Employee Plans and Exempt Organization cases, are set forth in § 601.105(b)(5). The technical advice provisions applicable to cases under the jurisdiction of an Appeals office, other than Employee Plans and Exempt Organization cases are set forth in § 601.106(f)(10).

(*c*) A key district director or an Appeals office may, under this subpargraph, request technical advice with respect to the consideration of a request for a determination letter. If the cases involves certain Exempt Organization issues that are not covered by published precedent or on which there may be nonuniformity, requesting technical advice is mandatory rather than discretionary. See subparagraphs (2)(iv) and (5)(iii) of this paragraph.

(*d*) If a key district director is of the opinion that a National Office ruling letter or technical advice previously issued should be modified or revoked and it requests the National Office to reconsider the ruling or technical advice, the reference of the matter to the National Office is treated as a request for technical advice. The procedures specified in subdivision (iii) of this subparagraph should be followed in order that the National Office may consider the recommendation. Only the National Office can revoke a National Office ruling letter or technical advice. Before referral to the National Office, the key district director should inform the plan/organization of its opinion that the ruling letter or technical advice should be revoked. The key district director, after development of the facts and consideration of the arguments, will decide whether to recommend revocation of the ruling or technical advice to the National Office.

(*e*) The Assistant Commissioner (Employee Plans and Exempt Organizations) and, in section 521 cases, the Assistant Commissioner (Technical), acting under a delegation of authority from the Commissioner of Internal Revenue, are exclusively responsible for providing technical advice in any issue involving the establishment of basic principles and rules for the uniform interpretation and application of tax laws in cases under this subparagraph. This authority has been largely redelegated to subordinate officials.

(ii) *Areas in which technical advice may be requested.* (*a*) Key district directors and Appeals offices may request technical advice on any technical or procedural question that develops during the processing and consideration of a case. These procedures are applicable as provided in subdivision (i) of this subparagraph.

(*b*) Key district directors and Appeals offices are encouraged to request technical advice on any technical or procedural question arising in connection with any case described in subdivision (i) of this subparagraph which cannot be resolved on the basis of law, regulations, or a clearly applicable revenue ruling or other precedent issued by the National Office. However, in Exempt Organization cases concerning qualification for exemption or foundation status, key district directors and Appeals offices must request technical advice on any issue that is not covered by published precedent or on which nonuniformity may exist. Requests for technical advice should be made at the earliest possible stage of the proceedings.

(iii) *Requesting technical advice.* (*a*) It is the responsibility of the key district office or the Appeals office to determine whether technical advice is to be requested on any issue before that office. However, while the case is under the jurisdiction of the key district director or the Appeals office, an employee plan/organization or its representative may request that an issue be referred to the National Office for technical advice on the grounds that a lack of uniformity exists as to the disposition of the issue, or that the issue is so unusual or complex as to warrant consideration by the National Office. This request should be made at the earliest possible stage of the proceedings. While plans/organizations are encouraged to make written requests setting forth the facts, law, and argument with respect to the issue, and reason for requesting National Office advice, a plan/organization may make the request orally. If, after considering the plan's/organization's request, the examiner or the Appeals Officer is of the opinion that the circumstances do not warrant referral of the case to the National Office, he/she will so advise the plan/organization. (See subdivision (iv) of this subparagraph for a plan's/organization's appeal rights where the examiner or Appeals Officer declines to request technical advice.)

(*b*) When technical advice is to be requested, whether or not upon the request of the plan/organization, the plan/organization will be so advised, except as noted in (*j*) of this subdivision. If the key district office or the Appeals office initiates the action, the plan/organization will be furnished a copy of the statement of the pertinent facts and the question or questions proposed for submission to the National Office. The request for advice should be so worded as to avoid possible misunderstanding, in the National Office, of the facts or of the specific point or points at issue.

(*c*) After receipt of the statement of facts and specific questions, the plan/organization will be given 10 calendar days in which to indicate in writing the extent, if any, to which it may not be in complete agreement. An extension of time must be justified by the plan/organization in writing and approved by the Chief, Employee Plans and Exempt Organizations Division (in the district office) of the Chief, Appeals Office, as the case may be. Every effort should be made to reach agreement as to the facts and specific points at issue. If agreement cannot be reached, the plan/organization may submit, within 10 calendar days after receipt of notice from the key district director or the Appeals office, a statement of its understanding as to the specific point or points at issue which will be forwarded to the National Office with the request for advice. An extension of time must be justified by the plan/organization in writing and approved by the Chief, Employee Plans and Exempt Organizations Division or the Chief, Appeals Office.

(*d*) If the plan/organization initiates the action to request advice, and its statement of the facts and point or points at issue are not wholly acceptable to the key district office or the Appeals office, the plan/organization will be advised in writing as to the areas of disagreement. The plan/organization will be given 10 calendar days after receipt of the written notice to reply to such notice. An extension of time must be justified by the plan/organization in writing and approved by the Chiefs, Employee Plans and Exempt Organizations Division or the Chief, Appeals Office. If agreement cannot be reached, both the statements of the plan/organization and the key district office or the Appeals office will be forwarded to the National Office.

(*e*) (*1*) In the case of requests for technical advice subject to the disclosure provisions of section 6110 of the Code, the plan/organization must also submit, within the 10-day period referred to in (*c*) and (*d*) of this subdivision, whichever applicable (relating to agreement by the plan/organization with the statement of facts and points submitted in connection with the request for technical advice) the statement described in (*f*) of this subdivision of proposed deletions pursuant to section 6110(c) of the Code. If the statement is not submitted, the plan/organization will be informed by the key district director or the Appeals office that the statement is required. If the key district director or the Appeals office does not receive the statement within 10 days after the plan/organization has been informed of the need for the statement, the key district director or the Appeals office may decline to submit the request for technical advice. If the key district director or the Appeals office decides to request technical advice in a case where the plan/organization has not sub-

mitted the statement of proposed deletions, the National Office will make those deletions which in the judgment of the Commissioner are required by section 6110(c) of the Code.

(2) The requirements included in this subparagraph, relating to the submission of statements and other material with respect to proposed deletions to be made from technical advice memoranda before public inspection is permitted to take place, do not apply to requests made by the key district director before November 1, 1976, or requests for any document to which section 6104 of the Code applies.

(*f*) In order to assist the Internal Revenue Service in making the deletions, required by section 6110(c) of the Code, from the text of technical advice memoranda which are open to public inspection pursuant to section 6110(a) of the Code, there must accompany requests for such technical advice either a statement of the deletions proposed by the plan/organization, or a statement that no information other than names, addresses, and identifying numbers need be deleted. Such statements shall be made in a separate document. The statement of proposed deletions shall be accompanied by a copy of all statements of facts and supporting documents which are submitted to the National Office pursuant to (c) or (*d*) of this subdivision, on which shall be indicated, by the use of brackets, the material which the plan/organization indicates should be deleted pursuant to section 6110(c) of the Code. The statement of proposed deletions shall indicate the statutory basis for each proposed deletion. The statement of proposed deletions shall not appear or be referred to anywhere in the request for technical advice. If the plan/organization decides to request additional deletions pursuant to section 6110(c) of the Code prior to the time the National Office replies to the request for technical advice, additional statements may be submitted.

(*g*) If the plan/organization has not already done so, it may submit a statement explaining its position on the issues, citing precedents which it believes will bear on the case. This statement will be forwarded to the National Office with the request for advice. If it is received at a later date, it will be forwarded for association with the case file.

(*h*) At the time the plan/organization is informed that the matter is being referred to the National Office, it will also be informed of the right to a conference in the National Office in the event an adverse decision is indicated, and will be asked to indicate whether a conference is desired.

(*i*) Generally, prior to replying to the request for technical advice, the National Office shall inform the plan/organization orally or in writing of the material likely to appear in the technical advice memorandum which the plan/organization proposed be deleted but which the Internal Revenue Service determined should not be deleted. If so informed, the plan/organization may submit within 10 days any further information, arguments, or other material in support of the position that such material be deleted. The Internal Revenue Service will attempt, if feasible, to resolve all disagreements with respect to proposed deletions prior to the time the National Office replies to the request for technical advice. However, in no event shall the plan/organization have the right to a conference with respect to resolution of any disagreements concerning material to be deleted from the text of the technical advice memorandum, but such matters may be considered at any conference otherwise scheduled with respect to the request.

(*j*) The provisions of (*a*) through (*i*) of this subdivision, relating to the referral of issues upon request of the plan/organization, advising plans/organizations of the referral of issues, the submission of proposed deletions, and the granting of conferences in the National Office, are not applicable to technical advice memoranda described in section 6110(g)(5)(A) of the Code, relating to cases involving criminal or civil fraud investigations and jeopardy or termination assessments. However, in such cases the plan/organization shall be allowed to provide the statement of proposed deletions to the National Office upon the completion of all proceedings with respect to the investigations or assessments, but prior to the date on which the Commissioner mails the notice pursuant to section 6110(f)(1) of the Code of intention to disclose the technical advice memorandum.

(*k*) Form 4463, Request for Technical Advice, should be used for transmitting requests for technical advice to the National Office.

(iv) *Appeal by plan/organizations of determinations not to seek technical advice.* (*a*) If the plan/organization has requested referral of an issue before a key district office or an Appeals office to the National Office for technical advice, and after consideration of the request the examiner or the Appeals Officer is of the opinion that the circumstances do not warrant such referral, he/she will so advise the plan/organization.

(*b*) The plan/organization may appeal the decision of the examiner or the Appeals Officer not to request technical advice by submitting to the relevant official, within 10 calendar days after being advised of the decision, a statement of the facts, law, and arguments with respect to the issue, and the reasons why the plan/organization believes the matter should be referred to the National Office for advice. An extension of time must be justified by the plan/organization in writing and approved by the Chief, Employee Plans and Exempt Organizations Division or the Chief, Appeals Office.

(c) The examiner or the Appeals Officer will submit the statement of the plan/organization to the Chief, Employee Plans and Exempt Organizations Division or the Chief, Appeals Office, accompanied by a statement of the official's reasons why the issue should not be referred to the National Office. The Chief will determine, on the basis of the statements submitted, whether technical advice will be requested. If the Chief determines that technical advice is not warranted, that official will inform the plan/organization in writing that he/she proposes to deny the request. In the letter to the plan/organization the Chief will (except in unusual situations where such action would be prejudicial to the best interests of the Government) state specifically the reasons for the proposed denial. The plan/organization will be given 15 calendar days after receipt of the letter in which to notify the Chief whether it agrees with the proposed denial. The plan/organization may not appeal the decision of the Chief, Employee Plans and Exempt Organizations Division, or of the Chief, Appeals Office, not to request technical advice from the National Office. However, if the plan/organization does not agree with the proposed denial, all data relating to the issue for which technical advice has been sought, including the plan's/organization's written request and statements, will be submitted to the National Office, Attention: Director, Exempt Organizations or Employee Plans Division or Actuarial Division, or, in a section 521 case, Attention: Director, Corporation Tax Division for review. After review in the National Office, the submitting office will be notified whether the proposed denial is approved of disapproved.

(*d*) While the matter is being reviewed in the National Office, the key district office or the Appeals office will suspend action on the issue (except where the delay would prejudice the Government's interests) until it is notified of the National Office decision. This notification will be made within 30 days after receipt of the data in the National Office. The review will be solely on the basis of the written record and no conference will be held in the National Office.

(v) *Conference in the National Office.* (*a*) If, after a study of the technical advice request, it appears that advice adverse to the plan/organization should be given and a conference has been requested, the plan/organization will be notified of the time and place of the conference. If conferences are being arranged with respect to more than one request for advice involving the same plan/organization, they will be so scheduled as to cause the least inconvenience to the plan/organization. The conference will be arranged by telephone, if possible, and must be held within 21 calendar days after contact has been made. Extensions of time will be granted only if justified in writing by the plan/organization and approved by the appropriate branch chief.

(*b*) A plan/organization is entitled, as a matter of right, to only one conference in the National Office unless one of the circumstances discussed in (c) of this subdivision exists. This conference will usually be held at the branch level in the appropriate division in the Office of the Assistant Commissioner (Employee Plans and Exempt Organizations) or, in section 521 cases, in the Office of the Assistant Commissioner (Technical), and will usually be attended by a person who has authority to act for the branch chief. In appropriate cases the examiner or the Appeals Officer may also attend the conference to clarify the facts in the case. If more than one subject is discussed at the conference, the discussion constitutes a conference with respect to each subject. At the request of the plan/organization or its representative, the conference may be held at an earlier stage in the consideration of the case than the Service would ordinarily designate. A plan/organization has no "right" of appeal from an action of a branch to the director of a division or to any other National Office official.

(c) In the process of review of a holding proposed by a branch, it may appear that the final answer will involve a reversal of the branch proposal with a result less favorable to the plan/organization. Or it may appear that an adverse holding proposed by a branch will be approved, but on a new or different issue or on different grounds than those on which the branch decided the case. Under either of these circumstances, the plan/organization or its representative will be invited to another conference. The provisions of this subparagraph limiting the

number of conferences to which a plan/organization is entitled will not foreclose inviting the plan/organization to attend further conferences when, in the opinion of National Office personnel, such need arises. All additional conferences of this type discussed are held only at the invitation of the Service.

(*d*) It is the responsibility of the plan/organization to furnish to the National Office, within 21 calendar days after the conference, a written record of any additional data, line of reasoning, precedents, etc., that were proposed by the plan/organization and discussed at the conference but were not previously or adequately presented in writing. Extensions of time will be granted only if justified in writing by the plan/organization and approved by the appropriate branch chief. Any additional material and a copy thereof should be addressed to and sent to the National Office which will forward the copy to the appropriate key district director or Appeals office. The key district director or the Appeals office will be requested to give the matter prompt attention, will verify the additional facts and data, and will comment on it to the extent deemed appropriate.

(*e*) A plan/organization or its representative desiring to obtain information as to the status of its case (other than a section 521 case) may do so by contacting the following offices with respect to matters in the areas of their responsibility:

OFFICIAL AND TELEPHONE NUMBERS (AREA CODE 202)

Chief, Employee Plans Technical Branch, 566-3871.
Chief, Exempt Organizations Technical Branch, 566-3856 or 566-3593.
Director, Actuarial Division, 566-4311.

An organization or its representative desiring to obtain information as to the status of its section 521 case may do so by contacting the Director, Corporation Tax Division (202-566-4504 or 566-4505).

(vi) *Preparation of technical advice memorandum by the National Office.* (*a*) Immediately upon receipt in the National Office, the employee to whom the case is assigned will analyze the file to ascertain whether it meets the requirements of subdivision (iii) of this subparagraph. If the case is not complete with respect to any requirement in subdivision (iii) (*a*) through (*d*) of this subparagraph, appropriate steps will be taken to complete the file. If any request for technical advice does not comply with the requirements of subdivision (iii)(*e*) of this subparagraph, if applicable, relating to the statement of proposed deletions, the National Office will make those deletions from the technical advice memorandum which in the judgment of the Commissioner are required by section 6110(c) of the Code.

(*d*) If the plan/organization has requested a conference in the National Office, the procedures in subdivision (v) of this subparagraph will be followed.

(c) Replies to requests for technical advice will be addressed to the key district director of to the Appeals office and will be drafted in two parts. Each part will identify the plan/organization by name, address, identification number, and year or years involved. The first part (hereafter called the "technical advice memorandum") will contain (*1*) a recitation of the pertinent facts having a bearing on the issue; (2) a discussion of the facts, precedents, and reasoning of the National Office; and (3) the conclusions of the National Office. The conclusions will give direct answers, whenever possible, to the specific questions of the key district director or the Appeals office. The discussion of the issues will be in such detail that the key district director or the Appeals office is apprised of the reasoning underlying the conclusion. There shall accompany the technical advice memorandum, where applicable, a notice, pursuant to section 6110(f)(1) of the Code, of intention to disclose the technical advice memorandum (including a copy of the version proposed to be open to public inspection and notations of third party communications pursuant to section 6110(d) of the Code) which the key district director or the Appeals office will forward to the plan/organization at such time that it furnishes a copy of the technical advice memorandum to the plan/organization pursuant to (*e*) of this subdivision and subdivision (vii)(*b*) of this subparagraph.

(*d*) The second part of the reply will consist of a transmittal memorandum. In the unusual cases it will serve as a vehicle for providing the key district office or Appeals office administrative information or other information which, under the nondisclosure statutes, or for other reasons, may not be discussed with the plan/organization.

(*e*) It is the general practice of the Service to furnish a copy of the technical advice memorandum to the plan/organization after it has been adopted by the key district director or the Appeals office. However, in the case of technical advice memoranda described in section 6110(g)(5)(A) of the Code, relating to cases involving criminal or civil fraud investigations and jeopardy or termination assessments, a copy of the technical advice memorandum shall not be furnished the plan/organization until all proceedings with respect to the investigations or assessments are completed.

(*f*) After receiving the notice, pursuant to section 6110(f)(1) of the Code, of intention to disclose the technical advice memorandum (if applicable), the plan/organization, if desiring to protest the disclosure of certain information in the memorandum, must, within 20 days after the notice is mailed, submit a written statement identifying those deletions not made by the Internal Revenue Service which the plan/organization believes should have been made. The plan/organization shall also submit a copy of the version of the technical advice memorandum proposed to be open to public inspection on which it indicates, by the use of brackets, the deletions proposed by the plan/organization but which have not been made by the Internal Revenue Service. Generally, the Internal Revenue Service will not consider the deletion of any material which the plan/organization did not, prior to the time when the National Office sent its reply to the request for technical advice to the key district director or the Appeals office, propose be deleted. The Internal Revenue Service shall, within 20 days after receipt of the response by the plan/organization to the notice pursuant to section 6110(f)(1) of the Code (if applicable), mail to the plan/organization its final administrative conclusion regarding the deletions to be made.

(vii) *Action on technical advice in key district offices and in Appeals offices.* (*a*) Unless the key district director or the Chief, Appeals Office, feels that the conclusions reached by the National Office in a technical advice memorandum should be reconsidered and promptly requests such reconsideration, the key district office or the Appeals office will proceed to process the case on the basis of the conclusions expressed in the technical advice memorandum. The effect of technical advice on the plan's/organization's case once the technical advice memorandum is adopted is set forth in subdivision (viii) of this subparagraph.

(*b*) The key district director or the Appeals office will furnish the plan/organization a copy of the technical advice memorandum described in subdivision (vi)(c) of this subparagraph and the notice pursuant to section 6110(f)(1) of the Code (if applicable) of intention to disclose the technical advice memorandum (including a copy of the version proposed to be open to public inspection and notations of third party communications pursuant to section 6110(d) of the Code). The preceding sentence shall not apply to technical advice memoranda involving civil fraud or criminal investigations, or jeopardy or termination assessments, as described in subdivision (iii)(*f*) of this subparagraph (except to the extent provided in subdivision (vi)(e) of this subparagraph) or to documents to which section 6104 of the Code applies.

(c) In those cases in which the National Office advises the key district director or the Appeals office that it should not furnish a copy of the technical advice memorandum to the plan/organization, the key district director or the Appeals office will so inform the plan/organization if it requests a copy.

(viii) *Effect of technical advice.* (*a*) A technical advice memorandum represents an expression of the views of the Service as to the application of law, regulations, and precedents to the facts of a specific case, and is issued primarily as a means of assisting Service officials in the examination and closing of the case involved. In cases under this subparagraph concerning a plan's/organization's qualification or an organization's status, the conclusions expressed in a technical advice memorandum are final and will be followed by the key district office or the Appeals office.

(*b*) Unless otherwise stated, a holding in a technical advice memorandum will be applied retroactively. Moreover, where the plan/organization had previously been issued a favorable ruling or determination letter (whether or not it was based on a previous technical advice memorandum) concerning that transaction, its purpose, or method of operation, the holding in a technical advice memorandum that is adverse to the plan/organization is also applied retroactively unless the Assistant Commissioner or Deputy Assistant Commissioner (Employee Plans and Exempt Organizations) or, in a section 521 case, the Assistant Commissioner or Deputy Assistant Commissioner (Technical) exercises the discretionary authority under section 7805(b) of the Code to limit the retroactive effect of the holding as illustrated, in the case of rulings, in paragraph (1)(5) of this section.

(c) Technical advice memoranda often form the basis for revenue rulings. For the description of revenue rulings and the effect thereof, see §§ 601.601(d)(2)(i)(*a*) and 601.601(d)(2)(v).

(*d*) A key district director or an Appeals office may raise an issue in a taxable period, even though technical advice may have been asked for and furnished with regard to the same or a similar issue in any other taxable period. However, if the proposal by the

V 4 3 / 1 8 9 SEP 28 78 DMI

V 43 / 189 SEP 28 78 UMI

key district director or the Appeals office is contrary to a prior technical advice or ruling issued to the same plan/organization, the proposal must be submitted to the National Office. See § 601.106(a)(1)(iv)(*b*) and subdivision (i)(*d*) of this subparagraph.

(o) *Employees' trusts or plans*—(1) *In general.* • • • Paragraph (o)(6) describes the administrative appeal rights available to applicants. Paragraph (o)(7) provides for the issuance of notice of final determination. Paragraph (o)(8) describes the documents which will make up the administrative record. Paragraph (o)(9) describes the notice of final determination. Paragraph (o)(10) sets forth the actions that will be necessary on the part of applicants, interested parties, and the Pension Benefit Guaranty Corporation in order for each to exhaust the administrative remedies within the meaning of section 7476(b)(3) of the Code.

(2) *Determination letters.* • • •

(iii) If, during the consideration of a case described in paragraph (o)(2)(i) of this section by a key district director, the applicant believes that the case involves an issue with respect to which referral for technical advice is appropriate, the applicant may ask the district director to request technical advice from the National Office. The district director shall advise the applicant of its right to request referral of the issue to the National Office for technical advice. The technical advice provisions applicable in these cases are set forth in paragraph (n)(9) of this section. If technical advice is issued, the decision of the National Office is final and the applicant may not thereafter appeal the issue to the Appeals office. See § 601.106(a)(1)(iv)(*a*) and paragraph (o)(6) of this section.

• • • • • •

(6) *Reference of matters to the Appeals office.* (i) Where issues arise in a district director's office on matters within the contemplation of paragraph (o)(2)(i) of this section, and the key district director issues a notice of proposed determination which is adverse to the applicant, the applicant may appeal the proposed determination to the Appeals office. However, the applicant may not appeal a determination that is based on a National Office technical advice. See § 601.106(a)(1)(iv)(*a*) and paragraph (o)(2)(iii) of this section. The applicant shall notify the key district director that it intends to request Appeals office consideration by submitting the request, in writing, to the key district director within 30 days from issuance of the notice of proposed determination. The key district director will forward the request and the administrative record to the Appeals office and will so notify the applicant in writing. A failure by the applicant to request Appeals office consideration will constitute a failure to exhaust available administrative remedies as required by section 7476(b)(3) and will thus preclude the applicant from seeking a declaratory judgment as provided under section 7476. (See paragraph (o)(10)(i)(*c*) of this section.)

(ii) The request for Appeals office consideration must show the following:

(*a*) Date of application for determination letter;

(*b*) Name and address of the applicant and the name and address of the representative, if any, who has been authorized to represent the applicant as provided in paragraph (c)(6) of this section;

(*c*) The key district office in which the case is pending;

(*d*) Type of plan (pension, annuity, profit-sharing, stock bonus, bond purchase, and foreign situs trusts), and type of action involved (initial qualification, amendment, curtailment, or termination);

(*e*) Date of filing this request with the key district director and the date and symbols of the letter referred to in paragraph (o)(6)(i) of this section;

(*f*) A complete statement of the issues and a presentation of the arguments in support of the applicant's position; and

(*g*) Whether a conference is desired.

(iii) After receipt of the administrative record in the Appeals office, the applicant will be afforded the opportunity for a conference, if a conference was requested. After full consideration of the entire administrative record, the Appeals office will notify the applicant in writing of the proposed decision and the reasons therefor and will issue a notice of final determination in accordance with the decision. However, if the proposed disposition by the Appeals office is contrary to a National Office technical advice concerning qualification, issued prior to the case, the proposed disposition will be submitted to the Assistant Commissioner (Employee Plans and Exempt Organizations) and the decision of that official will be followed by the Appeals office. See § 601.106 (a)(1)(iv)(*b*). Additionally, if the applicant believes that the case involves an issue with respect to which referral for technical advice is appropriate, the applicant may ask the Appeals office to request technical advice from the National Office. The Appeals office shall advise the applicant of its right to request referral of the issue to the National Office for technical advice. The technical advice provisions applicable to these cases are set forth in paragraph (n)(9) of this section. If technical advice is issued, the decision of the National Office will be followed by the Appeals Office. See paragraph (n)((9)(viii)(*a*) of the this section.

(iv) Applicants are advised to make full presentation of the facts, circumstances, and arguments at the initial level of consideration, since submission of additional facts, circumstances, and arguments at the Appeals office may result in suspension of Appeals procedures and referral of the case back to the key district for additional consideration.

(7) *Issuance of the notice of final determination.* The key district director or Appeals office will send notice of the final determination to the applicant. The key district director will send notice of the final determination to the interested parties who have previously submitted comments on the application to the Internal Revenue Service pursuant to paragraph (o)(5)(i) (*a*) or (*c*) of this section (or to the persons designated by them to receive such notice), to the Department of Labor in the case of a comment submitted by that department upon the request of interested parties or the Pension Benefit Guaranty Corporation pursuant to paragraph (o)(5)(i)(*b*) of this section, and to the Pension Benefit Guaranty Corporation if it has filed a comment pursuant to paragraph (o)(5)(i)(*a*) of this section.

(8) *Administrative record.* (i) In the case of a request for an advance determination in respect of a retirement plan, the determination of the district director or Appeals office on the qualification or nonqualification of the retirement plan shall be based solely on the facts contained in the administrative record. • • •

(ii) • • • Any oral representation or modification of the facts as represented or alleged in the application for determination or in a comment filed by an interested party, which is not reduced to writing and submitted to the Service shall not become a part of the administrative record and shall not be taken into account in the determination of the qualified status of the retirement plan by the district director or Appeals office.

(9) *Notice of final determination.* For purposes of this paragraph (o), the notice of final determination shall be—

(i) In the case of a final determination which is favorable to the applicant, the letter issued by the key district director or Appeals office (whether or not by certified or registered mail) which states that the applicant's plan satisfies the qualification requirements of the Internal Revenue Code.

(ii) In the case of a final determination which is adverse to the applicant, the letter issued by certified or registered mail by the key district director or Appeals office, subsequent to a letter of proposed determination, stating that the applicant's plan fails to satisfy the qualification requirements of the Internal Revenue Code.

(10) *Exhaustion of administrative remedies.* • • •

(i) The administrative remedies of an applicant with respect to any matter relating to the qualification of a plan are:

(*a*) Filing a completed application with the appropriate district director pursuant to paragraphs (o)(3) (iii) through (xii) of this section;

(*b*) Compliance with the requirements pertaining to notice to interested parties as set forth in paragraphs (o)(3)(xiv) through (o)(3)(xxi) of this section; and

(*c*) An appeal to the Appeals office pursnt to paragraph (o)(6) of this section, in the event of a notice of proposed adverse determination from the district director.

• • • • • •

PAR. 6. Section 201.203(d), as revised in paragraph 6 of the notice of proposed amendments, is amended by deleting the phrase "the regional office of the Appellate Division" in the third sentence and inserting in its place the phrase "an Appeals office".

These amendments to the Statement of Procedural Rules are issued under the authority contained in 5 U.S.C. 301 and 5 U.S.C. 552.

JEROME KURTZ,
Commissioner of Internal Revenue.

PARAGRAPH 1. Section 601.103 is amended by revising paragraphs (b) and (c)(1). These revised provisions read as follows:

§ 601.103 Summary of general tax procedure.

• • • • • •

(b) *Examination and determination of tax liability.* After the returns are filed and processed in internal revenue service centers, some returns are selected for examination. If adjustments are proposed with which the taxpayer does not agree, ordinarily the taxpayer is afforded certain appeal rights. If the taxpayer agrees to the proposed adjustments and the tax involved is an income, profits, estate, gift, or chapter 41, 42, 43, or 44 tax, and if the taxpayer waives restrictions on the assessment and collection of the tax (see § 601.105(b)(4)), the deficiency will be immediately assessed.

(c) *Disputed liability*—(1) *General.* The taxpayer is given an opportunity to request that the case be considered by an Appeals Office provided that office has jurisdiction (see § 601.106(a)(3)). If the taxpayer requests such consideration, the case will be referred to the Appeals Office, which will afford the taxpayer the opportunity for a conference. The determination of tax liability by the Appeals Office is final insofar as the taxpayer's appeal rights within the Service are concerned. Upon protest of cases under the jurisdiction of the Director of International Operations, exclusive settlement authority is vested in the Appeals Office having jurisdiction of the place where the taxpayer requests the conference. If the taxpayer does not specify a location for the conference, or if the location specified is outside the territorial limits of the United States, the Washington, D.C. Appeals Office of the Mid-Atlantic Region assumes jurisdiction.

• • • • • •

PAR. 2. Section 601.105 is amended in the following respects:

1. Paragraph (b)(2)(i) is revised to read as set forth below.

2. Paragraph (b)(4) is amended by deleting the third sentence and by deleting the phrase "Chapter 42 taxes" in the sixth to last sentence and inserting in its place the phrase "Chapter 41, 42, 43, or 44 taxes".

3. Paragraph (b)(5)(i)(*e*) is revised to read as set forth below.

4. Paragraph (b)(5)(ii)(*b*) is revised to read as set forth below.

5. Paragraph (b)(5)(iii)(*a*) is revised to read as set forth below.

6. Paragraph (b)(5)(iii)(*b*) is amended by deleting the words "or the conferee" from the second sentence.

7. Paragraph (b)(5)(iv) is amended by deleting the words "or conferee" each time they appear in (*a*), (*b*), and (*c*) thereof.

8. Paragraph (c) is revised to read as set forth below.

9. Paragraph (d)(2)(i) is redesignated paragraph (d)(2) and is revised to read as set forth below.

10. Paragraph (d)(2)(ii) is deleted.

11. Paragraph (f) is amended by deleting the words "*and conference*" from the caption, and by deleting the words "or conference" from the second sentence.

12. Paragraph (h) is revised to read as set forth below.

13. Paragraph (l) is deleted.

§ 601.105 Examination of returns and claims for refund, credit, or abatement; determination of correct tax liability.

• • • • • •

(b) *Examination of returns.* • • •

(2) *Office examination*—(i) *Adjustments by Examination Division at service center.* Certain individual income tax returns identified as containing potential unallowable items are examined by Examination Divisions at regional service centers. Correspondence examination techniques are used. If the taxpayer requests an interview to discuss the proposed adjustments, the case is transferred to the taxpayer's district office. If the taxpayer does not agree to the proposed adjustments, regular appeals procedures apply.

• • • • • •

(5) *Technical advice from the National Office*—(i) *Definition and nature of technical advice.* • • •

(*e*) The provisions of this subparagraph apply only to a case under the jurisdiction of a district director, but do not apply to an Employee Plans case under the jurisdiction of a key district director as provided in § 601.201(o) or to an Exempt Organization case under the jurisdiction of a key district director as provided in § 601.201(n). The technical advice provisions applicable to Employee Plans and Exempt Organization cases are set forth in § 601.201(n)(9). The provisions of this subparagraph do not apply to a case under the jurisdiction of the Bureau of Alcohol, Tobacco, and Firearms. They also do not apply to a case under the jurisdiction of an Appeals office, including a case previously considered by Appeals. The technical advice provisions applicable to a case under the jurisdiction of an Appeals office, other than Employee Plans and Exempt Organizations cases, are set forth in § 601.106(f)(10). A case remains under the jurisdiction of the district director even though an Appeals office has the identical issue under consideration in the case of another taxpayer (not related within the meaning of section 267 of the Code) in an entirely different transaction. Technical advice may not be requested with respect to a taxable period if a prior Appeals disposition of the same taxable period of the same taxpayer's case was based on mutual concessions (ordinarily with a Form 870-AD, Offer of Waiver of Restrictions on Assessment and Collection of Deficiency in Tax and of Acceptance of Overassessment). However, technical advice may be requested by a district director on issues previously considered in a prior Appeals disposition, not based on mutual concessions, of the same taxable periods of the same taxpayer with the concurrence of the Appeals office that had the case.

(ii) *Areas in which technical advice may be requested.* • • •

(*b*) District directors are encouraged to request technical advice on any technical or procedural question arising in connection with any case of the type described in subdivision (i) of this subparagraph which cannot be resolved on the basis of law, regulations, or a clearly applicable revenue ruling or other precedent issued by the National Office. This request should be made at the earliest possible stage of the examination process.

(iii) *Requesting technical advice.* (*a*) It is the responsibility of the district office to determine whether technical advice is to be requested on any issue before that office. However, while the case is under the jurisdiction of the district director, a taxpayer or his/her representative may request that an issue be referred to the National Office for technical advice on the grounds that a lack of uniformity exists as to the disposition of the issue, or that the issue is so unusual or complex as to warrant consideration by the National Office. This request should be made at the earliest possible stage of the examination process. While taxpayers are encouraged to make written requests setting forth the facts, law, and argument with respect to the issue, and reason for requesting National Office advice, a taxpayer may make the request orally. If, after considering the taxpayer's request, the examiner is of the opinion that the circumstances do not warrant referral of the case to the National Office, he/she will so advise the taxpayer. (See subdivision (iv) of this subparagraph for taxpayer's appeal rights where the examiner declines to request technical advice.)

• • • • • •

(c) *District procedure*—(1) *Office examination.* (i) In a correspondence examination the taxpayer is furnished with a report of the examiner's findings by a form letter. The taxpayer is asked to sign and return an agreement if the taxpayer accepts the findings. The letter also provides a detailed explanation of the alternatives available if the taxpayer does not accept the findings, including consideration of the case by an Appeals office, and requests the taxpayer to inform the dis-

V 43 / 189 SEP 28 78 IMI

trict director, within the specified period, of the choice of action. An Appeals office conference will be granted to the taxpayer upon request without submission of a written protest.

(ii) If, at the conclusion of an office interview examination, the taxpayer does not agree with the adjustments proposed, the examiner will fully explain the alternatives available which include, if practicable, an immediate interview with a supervisor or an immediate conference with an Appeals Officer. If an immediate interview or Appeals office conference is not practicable, or is not requested by the taxpayer, the examination report will be mailed to the taxpayer under cover of an appropriate transmittal letter. This letter provides a detailed explanation of the alternatives available, including consideration of the case by an Appeals office, and requests the taxpayer to inform the district director, within the specified period, of the choice of action. An Appeals office conference will be granted to the taxpayer upon request without submission of a written protest.

(2) *Field examination.* (i) If, at the conclusion of an examination, the taxpayer does not agree with the adjustments proposed, the examiner will prepare a complete examination report fully explaining all proposed adjustments. Before the report is sent to the taxpayer, the case file will be submitted to the district Review Staff for appropriate review. Following such review, the taxpayer will be sent a copy of the examination report under cover of a transmittal (30-day) letter, providing a detailed explanation of the alternatives available, including consideration of the case by an Appeals office, and requesting the taxpayer to inform the district director, within the specified period, of the choice of action.

(ii) If the total amount of proposed additional tax, proposed overassessment, or claimed refund (or, in an offer in compromise, the total amount of assessed tax, penalty, and interest sought to be compromised) does not exceed $2,500 for any taxable period, the taxpayer will be granted an Appeals office conference on request. A written protest is not required.

(iii) If the total amount of proposed additional tax, proposed overassessment, or claimed refund (or, in an offer in compromise, the total amount of assessed tax, penalty, and interest sought to be compromised) exceeds $2,500 for any taxable period, the taxpayer, on request, will be granted an Appeals office conference, provided a written protest is filed setting forth the facts, law, and arguments upon which the taxpayer relies.

(d) *Thirty-day letters and protests.* * * *

(2) *Protests.* No written protest is required to obtain an Appeals office conference in an office examination case. However, in a field examination case, a written protest is required to obtain an Appeals office conference if the total amount of proposed additional tax, proposed overassessment, or claimed refund (or, in an offer in compromise, the total amount of assessed tax, penalty, and interest sought to be compromised) exceeds $2,500 for any taxable period. Instructions for preparation of protests are sent with the transmittal (30-day) letter.

* * * * *

(h) *Jeopardy assessments.* If the district director believes that the assessment or collection of a tax will be jeopardized by delay, he/she is authorized and required to assess the tax immediately, together with interest and other additional amounts provided by law, notwithstanding the restrictions on assessment or collection of income, estate, gift, or chapter 41, 42, 43, or 44 taxes contained in section 6213(a) of the Code. A jeopardy assessment does not deprive the taxpayer of the right to file a petition with the Tax Court. Collection of a tax in jeopardy may be immediately enforced by the district director upon notice and demand. To stay collection, the taxpayer may file with the district director a bond equal to the amount for which the stay is desired. The taxpayer may request a review in the Appeals office of whether the making of the assessment was reasonable under the circumstances and whether the amount assessed or demanded was appropriate under the circumstances. See section 7429. This request shall be made, in writing, within 30 days after the earlier of—

(1) The day on which the taxpayer is furnished the written statement described in section 7429(a)(1); or

(2) The last day of the period within which this statement is required to be furnished.

An Appeals office conference will be granted as soon as possible and a decision rendered without delay.

* * * * *

PAR. 3. Section 601.106 is amended in the following respects:

1. Paragraph (a)(1) is revised to read as set forth below.

2. Paragraph (b) is amended by deleting the ninth sentence and by deleting the last three sentences.

3. Paragraph (d)(3)(iii) is amended by deleting the second sentence.

4. Paragraph (f)(5) is amended by revising the first sentence to read as set forth below.

5. Paragraph (f)(7) is revised to read as set forth below.

6. A new paragraph (f)(10) is added, reading as set forth below.

7. Paragraph (g)(4) is deleted.

8. Paragraph (i) is deleted.

§ 601.106 Appeals functions.

(a) *General.* (1)(i) There are provided in each region Appeals offices with office facilities within the region. Unless they otherwise specify, taxpayers living outside the United States use the facilities of the Washington, D.C., Appeals Office of the Mid-Atlantic Region. Subject to the limitations set forth in subparagraphs (2) and (3) of this paragraph, the Commissioner has delegated to certain officers of the Appeals offices authority to represent the regional commissioner in those matters set forth in subdivisions (ii) through (iv) of this subparagraph. If a statutory notice of deficiency was issued by a district director or the Director of International Operations, the Appeals office may waive jurisdiction to the director who issued the statutory notice during the 90-day (or 150-day) period for filing a petition with the Tax Court, except where criminal prosecution has been recommended and not finally disposed of, or the statutory notice includes the ad valorem fraud penalty. After the filing of a petition in the Tax Court, the Appeals office continues to have exclusive jurisdiction of the case, subject to the provisions of subparagraph (2) of this paragraph. Subject to the exceptions and limitations set forth in subparagraph (2) of this paragraph, there is also vested in the Appeals offices authority to represent the regional commissioner in his/her exclusive authority to settle (*a*) all cases docketed in the Tax Court and designated for trial at any place within the territory comprising the region, and (*b*) all docketed cases originating in the office of any district director situated within the region, or in which jurisdiction has been transferred to the region, which are designated for trial at Washington, D.C., unless the petitioner resides in, and his/her books and records are located or can be made available in, the region which includes Washington, D.C.

(ii) Certain officers of the Appeals offices may represent the regional commissioner in his/her exclusive and final authority for the determination of—

(*a*) Federal income, profits, estate (including extensions for payment under section 6161(a)(2)), gift, or chapter 41, 42, 43, or 44 tax liability (whether before or after the issuance of a statutory notice of deficiency);

(*b*) Employment or certain Federal excise tax liability; and

(*c*) Liability for additions to the tax, additional amounts, and assessable

penalties provided under chapter 68 of the Code.

in any case originating in the office of any district director situated in the region, or in any case in which jurisdiction has been transferred to the region. The taxpayer must request Appeals consideration and, in some instances, submit a written protest to the determination of liability made by the district director. No written protest is required in an office examination case. A written protest is required in a field examination case if the total amount of proposed additional tax, proposed over assessment, or claimed refund (or, in an offer in compromise, the total amount of assessed tax, penalty, and interest sought to be compromised) exceeds $2,500 for any taxable period.

(iii) Sections 6659(a)(1) and 6671(a) provide that additions to the tax, additional amounts, penalties and liabilities (collectively referred to in this subdivision as "penalties") provided by chapter 68 of the Code shall be paid upon notice and demand and shall be assessed and collected in the same manner as taxes. Certain chapter 68 penalties may be appealed after assessment to the Appeals office. This post-assessment appeal procedure applies to all but the following chapter 68 penalties:

(*a*) Penalties that are not subject to a reasonable cause determination (examples are additions to the tax for failure to pay estimated income tax under sections 6654 and 6655);

(*b*) Penalties that are subject to the deficiency procedures of subchapter B of chapter 63 of the Code (because the taxpayer has the right to appeal such penalties, such as those provided under section 6653 (a) and (b), prior to assessment);

(*c*) The 100 percent penalty provided under section 6672 (because the taxpayer has the opportunity to appeal this penalty prior to assessment); and

(*d*) The penalty in case of jeopardy provided under section 6658 (because there is an adequate postassessment appeal).

The appeal may be made before or after payment, but shall be made before the filing of a claim for refund. Technical advice procedures are not applicable to an appeal made under this subdivision.

(iv) The Appeals office considers cases involving the initial or continuing recognition of tax exemption and foundation classification. See § 601.201 (n)(5) and (n)(6). The Appeals office also considers cases involving the initial or continuing determination of employee plan qualification under subchapter D of chapter 1 of the Code. See § 601.201(o)(6). However, the jurisdiction of the Appeals office in these cases is limited as follows:

(*a*) In cases under the jurisdiction of a key district director (or the National Office) which involve an application for, or the revocation or modification of, the recognition of exemption or the determination of qualification, if the determination concerning exemption is made by a National Office ruling, or if National Office technical advice is furnished concerning exemption or qualification, the decision of the National Office is final. The organization/plan has no right of appeal to the Appeals office or any other avenue of administrative appeal. See § 601.201(n)(5)(i), (n)(6)(ii)(*b*), (n)(9)(viii)(*a*), (o)(2)(iii), and (o)(6)(i).

(*b*) In cases already under the jurisdiction of an Appeals office, if the proposed disposition by that office is contrary to a National Office ruling concerning exemption, or to a National Office technical advice concerning exemption or qualification, issued prior to the case, the proposed disposition will be submitted, through the Office of the Regional Director of Appeals, to the Assistant Commissioner (Employee Plans and Exempt Organizations) or, in section 521 cases, to the Assistant Commissioner (Technical). The decision of the Assistant Commissioner will be followed by the Appeals office. See § 601.201(n)(5)(iii), (n)(6)(ii)(*d*), (n)(6)(iv), and (o)(6)(iii).

* * * * *

(f) Conference and practice requirements. * * *

(5) *Rule V.* In order to bring an income, profits, estate, gift, or chapter 41, 42, 43, or 44 tax case in prestatutory notice status, an employment or excise tax case, a penalty case, an Employee Plans and Exempt Organization case, a termination of taxable year assessment case, a jeopardy assessment case, or an offer in compromise before the Appeals office, the taxpayer or the taxpayer's representative should first request Appeals consideration and, when required, file with the district office, service center, or Office of International Operations a written protest setting forth specifically the reasons for the refusal to accept the findings. * * *

* * * * *

(7) *Rule VII.* Where the taxpayer has had the benefit of a conference before the Appeals office in the prestatutory notice status, or where the opportunity for such a conference was accorded but not availed of, there will be no conference granted before the Appeals office in the 90-day status after the mailing of the statutory notice of deficiency, in the absence of unusual circumstances.

* * * * *

(10) *Rule X—Technical advice from the National Office—*(i) *Definition and nature of technical advice.* (*a*) As used in this subparagraph, "technical advice" means advice or guidance as to the interpretation and proper application of internal revenue laws, related statutes, and regulations, to a specific set of facts, furnished by the National Office upon request of an Appeals office in connection with the processing and consideration of a nondocketed case. it is furnished as a means of assisting Service personnel in closing cases and establishing and maintaining consistent holdings in the various regions. It does not include memorandum on matters of general technical application furnished to Appeals offices where the issues are not raised in connection with the consideration and handling of a specific taxpayer's case.

(*b*) The provisions of this subparagraph do not apply to a case under the jurisdiction of a district director or the Bureau of Alcohol, Tobacco, and Firearms, to Employee Plans, Exempt Organization, or certain penalty cases being considered by an Appeals office, or to any case previously considered by an Appeals office. The technical advice provisions applicable to cases under the jurisdiction of a district director, other than Employee Plans and Exempt Organization cases, are set forth in § 601.105(b)(5). The technical advice provisions applicable to Employee Plans and Exempt Organization cases are set forth in § 601.201(n)(9). Technical advice may not be requested with respect to a taxable period if a prior Appeals disposition of the same taxable period of the same taxpayer's case was based on mutual concessions (ordinarily with a form 870–AD, Offer of Waiver of Restrictions on Assessment and Collection of Deficiency in Tax and of Acceptance of Overassessment). However, technical advice may be requested by a district director on issues previously considered in a prior Appeals disposition, not based on mutual concessions, of the same taxable periods of the same taxpayer with the concurrence of the Appeals office that had the case.

(*c*) The consideration or examination of the facts relating to a request for a determination letter is considered to be in connection with the consideration and handling of a taxpayer's case. Thus, an Appeals office may, under this subparagraph, request technical advice with respect to the consideration of a request for a determination letter. The technical advice provisions applicable to a request for a determination letter in Employee

Plans and Exempt Organization cases are set forth in § 601.201(n)(9).

(*d*) If an Appeals office is of the opinion that a ruling letter previously issued to a taxpayer should be modified or revoked and it requests the National Office to reconsider the ruling, the reference of the matter to the National Office is treated as a request for technical advice. The procedures specified in subdivision (iii) of this subparagraph should be followed in order that the National Office may consider the recommendation. Only the National Office can revoke a ruling letter. Before referral to the National Office, the Appeals office should inform the taxpayer of its opinion that the ruling letter should be revoked. The Appeals office, after development of the facts and consideration of the taxpayer's arguments, will decide whether to recommend revocation of the ruling to the National Office. For procedures relating to a request for a ruling, see § 601.201.

(*e*) The Assistant Commissioner (Technical), acting under a delegation of authority from the Commissioner of Internal Revenue, is exclusively responsible for providing technical advice in any issue involving the establishment of basic principles and rules for the uniform interpretation and application of tax laws in cases under this subparagraph. This authority has been largely redelegated to subordinate officials.

(ii) *Areas in which technical advice may be requested.* (*a*) Appeals offices may request technical advice on any technical or procedural question that develops during the processing and consideration of a case. These procedures are applicable as provided in subdivision (i) of this subparagraph.

(*b*) As provided in § 601.105(b)(5)(ii)(*b*) and (iii)(*a*), requests for technical advice should be made at the earliest possible stage of the examination process. However, if identification of an issue on which technical advice is appropriate is not made until the case is in Appeals, a decision to request such advice (in nondocketed cases) should be made prior to or at the first conference.

(*c*) Subject to the provisions of (*b*) of this subdivision, Appeals Offices are encouraged to request technical advice on any technical or procedural question arising in connection with a case described in subdivision (i) of this subparagraph which cannot be resolved on the basis of law, regulations, or a clearly applicable revenue ruling or other precedent issued by the National Office.

(iii) *Requesting technical advice.* (*a*) It is the responsibility of the Appeals Office to determine whether technical advice is to be requested on any issue being considered. However, while the case is under the jurisdiction of the Appeals Office, a taxpayer or his/her representative may request that an issue be referred to the National Office for technical advice on the grounds that a lack of uniformity exists as to the disposition of the issue, or that the issue is so unusual or complex as to warrant consideration by the National Office. While taxpayers are encouraged to make written requests setting forth the facts, law, and argument with respect to the issue, and reason for requesting National Office advice, a taxpayer may make the request orally. If, after considering the taxpayer's request, the Appeals Officer is of the opinion that the circumstances do not warrant referral of the case to the National Office, he/she will so advise the taxpayer. (See subdivision (iv) of this subparagraph for taxpayer's appeal rights where the Appeals Officer declines to request technical advice.)

(*b*) When technical advise is to be requested, whether or not upon the request of the taxpayer, the taxpayer will be so advised, except as noted in (*j*) of this subdivision. If the Appeals Office initiates the action, the taxpayer will be furnished a copy of the statement of the pertinent facts and the question or questions proposed for submission to the National Office. The request for advice should be so worded as to avoid possible misunderstanding, in the National Office, of the facts or of the specific point or points at issue.

(*c*) After receipt of the statement of facts and specific questions, the taxpayer will be given 10 calendar days in which to indicate in writing the extent, if any, to which he/she may not be in complete agreement. An extension of time must be justified by the taxpayer in writing and approved by the Chief, Appeals Office. Every effort should be made to reach agreement as to the facts and specific points at issue. If agreement cannot be reached, the taxpayer may submit, within 10 calendar days after receipt of notice from the Appeals Office, a statement of his/her understanding as to the specific point or points at issue which will be forwarded to the National Office with the request for advice. An extension of time must be justified by the taxpayer in writing and approved by the Chief, Appeals Office.

(*d*) If the taxpayer initiates the action to request advice, and his/her statement of the facts and point or points at issue are not wholly acceptable to the Appeals Office, the taxpayer will be advised in writing as to the areas of disagreement. The taxpayer will be given 10 calendar days after receipt of the written notice to reply to such notice. An extension of time must be justified by the taxpayer in writing and approved by the Chief, Appeals Office. If agreement cannot be reached, both the statements of the taxpayer and the Appeals Office will be forwarded to the National Office.

(*e*) (*1*) In the case of requests for technical advice, the taxpayer must also submit, within the 10-day period referred to in (*c*) and (*d*) of this subdivision, whichever is applicable (relating to agreement by the taxpayer with the statement of facts and points submitted in connection with the request for technical advice), the statement described in (*f*) of this subdivision of proposed deletions pursuant to section 6110(c) of the Code. If the statement is not submitted, the taxpayer will be informed by the Appeals Office that the statement is required. If the Appeals Office does not receive the statement within 10 days after the taxpayer has been informed of the need for the statement, the Appeals Office may decline to submit the request for technical advice. If the Appeals Office decides to request technical advice in a case where the taxpayer has not submitted the statement of proposed deletions, the National Office will make those deletions which in the judgment of the Commissioner are required by section 6110(c) of the Code.

(*2*) The requirements included in this subparagraph relating to the submission of statements and other material with respect to proposed deletions to be made from technical advice memoranda before public inspection is permitted to take place do not apply to requests for any document to which section 6104 of the Code applies.

(*f*) In order to assist the Internal Revenue Service in making the deletions required by section 6110(c) of the Code, from the text of technical advice memoranda which are open to public inspection pursuant to section 6110(a) of the Code, there must accompany requests for such technical advice either a statement of the deletions proposed by the taxpayer, or a statement that no information other than names, addresses, and taxpayer identifying numbers need be deleted. Such statements shall be made in a separate document. The statement of proposed deletions shall be accompanied by a copy of all statements of facts and supporting documents which are submitted to the National Office pursuant to (c) or (*d*) of this subdivision, on which shall be indicated, by the use of brackets, the material which the taxpayer indicates should be deleted pursuant to section 6110(c) of the Code. The statement of proposed deletions shall indicate the statutory basis for each proposed deletion. The statement of proposed deletions shall not appear or be referred to anywhere in the request for technical advice. If the taxpayer decides to request additional deletions pursuant to section 6110(c) of the Code prior to the time the National Office replies to the request for technical advice, additional statements may be submitted.

(*g*) If the taxpayer has not already done so, he/she may submit a statement explaining his/her position on the issues, citing precedents which the taxpayer believes will bear on the case. This statement will be forwarded to the National Office with the request for advice. If it is received at a later date, it will be forwarded for association with the case file.

(*h*) At the time the taxpayer is informed that the matter is being referred to the National Office, he/she will also be informed of the right to a conference in the National Office in the event an adverse decision is indicated, and will be asked to indicate whether a conference is desired.

(*i*) Generally, prior to replying to the request for technical advice, the National Office shall inform the taxpayer orally or in writing of the material likely to appear in the technical advice memorandum which the taxpayer proposed be deleted but which the Internal Revenue Service determined should not be deleted. If so informed, the taxpayer may submit within 10 days any further information, arguments, or other material in support of the position that such material be deleted. The Internal Revenue Service will attempt, if feasible, to resolve all disagreements with respect to proposed deletions prior to the time the National Office replies to the request for technical advice. However, in no event shall the taxpayer have the right to a conference with respect to resolution of any disagreements concerning material to be deleted from the text of the technical advice memorandum, but such matters may be considered at any conference otherwise scheduled with respect to the request.

(*j*) The provisions of (*a*) through (*i*) of this subdivision, relating to the referral of issues upon request of the taxpayer, advising taxpayers of the referral of issues, the submission of proposed deletions, and the granting of conferences in the National Office, are not applicable to technical advice memoranda described in section 6110(g)(5)(A) of the Code, relating to cases involving criminal or civil fraud investigations and jeopardy or termination assessments. However, in such cases, the taxpayer shall be allowed to provide the statement of proposed deletions to the National Office upon the completion of all proceedings with respect to the investigations or assessments, but prior to the date on which the Commissioner mails the notice pursuant to section 6110 (f)(1) of the Code of intention to disclose the technical advice memorandum.

(*k*) Form 4463, Request for Technical Advice, should be used for transmitting requests for technical advice to the National Office.

(iv) *Appeal by taxpayers of determinations not to seek technical advice.* (*a*) If the taxpayer has requested referral of an issue before an Appeals Office to the National Office for technical advice, and after consideration of the request, the Appeals Officer is of the opinion that the circumstances do not warrant such referral, he/she will so advise the taxpayer.

(*b*) The taxpayer may appeal the decision of the Appeals Officer not to request technical advice by submitting to that official, within 10 calendar days after being advised of the decision, a statement of the facts, law, and arguments with respect to the issue, and the reasons why the taxpayer believes the matter should be referred to the National Office for advice. An extension of time must be justified by the taxpayer in writing and approved by the Chief, Appeals Office.

(*c*) The Appeals Officer will submit the statement of the taxpayer to the chief, Appeals Office, accompanied by a statement of the officer's reasons why the issue should not be referred to the National Office. The Chief will determine, on the basis of the statements submitted, whether technical advice will be requested. If the Chief determines that technical advice is not warranted, that official will inform the taxpayer in writing that he/she proposes to deny the request. In the letter to the taxpayer the Chief will (except in unusual situations where such action would be prejudicial to the best interests of the Government) state specifically the reasons for the proposed denial. The taxpayer will be given 15 calendar days after receipt of the letter in which to notify the Chief whether the taxpayer agrees with the proposed denial. The taxpayer may not appeal the decision of the Chief, Appeals Office not to request technical advice from the National Office. However, if the taxpayer does not agree with the proposed denial, all data relating to the issue for which technical advice has been sought, including the taxpayer's written request and statements, will be submitted to the National Office, Attention: Director, Appeals Division, for review. After review in the National Office, the Appeals Office will be notified whether the proposed denial is approved or disapproved.

(*d*) While the matter is being reviewed in the National Office, the Appeals Office will suspend action on the issue (except where the delay would prejudice the Government's interests) until it is notified of the National Office decision. This notification will be made within 30 days after receipt of the data in the National Office. The review will be solely on the basis of the written record and no conference will be held in the National Office.

(v) *Conference in the National Office.* (*a*) If, after a study of the technical advice request, it appears that advice adverse to the taxpayer should be given and a conference has been requested, the taxpayer will be notified of the time and place of the conference. If conferences are being arranged with respect to more than one request for advice involving the same taxpayer, they will be so scheduled as to cause the least inconvenience to the taxpayer. The conference will be arranged by telephone, if possible, and must be held within 21 calendar days after contact has been made. Extensions of time will be granted only if justified in writing by the taxpayer and approved by the appropriate Technical branch chief.

(*b*) A taxpayer is entitled, as a matter of right, to only one conference in the National Office unless one of the circumstances discussed in (*c*) of this subdivision exists. This conference will usually be held at the branch level in the appropriate division (Corporation Tax Division or Individual Tax Division) in the Office of the Assistant Commissioner (Technical), and will usually be attended by a person who has authority to act for the branch chief. In appropriate cases the Appeals Officer may also attend the conference to clarify the facts in the case. If more than one subject is discussed at the conference, the discussion constitutes a conference with respect to each subject. At the request of the taxpayer or the taxpayer's representative, the conference may be held at an earlier stage in the consideration of the case than the Service would ordinarily designate. A taxpayer has no "right" of appeal from an action of a branch to the director of a division or to any other National Office official.

(*c*) In the process of review of a holding proposed by a branch, it may appear that the final answer will involve a reversal of the branch proposal with a result less favorable to the taxpayer. Or it may appear that an adverse holding proposed by a branch will be approved, but on a new or different issue or on different grounds than those on which the branch decided the case. Under either of these circumstances, the taxpayer or the taxpayer's representative will be invited to another conference. The provisions of this subparagraph limiting the number of conferences to which a taxpayer is entitled will not foreclose inviting a taxpayer to attend further conferences when, in the opinion of National Office personnel, such need arises. All additional conferences of

V 43/189 SE 28 78 UMI

this type discussed are held only at the invitation of the Service.

(*d*) It is the responsibility of the taxpayer to furnish to the National Office, within 21 calendar days after the conference, a written record of any additional data, line of reasoning, precedents, etc., that were proposed by the taxpayer and discussed at the conference but were not previously or adequately presented in writing. Extensions of time will be granted only if justified in writing by the taxpayer and approved by the appropriate Technical branch chief. Any additional material and a copy thereof should be addressed to and sent to the National Office which will forward the copy to the appropriate Appeals Office. The Appeals Office will be requested to give the matter prompt attention, will verify the additional facts and data, and will comment on it to the extent deemed appropriate.

(*e*) A taxpayer or the taxpayer's representative desiring to obtain information as to the status of the case may do so by contacting the following offices with respect to matters in the areas of their responsibility:

Telephone numbers (Area Code 202)

Official:

Director, Corporation Tax Division—566-4504 or 566-4505
Director, Individual Tax Division—566-3767 or 566-3788.

(vi) *Preparation of technical advice memorandum by the National Office.* (*a*) Immediately upon receipt in the National Office, the technical employee to whom the case is assigned will analyze the file to ascertain whether it meets the requirements of subdivision (iii) of this subparagraph. If the case is not complete with respect to any requirement in subdivision (iii) (*a*) through (*d*) of this subparagraph, appropriate steps will be taken to complete the file. If any request for technical advice does not comply with the requirements of subdivision (iii)(*e*) of this subparagraph, relating to the statement of proposed deletions, the National Office will make those deletions from the technical advice memorandum which in the judgment of the Commissioner are required by section 6110(c) of the Code.

(*b*) If the taxpayer has requested a conference in the National Office, the procedures in subdivision (v) of this subparagraph will be followed.

(*c*) Replies to requests for technical advice will be addressed to the Appeals office and will be drafted in two parts. Each part will identify the taxpayer by name, address, identification number, and year or years involved. The first part (hereafter called the "technical advice memorandum") will contain (*1*) a recitation of the pertinent facts having a bearing on the issue; (*2*) a discussion of the facts, precedents, and reasoning of the National Office; and (*3*) the conclusions of the National Office. The conclusions will give direct answers, whenever possible, to the specific questions of the Appeals office. The discussion of the issues will be in such detail that the Appeals office is apprised of the reasoning underlying the conclusion. There shall accompany the technical advice memorandum a notice, pursuant to section 6110(f)(1) of the Code, of intention to disclose the technical advice memorandum (including a copy of the version proposed to be open to public inspection and notations of third party communications purusant to section 6110(d) of the Code) which the Appeals office shall forward to the taxpayer at such time that it furnishes a copy of the technical advice memorandum to the taxpayer pursuant to (*e*) of this subdivision and subdivision (vii)(*b*) of this subparagraph.

(*d*) The second part of the reply will consist of a transmittal memorandum. In the unusual cases it will serve as a vehicle for providing the Appeals office administrative information or other information which, under the nondisclosure statutes, or for other reasons, may not be discussed with the taxpayer.

(*e*) It is the general practice of the Service to furnish a copy of the technical advice memorandum to the taxpayer after it has been adopted by the Appeals office. However, in the case of technical advice memorandums described in section 6110(g)(5)(A) of the Code, relating to cases involving criminal or civil fraud investigations and jeopardy or termination assessments, a copy of the technical advice memorandum shall not be furnished the taxpayer until all proceedings with respect to the investigations or assessments are completed.

(*f*) After receiving the notice pursuant to section 6110(f)(1) of the Code of intention to disclose the technical advice memorandum, the taxpayer, if desiring to protest the disclosure of certain information in the memorandum, must, within 20 days after the notice is mailed, submit a written statement identifying those deletions not made by the Internal Revenue Service which the taxpayer believes should have been made. The taxpayer shall also submit a copy of the version of the technical advice memorandum proposed to be open to public inspection on which the taxpayer indicates, by the use of brackets, the deletions proposed by the taxpayer but which have not been made by the Internal Revenue Service. Generally, the Internal Revenue Service will not consider the deletion of any material which the taxpayer did not, prior to the time when the National Office sent its reply to the request for technical advice to the Appeals office, propose be deleted. The Internal Revenue Service shall, within 20 days after receipt of the response by the taxpayer to the notice pursuant to section 6110(f)(1) of the Code, mail to the taxpayer its final administrative conclusion regarding the deletions to be made.

(vii) *Action on technical advice in Appeals offices.* (*a*) Unless the Chief, Appeals Office, feels that the conclusions reached by the National Office in a technical advice memorandum should be reconsidered and promptly requests such reconsideration, the Appeals office will proceed to process the taxpayer's case taking into account the conclusions expressed in the technical advice memorandum. The effect of technical advice on the taxpayer's case is set forth in subdivision (viii) of this subparagraph.

(*b*) The Appeals office will furnish the taxpayer a copy of the technical advice memorandum described in subdivision (vi)(*c*) of this subparagraph and the notice pursuant to section 6110(f)(1) of the Code of intention to disclose the technical advice memorandum (including a copy of the version proposed to be open to public inspection and notations of third-party communications pursuant to section 6110(d) of the Code). The preceding sentence shall not apply to technical advice memorandums involving civil fraud or criminal investigations, or jeopardy or termination assessments, as described in subdivision (iii)(*f*) of this subparagraph (except to the extent provided in subdivision (vi)(*e*) of this subparagraph) or to documents to which section 6104 of the Code applies.

(*c*) In those cases in which the National Office advises the Appeals office that it should not furnish a copy of the technical advice memorandum to the taxpayer, the Appeals office will so inform the taxpayer if he/she requests a copy.

(viii) *Effect of technical advice.* (*a*) A technical advice memorandum represents an expression of the views of the Service as to the application of law, regulations, and precedents to the facts of a specific case, and is issued primarily as a means of assisting Service officials in the closing of the case involved.

(*b*) Except in rare or unusual circumstances, a holding in a technical advice memorandum that is favorable to the taxpayer is applied retroactively. Moreover, since technical advice, as described in subdivision (i) of this subparagraph, is issued only on closed transactions, a holding in a technical advice memorandum that is adverse to the taxpayer is also applied retroactively unless the Assistant Commissioner or Deputy Assisitant Commissioner (Technical) excercises the discretionary authority under section 7805(b) of the Code to limit the retroactive effect of the holding. Likewise, a holding in a technical advice memorandum that modifies or revokes a holding in a prior technical advice memorandum will also be applied retroactively, with one exception. If the new holding is less favorable to the taxpayer, it will generally not be applied to the period in which the taxpayer relied on the prior holding in situations involving continuing transactions of the type described in § 601.201(l)(7) and § 601.201(l)(8).

(*c*) The Appeals office is bound by technical advice favorable to the taxpayer. However, if the technical advice is unfavorable to the taxpayer, the Appeals office may settle the issue in the usual manner under existing authority. For the effect of technical advice in Employee Plans and Exempt Organization cases see § 601.201(n)(9)(viii).

(*d*) In connection with section 446 of the Code, taxpayers may request permission from the Assistant Commissioner (Technical) to change a method of accounting and obtain a 10-year (or less) spread of the resulting adjustments. Such a request should be made prior to or at the first Appeals conference. The Appeals office has authority to allow a change and the resulting spread without referring the case to Technical.

(*e*) Technical advice memorandums often form the basis for revenue rulings. For the description of revenue rulings and the effect thereof, see §§ 601.601(d)(2)(i)(*a*) and 601.601(d)(2)(v).

(*f*) An Appeals office may raise an issue in a taxable period, even though technical advice may have been asked for and furnished with regard to the same or a similar issue in any other taxable period.

* * * * *

§ 601.108 [Amended]

PAR. 4. Section 601.108(a) is amended by deleting the words "district conference and" from the second sentence.

PAR. 5. Section 601.109 is amended in the following respects:

1. Paragraphs (b) (1) and (3) are revised to read as set forth below.

2. Paragraph (c)(1) is redesignated paragraph (c) and is revised to read as set forth below.

3. Paragraph (c)(2) is deleted.

§ 601.109 Bankruptcy and receivership cases.

* * * * *

(b) *Procedure in office of district director.* (1) While the district director is required by section 6871 of the Code to make immediate assessment of any deficiency in income, estate, or gift taxes, such assessment is not made as a jeopardy assessment (see paragraph (h) of § 601.105), and the provisions of section 6861 of the Code do not apply to any assessment made under section 6871. Therefore, the notice of deficiency provided for in section 6861(b) will not be mailed to the taxpayer. Nevertheless, Letter 1005 (DO) will be prepared and addressed in the name of the taxpayer, immediately followed by the name of the trustee, receiver, debtor in possession, or other person designated to be in control of the assets or affairs of the debtor by the court in which the bankruptcy or receivership proceeding is pending. Such letter will state how the deficiency was computed, advise that within 30 days a written protest under penalties of perjury may be filed with the district director showing wherein the deficiency is claimed to be incorrect, and advise that upon request an Appeals office conference will be granted with respect to such deficiency. If, after protest is filed (in triplicate) and an Appeals office conference is held, adjustment appears necessary in the deficiency, appropriate action will be taken. Except where the interests of the Government require otherwise, Letters 1005 (DO) are issued by the office of the district director.

* * * * *

(3) If after such assessment a claim for abatement is filed and such claim is accompanied by a request in writing for a conference, an Appeals office conference will be granted. Ordinarily, only one conference will be held, unless it develops that additional information can be furnished which has a material bearing upon the tax liability in which event the conference will be continued to a later date.

(c) *Procedure before the Appeals office.* If an income, estate, or gift tax case is under consideration by an Appeals office (whether before or after issuance of a statutory notice of deficiency) at the time of either: (i) The adjudication of bankruptcy of the taxpayer in any liquidating proceeding; (ii) the filing with a court of competent jurisdiction or (where approval is required by the Bankruptcy Act) the approval of a petition of, or against, the taxpayer in any other proceeding under the Bankruptcy Act; or (iii) the appointment of any receiver, then the case will be returned to the district director for assessment (if not previously made), for issuance of the Letter 1005 (DO), and for filing proof of claim in the proceeding. Excise and employment tax cases pending in the Appeals office at such time will likewise be returned to the district director for assessment (if not previously made) and for filing proof of claim in the proceeding. A petition for redetermination of a deficiency may not be filed in the Tax Court after the adjudication of bankruptcy, the filing or (where approval is required by the Bankruptcy Act) the approval of a petition of, or the approval of a petition against, the taxpayer in any other bankruptcy proceeding, or the appointment of a receiver. See section 6871(b) of the Code. However, the Tax Court is not deprived of jurisdiction where the adjudication of bankruptcy, the filing or (where approval is required by the Bankruptcy Act) the approval of a petition of, or the approval of a petition against, the taxpayer in any other bankruptcy proceeding, or the appointment of a receiver, occurred after the filing of the petition. In such a case, the jurisdiction of the bankruptcy or receivership court and the Tax Court is concurrent.

* * * * *

PAR. 6. Section 601.201 is amended in the following respects:

1. Paragraph (n)(2)(ii) is amended by revising the fifth sentence to read as set forth below.

2. A new paragraph (n)(2)(iv) is added, reading as set forth below.

3. Paragraph (n)(4) is amended by revising the last sentence to read as set forth below.

4. Paragraph (n)(5) is revised to read as set forth below.

5. Paragraph (n)(6)(ii) is revised to read as set forth below.

6. Paragraph (n)(6)(iv) is revised to read as set forth below.

7. Paragraph (n)(6)(vi) is amended by deleting the words "protest and conference" from the fifth sentence.

8. Paragraph (n)(6)(viii) is revised to read as set forth below.

9. Paragraph (n)(7)(v) is revised to read as set forth below.

10. A new paragraph (n)(9) is added, reading as set forth below.

11. Paragraph (o)(1) is amended by revising the last five sentences to read as set forth below.

12. A new paragraph (o)(2)(iii) is added, reading as set forth below.

13. Paragraph (o)(6) is revised to read as set forth below.

14. Paragraph (o)(7) is deleted and paragraphs (o)(8), (o)(9), (o)(10), and (o)(11) are redesignated paragraphs (o)(7), (o)(8), (o)(9), and (o)(10) respectively.

15. New paragraph (o)(7) (formerly paragraph (o)(8)) is revised to read as set forth below.

16. New paragraph (o)(8)(i) (formerly paragraph (o)(9)(i)) is amended by revising the first sentence to read as set forth below.

17. New paragraph (o)(8)(ii) (formerly paragraph (o)(9)(ii)) is amended by

revising the last sentence to read as set forth below.

18. New paragraph (o)(9) (formerly paragraph (o)(10)) is revised to read as set forth below.

19. New paragraph (o)(10) (formerly paragraph (o)(11)) is amended by deleting the phrase "(11)" each time it appears and inserting in its place the phrase "(10)".

20. New paragraph (o)(10)(i) (formerly paragraph (o)(11)(i)) is revised to read as set forth below.

§ 601.201 Rulings and determination letters.

* * * * *

(n) *Organization claiming exemption under section 501 or 521 of the Code.* * * *

(2) *Processing applications and requests for determination of foundation status.* * * *

(ii) * * * If a conference is requested, the conference procedures set forth in subparagraph (9)(v) of this paragraph will be followed. * * *

* * * * *

(iv) If the exemption application or request for foundation status involves an issue which is not covered by published precedent or on which there may be nonuniformity between districts, or if the National Office had issued a previous contrary ruling or technical advice on the issue, the key district director must request technical advice from the National Office. If, during the consideration of its application or request by a key district director, the organization believes that the case involves an issue with respect to which referral for technical advice is appropriate, the organization may ask the district director to request technical advice from the National Office. The district director shall advise the organization of its right to request referral of the issue to the National Office for technical advice. The technical advice provisions applicable to these cases are set forth in subparagraph (9) of this paragraph. The effect on an organization's appeal rights of technical advice or a National Office ruling issued under this subparagraph are set forth in § 601.106(a)(1)(iv)(*a*) and in subparagraph (5)(i) of this paragraph.

* * * * *

(4) *National Office review of determination letters.* * * * The referral will be treated as a request for technical advice and the procedures of subparagraph (9) of this paragraph will be followed.

(5) *Protest of adverse determination letters.* (i) Upon the issuance of an adverse determination letter, the key district director will advise the organization of its right to protest the determination by requesting Appeals office consideration. However, if the determination was made on the basis of National Office technical advice the organization may not appeal the determination to the Appeals office. See § 601.106(a)(1)(iv)(*a*). To request Appeals consideration, the organization shall submit to the key district director, within 30 days from the date of the letter, a statement of the facts, law, and arguments in support of its position. The organization must also state whether it wishes an Appeals office conference. Upon receipt of an organization's request for Appeals consideration, the key district director will, if it maintains its position, forward the request and the case file to the Appeals office.

(ii) Except as provided in subdivisions (iii) and (iv) of this subparagraph, the Appeals office, after considering the organization's protest and any additional information developed, will advise the organization of its decision and issue an appropriate determination letter. Organizations should make full presentation of the facts, circumstances, and arguments at the initial level of consideration, since submission of additional facts, circumstances, and arguments at the Appeals office may result in suspension of Appeals procedures and referral of the case back to the key district for additional consideration.

(iii) If the proposed disposition by the Appeals office is contrary to a National Office technical advice or ruling concerning tax exemption, issued prior to the case, the proposed disposition will be submitted, through the Office of the Regional Director of Appeals, to the Assistant Commissioner (Employee Plans and Exempt Organizations) or, in a section 521 case, to the Assistant Commissioner (Technical). The decision of the Assistant Commissioner will be followed by the Appeals office. See § 601.106(a)(1)(iv)(*b*).

(iv) If the case involves an issue that is not covered by published precedent or on which there may be nonuniformity between regions, and on which the National Office has not previously ruled, the Appeals office must request technical advice from the National Office. If, during the consideration of its case by Appeals, the organization believes that the case involves an issue with respect to which referral for technical advice is appropriate, the organization may ask the Appeals office to request technical advice from the National Office. The Appeals office shall advise the organization of its right to request referral of the issue to the National Office for technical advice. If the Appeals office requests technical advice, the decision of the Assistant Commissioner (Employee Plans and Exempt Organizations) or, in a section 521 case, the decision of the Assistant Commissioner (Technical), in a technical advice memorandum is final and the Appeals office must dispose of the case in accordance with that decision. See subparagraph (9)(viii)(*a*) of this paragraph.

(6) *Revocation or modification of rulings or determination letters on exemption and foundation status.* * * *

(ii)(*a*) If a key district director concludes as a result of examining an information return, or considering information from any other source, that an exemption ruling or determination letter should be revoked or modified, the organization will be advised in writing of the proposed action and the reasons therefor. If the case involves an issue not covered by published precedent or on which there may be nonuniformity between districts, or if the National Office had issued a previous contrary ruling or technical advice on the issue, the district director must seek technical advice from the National Office. If the organization believes that the case involves an issue with respect to which referral for technical advice is appropriate, the organization may ask the district director to request technical advice from the National Office. The district director shall advise the organization of its right to request referral of the issue to the National Office for technical advice.

(*b*) The key district director will advise the organization of its right to protest the proposed revocation or modification by requesting Appeals office consideration. However, if National Office technical advice was furnished concerning revocation or modification under (*a*) of this subdivision, the decision of the Assistant Commissioner in the technical advice memorandum is final and the organization has no right of apeal to the Appeals office. See § 601.106(a)(1)(iv)(*a*). To request Appeals consideration, the organization must submit to the key district director, within 30 days from the date of the letter, a statement of the facts, law, and arguments in support of its continued exemption. The organization must also state whether it wishes an Appeals office conference. Upon receipt of an organization's request for Appeals consideration, the key district office, will, if it maintains its position, forward the request and the case file to the Appeals office.

(c) Except as provided in (*d*) and (*e*) of this subdivision, the Appeals office, after considering the organization's protest and any additional information developed, will advise the organization of its decision and issue an appropriate determination letter. Organizations should make full presenta-

tion of the facts, circumstances, and arguments at the initial level of consideration, since submission of additional facts, circumstances, and arguments at the Appeals office may result in suspension of Appeals procedures and referral of the case back to the key district for additional consideration.

(*d*) If the proposed disposition by the Appeals office is contrary to a National Office technical advice or ruling concerning tax exemption, issued prior to the case, the proposed disposition will be submitted, through the Office of the Regional Director of Appeals, to the Assistant Commissioner (Employee Plans and Exempt Organizations) or, in a section 521 case, to the Assistant Commissioner (Technical). The decision of the Assistant Commissioner will be followed by the Appeals office. See § 601.106(a)(1)(iv)(*b*).

(*e*) If the case involves an issue that is not covered by published precedent or on which there may be nonuniformity between regions, and on which the National Office has not previously ruled, the Appeals office must request technical advice from the National Office. If the organization believes that the case involves an issue with respect to which referral for technical advice is appropriate, the organization may ask the Appeals office to request technical advice from the National Office. The Appeals office shall advise the organization of its right to request referral of the issue to the National Office for technical advice.

* * * * *

(iv) If a key district director concludes that a ruling or determination letter concerning private foundation or operating foundation status should be revoked or modified, the organization will be advised in writing of the proposed adverse action, the reasons therefor, and the proposed new determination of foundation status. The procedures set forth in subdivision (ii) of this subparagraph apply to a proposed revocation or modification under this subdivision. Unless the effective date of revocation or modification of a ruling or determination letter concerning private foundation or operating foundation status is expressly covered by statute or regulations, the effective date generally is the same as the effective date of revocation or modification of exemption rulings or determination letters as provided in subdivision (i) of this subparagraph.

* * * * *

(viii) The provisions of this subparagraph relating to protests, conferences, and the rights of organizations to ask that technical advice be requested before a revocation (or modification) notice is issued are not applicable to matters where delay would be prejudicial to the interests of the Internal Revenue Service (such as in cases involving fraud, jeopardy, the imminence of the expiration of the period of limitations, or where immediate action is necessary to protect the interests of the Government).

(7) *Declaratory judgments relating to status and classification of organizations under section 501(c)(3) of the Code.* * * *

(v) An organization will in no event be deemed to have exhausted its administrative remedies prior to the completion of the steps described in subdivision (iv) of this subparagraph and the earlier of:

(*a*) The sending by certified or registered mail of a notice of final determination; or

(*b*) The expiration of the 270-day period described in section 7428(b)(2) of the Code, in a case in which the Service has not issued a notice of final determination and the organization has taken, in a timely manner, all reasonable steps to secure a ruling or determination.

* * * * *

(9) *Technical advice from the National Office*—(i) *Definition and nature of technical advice.* (*a*) As used in this subparagraph, "technical advice" means advice or guidance as to the interpretation and proper application of internal revenue laws, related statutes, and regulations, to a specific set of facts, in Employee Plans and Exempt Organization matters, furnished by the National Office upon request of a key district office or Appeals office in connection with the processing and consideration of a nondocketed case. It is furnished as a means of assisting Service personnel in closing cases and establishing and maintaining consistent holdings. It does not include memorandums on matters of general technical application furnished to key district offices or to Appeals offices where the issues are not raised in connection with the consideration and handling of a specific case.

(*b*) The provisions of this subparagraph only apply to Employee Plans and Exempt Organization cases being considered by a key district director or Appeals office. They do not apply to any other case under the jurisdiction of a district director or Appeals office or to a case under the jurisdiction of the Bureau of Alcohol, Tobacco, and Firearms. The technical advice provisions applicable to cases under the jurisdiction of a district director, other than Employee Plans and Exempt Organization cases, are set forth in § 601.105(b)(5). The technical advice provisions applicable to cases under the jurisdiction of an Appeals office, other than Employee Plans and Exempt Organization cases are set forth in § 601.106(f)(10).

(*c*) A key district director or an Appeals office may, under this subparagraph, request technical advice with respect to the consideration of a request for a determination letter. If the case involves certain Exempt Organization issues that are not covered by published precedent or on which there may be nonuniformity, requesting technical advice is mandatory rather than discretionary. See subparagraphs (2)(iv) and (5)(iii) of this paragraph.

(*d*) If a key district director is of the opinion that a National Office ruling letter or technical advice previously issued should be modified or revoked and it requests the National Office to reconsider the ruling or technical advice, the reference of the matter to the National Office is treated as a request for technical advice. The procedures specified in subdivision (iii) of this subparagraph should be followed in order that the National Office may consider the recommendation. Only the National Office can revoke a National Office ruling letter or technical advice. Before referral to the National Office, the key district director should inform the plan/organization of its opinion that the ruling letter or technical advice should be revoked. The key district director, after development of the facts and consideration of the arguments, will decide whether to recommend revocation of the ruling or technical advice to the National Office.

(*e*) The Assistant Commissioner (Employee Plans and Exempt Organizations) and, in section 521 cases, the Assistant Commissioner (Technical), acting under a delegation of authority from the Commissioner of Internal Revenue, are exclusively responsible for providing technical advice in any issue involving the establishment of basic principles and rules for the uniform interpretation and application of tax laws in cases under this subparagraph. This authority has been largely redelegated to subordinate officials.

(ii) *Areas in which technical advice may be requested.* (*a*) Key district directors and Appeals offices may request technical advice on any technical or procedural question that develops during the processing and consideration of a case. These procedures are applicable as provided in subdivision (i) of this subparagraph.

(*b*) Key district directors and Appeals offices are encouraged to request technical advice on any technical or procedural question arising in connection with any case described in subdivision (i) of this subparagraph which cannot be resolved on the basis of law, regulations, or a clearly applicable rev-

V 43 / 189 SEP 28 78 LIMI

enue ruling or other precedent issued by the National Office. However, in Exempt Organization cases concerning qualification for exemption or foundation status, key district directors and Appeals offices must request technical advice on any issue that is not covered by published precedent or on which nonuniformity may exist. Requests for technical advice should be made at the earliest possible stage of the proceedings.

(iii) *Requesting technical advice.* (*a*) It is the responsibility of the key district office or the Appeals office to determine whether technical advice is to be requested on any issue before that office. However, while the case is under the jurisdiction of the key district director or the Appeals office, an employee plan/organization or its representative may request that an issue be referred to the National Office for technical advice on the grounds that a lack of uniformity exists as to the disposition of the issue, or that the issue is so unusual or complex as to warrant consideration by the National Office. This request should be made at the earliest possible stage of the proceedings. While plans/organizations are encouraged to make written requests setting forth the facts, law, and argument with respect to the issue, and reason for requesting National Office advice, a plan/organization may make the request orally. If, after considering the plan's/organization's request, the examiner or the Appeals Officer is of the opinion that the circumstances do not warrant referral of the case to the National Office, he/she will so advise the plan/organization. (See subdivision (iv) of this subparagraph for a plan's/organization's appeal rights where the examiner or Appeal Officer declines to request technical advice.)

(*b*) When technical advice is to be requested, whether or not upon the request of the plan/organization, the plan/organization will be so advised, except as noted in (*j*) of this subdivision. If the key district office or the Appeals office initiates the action, the plan/organization will be furnished a copy of the statement of the pertinent facts and the question or questions proposed for submission to the National Office. The request for advice should be so worded as to avoid possible misunderstanding, in the National Office, of the facts or of the specific point or points at issue.

(*c*) After receipt of the statement of facts and specific questions, the plan/organization will be given 10 calendar days in which to indicate in writing the extent, if any, to which it may not be in complete agreement. An extension of time must be justified by the plan/organization in writing and approved by the Chief, Employee Plans and Exempt Organizations Division (in the district office) or the Chief, Appeals Office, as the case may be. Every effort should be made to reach agreement as to the facts and specific points at issue. If agreement cannot be reached, the plan/organization may submit, within 10 calendar days after receipt of notice from the key district director or the Appeals office, a statement of its understanding as to the specific point or points at issue which will be forwarded to the National Office with the request for advice. An extension of time must be justified by the plan/organization in writing and approved by the Chief, Employee Plans and Exempt Organizations Division or the Chief, Appeals Office.

(*d*) If the plan/organization initiates the action to request advice, and its statement of the facts and point or points at issue are not wholly acceptable to the key district office or the Appeals office, the plan/organization will be advised in writing as to the areas of disagreement. The plan/organization will be given 10 calendar days after receipt of the written notice to reply to such notice. An extension of time must be justified by the plan/organization in writing and approved by the Chief, Employee Plans and Exempt Organizations Division or the Chief, Appeals Office. If agreement cannot be reached, both the statements of the plan/organization and the key district office or the Appeals office will be forwarded to the National Office.

(*e*)(*1*) In the case of requests for technical advice subject to the disclosure provisions of section 6110 of the Code, the plan/organization must also submit, within the 10-day period referred to in (*c*) and (*d*) of this subdivision, whichever applicable (relating to agreement by the plan/organization with the statement of facts and points submitted in connection with the request for technical advice) the statement described in (*f*) of this subdivision of proposed deletions pursuant to section 6110(c) of the Code. If the statement is not submitted, the plan/organization will be informed by the key district director or the Appeals office that the statement is required. If the key district director or the Appeals office does not receive the statement within 10 days after the plan/organization has been informed of the need for the statement, the key district director or the Appeals office may decline to submit the request for technical advice. If the key district director or the Appeals office decides to request technical advice in a case where the plan/organization has not submitted the statement of proposed deletions, the National Office will make those deletions which in the judgment of the Commissioner are required by section 6110(c) of the Code.

(*2*) The requirements included in this subparagraph, relating to the submission of statements and other material with respect to proposed deletions to be made from technical advice memoranda before public inspection is permitted to take place, do not apply to requests made by the key district director before November 1, 1976, or requests for any document to which section 6104 of the Code applies.

(*f*) In order to assist the Internal Revenue Service in making the deletions, required by section 6110(c) of the Code, from the text of technical advice memoranda which are open to public inspection pursuant to section 6110(a) of the Code, there must accompany requests for such technical advice either a statement of the deletions proposed by the plan/organization, or a statement that no information other than names, addresses, and identifying numbers need be deleted. Such statements shall be made in a separate document. The statement of proposed deletions shall be accompanied by a copy of all statements of facts and supporting documents which are submitted to the National Office pursuant to (*c*) or (*d*) of this subdivision, on which shall be indicated, by the use of brackets, the material which the plan/organization indicates should be deleted pursuant to section 6110(c) of the Code. The statement of proposed deletions shall indicate the statutory basis for each proposed deletion. The statement of proposed deletions shall not appear or be referred to anywhere in the request for technical advice. If the plan/organization decides to request additional deletions pursuant to section 6110(c) of the Code prior to the time the National Office replies to the request for technical advice, additional statements may be submitted.

(*g*) If the plan/organization has not already done so, it may submit a statement explaining its position on the issues, citing precedents which it believes will bear on the case. This statement will be forwarded to the National Office with the request for advice. If it is received at a later date, it will be forwarded for association with the case file.

(*h*) At the time the plan/organization is informed that the matter is being referred to the National Office, it will also be informed of the right to a conference in the National Office in the event an adverse decision is indicated, and will be asked to indicate whether a conference is desired.

(*i*) Generally, prior to replying to the request for technical advice, the National Office shall inform the plan/organization orally or in writing of the material likely to appear in the technical advice memorandum which the plan/organization proposed be deleted but which the Internal Revenue Service determined should not be deleted. If so informed, the plan/organization may submit within 10 days any further information, arguments, or other material in support of the position that such material be deleted. The Internal Revenue Service will attempt, if feasible, to resolve all disagreements with respect to proposed deletions prior to the time the National Office replies to the request for technical advice. However, in no event shall the plan/organization have the right to a conference with respect to resolution of any disagreements concerning material to be deleted from the text of the technical advice memorandum, but such matters may be considered at any conference otherwise scheduled with respect to the request.

(*j*) The provisions of (*a*) through (*i*) of this subdivision, relating to the referral of issues upon request of the plan/organization, advising plans/organizations of the referral of issues, the submission of proposed deletions, and the granting of conferences in the National Office, are not applicable to technical advice memoranda described in section 6110(g)(5)(A) of the Code, relating to cases involving criminal or civil fraud investigations and jeopardy or termination assessments. However, in such cases the plan/organization shall be allowed to provide the statement of proposed deletions to the National Office upon the completion of all proceedings with respect to the investigations or assessments, but prior to the date on which the Commissioner mails the notice pursuant to section 6110(f)(1) of the Code of intention to disclose the technical advice memorandum.

(*k*) Form 4463, Request for Technical Advice, should be used for transmitting requests for technical advice to the National Office.

(iv) *Appeal by plans/organizations of determinations not to seek technical advice.* (*a*) If the plan/organization has requested referral of an issue before a key district office or an Appeals office to the National Office for technical advice, and after consideration of the request the examiner or the Appeals Officer is of the opinion that the circumstances do not warrant such referral, he/she will so advise the plan/organization.

(*b*) The plan/organization may appeal the decision of the examiner or the Appeals Officer not to request technical advice by submitting to the relevant official, within 10 calendar days after being advised of the decision, a statement of the facts, law, and arguments with respect to the issue, and the reasons why the plan/organization believes the matter should be referred to the National Office for advice. An extension of time must be justified by the plan/organization in writing and approved by the Chief, Employee Plans and Exempt Organizations Division of the Chief, Appeals Office.

(*c*) The examiner or the Appeals Officer will submit the statement of the plan/organization to the Chief, Employee Plans and Exempt Organizations Division or the Chief, Appeals Office, accompanied by a statement of the official's reasons why the issue should not be referred to the National Office. The Chief will determine, on the basis of the statements submitted, whether technical advice will be requested. If the Chief determines that technical advice is not warranted, that official will inform the plan/organization in writing that he/she proposes to deny the request. In the letter to the plan/organization the Chief will (except in unusual situations where such action would be prejudicial to the best interests of the Government) state specifically the reasons for the proposed denial. The plan/organization will be given 15 calendar days after receipt of the letter in which to notify the Chief whether it agrees with the proposed denial. The plan/organization may not appeal the decision of the Chief, Employee Plans and Exempt Organizations Division, or of the Chief, Appeals Office, not to request technical advice from the National Office. However, if the plan/organization does not agree with the proposed denial, all data relating to the issue for which technical advice has been sought, including the plan's/organization's written request and statements, will be submitted to the National Office, Attention: Director, Exempt Organizations or Employee Plans Division or Actuarial Division or, in a section 521 case, Attention: Director, Corporation Tax Division for review. After review in the National Office, the submitting office will be notified whether the proposed denial is approved or disapproved.

(*d*) While the matter is being reviewed in the National Office, the key district office or the Appeals office will suspend action on the issue (except where the delay would prejudice the Government's interests) until it is notified of the National Office decision. This notification will be made within 30 days after receipt of the data in the National Office. The review will be solely on the basis of the written record and no conference will be held in the National Office.

(v) *Conference in the National Office.* (*a*) If, after a study of the technical advice request, it appears that advice adverse to the plan/organization should be given and a conference has been requested, the plan/organization will be notified of the time and place of the conference. If conferences are being arranged with respect to more than one request for advice involving the same plan/organization, they will be so scheduled as to cause the least inconvenience to the plan/organization. The conference will be arranged by telephone, if possible, and must be held within 21 calendar days after contact has been made. Extensions of time will be granted only if justified in writing by the plan/organization and approved by the appropriate branch chief.

(*b*) A plan/organization is entitled, as a matter of right, to only one conference in the National Office unless one of the circumstances discussed in (*c*) of this subdivision exists. This conference will usually be held at the branch level in the appropriate division in the Office of the Assistant Commissioner (Employee Plans and Exempt Organizations) or, in section 521 cases, in the Office of the Assistant Commissioner (Technical), and will usually be attended by a person who has authority to act for the branch chief. In appropriate cases the examiner or the Appeals Officer may also attend the conference to clarify the facts in the case. If more than one subject is discussed at the conference, the discussion constitutes a conference with respect to each subject. At the request of the plan/organization or its representative, the conference may be held at an earlier stage in the consideration of the case than the Service would ordinarily designate. A plan/organization has no "right" of appeal from an action of a branch to the director of a division or to any other National Office official.

(*c*) In the process of review of a holding proposed by a branch, it may appear that the final answer will involve a reversal of the branch proposal with a result less favorable to the plan/organization. Or it my appear that an adverse holding proposed by a branch will be approved, but on a new or different issue or on different grounds than those on which the branch decided the case. Under either of these circumstances, the plan/organization or its representative will be invited to another conference. The provisions of this subparagraph limiting the number of conferences to which a plan/organization is entitled will not foreclose inviting the plan/organization to attend further conferences when, in the opinion of National Office personnel, such need arises. All additional conferences of this type discussed are held only at the invitation of the Service.

(*d*) It is the responsibility of the plan/organization to furnish to the National Officer; within 21 calendar days after the conference, a written record of any additional data, line of reasoning, precedents, etc., that were

V 43/189 SE 28 78

proposed by the plan/organization and discussed at the conference but were not previously or adequately presented in writing. Extensions of time will be granted only if justified in writing by the plan/organization and approved by the appropriate branch chief. Any additional material and a copy thereof should be addressed to and sent to the National Office which will forward the copy to the appropriate key district director or Appeals office. The key district director or the Appeals office will be requested to give the matter prompt attention, will verify the additional facts and data, and will comment on it to the extent deemed appropriate.

(e) A plan/organization or its representative desiring to obtain information as to the status of its case (other than a section 521 case) may do so by contacting the following offices with respect to matters in the areas of their responsibility:

OFFICIAL TELEPHONE NUMBERS (AREA CODE 202)

Chief, Employee Plans Technical Branch, 566-3871.
Chief, Exempt Organizations Technical Branch, 566-3856 or 566-3593.
Director, Actuarial Division, 566-4311.

An organization or its representative desiring to obtain information as to the status of its section 521 case may do so by contacting the Director, Corporation Tax Division (202-566-4504 or 566-4505).

(vi) *Preparation of technical advice memorandum by the National Office.* (a) Immediately upon receipt in the National Office, the employee to whom the case is assigned will analyze the file to ascertain whether it meets the requirements of subdivision (iii) of this subparagraph. If the case is not complete with respect to any requirement in subdivision (iii) (a) through (d) of this subparagraph, appropriate steps will be taken to complete the file. If any request for technical advice does not comply with the requirements of subdivision (iii)(e) of this subparagraph, if applicable, relating to the statement of proposed deletions, the National Office will make those deletions from the technical advice memorandum which in the judgment of the Commissioner are required by section 6110(c) of the Code.

(b) If the plan/organization has requested a conference in the National Office, the procedures in subdivision (v) of this subparagraph will be followed.

(c) Replies to requests for technical advice will be addressed to the key district director or to the Appeals office and will be drafted in two parts. Each part will identify the plan/organization by name, address, identification number, and year or years involved. The first part (hereafter called the "technical advice memorandum") will contain (1) a recitation of the pertinent facts having a bearing on the issue; (2) a discussion of the facts, precedents, and reasoning of the National Office; and (3) the conclusions of the National Office. The conclusions will give direct answers, whenever possible, to the specific questions of the key district director or the Appeals office. The discussion of the issues will be in such detail that the key district director or the Appeals office is apprised of the reasoning underlying the conclusion. There shall accompany the technical advice memorandum, where applicable, a notice, pursuant to section 6110(f)(1) of the Code, of intention to disclose the technical advice memorandum (including a copy of the version proposed to be open to public inspection and notations of third party communications pursuant to section 6110 (d) of the Code) which the key district director or the Appeals office will forward to the plan/organization at such time that it furnishes a copy of the technical advice memorandum to the plan/organization pursuant to (e) of this subdivision and subdivision (vii)(b) of this subparagraph.

(d) The second part of the reply will consist of a transmittal memorandum. In the unusual cases it will serve as a vehicle for providing the key district office or Appeals office administrative information or other information which, under the nondisclosure statutes, or for other reasons, may not be discussed with the plan/organization.

(e) It is the general practice of the Service to furnish a copy of the technical advice memorandum to the plan/organization after it has been adopted by the key district director or the Appeals office. However, in the case of technical advice memoranda described in section 6110(g)(5)(A) of the Code, relating to cases involving criminal or civil fraud investigations and jeopardy or termination assessments, a copy of the technical advice memorandum shall not be furnished the plan/organization until all proceedings with respect to the investigations or assessments are completed.

(f) After receiving the notice, pursuant to section 6110 (f)(1) of the Code, of intention to disclose the technical advice memorandum (if applicable), the plan/organization, if desiring to protest the disclosure of certain information in the memorandum, must, within 20 days after the notice is mailed, submit a written statement identifying those deletions not made by the Internal Revenue Service which the plan/organization believes should have been made. The plan/organization shall also submit a copy of the version of the technical advice memorandum proposed to be open to public inspection on which it indicates, by the use of brackets, the deletions proposed by the plan/organization but which have not been made by the Internal Revenue Service. Generally, the Internal Revenue Service will not consider the deletion of any material which the plan/organization did not, prior to the time when the National Office sent its reply to the request for technical advice to the key district director or the Appeals office, propose be deleted. The Internal Revenue Service shall, within 20 days after receipt of the response by the plan/organization to the notice pursuant to section 6110(f)(1) of the Code (if applicable), mail to the plan/organization its final administrative conclusion regarding the deletions to be made.

(vii) *Action on technical advice in key district offices and in Appeals offices.* (a) Unless the key district director or the Chief, Appeals office, feels that the conclusions reached by the National Office in a technical advice memorandum should be reconsidered and promptly requests such reconsideration, the key district office or the Appeals office will proceed to process the case on the basis of the conclusions expressed in the technical advice memorandum. The effect of technical advice on the plan's/organization's case once the technical advice memorandum is adopted is set forth in subdivision (viii) of this subparagraph.

(b) The key district director or the Appeals office will furnish the plan/organization a copy of the technical advice memorandum described in subdivision (vi)(c) of this subparagraph and the notice pursuant to section 6110(f)(1) of the Code (if applicable) of intention to disclose the technical advice memorandum (including a copy of the version proposed to be open to public inspection and notations of third party communications pursuant to section 6110(d) of the Code). The preceding sentence shall not apply to technical advice memoranda involving civil fraud or criminal investigations, or jeopardy or termination assessments, as described in subdivision (iii)(f) of this subparagraph (except to the extent provided in subdivision (vi)(e) of this subparagraph) or to documents to which section 6104 of the Code applies.

(c) In those cases in which the National Office advises the key district director or the Appeals office that it should not furnish a copy of the technical advice memorandum to the plan/organization, the key district director or the Appeals office will so inform the plan/organization if it requests a copy.

(viii) *Effect of technical advice.* (a) A technical advice memorandum represents an expression of the views of the Service as to the application of law, regulations, and precedents to the

facts of a specific case, and is issued primarily as a means of assisting Service officials in the examination and closing of the case involved. In cases under this subparagraph concerning a plan's/organization's qualification or an organization's status, the conclusions expressed in a technical advice memorandum are final and will be followed by the key district office or the Appeals office.

(b) Unless otherwise stated, a holding in a technical advice memorandum will be applied retroactively. Moreover, where the plan/organization had previously been issued a favorable ruling or determination letter (whether or not it was based on a previous technical advice memorandum) concerning that transaction, its purpose, or method of operation, the holding in a technical advice memorandum that is adverse to the plan/organization is also applied retroactively unless the Assistant Commissioner or Deputy Assistant Commissioner (Employee Plans and Exempt Organizations) or, in a section 521 case, the Assistant Commissioner or Deputy Assistant Commissioner (Technical) exercises the discretionary authority under section 7805(b) of the Code to limit the retroactive effect of the holding as illustrated, in the case of rulings, in paragraph (l)(5) of this section.

(c) Technical advice memoranda often form the basis for revenue rulings. For the description of revenue rulings and the effect thereof, see §§ 601.601 (d)(2)(i)(a) and 601.601 (d)(2)(v).

(d) A key district director or an Appeals office may raise an issue in a taxable period, even though technical advice may have been asked for and furnished with regard to the same or a similar issue in any other taxable period. However, if the proposal by the key district director or the Appeals office is contrary to a prior technical advice or ruling issued to the same plan/organization, the proposal must be submitted to the National Office. See § 601.106(a)(1)(iv)(b) and subdivision (i)(d) of this subparagraph.

(o) *Employees' trusts or plans*—(1) *In general.* • • • Paragraph (o)(6) describes the administrative appeal rights available to applicants. Paragraph (o)(7) provides for the issuance of notice of final determination. Paragraph (o)(8) describes the documents which will make up the administrative record. Paragraph (o)(9) describes the notice of final determination. Paragraph (o)(10) sets forth the actions that will be necessary on the part of applicants, interested parties, and the Pension Benefit Guaranty Corporation in order for each to exhaust the administrative remedies within the meaning of section 7476(b)(3) of the Code.

(2) *Determination letters.* • • •

(iii) If, during the consideration of a case described in paragraph (o)(2)(i) of this section by a key district director, the applicant believes that the case involves an issue with respect to which referral for technical advice is appropriate, the applicant may ask the district director to request technical advice from the National Office. The district director shall advise the applicant of its right to request referral of the issue to the National Office for technical advice. The technical advice provisions applicable in these cases are set forth in paragraph (n)(9) of this section. If technical advice is issued, the decision of the National Office is final and the applicant may not thereafter appeal the issue to the Appeals office. See § 601.106(a)(1)(iv)(a) and paragraph (o)(6) of this section.

• • • • •

(6) *Reference of matters to the Appeals office.* (i) Where issues arise in a district director's office on matters within the contemplation of paragraph (o)(2)(i) of this section, and the key district director issues a notice of proposed determination which is adverse to the applicant, the applicant may appeal the proposed determination to the Appeals office. However, the applicant may not appeal a determination that is based on a National Office technical advice. See § 601.106(a)(1)(iv)(a) and paragraph (o)(2)(iii) of this section. The applicant shall notify the key district director that it intends to request Appeals office consideration by submitting the request, in writing, to the key district director within 30 days from issuance of the notice of proposed determination. The key district director will forward the request and the administrative record to the Appeals office and will so notify the applicant in writing. A failure by the applicant to request Appeals office consideration will constitute a failure to exhaust available administrative remedies as required by section 7476(b)(3) and will thus preclude the applicant from seeking a declaratory judgment as provided under section 7476. (See paragraph (o)(10)(i)(c) of this section.)

(ii) The request for Appeals office consideration must show the following:

(a) Date of application for determination letter;

(b) Name and address of the applicant and the name and address of the representative, if any, who has been authorized to represent the applicant as provided in paragraph (c)(6) of this section;

(c) The key district office in which the case is pending;

(d) Type of plan (pension, annuity, profit-sharing, stock bonus, bond purchase, and foreign situs trusts), and type of action involved (initial qualification, amendment, curtailment, or termination);

(e) Date of filing this request with the key district director and the date and symbols of the letter referred to in paragraph (o)(6)(i) of this section;

(f) A complete statement of the issues and a presentation of the arguments in support of the applicant's position; and

(g) Whether a conference is desired.

(iii) After receipt of the administrative record in the Appeals office, the applicant will be afforded the opportunity for a conference, if a conference was requested. After full consideration of the entire administrative record, the Appeals office will notify the applicant in writing of the proposed decision and the reasons therefor and will issue a notice of final determination in accordance with the decision. However, if the proposed disposition by the Appeals office is contrary to a National Office technical advice concerning qualification, issued prior to the case, the proposed disposition will be submitted to the Assistant Commissioner (Employee Plans and Exempt Organizations) and the decision of that official will be followed by the Appeals office. See § 601.106(a)(1)(iv)(b). Additionally, if the applicant believes that the case involves an issue with respect to which referral for technical advice is appropriate, the applicant may ask the Appeals office to request technical advice from the National Office. The Appeals office shall advise the applicant of its right to request referral of the issue to the National Office for technical advice. The technical advice provisions applicable to these cases are set forth in paragraph (n)(9) of this section. If technical advice is issued, the decision of the National Office will be followed by the Appeals office. See paragraph (n)(9)(viii)(a) of this section.

(iv) Applicants are advised to make full presentation of the facts, circumstances, and arguments at the initial level of consideration, since submission of additional facts, circumstances, and arguments at the Appeals office may result in suspension of Appeals procedures and referral of the case back to the key district for additional consideration.

(7) *Issuance of the notice of final determination.* The key district director or Appeals office will send notice of the final determination to the applicant. The key district director will send notice of the final determination to the interested parties who have previously submitted comments on the application to the Internal Revenue Service pursuant to paragraph

V 43 / 189 SEP 28 78 LIMI

(o)(5)(i) (*a*) or (*c*) of this section (or to the persons designated by them to receive such notice), to the Department of Labor in the case of a comment submitted by that department upon the request of interested parties or the Pension Benefit Guaranty Corporation pursuant to paragraph (o)(5)(i)(*b*) of this section, and to the Pension Benefit Guaranty Corporation if it has filed a comment pursuant to paragraph (o)(5)(i)(*a*) of this section.

(8) *Administrative record.* (i) In the case of a request for an advance determination in respect of a retirement plan, the determination of the district director or Appeals office on the qualification or nonqualification of the retirement plan shall be based solely on the facts contained in the administrative record. • • •

(ii) • • • Any oral representation or modification of the facts as represented or alleged in the application for determination or in a comment filed by an interested party, which is not reduced to writing and submitted to the Service shall not become a part of the administrative record and shall not be taken into account in the determination of the qualified status of the retirement plan by the district director or Appeals office.

(9) *Notice of final determination.* For purposes of this paragraph (o), the notice of final determination shall be—

(i) In the case of a final determination which is favorable to the applicant, the letter issued by the key district director or Appeals office (whether or not by certified or registered mail) which states that the applicant's plan satisfies the qualification requirements of the Internal Revenue Code.

(ii) In the case of a final determination which is adverse to the applicant, the letter issued by certified or registered mail by the key district director or Appeals office, subsequent to a letter of proposed determination, stating that the applicant's plan fails to satisfy the qualification requirements of the Internal Revenue Code.

(10) *Exhaustion of administrative remedies.* • • •

(i) The administrative remedies of an applicant with respect to any matter relating to the qualification of a plan are:

(*a*) Filing a completed application with the appropriate district director pursuant to paragraphs (o)(3) (iii) through (xii) of this section;

(*b*) Compliance with the requirements pertaining to notice to interested parties as set forth in paragraphs (o)(3)(xiv) through (o)(3)(xxi) of this section; and

(c) An appeal to the Appeals office pursuant to paragraph (o)(6) of this section, in the event of a notice of proposed adverse determination from the district director.

• • • • • •

PAR. 7. Section 601.203 is amended by revising paragraph (d) to read as follows:

§ 601.203 Offers in compromise.

• • • • • •

(d) *Conferences.* Before filing a formal offer in compromise, a taxpayer may request a meeting in the office which would have jurisdiction over the offer to explore the possibilities of compromising unpaid tax liability. After all investigations have been made, the taxpayer may also request a meeting in the office having jurisdiction of the offer to determine the amount which may be accepted as a compromise. If agreement is not reached at such meeting and the district director has processing jurisdiction over the offer, the taxpayer will be informed that the taxpayer may request consideration of the case by an Appeals office. The request may be in writing or oral. If the tax, penalty, and assessed (but not accrued) interest sought to be compromised exceeds $2,500 for any return, taxable year or taxable period, a written protest is required. Taxpayers and their representatives are required to comply with the applicable conference and practice requirements. See subpart E of this part.

§ 601.403 [Amended]

PAR. 8. Section 601.403(c)(2) is amended by deleting the words "district conference," from the sixth sentence.

¶ These amendments to the Statement of Procedural Rules are issued under the authority contained in 5 U.S.C. 301 and 5 U.S.C. 552.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 76-069]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Menominee River, Wis.

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: At the request of the City of Menominee, Mich., the Coast Guard is revising the regulations for the Ogden-First Street drawbridge across the Menominee River, mile 0.38, Marinette, Wis., to require the draw to open on signal from May 1 through October 31 from 11 p.m. to 7 a.m., if at least 2 hours notice is given. This change is being made because of limited requests for openings of the draw This action will relieve the bridge owner of the burden of having a person constantly available to open the draw.

EFFECTIVE DATE: This amendment is effective on October 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Frank L. Teuton, Jr., Chief, Drawbridge Regulations Branch (G-WBR/73), Room 7300, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-0942.

SUPPLEMENTARY INFORMATION: On April 22, 1976, the Coast Guard published a proposed rule (41 FR 16826) concerning this amendment. The Commander, Ninth Coast Guard District also published these proposals as a Public Notice dated May 6, 1976. Interested persons were given until May 25, 1976 to submit comments.

DRAFTING INFORMATION

The principal persons involved in drafting this rule are: Frank L. Teuton, Jr., Project Manager, Office of Marine Environment and Systems, and Mary Ann McCabe, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF COMMENTS

No comments were received in response to the FEDERAL REGISTER request or the public notice issued by the Commander (oan), Ninth Coast Guard District. During the past 2 years, regulations, identical to this rule, were in effect for limited periods. The regulations initially caused some difficulty due to an inadequate radiotelephone system for requesting bridge openings. The city of Menominee has installed a more efficent system and has been operating it under the proposed regulations with no complaints.

In consideration of the foregoing, part 117 of title 33 of the Code of Federal Regulations is amended by revising § 117.644a(a) to read as follows:

§ 117.644a Ogden-First Street Bridge, Menominee River, Wis.

(a) The draw shall open on signal:

(1) From May 1 through October 31 from 7 a.m. to 11 p.m.

(2) From May 1 through October 31 from 11 p.m. to 7 a.m., if at least 2 hours notice is given.

(3) From November 1 through April 30 if at least 12 hours notice is given.

• • • • • •

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5).)

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: September 21, 1978.

R. H. SCARBOROUGH,
Vice Admiral, U.S. Coast Guard,
Acting Commandant.

[4910-14]

[CGD 78-018]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Oklawaha River, Fla.

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: At the request of the Florida Department of Transportation, the Coast Guard is changing the regulations governing the operation of four drawbridges across the Oklawaha River, Marion County, Fla., to require at least 3 hours notice at all times. This change is being made because of very limited requests for openings of the draws. This action will relieve the bridge owners of the burden of having a person constantly available to open the draws while still providing for the reasonable needs of navigation.

EFFECTIVE DATE: This amendment is effective on October 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Frank L. Teuton, Jr., Chief, Drawbridge Regulations Branch (G-WBR/73), Room 7300, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-0942.

SUPPLEMENTARY INFORMATION: On March 2, 1978, the Coast Guard published a proposed rule (43 FR 8560) concerning this amendment. The Commander, Seventh Coast Guard District also published these proposals as a public notice dated March 3, 1978. Interested persons were given until April 3, 1978, to submit comments.

DRAFTING INFORMATION

The principal persons involved in drafting this rule are: Frank L. Teuton, Jr., Project Manager, Office of Marine Environment and Systems, and Mary Ann McCabe, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF COMMENTS

One comment was received which stated that the 3-hour notice was too restrictive. When this commenter was requested to state what, in his opinion, was reasonable, no response was received. In view of the relatively few requests for the openings of the draws of these bridges, the Coast Guard feels that the 3-hour notice is reasonable at this time.

In consideration of the foregoing, part 117 of title 33 of the Code of Federal Regulations is amended by adding a new § 117.245(h)(25-a) immediately after § 117.245(h)(25) and by deleting § 117.434 as follows:

§ 117.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.

• • • • • •

(h) • • •

(25-a) Oklawaha River, Marion County, Fla. The draws of the bridges at Sharpes Ferry, Moss Bluff, Starkes Ferry, and Muclan Farms shall open on signal if at least 3 hours notice is given.

• • • • • •

§ 117.434 [Deleted]

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5).)

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: September 21, 1978.

R. H. SCARBOROUGH,
Vice Admiral, U.S. Coast Guard,
Acting Commandant.

Title 37—Patents, Trademarks, and Copyrights

CHAPTER II—COPYRIGHT OFFICE, LIBRARY OF CONGRESS

[Docket RM 77-3]

PART 201—GENERAL PROVISIONS

Compulsory License for Making and Distributing Phonorecords

AGENCY: Library of Congress, Copyright Office.

ACTION: Amendment of interim regulations and notice of hearing.

SUMMARY: This notice is issued to advise the public that the Copyright Office of the Library of Congress (1) is adopting amendments to § 201.18 and § 201.19 of its regulations, as adopted (on an interim basis) on January 1, 1978; and (2) will hold a public hearing to consider comments on the interim regulations as amended. These regulations were issued to implement section 115 of the act for General Revision of the Copyright Law. That section establishes a compulsory license for the making and distribution of phonorecords of nondramatic musical works. The effect of the interim regulations, as amended, is to establish requirements governing the content and service of certain notices and statements of account to be filed by persons exercising the compulsory license.

DATES: The interim regulations, as amended, are effective on October 30, 1978.

The hearing will be held on November 28 and 29, 1978, commencing at 9:30 a.m. on November 28, 1978. Please note: Specific dates for requests to present testimony and special rules of procedure for the hearing are set forth later in this notice.

ADDRESSES: Requests to present testimony and to cross-examine, and copies of written statements, should be addressed, if by hand, to: Office of the General Counsel, U.S. Copyright Office, Library of Congress, Crystal Mall Building No. 2, Room 519, Arlington, Va.; or, if by mail, to: Office of the General Counsel, U.S. Copyright Office, Library of Congress, Caller No. 2999, Arlington, Va. 22202.

The hearing will be held in Room 910, Crystal Mall Building No. 2, 1921 Jefferson Davis Highway, Arlington, Va.

FOR FURTHER INFORMATION CONTACT:

Jon Baumgarten, General Counsel, U.S. Copyright Office, Library of Congress, Washington, D.C. 20559, 703-557-8731.

SUPPLEMENTARY INFORMATION: Section 115 of 17 U.S.C. provides that "[w]hen phonorecords of a nondramatic musical work have been distributed to the public in the United States under authority of the copyright owner, any other person may, by complying with the provisions of this section, obtain a compulsory license to make and distribute phonorecords of the work" for certain purposes.

A compulsory license permits the use of a copyrighted work without the consent of the copyright owner if certain conditions are met and royalties paid.

V 43 / 189 SEP 28 78 UMI

Paragraph (b)(1) of section 115 provides that a condition of the compulsory license for making and distributing phonorecords is the service or filing of a notice of intention:

(b) *Notice of intention to obtain compulsory license.* (1) Any person who wishes to obtain a compulsory license under this section shall, before or within thirty days after making, and before distributing any phonorecords of the work, serve notice of intention to do so on the copyright owner. If the registration or other public records of the Copyright Office do not identify the copyright owner and include an address at which notice can be served, it shall be sufficient to file the notice of intention in the Copyright Office. The notice shall comply, in form, content and manner of service, with requirements that the Register of Copyrights shall prescribe by regulations.

Paragraph (c) of section 115 deals with the statutory royalties to be paid to copyright owners by persons exercising the compulsory license; it provides in relevant part:

(2) • • • the royalty under a compulsory license shall be payable for every phonorecord made and distributed in accordance with the license. For this purpose, a phonorecord is considered "distributed" if the person exercising the compulsory license has voluntarily and permanently parted with its possession. With respect to each work embodied in the phonorecord, the royalty shall be either two and three-fourths cents, or one-half of one cent per minute of playing time or fraction thereof, whichever amount is larger.

(3) Royalty payments shall be made on or before the twentieth day of each month and shall include all royalties for the month next preceding. Each monthly payment shall be made under oath and shall comply with requirements that the Register of Copyrights shall prescribe by regulation. The Register shall also prescribe regulations under which detailed cumulative annual statements of account, certified by a certified public accountant, shall be filed for every compulsory license under this section. The regulations covering both the monthly and the annual statements of account shall prescribe the form, content, and manner of certification with respect to the number of records made and the number of records distributed.

On April 26 and 27, 1977, in accordance with an Advance Notice of Proposed Rulemaking (42 FR 16837), we held a public hearing to elicit information relevant to the formulation of regulations under this section. After considering the testimony given at the hearing and in supplemental statements, on December 29, 1977 (42 FR 64889), we issued interim regulations. Interested parties were given until February 10, 1978, to comment on the interim regulations. A total of six original and reply comments (all from the Recording Industry Association of America, Inc. [RIAA], the National Music Publishers Association, Inc. [NMPA], and the Harry Fox Agency, Inc. ["Fox"]) were received in response to the interim regulations. However, we deferred taking final action on the regulations to permit their full consideration by a committee of the American Institute of Certified Public Accountants ("AICPA").[1] Following a meeting of the AICPA committee on April 24, 1978, on June 20, 1978, we received a "Petition to Reopen" this proceeding from RIAA. This petition was opposed in a statement filed on June 27, 1978, by NMPA and Fox. A "Reply" to the statement of opposition was filed by the RIAA on July 6, 1978, and supplemented on July 13, 1978. Additional arguments were filed by NMPA and Fox on July 24, 1978, and by RIAA on July 27, 1978.

The documents filed since June 20, 1978, in this proceeding have been directed to those parts of the interim regulations dealing with the application of conventional accounting principles to the distribution and return of product in the recording industry. We have carefully analyzed the relevant testimony and comments of the parties on this issue and have been assisted in this area by an independent accounting consultant. These issues involve the operation of specialized accounting rules falling outside the normal competence of the Copyright Office, and we believe it desirable to have these questions fully explored in a public forum. We have therefore decided to proceed as follows:

1. By this Notice, we are immediately adopting certain amendments to the interim regulations. These amendments are based upon our consideration of all comments filed in response to our December 29th Notice, and are discussed below.

2. We will hold a public hearing, on November 28 and 29, 1978, to take testimony on the interim regulations as amended.

Members of the public desiring to testify should submit written requests to present testimony before October 20, 1978, to the address given under "ADDRESSES" above. The request should clearly identify the individual or entity requesting to testify (the "initial witness") and the amount of time desired.

A list of initial witnesses will be available through the General Counsel of the Copyright Office, at the address and phone number given under "FURTHER INFORMATION, CONTACT," above. Persons desiring to cross-examine witnesses shall submit written requests to do so, naming the initial witness or witnesses to be cross-examined, to the Copyright Office at the address given above no later than November 9, 1978. A list of persons whose requests to cross-examine have been granted by the Copyright Office (cross-examining witnesses") will also be available through the General Counsel. A particular person may be an "initial witness" and also a "cross-examining witness" at different points in the hearing.

All initial witnesses are requested to provide 10 copies of a written statement of their testimony to the address given above by November 24, 1978. The record of the proceedings will be kept open until December 29, 1978, for receipt of written statements from any interested person, including supplemental statements from initial and cross-examining witnesses.

In order to provide for the orderly conduct of the hearing, the dates set forth above will be strictly adhered to.

Rules for Conduct of Hearing

Because of the particular factors related to this proceeding and indicated above, we have decided that it will be helpful to adopt special rules, permitting cross-examination, for the November 28-29, 1978, hearing. The rules are as follows:

1. The hearing will be conducted by a Copyright Office Hearing Panel consisting of officials of the Copyright Office and an independent accounting consultant to the Office. The Chair of the Hearing will be the Register of Copyrights or a member of the Hearing Panel designated by her.

2. The Panel will hear from both "initial witnesses" (persons who asked to present testimony) and "cross-examining witnesses" (persons whose requests to cross-examine particular initial witnesses have been granted by the Copyright Office). Both types of witnesses may be accompanied by counsel and advisers and they may participate in the testimony, questions, and answers, if first recognized and permitted to do so by the Chair. A member of the Panel may, with the permission of the Chair, question any witness at any point in the proceedings.

3. The Chair will have sole discretion to determine the scope, duration, and relevance of all original testimony, cross-examination, and additional testimony, and may at any time direct a particular witness to present any further remarks in writing rather than orally.

4. The Chair will establish and announce the order of appearance of all initial witnesses, and the order in which cross-examining witnesses may question a particular initial witness. For each initial witness, the Chair will also establish and announce approximate times allotted for initial testimony, cross-examination, additional testimony, and questions by the Hearing Panel. These times may be varied at the discretion of the Chair.

5. Each initial witness will first present an oral review of his or her written statement. The statement, and the oral review of it, may cover any matter raised by the interim regulations as amended, but witnesses are strongly urged to devote the major portion of their testimony to the following: (a) the definition of "permanently parted with possession" in § 201.19(a)(4)(ii), and particularly the use of "generally accepted accounting principles" and the example given later in this Notice; and (b) the form of certification of annual statements of account set forth in § 201.19(c)(5)(ii).

6. Only those persons who have been granted permission by the Copyright Office to cross-examine an initial witness (or their counsel or advisers as authorized by the Chair) shall be permitted to participate in cross-examination. The order of appearance of two or more cross-examining witnesses shall be strictly regulated by the Chair and, once a cross-examining witness has concluded cross-examination of a particular initial witness, that cross-examination may not be reopened except under exceptional circumstances and with the express permission of the Chair. No cross-examining witness will be permitted to interject questions or comments during another cross-examining witness' appearance, and cross-questioning or other dialog among cross-examining witnesses will not be permitted at any time. During cross-examination an initial witness will not be permitted to question a cross-examining witness. However, any witness who has the floor may request the Chair to direct a particular question to any other witness, and it is within the discretion of the Chair to do so at a time it considers appropriate.

7. The questions asked during cross-examination shall be germane to matters raised in the initial witness' written statement, oral statement, or both, and the Chair may, in its discretion rule out any question as irrelevant. An initial witness (or accompanying counsel or advisers) may object to answering any question on the grounds of irrelevancy, and the Chair shall rule on any such objection. However, in no case will an initial witness be compelled to answer any question to which that witness objects for any reason.

8. After cross-examination, the initial witness will be permitted to offer additional testimony germane to any of the matters raised during cross-examination. This additional testimony may consist of a direct statement, or it may consist of answers to questions posed by the initial witness' counsel or advisers.

9. At the conclusion of the initial witness's additional testimony, if any, the Copyright Office Hearing Panel will question the initial witness. No further cross-examination of that initial witness will be permitted during the hearing. In written supplemental statements filed after the hearing, cross-examining witnesses may direct further questions to inital witnesses, but it shall be entirely optional with such initial witness whether or how to answer any such questions.

Discussion of Comment Letters and Amendments

A. *Amendments.* The following amendments have been made to the interim regulations:

1. Following a suggestion by Fox, we have amended § 201.18(c)(1)(iv) to require that a Notice of Intention include a statement of "the fiscal year of the person or entity intending to obtain the compulsory license". To avoid confusion, we have also provided that if the "fiscal year is a calendar year, the Notice shall so state".

2. We have amended §§ 201.18(c)(a)(iii)(C) and 201.19(c)(3)(iii)(C) to require that Notices of Intention and Annual Statements of Account filed by noncorporate compulsory licensees identify any "entity or individual" (instead of "any individuals") owning a specified interest in the licensee. This change, which follows a suggestion by Fox, was made to take into account the possibility that a compulsory license might be a joint venture or partnership including one or more corporate members. We have also required that additional ownership information concerning the corporation be provided in these cases. This is consistent with the general policy we have adopted, in other sections of these regulations, of requiring full disclosure of ownership interests in the case of corporations (see §§ 201.18(c)(1)(iii) (A) and (B) and 201.19(c)(3)(iii) (A) and (B)).

3. As issued, the interim regulations required that Notices of Intention and Monthly Statements of Account identify "the names of the principal recording artists" whose performances are fixed on phonorecords made under the compulsory license. RIAA argued that it would be unnecessarily burdensome to require the name of each of the individual recording artists engaged in a "group" performance. We agree, and have amended § 201.18(c)(1)(viii) (formerly (vii)), § 201.19(b)(v)(C) (formerly (B)), and § 201.19(c)(3)(vi)(G) to require the name either of the principal recording artist or of the principal recording group.

4. Fox raised the possibility that, under the statute and the interim regulations, a Notice of Intention sent by registered or certified mail to the last address for the copyright owner shown by Copyright Office records might be returned if the owner was no longer located at that address. Fox urged that in these cases, as in the case where the copyright owner's address is not on file with the Copyright Office, the compulsory licensee should be "required" to file the Notice in the Copyright Office. We agree with this suggestion; in these cases the copyright owner's address on Copyright Office records is not "an address at which notice can be served" within the meaning of 17 U.S.C. 115(b)(1). We have amended § 201.18(c) by adding a new paragraph (3) accordingly. We have also extended this provision to situations where the copyright owner refuses to accept delivery of a Notice served by registered or certified mail.

The comments on this issue did not take into account the possible effect of a wrong address (or refusal to accept delivery) on the compulsory licensee's statutory obligations to serve the Notice "before or within 30 days after making" phonorecords and before distributing them. 17 U.S.C. 115(b)(1). In order to protect a compulsory licensee in these cases, our amendment provides that if the Notice is filed with a statement of mailing and return, and evidence of proper mailing, "the Copyright Office will specially mark its records to consider the date the original Notice was mailed • • • as the date of filing."[2]

Although we believe that it would be permissible to impose a filing fee in these cases (since the satute imposes such a fee where there is *no* address in Copyright Office records), we have decided not to do so—the compulsory licensee will have already expended money in using registered or certified mail, and the necessity of later filing in the Copyright Office is caused by the copyright owner's failure to keep delivery or maintain accurate Copyright Office records of its address.

5. Section 201.19(a)(4) of the interim regulations defined "permanently parted with possession" of a phonorecord made under the compulsory license as occurring 1 year from the date on which the compulsory licensee actually parted with possession, or at the time when a sale of the phonorecord is "recognized" by the compulsory licensee, whichever occurs first. The compulsory licensee was considered to "recognize" a sale when it would be recognized in accordance with "generally accepted accounting

[1] Certain principles "as expressed by the American Institute of Certified Public Accountants" are referred to in § 201.1(a)(4)(ii) of the regulations.

[2] Under 17 U.S.C. 115(b)(1), it is not entirely clear whether the filing of a Notice of Intention in the Copyright Office must (as in the case of serving a Notice on the copyright owner) be accomplished within the period mentioned. Our amendment is not intended to resolve this question one way or the other.

V 43/189 SE 28 78

principles" or "applicable rules, regulations, and practices of the Internal Revenue Service", whichever would cause the sale to be recognized first. RIAA argued that the incorporation of Internal Revenue Service rules would virtually always result in royalties being finally payable immediately upon shipment of each phonorecord, and that this would be inconsistent with Congress intent that our regulations recognize the practice of unsold phonorecords being returned to the compulsory licensee. Upon further consideration of the applicable tax law and cases, we agree with RIAA. We have therefore amended § 201.19(a)(4)(ii) to eliminate the reference to IRS rules, regulations, and practices.

6. Section 201.19(a)(5) of the regulations makes special adjustments in the definition of "permanently parted with possession" in the case of compulsory licensees who have had a judgment or the like entered against them for failure to pay mechanical royalties. In the interim regulations, paragraph (ii) of this section applied the special rule to corporate compulsory licensees when the corporation's directors or officers, or the owner of 25 percent of the corporation's securities, had been subject to such a judgment; however, under paragraph (i) this did not apply to corporations registered with the Securities and Exchange Commission. Fox argued that although SEC-registered corporations might be treated specially for *identification* purposes under §§ 201.18(c)(1)(iii) and 201.19(c)(3)(iii), there was no real reason to exempt them from the special rules regarding prior judgments against officers, etc. We agree with this point and have amended § 201.19(a)(5) to apply to all corporations.

7. Under the interim regulations, Monthly Statements of Account were not required to identify the number of phonorecords voluntarily released, but not yet permanently distributed, during the month. Although Fox acknowledged that this information could be obtained from the Annual Statement of Account, it suggested that it would be helpful to copyright owners to have this information on a more current basis. Since this does not appear to impose any undue burden on compulsory licensees, we have revised § 201.19(b)(2)(v) to require that information. Similarly, we have revised § 201.19(b)(5) to require a Monthly Statement of Account for any month in which phonorecords are voluntarily released.

8. Fox raised the issue of the rules to be followed regarding the service of statements of account and royalty fees where the compulsory licensee does not know the address of the copyright owner,[3] or where the statement and fee are served by registered or certified mail but are returned to the sender. Fox urged that compulsory licensees be required to file the statement of account in the Copyright Office and deposit the royalty fee in the Copyright Office for the benefit of the copyright owner in these cases. RIAA did not object "in principle" to filing the statement in the Copyright Office (if no filing fee were required), but strongly opposed depositing the royalty fee with the Copyright Office.

We have concluded that it would be appropriate to open the records of the Copyright Office to the filing of Monthly and Annual Statements of Account in the cirucumstances described, and we have amended §§ 201.19(b)(5) and 201.19(c)(6) accordingly. As suggested by Fox, this would permit organizations representing copyright owners to review our records periodically and "attempt to locate the proper copyright owner • • • so that payment may be appropriately made and the address of such owner properly reflected in the Copyright Office records, thereby allowing subsequent payments and statements to be properly directed." However, we do not believe it would be proper to *require* the filing of statements of account in the Copyright Office in these cases. Such a requirement would go beyond the literal wording of the statute and could not take into account the variety of factors, and allocation of "fault", which might relate to the failure to serve a statement of account on the copyright owner. We believe that these questions, and any interpretation of the differences between paragraphs (b)(1) and (c)(1) of 17 U.S.C. 115, are best left to judicial consideration in particular cases. Thus, our amendment merely permits such filing, and expressly provides that "neither the filing of a • • • statement of account in the Copyright Office, nor the failure to file such statement, shall have any effect other than that which may be attributed to it by a court of competent jurisdiction." Additionally, it is impossible for our Office, without specific statutory authority, to act as a depository for royalty fees owed to copyright owners; general government policy and the issues of accounting, retention and disposition of funds which would be raised by such a practice are prohibitive. Accordingly, the amendment provides that the Copyright Office will not accept any royalty fees submitted with statements of account. Finally, we agree with RIAA that it would not be equitable to impose a filing fee in these cases, and the amendment provides that no such fee will be required.

9. In accordance with a recommendation from a committee of the American Institute of Certified Public Accountants, we have amended § 201.19(c)(5)(A) to refine the wording of the CPA certification required to appear on Annual Statements of Account. Also, following a suggestion by Fox, we have amended that section to include the certificate number and jurisdiction of certification of the certifying accountant. However, we have required this information only where the statement is not signed "in the name of a partnership or a professional corporation with two or more shareholders."

10. The regulations as issued stated that a post office box would not be sufficient as the compulsory licensee's "address" in Notices of Intention and Statements of Account. However, in dealing with a similar issue in our regulations concerning the compulsory license for jukebox performances of music (Docket RM 77-4A; see 43 FR 37451), we found that, in some areas of the country, a post office box is the only realistic address that can be given. We have therefore amended §§ 201.18(c)(1)(ii), 201.19(b)(2)(iii) and 201.19(c)(3)(iv) of these regulations to permit the use of a post office box or similar designation when it is the only address that can be given by the licensee.

11. All parties commenting in this proceeding urged that the Copyright Office maintain a "separate registry" of documents filed under 17 U.S.C. 115. As a matter of Copyright Office practice, these documents will be separately filed in the records of the Licensing Division of the Copyright Office.

B. *Other comments.* The following comments filed in response to our December 29th notice have not been accepted:

1. Both Fox and RIAA urged the Copyright Office to develop printed forms for Notices of Intention and Statements of Account, although they differed on whether use of the forms should be required. Since we have not yet received a significant number of Notices of Intention in our Office or review of potential problems, and because we will be holding a further hearing on these regulations, the issue of forms is now premature.

2. We have not accepted RIAA's suggestion that we permit corporate "agents", as well as duly authorized corporate officers, to sign Notices of Intention. We agree with Fox's argument that requiring a corporate officer's signature "will insure to the

[3] Fox pointed out that although 17 U.S.C. 115(b)(1) requires that a Notice of Intention be served on the copyright owner if the owner is "identified" in the records of the Copyright Office and if the Copyright Office records include an "address" for the owner; but that 17 U.S.C. 115(c)(1) states that a copyright owner is entitled to royalties under the compulsory license if it is "identified" in the records of the Copyright Office, an "address" not being referred to.

copyright owner that review of [the] informaton [in the Notice] has been conducted at the appropriate level of corporate responsibility, and that the seriousness of the consequences of any misstatement is fully appreciated [and that] any slight inconvenience [to compulsory licensees] is outweighed by these considerations."

3. Section 201.19(d) of the interim regulations requires that compulsory licensees keep "all records and documents necessary and appropriate" to support the information in statements of account for a period of 3 years from the service of the Annual Statement. Fox has requested us to extend this period to 6 years to take into account the possible application of State statutes of limitations which may apply to causes of action based on fraud; however, we do not believe that the mere possibility of such actions warrants the very substantial extension proposed. Fox also requested that our regulations require that access to these records and documents be made available to the copyright owner for inspection. However, we believe that rules governing access to business records (and, by implication, the consequences of refusal) are beyond our authority to establish. In any event, judicial discovery procedures—and possible other alternatives [4]—are available to copyright owners to secure such access.

4. Section 201.18(e) of the interim regulations requires the service of Notices of Intention of the copyright owner, if the owner's address is reflected in Copyright Office records. RIAA suggested that we revise this section to require the service of Notices of Intention on copyright owners if the compulsory licensee "knows" the owner's address, whether it is reflected in Copyright Office records or not. Under RIAA's suggestion, the filing of the Notice in the Copyright Office would be required only if the compulsory licensee does not "know" the identity of the copyright owner or that owner's address, and a search of Copyright Office records does not identify the owner and the owner's address. Under the proposal, searching would be required only in cases where the compulsory licensee lacks "knowledge" of the owner's address.

This suggestion was strongly opposed by Fox, which argued that it is inconsistent with the language and purpose of the statute, that it would subject the copyright owner to the uncertainty of the licensee's "knowledge," and that it might result in the copyright owner being left unaware of the use of its works. We agree with Fox and have not made the revision recommended by RIAA. It must be remembered that a compulsory license, by definition, permits the use of a copyrighted work without the owner's consent. Although the regulations require compulsory licensees to conduct a search of Copyright Office records before serving a Notice of Intention in certain cases, we believe that this is consistent with the intention of the Act and that it does not constitute an unreasonable burden.

5. RIAA also recommended that the special rules governing the definition of "permanently parted with possession" be limited to those compulsory licensees held to have "willfully" failed to pay mechanical royalties in the past. Although we accept RIAA's assertion that record companies may inadvertently become involved in publisher-author or similar disputes over the proper recipient of mechanical royalties, we believe that to impose a condition of "willful" action would raise significant doubts about the applicability of the special rules in various cases. Recalling again that we are dealing with a situation in which the copyright owner has not had occasion to negotiate voluntary terms for the use of its work, we believe that the regulation as issued, and its application only to actions falling within a limited 3-year period, is fully consistent with Congress direction that we "prescribe situations in which a compulsory licensee is barred from maintaining reserves • • •" H.R. Rep. No. 94-1476, 94th Cong., 2d Sess. at 111. For similar reasons, we cannot agree with RIAA's suggestion that a system of "rebates" be established in these cases.

6. RIAA also suggested that we amend § 201.19(c)(6)(ii) to "specify • • • what action shall be taken" when the licensee finds it has made over-payments during the monthy accounting periods. RIAA recommended that we "specify that the copyright owner shall rebate the difference to the compulsory licensee, or, in the alternative, that the compulsory licensee shall be entitled to credit the difference against subsequent payments to be made to the copyright owner." We agree that, as we envision how the monthly reporting requirements will work, a compulsory licensee should be able to credit overpayments for a particular monthly shipment against payments owing a copyright owner in a later month under the same compulsory license. We believe that this ability to take credits should be limited to payments owing to a particular copyright owner for a particular recording of a particular song under a particular compulsory license; in other words, the compulsory licensee should not be able to credit overpayments under a compulsory license against sums owing to the copyright owner for other works, for other recordings, or under other compulsory or voluntary licenses.

As explained in paragraph 10, below, this is how we see our definition of "permanently parted with possession" working in practice. Credit (or debit) adjustments in the accounts during the year following a shipment would be mandated and made in accordance with "generally accepted accounting principles" ("GAAP"). At the present stage of these proceedings, we do not believe any amendment of our interim regulations is necessary to accomplish this result, but we will, of course, explore the issue fully in our November hearings.

We grant that it is possible, though not likely in most cases, that a licensee would be left with an overpayment after the final accountings for all shipments under a compulsory license (for example, if sales were grossly over estimated at the outset, and total sales were insufficient to offset the initial payment). However, even assuming that such a situation could arise in reality, we do not believe that the copyright owner should be burdened by our regulations with a requirement of making a rebate. This would raise substantial procedural difficulties and problems of enforcement, particularly where a publisher-copyright owner may have already distributed royalties to its composers and lyricists. We believe that, at least as far as our regulations are concerned, the compulsory licensee must be held to the burden of making realistic estimates of net sales and of making accurate monthly adjustments in these estimates in the light of sales experience. This does not mean that copyright owners should in every case be entitled as a matter of right to retain any sums paid in excess of the compulsory licensee's ultimate obligation; however, we believe that resolution of this issue in particular uses is best left to negotiation between the parties, or application of general legal principles in the appropriate forum.

7. A committee of the AICPA recommended that the language of the CPA certification required in Annual Statements of Account be "illustrative" rather than required. We have not accepted this suggestion. To make the form of certification merely illustrative would allow the CPA to qualify his or her opinion because of lack of independence, insufficient evidential matter, restriction of audit scope by the licensee, or for some other reason. Restricting the CPA's freedom of choice to a "clean" opinion in the form required, or no opinion at all, in effect requires the CPA to state that the licensee either is or is not in com-

[4] During the 1977 hearing in this docket, Fox's own witnesses testified that there is a common law right to audit persons under a royalty obligation, and an "accepted industry practice" of record companies submitting to music publisher audits.

V 43/189 SEP 28 78 UMI

pliance with the law and applicable regulations. The resulting clear and unambiguous statement fulfills Congress purpose in requiring certification of the Annual Statement.

8. Fox urged that the accountant certifying an Annual Statement of Account be required personally to verify the destruction of phonorecords asserted to have been destroyed before their permanent distribution under § 201.19(a)(4)(iii). We do not believe that such a verification should be required. The required form of accountant's certification of the Annual Statement, which presumably will be based on business records and practices satisfactory to that accountant, is sufficient protection for the copyright owner. Likewise, we believe that generally accepted auditing standards are sufficient to govern the quality of evidential matter that must be obtained by a CPA to form an opinion.

9. NMPA has again suggested that the point at which there has been a "permanent parting with possession" should be measured from the release date of a recording—that is, the date when the first phonorecord of a performance is shipped. We do not agree. As argued by RIAA earlier in this proceeding, the "release date" has little if any relevance to the return pattern of records shipped months or years after initial release (where, for example, records were shipped in response to a recent TV or concert appearance by the recording artist, or a resurgence of interest in earlier recordings of an artist, or a "seasonal surge").

10. Under the regulations as amended, a compulsory licensee will be required to pay royalties on all phonorecords made under the compulsory license of which that licensee has "permanently parted with possession." Generally, the licensee will be considered to have "permanently parted with possession" of a phonorecord (a) 1 year from the date on which the licensee actually first parted with possession of the phonorecord; or (b) at the time when revenue from a sale of the phonorecord is "recognized" by the licensee, whichever occurs first. For these purposes the compulsory licensee is considered to "recognize" sales revenue when "sales revenue would be recognized in accordance with generally accepted accounting principles as expressed by the American Institute of Certified Public Accountants or the Financial Accounting Standards Board, whichever would cause sales revenue to be recognized first."

NMPA argued that the 1-year outside limit on "recognition" is too long, and proposed an alternative of 6 months. However, on the present record, we can find no factual justification for the 6 months suggestion, and a period shorter than 1 year would appear to impose an unjustifiable burden on compulsory licensees. RIAA's contrary suggestion—that the outside time period be lengthened or eliminated—is also unacceptable. The 1-year requirement gives the copyright owner some assurance that unreasonable reserves will not be held by the compulsory licensee.

NMPA also suggested, in cases where the compulsory licensee reports a certain number of phonorecords of which it has relinquished possession but has not yet "permanently parted with possession," that this number be subjected to a specific percentage limitation. We have not accepted this suggestion for what would in effect be a uniform reserve limitation. As we stated in our Notice accompanying the interim regulations (42 FR 64889):

> We are not persuaded on the current record that any fair basis in fact exists for the regulatory determination of a single, uniform, reserve policy for copyright purposes. The numerous factors and variables which enter into the issue of reserves (for example, configuration of phonorecord, time of year, type of music, popularity of recording artist, and sales history of producer) appear to be such as to make our determination of such a policy realistically impractical, if not impossible.

Finally, RIAA has voiced strong objections to our use of "generally accepted accounting principles" ("GAAP") to determine the point of "recognition" and permanent distribution.[5] In essence, RIAA's argument is that the use of GAAP is inappropriate for determining the point of permanent distribution because, for individual phonorecords, it cannot be used to determine the likely rate of return.

We recognize that individual phonorecords are not serially numbered, and are indistinguishable from one another. Tracking an individual record after its initial release from possession would, we agree, be realistically impracticable if not actually impossible. Our interim regulations were not intended to require any such item-by-item accounting. However, they do require tracking of *shipments* on a monthly basis.

We believe, on the current record, that as a practical matter compulsory licensees can, without radically changing their present accounting procedures: (1) Keep track of the date when each shipment is made and the total number of records in each shipment; (2) in the months following shipments made for sale, make reasonable estimates of the number of records out of the total shipped that will be "sold" (that is, in accounting terms, the number of phonorecords that will be included in "net sales" and therefore for which revenue would be "recognized"), and make royalty payments based on those estimates; and (3) no later than the 13th month following shipments made for sale, account for all records in that month's shipments as either sold or destroyed.

This system is based on a recognition of the unlimited return policies and the practices of setting up reserves now in use in the record industry. Our intention is not to force compulsory licensees to change these policies and practices; on the contrary, our interim regulations are aimed at allowing compulsory licensees to follow their ordinary business practices for the most part. We assume, as we must, that conventional reserve practices are in accord with "generally accepted accounting principles." If this is the case, most compulsory licensees would be able to follow their ordinary reserve practices under our interim regulations, with two limitations: (1) The licensee would have to report and pay monthly rather than at quarterly or other intervals; and (2) recognition of revenue could not be delayed beyond 1 year from the date of shipment.

A key element in this system is the ability of the compulsory licensee to identify shipments and track what happened to them. RIAA itself has urged that the date of shipment "of a specific phonorecord" be used to start the clock running on the determination of when phonorecords are considered permanently distributed. But if the clock starts when a particular shipment is sent, then as essential element of the system is to determine what was done with the batch of fungible records comprising the shipment: How many were sent and, from that total, how many were destroyed during the 1-year period when the clock was running. This necessarily requires some form of identification (dating, batch marking, invoice control, etc.) of the records comprising a particular shipment.

A second key element in the system envisioned by our interim regulation is the ability of the compulsory licensee to make reasonable estimates of returns and to pay royalties on the basis of these estimates. RIAA has taken the position that GAAP cannot be used to determine the likely rate of return of phonorecords within a batch, but we find nothing in the present record to support this position. Indeed, we believe that the operation of the reserve system, and the accounting practices and procedures that have grown up around it, are based entirely on estimates of returns, and it is our intention to adopt regulations that are consistent with these practices and procedures, not contrary to them. We note, in this connection, that the AICPA's "Statement of Position on Accounting Practices in the Record and Music Industry" (¶ 26) states:

> The Division believes that manufacturers and distributors in the record and music industry must be able to make a reasonable estimate of returns in order to account for shipments to customers as sales.

In our opinion, the making of reasonable estimates of returns, quite the opposite of being prevented by GAAP, is positively required by GAAP. We are therefore issuing the interim regulations on this point without substantive change, and will take further testimony on our conclusions at a public hearing. For the sake of clarification we have amended § 201.19(a)(4)(ii)(B) to refer to the recognition by the compulsory licensee of "revenue from a sale of the phonorecord" rather than merely "a sale of the phonorecord"; this amendent is intended to avoid any confusion between "net sales" and "gross sales," but is not intended to change the substantive meaning of the definition of "voluntarily distributed" in any way.

As a further explanation of the interim regulations, and to facilitate discussion of this point at the hearings, we have decided to include here one example of how we think the regulations might work in a typical case. Note that we are dealing here with the monthly accounting to a copyright owner under a compulsory license for a particular song, where phonorecords are shipped *for sale;* if records are "relinquished from possession for purposes other than sale" royalties must be paid at the point of shipment under § 201.19(a)(4)(i), regardless of returns.

December 1978. Initial release of record. 1,000 phonorecords shipped.

January 1979. Compulsory licensee sends first monthly statement of account to copyright owner and, in accordance with GAAP, estimates that 80 percent of all records made under the compulsory license and shipped for purposes of sale will be included in "net sales." Pays royalties on 800 records (1,000 (total records shipped to date) × 0.80=800). Ships 1,000 records never previously shipped.

February 1979. Second monthly statement. Compulsory licensee sticks with 80-percent estimate. Pays royalties on 800 records (2,000 (total records shipped to date) × .80=1,600 less 800 (total records on which royalties already paid) = 800). Ships 2,000 records never previously shipped.

March 1979. Third monthly statement. Disappointing reviews and retail sales reports cause revision of estimate, in accordance with GAAP, to 75 percent "net sales." Pays royalties on 1,400 records (4,000 (total records shipped to date) × .75 = 3,000 less 1,600 (total records on which royalties already paid) = 1,400). Ships 1,000 records never previously shipped.

April 1979. Fourth monthly statement. Further sales slump causes revision of estimate to 60 percent "net sales." Pays no royalties (5,000 (total records shipped to date) × .60 = 3,000 less 3,000 (total records on which royalties already paid) = 0). Ships 500 records never previously shipped.

May 1979. Fifth monthly statement. Revises estimate to 50 percent "net sales." Pays no royalties (5,500 (total records shipped to date) × .50 = 2,750 less 3,000 (total records on which royalties already paid) = <250> (previous overpayment)). Note: On May 21, 1979, after fifth monthly statement filed, record artist dies causing sudden demand. Compulsory licensee ships 5,000 records never previously shipped.

June 1979. Sixth monthly statement. Revises estimate to 90 percent "net sales." Pays royalties on 6,450 records (10,500 (total records shipped to date) × .90 = 9,450 less 3,000 (total records on which royalties already paid) = 6,450). Ships 1,000 records never previously shipped.

July 1979. Seventh monthly statement. Same 90-percent estimate. Pays royalties on 900 records (11,500 (total records shipped to date) × .90 = 10,350 less 9,450 (total records on which royalties already paid) = 900.) Ships 1,000 records never previously shipped.

August, September, October, November 1979. Eighth through eleventh monthly statements. Same 90-percent estimate, same procedures as for July, and each month ships 1,000 records never previously shipped. Royalties paid on total of 3,600 records and compulsory licensee ships total of 4,000 records never previously shipped.

December 1979. Twelfth monthly statement. Same 90-percent estimate and same procedures as for July. Pays royalties on 900 records (16,500 (total records shipped to date) × .90 = 14,850 less 13,950 (total records on which royalties already paid) = 900). As result of seasonal surge, ships 2,000 records never previously shipped.

January 1980. Thirteenth monthly statement. Same 90-percent estimate and same procedures as for July. Statement covers December *1979,* shipments and also final accounting for December *1978,* shipments showing total shipped that month and number from that month's shipments that were destroyed within 12 months from the particular shipment. Determines that, of the 1,000 records shipped in December 1978, 250 records were destroyed.

Pays on total of 1,650 records calculated as follows: (1) 18,500 (total records shipped to date) × .90 = 16,650 less 14,850 (total records for which royalties already paid) = 1,800. (2) 1,000 (total records shipped in December 1978) less 250 (records destroyed) = 750 (records shipped in December 1978, on which royalty actually payable) less 900 (records shipped in December 1978, on which royalty already paid under 90-percent estimate) = <150> (credit to be applied to amount owing for previous month's shipment) (3) 1,800 less 150 = 1,650.

(Note that this statement is entirely different from the "Annual Statement of Account" which must also be filed by the compulsory licensee. The Annual Statement is a cumulative statement covering the entire fiscal year of the compulsory licensee, and is to be filed by the twentieth day of the third month following the end of that fiscal year.)

11. RIAA has suggested that some of the terminology used in the regulations (e.g., "voluntary relinquished," "permanently parted with possession") is unduly cumbersome. Much of this language derives directly from the statute and its legislative history, and we agree that it would benefit from simplification. However, at this stage in the proceedings we believe it would be a mistake to abandon specific language in favor of loose terms or colloquialisms (such as "shipped" or "sales") which are not accurate in all cases. Later, after the hearing has opened a full exploration of the issues, and before issuing final regulations, we will review all of the terminology used.

The interim regulations are amended as set forth below.

Dated: September 20, 1978.

WALDO H. MOORE,
Assistant Register of Copyrights for Registration.

Approved:
WILLIAM J. WELSH,
The Acting Librarian of Congress.

Part 201 of 37 CFR, Chapter II is amended by revising §§ 201.18 and 201.19 to read as follows:

§ 201.18 Notice of intention to obtain a compulsory license for making and distributing phonorecords of nondramatic musical works.

(a) *General.* (1) A "Notice of Intention" is a notice identified in section 115(b) of title 17 of the United States Code, as amended by Pub. L. 94-553, and required by that section to be served on a copyright owner, or in certain cases to be filed in the Copyright Office, to obtain a compulsory license to make and distribute phonorecords of nondramatic musical works.

(2) A separate Notice of Intention shall be served or filed for each nondramatic musical work embodied, or intended to be embodied, in phonore-

[5] As noted earlier, we have agreed to RIAA's objection to the use of Internal Revenue Service Rules as an alternative to generally accepted accounting principles, and have amended the interim regulations to eliminate this alternative.

V 43/189 SE 28 78

cords made under the compulsory license.

(3) For the purposes of this section, the term "copyright owner" in the case of any work having more than one copyright owner means any one of the co-owners. In such cases, the service of a notice of intention on one coowner under paragraph (e)(2) of this section shall be sufficient with respect to all coowners.

(b) *Form.* The Copyright Office does not provide printed forms for the use of persons serving or filing Notices of Intention.

(c) *Content.* (1) A Notice of Intention shall be clearly and prominently designated, at the head of the notice, as a "Notice of Intention To Obtain a Compulsory License for Making and Distributing Phonorecords", and shall include a clear statement of the following information:

(i) The full legal name of the person or entity intending to obtain the compulsory license, together with all fictitious or assumed names used by such person or entity for the purpose of conducting the business of making and distributing phonorecords;

(ii) The full address, including a specific number and street name or rural route, of the place of business of the person or entity intending to obtain the compulsory license. A post office box or similar designation will not be sufficient for this purpose except where it is the only address that can be used in that geographic location;

(iii) A statement of the nature of the business organization used by the person or entity intending to obtain the compulsory license in connection with the making and distribution of phonorecords (for example, a corporation, a partnership, or an individual proprietorship); additionally:

(A) If the person or entity intending to obtain the compulsory license is a corporation registered with the Securities and Exchange Commission under section 12 of the Securities and Exchange Act of 1934, the Notice shall so state.

(B) If the person or entity intending to obtain the compulsory license is a corporation that is not registered with the Securities and Exchange Commission under section 12 of the Securities and Exchange Act of 1934, the Notice shall include a list of the names of the corporation's directors and officers, and the names of each beneficial owner of twenty-five percent (25%) or more of the outstanding securities of the corporation.

(C) In all other cases, the Notice shall include the names of any entity or individual owning a beneficial interest of twenty-five percent (25%) or more in the entity intending to exercise the compulsory license. If a corporate entity is named in response to this paragraph (C), then: if that corporation is registered with the Securities and Exchange Commission under section 12 of the Securities and Exchange Act of 1934, the Notice shall so state; if that corporation is not so registered, the Notice shall include a list of the names of the corporation's directors and officers, and the names of each beneficial owner of twenty-five percent (25%) or more of the outstanding securities of that corporation.

(iv) The fiscal year of the person or entity intending to obtain the compulsory license. If that fiscal year is a calendar year, the Notice shall so state.

(v) The title of the nondramatic musical work embodied or intended to be embodied in phonorecords made under the compulsory license, and the names of the author or authors of such work is known;

(vi) The type of all phonorecord configurations (for example, single disk, long playing disk, cassette, cartridge, reel-to-reel, or a combination of them) already made (if any) and anticipated to be made under the compulsory license;

(vii) The anticipated date of initial distribution of phonorecords already made (if any) or anticipated to be made under the compulsory license;

(viii) The name of the principal recording artist or group actually engaged and anticipated to be engaged in rendering the performances fixed on phonorecords already made (if any) and anticipated to be made under the compulsory license; and

(ix) The catalog number or numbers, and label name or names, used and anticipated to be used on phonorecords already made (if any) and anticipated to be made under the compulsory license.

(2) A "clear statement" of the information listed in paragraph (c)(1) of this section requires a clearly intelligible, legible, and unambiguous statement in the Notice itself and (subject to paragraph (c)(1)(iii)(A) of this section) without incorporation by reference of facts or information contained in other documents or records.

(3) Where information is required to be given by paragraph (c)(1) "if known" or as "anticipated", such information shall be given in good faith and on the basis of the best knowledge, information, and belief of the person signing the Notice. If so given, later developments affecting the accuracy of such information shall not affect the validity of the Notice.

(d) *Signature.* The Notice shall be signed by the person or entity intending to obtain the compulsory license. If that person or entity is a corporation, the signature shall be that of a duly authorized officer of the corporation; if that person or entity is a partnership, the signature shall be that of a partner. The signature shall be accompanied by the printed or typewritten name of the person signing the Notice, and by the date of signature.

(e) *Filing and Service.* (1) If, with respect to the nondramatic musical work named in the Notice of Intention, the registration or other public records of the Copyright Office do not identify the copyright owner of such work and include an address for such owner, the Notice shall be filed in the Copyright Office. Notices of Intention submitted for filing shall be accompanied by a fee of $6. Notices of Intention will be filed by being placed in the appropriate public records of the Licensing Division of the Copyright Office. The date of filing will be the date when a proper Notice and fee are both received in the Copyright Office. A written acknowledgement of receipt and filing will be provided to the sender. Upon request and payment of an additional fee of $4, a Certificate of Filing will be provided to the sender.

(2) If the registration or other public records of the Copyright Office do identify the copyright owner of the nondramatic musical work named in the Notice of Intention and include an address for such owner, the Notice shall be served on such owner by certified mail or by registered mail sent to the last address for such owner shown by the records of the Office; it shall not be necessary to file a copy of the Notice in the Copyright Office in this case.

(3) If the Notice is sent by certified or registered mail to the last address for the copyright owner shown by the records of the Copyright Office and is returned to the sender becuase the copyright owner is no longer located at that address or has refused to accept delivery, the original Notice as sent shall be filed in the Copyright Office. Notices of Intention submitted for filing under this paragraph (e)(3) shall be submitted to the Licensing Division of the Copyright Office, and shall be accompanied by a brief statement that the Notice was sent to the last address for the copyright owner shown by the records of the Copyright Office but was returned, and by appropriate evidence that it was sent by certified or registered mail to that address. In these cases the Copyright Office will specially mark its records to consider the date the original Notice was mailed, as shown by the evidence mentioned above, as the date of filing. A written acknowledgment of receipt and filing will be provided to the sender. No filing fee will be required in the case of Notices filed under this paragraph (e)(3). Upon request and payment of a fee of $4, a Certificate of Filing will be provided to the sender.

§ 201.19 Royalties and statements of account under compulsory license for making and distributing phonorecords of nondramatic musical works.

(a) *Definition.* (1) A "Monthly Statement of Account" is a statement accompanying monthly royalty payments identified in section 115(c)(3) of title 17 of the United States Code, as amended by Pub. L. 94-553, and required by that section to be made under the compulsory license to make and distribute phonorecords of nondramatic musical works.

(2) An "Annual Statement of Account" is a statement identified in section 115(c)(3) of title 17 of the United States Code, as amended by Pub. L. 94-553, and required by that section to be filed for every compulsory license to make and distribute phonorecords of nondramatic musical works.

(3) For the purpose of this section, the term "copyright owner" in the case of any work having more than one copyright owner means any one of the coowners. In such cases, the service of a statement of account on one coowner under paragraph (b)(5) or (c)(6) of this section shall be sufficient with respect to all coowners.

(4) A phonorecord is considered "voluntarily distributed" if the person or entity exercising the compulsory license has voluntarily and permanently parted with possession of the phonorecord. For this purpose a person or entity exercising the compulsory license shall be considered to have "permanently parted with possession" of a phonorecord made under the license:

(i) In the case of phonorecords relinquished from possession for purposes other than sale, at the time at which the person or entity exercising the compulsory license actually first parts with possession;

(ii) In the case of phonorecords relinquished from possession for purposes of sale: (A) 1 year from the date on which that person or entity actually first parted with possession; or (B) at the time when revenue from a sale of the phonorecord is "recognized" by the person or entity exercising the compulsory license, whichever occurs first. For these purposes a person or entity exercising the compulsory license shall be considered to "recognize" revenue from the sale of a phonorecord when sales revenue would be recognized in accordance with generally accepted accounting principles as expressed by the American Institute of Certified Public Accountants or the Financial Accounting Standards Board, whichever would cause sales revenue to be recognized first; and

(iii) In any case, the destruction of a phonorecord made under the compulsory license by the person or entity exercising the license before the person or entity is considered to have "permanently parted with possession" of that phonorecord under paragraphs (i) and (ii) of this § 201.19(a)(4) shall not be considered a "distribution."

(5) The provisions of paragraph (a)(4)(ii) of this section are subject to the following qualification: In any case where, within 3 years before the phonorecord was relinquished from possession, the person or entity exercising the compulsory license has had final judgment entered against it for failure to pay royalties for the reproduction of copyrighted music on phonorecords, or within such period has been definitively found in any proceeding involving bankruptcy, insolvency, receivership, assignment for the benefit of creditors, or similar action, to have failed to pay such royalties, that person or entity shall be considered to have "permanently parted with possession" of a phonorecord made under the license at the time at which that person or entity actually first parts with possession. For these purposes the "person or entity exercising the compulsory license" shall mean:

(i) In the case of (any) corporation(,) the corporation or any director, officer, or beneficial owner of twenty-five percent (25 percent) or more of the outstanding securities of the corporation;

(ii) In all other cases, any entity or individual owning a beneficial interest of twenty-five percent (25 percent) or more in the entity exercising the compulsory license.

(b) *Monthly Statements of Account* (1) *Forms.* The Copyright Office does not provide printed forms for the use of persons serving Monthly Statements of Account.

(2) *Content.* A monthly Statement of Account shall be clearly and prominently identified as a "Monthly Statement of Account Under Compulsory License for Making and Distributing Phonorecords," and shall include a clear statement of the following information:

(i) The period (month and year) covered by the statement;

(ii) The full legal name of the person or entity exercising the compulsory license, together with all fictitious or assumed names used by such person or entity for the purpose of conducting the business of making and distributing phonorecords;

(iii) The full address, including a specific number and street name or rural route, of the place of business of the person or entity exercising the compulsory license. A post office box or similar designation will not be sufficient for this purpose, except where it is the only address that can be used in that geographic location;

(iv) The title or titles of the nondramatic musical work or works embodied in phonorecords made under the compulsory license and owned by the copyright owner being served with the statement and the name of the author or authors of such work or works if known;

(v) For each nondramatic musical work embodied in phonorecords made, voluntarily relinquished from possession, or "voluntarily distributed," under the compulsory license, during the month covered by the statement and owned by the same copyright owner being served with the statement:

(A) The number of phonorecords made during the month covered by the statement;

(B) The number of phonorecords voluntarily relinquished from possession during the month covered by the statement, regardless of when made;

(C) The number of phonorecords "voluntarily distributed" during the month covered by the statement, regardless of when made, together with: (i) The catalog number or numbers, and label name or names, used on such phonorecords; and (ii) the names of the principal recording artist or group engaged in rendering the performances fixed on such phonorecords; and

(D) The playing time of each such nondramatic musical work on the phonorecords.

The information required by paragraphs (A), (B), and (C) of this § 201.19(b)(2)(v) shall be separately stated and identified for each phonorecord configuration (for example, single disk, long playing disk, cartridge, cassette, or reel-to-reel) made.

(vi) The total royalty payable for the month covered by the statement. For these purposes, the applicable royalty as specified in section 115(c)(2) of title 17 shall be payable for every phonorecord "voluntarily distributed" during that period. In any case where the person or entity exercising the compulsory license falls within the provisions of paragraph (a)(5) of this section, the statement shall also include a clear description of the action or proceeding involved, including the date of the final judgment or definitive finding described in that paragraph.

(3) A "clear statement" of the information required by paragraph (b)(2) of this section requires a clearly intelligible, legible, and unambiguous statement in the Statement of Account itself and without incorporation by reference of facts or information contained in other documents or records.

(4) *Oath and Signature.* (i) Each Monthly Statement of Account shall be accompanied by an affidavit under the official seal of any officer author-

V 4 3 / 1 8 9 SEP 28 78 UMI

ized to administer oaths within the United States, or a statement in accordance with section 1746 of title 28 of the United States Code, which shall be signed by the person or entity exercising the compulsory license. If that person or entity is a corporation, the signature shall be that of a duly authorized officer of the corporation; if that person or entity is a partnership, the signature shall be that of a partner. The signature shall be accompanied by the printed or typewritten name of the person signing the affidavit or statement, and by the date of signature.

(ii) The affidavit or statement required by paragraph (b)(4)(i) of this section shall state that the person signing the affidavit or statement has examined the statement of account, and that all statements of fact contained therein are true, complete, and correct to the best of that person's knowledge, information, and belief, and are made in good faith.

(5) *Service.* (i) Each Monthly Statement of Account shall be served on the copyright owner to whom or which it is directed, together with the total royalty for the month covered by statement, by certified mail, or by registered mail on or before the 20th day of the immediately succeeding month. It shall not be necessary to file a copy of the statement in the Copyright Office.

(ii)(A) In any case where a Monthly Statement of Account is sent by certified mail or registered mail and is returned to the sender because the copyright owner is not located at that address or has refused to accept delivery, or in any case where an address for the copyright owner is not known, the Monthly Statement of Account, together with any evidence of mailing, may be filed in the Licensing Division of the Copyright Office. Any Monthly Statement of Account submitted for filing in the Copyright Office shall be accompanied by a brief statement of the reason why it was not served on the copyright owner. A written acknowledgment of receipt and filing will be provided to the sender. (B) The Copyright Office will not accept any royalty fees submitted with Monthly Statements of Account under this § 202.19(b)(5)(ii). (C) Neither the filing of a Monthly Statement of Account in the Copyright Office, nor the failure to file such statement, shall have effect other than that which may be attributed to it by a court of competent jurisdiction. (D) No filing fee will be required in the case of Monthly Statements of Account submitted to the Copyright Office under this § 202.19(b)(5)(ii). Upon request and payment of a fee of $4, a Certificate of Filing will be provided to the sender.

(iii) A separate Monthly Statement of Account shall be served for each month during which a phonorecord or phonorecords are made, voluntarily relinquished from possession, or "voluntarily distributed" under the compulsory license. The Annual Statement of Account identified in paragraph (c) of this section does not replace any Monthly Statement of Account.

(c) *Annual Statements of Account.* (1) *Forms.* The Copyright Office does not provide printed forms for the use of persons serving Annual Statements of Account.

(2) *Annual Period.* An Annual Statement of Account shall cover the full fiscal year of the person or entity exercising the compulsory license.

(3) *Content.* An Annual Statement of Account shall be clearly and prominently identified as an "Annual Statement of Account Under Compulsory License for Making and Distributing Phonorecords," and shall include a clear statement of the following information:

(i) The fiscal year covered by the statement;

(ii) The full legal name of the person or entity exercising the compulsory license, together with all fictitious or assumed names used by such person or entity for the purpose of conducting the business of making and distributing phonorecords;

(iii) A statement of the nature of the business organization used by the person or entity exercising the compulsory license in connection with the making and distribution of phonorecords (for example, a corporation, a partnership, or an individual proprietorship); additionally:

(A) If the person or entity exercising the compulsory license is a corporation registered with the Securities and Exchange Commission under section 12 of the Securities and Exchange Act of 1934, the statement shall so state.

(B) If the person or entity exercising the compulsory license is a corporation that is not registered with the Securities and Exchange Commission under section 12 of the Securities and Exchange Act of 1934, the statement shall include a list of the names of the corporation's directors and officers, and the names of each beneficial owner of twenty-five percent (25 percent) or more of the outstanding securities of the corporation.

(C) In all other cases, the statement shall include the names of any entity or individual owning a beneficial interest of twenty-five percent (25 percent) or more in the entity exercising the compulsory license. If a corporate entity is named in response to this paragraph (C), then: If that corporation is registered with the Securities and Exchange Commission under section 12 of the Securities and Exchange Act of 1934, the Statement shall so state; if that corporation is not so registered, the Statement shall include a list of the names of the corporation's directors and officers, and the names of each beneficial owner of twenty-five percent (25 percent) or more of the outstanding securities of that corporation.

(iv) The full address, including a specific number and street name or rural route, or the place of business of the person of entity exercising the compulsory license. A post office box or similar designation will not be sufficient for this purpose except where it is the only address that can be used in that geographic location;

(v) The title or titles of all nondramatic musical works embodied in phonorecords made under the compulsory license during the fiscal year covered by the statement and owned by the copyright owner being served with the statement, and the name of the author or authors of such works if known;

(vi) For each nondramatic musical work embodied in phonorecords made under the compulsory license and owned by the copyright owner being served with the statement:

(A) The number of such phonorecords made under the compulsory license through the end of the fiscal year covered by the statement, including any made during earlier years;

(B) The number of such phonorecords which have never been relinquished from possession of the person or entity exercising the compulsory license through the end of the fiscal year covered by the statement;

(C) The number of such phonorecords involuntarily relinquished from possession (as through theft or fire) of the person or entity exercising the compulsory license during the fiscal year covered by the statement and any earlier years, together with a description of the facts of such involuntary relinquishment;

(D) The number of such phonorecords voluntarily relinquished from possession of the person or entity exercising the compulsory license for purposes of sale during the fiscal year covered by the statement, but not "voluntarily distributed" by the end of that year;

(E) The number of such phonorecords destroyed during the fiscal year covered by the statement and any earlier years, by the person or entity exercising the compulsory license, before such phonorecords were "voluntarily distributed";

(F) The number of such phonorecords "voluntarily distributed" by the person or entity exercising the compulsory license during all years before the fiscal year covered by the statement;

(G) The number of such phonorecords "voluntarily distributed" by the person or entity exercising the compulsory license during the fiscal year covered by the statement, together with (1) the catalog number or numbers, and label name or names, used on such phonorecords; and (2) the names of the principal recording artists or groups engaged in rendering the performances fixed on such phonorecords;

(H) If the information given under paragraphs (A) through (G) of this § 201.19(c)(3)(vi) does not reconcile, the statement shall also include a clear and detailed explanation of the difference. For these purposes, the information given under such paragraphs shall be considered not to reconcile if, after the number of phonorecords given under paragraphs (B), (C), (D), (E), and (F) are added together and that sum is deducted from the number of phonorecords given under paragraph (A), the result is different from the amount given under paragraph (G); and

(I) The playing time of each nondramatic musical work on such phonorecords.

The information required by paragraphs (A) through (I) of this § 201.19 (c)(3)(vi) shall be separately stated and identified for each phonorecord configuration (for example, single disk, long playing disk, cartridge, cassette, or reel-to-reel) made.

(vii) The total royalty payable for the fiscal year covered by the statement. For these purposes, the applicable royalty as specified in section 115(c)(2) of title 17 shall be payable for every phonorecord "voluntarily distributed" during the fiscal year covered by the statement. In any case where the person or entity exercising the compulsory license falls within the provisions of paragraph (a)(5) of this section the statement shall also include a clear description of the action or proceeding involved, including the date of the final judgment or definitive finding described in that paragraph; and

(viii) The total sum paid, under Monthly Statements of Account, by the person or entity exercising the compulsory license to the copyright owner being served with the statement during the fiscal year covered by the statement.

(4) A "clear statement" of the information required by paragraph (c)(3) of this section has the meaning set forth in paragraph (b)(3) of this section.

(5) *Signature and Certification.* (i) Each Annual Statement of Account shall be signed by the person or entity exercising the compulsory license. If that person or entity is a corporation, the signature shall be that of a duly authorized officer of the corporation; if that person or entity is a partnership, the signature shall be that of a partner. The signature shall be accompanied by the printed or typewritten name of the person or entity signing the statement, and by the date of signature.

(ii) (A) Each Annual Statement of Account shall also be certified by a licensed Certified Public Accountant. Such certification shall consist of the following statement:

We have examined the attached "Annual Statement of Account Under Compulsory License For Making and Distributing Phonorecords" for the fiscal year ended (date) of (name of person or entity exercising compulsory license) applicable to phonorecords embodying (title or titles of nondramatic musical works embodied in phonorecords made under the compulsory license) made under the provisions of section 115 of title 17 of the United States Code and applicable regulations of the United States Copyright Office. Our examination was made in accordance with generally accepted auditing standards and accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The above cited law and applicable regulations published thereunder.

In our opinion the Annual Statement of Account referred to above presents fairly the number of phonorecords embodying each of the above-identified nondramatic musical works made under compulsory license and voluntarily distributed by (name of person or entity exercising compulsory license) during the fiscal year ending (date), and the amount of royalties applicable thereto under such compulsory license, on a consistent basis and in accordance with all applicable laws and regulations.

_____
(City and State of Execution)

_____
(Signature of Certified Public Accountant or CPA Firm)

_____
Certificate Number

_____
Jurisdiction of Certificate

_____
(Date of Opinion)

(B) The certificate shall be signed by an individual, or in the name of a partnership or a professional corporation with two or more shareholders. The certificate number and jurisdiction are not required if the certificate is signed in the name of a partnership or a professional corporation with two or more shareholders.

(6) *Service.* (i) Each Annual Statement of Account shall be served on the copyright owner to whom or which it is directed by certified mail or by registered mail on or before the twentieth day of the third month following the end of the fiscal year covered by the statement. It shall not be necessary to file a copy of the statement in the Copyright Office. An Annual Statement of Account shall be served for each fiscal year during which at least one Monthly Statement of Account was required to have been served under paragraph (b)(5) of this section.

(ii) In any case where the amount required to be stated in the Annual Statement of Account under paragraph (c)(3)(vii) of this section is greater than the amount stated in that Statement under paragraph (c)(3)(viii) of this section, the difference between such amounts shall be delivered to the copyright owner together with service of the Annual Statement. The delivery of such sum does not require the copyright owner to accept such sum, or to forego any right, relief, or remedy which may be available under law.

(iii) (A) In any case where an Annual Statement of Account is sent by certified mail or registered mail and is returned to the sender because the copyright owner is not located at that address or has refused to accept delivery, or in any case where an address for the copyright owner is not known, the Annual Statement of Account, together with any evidence of mailing, may be filed in the Licensing Division of the Copyright Office. Any Annual Statement of Account submitted for filing shall be accompanied by a brief statement of the reason why it was not served on the copyright owner. A written acknowledgment of receipt and filing will be provided to the sender. (B) The Copyright Office will not accept any royalty fees submitted with Annual Statements of Account under this § 202.19(c)(6)(iii). (C) Neither the filing of an Annual Statement of Account in the Copyright Office, nor the failure to file such statement, shall have any effect other than that which may be attributed to it by a court of competent jurisdiction. (D) No filing fee will be required in the case of Annual Statements of Account submitted to the Copyright Office under this § 202.19(c)(6)(iii). Upon request and payment of a fee of $4, a Certificate of Filing will be provided to the sender.

(d) *Records.* All persons or entities exercising the compulsory license shall, for a period of at least 3 years from the date of service of an Annual Statement of Account, keep and retain in their possession all records and documents necessary and appropriate to support fully the information set forth in such Statement and in Monthly Statements served during the fiscal year covered by such Statement.

Title 40—Protection of the Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[FRL 938-7]

PART 65—DELAYED COMPLIANCE ORDERS

State and Federal Administrative Orders Permitting a Delay in Compliance with State Implementation Plan Requirements

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rulemaking.

SUMMARY: The regulations promulgated below establish the procedures to be followed by EPA in issuing a delayed compliance order under the Clean Air Act. The regulations also establish procedures for EPA's Approval or disapproval of a delayed compliance order issued by a State. A delayed compliance order permits an owner or operator of a stationary source to delay final compliance with provisions contained in a State implementation plan if certain other requirements are met in the interim. The regulations will be contained in a new part 65 which will also contain sections summarizing EPA action in issuing, approving, and disapproving delayed compliance orders.

DATE: This promulgation takes effect on September 28, 1978. Written comments must be received on or before November 27, 1978. All comments received will be carefully considered and revisions to the regulations will be made where appropriate.

ADDRESS: Comments concerning this promulgation should be submitted to Edward E. Reich, Director, Division of Stationary Source Enforcement, EN-341, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

Charles Hungerford, Attorney-Adviser, by mail at the Division of Stationary Source Enforcement, EN-341, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, or by telephone at 202-755-2570.

SUPPLEMENTARY INFORMATION: Section 113(d) of the Clean Air Act (the Act), 42 U.S.C. 7413(d), which was added by the Clean Air Act Amendments of 1977 (Pub. L. 95-95), authorizes the States and the Administrator of EPA to issue to eligible sources delayed compliance orders permitting a delay in compliance with regulations contained in federally approved State implementation plans. Section 113(d)(2) of the Act also provides that a State delayed compliance order to a major source must be approved by EPA before it is effective under section 113(d) of the Act. State delayed compliance orders to sources other than major sources become effective under section 113(d) of the Act upon issuance by the State without EPA approval. However, such orders cease to have this effect upon EPA's disapproval.

The regulations set forth below establish the procedures EPA will observe prior to: (1) The Administrator's issuance of a Federal delayed compliance order under section 113(d) (1), (3), or (4) of the Act; (2) the Administrator's approval of a State delayed compliance order issued to a major stationary source under section 113(d)(2) of the Act; and (3) the Administrator's disapproval of a State delayed compliance order issued to a major or nonmajor stationary source under section 113(d)(2) of the Act. The procedures for issuance of orders under section 113(d)(5) of the Act will be set forth in separate regulations.

The regulations promulgated below provide that the public will receive notice, through publication in the FEDERAL REGISTER, of the contents of proposed Federal delayed compliance orders, of State delayed compliance orders to major sources which have been submitted to EPA for approval, and of State delayed compliance orders to nonmajor sources which EPA proposes to disapprove under section 113(d)(2) of the Act. EPA will make available to the public information which is available to EPA concerning the basis for the order and its consistency with the requirements of the Act.

Executive Order 12044, 43 FR 12661 et seq. (Mar. 24, 1978), provides that Federal agencies will give the public 60 days to comment on proposed significant regulations. EPA has determined that actions on individual delayed compliance orders under this part do not constitute significant regulations under the Executive order. Delayed compliance orders establish schedules for individual violators to comply with existing regulations and do not alter the underlying applicable State implementation plan requirements. The maximum delay in compliance permitted by a delayed compliance order is strictly governed by the Act. In addition, State delayed compliance orders may be approved by EPA only if they were issued after public notice and an opportunity for a public hearing. In most cases, notice of State delayed compliance orders under this part will be in addition to the prior State notice. Finally, a 60-day public comment period on submitted State delayed compliante orders would be impracticable because section 113(d)(2) of the Act requires that the Administrator approve or disapprove such orders within 90 days. Therefore, EPA will provide the public 30 days in which to submit written comments concerning Federal and State delayed compliance orders noticed under this part.

Notice on proposed Federal delayed compliance orders will provide the public an opportunity to request a public hearing. Where EPA anticipates substantial public interest in holding a hearing, the notice will set the time and place of the hearing. In all other cases involving proposed Federal delayed compliance orders, the notice will provide the public a minimum of 15 days to request a hearing and to submit a brief statement supporting the need for a hearing and a summary of the information to be offered by the requesting party at the hearing. If EPA determines that a hearing should be held, a notice will be published in the FEDERAL REGISTER announcing the time and place of the hearing. The hearing will be held no less than 21 days after publication of the notice announcing the hearing.

Because the Act requires that an opportunity for a public hearing must have been offered by the State prior to its issuance of a delayed compliance order, no additional opportunity will be provided by EPA prior to action on State orders submitted for EPA approval.

At the termination of the 30-day public comment period, or after the record of any public hearing closes, EPA will assess any comments received and, where appropriate, the proposed action will be modified or withdrawn in view of such comments. The Administrator's final action on an order will be promulgated as an addition to this part. A Federal delayed compliance order or State delayed compliance order to a major source will not become effective under section 113(d) of the Act until the Administrator promulgates his final approval or issuance. Any modification to a delayed compliance order will be accomplished in accordance with the notice procedures described above.

If the Administrator's final action on a State delayed compliance order for a major stationary source is disapproval of the order, EPA will either, in accordance with Agency enforcement priorities, issue a Federal delayed compliance order to the source under the procedures expressed above or initiate a judicial action against the source under section 113(b) of the Act, unless similar action has been taken previously by EPA. If the Administrator disapproves a State delayed compliance order to a nonmajor source, EPA will issue a Federal delayed compliance order to the source under the procedures expressed above, unless such action has been taken previously by EPA. However, if the source cannot meet the statutory eligibility requirements of section 113(d) of the Act EPA will take other appropriate enforcement action.

Section 113(d)(10) of the Act provides that a Federal delayed compliance order or a federally approved State delayed compliance order precludes Federal enforcement action against the source under section 113 of the Act for violations of the State implementation plan regulation(s) covered by the order during the period the order is in effect and the source is complying with the terms of the order. Citizen suits under section 304 of the Act to enforce against the source are similarly precluded. Section 113(d)(11) of the Act provides that an EPA approved State delayed compliance order constitutes an addition to the relevant State implementation plan. Such orders do not, however, supplant the underlying State implementation plan provision.

The Federal Government cannot enforce a State delayed compliance order to a major source unless the order has been approved by EPA in accordance with this part. Prior to approval by EPA, a State order to a major source does not insulate the source from enforcement action as provided by section 113(d) (10) and (11) of the Act and does not constitute final EPA action for purposes of section 307 of the Act.

Federal issuance, approval, and disapproval of individual delayed compliance orders will be summarized under the subpart corresponding to the State in which the affected source is located. In order to save resources, each subpart is not set forth individually today. Rather, the individual text and chart will be codified in the Code of Federal Regulations for each individual State subpart.

Since this part sets forth procedural rules for Federal approval, disapproval, and issuance of delayed compliance orders, the Agency has determined that the rules fall within the exception of 5 U.S.C. 553(b)(A) (which exempts rules of Agency procedure or practice from the informal rulemaking requirements of the Administrative Procedure Act). Therefore, the notice and comment rulemaking procedures of 5 U.S.C. 553 have not been followed prior to the promulgation of this part. In addition, under 5 U.S.C. 553(d) which allows certain Agency rules to be effective before 30 days have passed from the date of their publication), EPA has determined that the promulgation shall be effective upon publication because of the need for immediate guidance to the States and to the public.

The Agency recognizes, however, that the public may wish to comment on the procedures established herein. It is therefore soliciting public comment on these rules. Comments received on or before November 27, 1978, will be considered carefully and revisions to the procedures will be made where appropriate.

The regulations promulgated below are of nationwide scope and effect. Therefore, under section 307(b) of the Act, judicial review of the regulations may be sought only in the U.S. Court of Appeals for the District of Columbia.

(42 U.S.C. 7413, 7601.)

Dated: September 19, 1978.

DOUGLAS M. COSTLE,
Administrator.

In consideration of the foregoing:

1. Chapter I of title 40 of the Code of Federal Regulations is amended by adding a new part 65 as follows:

Subpart A—General Provisions

Sec.
65.01 Definitions.
65.02 Introduction.
65.03 Effect of delayed compliance orders.
65.04 Public participation.
65.05 Public access to information.
65.06 Effective date of federally promulgated or approved delayed compliance orders and revisions thereto.
65.07 Submittal of State delayed compliance orders to the Administrator.
65.08 Severability of provisions.
65.09 Failure to comply with federally promulgated or approved delayed compliance orders.
65.10 Termination of delayed compliance orders.

Subpart B—Alabama

65.50 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.51 EPA approval of State delayed compliance orders issued to major stationary sources.
65.52 EPA disapproval of State delayed compliance orders.

Subpart C—Alaska

65.60 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.61 EPA approval of State delayed compliance orders issued to major stationary sources.
65.62 EPA disapproval of State delayed compliance orders.

Subpart D—Arizona

65.70 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.71 EPA approval of State delayed compliance orders issued to major stationary sources.
65.72 EPA disapproval of State delayed compliance orders.

Subpart E—Arkansas

65.80 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.81 EPA approval of State delayed compliance orders issued to major stationary sources.
65.82 EPA disapproval of State delayed compliance orders.

Subpart F—California

65.90 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.91 EPA approval of State delayed compliance orders issued to major stationary sources.
65.92 EPA disapproval of State delayed compliance orders.

Subpart G—Colorado

65.100 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.101 EPA approval of State delayed compliance orders issued to major stationary sources.
65.102 EPA disapproval of State delayed compliance orders.

Subpart H—Connecticut

65.110 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.111 EPA approval of State delayed compliance orders issued to major stationary sources.
65.112 EPA disapproval of State delayed compliance orders.

Subpart I—Delaware

65.120 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.121 EPA approval of State delayed compliance orders issued to major stationary sources.
65.122 EPA disapproval of State delayed compliance orders.

Subpart J—District of Columbia

65.130 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.131 EPA approval of State delayed compliance orders issued to major stationary sources.
65.132 EPA disapproval of State delayed compliance orders.

Subpart K—Florida

65.140 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.141 EPA approval of State delayed compliance orders issued to major stationary sources.
65.142 EPA disapproval of State delayed compliance orders.

V 43 / 189 SEP 28 78 UMI

Subpart L—Georgia

65.150 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.151 EPA approval of State delayed compliance orders issued to major stationary sources.
65.152 EPA disapproval of State delayed compliance orders.

Subpart M—Hawaii

65.160 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.161 EPA approval of State delayed compliance orders issued to major stationary sources.
65.162 EPA disapproval of State delayed compliance orders.

Subpart N—Idaho

65.170 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.171 EPA approval of State delayed compliance orders issued to major stationary sources.
65.172 EPA disapproval of State delayed compliance orders.

Subpart O—Illinois

65.180 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.181 EPA approval of State delayed compliance orders issued to major stationary sources.
65.182 EPA disapproval of State delayed compliance orders.

Subpart P—Indiana

65.190 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.191 EPA approval of State delayed compliance orders issued to major stationary sources.
65.192 EPA disapproval of State delayed compliance orders.

Subpart Q—Iowa

65.200 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.201 EPA approval of State delayed compliance orders issued to major stationary sources.
65.202 EPA disapproval of State delayed compliance orders.

Subpart R—Kansas

65.210 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.211 EPA approval of State delayed compliance orders issued to major stationary sources.
65.212 EPA disapproval of State delayed compliance orders.

Subpart S—Kentucky

65.220 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.221 EPA approval of State delayed compliance orders issued to major stationary sources.
65.222 EPA disapproval of State delayed compliance orders.

Subpart T—Louisiana

65.230 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.231 EPA approval of State delayed compliance orders issued to major stationary sources.
65.232 EPA disapproval of State delayed compliance orders.

Subpart U—Maine

65.240 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.241 EPA approval of State delayed compliance orders issued to major stationary sources.
65.242 EPA disapproval of State delayed compliance orders.

Subpart V—Maryland

65.250 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.251 EPA approval of State delayed compliance orders issued to major stationary sources.
65.252 EPA disapproval of State delayed compliance orders.

Subpart W—Massachusetts

65.260 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.261 EPA approval of State delayed compliance orders issued to major stationary sources.
65.262 EPA disapproval of State delayed compliance orders.

Subpart X—Michigan

65.270 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.271 EPA approval of State delayed compliance orders issued to major stationary sources.
65.272 EPA disapproval of State delayed compliance orders.

Subpart Y—Minnesota

65.280 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.281 EPA approval of State delayed compliance orders issued to major stationary sources.
65.282 EPA disapproval of State delayed compliance orders.

Subpart Z—Mississippi

65.290 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.291 EPA approval of State delayed compliance orders issued to major stationary sources.
65.292 EPA disapproval of State delayed compliance orders.

Subpart AA—Missouri

65.300 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.301 EPA approval of State delayed compliance orders issued to major stationary sources.
65.302 EPA disapproval of State delayed compliance orders.

Subpart BB—Montana

65.310 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.311 EPA approval of State delayed compliance orders issued to major stationary sources.
65.312 EPA disapproval of State delayed compliance orders.

Subpart CC—Nebraska

65.320 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.321 EPA approval of State delayed compliance orders issued to major stationary sources.
65.322 EPA disapproval of State delayed compliance orders.

Subpart DD—Nevada

65.330 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.331 EPA approval of State delayed compliance orders issued to major stationary sources.
65.332 EPA disapproval of State delayed compliance orders.

Subpart EE—New Hampshire

65.340 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.341 EPA approval of State delayed compliance orders issued to major stationary sources.
65.342 EPA disapproval of State delayed compliance orders.

Subpart FF—New Jersey

65.350 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.351 EPA approval of State delayed compliance orders issued to major stationary sources.
65.352 EPA disapproval of State delayed compliance orders.

Subpart GG—New Mexico

65.360 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.361 EPA approval of State delayed compliance orders issued to major stationary sources.
65.362 EPA disapproval of State delayed compliance orders.

Subpart HH—New York

65.370 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.371 EPA approval of State delayed compliance orders issued to major stationary sources.
65.372 EPA disapproval of State delayed compliance orders.

Subpart II—North Carolina

65.380 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.381 EPA approval of State delayed compliance orders issued to major stationary sources.
65.382 EPA disapproval of State delayed compliance orders.

Subpart JJ—North Dakota

65.390 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.391 EPA approval of State delayed compliance orders issued to major stationary sources.
65.392 EPA disapproval of State delayed compliance orders.

Subpart KK—Ohio

65.400 Federal delayed compliance orders issued under section 113(d) (1), (3) and (4) of the Act.
65.401 EPA approval of State delayed compliance orders issued to major stationary sources.
65.402 EPA disapproval of State delayed compliance orders.

Subpart LL—Oklahoma

65.410 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.411 EPA approval of State delayed compliance orders issued to major stationary sources.
65.412 EPA disapproval of State delayed compliance orders.

Subpart MM—Oregon

65.420 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.421 EPA approval of State delayed compliance orders issued to major stationary sources.
65.422 EPA disapproval of State delayed compliance orders.

Subpart NN—Pennsylvania

65.430 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.431 EPA approval of State delayed compliance orders issued to major stationary sources.
65.432 EPA disapproval of State delayed compliance orders.

Subpart OO—Rhode Island

65.440 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.441 EPA approval of State delayed compliance orders issued to major stationary sources.
65.442 EPA disapproval of State delayed compliance orders.

Subpart PP—South Carolina

65.450 Federal delayed compliance orders issued under section 113(d), (1), (3), and (4) of the Act.
65.451 EPA approval of State delayed compliance orders issued to major stationary sources.
65.452 EPA disapproval of State delayed compliance orders.

Subpart QQ—South Dakota

65.460 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.461 EPA approval of State delayed compliance orders issued to major stationary sources.
65.462 EPA disapproval of State delayed compliance orders.

Subpart RR—Tennessee

65.470 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.471 EPA approval of State delayed compliance orders issued to major stationary sources.
65.472 EPA disapproval of State delayed compliance orders.

Subpart SS—Texas

65.480 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.481 EPA approval of State delayed compliance orders issued to major stationary sources.
65.482 EPA disapproval of State delayed compliance orders.

Subpart TT—Utah

65.490 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.491 EPA approval of State delayed compliance orders issued to major stationary sources.
65.492 EPA disapproval of Stated delayed compliance orders.

Subpart UU—Vermont

65.500 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.501 EPA approval of State delayed compliance orders issued to major stationary sources.
65.502 EPA disapproval of State delayed compliance orders.

Subpart VV—Virginia

65.510 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.511 EPA approval of State delayed compliance orders issued to major stationary sources.
65.512 EPA disapproval of State delayed compliance orders.

Subpart WW—Washington

65.520 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.521 EPA approval of State delayed compliance orders issued to major stationary sources.
65.522 EPA disapproval of State delayed compliance orders.

Subpart XX—West Virginia

65.530 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.531 EPA approval of State delayed compliance orders issued to major stationary sources.
65.532 EPA disapproval of State delayed compliance orders.

Subpart YY—Wiscansin

65.540 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.541 EPA approval of State delayed compliance orders issued to major stationary sources.
65.542 EPA disapproval of State delayed compliance orders.

Subpart ZZ—Wyoming

65.550 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.551 EPA approval of State delayed compliance orders issued to major stationary sources.
65.552 EPA disapproval of State delayed compliance orders.

Subpart AAA—Guam

65.560 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.561 EPA approval of State delayed compliance orders issued to major stationary sources.
65.562 EPA disapproval of State delayed compliance orders.

Subpart BBB—Puerto Rico

65.570 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.571 EPA approval of State delayed compliance orders issued to major stationary sources.
65.572 EPA disapproval of State delayed compliance orders.

Subpart CCC—Virgin Islands

65.580 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.581 EPA approval of State delayed compliance orders issued to major stationary sources.
65.582 EPA disapproval of State delayed compliance orders.

Subpart DDD—American Samoa

65.590 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.591 EPA approval of State delayed compliance orders issued to major stationary sources.
65.592 EPA disapproval of State delayed compliance orders.

Subpart EEE—Commonwealth of the Northern Mariana Islands

65.600 Federal delayed compliance orders issued under section 113(d) (1), (3), and (4) of the Act.
65.601 EPA approval of State delayed compliance orders issued to major stationary sources.
65.602 EPA disapproval of State delayed compliance orders.

AUTHORITY: Secs. 113 and 301 of the Clean Air Act, as amended, 42 U.S.C. 7413 and 7601.

Subpart A—General Provisions

§ 65.01 Definitions.

All terms used in this part but not defined herein shall have the meaning given them in the Clean Air Act and in part 51 of this chapter.

(a) "Act" shall mean the Clean Air Act, as amended, 42 U.S.C. 7401 et seq.

(b) "Administrator" shall mean the Administrator of the U.S. Environmental Protection Agency, or his authorized delegatee.

(c) "Regional Administrator" shall mean the Regional Administrator for an EPA regional office whose duties include those set forth at 40 CFR § 1.41, or his authorized delegatee.

(d) "Major stationary source" shall mean any stationary source which directly emits, or has the potential to emit, 100 tons per year or more of any air pollutant for which a national ambient air quality standard under section 109 of the Act is in effect (including any major stationary source of fugitive emissions of any such pollutant, as determined by rule by the Administrator).

(e) "Delayed compliance order" shall mean an order issued by a State or by the Administrator to a stationary source which postpones the date by which the source is required to comply with any requirement contained in the applicable State implementation plan.

(f) The term "Federal delayed compliance order" shall mean a delayed compliance order issued by the Administrator under section 113(d) (1), (3), or (4) of the Act.

(g) The term "State delayed compliance order" shall mean a delayed compliance order issued by a State or by a political subdivision of a State.

(h) "State implementation plan" shall mean the plan, including the most recent revision thereof, which has been approved or promulgated by the Administrator under section 110 of the Act, and which implements the requirements of section 110.

(i) "Stationary source" shall mean any stationary building, facility, equipment, installation, or operation (or combination thereof) which is located on one or more contiguous or adjacent properties and which is owned or operated by the same person (or by persons under common control), and which emits an air pollutant for which a national ambient air quality standard promulgated under section 109 of the Act is in effect.

§ 65.02 Introduction.

(a) Section 113(d) of the Act authorizes the Administrator to issue to certain sources delayed compliance orders permitting a delay in compliance with applicable regulations contained in a State implementation plan. All orders issued by the Administrator under section 113(d) (1), (3), or (4) of the Act will be issued in accordance with the procedures set forth in this part. All such federal delayed compliance orders will be summarized under the subpart corresponding to the State in which the affected source is located.

(b) Section 113(d)(2) of the Act provides that State orders issued to major stationary sources which permit a delay in compliance with applicable State implementation plan regulations must be approved by the Administrator before they have the consequences given delayed compliance orders by section 113(d) of the Act. The Administrator will approve or disapprove, in accordance with the procedures of this part, State delayed compliance orders for major stationary sources which have been submitted to EPA for review under section 113(d)(2) of the Act and § 65.07. All State delayed compliance orders approved or disapproved by the Administrator will be summarized under the subpart corresponding to the State in which the affected source is located.

(c) Section 113(d)(2) of the Act provides that State orders issued to sources other than major stationary sources which permit a delay in compliance with applicable State implementation plan regulations shall cease to be effective as delayed compliance orders under section 113(d) of the Act upon disapproval by the Administrator. The Administrator will promulgate any such disapproval in accordance with the procedures set forth in this part. All such disapprovals will be summarized in the subpart corresponding to the State in which the affected source is located.

(d) The Administrator will issue or approve a delayed compliance order only if it meets all applicable requirements of section 113(d) of the Act.

§ 65.03 Effect of delayed compliance orders

(a) *EPA approved State delayed compliance orders to major stationary sources.* A State delayed compliance order issued to a major stationary source, upon approval by the Administrator under section 113(d)(2) of the Act in accordance with this part, shall have the following effects:

(1) The order shall become part of the applicable State implementation plan for the purposes of sections 110, 304, and 307 of the Act; and

(2) The order shall preclude enforcement action against the source under sections 113 and 304 of the Act for violations of the State implementation plan provision(s) covered by the order during the period the order is in effect and the source is complying with the terms of the order.

(b) *State delayed compliance orders to nonmajor stationary sources.* A State delayed compliance order issued to a nonmajor stationary source shall, upon issuance by the State, have the effects specified in paragraph (a) of this section, and will be considered an approved order for the purposes of the part, unless the Administrator disapproves the order under section 113(d)(2) of the Act.

(c) *State delayed compliance orders not approved by EPA.* A State delayed compliance order which has not been approved by the Administrator under this part does not have the effects specified by §§ 65.03(a) and 65.04(e).

(d) *Federal delayed compliance order.* A Federal delayed compliance order issued by the Administrator under section 113(d) (1), (3), or (4) of the Act in accordance with this part precludes enforcement action against the source by EPA under section 113 and by citizens under section 304 of the Act for violations of the State implementation plan provision(s) covered by the order during the period the order is in effect and the source is complying with the terms of the order.

(e) *Source responsibilities and liabilities.* (1) The obligations of a source subject to a delayed compliance order include, but are not limited to:

(i) Compliance with the provisions of the delayed compliance order;

(ii) Compliance with applicable State, local, and Federal requirements not covered by the order;

(iii) Compliance with any requirement imposed pursuant to section 303 of the Act, or pursuant to an emergency plan provision contained in an applicable State implementation plan, during conditions which might create a period of imminent and substantial endangerment to the health of persons.

(2) Compliance with a delayed compliance order promulgated or approved under this part does not preclude enforcement actions initiated under applicable State law for violations of the State implementation plan provisions covered by the order.

§ 65.04 Public participation.

(a) *Federal delayed compliance order.* (1) The appropriate EPA Regional Administrator will provide the public an opportunity to submit written comments and to request a public hearing on any proposed Federal delayed compliance order prior to its issuance. This opportunity and the contents of the proposed Federal order will be published as a notice of proposed rulemaking in the FEDERAL REGISTER. The notice of proposed rulemaking will also provide 30 days notice to the State as required by section 113(d)(1) of the Act, unless notice to the State was given earlier. The public comment period will extend no less than 30 days from the date of the notice.

(2) A period of at least 15 days from publication of the notice described in paragraph (a)(1) of this section will be allowed for receipt of requests for a public hearing. A public hearing will be held if the EPA Regional Administrator determines that there is significant public interest in the hearing. If a hearing is held, it shall take place no less than 21 days following publication of notice in the FEDERAL REGISTER containing, at a minimum, the date, time, place, and subject of the hearing.

(3) If the EPA Regional Administrator anticipates substantial public interest in a hearing on a proposed Federal delayed compliance order, a public hearing will be scheduled by the notice described in paragraph (a)(1) of this section, and will take place no less than 21 days following publication of this notice.

(4) The record of a public hearing will remain open for 10 days after the close of the hearing (or for such other period as set forth in the notice of the hearing). Hearing participants may submit additional information to the record during this time.

(5) Due consideration will be given by EPA to all relevant public comment, whether submitted as written comment or adduced at a hearing, and where appropriate the proposed delayed compliance order will be modified or withdrawn in view of such comments.

(6) If, after the 30 day public comment period and the close of the record of any public hearing on the proposed delayed compliance order, the Administrator determines that the proposed order should be issued, he will promulgate the order in this part, through a FEDERAL REGISTER notice of final rulemaking. If the Administrator determines that a proposed Federal delayed compliance order should not be issued, he will publish a notice in the FEDERAL REGISTER withdrawing the proposal of the order.

(b) *EPA approval or disapproval of a State delayed compliance order.* (1) The Regional Administrator will provide the public with an opportunity to submit written comments on whether EPA should approve a State delayed compliance order for a major stationary source prior to EPA's final approval or disapproval of the order. Notice of the opportunity to comment will be published in the FEDERAL REGISTER. The public comment period will extend for a minimum of 30 days.

(2) The notice described in paragraph (b)(1) of this section will contain, at a minimum, a summary of the contents of the State order under consideration, including the name and location of the source, the State implementation plan regulation(s) covered by the order, a brief summary of the schedule and plan for compliance required by the order, and the date specified for final compliance with the regulation.

(3) Due consideration will be given to all relevant written public comments and, where appropriate, any proposed EPA action on the order will be modified in view of such comments.

(4) Following the public comment period, the Administrator will promulgate in this part through a FEDERAL REGISTER notice of final rulemaking EPA's final approval or disapproval of the State order under consideration.

(5) The procedures specified in this subsection shall apply to the Administrator's disapproval of a delayed compliance order issued by a State to a source other than a major stationary source.

(c) *Revisions of delayed compliance orders.* (1) EPA will follow the procedures specified in § 65.04(a) prior to any revision of a Federal delayed compliance order.

(2) EPA will follow the procedures specified in § 65.04(b) prior to approval of disapproval of any revision submitted by a State or local agency to an EPA approved State delayed compliance order.

(d) *Revocation of delayed compliance orders.* EPA will follow the procedures specified in § 65.04(a) prior to the revocation of a delayed compliance order under section 113(d)(9)(B) of the Act.

(e) *Judicial review.* Publication of the notice of final rulemaking specified in § 65.04(a)(6) and § 65.04(b)(4) will constitute final Agency action for the purposes of judicial review under Section 307(b) of the Act.

§ 65.05 Public access to information.

(a) A copy of a rule proposed under this part, and material supporting the rule, will be available for public inspection during normal business hours at the EPA Regional Office proposing the rulemaking action and at EPA's Public Information Reference Unit at 401 M Street SW., Washington, D.C. 20460. This material will be available beginning with the date notice is published in the FEDERAL REGISTER in accordance with § 65.04 (a)(1) or (b)(1).

(b) The EPA Regional Office will provide reasonable public access during normal business hours to any written comments submitted in response to a notice published under this section and to the record of any public hearing held under § 65.04(a).

§ 65.06 Effective date of federally promulgated or approved delayed compliance orders and revisions thereto.

(a) Federal delayed compliance orders and revisions to Federal delayed compliance orders promulgated in this part become effective under section 113(d) of the Act upon publication in the FEDERAL REGISTER of the notice described in § 65.04(a)(6).

(b) EPA approval of State delayed compliance orders issued to major stationary sources and revisions to such orders approved under this part become effective under section 113(d) of the Act upon publication in the FEDERAL REGISTER of the notice described in § 65.04(b)(4).

(c) A delayed compliance order issued by a State to a source other than a major stationary source and any revision to such an order becomes effective under section 113(d) of the Act upon final State action, unless the Administrator disapproves the order or revision in accordance with § 65.04(b).

§ 65.07 Submittal of State delayed compliance orders to the Administrator.

In order to obtain EPA approval of a State delayed compliance order under section 113(d)—(2) of the Act, the State shall transmit a copy of the order and a request for EPA action to the appropriate EPA Regional Office, to the attention of the Director, Enforcement Division. In order to obtain EPA approval of a delayed compliance order issued by a local agency, the order must be submitted to EPA by the local agency either through the appropriate State Air Pollution Control Agency or in accordance with procedures established by the State which allow direct submittal of the order to EPA by the local agency. The EPA Regional Offices and addresses are identified at 40 CFR 52.16.

§ 65.08 Severability of provisions.

The provisions promulgated in this part and the various applications thereof are distinct and severable. If any provision of this part or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions, or the application of such provisions to other persons or circumstances, which can be given effect without the invalid provision of application.

§ 65.09 Failure to comply with federally promulgated or approved delayed compliance orders.

(a) If the Administrator determines that a stationary source is in violation of a requirement contained in an order promulgated or approved under this part, he shall, as provided by section 113(d)(9) of the Act: (1) Enforce such requirement under section 113 (a), (b),

Title 42—Public Health

CHAPTER IV—DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, HEALTH CARE FINANCING ADMINISTRATION

PART 448—COVERAGE AND CONDITIONS OF ELIGIBILITY FOR MEDICAL ASSISTANCE

Medicaid Eligibility; Technical Amendments

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Final rule.

SUMMARY: This amendment corrects an error contained in current regulations treating the effect of cost-of-living increases in social security benefits on medicaid eligibility in States which have imposed more restrictive eligibility requirements than the requirements under the supplemental security income (SSI) program. As a result of comments and in preparing to respond to two lawsuits which involve portions of current regulations, we became aware of an error. One of the effects of this rule is to allow certain States to increase the spend down

for certain recipients by the cost-of-living increase. We have adopted the rule as proposed on July 12, 1978, without change.

DATE: Effective on September 28, 1978.

FOR FURTHER INFORMATION CONTACT:

James C. Eshelman, 202-245-0534.

SUPPLEMENTARY INFORMATION: This rule corrects an error contained in medicaid eligibility regulations published on March 10, 1978 (43 FR 9810). Those regulations were designed to implement section 503 of Pub. L. 94-566 (42 U.S.C. 1396a note) which preserved medicaid eligibility for certain individuals who ceased to be eligible for SSI on account of certain cost-of-living increases in social security (OASDI) benefits. (Throughout this preamble references to SSI also include State supplementary payments described in section 1616(a) of the Social Security Act and payments of the type described in section 212(a) of Pub. L. 93-66.)

THE STATUTE

Section 503 requires that a State medicaid plan provide medicaid, after June 1977, for any individual who is entitled to a monthly OASDI benefit, and would have been eligible for benefits under the SSI program but for cost-of-living increases under OASDI, "in like manner and subject to the same terms and conditions as are applicable under (the State medicaid) plan in the case of individuals who are eligible for and receiving (SSI) benefits." The primary purpose of this provision is to prevent a person from losing his medicaid eligibility (in States which tie medicaid eligibility to receipt of SSI) because he has lost SSI eligibility due to cost-of-living increases in OASDI.

Some States, however, do not tie medicaid eligibility to receipt of SSI and have adopted more restrictive requirements for medicaid eligibility, in accordance with section 1902(f) of the Social Security Act. In these States, the receipt of SSI has no effect on medicaid eligibility unless the State also provides coverage for the "medically needy." (See 42 CFR 448.1 for a definition of "medically needed" and "categorically needy.") If an individual receives SSI in a State which has exercised its section 1902(f) option and also covers the medically needy, he may become eligible for medicaid by incurring medical expenses sufficient to reduce his income to the level of eligibility for the categorically needy. This person is then eligible for the same medicaid benefits as a person who is categorically needy. (This is called "spending down".) If this person were not eligible for SSI, he could spend down and establish eligibility for medicaid as medically needy, but could not spend down and become categorically needy.

Under section 503, in section 1902(f) States which have a medically needy program, a person who loses SSI eligibility must be permitted to "spend down" to the categorically needy eligibility level and, if he does so, is medicaid eligible as categorically needy. In 1902(f) States which do not have a medically needy program, no change in eligibility treatment for medicaid is required by section 503.

THE REGULATION

This regulation corrects an error in the existing regulations. The error permitted all OASDI recipients in States which have exercised their option under section 1902(f) to deduct certain OASDI cost-of-living increases from their income for purposes of determining their eligibility for medicaid. This result conflicts with section 503. The corrected regulation allows section 1902(f) States either to consider the amount of the person's OASDI cost-of-living increase as income or to disregard the cost-of-living increase to the same extent that it would be disregarded in States which do not exercise the section 1902(f) option. In either event, the State must treat a person who has lost SSI eligibility as categorically needy if he spends down to the medicaid eligibility income level.

COMMENTS

On July 12, we published a notice of proposed rulemaking (NPRM) within an expedited comment period of 30 days (43 FR 29970). No comments were received within the comment period. One comment was received on August 16. That comment and our response are as follows:

1. States will always choose the most restrictive option.

The commenter raised several objections to the proposed regulation. Among these was the assertion that when section 1902(f) States are given the option to choose a more restrictive standard (with regard to the cost-of-living increase) they will do so.

RESPONSE

The statutory structure of the medicaid program allows the State to make many choices in implementing the program. Among these options is the choice of whether to cover the "medically needy" (see 42 CFR 448.1 for an explanation of "medically needy") and the option under section 1902(f) to use more restrictive eligibility criteria than those of the SSI program for determining the financial eligibility of the aged, blind, and disabled for medicaid. Thus, it is consistent with the statutory structure to allow States to have choices, unless Congress has indicated that it did not desire to leave the decision to the States. There is no indication in section 503 that the State's choice is to be restricted.

2. In section 1902(f) States, the regulation does not treat individuals in a like manner to SSI recipients.

The commenter further asserted that, in those 1902(f) States in which income eligibility is considerably below the SSI level, the aged, blind, and disabled individuals who lose SSI due to cost-of-living increase will not be treated "in a like manner and subject to the same terms and conditions as a person who remains eligible for SSI."

RESPONSE

Contrary to the commenter's assertion, section 503 does not provide that a person who loses SSI eligibility due to a cost-of-living increase will be treated in like manner and subject to the same terms and conditions as a person who remains eligible for SSI. Rather, the statute provides that *"medical assistance* • • • shall be provided • • • in a like manner and subject to the same terms and conditions as are applicable (to SSI recipients)." [Emphasis supplied.]

The regulation is consistent with the statute. In section 1902(f) States, receipt of SSI does not confer automatic medicaid eligibility. Medicaid eligibility for SSI recipients is determined by comparing the recipient's income to the State's income standard. If the individual's income is below the State's standard, the individual is eligible for medicaid; if the income is greater than the standard, the individual is permitted to "spend down" to the level of medicaid eligibility. When the individual spends down, he is eligible for medicaid for a specified period.

Under the regulation, the same spend down procedure that applies to SSI recipients is applied to determine medicaid eligibility of individuals who lose their SSI eligibility by virtue of OASDI cost-of-living increases. Therefore, the regulation follows the express command of section 503.

The regulation also provides the section 1902(f) States with an option to disregard the OASDI cost-of-living increases which cause individuals to lose SSI eligibility. These States may disregard these increases to the same extent that a State which has not elected to use the section 1902(f) option. This position is consistent with our view that section 1902(f) permits States to use their criteria for financial eligibility for medicaid for the

V 43/189 SEP 28 78

aged, blind, and disabled which were in effect under an approved plan on January 1, 1972, or to use criteria which are less restrictive than the 1972 standards (provided the criteria are no more liberal than those specified by SSI). Since section 503 permits States which use SSI criteria for determining medicaid eligibility to disregard OASDI cost-of-living increases in a limited manner, our regulation permits section 1902(f) States to disregard these cost-of-living increases only to the same extent as the "SSI" States.

3. The cost of living increase granted to OASDI recipients will be wiped out by the increased spend down in section 1902(f) States.

The commenter argued that, as a result of allowing section 1902(f) States the option of not disregarding the cost-of-living increases, the benefit of these increases will be wiped out by the increased spend down to which these individuals will be subjected. The commenter contends that, by virtue of inflation, the OASDI recipient will be harmed rather than benefited by the cost-of-living increases.

RESPONSE

As a general rule, the States are not permitted to disregard OASDI cost-of-living increases in setting the level of spend down for SSI recipients. Therefore, in our view, section 503 does not permit us to require section 1902(f) States to disregard treating these individuals in a like manner and subject to the same terms and conditions as SSI recipients. Section 1902(f), however, does authorize the States to exercise an option to disregard the cost-of-living increase to the extent it made the individual ineligible for SSI.

4. The proposed rule appears to be contrary to the treatment of cost-of-living increases in all earlier HEW regulations, particularly those pertaining to the August 1972 cost-of-living increase.

RESPONSE

The commenter has focused on the "pass through" treatment of the 1972 OASDI cost-of-living increase by 42 CFR 448.1(b)(3)(ii). That regulation implements the next-to-last paragraph of section 1902(a) of the Social Security Act. There is no inconsistency in our implementation of that provision and this regulation. The "1972 pass-through" statute specified that if an individual was eligible for or receiving aid or assistance under specified State plan programs for the month of August 1972, he shall be deemed to be eligible for medicaid for any month in which he would have been eligible had the 1972 OASDI cost-of-living increase not applied to him. The 1972 statute, however, predated the implementation of the SSI program and the effective date of the section 1902(f) option. In contrast to the clear mandate in the 1972 statute to disregard the 1972 OASDI increase, section 503 requires that the State treat the person who has lost SSI eligibility "in like manner and subject to the same terms and conditions" as someone who still receives SSI benefits. As discussed above, the way a section 1902(f) State treats SSI recipients is to classify them as categorically needy if they spend down to medicaid eligibility income levels. Thus, section 503 stops short of being a mandate to disregard OASDI cost-of-living increases.

5. The regulation will result in placing an additional burden on the aged, blind, and disabled who will be required to reapply for medicaid every 3 to 6 months.

The commenter complains that the regulation will result in imposing an additional burden of proof on the aged, blind, and disabled individuals, who will be required to reapply for medicaid benefits every 3 to 6 months because eligibility based on a person's spend down is limited to maximum periods of 6 months. The commenter alleges that this means that these individuals must complete new application forms and submit new documentation and verification, which can often cause delays in the processing of an application, and that this would cause a loss of medicaid benefits while the application is pending.

RESPONSE

This comment is essentially directed at the spend down provision generally, rather than to the proposed regulation. This regulation does not impose any new application requirements. Although OSADI increases will mean that more people have to spend down in order to be medicaid eligible, this is a consequence of section 503 and a matter over which we have no discretion. Our medicaid regulations will be revised as part of our medicaid recodification project and comments on the application requirements will be considered at that time.

42 CFR 448.1 is amended as set forth below:

1. Section 448.1(a)(1)(ii) is revised to read as follows:

§ 448.1 State plan requirements and options for coverage under the medical assistance program.

* * * * *

(a) *General provisions governing eligibility for medical assistance.* * * *

(1) *Categorically needy.* * * *

(ii) *States limiting coverage by returning to earlier medicaid standard.* The following rules apply to aged, blind and disabled persons in States which have exercised their option under section 1902(f) of the Act to impose eligibility conditions which are more restrictive than those required for receipt of supplemental security income (SSI) benefits under title XVI. Aged, blind, and disabled persons in those States are entitled to deduct amounts received as SSI benefits or State supplementary payments and, as specified in § 448.1(b)(3)(ii), cost-of-living increases in title II benefits and incurred medical expenses, from income in order to qualify for medicaid.

* * * * *

2. The paragraph following § 448.1(b)(2)(viii)(D) is revised to read as follows:

* * * * *

In States which exercise their option under section 1902(f) to impose more restrictive medical assistance eligibility conditions on aged, blind, and disabled persons than conditions for receipt of benefits under title XVI, persons specified in paragraph (b)(2)(viii)(A) through (D) of this section are entitled to medical assistance under the same terms and conditions as title XVI beneficiaries or supplementary payment recipients in the State. If such a person incurs medical expenses in sufficient amount to reach the income eligibility level for categorically needy recipients, he shall be treated as categorically needy. For this purpose, the State plan may provide that the cost-of-living increase under section 215(i) may be deducted from income in determining the amount of medical expense that the person must incur to become eligible for medicaid, up to the amount of the increase that resulted in loss of eligibility for title XVI and any subsequent increases.

PART 460—PROFESSIONAL STANDARDS REVIEW

Designation of Professional Standards Review Organization (PSRO) Area in Texas

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Final regulation.

SUMMARY: This regulation designates Texas as a single Professional Standards Review Organization (PSRO) area. It is needed because, on January 9, 1978, a Federal district court set aside the nine PSRO areas previously designated in Texas. This regulation will enable the PSRO program to become operational in Texas.

DATE: The amendment is effective on September 28, 1978.

FOR FURTHER INFORMATION, CONTACT:

Steven a. Suard, 301-443-6477.

SUPPLEMENTARY INFORMATION: Professional Standards Review Organizations are independent physican organizations mandated under title XI, part B of the Social Security Act to review the medical necessity, appropriateness, and quality of health care and services funded through the medicare, medicaid, and maternal and child health programs. Specific PSRO areas must be designated before review activities can be undertaken. In *Texas Medical Association, et al v. Weinberger* (U.S.D.C., W.D. of Texas, No. A-74-CA-102, the United States District Court, on January 9, 1976, set aside the nine PSRO areas established March 18, 1974 (39 FR 10204) and instructed us to redesignate PSRO areas in Texas.

On July 5, 1978, we published in the FEDERAL REGISTER (43 FR 29005) a final regulation providing for the designation of a single statewide PSRO area if the following requirements are met: (1) Suitable evidence has been obtained that a majority of the physicians in the State favor a statewide area; and (2) no areas had been finally designated as of January 1, 1978. Concurrently, we published a proposal (43 FR 29016) to designate Texas as a single statewide PSRO area. That notice was based on (1) an advisory poll of Texas physicians which showed an overwhelming physician preference (86 percent) for a single statewide PSRO area designation, and (2) the court order setting aside the previous area designations.

Several reponses were received during the 60-day comment period, all in support of the amendment. No revisions were recommended and no changes have been made. Since we believe it desirable to initiate PSRO review promptly in Texas, we are adopting the amendment to be effective immediately.

42 CFR Part 460 is amended by revising § 460.48 to read as follows:

§ 460.8 Texas.

The State of Texas is designated as a single-professional standards review organization Area.

(Secs. 1102 and 1152 of the Social Security Act (42 U.S.C. 1302, and 1320c-1).)

Dated: September 13, 1978.

ROBERT A. DERZON,
Administrator, Health Care Financing Administration.

Approved: September 22, 1978.

JOSEPH A. CALIFANO, JR.,
Secretary.

[4310-84]

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

SUBCHAPTER C—MINERALS MANAGEMENT (3000)

[Circular No. 2436]

PART 3300—OUTER CONTINENTAL SHELF LEASING; GENERAL

Subpart 3302—Issuance of Leases

HOLDING OF HIGH BIDS ON OCS SALES

AGENCY: Bureau of Land Management, Interior.

ACTION: Final rule.

SUMMARY: This final rulemaking extends the time for acceptance of leasing bids on the Outer Continental Shelf from 30 to 60 days in order to provide for an antitrust review by the Attorney General as authorized in the recently enacted Outer Continental Shelf Lands Act Amendments of 1978 (Pub. L. 95-372).

DATE: This rule is effective September 28, 1978.

ADDRESS: All inquiries should be directed to Director (210), Bureau of Land Management, 1800 C Street NW., Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:

Chris Oynes, 202-343-2718.

SUPPLEMENTARY INFORMATION: The recently enacted Outer Continental Shelf Lands Act Amendments of 1978 (Pub. L. 95-372) contain provisions requiring that the Attorney General, in consultation with the Federal Trade Commission, be allowed 30 days, or a shorter period which they may agree upon, to review the results of a lease sale and comment on the likely effects on competition of issuing the leases. The current regulation in section 3302.5 of title 43 of the Code of Federal Regulations requires that the authorized officer act on the lease bids within 30 days after opening all bids or they are considered rejected. In order to allow time for the review that must be made by this Department and up to 30 days for review for antitrust purposes by the Attorney General, it is necessary to amend the existing regulations to extend the review period to cover this additional time. Although in the past the Department has not normally required the use of the full 30-day period allowed by the regulations to examine the bids, it may be necessary to use the full time in the future to be fully responsive to the provisions of the Outer Continental Shelf Lands Act Amendments. Thus, the combination of these two factors indicates the necessity for amending the regulation on bid acceptance to allow 60 days for review of the bids rather than the 30 days now provided.

This rulemaking is being published as final because the Outer Continental Shelf Lands Act Amendments are applicable to lease sale 65 which is scheduled for October 31, 1978, and the additional time will be needed to review bids on this lease sale. The exploration for oil and gas on the Outer Continental Shelf is of vital importance to the national effort to secure a sufficient energy supply. Therefore, it would not be in the national interest to delay lease sale 65 as would be necessary if the Department were to follow the normal rulemaking process for this rulemaking.

The principal author of this rulemaking is Chris Oynes of the Division of Mineral Resources, Bureau of Land Management, assisted by the Division of Legislation and Regulatory Management of the Bureau of Land Management.

It is hereby determined that the publication of this document is not a major action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(c)) is required.

The Department of the Interior has determined that this document is not a significant regulatory action requiring the preparation of a regulatory analysis under Executive Order 12044.

Accordingly, under the authority of section 205 of the Outer Continental Shelf Lands Act Amendments of 1978

V 43 / 189 SE 28 78

(Pub. L. 95-372), section 3302.5 of subpart 3302, part 3300, group 3300, subchapter C, chapter II, title 43 of the Code of Federal Regulations is amended by deleting the figure "30" in the two instances where it appears and substituting in lieu thereof the figure "60".

GARY J. WICKS,
Acting Assistant Secretary of the Interior.

SEPTEMBER 22, 1978.

[6315-01]

Title 45—Public Welfare

CHAPTER X—COMMUNITY SERVICES ADMINISTRATION

[CSA Instruction 6800-10, Ch. 1]

PART 1050—UNIFORM FEDERAL STANDARDS

Subpart J—Payment Requirements (Uniform Federal Standard)

LETTER-OF-CREDIT

AGENCY: Community Services Administration.

ACTION: Final rule.

SUMMARY: The Community Services Administration is filing its final rule to inform grantees that the aggregate annual advance requiring issuance of a Letter-of-Credit has been reduced from $250,000 to $120,000. This change is required to implement Treasury Circular No. 1075. This will immediately affect organizations receiving an initial grant. Current grantees will not be affected until time of refunding.

EFFECTIVE DATE: September 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Ms. Maryann J. Fair, Community Services Administration, 1200 19th Street NW., Washington, D.C. 20506, telephone 202-254-5047, teletypewriter: 202-254-6218.

SUPPLEMENTARY INFORMATION: On June 14, 1978, the Community Services Administration published a proposed rule in the FEDERAL REGISTER (43 FR 25698) which proposed a policy reducing the aggregate annual advance by Treasury check for payments less than $250,000.

This final rule informs grantees of a revision to Treasury Circular No. 1075 which now requires the issuance of Letter-of-Credit for annual advances aggregating at least $120,000.

Comments were received from the public as well as grantees. In particular some CDC's have noted their concern that problems with this Letter-of-Credit would be damaging to smaller grantees, and without visible funds on depositis, bankers would refer business ventures elsewhere.

Several concerned respondents inquired whether grantees would continue to receive funds quarterly. This will continue to be the practice for those grantees who will not be on the Letter-of-Credit system, i.e., those whose aggregate annual advance is less than $120,000. The $120,000 aggregate advance level is applicable immediately to any initial fundings. However, grantees currently receiving monthly checks but whose aggregate annual level exceeds $120,000 will be converted to the Letter-of-Credit method at time of refunding.

In summary, we remind grantees that the reduction of the aggregate annual advance requiring issuance of a Letter-of-Credit is required in order to implement Treasury Department Circular No. 1075 and current grantees will not be affected until time of refunding.

(Sec. 602, 78 Stat. 530 (42 U.S.C. 2942).)

GRACIELA (GRACE) OLIVAREZ,
Director.

45 CFR Subpart J is amended as follows:

§ 1050.92 Standard [Amended].

In § 1050.92(b)(1) "$250,000" is changed to read "$120,000".

§ 1050.93 CSA Implementing Policies and Procedures [Amended].

In § 1050.93(a) "$250,000" is changed to read "$120,000", in each place it appears.

In § 1050.93(b) "$250,000" is changed to read "$120,000", in every place it appears.

In § 1050.93(c) "$250,000" is changed to read "$120,000".

[FR Doc. 78-26978 Filed 9-27-78; 8:45 am]

[6315-01]

[CSA Instruction 7000-1]

PART 1067—FUNDING OF CSA GRANTEES

Subpart—Federal Register; Access to Daily Publications

AGENCY: Community Services Administration.

ACTION: Final rule.

SUMMARY: The Community Services Administration is filing its final rule which will make the FEDERAL REGISTER the exclusive formal system used to communicate proposed rules to grantees and will require grantees to have access to the daily publication of the FEDERAL REGISTER either through direct subscription or a circulating copy. This is being required because the current system of mailing drafts to grantees is cumbersome, time-consuming and duplicative. This will ensure timely notification to grantees.

EFFECTIVE DATE: September 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Ms. Maryann J. Fair, Community Services Administration, 1200 19th Street, NW., Washington, D.C. 20506, telephone, 202-254-5047, teletypewriter, 202-254-6218. It should be noted that a Spanish version of this document is available upon request from the contact person, Ms. Maryann Fair.

SUPPLEMENTARY INFORMATION: The Community services Administration formally communicates with its grantees through a structured system known as the CSA issuance system which consists of CSA instructions (policy statements) CSA notices (announcements of temporary concern including interim policies), and CSA guidances (material designed to help people do their job better).

In the past the system used to get imput on draft policy statements was to print copies of the draft and mail copies to each grantee. However, because there is no inhouse capability to print, this material had to be sent to the Government Printing Office or to a private contractor and then returned to CSA's Warehouse for packaging and mailing. This proved to be a time-consuming process frequently taking up to three weeks before the draft was in the mail. Added to this was the time needed by grantees to review the draft and develop comments, plus mailing time and subsequent time required by CSA staff to analyze comments received and to revise the draft when warranted.

In an effort to resolve the time problems related to the duplicative printing and distribution of proposed rules, the Community Services Administration published a proposed rule in the FEDERAL REGISTER, (42 FR 45002) which proposed a policy which would make the FEDERAL REGISTER the exclusive formal system used to communicate proposed rules and regulations to grantees and would require grantees to have access to the daily publication of the FEDERAL REGISTER by subscription or a circulating copy.

Sixty-two comments were received from grantees. The majority of the concerns dealt with: (1) staffing, (2) storage, (3) cost and (4) whether CSA should send information regarding the publication or copies of the publication to grantees. In analyzing the above concerns we concluded that:

(1) Staffing—This would not require additional hiring. One person could review the FEDERAL REGISTER daily to screen it to see if there is any information published by CSA in that edition. (The cover of each FEDERAL REGISTER carries a "Highlight" which includes all important regulations from various agencies in that edition. There is also a table of contents which alphabetically lists agencies and the subjects of their documents being published in that edition. All regulations issued by CSA in the FEDERAL REGISTER are under the title, "Community Services Administration" and the reviewer need only turn to the page number indicated.) In addition, in order to make the review simpler, CSA will only publish its documents on specific days—Mondays and Thursdays. This will be for a 6-month trial period.

(2) Storage—Individual grantees are responsible for deciding how long they want to keep copies of the FEDERAL REGISTER. Since final rules will continue to be issied as CSA Instructions, grantees can dispose of issues immediately upon review if the wish to do so.

(3) Cost—CSA will not subscribe directly because it is too difficult to keep abreast of address changes. Grantees should note, however, that the subscription cost can be included as an additional item in the budget.

(4) Whether CSA should send information to grantees from the FEDERAL REGISTER—As noted above the current system of mailing information to grantees is cumbersome and time consuming in addition to being duplicative. Since CSA is required by statute to file all rules, regulations, instructions, guidelines and application forms in the FEDERAL REGISTER 30 days prior to their effective date, we have decided to use this system exclusively.

Concerns—some grantees appear to be focusing only on CSA issued policies and funds. For example, one grantee noted that there will be "• • • less public knowledge than the current system of sending a draft copy to all grantees." These few grantees seem unaware of the impact that they could and should have on other agencies' proposed rules and possibilities for mobilizing other Federal funds. This was well stated by the Woodbury County Community Action Agency which already subscribes to the FEDERAL REGISTER; "• • • we find this subscription to be most useful and very valuable to our CAA by assisting us in keeping abreast of CSA proposed rulemaking and CSA final rulemaking, as well as similar actions taken by other Federal agencies in which we have an interest, or with whom we have a relationship. We also keep abreast of programmatic announcements and grants availability which allows us to be more timely and more responsive in the development of programmatic proposals of service to the residents of our service area." Examples include: (1) in the July 12, 1978, issue of the FEDERAL REGISTER, the Food and Nutrition Service published a proposed rule and notice of intent regarding its, "Work Force Demonstration Project." Under this project, food stamp work registrants will be required to perform work in a public service capacity in exchange for the coupon allotment to which their household is otherwise normally entitled. This is the type of proposed rulemaking which should be of interest to CSA grantees and on which they should make their views known to FNS. (2) HEW's Health Resources Administration published notice on October 4, 1977, that it was providing grant application information for the health career opportunity program (HCOP) through the conduct of 12 program orientation conferences. HCOP supports projects designed to assist students from disadvantaged backgrounds in entering and completing health professions training. (3) On October 7, 1977, the U.S. Civil Service Commission published notice that it was accepting proposals from eligible applicants for National IPA program grants to be made for fiscal year 1978 (commencing October 1, 1977) pursuant to section 506(a) of the Intergovernmental Personnel Act (IPA). Under the IPA, the Commission can award grants for up to 50 percent of the costs of approved projects. (4) On October 4, 1977, HEW's Health Services Administration published notice that competitive applicants were being accepted for project grants to public and private nonprofit entities for support of the development and expansion of health services.

We did receive an interesting comment from Ventura County Commission on Human Concerns and Community Development in that the Commissioner feels that CSA's requirement doesn't go far enough. They noted that "• • • the FEDERAL REGISTER system would not be complete without having the other components and that we should require grantees to subscribe to the other components which are: The Code of Federal Regulations, The Weekly Compilation of Presidential Documents, The Governmental Organization Manual, and Public Papers of the President of the United States. Having only the FEDERAL REGISTER causes an unnecessary handicap in that the critical companion, the CFR, is missing • • •." We do not intend to require purchase of the Code since our final rules (CSA instructions) will continue to be distributed to all grantees as noted above. However, any grantee wishing to purchase the CFR may do so and it will be an allowable charge against grant funds.

During the past 2 years, over 14,000 people have attended free workshops on "The FEDERAL REGISTER, What It Is and How to Use It." Conducted by the Office of the Federal Register, these sessions are aimed at providing the public with easier access to information about Federal agency actions which directly affect them. Beginning in September briefings will begin again. Interested grantees can contact the FEDERAL REGISTER at 202-523-5235 for further information or check daily the Highlight section of the FEDERAL REGISTER.

Again, we remind grantees that we are not proposing any policy changes—only how CSA proposed rules will be distributed to grantees.

In summary, we feel that having access to daily publications of the FEDERAL REGISTER will be advantageous to grantees in that it will provide efficient and timely notification of CSA's rulemaking, policy statements and notification of available grant funds in addition to those of other Federal agencies.

GRACIELA (GRACE) OLIVAREZ,
Director.

45 CFR 1067, is amended by adding a new subpart to read as follows:

Subpart—FEDERAL REGISTER; Access to Daily Publications

Sec.
1067.6-1 Applicability.
1067.6-2 Policy.
1067.6-3 Procedures.
1067.6-4 Allowable cost.

AUTHORITY: Sec. 602, 78 Stat. 530, 42 U.S.C. 2942.

§ 1067.6-1 Applicability.

This subpart applies to all grants funded under titles I, II, III-B, VII, and IX of the Economic Opportunity Act of 1964, as amended, when the assistance is administered by the Community Services Administration.

§ 1067.6-2 Policy.

Since CSA publishes all proposed rules in the FEDERAL REGISTER exclusively (Monday and Thursday of each week) the Agency is requiring that grantees have access to daily publications of this document for the duration of their grants which are funded by CSA. Therefore, if grantees do not have access to the FEDERAL REGISTER either through a direct subscription or a circulating copy, they must take immediate steps to purchase a subscription.

§ 1067.6-3 Procedures.

The FEDERAL REGISTER is furnished by mail to subscribers free of postage, for $5 per month or $50 per year, payable in advance. Remit check or money order made payable to: Super-

V 43 / 189 SE 28 78 UMI

intendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

§ 1067.6-4 Allowable cost.

This is an allowable cost charged to grant funds. It should be included under "Other Costs" on the budget form.

PART 393—PARTS AND ACCESSORIES NECESSARY FOR SAFETY OPERATION

Lower Location of Rear Side Marker Lamps; Large Semitrailers and Full Trailers; Amendment

AGENCY: Federal Highway Administration, DOT.

ACTION: Amendment to final rule.

SUMMARY: In FR Doc. 78-24386 appearing at page 38830 in the issue for Thursday, August 31, 1978, the effective date should be amended to read "March 1, 1979" in order to be the same as the effective date of the corresponding National Highway Traffic Safety Administration rule published on the same date at 43 FR 38832. Also, in § 393.14(c)(1) appearing at 43 FR 38831 the date "October 1, 1978" is hereby amended to read "March 1, 1979."

EFFECTIVE DATE: September 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. D. W. Morrison, Chief, Vehicle Requirements Branch, Bureau of Motor Carrier Safety, 202-426-1700; or Mrs. Kathleen S. Markman, Office of the Chief Counsel, 202-426-0346, Federal Highway Administration, Department of Transportation, Washington, D.C. 20590.

Office hours are from 7:45 a.m. to 4:15 p.m. e.t., Monday through Friday.

(49 U.S.C. 304, 49 U.S.C. 1655, 49 CFR 1.48 and 301.60.)

Issued on: September 21, 1978.

ROBERT A. KAYE,
Director,
Bureau of Motor Carrier Safety.

[4910-58]

CHAPTER VIII—NATIONAL TRANSPORTATION SAFETY BOARD

PART 801—PUBLIC AVAILABILITY OF INFORMATION

Fee Schedule

AGENCY: National Transportation Safety Board.

ACTION: Final rule.

SUMMARY: This revision sets forth price and other changes for obtaining copies of factual investigative records and other documents available from the National Transportation Safety Board (Board) under the Feedom of Information Act. Certain changes in the fee schedule are now required to reflect the terms of a new contract with the commercial reproducer and to eliminate a fee for the first hour of search time.

EFFECTIVE DATE: October 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Fritz L. Puls, General Counsel, National Transportation Safety Board, Washington, D.C. 20594, 202-472-6033.

SUPPLEMENTARY INFORMATION: Pursuant to section (a)(4)(A) of the Freedom of Information Act (Pub. L. 93-502, November 21, 1974, amending 5 U.S.C. 552), fee schedules for document search and duplication must be published in the FEDERAL REGISTER. In 1975, after notice, the Board issued its regulations implementing this section. In an amended appendix to 49 CFR part 801, which was published at 42 FR 51584, September 29, 1977, a price list for documents published by or available from the Board was established, based on the provisions of the then current contract between the Board and the commercial reproducer. That contract terminates on September 30, 1978, and the Board has entered into a new contract.

In addition to the price changes for reproduction, the Board has determined that it is in the public interest to eliminate the minimum search fee and to provide that there will be no charge for the first hour. There will now be a fee of $5 per hour only for search time exceeding the initial hour. Based on past experience, the overwhelming majority of requests will now be processed without assessment of a search charge.

The remaining changes are minor and either update or clarify the fee schedule.

Pursuant to 5 U.S.C. 553, the Board believes that notice of proposed rulemaking is unnecessary since the changes in reproduction fees were subject to and are the result of a formally advertised procurement, and the reduction in the imposition of search fees is a substantive rule which relieves a restriction.

Accordingly, 49 CFR Part 801 is herby amended by revising the Appendix—Fee Schedule as set forth below.

APPENDIX—FEE SCHEDULE

1. Special services fees (pursuant to 31 U.S.C. 483a). Upon request, services relating to public documents are available at the following fees:

(a) Subscriptions (calendar year):

(1) Initial decisions of the administrative law judges—$40 for one subscription, $30 for each additional subscription.

(2) Board safety enforcement opinions and orders—$20 for one subscription, $15 for each additional subscription.

(3) Board aircraft accident (probable cause) reports, brief format—$40 (U.S.) and $80 (foreign).

(4) Aircraft accident reports, narrative—$40 (U.S.) and $80 (foreign).

(5) Board safety recommendations—$60

NOTE.—Send subscription orders for (a)(1), (a)(2), and (a)(5) above to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594. Subscription orders for (a) (3) and (4), above, should be forwarded to the National Technical Information Service, 5285 Port Royal Road, Springfield, Va. 22161.

(b) Document certification under the Board's seal—$4.

(c) Computer tapes and services for aviation accidents. Duplication of computer tapes (or a fraction thereof)—$40.

NOTE.—Computer tape requests should be addressed to the Chief, Information Systems Division, Bureau of Technology, National Transportation Safety Board, Washington, D.C. 20594.

(d) The basic fees set forth provide for ordinary first-class postage prepaid. If registered, certified, air, or special delivery mail is used, postal fees therefor will be added to the basic fee. Also, if special handling or packaging is required, such costs will be added to the basic fee.

(e) Subscription fees for (a) above, reproduction fees, and search fees are waived for qualifying foreign countries, international organizations, nonprofit public safety entities, State and Federal tranportation agencies, and colleges and univeristies, after approval by the Director, Bureau of Administration. In addition, such fees may be waived or reduced for other recipients not in any of the foregoing categories, when determined by the Director, Bureau of Administration, to be appropriate in the interest of and contributing to the Board's program.

2. Reproduction fees. All documents in the Board's public files may be examined, without charge, in the Board's public reference room, located in the Public Inquires Section. A self-service duplicator in the reference room is available to the public for reproduction at a nominal cost.

Accident dockets. Reproduction of accident dockets (statements, photographs, hearing transcripts, and other material contained in the Board's accident investigation files) is accomplished by commercial contract. Requests must be forwarded to the Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594. The contractor may bill and/or collect full payment before duplicating the requested documents. Fees are subject to change depending upon the Board's annual contract award.

Current fees are:

(a) Photocopy:

Size (in inches):	
8½ by 11	$0.17
8½ by 14	.17
10 by 14	.02

(b) Photographic prints:

Size (in inches):	
8 by 10 black/white	$5.00
3½ by 5 color	2.50
5 by 7 color	3.00
8 by 10 color	4.00
2 by 2 color slide	2.00

(c) Hearing transcripts, $0.25.

(d) Regular service—Usually, two weeks' time is required to service a request for reproduction. General aviation accident files dated prior to January 1, 1964, and air carrier accident files dated prior to January 1, 1964, are no longer available. Accident files for all transportation modes, dating from January 1, 1965, through December 31, 1974, are stored at the Federal Records Center; in filling any request for reproduction of these files, approximately 2 additional weeks will be needed for retrieval.

(e) Expedited service—A 2-percent surcharge will be made for accelerated service which will be provided within 2 working days commencing when the contractor has received advance payment or when telephone arrangements have been made with the contractor. Accelerated delivery service will be handled as follows:

Step 1. Customer places telephone or written request to the Board's Public Inquiries Section for desired accident file.

Step 2. The Board forwards order form and file to contractor.

Step 3. Contractor sends advance billing invoice, which shows total cost, to customer.

Step 4. Customer calls contractor direct and verifies that he is wiring payment to contractor, as specified by contractor, or customer returns a copy of the contractor's invoice with full payment enclosed.

Step 5. Contractor copies documents and mails them to the customer.

3. Document search fee—The Board has determined that it is in the public interest to eliminate fees for the first hour of search time. For all time expended beyond the initial hour in locating documents, the fee is $5 per hour.

4. Responses to safety recommendations. Single copies of responses to safety recommendations are available without charge.

5. Documents available without commercial reproduction cost until limited supplies are exhausted.

(1) Press releases.

(2) Aircraft accident reports, narrative, and brief format probable cause reports (on request for specific accidents).

(3) Surface accident reports.

(4) Special studies.

(5) Safety Board regulations (chapter VIII of title 49, Code of Federal Regulations).

(6) Indexes to initial decisions, Board orders, opinions and orders, and staff manuals and instructions.

(7) Statistical data published by the Board.

(8) Safety recommendations.

6. Documents for sale by the Government Printing Office:

(1) Board's annual report.

(2) Volume I, National Transportation Safety Board Decisions (1967-1972).

Signed at Washington, D.C., this 25th day of September 1978.

ELWOOD T. DRIVER,
Acting Chairman.

[4910-58]

PART 840—RULES PERTAINING TO NOTIFICATION OF RAILROAD ACCIDENTS

Amendment to Reporting Requirements

AGENCY: National Transportation Safety Board.

ACTION: Final rule.

SUMMARY: This amendment, which is based on the Board's experience, lowers the minimum damage figure for a reportable accident from $500,000 to $150,000, and specifies that the figure is to be based on "a preliminary gross estimate" of damage to railroad and nonrailroad property. These changes would broaden the scope of railroad accident reporting and require early notification of accidents.

EFFECTIVE DATE: October 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Elmer Garner, Chief, Railroad Accident Division, Room 820G, National Transportation Safety Board, 800 Independence Avenue SW., Washington, D.C. 20594, telephone 202-472-6091.

SUPPLEMENTARY INFORMATION: On July 27, 1978, the Board published a proposed rule (43 FR 32441) concerning the amendment, and invited interested persons to submit written comments by August 28, 1978. Three comments were received.

The first comment suggested that the Board adopt the accident reporting requirements of the Federal Railroad Administration (FRA), and indicated that preliminary damage estimates are difficult to make, even at the $500,000 threshold level. The FRA's telephonic reporting requirements are limited to accidents which result in: (1) The death of a rail passenger or employee; or (2) death or injury of five or more persons (49 CFR 225.9). These requirements alone would not satisfy the Board's mandate to investigate any "railroad accident in which there is a fatality, substantial property damage, or which involves a passenger train" (49 U.S.C. 1903(a)(1)(C)). Moreover, the monthly reporting of accidents to FRA would be too late to serve any useful purpose in connection with the Board's investigation of accidents. In recognition of the difficulty of obtaining preliminary damage estimates, this amendment requires only a gross, or unrefined, estimate to be made. The Board can accept the first such estimate of any responsible official at the scene, such as a trainmaster or division superintendent, and has done so traditionally. The sole purpose of the Board's regulation is to assure that it is notified of all serious train accidents without undue delay.

The second comment objected to any additional burden of paperwork and cost, indicating that the lower threshold would require eight times as many reports to be made. It should be emphasized that the Board does not require a written report but rather a telephonic report (toll free) on area code 800-424-0201. (See 49 CFR 840.3(c).) Even using this eight-fold multiplier, the highest number of reports filed under the new criteria by any of the 20 railroads surveyed would be 128 per year, or an average of 11 per month. The Board does not believe that this number of telephone reports would represent a material escalation of accident costs to the railroad. To clarify a misunderstanding expressed in this comment, the Board does not need or expect detailed estimates from the mechanical, engineering, or freight claims departments of the railroads in its initial notification of the accident. The amendment will require only a "gross" approximation of the damage in the telephonic report from the first railroad official at the scene. There should be no necessity for additional personnel either to make or receive these initial notifications. Moreover, in the Board's view, the additional data provided from a greater number of accident investigations will tend ultimately to reduce the number of train accidents and, in turn, reduce the operating costs of the railroad carriers.

The third comment received raises several of the same questions addressed above concerning the Board's use of accident reports filed with the FRA, the increased number of reportable accidents at the reduced $150,000 threshold, and the additional workload of obtaining "reasonably informed estimates" from a variety of sources, such as the mechanical, freight claims and transportation de-

V 43 / 189 SEP 28 78 LIBRARY

partments of the carrier, before submitting an accident report. In this instance, the carrier's statistics indicate that the current annual average of 8 reports would increase to 42 accident reports at the $150,000 level. A compromise figure of $300,000 is suggested as the damage threshold, which would average out to 20 reports per year for this carrier. The Board recognizes the necessity of making the rules for accident reporting as convenient as possible for the carrier in the immediate post-accident period. The amendment is designed to relieve the carrier's burden of making precise or detailed damage estimates before notification to the Board. The FRA's criteria for telephone reports will not suffice for the Board's investigative purposes. Although the monthly reports for FRA are useful for certain statistical analyses related to railroad safety, the Board's data base depends on its own investigation of accidents. Early notification of all serious accidents is essential to provide the data base from which truly effective accident prevention recommendations and programs can be developed. The Board believes at this time that a minimum damage figure of $150,000 will embrace the requisite number of accidents to be considered for investigation. If the cost of railroad equipment and other factors should increase to the extent that the numbers of accidents reported exceeds the handling capability of its staff, the Board will then raise the damage threshold figure to the appropriate level.

Accordingly, part 840 of title 49, chapter VIII of the Code of Federal Regulations, is amended as follows:

1. In § 840.3, paragraph (a)(2) is amended to read:

§ 840.3 Notification of railroad accidents.

(a) A railroad shall notify the Board in the manner prescribed by paragraph (c) at the earliest practical moment after the occurrence of an accident which results in—

* * * * * *

(2) Damages, based on a preliminary gross estimate, of $150,000 or more to railroad and nonrailroad property; or

* * * * * *

(Pub. L. 93-633, 88 Stat. 2169 (49 U.S.C. 1903).)

Dated: September 25, 1978.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. No. 1340]

PART 1033—CAR SERVICE

Regulations for the Use of Locomotives

DECIDED SEPTEMBER 21, 1978.

AGENCY: Interstate Commerce Commission.

ACTION: Emergency Order (Service Order No. 1340).

SUMMARY: An acute shortage of locomotives for transporting shipments of coal exists on the Louisville & Nashville Railroad Co. (LN). The Atlanta & West Point Rail Road Co., Clinchfield Railroad Co., Georgia Railroad, Seaboard Coast Line Railroad Co. and Western Railway of Alabama shall collectively deliver to the LN a total of 100 serviceable locomotive units suitable for road freight movements.

DATES: Effective on date of service. Expires 11:59 p.m., January 15, 1979.

FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, Telephone 202-275-7840, Telex 89-2742.

SUPPLEMENTARY INFORMATION: The Order is printed in full below.

An acute shortage of locomotives for transporting shipments of coal exists on the Louisville & Nashville Railroad Co. (LN). This company is a part of a system of railroads controlled by the Seaboard Coast Line Railroad Co. (SCL), which includes the lines of the Atlanta & West Point Rail Road Co., Clinchfield Railroad Co., Georgia Railroad, LN, SCL, and Western Railway of Alabama. The LN has leased locomotives from unaffiliated railroads, but has been unsuccessful in obtaining sufficient locomotives to move cars promptly over its lines. The effects of these shortages are highly concentrated in the movement of coal from mines served by the LN and have contributed to the critical car shortages at coal mines served by the LN. These car shortages have resulted in great economic loss and reduced employment in those coal mines, and have been particularly burdensome to single-car coal shippers.

It is the opinion of the Commission that present regulations and practices with respect to the use, supply, control, movement, distribution, exchange, interchange, and return of locomotives are ineffective, and that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impractical and contrary to the public interest, and that good cause exists for making this order effective on less than thirty (30) days' notice.

It is ordered,

§ 1033.1340 Service Order No. 1340.

(a) Atlanta & West Point Rail Road Co., Clinchfield Railroad Co., Georgia Railroad, Seaboard Coast Line Railroad Co., and Western Railway of Alabama to deliver locomotives to Louisville & Nashville Railroad Co. The Atlanta & West Point Rail Road Co. (AWP), Clinchfield Railroad Co. (CRR), Georgia Railroad (Ga), Seaboard Coast Line Railroad Co. (SCL), and Western Railway of Alabama (WA) shall collectively deliver to the Louisville & Nashville Railroad Co. (LN) a total of one hundred (100) serviceable locomotive units suitable for road freight movements. This delivery shall be accomplished in accordance with the following schedule:

Total locomotive units*	To be furnished LN on or before
50	October 15, 1978.
75	November 15, 1978.
100	December 15, 1978.

*Includes locomotives leased to LN by SCL prior to, and still in service, on LN on effective date of this order The full 100 locomotives must be in service on the LN on December 15, 1978.

Locomotives delivered under this order shall be under the control of the LN and shall be used in the normal course of transporting traffic thereon.

The Family Lines may deduct one locomotive unit from each of the one hundred (100) locomotive units required by this order to be furnished to LN for each locomotive unit the LN secures from a non-Family Line railroad in addition to the ninety-four (94) such non-Family Line locomotives it was using on August 18, 1978.

AWP, CRR, Ga, SCL, and WA locomotives in use on and under the control of the LN on the effective date of this order may be deducted from the one hundred (100) locomotives SCL is required to deliver under this order, and contractual agreements for the use of locomotives delivered prior to the effective date of this order shall not be affected by this order. AWP, CRR, Ga, SCL, and WA locomotives on the LN in "run-through" services in which these railroads and the LN have each agreed to permit the other's locomotives to run through an interchange connection to a destination terminal subject to an equalization agreement may not be considered as locomotives furnished to the LN under this order.

(b) The LN shall not return to railroads other than the AWP, CRR, Ga, SCL, and WA locomotives which it has leased unless such locomotives are recalled by the owner or unless such locomotives become unserviceable.

(c) Locomotives furnished to the LN by any railroad subject to this order which become unserviceable and which cannot be restored to service by the LN within seven (7) days shall be replaced by the owner with a serviceable locomotive unit.

(d) *Substitution of new LN locomotives.* Effective with the date placed in service, the LN may return to the AWP, CRR, Ga, SCL, or WA one leased locomotive unit for each newly acquired locomotive unit placed in service by the LN.

(e) *SCL responsible.* Inasmuch as the AWP, CRR, Ga, LN, SCL, and WA comprise a single system of railroads controlled by the SCL, after the quota of locomotives to be furnished by the AWP, CRR, Ga, and WA has been determined, the SCL itself shall furnish sufficient locomotives to enable the entire group of carriers to deliver the required one hundred (100) locomotives to the LN.

(f) *Compensation to be paid.* The rates of compensation to be paid by the LN for the use of locomotives furnished by the AWP, CRR, Ga, SCL, and WA shall be those voluntarily agreed upon among the carriers, or, in the event they are unable to agree, those determined by the Commission at the request of any of the carriers named in this order.

(g) *Locomotive defined.* The term locomotive units, as used in this order, means diesel-electric locomotive power units, of 1,500 horsepower or more, each capable of being used in road freight train service.

(h) *Reports required.* 1. The LN shall report, by ownership, on the 1st and 15th day of each month the number of AWP, CRR, Ga, SCL, and WA locomotives in service on its lines which have been furnished to it under the requirements of section (a) of this order and the number of LN locomotives in service on the LN. It shall also report, by ownership, on those same dates the number of any locomotives in service on its lines which have been leased from lines not members of the Family Lines System.

2. The LN, AWP, CRR, Ga, SCL, and WA shall each report to the Commission no later than Wednesday of each week the number of trains and cars held awaiting the availability of locomotives during the previous week. Such weekly reports shall include the following data:

Date	Location	Train identification	Train consist: Loads	Empties	Tons	No. hours held

3. The LN shall report in writing no later than Wednesday of each week the following data for the immediately preceding calendar week:

(i) The name of each operating mine making single-car shipments.
(ii) The rating given each such mine.
(iii) The number of cars ordered by each such mine for each day of the period.
(iv) The number of cars furnished to each such mine for each day of the period.
(v) The total number of cars ordered for the period.
(vi) The total number of cars furnished for the period.
(vii) The percent of cars furnished to cars ordered for the period.
(viii) The percent of cars furnished to the cumulative mine rating for the period.

(i) *Effective date.* This order shall become effective on date of service.

(j) *Expiration date.* This order shall expire at 11:59 p.m., January 15, 1979, unless otherwise modified, changed, or suspended by order of the Commission.

(49 U.S.C. 1(10-17).)

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission. Commissioners O'Neal, Christian, Brown, Stafford, Gresham, and Clapp.

H. G. HOMME, Jr.,
Acting Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

SUBCHAPTER B—TAKING, POSSESSION, TRANSPORTATION, SALE, PURCHASE, BARTER, EXPORTATION, AND IMPORTATION OF WILDLIFE

PART 20—MIGRATORY BIRD HUNTING

Late Seasons, and Bag and Possession Limits for Certain Migratory Game Birds in the United States

Correction

In FR Doc. 78-26459 appearing at page 42960 in the issue for Thursday, September 21, 1978, make the following changes:

1. In the table on page 42968, for Williamson County, Ill., the "Season dates" for snow-white fronted geese should be "Oct. 19 to Dec. 27" only; delete the second entry which reads "Nov. 13 to Jan. 20".

2. In the table on page 42971, for the Wisconsin Canada geese in the east central zone, the bag limit for Canada geese is "2" instead of "1".

3. In the same table on page 42971, the bag limit for Canada geese for the remainder of the State is "2" instead of "1".

[4310-55]

PART 32—HUNTING

Opening of Mark Twain National Wildlife Refuge, Ill., to Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to big game hunting of Gardner Division of Mark Twain National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: November 17, 18, 19, 1978.

FOR FURTHER INFORMATION CONTACT:

Howard A. Lipke, Refuge Manager, Mark Twain National Wildlife Refuge, 311 North Fifth Street, Suite 100, Quincy, Ill. 62301, telephone 217-224-8580.

SUPPLEMENTARY INFORMATION:

V 43/189 SE 28 78

§ 32.32 Special regulations; big game hunting; for individual wildlife refuge areas.

Public hunting of white-tailed deer with shotgun is permitted on the Gardner Division of Mark Twain National Wildlife Refuge, Ill., only on the areas designated by signs as being open to hunting. These areas comprising 4,831 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Hunting shall be in accordance with all applicable State regulations subject to the following conditions:

(1) A valid State-issued shotgun deer permit with Mark Twain National Wildlife Refuge designation will serve as authorization to enter the public hunting area. Permits have been issued following a May 1978 drawing.

(2) Successful hunters will be required to check their deer through the Adams County Check Station near the Division.

(3) Hunting will be from 6:30 a.m. to 3 p.m., c.s.t.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas general which are set forth in Title 50, Code of Federal Regulations, Part 32.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11949 and OMB Circular A-107.

Dated: September 20, 1978.

T. SCOTT BATES,
Acting Refuge Manager,
Mark Twain National Wildlife Refuge.

PART 32—HUNTING

Opening of Certain National Wildlife Refuges in Arizona, California, New Mexico, Oklahoma, and Texas

AGENCY: U.S. Fish and Wildlife Service, Department of the Interior.

ACTION: Special regulations.

SUMMARY: The Director has determined that the opening to hunting of certain national wildlife refuges in the States of Arizona, California, New Mexico, Oklahoma, and Texas is compatible with the objectives for which these areas were established, will utilize a renewable national resource, and will provide additional recreational opportunity to the public. This document establishes special regulations effective for the upcoming hunting seasons for certain species of upland game birds, and animals and predatory animals.

EFFECTIVE DATES: October 1, 1978 through February 28, 1979.

FOR FURTHER INFORMATION CONTACT:

The refuge manager at the address or telephone number listed below in the body of these special regulations.

GENERAL CONDITIONS

Hunting on portions of the following refuges shall be in accordance with applicable State and Federal regulations. Those portions of these refuges which are open to upland game and/or predator hunting are designated by signs and/or delineated on maps. Special conditions applying to individual refuges are listed on hunting leaflets available at the individual refuge headquarters. Vehicular travel is restricted to designated roads and trails.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

Listed upland game and predator species may be hunted on the following refuges:

ARIZONA

Kofa National Wildlife Refuge, P.O. Box 1032, Yuma, Ariz. 85464, telephone 602-261-2619. Quail, cottontails, coyotes, gray fox, and bobcat.

Special conditions: (1) The open season for hunting quail and cottontails on the refuge extends from October 1, 1978 through February 28, 1979, inclusive. Hunting of quail and cottontails is permitted with shotguns only. (2) The open season for hunting coyotes, gray fox, and bobcats on the refuge extends from October 1, 1978 through February 28, 1979, inclusive; however, the refuge is closed to the taking of predators during any deer season on the refuge, except that a legal deer hunter may take the above-listed predators in his/her permit unit until a deer has been taken.

NOTE.—Kit (swift) fox may not be taken on the Kofa Refuge.

(3) Possession or transportation of any loaded firearm or strung bow within or on any motorized vehicle or its attachments is prohibited. A loaded firearm shall mean any firearm containing any cartridge or ammunition in its chamber, magazine, or clip. (4) Possession or transportation of any uncased firearm within or on any motorized vehicle or its attachments is prohibited. An uncased firearm shall mean any firearm not encased in a holster, scabbard, or gun case (soft or hard).

ARIZONA AND CALIFORNIA

Cibola National Wildlife Refuge, P.O. Box AP, Blythe, Calif. 92225, telephone 714-922-4433, and

Imperial National Wildlife Refuge, Box 2217, Martinez Lake, Ariz. 85364, telephone 602-783-3400. Quail and cottontails.

Special conditions: (1) Cottontails may be taken only during quail season. (2) Weapons: Shotguns only, no larger than 10 gage and incapable of holding more than three (3) shells total, including in the chamber and magazine. (3) Possession of shotgun shells loaded with shot of greater than size "BB" or a single slug or ball is prohibited. (4) Up to two (2) dogs per hunter may be used for the purpose of hunting and retrieving. (5) Hunting is prohibited within one-fourth (¼) mile of any occupied dwelling, 250 yards of any farmworker, or within 50 yards of any road or levee. (6) Neither hunters nor dogs are permitted to enter areas closed to hunting to retrieve game. (7) Possession of all handguns and all rimfire firearms on these refuges is prohibited. Rifled firearms that are legal for taking deer may be possessed on the refuges but only during legal big game hunting seasons for legal hunting on the individual refuges.

Havasu National Wildlife Refuge, P.O. Box A, Needles, Calif. 92363, telephone 714-326-3853. Quail, cottontails, and jackrabbits.

Special conditions: (1) In the Arizona part of the refuge hunting area, cottontails and jackrabbits may be hunted only during the quail season. (2) In the California part of the refuge hunting area, hunting for cottontails and jackrabbits will start with the start of dove season and continue through to the end of quail season. (3) Weapons: Shotguns only, no larger than 10 gage and incapable of holding more than three (3) shells total, including in the chamber and magazine. (4) Up to two (2) dogs per hunter may be used for the purpose of hunting and retrieving. (5) Neither hunters nor dogs are permitted to enter areas closed to hunting to retrieve game. (6) Hunting is prohibited within one-fourth (¼) mile of any occupied dwelling or concession operation or within 250 yards of any farmworker. (7) Hunters must enter the Topock Marsh hunting areas by way of designated parking lots only. (8) The portion of Topock Marsh known as the Pintail Slough Management Unit will be open to hunting only on Fridays, Saturdays, and Sundays. This unit comprises all refuge lands north of the north dike.

NEW MEXICO

Bitter Lake National Wildlife Refuge, P.O. Box 7, Roswell, N. Mex. 88201, telephone 505-622-6755. Quail, ring-necked and white-winged pheasants and cottontails.

Special conditions: (1) Steel (iron) shot shotgun ammunition only may be used for the taking of pheasants, quail, and rabbits on the south refuge unit (area C) during any waterfowl season. Possession of shotgun ammunition other than that loaded with steel (iron) shot is prohibited in this unit during waterfowl seasons.

Bosque del Apache National Wildlife Refuge, P.O. Box 1246, Socorro, N. Mex. 87801, telephone 505-835-1828. Quail and cottontails.

Special conditions: (1) Cottontails may be taken on the refuge only during quail season. (2) Access is from State Highway 1 and through the refuge main entrance at refuge headquarters. (3) Rimfire shoulder firearms may be used for hunting cottontails in designated wilderness areas only; otherwise, shotguns and falcons are the only legal means of taking upland game. (4) Up to two (2) dogs per hunter may be used for the purpose of hunting and retrieving.

OKLAHOMA

Sequoyah National Wildlife Refuge, Box 398, Sallisaw, Okla. 74955, telephone 918-775-4931. Quail, cottontails, and fox and gray squirrels.

Special conditions: (1) Quail and cottontail seasons will close on the refuge at sunset on January 19, 1979. (2) Only shotguns with ammunition loaded with shot and archery tackle, other than a crossbow, may be used to take upland game. All other firearms, ammunition, and weapons are prohibited. (3) With the exception of the Kerr-McClellan Navigational Channel, where weapons must be cased or broken down, hunting weapons of any kind are prohibited in areas not posted as open to public hunting. (4) Up to two (2) dogs per hunter may be used for hunting and retrieving quail or cottontails, but dogs must be under immediate control or supervision and restrained from pursuit of protected species. (5) Possession of firearms on the refuge at night is prohibited. (6) All vehicles must be parked in designated parking areas, as shown on maps available at refuge headquarters and at leaflet boxes throughout the public hunting area.

Tishomingo National Wildlife Refuge, P.O. Box 248, Tishomingo, Okla. 73460, telephone 405-371-2402. Quail.

Special conditions: (1) Shooting hours for quail on the management unit (zones 1 and 2) will be on Tuesdays, Thursdays, Saturdays, and Sundays, from sunrise to 11:45 a.m. local time during the period November 20, 1978, through January 8, 1979. After January 9, 1978, quail hunting will be permitted daily, Sunday through Saturday, from sunrise to sunset. (2) Access is by walk-in only. (3) Up to two (2) dogs per hunter may be used for the purpose of hunting and retrieving. (4) Hunters, upon entering or leaving the management unit, may be required to report at designated checking stations for the regulation of hunting activities and/or to furnish information pertaining to their hunt.

Washita National Wildlife Refuge, Box 100, Butler, Okla. 73625, telephone 405-473-2205. Quail and cottontails.

Special conditions: (1) Cottontail hunting is permitted only during the quail season. (2) Hunting is permitted only on Mondays, Tuesdays, Thursdays, Saturdays, and national holidays. (3) Only shotguns, using ammunition loaded with shot no larger than size "BB," are legal firearms for taking quail. Shotguns and/or archery tackle, other than a crossbow, are legal weapons for taking cottontails. Weapons and/or ammunition not covered above are prohibited on the refuge.

TEXAS

Laguna Atascosa National Wildlife Refuge, P.O. Box 2683, Harlingen, Tex. 78550, telphone 512-423-8328.

Special condition: Due to low population numbers, all upland game seasons for 1978-79 will be closed on this refuge.

NOTE.—The Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11949 and OMB Circular A-107.

PART 32—HUNTING

Opening of Pinckney Island National Wildlife Refuge, S.C., to Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulations.

SUMMARY: The Director has determined that the opening of hunting on Pinckney Island National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide an additional recreational opportunity to the public.

DATE: November 14, 1978.

FOR FURTHER INFORMATION CONTACT:

John P. Davis, Refuge Manager, Savannah National Wildlife Refuge Complex, P.O. Box 8447, Savannah, Ga. 31402, 912-232-4321, ext. 415.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Hunting is permitted on the Pinckney Island National Wildlife Refuge, S.C., only on the areas designated as being open to hunting. These areas comprising 2,860 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, P.O. Box 95067, Atlanta, Ga. 30347. Hunting shall be in accordance with all applicable State regulations subject to the following conditions:

1. Hunting will be permitted only on November 14, 1978, on areas delineated on refuge map.

2. Participants must check in at headquarters no earlier than 5:30 a.m. and park in designated area prior to hunting. Entry by boat is prohibited.

3. White-tailed deer is the only species to be taken. Only one (1) deer (either sex) may be taken per hunter.

4. Hunting hours are according to State regulations. Hunters must be on their stands during morning and evening periods to be announced prior to the hunt. No movement during these hours will be tolerated.

5. Hunters under age 18 must be under close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile, but in no case may one adult have more than two juveniles under his/her supervision.

6. Blazing, driving spikes, painting, applying tape, or damaging or destroying trees and shrubbery in any manner is prohibited. Deerstands which will damage trees are not permitted.

7. All forms of litter should be placed in trash receptacles for proper disposal.

8. Transportation is not provided on the refuge. Any movement within the refuge must be by foot.

9. A nontransferable Federal permit is required. Only hunt participants with proper South Carolina license and a refuge permit will be permitted

V 43/189 SE 28 78

on the refuge to hunt. Applications for permits may be obtained from the refuge manager or by mail. Requests for applications made by mail must be accompanied by a stamped, self-addressed envelope.

10. Only primitive weapons (longbows, compound bows, muzzle-loading rifles of .44 caliber or larger with iron sights) will be authorized during the hunt. Weapons must be unloaded and cased except during the daily hunting period.

11. Hunters must wear garments containing at least 500 square inches of daylight fluorescent orange material above the waistline.

12. Hunting will not be permitted closer than 100 yards of U.S. Highway No. 278, the refuge headquarters area, or the residence area.

13. Persons convicted of any wildlife violation or refuge regulation will have their permit suspended and may not be issued a permit for any refuge hunts for the following year.

14. The refuge will be open November 4 and 5, 1978, from 8 a.m. until 5 p.m. for the purpose of scouting. Only hunt participants with their hunt permit will be permitted on the refuge.

The provisions of this special regulation supplement those set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11494 and OMB Circular A-107.

DONALD J. HANKLA,
Area Manager,
Jacksonville, Fla.

PART 32—HUNTING

Opening of Mark Twain National Wildlife Refuge, Ill., to Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to upland game hunting of Keithsburg Division of Mark Twain National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: As set by Federal and State of Illinois laws for 1978 season.

FOR FURTHER INFORMATION CONTACT:

Howard A. Lipke, Refuge Manager, Mark Twain National Wildlife Refuge, 311 North 5th Street, Suite 100, Quincy, Ill. 62301. Telephone 217-224-8580.

SUPPLEMENTARY INFORMATION:

§ 32.22 Special regulations; upland game hunting; for individual wildlife refuge areas.

Hunting of black, grey, and fox squirrels is permitted on the Keithsburg Division of Mark Twain National Wildlife Refuge, Ill., only on the areas designated by signs as being open to hunting. These areas comprising 1,400 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Hunting shall be in accordance with all applicable State regulations subject to the following conditions:

(1) The open season for hunting squirrels on the Keithsburg Division of the Mark Twain National Wildlife Refuge extends from September 1 through October 15, 1978, inclusive.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in title 50 Code of Federal Regulations, part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11949 and OMB Circular A-107.

Dated: September 20, 1978.

T. SCOTT BATES,
Acting Refuge Manager,
Mark Twain National Wildlife Refuge.

PART 32—HUNTING

Opening of Mark Twain National Wildlife Refuge, Iowa, to Hunting.

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to upland game hunting of Big Timber Division and Turkey Island Area of Mark Twain National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: As set by Federal and State of Iowa laws for 1978 season.

FOR FURTHER INFORMATION CONTACT:

Howard A. Lipke, Refuge Manager, Mark Twain National Wildlife Refuge, 311 North 5th Street, Suite 100, Quincy, Ill. 62301. Telephone 217-224-8580.

SUPPLEMENTARY INFORMATION:

§ 32.22 Special regulations; upland game hunting; for individual wildlife refuge areas.

Upland game hunting is permitted on the Big Timber Division and Turkey Island Area of Mark Twain National Wildlife Refuge, Iowa, only on the areas designated by signs as being open to fishing. These areas comprising 1,760 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Upland game hunting shall be in accordance will all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in title 50 Code of Federal Regulations, part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11949 and OMB Circular A-107.

Dated: September 20, 1978.

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

[7 CFR Part 1464]

TOBACCO LOAN PROGRAM

Proposed 1978 Crop Grade Loan Rates—Fire-Cured, Dark Air-Cured, and Virginia Sun-Cured Tobacco

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Proposed rule.

SUMMARY: The Commodity Credit Corporation (USDA) is considering the grade loan rates to be applied to the various grades of 1978 crop fire-cured, dark air-cured, and Virginia sun-cured tobacco to provide price support as required by the Agricultural Act of 1949, as amended. You are invited to submit views and recommendations concerning the proposed rates.

DATE: Written comments must be received by November 27, 1978, in order to be sure of consideration.

ADDRESS: Send comments to Director, Price Support and Loan Division, ASCS, P.O. Box 2415, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT:

R. P. Hieronymus, 202-447-6695.

SUPPLEMENTARY INFORMATION: Section 106 of the Agricultural Act of 1949, as amended, requires that the 1978 crop of fire-cured tobacco, types 21, 22, and 23 be supported at the level of 84.6 cents per pound, and the dark air-cured tobacco, types 35 and 36, and Virginia sun-cured, type 37 at the level of 75.2 cents per pound.

It is anticipated that price support will be provided through loans to producer associations which will receive the tobacco from the producers and make price support advances to the producers for the tobacco received. The price support advances would be based on the proposed grade loan rates, which would average the required level of support when weighted by the estimated grade percentages, in accordance with section 403 of the Act. The price support advances to producers of types 22-23 and 35-36 tobacco shall be the amounts determined by multiplying the pounds of each grade received by the respective grade loan rates. The price support advances to producers of types 21 and 37 tobacco would be the amounts determined by multiplying the pounds of each grade received by the respective grade loan rate less 1 cent per pound which the producers' association is authorized to deduct and to apply against overhead costs.

PROPOSED RULE

Accordingly, it is proposed that 7 CFR Part 1464 be amended by revising §§ 1464.17-1464.20 to read as follows, effective for the 1978 crop of these kinds of tobacco.

§ 1464.17 1978 Crop—Virginia Fire-Cured Tobacco, Type 21—Grade Loan Schedule.[1]

UMI
V 43 / 189
SEP 28 78

Prior to making any determination, the Department will give consideration to comments, views and recommendations submitted in writing to the Acting Director, Price Support and Loan Division, ASCS, USDA.

All written submission will be made available for public inspection from 8:15 a.m. to 4:45 p.m. Monday through Friday in Room 3741, South Building, USDA, 14th and Independence Avenue SW., Washington, D.C. 20013.

NOTE.—OCC has determined that this document does not contain a significant proposal having major economic consequences for the general economy requiring preparation of a regulatory analysis under Executive Order 12044.

Based on an assessment of the environmental impacts of the proposed action, it has also been determined that an environmental impact statement need not be prepared since the proposals will have no significant effect on the quality of the human environment.

Signed at Washington, D.C. on September 21, 1978.

RAY FITZGERALD,
Executive Vice President,
Commodity Credit Corporation.

[3410-05]

[7 CFR Part 1464]

TOBACCO LOAN PROGRAM

Proposed 1978 Crop Grade Loan Rates—Cigar Tobacco

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Proposed rule.

SUMMARY: The Commodity Credit Corporation (USDA), is considering the grade loan rates to be applied to the various grades of the various kinds of 1978 crop cigar tobacco to provide price support as required by the Agricultural Act of 1949, as amended. You are invited to submit views and recommendations concerning the proposed rates.

DATE: Written comments must be received by November 27, 1978, in order to be sure of consideration.

ADDRESS: Send comments to Acting Director, Price Support and Loan Division, ASCS, P.O. Box 2415, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT:

R. P. Hieronymus, 202-447-6695.

SUPPLEMENTARY INFORMATION: Section 106 of the Agricultural Act of 1949, as amended, requires that the 1978 crop of cigar tobacco, types 42-44, and types 53-55 be supported at the level of 62.3 cents per pound, types 51-52 at the level of 86.3 cents per pound and type 46 at the level of 64.7 cents per pound. It is anticipated that price support will be provided through loans to producer associations which will receive the tobacco from the producers and make price support advances to the producers for the tobacco received. The price support advances would be based on the proposed grade loan rates, which would average the required level of support when weighted by the estimated grade percentages, in accordance with section 403 of the Act. The price support advances to producers would be the amounts determined by multiplying the pounds of each grade received by the respective grade loan rate less 1 cent per pound, which the producers' associations are authorized to deduct and to apply against overhead costs.

PROPOSED RULE

Accordingly, it is proposed that 7 CFR Part 1464 be amended by revising §§ 1464.22-1464.27 to read as follows, effective for the 1978 crop of these kinds of tobacco:

§ 1464.22 1978 crop—Ohio filler tobacco, types 42–44, loan schedule.[1]

[Dollars per hundred pounds, farm sales weight]

Grade	Loan rate
Crop run (stripped together):	
X1	67.0
X2	61.0
X3	56.0
X4	51.0
Nondescript: N	42.0

§ 1464.23 1978 crop—Connecticut Valley broadleaf tobacco, type 51, loan schedule.[2]

[Dollars per hundred pounds, farm sales weight]

Grade	Loan rate
Binders:	
B1	111.0
B2	101.0
B3	90.0
B4	80.0
B5	69.0
Nonbinders: X1	55.0

§ 1464.24 1978 crop—Connecticut Valley Havana seed tobacco, type 52, loan schedule.[2]

[Dollars per hundred pounds, farm sales weight]

Grade	Loan rate
Binders:	
B1	107.0
B2	99.0
B3	88.0
B4	79.0
B5	69.0
Nonbinders: X1	55.0

[1]Tobacco is eligible for loan only if consigned by the original producer. No loan is authorized for tobacco graded "S" (scrap) or designated "No-G" (no grade). The cooperative association through which price support is made available is authorized to deduct from the amount paid the grower $1 per hundred pounds to apply against overhead and receiving costs.

[2]Tobacco is eligible for loan only if consigned by the original producer. No loan is authorized for tobacco graded "N1" or "N2" (nondescript) or "S" (scrap) or designated "No-G" (no grade). The cooperative association through which price support is made available is authorized to deduct from the amount paid the grower $1 per hundred pounds to apply against overhead and receiving costs.

§ 1464.25 1978 crop—New York and Pennsylvania Havana seed tobacco, type 53, and southern Wisconsin tobacco, type 54, loan schedule.[1]

[Dollars per hundred pounds, farm sales weight]

Grade	Loan rate
Crop run:	
X1	69.0
X2	62.5
X3	56.0
Farm fillers:	
Y1	49.0
Y2	47.0
Y3	44.0
Nondescript:	
N1	42.0
N2	36.0

§ 1464.26 1978 crop—Northern Wisconsin tobacco, type 55, loan schedule.[1]

[Dollars per hundred pounds, farm sales weight]

Grade	Loan rate
Binders:	
B1	84.0
B2	79.0
B3	73.0
Strippers:	
C1	70.0
C2	63.5
C3	59.0
Crop run:	
X1	69.0
X2	63.0
X3	58.0
Farm fillers:	
Y1	47.0
Y2	45.0
Y3	41.0
Nondescript:	
N1	41.0
N2	35.0

§ 1464.27 1978 crop—Puerto Rican tobacco, type 46, loan schedule.[1]

[Dollars per hundred pounds, farm sales weight]

Grade	Loan rate
Price block I (C1F and C1P)	70.0
Price block II (X1F, X1P, and X1S)	64.0
Price block III (X2T, X2F, X2P, and X2S)	57.0
Price block IV (N)	26.0

Prior to making any determination, the Department will give consideration to comments, views, and recommendations submitted in writting to the Director, Price Support and Loan Division.

All written submission will be made available for public inspection from 8:15 a.m. to 4:45 p.m. Monday through Friday in Room 3741, South Building, USDA, 14th and Independence Avenue SW., Washington, D.C. 20013.

[1]Tobacco is eligible for loan only if consigned by the original producer. No loan is authorized for tobacco graded "S" (scrap) or designated "No-G" (no grade). The cooperative association through which price support is made available is authorized to deduct from the amount paid the grower $1 per hundred pounds to apply against overhead and receiving costs.

CCC has determined that this document does not contain a significant proposal having major economic consequences for the general economy requiring preparation of a regulatory analysis under Executive Order 12044.

Based on an assessment of the environmental impacts of the proposed action, it has also been determined that an environmental impact statement need not be prepared since the proposals will have no significant effect on the quality of the human environment.

Signed at Washington, D.C., on September 21, 1978.

RAY FITZGERALD,
Executive Vice President,
Commodity Credit Corporation.

[7590-01]

NUCLEAR REGULATORY COMMISSION

[10 CFR Parts 30, 70]

RULES OF GENERAL APPLICABILITY TO DOMESTIC LICENSING OF BYPRODUCT MATERIAL

Domestic Licensing of Special Nuclear Material

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Proposed rule.

SUMMARY: The Nuclear Regulatory Commission has under consideration proposed amendments which would establish requirements to be accomplished in the event of an irretrievable well-logging source (any sealed source containing licensed material which is pulled off or not connected to the wireline downwell, and for which all reasonable effort at recovery, as determined by the Commission, has been expended). The Commission believes that uniform and adequate safety requirements are necessary to ensure that there is no damage to the source which might result in dispersal of the radioactive material.

DATE: Comments must be recieved on or before November 27, 1978.

ADDRESS: (1) Written comments should be submitted to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert J. Doda, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, 301-443-5946.

SUPPLEMENTARY INFORMATION: current well-logging operations involve the lowering and retrieving of measuring devices or tools, which may contain sealed radioactive sources, on a wireline into wells for the purpose of obtaining a graph or log of information on the underground strata. An irretrievable well-logging source is one which is pulled off or not connected to the wireline downwell and for which all reasonable effort at recovery, as determined by the Commission, has been expended. The determination of irretrievability will be made after a telephone request by the licensee. The proposed amendments would require each licensee to request that the Commission make a determination that the source is irretrievable (after failure of recovery efforts), to provide for sealing the source in place with a cement plug, setting a deflection device at the top of the cement plug and mounting a permanent identification plaque at the surface of the well, and to report circumstances concerning the irretrievable well-logging source to the Commission and to pertinent State agencies within thirty (30) days after the Commission determines that the source is irretrievable. Presently, licensees must indicate similar type actions in their license application and these actions are reviewed by the Commission before the license is granted.

These regulations would not be applied to operations or activities which had been started or completed prior to a selected effective date.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and section 553 of title 5 of the United States Code, notice is hereby given that the adoption of the following amendments to Title 10, Chapter I, Code of Federal Regulations, Parts 30 and 70 is contemplated.

Copies of the comments on the proposed amendments may be examined at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C.

1. A new paragraph (x) is added to § 30.4 to read as follows:

§ 30.4 Definitions.

• • • • • •

(x) "Irretrievable well-logging source" means any sealed source containing licensed material which is pulled off or not connected to the wireline downwell and for which all reasonable effort at recovery, as determined by the Commission, has been expended.

2. A new § 30.56 is added to 10 CFR part 30 to read as follows:

§ 30.56 Well-logging operations using sealed sources.

(a) A licensee may perform well-logging operations with sealed sources only in wells for which the well-operator or the well-owner has previously executed a written agreement that assures the implementation, within

V 4 3 / 1 8 9
SEP 28 78
UMI

thirty (30) days of an event of an irretrievable well-logging source, of the following requirements:

(1) The immobilization and sealing in place of each irretrievable well-logging source with a cement plug.

(2) The setting of a whipstock or other deflection device on the top of the cement plug, except where the cement plug and source are not accessible to any possible subsequent drilling operations.

(3) The mounting of a permanent identification plaque (containing: "Caution Radioactive Material", radiation symbol without color requirement, "Irretrievable Well-logging Source" and date of occurrence, well-owner and the city and State where his main office is located, well name and number, radionuclide and quantity of activity, source depth, plug-back depth, and appropriate warning) at the surface of the well.

(b) in the event of failure of recovery efforts for a sealed source which is pulled off or not connected to the wireline downwell, each licensee shall request by telephone, to the Director of the appropriate Nuclear Regulatory Commission Inspection and Enforcement Regional Office listed in appendix D of part 20 of this chapter, that the Commission make a determination that the source is irretrievable.

(c) The licensee shall, within thirty (30) days of an event of an irretrievable well-logging source, make a report in writing to the appropriate NRC Regional Office listed in appendix D of part 20 of this chapter with a copy each to the Director of Inspection and Enforcement, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to the appropriate State agencies that have authority over the particular well-drilling operations, setting forth the following information:

(1) Date of occurence;

(2) A description of the irretrievable well-logging source involved, including radionuclide, quantity, chemical, and physical form;

(3) Surface location and identification of well;

(4) Results of efforts to immobilize and seal the source in place;

(5) Depth of source;

(6) Depth of the top of the cement plug;

(7) Depth of well;

(8) Any other information (e.g., warning statement) contained on permanent identification plaque;

(9) Notifications made to State agencies; and

(10) A brief description of the attempted recovery efforts.

(d) Any licensee or applicant for a license may apply to the Commission for approval of proposed methods to be used in lieu of any of the requirements of paragraphs (a), (b), and (c) of this section for an irretrievable well-logging source.

3. A new paragraph (v) is added to § 70.4 to read as follows:

§ 70.4 Definitions.

* * * * *

(v) "Irretrievable well-logging source" means any sealed source containing licensed material which is pulled off or not connected to the wireline downwell and for which all reasonable effort at recovery, as determined by the Commission, has been expended.

4. A new § 70.60 is added to 10 CFR Part 70 to read as follows:

§ 70.60 Well-logging operations using sealed sources.

(a) A licensee may perform well-logging operations with sealed sources only in wells for which the well-operator or the well-owner has previously executed a written agreement that assures the implementation, within thirty (30) days of an event of an irretrievable well-logging source, of the following requirements:

(1) The immobilization and sealing in place of each irretrievable well-logging source with a cement plug.

(2) The setting of a whipstock or other deflection device on the top of the cement plug, except where the cement plug and source are not accessible to any possible subsequent drilling operations.

(3) The mounting of a permanent identification plaque (containing: "Caution Radioactive Material", radiation symbol without color requirement, "Irretrievable Well-logging Source", date of occurence, well-owner and the city and State where his main office is located, well name and number, radionuclide and quantity of activity, source depth, plug-back depth, and appropriate warning) at the surface of the well.

(b) In the event of failure of recovery efforts for a sealed source which is pulled off or not connected to the wireline downwell, each licensee shall request by telephone, to the Director of the appropriate Nuclear Regulatory Commission Inspection and Enforcement Regional Office listed in appendix D of part 20 of this chapter, that the Commission make a determination that the source is irretrievable.

(c) The licensee shall, within thirty (30) days of an event of an irretrievable well-logging source, make a report in writing to the appropriate NRC Regional Office listed in appendix D of part 20 of this chapter with a copy each to the Director of Inspection and Enforcement, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to the appropriate State agencies that have authority over the particular well-drilling operations, setting forth the following information:

(1) Date of occurence;

(2) A description of the irretrievable well-logging source involved, including radionuclide, quantity, chemical, and physical form;

(3) Surface location and identification of well;

(4) Results of efforts to immobilize and seal the source in place;

(5) Depth of source;

(6) Depth of the top of the cement plug;

(7) Depth of well;

(8) Any other information (e.g., warning statement) contained on permanent identification plaque;

(9) Notifications made to State agencies; and

(10) A brief description of the attempted recovery efforts.

(d) Any licensee or applicant for a license may apply to the Commission for approval of proposed methods to be used in lieu of any of the requirements of paragraphs (a), (b), and (c) of this section for an irretrievable well-logging source.

(Secs. 81, 161, Pub. L. 83-703, 68 Stat. 935, 948 (42 U.S.C. 2111, 2201); sec. 201, Pub. L. 93-438, 88 Stat. 1242 (42 U.S.C. 5841).)

Dated at Washington, D.C., this 21st day of September 1978.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary of the Commission.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 78-EA-84]

NEWBURGH, N.Y.

Proposed Alteration of Control Zone

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to alter the Newburgh, N.Y., control zone, over Stewart Airport, Newburgh, N.Y. This alteration will extend the operating hours of the control zone to full time. This alteration arises out of a decision to operate the Stewart Airport tower on a full-time basis.

DATE: Comments must be received on or before October 19, 1978.

ADDRESSES: Send comments on the proposal in triplicate to: Chief, Airspace and Procedures Branch, AEA-530, Eastern Region, Federal Aviation Administration, Federal Building, Jamaica, N.Y. 11430. The docket may be examined at the following location: FAA, Office of Regional Counsel, AEA-7, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430.

FOR FURTHER INFORMATION CONTACT:

Frank Trent, Airspace and Procedures Branch, AEA-530, Air Traffic Division, Federal Aviation Administration, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430, telephone 212-995-3391.

COMMENTS INVITED

Interested parties may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430. All communications received on or before October 19, 1978, will be considered before action is taken on the proposed amendment. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Chief, Airspace and Procedures Branch, AEA-530, Eastern Region, Federal Aviation Administration, Federal Building, Jamaica, N.Y. 11430, or by calling 212-995-3391.

Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71.171 of part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

1. Amend § 71.171 of part 71 of the Federal Aviation Regulations so as to amend the description of the Newburgh, N.Y., control zone by deleting all after "Poughkeepsie, N.Y., control zone."

(Sec. 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749 (49 U.S.C. 1348(a))); sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821 as amended by Executive Order 11949 and OMB Circular A-107.

Issued in Jamaica, N.Y., on September 13, 1978.

LOUIS J. CARDINALLI,
Acting Director,
Eastern Region.

[14 CFR Part 93]

[Docket No. 18311; Notice No. 78-13]

SPECIAL AIR TRAFFIC RULES AND AIRPORT TRAFFIC PATTERNS

Proposed Special Air Traffic Rules for Portland International Airport Traffic Area: Pearson Airpark Operations

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to amend the special air traffic rules for operating aircraft to and from the Pearson Airpark which lies within the airport traffic area for Portland International Airport. The current requirement for radio communications with Portland International Airport traffic control tower would be eliminated for aircraft within specified airspace around Person Airpark. Separate traffic flows would be required for fixed-wing aircraft and for helicopters. The FAA believes the proposals, if adopted, would improve the pilot's ability to receive current flight information from Pearson UNICOM, separate helicopter from fixed-wing traffic, and enhance the safe and efficient use of the navigable airspace.

DATE: Comments must be received on or before November 28, 1978.

ADDRESS: Send comments on the proposal in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket (AGC-24), Docket No. 18311, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Charles Stratton, Air Traffic Rules Branch (AAT-220), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-3128.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue SW., Washington, D.C. 20591. All communications received on or before November 28, 1978, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons. A report summarizing each substantive public contact with FAA personnel concerned with this rule making will be filed in the docket.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

THE PROPOSED RULE

This notice proposes amendments to subpart H of part 93 of the Federal Aviation Regulations (FAR's), to exclude Pearson Airpark traffic within defined airspace from the requirement to maintain communications with Portland International Airport tower while within the Portland airport traffic area, as is now required, and to require helicopters to avoid the flow of fixed-wing aircraft operating at Pearson Airpark.

COMMUNICATIONS

The current regulation, FAR § 93.103, states that, while within the Portland Airport traffic area, each person operating an aircraft to or from Pearson Airpark "shall establish and maintain two-way radio communications with Portland International Airport Traffic Control Tower." This provision prevents those pilots operating single-radio aircraft at Pearson

Airpark from monitoring Pearson Airpark's local UNICOM radio for traffic advisories. The proposal defines certain airspace in the immediate vicinity of Pearson Airpark in which the current communications requirement would not apply. That proposal would allow Pearson Airpark traffic within the defined airspace to monitor the Pearson UNICOM radio. Those aircraft operating in the vicinity of Pearson Airpark outside the defined airspace but within the Portland Airport traffic area would continue to maintain two-way radio communications with the Portland International Airport Traffic Control Tower in accordance with the applicable provisions of FAR 91.87 or 93.103(a).

PEARSON AIRPARK TRAFFIC

This proposed rule would continue to generally require fixed-wing aircraft to enter the Pearson Airpark traffic pattern from the north at 1,000 feet MSL. However, this notice proposes separate traffic rules for helicopters. Generally, helicopters operating at an airport are not required to fly the same traffic pattern as fixed-wing aircraft. Under paragraphs §§ 91.87(e)(2) and 91.89(b), helicopters are permitted to fly any airport traffic pattern that avoids the flow of fixed-wing aircraft. However, § 93.105 requires all aircraft, including helicopters, operating at Pearson Airpark to follow the traffic pattern described in that section. The FAA believes that, due to their operating characteristics, helicopters should not conform to the flow of fixed-wing aircraft. Consequently, FAA is proposing to amend FAR § 93.105 to specifically exclude helicopters from proposed Pearson Airpark traffic pattern for fixed-wing aircraft at that airport and to require them to avoid the flow of fixed-wing aircraft that are in that traffic pattern.

THE PROPOSED RULE

Accordingly, the Federal Aviation Administration proposes to amend subpart H of part 93 of the Federal Aviation Regulations (14 CFR Part 93) as follows:

1. By revising § 93.103 to read as follows:

§ 93.103 Communications.

(a) Except as provided in paragraph (b) of this section, while within the Portland International airport traffic area, each person operating an aircraft to or from Pearson Airpark shall establish and maintain two-way radio communication with the Portland International airport control tower.

(b) Communication with Portland International Airport control tower is not required under this section when operating to or from Pearson Airpark within the airspace from the surface up to, and including, 1,000 feet MSL bounded on the south by a line overlying the southern edge of the Pearson Airpark runway, on the east by a north-south line 3,000 feet east of the eastern end of the Pearson Airpark runway, and on the northwest by the arc of a 5 statute mile radius circle centered on Portland International Airport.

2. By revising § 93.105 to read as follows:

§ 93.105 Pearson Airpark traffic.

(a) *Arriving.* Except when the VFR clearance-from-cloud rules of part 91 of this chapter require otherwise, each person piloting an aircraft, excluding helicopters, arriving at the Pearson Airpark shall enter the traffic pattern north of the airport at 1,000 feet MSL and execute a left traffic pattern for a landing to the east or a right traffic pattern for a landing to the west.

(b) *Departing.* Each person piloting an aircraft, excluding helicopters, departing from Pearson Airpark shall leave the airport traffic pattern to the north.

(c) *Helicopters.* Each person piloting a helicopter at Pearson Airpark shall enter and leave the traffic pattern north of the airport and shall avoid the flow of fixed-wing aircraft operating in the traffic pattern.

(Secs. 307, 313(a), Federal Aviation Act of 1958, as amended (49 U.S.C. 1348, 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)), and 14 CFR 11.45.)

NOTE.—The Federal Aviation Administration has determined that this document is not significant in accordance with the criteria specified in Executive Order 12044 and set forth in interim Department of Transportation guidelines.

Issued in Washington, D.C., on September 20, 1978.

GLEN D. TIGNER,
Acting Director,
Air Traffic Service.

CABIN CREEK, GRASONVILLE, MD., AND WYE RIVER, WYE, MD.

Proposed Special Anchorage Areas

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: At the request of the Watermans' Protective Association, Inc., Grasonville, Md., the Coast Guard is proposing to establish special anchorage areas at Cabin Creek, Grasonville, Md., and Wye River, Wye, Md. The designation of these areas as special anchorages would allow the approximately 50 commercial and private fishing vessels that routinely moor at these locations to do so without displaying anchor lights. Vessels not more than 65 feet in length, when at anchor in a special anchorage area, are not required to carry or exhibit anchor lights. This proposal would establish two areas approximately 10 nautical miles apart that would safely accommodate anticipated small fishing and recreational vessels desiring to anchor without the necessity of carrying or displaying anchor lights.

DATES: Comments must be received on or before: November 13, 1978.

ADDRESSES: Comments should be submitted to and are available for examination at the Office of the Commander (mps) Fifth Coast Guard District, Federal Building, 431 Crawford Street, Portsmouth, Va. 23705.

FOR FURTHER INFORMATION CONTACT:

Lieutenant Commander Howard E. Snow, Office of Marine Environment and Systems (G-WLE/73), Room 7315, Department of Transportation, Nassif Building, 400 7th Street SW., Washington D.C. 20590 (202-426-1477).

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Each person submitting a comment should include the writer's name and address, identify the notice

(CGD 78-026) and the specific section of the proposal to which the comment applies, and give the reason for the comments. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. No public hearing is planned but one may be held at a time and place to be set in a later notice in the FEDERAL REGISTER if requested in writing by an interested person raising a genuine issue and desiring to comment orally at a public hearing.

DRAFTING INFORMATION

The principal persons involved in drafting this proposal are: Lieutenant Commander H. E. Snow, Project Manager, Office of Marine Environment and Systems, and Lieutenant G. S. Karavitis, project Attorney, Office of the Chief Counsel.

DISCUSSION OF THE PROPOSED REGULATION

Members of the Watermans' Protective Association, Inc., Grasonville, Md. operate approximately 50 small fishing vessels in the vicinity of Cabin Creek and Wye River, Md. which rutinely anchor in the areas described in this proposal. Both areas are natural coves that are well removed from fairways and located where general navigation will not endanger or be endangered by unlit vessels. Vessels not more than 65 feet in length, when at anchor in a special anchorage, are not required to carry or exhibit anchor lights. Approval of this proposal will be in the best interest of persons desiring to anchor small vessels in these areas by eliminating the requirement for carrying and displaying anchor lights.

An environmental assessment was completed in January 1978 which determined that there would be no impact on the quality of the human environment.

This regulation has been reviewed under DOT notice 78-1 "Improving Government Regulations" (43 FR 9582) and a draft evaluation has been prepared and is available for public inspection at the project manager and the fifth district addresses indicated above.

In consideration of the foregoing, part 110 title 33 Code of Federal Regulations would be amended by adding § 110.71a and § 110.71b to read as follows:

§ 110.71a Cabin Creek, Grasonville, Md.

The waters of Cabin Creek, Md., enclosed by a line drawn from latitude 38°56'34" N., longitude 76°12'49" W., on the western shore to latitude 38°56'28" N., longitude 76°12'29" W., on the eastern shore; thence following the general line of the shore to the point of beginning.

§ 110.71b Wye River, Wye, Md.

The waters of a cove on the western shore of Wye River opposite Drum Point enclosed by a line drawn from latitude 38°53'17" N., longitude 76°11'23" W., to latitude 38°53'18" N., longitude 76°11'23" W., to latitude 38°53'18" N., longitude 76°11'13" W; thence following the shoreline to the point of beginning.

(Sec. 1, 30 Stat. 98, as amended (33 U.S.C. 180); sec. 6(g)(1)(B), 80 Stat 937; (49 U.S.C. 1655 (g)(1)(B), 49 CFR 1.46(c)(2)).)

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: September 21, 1978.

R. H. SCARBOROUGH,
Vice Admiral U.S. Coast Guard,
Acting Commandant.

WAPPINGER CREEK, N.Y.

Drawbridge Operation Regulations

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: At the request of the Consolidated Rail Corp., the Coast Guard is considering changing the regulations governing the Conrail drawbridge across Wappinger Creek by requiring that advance notice be given at all times. This proposal is being made because of limited requests for openings of the draw. This action will relieve the bridge owner of the burden of having a person available to open the draw at all times.

DATE: Comments must be received on or before October 30, 1978.

ADDRESS: Comments should be submitted to and are available for examination at the offices of the Commander (oan), Third Coast Guard District, Governors Island, N.Y. 10004.

FOR FURTHER INFORMATION CONTACT:

Frank L. Teuton, Jr., Chief, Drawbridge Regulations Branch (G-WBR/73), Room 7300, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590 (202-426-0942).

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, comments, data or arguments. Persons submitting comments should include their name and address, identify the bridge, and give reasons for concurrence with or any recommended change in the proposal.

The Commander, Third Coast Guard District, will forward any comments received with his recommendations to the Chief, Office of Marine Environment and Systems, U.S. Coast Guard Headquarters, Washington, D.C., who will evaluate all communications received and recommend a course of final action to the Commandant on this proposal. The proposed regulations may be changed in the light of comments received.

DRAFTING INFORMATION

The principal persons involved in drafting this proposal are: Frank L. Teuton, Jr., Project Manager, Office of Marine Environment and Systems, and Mary Ann McCabe, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF THE PROPOSED REGULATIONS

The draw of the Conrail bridge across Wappinger Creek is presently required to open on signal from 11:30 a.m. to 7:30 p.m. from May 15 through October 15 and at all other times if at least 12 hours notice is given. Due to limited openings, (1974—6, 1975—4, (1976 records destroyed by fire) 1977—15), the change proposed below is being offered.

In consideration of the foregoing, it is proposed that part 117 of title 33 of the Code of Federal Regulations be amended by revising § 117.190(f)(2) to read as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

§ 117.190 Navigable waters in the State of New York and their tributaries; bridges where constant attendance of draw tenders is not required.

* * * * * *

(f) * * *

(2) Wappinger Creek, N.Y.; Conrail railroad bridge at New Hamburg. The draw shall open on signal from May 15 through October 15 if at least 8 hours notice is given and from October 16 through May 14 if at least 24 hours notice is given.

* * * * * *

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5)).

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended, and OMB Circular A-107.

V 43/189 SEP 28 78

Dated: September 20, 1978.

R. H. SCARBOROUGH,
Vice Admiral U.S. Coast Guard,
Acting Commandant.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 976-1]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Proposed Revision to the New Jersey State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: This proposal announces receipt of a request from New Jersey to revise its State implementation plan. The State is seeking approval from the Environmental Protection Agency (EPA) of a change to its regulation limiting the emission of particulate matter from manufacturing processes. In part, this change relaxes particulate matter emission limitations applicable to the glass manufacturing industry. EPA is proposing approval of all but one part of this State implementation plan revision request. That part of the State's regulation which allows for variances from the emission limitations contained elsewhere in the regulation is proposed to be disapproved by EPA because it fails to meet certain important EPA procedural requirements. However, EPA is proposing a procedure whereby such variances granted by the State may be approved on an individual basis as a part of the State implementation plan.

DATES: Comments and requests for public hearing must be received on or before October 30, 1978.

ADDRESSES: All comments and requests for public hearing should be addressed to: Eckardt C. Beck, Regional Administrator, U.S. Environmental Protection Agency, Region II Office, 26 Federal Plaza, New York, N.Y. 10007. Copies of the proposal are available for public inspection during normal business hours at:

U.S. Environmental Protection Agency, Air Programs Branch, Room 908, Region II Office, 26 Federal Plaza, New York, N.Y. 10007;

U.S. Environmental Protection Agency, Central Docket Section, Waterside Mall, Room 2903-B, 401 M Street SW., Washington, D.C. 20460; and

New Jersey State Department of Environmental Protection, Bureau of Air Pollution Control, John Fitch Plaza, Trenton, N.J 08625.

FOR FURTHER INFORMATION CONTACT:

William S. Baker, Chief, Air Programs Branch, U.S. Environmental Protection Agency, Region II Office, 26 Federal Plaza, New York, N.Y. 10007, 212-264-2517.

SUPPLEMENTAL INFORMATION: On March 31, 1977 the State of New Jersey requested that the Environmental Protection Agency (EPA) consider a proposed revision to its State implementation plan (SIP). Additional information was provided on April 18, 1977 and November 14, 1977. The revision request was submitted in accordance with all applicable EPA requirements under 40 CFR Part 51 including a public hearing which was held in Trenton, N.J. on September 29 and 30, 1976.

The proposed revision consists of changes to the State regulation, title 7, chapter 27, subchapter 6, of the New Jersey Administrative code (N.J.A.C. 7:27-6.1 et seq.), entitled, "Control and Prohibition of Particles from Manufacturing Processes." A summary of the proposed changes to subchapter 6, a discussion of the potential air quality impact of these changes, and the process by which EPA will make a final decision on whether to approve or disapprove the proposed revision follow.

I. PROPOSED CHANGES TO SUBCHAPTER 6

A. Section 6.1—Definitions.

Definitions are provided for the terms "cullet," "glass," "glass manufacturing furnace," "lead glass," and "process weight." In addition, the present definition for the term "particles" is modified.

B. Section 6.2—Standards for the Emission of Particles.

Except for glass manufacturing furnaces used for the production of lead glass, glass manufacturing furnaces are no longer required to meet a grain loading or control efficiency standard as specified in the present subsection 6.2(a), but instead are controlled by a new production rate standard contained in the changed subsection 6.2(b). No increase in allowable emissions from the production of lead glass is proposed because of the State's concern about the toxicity of lead.

C. Section 6.3—Performance test principle.

The methods for determining actual source emissions and plume opacity are identified as being those contained in N.J.A.C. 7:27 B-1, "Air Test Method One," and 7:27 B-2, "air Test Method Two," respectively.

D. Section 6.4—Emission tests.

No changes are proposed for this section.

E. Section 6.5—Variances.

Under the proposal, the State may grant a variance from the emission limitations and opacity limitations specified in § 6.2 of the regulation to a facility for which it is adequately demonstrated that advances in the art of control for the kind and amount of particles emitted has not developed to a degree sufficient to enable the requirements of § 6.2 to be met.

Also under the proposal, the State may grant a variance from the emission limitations specified in § 6.2 to those glass manufacturing furnaces where the material being processed in the furnace consists of greater than 25 percent cullet, by weight. The maximum allowable emission rate in such situations increases as the cullet content increases above 25 percent.

The proposed § 6.5 also permits the State to grant a variance from the plume opacity limitation of 20 percent specified in subsection 6.2(d) if a glass manufacturing furnace can meet all applicable emission limitations, but cannot at the same time meet the plume opacity limitation of subsection 6.2(d).

F. Section 6.6—Permit to construct and certificate to operate.

A minor change to the wording of subsection 6.6(c) is proposed.

G. Section 6.7—Exemptions.

Subparagraph 6.7(a)(3) is deleted. This subparagraph established a schedule for compliance by certain sources required to meet the provisions of Subchapter 6. This schedule has been superseded by EPA compliance schedules established in the FEDERAL REGISTER of July 24, 1975 (40 FR 30962).

II. DISCUSSION OF IMPACT OF PROPOSED REVISION

A. CHANGE IN EMISSIONS

A comparison of the present subchapter 6 and the proposed revision indicates that the proposed revision allows more particulate matter than presently allowed to be emitted from glass manufacturing furnaces in New Jersey. However, the State expects that a reduction in actual current emissions will occur through implementation of the proposed revision. This is because many furnaces are currently not in compliance with the present emission regulation and will have to reduce emissions to achieve compliance with the revised regulation. The State also believes that those glass manufacturing furnaces which are currently operating without air pollution control equipment and have emissions either at or below the present emission limitation will not increase emissions as a result of the proposed revision.

According to the State, there are approximately 70 glass manufacturing furnaces in New Jersey. Six of these

furnaces currently have air pollution control equipment in operation and, under the proposed revision, these furnaces would be allowed to increase their present emission rates by decreasing their control equipment efficiency. Approximately 35 glass manufacturing furnaces currently do not have air pollution control equipment installed. Nevertheless, these furnaces are estimated as being able to meet the proposed emission limitations without the installation of such equipment. For the approximately 30 remaining glass manufacturing furnaces, new control measures will be necessary to comply with the proposed revision. The State expects that the emission reductions that will be obtained from these furnaces will more than offset any possible emission increases from the six glass manufacturing furnaces presently with controls.

The State estimates that the present rate of particulate emissions from New Jersey glass manufacturing furnaces is 2,800 tons per year. If all facilities were in compliance with present emission limitations, their emissions would amount to 1,100 tons per year. The adoption of the proposed revision is expected to result in a rate of particulate emissions of approximately 1,800 tons per year, or 700 tons per year more than presently allowed.

B. IMPACT ON AIR QUALITY

In its technical support document, the State utilized diffusion modeling to estimate the impact of the proposed revision on ambient air quality. The State compared the estimated change in 1975 ambient concentrations of total suspended particulates (TSP) that would result if all glass manufacturing furnaces were in compliance with the present emission regulations with the estimated change that would result if there were compliance with the proposed emission limitations. In both cases compliance was estimated to cause a decrease in TSP concentrations, but the decrease would be less for the proposed revision than for the present emission regulation.

The State in its technical support document estimated that contraventions of the primary annual national ambient air quality standard for particulate matter (75 ug/m³) at two monitoring sites and that contraventions of the secondary 24-hour national ambient air quality standard for particulate matter (150 ug/m³) at four monitoring sites would be reduced less if compliance were achieved with the proposed revision rather than if compliance were achieved with the present emission regulation. For these sites, the State estimated that, as a result of many glass manufacturing furnaces currently not being in compliance with the present emission limitation, improvement in or, in some cases, no deterioration from present air quality would occur as a result of compliance with the proposed emission limitation.

On December 5, 1977 under the provisions of section 107(d) of the Clean Air Act, as amended, the State updated the current status of air quality in New Jersey. In this evaluation of air quality, the State showed that nonattainment of the primary standard for TSP occurred only in Jersey City and Camden. For Jersey City, air quality data for the year ending June 1977 showed that the annual geometric mean concentration of TSP was 77.1 ug/m³. The Camden evaluation was based on 1975 data which showed that the annual geometric mean concentration was 84 gu/m³. The 1976 data for the Camden site was consistent with the 1975 data.

The changes in air quality at Jersey City and Camden that were calculated to result from compliance of all glass manufacturing furnaces with the present emission limitation and from compliance with the proposed emission limitation are shown in table 1. The estimates for Jersey City were based on the State's technical support document; for Camden, they were based on EPA's preliminary analysis.

TABLE 1.—*Impact on Air Quality; Total Suspended Particulates, Annual Geometric Mean* (μg/m³)

Monitoring site	Concentration	Estimated concentration through compliance with present emission limitations	Estimated concentration through compliance with proposed emission limitations
Jersey City	77.1	76.8	77.0
Camden	84.0	83.7	83.9

Widespread nonattainment of the 24-hour secondary standard was identified by the State in its December 5, 1977 assessment of air quality. EPA expects that the improvement in air quality in these nonattainment areas under conditions of compliance with the existing and with the proposed limitations would be similar to the improvement predicted for the secondary standard nonattainment monitoring sites that was predicted in the State's technical support document. The improvement in air quality predicted by the State to result from compliance with the present emission limitations was from 1 to 2 μg/m³; the improvement predicted to result from compliance with the proposed emission limitations was from 0 to 1 μg/m³.

On May 2, 1978 the State sent a letter to EPA in which it presented the results of dual sampling studies for Jersey City and Camden. These studies demonstrate that the previous monitored data had overstated TSP concentrations. Based on these studies New Jersey requested that these areas be redesignated as attainment for the primary TSP standard and nonattainment for the secondary TSP standard. The Regional Office has reviewed this request and has agreed with the State's conclusions. The revised designations will be published in the FEDERAL REGISTER.

In light of these redesignations the current proposed SIP revision for emission of particulates from the glass manufacturing industry has been shown to not result in an increase in allowable emissions in any area designated as nonattainment for the primary TSP standard.

C. AERODYNAMIC DOWNWASH

Preliminary analysis by the State indicated that ten New Jersey glass manufacturing furnaces have a potential for aerodynamic downwash, a special air quality problem involving significant plume impact near the plant due to poor dispersion. These plants are listed in table 2.

TABLE 2.—*Glass Manufacturing Furnaces Having a Potential for Aerodynamic Downwash*

Name	Location
1. Owens-Illinois, Inc	Bridgeton.

5. Owens-Illinois, Inc	North Bergen.
6. Owens-Corning Fiberglass Corp.	Barrington.
7. Certain-teed Products Corp.	Winslow Township.
8. Thatcher Glass	Wharton.
9. Kraftco	Jersey City.
10. Wheaton	Millville.

III. PRELIMINARY ASSESSMENT OF APPROVABILITY OF PROPOSED REVISION

A. IMPACT ON AIR QUALITY

Based on the State technical support document, the magnitude of current contraventions in New Jersey of the secondary air quality standards for

V 4 3 / 1 8 9

particulate matter would not be reduced as much by compliance with the proposed revision as by compliance with the present regulation. The regulatory changes proposed by New Jersey increase the allowable particulate matter emissions for glass manufacturing furnaces above those contained in the existing SIP. However, the statewide emission reductions resulting from the Federal regulation which requires reduction in lead content of gasoline were not considered in the original SIP. These emission reductions are greater than the increase in allowable emissions associated with the proposed plan revision. Other emission reductions not documented in the SIP have resulted from the installation of control devices which reduce emissions below existing SIP limitations. The Regional Office has determined that the air quality impact of compliance with the proposed plan revision taken together with the emission reductions previously not considered in the SIP would be equivalent to the impact that would result from compliance with the existing regulation alone. Moreover, if it is found that other control measures are necessary to provide for attainment of standards, additional emission limitations will be adopted by the State by January 1, 1979, as required by the amended Clean Air Act. While it would be preferrable to incorporate additional control measures (or measures for which "credit" is being taken) into the SIP at the same time that we approve this revision relaxing certain TSP limitations, EPA believes that, with the exception to be discussed in part III C of this notice, the air quality improvement to be derived from replacing the existing regulation with a readily enforceable regulation such as has been proposed is justification for proposing its approval.

B. AERODYNAMIC DOWNWASH CONSIDERATION

EPA's approval of the proposed revision as it relates to the ten furnaces having a potential for aerodynamic downwash must be based on a commitment from the State that the potential downwash problems will be examined and corrected, where necessary, in as expeditious a manner as possible. The State has indicated in a letter dated February 28, 1978 that it intends to commence a stack testing program after EPA approval of this plan revision and to institute a monitoring program around the furnaces that have been identified for downwash problems. EPA is requesting that the State submit, during the public comment period, a plan elaborating on any course of action the State intends to pursue to identify and remedy all downwash problems as expeditiously as possible should the revised regulation be approved. If the State's procedure is acceptable, it will be incorporated into the final SIP revision.

C. IMPACT OF VARIANCES

EPA does find one shortcoming in subsections (a), (b), and (c) of section 6.5, "Variances," of the State's regulation. This section contains no requirement that each variance issued by the State be submitted to EPA as a SIP revision request. Section 51.34 of part 51 of chapter I, title 40, Code of Federal Regulations, requires that in order for a variance to be considered for approval as a revision to a State implementation plan, it must be submitted by the State in accordance with the requirements of section 51.6, "Revisions."

Consequently, EPA proposes disapproval of subsections 6.5 (a), (b), and (c) of the State's revision request as submitted. EPA proposes instead that each variance that the State grants under § 6.5 of N.J.A.C. 7:27, whether it be for insufficient available control technology, cullet use, or inability to meet the opacity limitation, be subject to a public hearing in accordance with the provisions of § 51.4, "Public Hearings," and that each such variance be processed as an individual SIP revision for EPA approval.

Persons wishing to comment on this proposed action may do so by submitting written comments or by requesting a public hearing within 30 days of publication of this notice.

In consideration of the foregoing, it is proposed to amend 40 CFR chapter I as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

1. By amending subpart FF by adding new § 52.1604 as follows:

§ 52.1604 Control Strategy and Regulations: Total suspended particulates.

(a) any variance issued by the Department under N.J.A.C. title 7, chapter 27, § 6.5, subsections (a), (b), or (c), shall not exempt any person from the requirements otherwise imposed by N.J.A.C. 7:27-6.1 et seq.; provided that the Administrator may approve such variance as a plan revision when the provisions of this part, section 110 (a)(3)(A) of the Act, and 40 CFR Part 51 (relating to approval of and revisions to State implementation plans) have been satisfied with respect to such variance.

This notice is issued as required by section 110 of the Clean Air Act, as amended, to advise the public that comments may be submitted as to whether the proposed revision to the New Jersey State implementation plan should be approved or disapproved. The Administrator's decision regarding approval or disapproval of this proposed plan revision will be based on whether it meets the requirements of section 110(a)(2) (A)-(K) of the Clean Air Act and EPA regulations in 40 CFR Part 51.

(Sec. 110 and 301 of the Clean Air Act, as amended (42 U.S.C. 7410 and 7601).)

Dated: September 22, 1978.

ECKARDT C. BECK,
Regional Administrator,
Environmental Protection Agency.

FEDERAL MARITIME COMMISSION

[46 CFR Part 508]

[Docket No. 78-33]

ACTIONS TO ADJUST OR MEET CONDITIONS UNFAVORABLE TO SHIPPING IN THE UNITED STATES/ECUADOR TRADE

Proposed Rulemaking

AGENCY: Federal Maritime Commission.

ACTION: Proposed rule.

SUMMARY: The Federal Maritime Commission proposes to enact a rule pursuant to section 19(1)(b) of the Merchant Marine Act of 1920 (46 U.S.C. 876(1)(b)) in order to adjust or meet conditions unfavorable to shipping in the foreign trade of the United States which result from discriminatory laws of the Government of Ecuador. This rule proposes to suspend, in part, tariffs on file with the Commission. The tariffs to be suspended are the Atlantic and Gulf/West Coast of South America Conference freight tariff FMC-1 and the Association of West Coast Steamship Companies freight tariff FMC-1, only as these tariffs apply to the participation of the Ecuadorian national flag carrier Transportes Navieros Ecuatorianos (Transnave) in the trade between the United States and Ecuador. The proposed suspension of Transnave's participation as a member in the trade between the United States and Ecuador in the above conference tariffs is designed to eliminate unfavorable conditions which have precluded a vessel in the foreign trade of the United States from competing in the trade on the same basis as any other vessel.

DATE: Comments (original and 15 copies) October 18, 1978.

ADDRESS: Comments to: Secretary, Federal Maritime Commission, Room 11101, 1100 L Street NW., Washington, D.C. 20573.

FOR FURTHER INFORMATION CONTACT:

Joseph C. Polking, Assistant Secretary, Room 11101, 1100 L Street NW., Washington, D.C. 20573, 202-523-5725.

SUPPLEMENTARY INFORMATION: Pursuant to the authority of section 19(1)(b), Merchant Marine Act, 1920 (46 U.S.C. 876), as implemented in Commission General Order No. 33 (46 CFR Part 506), the Federal Maritime Commission, hereinafter referred to as the Commission, is authorized and directed to make rules and regulations affecting shipping in the foreign trade of the United States in order to adjust or meet general or special conditions unfavorable to shipping in the foreign trade of the United States and which arise out of, or result from, foreign laws, rules or regulations, or from competitive methods or practices employed by owners, operators, agents or masters of vessels of a foreign country.

The types of conditions which the Commission has found to be unfavorable to shipping in the foreign trade of the United States are generally set forth in 46 CFR 506.3. Among these are conditions which preclude or tend to preclude a vessel in the foreign trade of the United States from competing in the trade on the same basis as any other vessel, and those which are discriminatory or unfair as between carriers. (46 CFR 506.3 (a) and (d).)

The Commission has found that the policy of the Ecuadorian Government in implementation and enforcement of Ecuadorian Decree 7/78 appears to have created conditions unfavorable to shipping in the foreign trade of the United States.

Ecuadorian Decree No. 7/78 is a cargo preference law designed to protect the carriage of import goods on board Ecuadorian flag vessels in order to promote the development of the Ecuadorian Merchant Marine. The National Council of the Merchant Marine of Ecuador has issued a requirement that a notice be stamped on import/export licenses to enforce the cargo preference law. The stamped notice assures that the cargo is transported by Ecuadorian flag or Ecuadorian shipping enterprise, U.S. flag, or shipping enterprises associated with an Ecuadorian shipping enterprise. Recent implementation of this policy has resulted in the MV *Lionheart*, a vessel operated by Coordinated Caribbean Transport (CCT) in the trade between Miami and Ecuador being denied such stamps on that country's licenses. Further, refusal by Ecuadorian authorities to issue the required stamp and/or waiver of Decree 7/78 has resulted in delays in the transportation of goods between the United States and Ecuador which have greatly concerned and affected United States exporters.

On September 15, 1978, the Commission notified the Secretary of State of the Commission's findings in the matter and asked the Department of State to seek diplomatic resolution of the problem.

Therefore, pursuant to section 19(1)(b) of the Merchant Marine Act, 1920 (46 U.S.C. 876(1)(b)) and section 43 of the Shipping Act, 1916 (46 U.S.C. 841a), the Commission proposes to enact Part 508, Title 46, Code of Federal Regulations, as follows:

PART 508—ACTIONS TO ADJUST OR MEET CONDITIONS UNFAVORABLE TO SHIPPING IN THE UNITED STATES/ECUADOR TRADE

Sec.
508.1 Conditions unfavorable to shipping in the foreign trade with Ecuador.
508.2 Suspension of tariffs.
508.3 Additional provisions.

AUTHORITY: Commission General Order No. 33 (46 CFR Part 506), sec. 19(1)(b), Merchant Marine Act, 1920 (46 U.S.C. 876 (1)(b)), sec. 4, Administrative Procedure Act (5 U.S.C. 553), sec. 43, Shipping Act, 1916 (46 U.S.C. 841a), and Reorganization Plan No. 7 of 1961 (75 Stat. 840).

§ 508.1 Conditions unfavorable to shipping in the foreign trade with Ecuador.

The Federal Maritime Commission has determined that the Government of Ecuador has created conditions unfavorable to shipping in the foreign trade of the United States by precluding a vessel of third flag registry operated by Coordinated Caribbean Transport, Inc. (C.C.T.) from competing in the ocean trade between the United States and Ecuador on the same basis as Ecuadorian carriers and by discriminating thereby against vessels of third flag registry in favor of the Ecuadorian carrier Trasportes Navieros Ecuatorianos (Trasnave).

§ 508.2 Suspension of tariffs.

The tariffs of the Atlantic and Gulf/West Coast of South America Conference and the Association of West Coast Steamship Companies, as these tariffs apply to the participation of Transnave in the trade between Ecuador and the United States, are suspended. These conference tariffs shall be amended to reflect the suspension of Transnave in the trade between Ecuador and the United States. The effect of this action is to suspend indefinitely all tariff rates, charges and rules as they apply to Transnave in the trade between the United States and Ecuador. Any future tariffs filed by or in behalf of Transnave in the trade between the United States and Ecuador shall likewise be suspended.

§ 508.3 Additional provisions.

Failure to comply with § 508.2 shall subject Transnave to all applicable remedies and penalties provided by law.

By the Commission.

JOSEPH C. POLKING,
Assistant Secretary.

[6730-01]

[46 CFR Parts 531 and 536]

[General Order 13; Docket No. 78-301]

TIME LIMIT FOR FILING OF OVERCHARGE CLAIMS

Extension of Time for Filing Comments

AGENCY: Federal Maritime Commission.

ACTION: Enlargement of time to file comments.

SUMMARY: The FMC is extending the time for filing comments on its proposed rule to prohibit any tariff rule of a common carrier by water which limits to less than the 2-year period prescribed by the Shipping Act of 1916, the time within which a shipper must submit a claim to the carrier to recover over charges based on errors in weight, measurement, or description. The extension is being granted because of requests from certain conferences. (43 FR 39399; September 5, 1978.)

DATES: Comments on or before October 6, 1978. (Original and 15 copies.)

ADDRESS: Comments to: Secretary, Federal Maritime Commission, Washington, D.C. 20573.

FOR FURTHER INFORMATION CONTACT:

Francis C. Hurney, Secretary, 202-523-5725.

SUPPLEMENTARY INFORMATION: Counsel for a number of conferences and rate agreements has requested a 30-day enlargement of time to file comments in response to the notice of proposed rulemaking in this proceeding. Counsel states that the 24-day period allowed is wholly inadequate for the member lines to consider, discuss, prepare and transmit comments concerning the proposed rules.

A 30-day period is deemed to be adequate for submission of complete comments on most matters and the instant proposed rule is no exception. The notice of proposed rulemaking in fact was intended to provide 30 days but delay in transmission of the notice to the FEDERAL REGISTER resulted in the inadvertent cutback to 24 days. Time for filing comments is therefore enlarged an additional week to and including October 6, 1978. This enlargement conforms the comment period to the Commission's original intention

V 4 3 / 1 8 9

SE 28 78

and provides counsel a portion of the time requested.

JOSEPH C. POLKING,
Assistant Secretary.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket No. 78-13, Notice 1]

DESIGNATED SEATING POSITION

Proposed Clarification of Definition

AGENCY: National Highway Traffic Safety Administration (NHTSA).

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to amend the definition of "designated seating position" to clarify in dimensional terms that the definition includes any position likely to be used for seating accomodation while the vehicle is in motion. The specification of dimensional parameters in the definition is considered necessary to assure proper and consistent determinations of whether a particular position is likely to be used for seating accomodation while the vehicle is in motion. The clarification is intended to insure that all positions likely to be used for seating accommodation will be equipped with occupant restraint systems for the protection of the persons using those positions.

DATES: Comments to the proposal must be received not later than November 6, 1978. The proposed effective date of the clarified definition is September 1, 1979.

ADDRESS: Comments should refer to the docket number and notice number and be submitted to: Docket Section, Room 5108, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Hugh Oates, Office of Chief Counsel, National Highway Traffic Safety Administration, Washington, D.C. 20590, 202-426-2992.

SUPPLEMENTARY INFORMATION: On May 22, 1978, the NHTSA published a notification to vehicle manufacturers concerning the agency's interpretation of the term "designated seating position" (43 FR 21893). As pointed out in that notice, Safety Standard No. 208 (49 CFR 571.208) requires manufacturers to provide occupant crash protection for each "designated seating position" in a passenger car, and that term is defined in 49 CFR 571.3 as:

[A]ny plan view location intended by the manufacturer to provide seating accomodation while the vehicle is in motion, for a person at least as large as a fifth percentile adult female, except auxiliary seating accommodations such as temporary or folding jump seats.

The notification of May 22, 1978, was issued because of the NHTSA's concern that certain recent vehicle models have improperly designated seating capacities. these models have been designated by their manufacturers as having only two front seating positions, even though the vehicles have bench or split-bench seats that are clearly capable of accommodating three adult occupants and are being so used This situation represents a serious threat to safety since the vehicles have no restraint systems for the front center seat passenger.

The earlier notification emphasized that although under the existing definition it is the manufacturer which designates the number of seating positions in the vehicle, the manufacturer's intent will be determined by the agency on the basis of all facts and his declarations will not always be accepted by the agency if they are inconsistent with the actual vehicle design. The manufacturer's designation must be made in good faith and must conform to the basic policies and tenor of the National Traffic and Motor Vehicle Safety Act. To clarify the NHTSA's position on this subject, the notice emphasized to manufacturers that any position in the front seat of a vehicle capable of accommodating a person at least as large as a 5th percentile adult female will be considered a "designated seating position" by the agency, if the overall seat configuration and design is such that the position is likely to be used as a seating position while the vehicle is in motion.

In spite of this earlier notification to manufacturers, the agency has tentatively concluded that further action is necessary to secure greater consistency in the seating capacity designations by the manufacturers and to assure consumers contemplating buying a new vehicle that comparable vehicles are similarly designated. Several factors have led to this conclusion. First, the responses to an investigation of the criteria used by manufacturers to designate seating capacities of current models indicate that manufacturers' determinations often involve many factors which are purely marketing considerations. For example, one manufacturer stated that it changed the front and rear seating configuration on one of its models from 3/2 to 2/3 (number of positions) because competitive cars with similar dimensions for front-seat shoulder and hip room were being designated with only two front seat positions. This change was made even though the front and rear seats remained basically the same in terms of seating space.

Second, inquiries from manufacturers since the previous notification was issued indicate manufacturers are unclear about their latitude in designating seating capacities of future vehicle designs. General Motors Corp. requested that the NHTSA inspect one of its 1980 model designs to determine if the agency would accept a designation of two front seating positions for the vehicle. During inspection of this 1980 design, NHTSA personnel demonstrated that three large adult males could sit in the front bench seat, even though the seating was somewhat cramped. A small child or a 5th percentile female could sit in this center seating position with no problem, and the position would likely be so used. The NHTSA would, therefore, consider the center position to be a designated seating position, requiring a restraint system. General Motors, however, is already geared for full production of this 1980 design with only two front designated seating positions.

The fact that manufacturers have made inquiries of this sort indicates that considerations other than providing restraint systems for all possible occupants are often determinative in the manufacturer's designation of seating capacity. The manufacturers have stated that many factors are involved in designating seating capacities, including program objectives, marketing considerations, and engineering considerations. The manufacturers point to seat width, hip room, shoulder room, leg room, seat trim and seat padding among other things to demonstrate their "intent" concerning the number of positions that should be used for seating accommodation. For example, even though a particular model might have sufficient hip and shoulder room in the front seat for three passengers, the manufacturer points to seat trim and lack of comparable seat padding in the center position as evidence that the manufacturer does not intend for that position to be used. This reasoning does not take into account, however, the realities of the vehicle's actual use and what the manufacturer can expect if he has provided sufficient space for a third seat passenger, even if the center position is not as comfortable as the two outside seat positions. If there is sufficient space for a center seat passenger, and no rigid obstruction such as a console, in a bench or split-bench seat, it must be said that the manufacturer "intended" it to be used as a seating position, since the manufacturer cannot ignore the fact that the center position will likely be used by a substantial number of persons. The manufacturer's main concern should be to assure that all potential seat passengers are provided with restraint systems, and this should be the determinative factor in the number of seating positions he designates. If there is a question whether the position will be used, the manufacturer's decision should be to provide a restraint system.

Although the agency's position is embodied in the existing definition of "designated seating position" and the interpretations of that definition, the above considerations have led to the conclusion that the manufacturers have exceeded their discretion in this area. Manufacturers have apparently construed the phrase, "intended by the manufacturer," in the current definition to grant "carte blanche" in designating seating capacity, regardless of the likely or actual use that will result because of the vehicle's design. Accordingly, this notice proposes to amend the definition of "designated seating position" to remove reference to the manufacturer's "intent" and to specify criteria to assure proper and consistent designations of seating capacity.

After considering the various methods to set such minimum limits, the agency has tentatively concluded that the amount of available hip space in the seat(s) is the singlemost determinative factor in whether a center position will in fact be used for seating accommodation while the vehicle is in motion. although such factors as seat trim, leg room, head room and seat padding may influence the number of people that will use the center space in a bench or split-bench seat, if there is sufficient hip seat room, a substantial number of persons will use that center space as a seating position. These other factors become even less important in the case of small children who do not require much leg room or shoulder room. Therefore, the proposed definition sets dimensional limits on the amount of hip space that can be provided in a bench or split-bench seat unless three or more seating positions are designated by the manufacturer. The agency is interested in comments whether other dimensional criteria should be included in the caveat, such as shoulder space, for example.

In selecting the hip-space criteria for the proposed definition, the agency examined the amount of hip space in various current vehicle models in relation to the number of seating positions designated for that hip space. Interestingly, this examination demonstrated inconsistencies in current designation. It was found that several models have more hip space in the front bench or split-bench seat that in the rear seat, yet the rear seat is designated with three positions and the front seat only two. For example, one vehicle model had 56.2 inches of hip space in the front seat with only two positions designated and 48.7 inches of hip space in the rear seat with three positions designated and three sets of restraint systems provided.

Based on its investigation, the agency has tentatively concluded that the hip-space criteria should be set at 50 inches. This dimension is approximately three times the 16.5-inch hip width of a 95th percentile adult male (a male weighing 215 pounds) and would provide adequate hip space for three adults to sit side-by-side. While it may be argued that additional hip space would be necessary for reasons of comfort or to accommodate winter clothing, it is apparent that the 50 inches of hip space is more than adequate to seat most sizes of vehicle occupants three abreast, especially if the occupants are smaller than 95th percentile adult males. Therefore, the proposed definition of "designated seating position" qualifies a general meaning that is similar to the existing definition with the caveat that any bench or split-bench seat having greater than 50 inches of hip space shall have not less than three designated seating positions. While the 50-inch limit is more space than would be required for three 5th percentile females (or for small children in a center seating position), the level is specified only as a minimum. The 50-inch specification does not mean that some vehicle seats with less than 50 inches of hip space should not also have more than two designated seating positions. The specification is merely the amount of space the agency will consider as conclusive evidence that there should be at least three designated seating positions.

In response to the agency's previous notification to manufacturers concerning "designated seating positions," several comments were received stating that much more is involved than number of restraint systems if designated seating capacity is increased. The comments stated that there could also be problems with tire loading and with braking capabilities, since these aspects of vehicle design are related to vehicle weight which is affected by seating capacity. The agency's response to these concerns is that if a vehicle's actual seating capacity is greater than that designated by the manufacturer, the tire loading and braking capabilities should be adjusted to accommodate the actual occupant weight the vehicle will be carrying, just as the vehicle should be equipped with additional restraint systems.

Automobile Importers of America, Inc. also stated that the NHTSA's position has raised questions with respect to small vehicles. The AIA is concerned that "the agency may consider any seat that would accommodate a 5th percentile adult female to be a designated seating position even though not so designated by the manufacturer." As stated in the previous notice, and as specified in the proposed definition, any position that is capable of accommodating a 5th percentile adult female will be considered a designated seating position if the overall seat configuration and design is such that the position will likely be used for seating accommodation while the vehicle is in motion. This, of course, applies to small vehicles as well as large vehicles. The agency would not consider each amount of space large enough for a 5th percentile female to be a separate designated seating position, however, if the seat configuration and design were not such that the spaces would likely be used as distinct seating positions. The caveat specified in today's proposal is an automatic limit on a manufacturer's discretion, but the limit is based on a 95th percentile male and not a 5th percentile female.

The caveat specified in the proposed definition would not become effective until September 1, 1979. Manufacturers would be allowed to continue their current production plans until that date.

The proposed definition change should have no inflationary or environmental impacts, since it only clarifies the existing definition and its interpetations.

The engineer and lawyer primarily responsible for the development of this notice are Guy Hunter and Hugh Oates, respectively.

In consideration of the foregoing, it is proposed that the definition of "designated seating position" as specified in 49 CFR 571.3 be amended to read as follows:

"Designated seating position" means any plan view location capable of accommodating a person at least as large as a 5th percentile adult female, if the overall seat configuration and design and vehicle design is such that the position is likely to be used as a seating position while the vehicle is in motion, except for auxiliary seating accommodations such as temporary or folding jump seats. Any bench or split-bench seat in a passenger car, truck or multipurpose passenger vehicle with a GVWR less than 10,000 pounds, having greater than 50 inches of hip space shall have not less than three designated seating positions.

Interested persons are invited to submit comments on the proposal. It is

V 43 / 189 SEP 28 1978

requested but not required that 10 copies be submitted.

All comments must be limited not to exceed 15 pages in length. Necessary attachments may be appended to these submissions without regard to the 15-page limit. This limitation is intended to encourage commenters to detail their primary arguments in a succinct and concise fashion.

If a commenter wishes to submit certain information under a claim of confidentiality, three copies of the complete submission, including purportedly confidential information, should be submitted to the Chief Counsel, NHTSA, at the address given above, and seven copies from which the purportedly confidential information has been deleted should be submitted to the Docket Section. Any claim of confidentiality must be supported by a statement demonstrating that the information falls within 5 U.S.C. section 552(b)(4), and that disclosure of the information is likely to result in substantial competitive damage; specifying the period during which the information must be withheld to avoid that damage; and showing that earlier disclosure would result in that damage. In addition, the commenter or, in the case of a corporation, a responsible corporate official authorized to speak for the corporation must certify in writing that each item for which confidential treatment is requested is in fact confidential within the meaning of section 552(b)(4) and that a diligent search has been conducted by the commenter or its employees to assure that none of the specified items has previously been released to the public.

All comments received before the close of business on the comment closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

(Secs. 103, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1407); delegations of authority at 49 CFR 1.50 and 501.8.)

Issued on September 21, 1978.

MICHAEL M. FINKELSTEIN,
Acting Associate Administrator for Rulemaking.

[7035-01]

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1064]

[Ex Parte MC-95 (Sub-No. 2)]

PRACTICES OF MOTOR COMMON CARRIERS OF PASSENGERS—CHECKED BAGGAGE LIABILITY PROVISIONS

Proposed Rulemaking

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: Presently, the ICC regulations on liability coverage for checked baggage on motor common carriers is $250 minimum per adult ticket. This document proposes a rule to require motor common carriers of passengers and baggage who publish tariff provisions limiting their liability, to also permit passengers to declare a value for their baggage in excess of the minimum $250 liability at an additional chrage. This new provision would allow passengers to more fully recover the value of their baggage if damaged or lost.

DATE: Comments must be received on or before October 30, 1978.

ADDRESS: Send comments to: Office of Proceedings, Interstate Commerce Commission, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT:

Martin E. Foley, 202-275-7348.

SUPPLEMENTARY INFORMATION: The Commission, in docket No. MC-C-6829 (which embraced docket MC-C-6829 (Sub-1)) Limitation of Free Baggage Allowance—Greyhound, 120 MCC 719 (1974), among other matters, established regulations (49 CFR 1064.1) requiring that the minimum permissible liability for baggage per adult ticket be $250.

Subsequent to the establishment of this regulation, the bus carriers increased their limited liability per adult fare from $50 to $250, but, in many instances, did not provide for the declaration of value in excess of $250.

While the 49 CFR Part 1064 regulations are silent on this matter, it is obvious from the Commission's statements in the MC-C-6829 proceeding that the Commission intended for the carriers who do publish limited baggage liability per adult fare also to provide passengers with the opportunity to declare a value in excess of that liability. For example, the Commission stated in its interim report in the proceeding, at 118 MCC 838, page 848, the following:

> In our judgment (the rules) are reasonable in requiring that the public be given adequate notice of the liability limits to which their baggage is subject and in requiring that all passengers checking baggage have an opportunity to obtain coverage for excess value * * *.

It is therefore appropriate at this time to consider the establishment of a rule requiring the carriers, which elect to publish a limit on personal baggage liability under the adult fare, to permit passengers to obtain greater coverage.

This decision does not significantly affect the quality of the human environment.

Copies of submitted comments will be available for public use in the Office of the Secretary, 12th and Constitution Avenue NW., Washington, D.C., during the Commission's regular business hours.

Copies of this notice will be served on respondents in this proceeding.

Notification to the general public will be provided by the mailing of a copy of this notice to the Governor of every State, to the Public Utilities Commissions or boards of each State having jurisdiction over passenger bus transportation, by depositing a copy in the Office of the Secretary, Interstate Commerce Commission for public inspection, and by delivering a copy to the Director, Office of the Federal Register.

It is ordered that:

1. A rulemaking is instituted under the provisions of the Interstate Commerce Act and section 553 of the Administrative Procedure Act to consider whether the amendment of § 1064.1 of title 49 of the Code of Federal Regulations in the manner set forth below, is warranted.

2. All common carriers of passengers by motor vehicle are made respondents in this proceeding.

Dated: September 14, 1978.

By the Commission, Chairman O'Neal, Vice Chairman Christian, Commissioners Murphy, Brown, Stafford, Gresham, and Clapp. Commissioner Murphy not participating.

H. G. HOMME, JR.,
Acting Secretary.

§ 1064.1 Minimum permissible limitations for baggage liability.

Motor common carriers of passengers and baggage subject to part II of the Interstate Commerce Act may not publish tariff provisions limiting their liability for loss or damage to baggage checked by a passenger transported in regular route or special operations unless:

(a) The amount for which liability is limited is $250 or greater per adult fare, and

(b) The provisions permit the passenger, for an additional charge, to declare a value in excess of the limited amount and allow the passenger to recover the increased amount (but not higher than the actual value) in event of loss or damage. Appropriate identification must be attached securely by the passenger to each item of baggage checked, indicating in a clear and legible manner the name and address to which the baggage should be forwarded if lost and subsequently recovered. Identification tags shall be made immediately available by the carriers to passengers upon request.

National Oceanic and Atmospheric Administration

MID—ATLANTIC FISHERY MANAGEMENT COUNCIL

Meeting

AGENCY: National Marine Fisheries Service, NOAA.

ACTION: Notice of public meeting with partially closed session.

SUMMARY: The Mid-Atlantic Fishery Management Council, established by section 302 of the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265), will meet to discuss: (1) Surf clam management plan, (2) mackerel management plan, (3) squid management plan, (4) butterfish management plan, (5) position of the United States in international agreements with Canada, and (6) other administrative matters.

With the exception of the agenda item relative to the position of the United States in agreements with Canada, the meeting is open to the public. For information on changes to the agenda, please contact the Executive Director.

The Assistant Secretary for Administration of the Department of Commerce, with the concurrence of the General Counsel, formally determined on September 21, 1978, pursuant to section 10(d) of the Federal Advisory Committee Act, Title 5 United States Code Appendix, that this portion of the aforementioned October 12, 1978, meeting may be closed to the public in accordance with section 552b(c)(1) of Title 5, United States Code, to protect security classified information and to insure the free discussion thereof, since this portion of the meeting is likely to "disclose matters that are (a) specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and (b) in fact properly classified pursuant to such Executive order." This determination was made in accordance with the provisions of 5 U.S.C. 552b(c)(1). (A copy of the determination is available for public inspection and copying in the Public Reading Room, Central Reference and Record Inspection Facility, Room 5317, Department of Commerce.)

DATES: The meeting will commence at 1 p.m. on October 10, 1978, and will adjourn approximately 1 p.m. on October 12, 1978. A closed session to discuss position of the United States in international agreements with Canada is scheduled for 12 noon until 1 p.m. on October 12, 1978. Only those Council members and staff having security clearances will be allowed to attend this closed session.

ADDRESS: The meeting will be held at the Airport Motel, Philadelphia International Airport, Route 291, Philadelphia, Pa. 19153, phone 215-365-7000.

FOR FURTHER INFORMATION CONTACT:

John C. Bryson, Executive Director, Mid-Atlantic Fishery Management Council, North and New Streets, Room 2115, Federal Building, Dover, Del. 19901, phone 302-674-2331.

Dated: September 22, 1978.

WINFRED H. MEIBOHM,
Associate Director, National Marine Fisheries Service.

U.S. DEPARTMENT OF COMMERCE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, MID-ATLANTIC FISHERY MANAGEMENT COUNCIL; NOTICE OF DETERMINATION FOR PARTIAL CLOSURE OF THE MEETING

The Mid-Atlantic Fishery Management Council has scheduled a meeting in Philadelphia, Pa., for October 10-12, 1978. The Council has requested that the meeting be partially closed with respect to the agenda item to discuss the position of the United States in international agreements with Canada.

The Council was established pursuant to section 302 of the Fishery and Conservation Management Act of 1976 (Pub. L. 94-265). There are 19 voting members of the Council, including the Regional Director of the National Marine Fisheries Service, the principal State officials with fishery management expertise from New York, New Jersey, Delaware, Maryland, Virginia, and Pennsylvania, and 12 members appointed by the Secretary of Commerce. Nonvoting members include representatives of the U.S. Fish and Wildlife Service, U.S. Coast Guard, and Atlantic States Marine Fisheries Commission.

The Council's agenda scheduled for the afternoon session on October 12, 1978, involves a discussion of the position of the United States in international agreements with Canada. In order to protect the confidentiality of the negotiating process, these positions are generally unreleasable. Accordingly, pursuant to the authority delegated to me by the Secretary of Commerce, I find and determine pursuant to section 10(d) of the Federal Advisory Committee Act, 5 U.S.C. Appendix that this portion of the aforementioned October 12, 1978, meeting may be closed to the public in accordance with section 552(b)(c)(1) of Title 5, United States Code, to protect security classified information and to insure the free discussion thereof, since this portion of the meeting is likely to "disclose matters that are (a) specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and (b) in fact properly classified pursuant to such Executive order."

All other portions of the meetings will be open to the public.

Dated: September 21, 1978.

GUY W. CHAMBERLIN, Jr.,
Assistant Secretary for Administration.

Dated: September 19, 1978.

ALFRED MEISNER,
Assistant General Counsel.

[3510-22]

NORTH PACIFIC FISHERY MANAGEMENT COUNCIL

Meeting

AGENCY: National Marine Fisheries Service, NOAA.

ACTION: Notice of public meeting.

SUMMARY: Pursuant to section 10 (a)(2) of the Federal Advisory Committee Act, 5 U.S.C., appendix I, notice is hereby given of a joint meeting of the North Pacific Fishery Management Council, established by section 302 and its Scientific and Statistical Committee (SSC), and its Advisory Panel (AP), established by section 302(g), of the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265), and separate meetings of the SSC and AP.

DATES: The SSC and AP will meet separately on November 1, 1978. The SSC will meet at 10 a.m. and the AP will meet at 9:30 a.m. The Council and its SSC and AP will meet jointly on November 2-3, 1978; convening at 8:30 a.m. and adjourning at approximately 5 p.m. on both days. The meetings may be extended or shortened depending upon progress on the agenda.

ADDRESS: On November 1, 1978, the AP will meet at the Anchorage/Westward/Hilton Hotel Commodore Room. On November 1, 1978, the SSC will meet at the Council headquarters, 333 West 4th Avenue, suite 32, Anchorage, Alaska. On November 2-3, 1978, the council, SSC, and AP will meet jointly at the Anchorage/Westward/Hilton Hotel, Third and E Streets, Anchorage, Alaska, in the Alaska Room.

FOR FURTHER INFORMATION CONTACT:

Mr. Jim H. Branson, Executive Director, North Pacific Fishery Management Council, P.O. Box 3136DT, Anchorage, Alaska 99510, Telephone: 907-274-4563.

SUPPLEMENTARY INFORMATION: All council, SSC, and AP meetings will be open to the public. For information on seating arrangements, changes to the agenda, and/or written comments, contact the Executive Director. Proposed Agenda:

V 43 / 189 SE 28 78 LIMI

NOVEMBER 2, 1978

(1) Executive Director's Report and other council administrative business; (2) Reports from the scientific and Statistical Committee, and Advisory Panel; (3) Progress Report and update from the Council's Drafting Management Planning Teams; (4) Period for public comment; (5) Review of foreign fishing activities.

NOVEMBER 3, 1978

(1) Discussions of management plans; High Seas Salmon Fishery Off the Coast of Alaska East of 175° F. Longitude; Bering Sea clam fishery; King Crab; Bering Sea Groundfish Fishery; Tanner Crab Off Alaska; Gulf of Alaska Groundfish Fishery; Bering Sea shrimp Fishery; Halibut; and Herring; and (2) Other council business.

Dated; September 22, 1978.

WINFRED H. MEIBOHM,
Associate Director,
National Marine Fisheries Service.

DEFENSE ADVISORY COMMITTEE ON WOMEN IN THE SERVICE

Notification of Meeting

Pursuant to Pub. L. 92-463 notice is hereby given that a meeting of the Defense Advisory Committee on Women in the Services (DACOWITS) will be held October 29-November 1, 1978, at The Biltmore Hotel and Governors Island, New York, N.Y.

The purpose of the DACOWITS committee is to assist and advise the Secretary of Defense on matters relating to women in the services. The committee meets semiannually.

Sessions will be conducted daily as indicated and will be open to the public. The agenda will include the following meetings and discussions:

SUNDAY, OCTOBER 29, 1978, THE BILTMORE

12 noon to 3 p.m.—Registration.
1:30 p.m. to 3 p.m.—Briefing and coffee for new members.
3 to 4:30 p.m.—Executive committee meeting.
6 to 9:30 p.m.—Official Department of Defense and Department of Transportation formal reception and dinner (by invitation only).

MONDAY, OCTOBER 30, 1978, THE BILTMORE

8 to 11:30 a.m.—Registration.
8:45 a.m.—Official opening.
9:30 a.m.—Coffee.
10 to 11:45 a.m.—OSD/service briefings.
12:00 noon to 1:30 p.m.—Luncheon.
1:45 to 5 p.m.—OSD/service briefings and subcommittee meetings.
To be determined—Dinner—"No Host".

TUESDAY, OCTOBER 31, 1978, GOVERNORS ISLAND, N.Y.

7:30 a.m.—Enroute to Governors Island, N.Y.
To be determined—Tours and briefings to be arranged by the U.S. Coast Guard.
12 to 1:30 p.m.—Luncheon—"No Host".
To be determined—Tours and briefings to be arranged by the U.S. Coast Guard.
To be determined—Enroute to the Biltmore Hotel.
To be determined—Dinner—"No Host" or free evening.
To be determined—Theatre party (Prearranged).

WEDNESDAY, NOVEMBER 1, 1978, THE BILTMORE

8 a.m.—Executive committee and directors/senior military representatives meeting.
Presentations by members of the public.
General business session.
1 p.m.—Adjourn.

Members of the public will not be permitted to go on the field trip or attend the social functions.

The following rules and regulations will govern the participation by members of the public at this meeting:

(1) All business sessions, to include Executive committee sessions, will be open to the public.

(2) Interested persons may submit a written statement and/or make an oral presentation for consideration by the committee during the meeting.

(3) Persons desiring to make an oral presentation or submit a written statement to the committee must notify Lt. Col. Barbara J. Roy, USMC, DACOWITS, Executive Secretary, OASD (Manpower, Reserve Affairs and Logistics), Room 3D324, the Pentagon, Washington, D.C. 20301, 202-697-5655-56 by October 16, 1978.

(4) Length and number of oral presentations to be made will depend on the number of requests received from the members of the public.

(5) Oral presentations by members of the public will be permitted only from 9 to 10 a.m. on Wednesday, November 1, 1978 before the full committee.

(6) Each person desiring to make an oral presentation or submit a written statement must provide the DACOWITS Secretariat with 40 copies of the presentation/statement by October 16, 1978.

(7) Persons submitting a written statement only for inclusion in the minutes of the meeting must submit one (1) copy either before or during the meeting or within five (5) days after the close of the meeting.

(8) Members of the public will not be permitted to enter into the oral discussion conducted by the committee members at any of the sessions; however, they will be permitted to reply to questions directed to them by members of the committee.

(9) Members of the public will be permitted to orally question the scheduled speakers if time allows after the official participants have asked questions and/or made comments.

(10) Questions from the public will not be accepted during the subcommittee sessions, the executive committee sessions, or the final general session on Wednesday, November 1, 1978.

Additional information regarding the committee and/or this meeting may be obtained by contacting the DACOWITS Executive Secretary, OASD (M.R.A. & L.), The Pentagon, Washington, D.C. 20301.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Service, Department of Defense.

DEPARTMENT OF ENERGY

Office of Intergovernmental and Institutional Relations

CONSUMER AFFAIRS ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Consumer Affairs Advisory Committee will meet at 9 a.m. Tuesday, October 17, 1978, in Room 7E069, Forrestal Building, 1000 Independence Avenue SW., Washington, D.C.

The purpose of the committee is to provide the Secretary of Energy with diversified expert advice from qualified individuals relating to the identification and evaluation of the impact of proposed or existing energy policies and programs on consumers, the identification of areas where new policy initiatives or program change is needed, and planning, developing, and implementing equitable energy policies and programs.

The agenda for the meeting is as follows:

1. Election of permanent subcommittee chairmen.
2. Update on domestic policy review on solar energy.
3. Update on DOE intervention funding.
4. Subcommittee reports.
5. Public comment (10-minute rule).
6. Report on commercialization task force.
7. Discussion of crisis intervention.

The meeting is open to the public. The chairman of the committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the committee concerning items on the agenda will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements concerning items on the agenda should inform Georgia Hildreth, Director, Advisory Committee Management, 202-252-5877, at least 5 days prior to the meeting and reasonable provision will be made for their appearance on the agenda.

The transcript of the meeting will be available for public review at the Free-

dom of Information Public Reading Room, Room 2107, DOE, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Any person may purchase a copy of the transcript from the reporter.

Issued at Washington, D.C., on September 25, 1978.

WILLIAM P. DAVIS,
Deputy Director of Administration.

[FR Doc. 78-27327 Filed 9-27-78; 8:45 am]

[3128-01]

CONSUMER AFFAIRS ADVISORY COMMITTEE SUBCOMMITTEES

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Consumer Affairs Advisory Committee subcommittees will meet Monday, October 16, 1978, in Rooms 7E069A and 7E069B, Forrestal Building, 1000 Independence Avenue SW., Washington, D.C., at the time indicated below.

The objective of the subcommittees is to make recommendations to the parent committee with respect to matters concerning consumer aspects of DOE policies and programs.

The agenda and schedule of meetings is as follows:

CONSUMERS' RIGHT TO HEAT AND LIGHT

9 a.m.-12 Room 7E069A.
Agenda:
Weatherization program followup.
Review of NEA impacts on utility operations.
Discussion of regulatory intervention policy.

CONSUMERS' RIGHT TO APPROPRIATE ENERGY SOURCES

9 a.m.-12 Room 7E069B.
Agenda:
DOE appropriate technology small grants program.
Office of Consumer Affairs project with Defense Civil Preparedness Agency.
Discussion of DOE fusion policy.

FUNDED PUBLIC PARTICIPATION OF CONSUMER ORGANIZATIONS.

1 p.m.-4 Room 7E069A.
Agenda:
Preliminary report on August 4, 1978, committee request for contracts and grants information.

OVERSIGHT OF DOE

1 p.m.-4 Room 7E069B.
Agenda:
Preliminary report on August 4, 1978, committee request for information on utilities programs and policies.

The subcommittee meetings are open to the public. The chairman of each subcommittee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with a subcommittee concerning items on the agenda will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements concerning items on the agenda should inform Georgia Hildreth, Director, Advisory Committee Management, 202-252-5877, at least 5 days prior to the meeting and reasonable provision will be made for their appearance on the agenda.

The transcript of the meeting will be available for public review at the Freedom of Information Public Reading Room, Room 2107, DOE, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Any person may purchase a copy of the transcript from the reporter.

Issued at Washington, D.C., on September 25, 1978.

NATIONAL PETROLEUM COUNCIL, COORDINATING SUBCOMMITTEE AND TASK GROUPS OF THE SUBCOMMITTEE ON PETROLEUM INVENTORIES AND STORAGE AND TRANSPORTATION CAPACITIES

Meetings

Notice is hereby given that the Coordinating Subcommittee and the task groups of the Subcommittee on Petroleum Inventories and Storage and Transportation Capacities of the National Petroleum Council will meet on Tuesday, October 10, 1978, at the following times and locations at the Department of Energy, 20 Massachusetts Avenue NW., in Washington, D.C.

The National Petroleum Council was established to provide advice, information, and recommendations to the Secretary of Energy on matters relating to oil and gas or the oil and gas industries. The Subcommittee on Petroleum Inventories and Storage and Transportation Capacities will make an analysis of the petroleum inventories, and storage and transportation capacities of the United States, and will report its findings to the National Petroleum Council. Its analysis and findings will be based on information and data to be gathered by the task groups listed in this notice, whose efforts will be coordinated by the Coordinating Subcommittee.

The Coordinating Subcommittee of the Subcommittee on Petroleum Inventories and Storage and Transportation Capacities will meet in Room 8222-C at 10 a.m. Its tentative agenda is as follows:

1. Introductory remarks by R. Scott Van Dyke, chairman.
2. Briefing by Mario Cardullo, Government cochairman, on Department of Energy, Energy Transportation Projects.
3. Discussion of scope of the NPC study on U.S. Petroleum Inventories, and Storage and Transportation Capacities.
4. Discussion of the study methodology to be employed by Coordinating Subcommittee.
5. Discussion of any other matters pertinent to the overall assignment of the Coordinating Subcommittee.

The task groups will meet at the following times and locations.

1:30 p.m.—Petroleum pipeline: Room 4219-C.
2:30 p.m.—Gas pipeline: Room 5124-C.
3:30 p.m.—Inventories and storage: Room 7216-C.
3:30 p.m.—Waterborne transportation: Room 7225-C.
3:30 p.m.—Tank cars/trucks: Room 8234.

The agenda for the task groups sessions will be:

1. Introductory remarks.
2. Discussion of scope of the assignment of the task group.
3. Discussion of the study methodology of the task group.
4. Discussion of the timetable of the task group.
5. Discussion of any other matters pertinent to the overall assignment of the task group.

The meetings are open to the public. The chairmen of the Coordinating Subcommittee and task groups are empowered to conduct the meetings in a fashion that will, in their judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Coordinating Subcommittee or task groups will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Dr. Erik A. Svenson, Office of Policy and Evaluation, 202-376-1846, prior to the meeting and reasonable provision will be made for their appearance on the agenda.

Transcripts of the meeting will be available for public review at the Freedom of Information Public Reading Room, Room 2107, DOE, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Any person may purchase a copy of the transcripts from the reporter.

Issued at Washington, D.C., on this 25th day of September 1978.

WILLIAM P. DAVIS,
Deputy Director of Administration.

Office of the Secretary

INTERNATIONAL ENERGY AGENCY INDUSTRY ADVISORY BOARD

Voluntary Agreement and Plan of Action to Implement the International Energy Program; Meeting

In accordance with section 252(c)(1)(A)(i) of the Energy Policy and Conservation Act (Pub. L. 94-163), notice is hereby provided of the following meeting:

A meeting of the Industry Supply Advisory Group (ISAG) of the Industry Advisory board to the International Energy Agency (IEA) will be held on September 28 and 29, 1978, at the offices of Gulf Oil Corp., Gulf Building, 439 Seventh Avenue, Pittsburgh, Pa., beginning at 9 a.m. on September 28. The agenda is as follows:

1. Opening remarks.
2. Status of legal clearances required for future tests and/or real emergencies.
3. Mechanism for future tests to control tonnage available in crisis.
4. ISAG/Secretarial operations manual.
5. General reorganization of ISAG—including examination of the role of the Country Supply Group.
6. Membership changes, method/plan for providing continuity of ISAG personnel assignments; training; etc.
7. Future work program and schedule.

As provided in section 252(c)(1)(A)(ii) of the Energy Policy and Conservation Act, this meeting will not be open to the public. As provided by section 209.32 of DOE regulations, IEP requirements and unanticipated procedural delays in processing this notice require the usual 7-day notice period to be shortened.

Issued in Washington, D.C., September 26, 1978.

LYNN R. COLEMAN,
General Counsel.

SCIENCE ADVISORY BOARD; CLEAN AIR SCIENTIFIC ADVISORY COMMITTEE

Meeting

As Required by Pub. L. 92-463, notice is hereby given that a meeting of the Clean Air Scientific Advisory Committee of the Science Advisory Board will be held beginning at 9 a.m., November 1 and 2, 1978 in the Administrator's Conference Room (Room 1101 West Tower), EPA Headquarters, 401 M Street SW., Washington, D.C. This is the first meeting of the Clean Air Scientific Advisory Committee. The agenda includes a briefing on a timetable for preparing air quality criteria documents; presentation of an issue paper on inhalable particulate matter; presentation of plans for the development of criteria documents for sulfur oxides; a briefing on the process of setting ambient air quality standards, and a discussion of standards currently being developed. The meeting is open to the public. Any member of the public wishing to attend, participate, or obtain information should contact Mr. Robert Flaak or Mr. Terry F. Yosie, Staff Officers, Clean Air Scientific Advisory Committee, 703-557-7720 by close of business October 25, 1978.

Dated: September 8, 1978.

RICHARD M. DOWD,
Staff Director Science Advisory Board.

[FRL-997-2]

FUELS AND FUEL ADDITIVES: GASAHOL AND ARCONOL

Suspension of Enforcement

AGENCY: Environmental Protection Agency.

ACTION: Suspension of Enforcement under section 211(f) of the Clean Air Act.

SUMMARY: Section 211(f)(3) of the Clean Air Act (Act), 42 U.S.C. 7545(f)(3), as amended, states that any manufacturer of any fuel or fuel additive which prior to March 31, 1977, and after January 1, 1974, first introduced into commerce or increased the concentration in use of a fuel or fuel additive that would otherwise have been prohibited under section 211(f)(1) if introduced on or after March 31, 1977, shall, not later than September 15, 1978, cease to distribute such fuel or fuel additive.

The above prohibition is applicable to the following fuels or fuel additives which are the subject of waiver applications presently pending before the Agency under section 211(f)(4) of the Act:

1. Gasohol—a 10-percent ethyl alcohol and 90-percent unleaded gasoline mixture.
2. Arconol—Atlantic Richfield Co.'s trade name for a fuel additive consisting primarily of tertiary butyl alcohol blended up to 7 percent in unleaded gasoline.

The following fuel additive is prohibited under section 211(f)(1) of the Act since it was not first introduced into commerce for use in unleaded gasoline prior to March 31, 1977.

3. MTBE—methyl tertiary butyl ether blended up to 15 percent in unleaded gasoline.

A waiver application for MTBE is pending before the Agency under section 211(f)(4) of the Act.

Enforcement of the section 211(f)(3) prohibition is hereby suspended for Gasohol and Arconol until the Administrator decides to grant or deny the pending waiver requests or until the 180 day review periods end. The last day of the 180 day review period for each waiver request is as follows:

Fuel component	Waiver applicant	End of 180-day review period
Gasohol.....	Gas Plus, Inc. and Illinois Department of Agriculture.	Dec. 16, 1978.
Arconol.....	Atlantic Richfield Co.	Feb. 7, 1979.

The section 211(f)(1) prohibition against the introduction of MTBE into commerce for use in unleaded gasoline has been in effect since March 31, 1977. Since this fuel additive is not being distributed, it is not necessary to consider suspending enforcement of the prohibition. The end of the 180 day review period for the MTBE waiver application is December 27, 1978.

Enforcement of the ban against the distribution of Gasohol and Arconol is being suspended to avoid any undesirable economic impacts on the manufacturers of these fuel components during the period that decisions regarding the waiver applications are being made or until the review periods end. Since any future waiver applications will be for fuels or fuel additives prior to their distribution into commerce, no similar economic impacts are anticipated to arise in such cases.

This suspension of enforcement applies only to the two fuel components named in this notice. The prohibitions under sections 211 (f)(1) and (f)(3)

V 43/189 SE 28 78

remain in effect for all other fuels and fuel additives.

Dated: September 15, 1978.

MARVIN B. DURNING,
Assistant Administrator for Enforcement.

FEDERAL COMMUNICATIONS COMMISSION

ADVISORY COMMITTEE ON CABLE SIGNAL LEAKAGE

Third Meeting

Pursuant to section 10 of the Federal Advisory Committee Act, notice of a meeting of the Advisory Committee on Cable Signal Leakage is hereby given. The meeting will be at 10 a.m. on Tuesday, October 17, 1978, in Room 7327 of the Federal Communications Commission offices at 2025 M St. NW., Washington, D.C. This meeting is called in accordance with the desires of the Advisory Committee as expressed at the Second Meeting on July 20, 1978.

The agenda are as follows:

(1) Review of airspace and ground measurements made since the Second Meeting of July 20;

(2) Discussion of any modifications which may be needed for "final" airspace measurements, which are expected to take place in November.

Any member of the public may attend or file a written statement with the Commission either before or after the meeting. Any member of the public wishing to make an oral statement must consult with the Committee prior to the meeting. Inquiries may be directed to Mr. Robert S. Powers, F.C.C., 2025 M St. NW., Washington, D.C. 20554, telephone 202-632-9797.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

[6210-01]

HONG KONG AND SHANGHAI BANKING CORP. ET AL.

Formation of Bank Holding Companies

The Hong Kong and Shanghai Banking Corp., Hong Kong; Kellett N.V., Curacao, The Netherlands Antilles; and HSBC Holdings B.V., Amsterdam, The Netherlands, have applied for the Board's approval under § 3(a)(1) of the Bank Holding Co. Act (12 U.S.C. § 1842(a)(1) to become bank holding companies by acquiring approximately 51 percent of the voting shares of Marine Midland Banks, Inc., Buffalo, N.Y., a company that controls Marine Midland Bank, Buffalo, N.Y. The factors that are considered in acting on the applications are set forth in § 3(c) of the Act (12 U.S.C. § 1842(c).

These applicants have also applied, pursuant to § 4(c)(8) of the Bank Holding Co. Act (12 U.S.C. § 1843(c)(8)) and § 225.4(b)(2) of the Board's regulation Y (12 CFR § 225.4(b)(2)), for permission to acquire indirectly voting shares of the following subsidiaries of Marine Midland Banks, Inc.: Marine Midland Realty Credit Corp., Buffalo, N.Y., a corporation that engages in the origination, acquisition, servicing and placement of, and participation in, loans secured by real property, and provides advice on real estate investment, to the extent permitted by §§ 225.4(a)(1), (3), and (5) (iii) and (iv) of regulation Y (12 CFR §§ 225.4(a) (1), (3), and (5) (iii) and (iv)); Marine Midland Leasing Corp. and M. M. Leasing Services, Inc., Buffalo, N.Y., corporations that engage in personal property leasing activities to the extent permitted by § 225.4(a)(6)(a) of regulation Y (12 CFR § 225.4(a)(6)(i)); and American Dimensions, Inc., Irvine, Calif., a corporation that acquires, packages for sale to investors, and services real estate mortgages through its subsidiary, the Meairs Co. (d.b.a. Marine Midland Mortgage Co.), Irvine, Calif., to the extent permitted by §§ 225.4(a) (1), (3), and (4) of regulation Y (12 CFR §§ 225.4(a) (1), (3), and (4)). Notice of the applications with respect to American Dimensions, Inc., and the Meairs Co. was published on August 29, 1978, in the Arizona Republic (Phoenix, Ariz.); on August 31, 1978, in the Los Angeles Times (Los Angeles, Calif.); and on September 1, 1978, in the San Diego Union (San Diego, Calif.); and with respect to the remaining nonbank companies notice was published on August 25, 1978, in the Buffalo Evening News (Buffalo, N.Y.). The described activities have been specified by the Board in the sections of regulation Y referenced above as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of New York.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than October 20, 1978.

Board of Governors of the Federal Reserve System, September 21, 1978.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

FEDERAL TRADE COMMISSION

CENTRAL TELEPHONE AND UTILITIES CORP.

Early Termination of Waiting Period of the Premerger Notification Rules

AGENCY: Federal Trade Commission.

ACTION: Granting of request for early termination of the 30-day waiting period of the premerger notification rules.

SUMMARY: Central Telephone and Utilities Corp. is granted early termination of the 30-day waiting period provided by law and the premerger notification rules with respect to the proposed acquisition of Acoustics Development Corp. The grant was made by the Federal Trade Commission and the Assistant Attorney General in charge of the Antitrust Division of the Department of Justice in response to a request for early termination submitted by Central Telephone and Utilities Corp. Neither agency intends to take any action with respect to this acquisition during the waiting period.

EFFECTIVE DATE: September 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Malcolm R. Pfunder, Associate Director for Premerger Notification, Bureau of Competition, Room 303, Federal Trade Commission, Washington, D.C. 20580, 202-523-3894.

SUPPLEMENTARY INFORMATION: Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by sections 201 and 202 of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Commission and Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act and § 803.11 of the rules implementing the Act permit the two agencies, in individual cases, to terminate this waiting period prior to its expiration and to publish notice of this action in the FEDERAL REGISTER.

CAROL M. THOMAS,
Secretary.

R. QUINTUS ANDERSON

Early Termination of Waiting Period of the Premerger Notification Rules

AGENCY: Federal Trade Commission.

ACTION: Granting of request for early termination of the 30-day waiting period of the premerger notification rules.

SUMMARY: R. Quintus Anderson is granted early termination of the 30-day waiting period provided by law and the premerger notification rules with respect to the proposed acquisition of Sperry Rand's Marietta and Reno, Ohio office systems manufacturing plants and related assets. The grant was made by the Federal Trade Commission and the Assistant Attorney General in charge of the Antitrust Division of the Department of Justice in response to a request for early termination submitted by R. Quintus Anderson. Neither agency intends to take any action with respect to this acquisition during the waiting period.

EFFECTIVE DATE: September 18, 1978.

FOR FURTHER INFORMATION CONTACT:

Malcolm R. Pfunder, Associate Director for Premerger Notification, Bureau of Competition, Room 303, Federal Trade Commission, Washington, D.C. 20580, 202-523-3894.

SUPPLEMENTARY INFORMATION: Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by sections 201 and 202 of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Commission and Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act and § 803.11 of the rules implementing the Act permit the two agencies, in individual cases, to terminate this waiting period prior to its expiration and to publish notice of this action in the FEDERAL REGISTER.

ALLERGY AND CLINICAL IMMUNOLOGY RESEARCH COMMITTEE

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Allergy and Clinical Immunology Research Committee, National Institute of Allergy and Infectious Diseases on October 30 and 31, 1978, at the National Institutes of Health, Building 31, Conference Room 4, Bethesda, Md.

This meeting will be open to the public from 9 to 11:30 a.m. on October 30 to discuss program policies and issues. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in Sections 552b(c)(4) and 552b(c)(6), Title 5, United States Code and section 10(d) of Pub. L. 92-463, the meeting of the Committee will be closed to the public from 11:30 a.m. until recess on October 30 and from 9 a.m. to adjournment on October 31 for the review, discussion, and evaluation of individual grant applications. These applications and discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications.

Mr. Robert L. Schreiber, Chief, Office of Research Reporting and Public Response, NIAID, Building 31, room 7A32, National Institutes of Health, Bethesda, Md. 20014, telephone 301-496-5717, will provide summaries of the meeting, and rosters of the Committee members.

Dr. Harley G. Sheffield, Executive Secretary, Allergy and Clinical Immunology Research Committee, NIAID, NIH, Westwood Building, room 706, telephone 301-496-7465, will provide substantive program information.

HEALTH STUDY SECTIONS

Amended Notice of Meetings

Notice is hereby given of a change in the meeting date or place of the following National Institutes of Health study sections which were published in the FEDERAL REGISTER on September 13, 1978 (43 FR 40921).

The Bio-Psychology Study Section was to have met October 23-26, 1978, but will meet October 24-26, 1978 at 9:30 a.m. at the Sheraton Inn, Silver Spring, Md., the same time and location for which it was originally scheduled.

The Human Development Study Section was to have meet at the Embassy Row Hotel, Washington, D.C., but will met at the Holiday Inn, Chevy Chase, Md., October 25-27, 1978, at 9 a.m., the same dates and time for which it was originally scheduled.

The Microbial Chemistry Study Section was to have met October 25-27, 1978, but will meet October 26-27, 1978, at 8:30 a.m. in Conference Room 4, Building 31, National Institutes of Health, Bethesda, Md., the same time and location for which it was originally scheduled.

These meetings will be open to the public for approximately 1 hour at the beginning of the first session of the first day of the meeting.

Dated: September 21, 1978.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

PHARMACOLOGY-TOXICOLOGY REVIEW COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Pharmacology-Toxicology Review Committee, National Institute of General Medical Sciences, November 16, 1978, National Institutes of Health, Building 31C, Conference Room 7, Bethesda, Md.

This meeting will be open to the public on November 16 from 1 to 1:30 p.m. for opening remarks and general administrative business. Attendance by the public will be limited to space available.

In accordance with provisions set forth in Title 5, United States Code 552b(c)(6), the meeting will be closed to the public on November 16 from 1:30 to 5 p.m. or adjournment for the review, discussion, and evaluation of individual grant applications. These applications could reveal personal information concerning individuals associated with the applications.

Mr. Paul Deming, Research Reports Officer, NIGMS, Westwood Building, Room 9A05, Bethesda, Md. 20014, telephone 301-496-7301, will provide a summary of the meeting and a rooster of committee members.

Substantive program information may be obtained from Dr. Martha Panitch, Executive Secretary, Pharmacology-Toxicology Review Committee, Westwood Building, Room 953, Bethesda, Md. telephone 301-496-7585.

NIH PUBLIC ADVISORY COMMITTEE

Renewal

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776), the National Institutes of Health announces the renewal by the Secretary, HEW, with the concurrence of the Office of Management and Budget Committee Management Secretariat, of the following committees:

Bioanalytical and Metallobiochemistry Study Section.
Cardiovascular and Renal Study Section.
Epidemiology and Disease Control Study Section.
Experimental Therapeutics Study Section.
Experimental Virology Study Section.
General Medicine B Study Section.
Genetics Study Section.
Hematology Study Section.
Human Embryology and Development Study Section.
Immunological Sciences Study Section.
Medicinal Chemistry A Study Section.
Metabolism Study Section.
Microbial Chemistry Study Section.
Molecular Biology Study Section.
Molecular Cytology Study Section.
Neurological Sciences Study Section.
Neurology B Study Section.
Nutrition Study Section.
Pathobiological Chemistry Study Section.
Pathology A Study Section.
Pathology B Study Section.
Pharmacology Study Section.
Physiology Study Section.
Reproductive Biology Study Section.
Social Sciences and Population Study Section.
Surgery and Bioengineering Study Section.
Tropical Medicine and Parasitology Study Section.
Virology Study Section.
Visual Sciences A Study Section.
Visual Sciences B Study Section

Authority for the above committees will expire on June 30, 1980, unless the Secretary formally determines that continuance is in the public interest.

Dated: September 15, 1978.

DONALD S. FREDRICKSON,
Director,
National Institutes of Health.

Office of the Assistant Secretary for Health

ADVISORY COMMITTEE

Meetings

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following National Advisory body scheduled to meet during the month of November 1978:

HEALTH CARE TECHNOLOGY STUDY SECTION.

TIME AND DATE: November 2 3, 1978, 8 a.m.

PLACE: Sheraton Inn Washington-Northwest, 8727 Colesville Road, Silver Spring, Md. 20910.

STATUS: Open November 2, 8 a.m.-9 a.m.; closed for remainder of meeting.

PURPOSE: The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Center for Health Services Research.

AGENDA: The open session of the meeting on November 2 will be devoted to a business meeting covering ad

ministrative matters. The closed portion of the meeting will be utilized in a review of health services research grant applications relating to the delivery, organization, and financing of health services. The closing is in accordance with the provisions set forth in section 552b(c)(6), Title 5, United States Code, and the Determination by the Assistant Secretary for Health, pursuant to Pub. L. 92-463.

Anyone wishing to obtain a roster of members, minutes of meetings, or other relevant information should contact Dr. Alan E. Mayers, National Center for Health Services Research, OASH, Room 7-50A, Center Building, 3700 East-West Highway, Hyattsville, Md. 20782, Telephone 301-436-6196.

Agenda items are subject to change as priorities dictate.

Dated: September 22, 1978.

WAYNE RICHEY, JR.,
Associate Director for Management, Office of Health Policy Research and Statistics.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

IDAHO

Redelegation of Authority

Pursuant to the authority contained in section 1.1(a)(1) of BLM order 701, dated July 23, 1964, as amended, I hereby redelegate to the Chief, Division of Technical Services, and State Fire Management Officer, State of Idaho, certain functions of § 1.2(j) of the above cited order.

The Chief, Division of Technical Services, and State fire management officer may take emergency fire presuppression and suppression action to the degree necessary to insure:

(1) That maximum preparedness action is taken to meet anticipated needs during a period of exceptional fire load potential;

(2) That maximum fire suppression action is taken on going fires and that support is provided thereto.

This authority includes, but is not limited to, the following: Placing personnel on alert or on duty status; placement of personnel, supplies, and equipment at strategic locations prior to need; movement of personnel, supplies, and equipment by ground or air transportation; activation and employment of fire overhead teams; and coordination and direction of fire operations.

The authority above may be exercised during the following periods, and continuing thereafter until conclusion of the fire operation(s):

(1) During the activation period of the strength-of-force plan, or when fire occurrence, lightning incidence, hazard and risk factors and/or predicted or actual fire danger indices indicate the existence of a period of exceptional fire load potential.

(2) During going fires in Idaho, or upon receipt of request for support for going fires outside Idaho.

This redelegation will become effective upon publication in the FEDERAL REGISTER.

WILLIAM L. MATHEWS,
State Director.

[Wyoming 85035]

WYOMING

Notice of Application

SEPTEMBER 20,1978.

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Cities Service Gas Co. of Oklahoma City, Okla., filed an application for a right-of-way to construct a 6⅝-inch pipeline and related anode facilities for the purpose of transporting natural gas across the following described public lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 19 N., R. 93 W.,
Sec. 2, N½S½.

The proposed pipeline with appurtenant anode facilities will transport natural gas from a point in the SW¼SW¼ of sec. 3, to a point of connection with Cities Service Gas Co.'s existing pipeline in the NE¼SE¼ of sec. 2, T. 19 N., R. 93 W., in Carbon County, Wyo.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, 1300 Third Street, P.O. Box 670, Rawlins, Wyo. 82301.

MARLA B. BOHL,
Acting Chief, Branch of Lands and Minerals Operations.

[NM 27237]

NEW MEXICO

Opportunity for Public Hearing and Republication of Notice of Proposed Withdrawal

SEPTEMBER 21, 1978.

The Forest Service, U.S. Department of Agriculture, filed application serial No. NM 27237 on December 12, 1975, for a withdrawal in relation to the following described lands:

NEW MEXICO PRINCIPAL MERIDIAN

LINCOLN NATIONAL FOREST

T. 9 S., R. 11 E.,
Secs. 13 and 24, Cashier Lode Mining Claim, M.S. 639;
T. 9 S., R. 12 E.,
Secs. 13 and 14, Cashier Lode Mining Claim, M.S. 639;
T. 9 S., R. 12 E.,
Secs. 13 and 14, Grover Cleveland Lode Mining Claim, M.S. 723, portions not in conflict with M.S. 639 (Cashier Lode Mining Claim) and M.S. 568 (Diamond Crown Mining Claim).

The areas described aggregate 39.201 acres in the Nogal Mining District of Lincoln County.

The applicant desires the lands for the addition to, and the consolidation with national forest lands to permit more efficient administration thereof in the conservation of natural resources.

Pursuant to Sec. 204(h) of the Federal Land Policy and Management Act of 1976 (90 Stat. 2754), notice is hereby given that an opportunity for a public hearing is afforded in connection with the pending withdrawal application. All interested persons who desire to be heard on the proposed withdrawal must file a written request for a hearing with the State Director, Bureau of Land Management, Department of the Interior, P.O. Box 1449, Santa Fe, N. Mex. 87501, on or before October 31, 1978. If a public hearing is scheduled, a notice will be published

V 43 / 189

in the FEDERAL REGISTER giving the time and place of such hearing. All previous comments submitted in connection with the withdrawal application have been included in the record and will be considered in making a final determination on the application.

In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the pending withdrawal application may be filed with the undersigned authorized officer of the Bureau of Land Management on or before October 31, 1978.

The above-described land is temporarily segregated from all forms of appropriation under the public land laws. Current administrative jurisdiction over the segregated land will not be affected by the temporary segregation. In accordance with section 204(g) of the Federal Land Policy and Management Act of 1976, the segregative effect of the pending withdrawal application will terminate on October 20, 1991, unless sooner terminated by action of the Secretary of the Interior.

All communications (except for public hearing requests) in connection with the pending withdrawal application should be addressed to the undersigned, Bureau of Land Management, Department of the Interior, P.O. Box 1449, Santa Fe, N. Mex. 87501.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

OUTER CONTINENTAL SHELF ADVISORY BOARD—MID-ATLANTIC REGION

Notice and Agenda for Meeting

This notice is issued in accordance with the provisions of the Federal Advisory Committee Act, Pub. L. No. 92-643, 5 U.S.C. App. I and the Office of Management and Budget's Circular No. A-63, Revised.

The Mid-Atlantic Regional Board will meet during the period 1 p.m. to 4 p.m. October 13, 1978, at the Wintergreen, Wintergreen, Va. 22938.

The meeting will cover the following principal subjects:

1. Implementation of amendments to the OCS Lands Act.
2. Restructuring of the OCS Advisory Board
3. Status of OCS sale No. 49.
4 Status of OCS referral center.
5 Federal/State interface on OCS issues.
6. Federal consistency in the amendments to the OCS Lands Act.

The meeting is open to the public. Interested persons may make oral or written presentations to the Board. Such requests should be made by October 6 to the Mid-Atlantic Board Chairman:

Simon F. McHugh, Jr., Executive Assistant, Office of the Governor, Annapolis, Md. 21404, 301-261-2176.

Minutes of the meeting will be available for public inspection and copying 6 weeks after the meeting at the Office of OCS Program Coordination, Room 4126, Department of the Interior, 18th and C Streets NW., Washington, D.C.

SEPTEMBER 22, 1978.

[4710-07]

INTERNATIONAL BOUNDARY AND WATER COMMISSION U.S. AND MEXICO

INTENT NOT TO PREPARE ENVIRONMENTAL IMPACT STATEMENT

AGENCY: U.S. Section, International Boundary and Water Commission, United States and Mexico.

ACTION: Intent not to prepare an environmental impact statement.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Council on Environmental Quality Guidelines, and the Agency's "Operational Procedures for Implementing Section 102 of the National Environmental Policy Act of 1969" dated March 5, 1974, the Agency hereby gives notice that an environmental impact statement is not found necessary for the maintenance work consisting of removal of sediment that has accumulated in the channel of the Rio Grande canalization project in El Paso County, Tex., and Sierra and Dona Ana Counties, N. Mex., and the spoiling of said sediment on dry land, taking special care not to spoil the sediment on wetlands.

The findings of the environmental assessment of this action are that it does not constitute a major Federal action which would cause significant local, regional, or national impact on the environment. As a result of these findings, Mr. J. F. Friedkin, Commissioner, has determined that the preparation and review of an environmental impact statement are not needed for this action.

FOR FURTHER INFORMATION CONTACT:

Del McNealy, Principal Engineer (Supervising), U.S. Section, International Boundary and Water Commission, 4110 Rio Bravo, El Paso, Tex. 79902, 915-543-7330.

SUPPLEMENTARY INFORMATION: The Rio Grande canalization project was authorized by the Act of Congress approved June 4, 1936, 49 Stat. 1463, to facilitate compliance with the convention concluded with Mexico on May 21, 1906, that provided for equitable division of the waters of the Rio Grande, and to properly regulate and control, to the fullest extent possible, the water supply for use in the United States and in Mexico. Construction of the project was completed in 1947, and since then has been maintained annually.

The Agency's maintenance activities do not include the discharge of dredged or fill material into the channel of the Rio Grande. The Agency does excavate materials from the channel of the Rio Grande by use of wheel and track driven equipment to preserve the river channel, conserve water, and to provide effective control of floods, all to comply with the 1906 Treaty and other agreements between the United States and Mexico and the laws of the United States Congress. The material removed from the Rio Grande is deposited by the section only on dry lands in the following locations: within the project floodplain, land side of the project levees, and on other lands—private and government—owned, beyond the project subject to the approval of the owners. Further, the removed material, in some cases, is made available to the private sector for utilization away from the project and the Agency may authorize such removal by the private sector in accordance with its requirements to assure the materials are not placed on wet lands.

No administrative action on implementation of the removal of the sediment will be taken until thirty (30) days after the publication of this notice in the FEDERAL REGISTER.

Signed at El Paso, Tex, this 21st day of September, 1978.

D. D. MCNEALY,
Principal Engineer (Supervising).

[TA-201-34]

CERTAIN FISHING TACKLE

Report to the President

SEPTEMBER 21, 1978.

To the President:

In accordance with section 201(d)(1) of the Trade Act of 1974 (88 Stat. 1978), the United States International Trade Commission herein reports the results of an investigation relating to certain fishing tackle.

The investigation to which this report relates (No. TA-201-34) was undertaken to determine whether snelled hooks; fishing rods and parts thereof; fishing reels and parts thereof; and artificial baits and flies; provided for in items 731.05; 731.15; 731.20 through 731.26, inclusive; and 731.60 of the Tariff Schedules of the United States (TSUS), are being imported into the United States in such increased quantities as to be a substantial cause of serious injury or the threat thereof, to the domestic industry producing articles like or directly competitive with the imported articles.

The Commission instituted the investigation under the authority of section 201(b)(1) of the Trade Act on March 29, 1978, following receipt on March 21, 1978, of a petition filed by the American Fishing Tackle Manufacturers Association and the Tackle Representatives Association, both of Chicago, Ill.

Notice of the investigation and hearing were duly given by publishing the original notice in the FEDERAL REGISTER of April 4, 1978 (43 FR 14156). Notice of a change of hearing date and notice of hearing time and site was duly given by publication in the FEDERAL REGISTER of June 12, 1978 (43 FR 25388).

A public hearing in connection with the investigation was conducted on June 27, 1978, in Chicago, Ill. All interested persons were afforded an opportunity to be present, to produce evidence, and to be heard. A transcript of the hearing and copies of briefs submitted by interested parties in connection with the investigation are attached.[1]

The information contained in this report was obtained from fieldwork, from questionnaires sent to domestic manufacturers and importers, and from the Commission's files, other Government agencies, and information presented at the hearing and in briefs filed by interested parties.

DETERMINATIONS, FINDING, AND RECOMMENDATION OF THE COMMISSION

DETERMINATIONS

On the basis of its investigation,

(1) the Commission[2] determines that snelled hooks; fishing rods and parts thereof; and fishing reels and parts thereof; provided for in items 731.05; 731.15; and 731.20 through 731.26, inclusive, of the Tariff Schedules of the United States (TSUS), are not being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industries producing articles like or directly competitive with the imported articles; and

(2) the commission[3] determines that, as a result of their being designated as eligible for duty-free treatment under the Generalized System of Preferences (GSP), artificial baits and flies, provided for in item 731.60 of the TSUS, are being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing articles like or directly competitive with the imported articles.

FINDING AND RECOMMENDATION

The Commission[4] finds and recommends that, to prevent or remedy such serious injury, it is necessary to suspend, for a period of 5 years, the designation of artificial baits and flies, provided for in item 731.60 of the TSUS, as eligible for duty-free treatment under the GSP.

Issued: September 25, 1978.

By order of the Commission:

KENNETH R. MASON,
Secretary.

[FR Doc. 78-27397 Filed 9-27-78; 8:45 am]

[1] Attached to the original report sent to the President, and available for inspection at the U.S. International Trade Commission, except for material submitted in confidence.

NATIONAL COMMISSION FOR THE REVIEW OF ANTITRUST LAWS AND PROCEDURES

Hearings

Notice is hereby given that the National Commission for the Review of Antitrust Laws and Procedures (hereinafter "Commission"), in accordance with Executive Order 12022 and section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 86 Stat. 770), will hold public hearings on October 17, 18, and 19, 1978 beginning at 9:30 a.m. on October 17 and 9 a.m. on October 18 and 19. These hearings will be held in Room 2228, Dirksen Senate Office Building, First Street and Constitution Avenue NE., Washington, D.C.

The purpose of these hearings is to receive testimony relevant to the Commission's study of antitrust immunities (including those afforded the insurance and trucking industries), as mandated by Executive Order 12022 and as previously discussed by the Commission at its meeting on August 15, 1978.

Interested persons are invited to submit their views in writing to the Commission on the foregoing subjects. Such submissions should be sent to the Commission office (Attention: Ms. Deana Harvell), Room 7315, Department of Justice Building, 10th Street and Pennsylvania Avenue NW., Washington, D.C. 20530. Those who wish their views to be made available to the Commissioners for consideration prior to these hearings should submit 50 copies to be received no later than October 5, 1978.

Dated: September 25, 1978.

WENDELL B. ALCORN, Jr.,
Special Counsel.

NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

MUSIC ADVISORY PANEL

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Cmmittee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Music Advisory Panel (Jazz Section) to the National Council on the Arts will be held on October 16, 1978, from 9 a.m.-5:30 p.m.; October 17, 1978, from 9 a.m.-5:30 p.m.; October 18, 1978, from 9:30 a.m.-5:30 p.m., October 19, 1978, from 9 a.m.-5:30 p.m., in Room 1422, Columbia Plaza Building, 2401 E Street Northwest, Washington, D.C. 20506.

A portion of this meeting will be open to the public on October 18, 1978, from 9 a.m.-12:30 p.m.. The topic of discussion will be policy and guidelines.

The remaining sessions of this meeting on October 16, 1978, from 9 a.m.-5:30 p.m.; October 17, 1978, from 9 a.m.-5:30 p.m.; October 18, 1978 from 12:30 p.m.-5:30 p.m.; and October 19, 1978, from 9 a.m.-5:30 p.m. are for the purpose of panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the chairman published in the FEDERAL REGISTER March 17, 1977, these sessions will be closed to the public pursuant to subsections (c) (4), (6) and 9 (b) of section 552b of title 5 United States Code.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call 202-634-6070.

JOHN H. CLARK
Director, Office of Council and Panel Operations, National Endowment for the Arts.

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS, SUBCOMMITTEE ON REGULATORY ACTIVITIES

Meeting; Amendment to Agenda

The agenda for the October 4, 1978, meeting of the ACRS Subcommittee on Regulatory Activities published September 19, 1978 (43 FR 42049), has been amended to read as follows:

(3) Regulatory guide 1.104, revision 1, "Overhead Crane Handling Systems for Nuclear Power Plants." It may be necessary for the subcommittee to hold a closed session for the purpose of exploring matters involving proprietary information regarding regulatory guide 1.104.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that, should such a session be required, it is necessary to close that session to protect proprietary information (5 U.S.C. 552b(c)(4)).

Dated: September 25, 1978.

JOHN C. HOYLE,
Advisory Committee Management Officer.

[FR Doc. 78-27278 Filed 9-27-78; 8:45 am]

[7590-01]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Meeting Revised

Regarding the previous FEDERAL REGISTER notice (43 FR 42314, dated Sept. 20, 1978), for the meeting of the Advisory Committee on Reactor Safeguards to be held on October 5-7, 1978, in Washington, D.C., consideration of the fast flux test facility has been canceled and the notice is revised as follows:

THURSDAY, OCTOBER 5, 1978

5 to 6:30 p.m.—Executive session (open). The Committee will hear and discuss the reports of its Subcommittee on Regulatory Activities and proposed revisions to NRC Regulatory Guides.

FRIDAY, OCTOBER 6, 1978

9:45 a.m. to 12:30 p.m. and 1:30 to 6:30 p.m.—Reactor safety research (open). The Committee will hear presentations and hold discussions with ACRS consultants, representatives of the NRC Staff, the nuclear and utility industry, and the Department of Energy regarding proposed reactor safety research programs related to advanced reactor designs, radioactive waste management and disposal, and emergency core cooling systems as well as the priorities for the accomplishment of these and other reactor safety research work. Portions of this session will be closed if necessary to discuss proprietary information related to these matters.

SATURDAY, OCTOBER 7, 1978

8:30 a.m. to 2:30 p.m.—Executive session (open). The Committee will discuss its position and proposed future action regarding matters discussed during this meeting. The Committee will discuss the qualification of candidates proposed for appointment to the ACRS. This session will be closed to protect information, the release of which would represent an unwarranted invasion of personal privacy.

Dated: September 25, 1978.

JOHN C. HOYLE,
Advisory Committee Management Officer.

[7590-01]

Negative Declaration Supporting Amendment Relating to the Revision of a Construction Permit Requirement, Hope Creek Generating Station, Unit Nos. 1 and 2 (CPPR-120 and CPPR-121)

[Docket Nos. 50-354 and 50-355

PUBLIC SERVICE ELECTRIC & GAS CO.

The U.S. Nuclear Regulatory Commission (the Commission) has reviewed the proposed amendments relating to the construction permits for the Hope Creek Generating Station, Unit Nos. 1 and 2 (CPPR-120 and CPPR-121), located in Salem County, N.J., issued to the Public Service Electric & Gas Co. The amendments would authorize the use of an extended aeration sewage treatment system instead of septic tanks and a temporary septic field.

The Commission's Division of Site Safety and Environmental Analysis has prepared an environmental impact appraisal for the amendments, and has concluded that an environmental impact statement for this particular action is not warranted. This conclusion is based on the fact that there will be no significant environmental impacts attributable to the proposed action, and any impacts that might occur will be less than those predicted and described in the final environmental statement for the Hope Creek Generating Station Unit Nos. 1 and 2, published in February 1974.

The environmental impact appraisal is available for public inspection at the Commisson's Public Document Room, 1717 H Steet NW., Washington, D.C., and at the Salem Free Library, 112 West Broadway, Salem, N.J. A copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Site Safety and Environmental Analysis.

Dated at Bethesda, Md., this 20th day of September 1978.

For the Nuclear Regulatory Commission.

RONALD L. BALLARD,
Chief, Environmental Projects Branch 1, Division of Site Safety and Environmental Analysis.

[FR Doc. 78-27280 Filed 9-27-78; 8:45 am]

[7590-01]

[Docket Nos. 50-354 and 50-355]

PUBLIC SERVICE ELECTRIC & GAS CO.

Issuance of Amendments to Construction Permits

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued amendments No. 4 to construction permit Nos. CPPR-120 and CPPR-121, issued to the Public Service Electric & Gas Co. for construction of the Hope Creek Generating Station, Unit Nos. 1 and 2, located at the permittee's site in Salem County, N.J.

The amendments authorize the use of an extended aeration sewage treatment system instead of septic tanks and a temporary septic field.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended, and the Commission's rules and regulations. Prior public notice of the amendment is not required since the amendments do not involve a significant hazards consideration.

The Commission has prepared an environmental impact appraisal for the amendments to the construction permits, and has concluded that an environmental impact statement for this particular action is not warranted because there will be no significant environmental impacts attributable to the proposed action, and any impacts that might occur will be less than those predicted and described in the final environmental statement for the Hope Creek Generating Station, Units 1 and 2, published in February 1974.

For further details with respect to this action, see: (1) The application for amendments dated May 22, 1978, (2) amendments No. 4 to construction permits No. 1 and 2, and (3) the Commission's environmental impact appraisal. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and in the Salem Free Library, 112 West Broadway, Salem, N.J. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Site Safety and Environmental Analysis.

Dated at Bethesda, Md., this 20th day of September 1978.

For the Nuclear Regulatory Commission.

RONALD L. BALLARD,
Chief, Environmental Projects Branch No. 1, Division of Site Safety and Environmental Analysis.

[FR Doc. 78-27283 Filed 9-27-78; 8:45 am]

[7590-01]

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has issued a guide in its regulatory guide series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.29, Revision 3, "Seismic Design Classification," describes a method acceptable to the NRC staff for identifying and classifying those features of light-water-cooled nuclear powerplants that should be designed to withstand the effects of the safe shutdown earthquake and remain functional. This guide was revised as the result of public comments and additional staff review.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Technical Information and Document Control. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 5552(a).)

Dated at Rockville, Md., this 20th day of September 1978.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE
Director, Office of Standards Development.

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 78-39]

ACCIDENT REPORTS: SAFETY RECOMMENDATION AND RESPONSES

AVIATION ACCIDENT REPORT

The National Transportation Safety Board has released its formal report of investigation into the crash of a Continental Air Lines Boeing 727 just after takeoff from Tucson (Ariz.) International Airport on June 3, 1977. The Board's report, No. NTSB-AAR-78-9, was made available to the public September 21.

Eighty-four passengers and a crew of seven escaped injury when the tri-jet airliner struck power lines and two 39-foot poles some 710 feet beyond and 130 feet to the left of the departure end of Runway 21 at the airport. The underside of the aircraft was substantially damaged (internal wing damage and fuel leakage) but the crew was able to return and land safely at Tucson.

By a 3-to-1 vote, the Safety Board's formal determination of probable cause of the accident was the captain's decision to take off under evident hazardous wind conditions which resulted in an encounter with severe wind shear and subsequent collision with obstacles in the takeoff path. The rate of climb of the aircraft in these conditions when flown according to prescribed operating procedures was not sufficient to clear the obstacles. However, if the aircraft's full aerodynamic capability had been used, collision with obstacles probably could have been avoided, the Board stated.

In a separate dissenting opinion, Board Member Philip A. Hogue determined that the probably cause of the accident was the pilot's failure to utilize the full 7,000 feet of runway available versus the 6,500 feet he did utilize, rather than the captain's decision to take off "under evident hazardous wind conditions."

As a result of its investigation of this accident, the Safety Board on August 8 recommended that the Federal Aviation Administration further identify runways on which displaced thresholds might be overlooked by requiring (1) footnotes on takeoff weight data pages of air carrier manuals, and (2) easily visible intersection signs noting

V 43 / 189 SE 28 78 UMI

displaced thresholds. (Recommendations A-78-51 and 52, reported at 43 FR 36533, August 17, 1978.)

PIPELINE ACCIDENT REPORT

Also released by the Safety Board on September 21 was the formal investigation report on the gas pipeline explosion and fire which occurred last December 15 in downtown Lawrence, Kans.

Report No. NTSB-PAR-78-4 shows that the Kansas Public Service Company inserted a 394-foot polyethylene plastic pipe in an abandoned steel gas main in 1975 and connected it to another steel gas main by a coupling. On December 15, 1977, the 2-inch plastic main pulled away from the coupling and the escaping gas filtered into two nearby buildings and exploded. Further, investigation showed that the pipeline was not in conformity with a series of Federal regulations governing pipeline installation, nor did the company have the engineers or technically trained personnel needed to understand and apply the Federal rules.

The explosion and fire destroyed one building, severely damaged another building, and broke nearby windows. Two persons were killed and three persons were injured. The Safety Board determined that the probably cause of the accident was the failure of the gas company to properly design, install, test, inspect, and anchor the installation of a 394-foot-long polyethylene plastic gas main that had been inserted in a casing and connected to a steel gas main with a compression coupling. The 2½-year-old unrestrained plastic gas main contracted 3½ inches because of cold temperatures and pulled out of the compression coupling, the resistance of which had decreased with age.

The Safety Board cited a similar pipeline accident on January 10, 1976, in Fremont, Nebr., in which 20 persons died in a gas explosion triggered when a polyethylene plastic gas main pulled away from a coupling. At the time, the Department of Transportation's Materials Transportation Bureau rejected a Safety Board recommendation to determine whether there were locations where standard couplings were unsafe. Nor did the Bureau feel it was necessary to conduct a special study on the problem. As a result of its investigation into the Lawrence accident, the Board in recommendation P-78-33 issued July 10, 1978, urged the Materials Transportation Bureau to reconsider recommendations P-76-44 and 45, issued following the Fremont accident.

Also, on July 19, the Board issued eight recommendations (Nos. P-78-25 through 32) to the Kansas Public Service Co., including requests that the company complete a review of its plastic pipe system before the 1978-79 winter season for other unanchored insertions more than 100 feet long, require engineers to review the design of the plastic pipeline system, and conduct tests on joints to which plastic pipeline is connected to insure the joint is as strong as the pipeline. Other recommendations issued July 19 were directed by the Safety Board to the American Gas Association (Nos. P-78-34 through 37), to the Dresser Manufacturing Co. (Nos. P-78-38 through 40), and to the E. I. du Pont de Nemours & Co. (Nos. P-78-41 and 42). (The complete recommendations are reproduced in the accident report; see also 43 FR 32475, July 27, 1978.)

RAILROAD SAFETY RECOMMENDATION

As a result of its investigation into the February 10, 1978, collision of a trolley car and a bus in Pittsburgh, Pa., the Safety Board has issued an additional recommendation. The accident occurred during the morning rush hour on a portion of the Port Authority of Allegheny County busway which is used both by buses and trolleys. The busdriver and three bus passengers were killed; the trolley car operator and 36 bus passengers were injured in the collision. The Safety Board found that the probable cause of the accident was the operator's inadvertent and untimely operation of an unprotected track switch, which caused the trolley to be routed into the path of the approaching bus.

Because the operation of the track switch by use of the power control pedal proved to be a crucial factor in this accident, the Safety Board on August 28 recommended that the Port Authority of Allegheny County disable this feature on its fleet of trolley cars of the Presidential Commission Car type. The Safety Board understands that other street car systems in the United States may use the same basic circuit configuration to operate electrical track switches, and, therefore, the same potential exists for an undesired operation. Accordingly, the Board on September 20 recommended that the Urban Mass Transportation Administration, U.S. Department of Transportaton:

> Inform operators of trolley car systems of the details of the Pittsburgh accident and, where applicable, have them disable the car feature that makes it possible to operate track switches by use of the power control pedal. (R-78-52)

This "Class H, Priority Action" recommedation is the fourth isued as a result of the Board's findings in connection with this accident. Recommendations issued to the Port Authority of Allegheny County, Nos. R-78-49 and 50, and to the Governor of Pennsylvania, No. R-78-51, were reported at 43 FR 39871, September 7, 1978. The formal report of investigation, No. NTSB-RTAR-78-5, was released September 6, reported at 43 FR 41101, September 14, 1978.

RESPONSES TO SAFETY RECOMMENDATIONS

Aviation

A-89-43 and 44.—Letter of September 1 from the Federal Aviation Administration is in response to the Safety Board's recommendation letter issued July 7 concerning the numerous stall/spin accidents which occurred in the 1974-76 time period.

Recommendation A-78-43 asked the FAA to incorporate all of the essential elements of the ground and flight training increments developed in the "General Aviation Pilot Stall Awareness Training Study," or their equivalent, in FAR Parts 61 and 141. FAA indicates that action is underway to identify relevant elements and incorporate them into regulatory proposals for upgrading pilot training standards. FAA expects to complete this survey by March 1979, and, if rulemaking is indicated, regulatory projects will be established and assigned priorities.

While in agreement that the "General Aviation Pilot Stall Awareness Training Study" should be widely distributed to persons engaged in the training and certification of pilots, as recommended by A-78-44, FAA believes that a direct mailing of the magnitude suggested—namely, to all certificated flight schools and commercial flight instructors—is not likely to have the desired results. FAA says there are approximately 45,000 certificated flight instructors and over 5,000 pilot schools and other organizations offering pilot training. Since many flight instructors do no renew certificates upon expiration and there is a continuing input of newly-certificated instructors, FAA states that distribution of the complete report at approximately $10 per copy or even a portion of the report at a lesser price would not be cost effective.

Other channels for providing a wide distribution of the study would include a special printing in FAA's Flight Standards publication, General Aviation News, and dissemination of the material to flight instructors through the flight instructor revalidation clinics and the pilot examiner standardization course. Also, FAA is considering utilizing this material in certain of its training courses for agency inspectors, and expects to initiate a distribution program by the end of this year.

Highway

H-78-35 through 39.—On August 23 the Kentucky Department of Transportation answered the Safety Board's inquiry of July 26 with reference to the Department's response of June 23 to recommendations issued following investigation of the overturn in Beattyville, Ky., on September 24, 1977, of a cargo tank-semitrailer loaded with 8,200 gallons of gasoline. (See 43 FR 31250, July 20, 1978.)

The Board's July 26 letter points out that the Department failed to mention the placement of a curve warning sign and associated speed warning plate as discussed in recommendation H-78-35. The Board questioned, "Was the safe traversable speed in the curve determined?" "Was the curve sign placed as suggested?" The Board also noted that the Department did not discuss the problems of superelevation in the curve and the rough, irregular surface of the rail-highway crossing. Since these two areas were determined by the Board during its investigation to be a part of the overall hazard presented by the accident site, the Board believes that these items should be corrected if they have not been already.

The Department, in response, states that its engineers believe that the main factor limiting speed in this area is not the curve, but rather a rough crossing of irregular tracks. It was their recommendation that, instead of installing a curve sign with an advisory message, the Department should place a warning sign with the message "ROUGH CROSSING" and an advisory speed plate showing "10 MPH." District personnel of the Bureau of Highways have been instructed to install a rough crossing sign and an advisory in a location clearly visible to vehicles moving downgrade and approaching the railroad crossing.

The Department's engineers to not believe it is feasible to correct either the superelevation or the condition of the crossing at this time. The rough condition is created primarily by the steep grade crossing two adjacent tracks, the Department stated. Further, the engineers have concluded that a project to improve the curve would serve no useful purpose since they have determined that it can be safely negotiated at much higher speeds than the crossing, even under present conditions.

Accordingly, the Department does not plan any construction or other attempt to relieve these problems, beyond the signing and repaving previously described. The Department points out that it does plan, when funding becomes available, to construct a bypass route in this area, eliminating much of the truck traffic on the hill.

H-78-56 through 60.—Letter of August 23 from the Commissioner, Division of Motor Vehicles, Commonwealth of Virginia, acknowledges receipt of recommendations issued by the Safety Board last month to the Virginia Secretary of Transportation following investigation of the July 21, 1977, collision on Route 50 near Chantilly, Va., involving a dump truck loaded with 17 tons of stone and an automobile.

The Commissioner's letter states that the criteria and techniques used in the testing and licensing of classed vehicle operators are being reviewed and evaluated in light of research and the Board's recommendations. Reference is made in the response to the statement in the Board's recommendation letter: "It is doubtful that the driver could have accumulated the heavy vehicle experience he claimed since Virginia does not issue a learner's permit to drive heavy trucks." The Commissioner notes that in 1968 the Virginia Division of Motor Vehicles began issuing classed learner's permits to persons desiring to learn to operate certain types of vehicles, i.e., Class A vehicles. Also, a person may gain driving experience while driving on an off the road work environment. The Commissioner states, ". . . it appears that the referenced accident was caused by driver negligence rather than lack of knowledge and control of the vehicle."

Marine

M-77-31.—Letter of August 24 from the Federal Communications Commission is in response to a recommendation issued following investigation of the sinking of the charter fishing boat, *Pearl C*, on September 13, 1976, while being towed across the Columbia River Bar near Astoria, Oreg. The recommendation asked FCC to require the installation at each operator steering station on charter boats of a radiotelephone or an extension speaker and microphone with adequate control of the transceiver to insure reliable communications.

After review of the Safety Board's report of the accident and conferences with the U.S. Coast Guard, FCC concludes that such a requirement should not be imposed on all charter fishing boats and like small passenger vessels. FCC does not believe that a requirement for a transceiver or extension thereof at each operation station is economically feasible, and states that the present regulations have proven sufficient in the vast majority of this type of vessel's communications needs. FCC does point out, however, that there are advantages to such installations, and reports issuance of a notice of proposed rulemaking (SS Docket No. 78-232, released August 4, 1978) giving performance criteria for over-the-counter remote control radiotelephone units. Basic functions include starting and stopping transmissions, changing channels and reducing transmitter output to one watt or less. FCC says it is likely that many small passenger vessels will voluntarily be equipped with such remote control units, and the proposed rule will insure adequate control of the transceiver from remote operating positions.

M-78-10 through 12.—Letter of August 11 from the U.S. Coast Guard is in answer to the Safety Board's inquiry of June 27 concerning Coast Guard's April 21 response to these recommendations. The recommendations were issued following investigation of the November 10, 1975, sinking of the Great Lakes bulk cargo vessel SS *Edmund Fitzgerald* in eastern Lake Superior. The Safety Board requested a description of the programs instituted by the Ninth Coast Guard District, and mentioned in the April 21 response, in the form of reports developed, directives issued, or records of problems encountered when carrying out the hatch cover, hatch coaming, and vent inspections, and when sailings are prevented or restricted due to weathertight integrity problems.

Coast Guard's August 11 letter reports that the programs were announced on September 9, 1976, and actually started on December 16, 1976, when a memorandum instruction was issued to the Great Lakes inspection offices with a special checkoff list to aid the inspectors. The program was officially called a ship-rider program, was continued in 1977, and instructions were issued to field offices on September 6, 1977. The checkoff list was further expanded to include items required by the Navigation Safety Regulations and other data needed for loading manual and hull stress studies. Coast Guard says the ship-rider program continues as an ongoing inspection control and under the same instructions. Copies of the various programs are attached to Coast Guard's letter.

To date, only one vessel has been delayed due to lack of weathertight integrity, according to Coast Guard. The circumstances surrounding this case are contained in the Marine Safety Office, Duluth, casualty report of June 22, 1978, a copy of which is attached to Coast Guard's response. The special ship-rider program, coupled with the normal certificate inspection cycle, has given Coast Guard a very comprehensive program by insuring that hatch covers, hatch coamings, and vent conditions meet the requirements for weathertight integrity.

Pipeline

P-76-73.—Letter of August 21 from the Research and Special Programs Directorate, U.S. Department of Transportation, is in response to a recommendation issued following investigation of a gas pipeline accident which

V 43 / 189 SEP 28 78

occurred on March 27, 1976, in Phenix City, Ala. The recommendation asked that DOT in conjunction with their State agent, the Alabama Public Service Commission, monitor actions taken by officials of Phenix City to determine the degree of compliance and to institute necessary corrective action.

In response, it is noted that the Alabama Public Service Commission exercised close surveillance over the action taken by the Phenix City Utilities Board to show cause, if any, why the Board should not be penalized for failure to comply with the safety standards. The hearing resulted in a citation against the Phenix City Utilities Board wherein the Board was ordered to take corrective action, including repairing class I and class II leaks, complying with odorization requirements, updating maps, locating/servicing critical valves, and pursuing a replacement program for cast iron piping.

Further, DOT staff members, as part of their monitoring activity, have had frequent discussions with the Alabama Public Service Commission concerning this situation. The Commission is satisfied that the Phenix City Utilities Board has corrected the safety deficiencies, that an acceptable replacement program for the cast iron piping is being pursued, and that Phenix City's gas system is in a safe condition.

P-78-33; P-76-44 and 45.—As a result of its investigation of the December 15, 1977, pipeline accident in Lawrence, Kans. (see summary, above, of the investigation report), the Safety Board issued recommendation P-78-33 asking the Materials Transportation Bureau, U.S. Department of Transportation, to reconsider its responses to safety recommendations P-76-44 and P-76-45 in light of this and other accidents that have occurred with plastic pipe and "standard" compression couplings since 1977. Letter of August 9 from the Research and Special Programs Administration provides MTB's comments on the two earlier recommendations.

Recommendation P-76-44 called for revision of 49 CFR 192.281(e)(2), Mechanical Joints, to require that stiffeners be designed to be compatible with compression couplings so that pipes cannot put out of the couplings. MTB reports that it has given considerable thought to revising this regulation and believes that the present regulations are adequate. Sections 192.273(a), 192.281(a), and 192.281(e)(2) require the use of a stiffener with each compression coupling, and that each resulting plastic pipe joint be tested to assure that it is at least as strong as the pipe being joined. MTB notes that the major problem with compression couplings involves improper installation. MTB reports that the American Society for Testing and Materials (ASTM) is now developing, on a high priority emergency basis, comprehensive installation and testing criteria to prevent the faulty installation of couplings. MTB says that this criteria is expected to be finalized by ASTM and reviewed by DOT before the end of 1978, to be incorporated into subpart J of the regulations in 1979.

In response to P-76-45, which recommended that DOT determine if there are locations or circumstances where standard compression couplings are unsafe and amend 49 CFR Part 192 accordingly to prohibit their use for such applications, MTB says it plans to review available information to make such a determination. The review will include a detailed analysis of selected reports concerning gas leaks which have occurred on plastic pipe since 1972. Consideration will be given to: soil conditions, soil temperature, depth of cover, predominate type of area, structures adjacent to leak, distance to other utilities, location of leak relative to water, roads, and walking, excavation activity, etc. This analysis is expected to be completed by the end of 1978. If indicated, 49 CFR Part 192 will be amended.

P-78-34 through 37.—Also in connection with the Lawrence, Kans., pipeline accident, the American Gas Association (AGA) on August 24 responded to the four recommendations directed to AGA which called for a number of studies dealing with compression couplings and polyethylene plastic pipe.

AGA advises that the next meeing of the Gas Research Institute Plastic Pipe Research Group (GRI) will consider these recommendations for inclusion in its 1979 research program. With reference to the recommendations, AGA reports that GRI has an ongoing plastic pipe research program at Battelle Columbus Laboratories which has studied both aging and stress effects on plastic pipe systems. This work has included studies of environmental aging of plastic pipe during storage and studies of stress cracking of piping joints. Field experience and laboratory tests show that failures can be expected at joints due to stress concentrations. AGA notes that increased focus on plastic joints is a main agenda item for the next GRI meeting; also, design changes to relieve stress concentrations at joints will be considered.

Railroad

R-78-24.—Letter of August 17 from the Southern Railway System acknowledges receipt of Safety Board recommendation issued May 31 following investigation of the collision last October 8 of Southern Railway trains Nos. 1 and 152 at Spencer, N.C. The recommendation called for revision of Southern Railway operating rules to insure that they state as specifically as possible the action that is intended, and to enforce those rules pertaining to the operation of switches and the reporting of malfunctions of the signal system.

The president of the company reports that the rules mentioned in the Safety Board's report of this accident have been reviewed and it appears that the present language "is clear and unequivocal." He finds a need to emphasize in company rules classes that the rules "mean exactly what they say and that they will be strictly enforced." Steps are being taken to see that this is done.

NOTE.—The above notice reports on Safety Board documents recently released and recommendation response letters received. Single copies of accient reports and the Board's recommendation letters in their entirety are available to the general public without charge. Copies of the full text of responses to recommendations may be obtained at a cost of $4.00 for service and 10 cents per page for reproduction.

All requests to the Board for copies must be in writing, identified by report of recommendation number. Address inquiries to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of accident reports may be purchased by mail from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)).)

MARGARET L. FISHER,
Federal Register Liaison Officer.

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on September 22, 1978 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; an indication of who will be the respondents to the proposed collection; the estimated number of responses; the estimated burden in reporting hours; and the name of the reviewer or reviewing division or office.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, 202-395-4529, or from the reviewer listed.

NEW FORMS

PRIVACY ACT

New Systems

The purpose of this notice is to give members of the public an opportunity to comment on Federal agency proposals to establish or alter personal data systems subject to the Privacy Act of 1974.

The act states that "each agency shall provide adequate advance notice to Congress and the Office of Management and Budget of any proposal to establish or alter any system of records in order to permit an evaluation of the probable or potential effect of such proposal on the privacy and other personal or property rights of individuals * * *"

OMB policies implementing this provision require agencies to submit reports on proposed new or altered systems to Congress and OMB 60 days prior to the issuance of any data collection forms or instructions, or 60 days prior to the issuance of any requests for proposals for computer and communications systems or services to support such systems—whichever is earlier.

The following reports on new or altered systems were received by OMB between September 4 through September 15, 1978. Inquiries or comments on the proposed new systems or changes to existing systems should be directed to the designated agency point-of-contact and a copy of any written comments provided to OMB. The 60 day advance notice period begins on the report date indicated.

DEPARTMENT OF TRANSPORTATION

System Name: Reserve Personnel Management Information System.
Report Date: August 30, 1978.
Point-of-Contact: Capt. K. R. Murphy, G-RA, U.S. Coast Guard, Washington, D.C. 20590.
Summary: The Coast Guard proposes to expand this system of records by adding information on special active duty for training, extended active duty, retirement points and years of service, as well as payroll data. The payroll data will be disclosed to the Treasury Department for use in preparing paychecks.

VELMA N. BALDWIN,
Assistant to the Director of Administration.

[8010-01]

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-15177; File No. SR-MSE-78-22]

MIDWEST STOCK EXCHANGE INC.

Self-Regulatory Organization; Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. 94-29, 16 (June 4, 1975), notice is hereby given that on September 1, 1978, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

EXCHANGE'S STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

Article XLII, Rule 2 is hereby amended as follows:

Brackets indicate deletions; italics indicate new material.

ARTICLE XLII

TRADING HALTS AND SUSPENSIONS

Rule 2. No change in text.
. . . Interpretatons and Policies:
.01 No change in text.
.02 No change in text.
.03 Pursuant to this rule, whenever a regulatory halt takes place on an exchange where more than 50 percent of the total volume in the underlying security over the past 6 months has been traded, trading in the option class will be halted coincident with the halt in the underlying security.

A situation may arise where a halt in the underlying security occurs and there is a delay in receiving the announcement by the proper Exchange authority. In such a situation, option transactions effected after the halt in the underlying security will be voided.

A regulatory halt includes trading halts for such reasons as dissemination of information concerning the company and suspension of trading by a regulatory body due to trading irregularities. It would not include, for instance, a trading halt due to an imbalance in orders at the specialist post.

EXCHANGE'S STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The purpose of this rule change is to clarify the timing of the implementation of a trading halt in the event of a regulatory halt in the underlying security.

The basis for this rule change is section 6(b)(5) of the Act which provides that the rules of the Exchange be designed to prevent fraudulent and manipulative acts and practices and to promote just and equitable principles of trade.

The Midwest Stock Exchange, Inc. has neither solicited nor received any comments.

The Midwest Stock Exchange, Inc., believes that no burdens have been placed on competition.

The foregoing rule change has become effective, pursuant to section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Per-

V 43/189 SE 28 78

sons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted within 21 days of the date of this publication.

For the Commission by the Division of Market Regulation pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

SEPEMBER 19, 1978.

SMALL BUSINESS ADMINISTRATION

[License No. 01/01-0280]

A B SMALL BUSINESS INVESTIMENT

Filing of Application for Approvel of Conflict of Interest Transaction Between Associates

Notice is hereby give that A B Small Business Investment Co., Inc. (A B), Schoolhouse Road, Cheshire, Conn. 06410, a Federal licensee under the Small Business Investment Act of 1958, as amended, has filed an application pursuant to section 107.1004 of the regulations governing small business investment companies (13 CFR 107.1004 (1978)), for approval of a conflict of interest transaction.

A B desires to provide financing in the amount of $100,000 to Mr. Edward C. Stalmann for the purpose of enabling that individual to open a supermarket which is now a vacant store located at 5 Allen Street, Hampden, Mass., to be called Hampden IGA Supermarket.

Mr. Stalmann is a sales counselor for Bozzuto's, Inc., the parent of A B, and upon completion of this transaction he will resign from Bozzutos'. However, in accordance with the definition of the term "Associate of a Licensee" set forth under section 107.3 of the Small Business Administrations' regulations, he is an associate of A B. Pursuant to the provisions of section 107.1004(b)(1) of SBA regulations, this affiliation requires A B to obtain an exemption from the SBA in order to provide the proposed financing to Mr. Stalmann.

Notice is hereby given that any person may, not later than October 13, 1978, submit written comments to SBA on the proposed financing. Any such comments should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street NW., Washington, D.C. 20416.

A copy of this Notice shall be published by A B in a newspaper of general circulation in Hampden, Mass.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: September 22, 1978.

PETER F. MCNEISH,
Deputy Associate Administrator for Investment.

[8025-01]

[License No. 06/06-0198]

AFFILIATED SBIC, INC.

Issuance of License To Operate as a Small Business Investment Company

On December 28, 1977, a notice was published in the FEDERAL REGISTER (42 FR 64752) stating that an application had been filed by Affiliated SBIC, Inc., Affiliated Road and Kennedy Street, Broussard, La. 70518, with the Small Business Administration (SBA) pursuant to section 107.102 of the regulations governing small business investment companies (13 CFR 107.102 (1978)), for a license to operate as a small business investment company (SBIC).

Interested parties were given until the close of business January 12, 1978, to submit their written comments to SBA. No comments were received.

Notice is hereby given that, pursuant to section 301(c) of the Small Business Investment Act of 1958, as amended, and after having considered the application and all other information, SBA issued license No. 06/06-0198 on September 6, 1978, to Affiliated SBIC, Inc., to operate as an SBIC.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: September 22, 1978.

PETER F. MCNEISH,
Deputy Associate Administrator for Investment.

[Declaration of Disaster Loan Area No. 1529]

ARKANSAS

Declaration of Disaster Loan Area

As a result of the President's major disaster declaration, I find that Pulaski and Saline counties constitute a disaster area because of damage resulting from severe storms and flooding beginning about September 13, 1978. The Small Business Administration will accept applications for disaster relief loans from disaster victims within the above-named counties and adjacent counties within the State of Arkansas. Eligible persons, firms, and organizations may file applications for loans for physical damage until the close of business on November 16, 1978, and for economic injury until the close of business on June 15, 1979, at:

Small Business Administration, District Office, 611 Gaines Street, Suite 900, Little Rock, Ark. 72201

or other locally announced locations.

(Catalog of Federal Domestic Assistance Program Nos. 59002 and 59008.)

Dated: September 20, 1978.

PATRICIA M. CLOHERTY,
Acting Administrator.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 78-122]

ADMIRAL TOWING & BARGE CO.

Registration of House Flag and Funnel Mark

1. The Commandant, U.S. Coast Guard, in accordance with the provisions of 46 CFR 67.87-5, issued under the authority of the act of May 28, 1908, as amended (46 U.S.C. 49), has registered the house flag and funnel mark of The Admiral Towing & Barge Co. as described below:

(a) House Flag—The house flag is rectangular in shape and imperial blue in color (Federal Standard Color No. 15090 from Specification No. 595). The hoist is 5 feet and the fly is 8 feet. There is a horizontal band of aviation red extending the width of the flag. The band is 20 inches in height and extends the width of the flag. The top of the band is 20 inches from the top of the flag and the bottom of the band is 20 inches from the bottom of the flag. Superimposed on the aviation red band there are four horizontal white stars. Each star is 10 inches in height and 10 inches in width. The top of each star is 5 inches from the top of the band and the bottom of each star is 5 inches from the bottom of the band. The star on the extreme left is 13 inches from the left side of the flag and the star on the extreme right is 13 inches from the right side of the flag. The distance from the center of any star to the center of any adjoining star is 20 inches.

(b) Funnel Mark—The funnel is imperial blue. There is a horizontal band of aviation red located 24 inches below the forward top edge of the funnel cowl and extending the width of the funnel. The band is 30 inches in height. Superimposed on the aviation red band there are four horizontal white stars. Each star is 18 inches in height and 18 inches in width. The top of each star is 6 inches from the top of the band and the bottom of each star is 6 inches from the bottom of the band. The distance from the center of any star to the center of any adjoining star is 36 inches.

2. Colored scale replica drawings of the house flag and funnel mark are on file with the Federal Register Division, National Archives and Records Service.

Dated: September 18, 1978.

HENRY H. BELL,
Rear Admiral, U.S. Coast Guard, Chief, Office of Merchant Marine Safety.

Office of Hazardous Materials Regulation

APPLICATIONS FOR EXEMPTIONS

AGENCY: Materials Transportation Bureau, DOT

ACTION: List of Applications for Exemptions.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR Part 107, Subpart B), notice is hereby given that the Office of Hazardous Materials Regulation of the Materials Transportation Bureau has received the applications described herein.

DATE: Comments by October 30, 1978.

ADDRESSED TO:

Dockets Branch, Information Services Division, Materials Transportation Bureau, Washington, D.C. 20590.

Comments should refer to the application number and be submitted in triplicate.

FOR FURTHER INFORMATION: Complete copies of the applications are available for inspection in the Dockets Branch, Room 6500, Trans Point Building, 2100 Second Street S.W., Washington, D.C.

Each mode of transportation for which a particular exemption is requested is indicated by a number in the "Nature of Application" portion of the table below as follows: 1—Motor vehicle, 2—Rail freight, 3—Cargo vessel, 4—Cargo-only aircraft, 5—Passenger-carrying aircraft.

NEW APPLICATION

Application No.	Applicant	Regulation(s) affected	Nature of application
8059-N	Acurex Aerothem, Mountain View, Calif.	49 CFR 173.302(a)(1), 175.3..	To manufacture, mark, and sell non-DOT specification, aluminum high-pressure cylinders fully overwrapped (FRP) for the shipment of compressed air and oxygen. (Modes 1, 2, 3, 4, and 5.)
8060-N	Ugine Kuhlmann, Paris, France	49 CFR 173.315(a)	To authorize shipments of certain compressed gases (refrigerants) in non-DOT specification ISO portable tanks. (Modes 1, 2, and 3.)
8062-N	Hamill Manufacturing Co., Washington, Mich.	49 CFR Parts 171-176	To qualify shipments of an explosive power device, class B or C, when shipped as an integral part of a passive restraint system, as a nonregulated material. (Mode 1.)
8063-N	Union Carbide Corp., Tarrytown, N.Y.	49 CFR 173.304(a)(2)	To manufacture, mark, and sell DOT specification 4L 292 vacuum-insulated cylinders for the shipment of cold carbon dioxide and cold nitrous oxide. (Mode 1.)
8064-N	GTE Sylvania Inc., Needham Heights, Mass.	49 CFR 173.247	To authorize shipment of thionyl chloride electrolyte in DOT specification 5C containers. (Modes 1, 2, and 3.)
8065-N	U.S. Department of Energy, Washington, D.C.	49 CFR 173.65, 173.88 thru 173.95.	To authorize shipments of class A and B explosives in non-DOT specification plywood boxes. (Mode 1.)
8066-N	International Marketing Associates, Fort Lauderdale, Fla.	49 CFR 172.400	To authorize shipment of toy caps without labeling. (Modes 1, 2, 4, and 5.)
8067-N	Container Corp. of America, Wilmington, Del.	49 CFR 173.272(g), 173.346...	To authorize shipment of 95 to 98 pct sulfuric acid and class B poisons in a 15-gal specification 34 container. (Modes 1, 2, and 3.)
8069-N	Michlin Chemical Corp., Detroit, Mich	49 CFR 173.244, 173.245(a)(16).	To authorize shipment of ammonium hydroxide in an overpack complying with specification 6D, without embossment with a 2T inside container. (Mode 1.)
8070-N	Olin Corp., East Alton, Ill	49 CFR 173.93(b)	To authorize shipment of smokeless powder for small arms in water in specification 17H metal drums. (Mode 1.)
8071-N	Ethyl Corp., Baton Rouge, La	49 CFR 173.302, 172.101	To authorize shipment of sodium potassium (liquid) alloy in DOT specification 51 portable tanks. (Modes 1, and 2.)
8072-N	Mobay Chemical Corp., Kansas City, Mo	49 CFR 173.377(b)(6)	To authorize shipment of organic phosphate compound mixtures in 5- to 16-oz water soluble pouches packed in DOT specification 2D paper bags further overpacked in DOT specification 12B fiberboard boxes. (Modes 1, 2, and 3.)
8073-N	Gasynergy Inc., Denver, Colo	49 CFR 173.302(a)(3)	To authorize shipment of natural gas in DOT specification 3AAX cylinders. (Mode 1.)
8074-N	Matheson Gas Products, Lyndhurst, N.J	49 CFR 173.34(d)(1)	To authorize shipments of certain liquefied gases in DOT specification 3E-1800 cylinders without safety relief devices. (Mode 1.)
8075-N	Hercules Inc., Wilmington, Del	49 CFR 176.415	To authorize the loading of certain oxidizers aboard vessels at other than remote facilities. (Mode 3.)

This notice of receipt of applications for new exemptions is published in accordance with section 107 of the Hazardous Materials Transportation Act (49 U.S.C. 1806; 49 CFR 1.53(e)).

Issued in Washington, D.C., on September 14, 1978.

J. R. GROTHE,
Chief, Exemptions Branch, Office of Hazardous Materials Regulation, Materials Transportation Bureau.

GRANTS AND DENIALS OF APPLICATIONS FOR EXEMPTIONS

AGENCY: Materials Transportation Bureau, DOT.

ACTION: Notice of grants and denials of applications for exemptions.

V 43/189 SE 28 78 UMI

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR Part 107, Subpart B), notice is hereby given of the exemptions granted August 1978. The modes of transportation involved are identified by a number in the "Nature of Exemption Thereof" portion of the table below as follows: One motor vehicle, two rail freight, three cargo-vessel, four cargo-only aircraft, five passenger-carrying aircraft.

Application numbers prefixed by the letters EE represent applications for emergency exemptions.

Application No.	Exemption No.	Applicant	Regulation(s) affected	Nature of exemption thereof
		Renewals		
2582-X	DOT-E 2582	Matheson Gas Products, Lyndhurst, N.J.	49 CFR 173.304(a) 175.3	To ship a certain nonflammable gas in non-DOT specification cylinders made in compliance with DOT 3E1800 with certain exceptions (Modes 1, 2, 3, and 4.)
3004-X	DOT-E 3004	U.S. Department of Defense, Washington, D.C.; Union Carbide Corp., Tarrytown, N.Y.; Airco Industrial Gases, Murray Hill, N.J.	49CFR 173.302, 175.3	To ship certain compressed gases in a non-DOT specification cylinder. (Modes 1, 2, 4, and 5.)
5122-X	DOT-E 5122	E. I. du Pont de Nemours & Co., Inc., Wilmington, Del.	49 CFR 173.314(c)	To ship a nonflammable compressed gas in DOT specification 106A500-X, 110A500-W multi-unit tank car tanks. (Modes 1 and 2.)
5557-X	DOT-E 5557	U.S. Department of Energy, Washington, D.C.	49 CFR part 173, subpart C	To ship class A explosives in non-DOT specification containers. (Mod 1.)
6080-X	DOT-E 6080	do	49 CFR 173.301(c), 173.337(a)(1).	To ship a certain class A poison in DOT specification 3A2400 or 3AA2500 cylinders. (Mode 1.)
6113-X	DOT-E 6113	Boston Gas Co., Malden, Mass.; New Bedford Gas & Edison Light Co., New Bedford, Conn., Gas Inc., Lowell, Mass.; Fitchburg Gas & Electric Co., Boston, Mass.; South Jersey Gas Co., Folsom, N.J.; Bay State Gas Co., Boston, Mass.; San Diego Gas & Electric Co., San Diego, Calif.; Northwest Natural Gas Co., Portland, Oreg.; Utility Propane Co., Elizabeth, N.J.; Process Engineering, Inc., Plainstow, N.H.; Philadelphia Gas Works, Philadelphia, Pa.; Haverhill Gas Co.; Amesburg, Mass.; UGI Corp., Reading, Pa.	49 CFR 172.101, 173.315(a)	To ship certain flammable gases in a non-DOT specification cargo tank built and constructed in accordance with sec. VIII of the ASME Code. (Mode 1.)
6113-P	DOT-E 6113	Air Products and Chemicals Inc., Allentown, Pa.	49 CFR 172.101, 173.315(a)	To become a party to exemption 6113. (See application 6113-X.) (Mode 1.)
6253-P	DOT-E 6253	ACT Services, Southampton, England; Leschaco, Inc., Houston, Tex.; Containertechnik Hamburg GMBH & Co., Hamburg, West Germany.	49 CFR part 173	To become a party to exemption 6253. (See application 6253-X.) (Mode 1, 2, and 3.)
6263-X	DOT-E 6263	Amtrol, Inc., West Warwick, R.I.	49 CFR 173.302(a)(1)	To ship certain nonflammable gases in a non-DOT specification tank. (Modes 1 and 2.)
6472-X	DOT-E 6472	Thiokol Corp., Brigham City, Utah.	49 CFR 173.91	To hip a certain class B explosives in non-DOT specification polystyrene containers. (Modes 1, 2, and 3.)
6530-X	DOT-E 6530	Air Products and Chemicals, Inc., Allentown, Pa.; Chemetron Corp., Chicago, Ill.	49 CFR 173.302(c)	To ship certain flammable gases in DOT specification 3A, 3AA, 3AX or 3AAX steel cylinders. (Modes 1 and 2.)
6563-X	DOT-E 6563	Safety Laboratories, Inc., Miami, Fla.	49 CFR 173.302(a)(1), 175.3	To ship certain nonliquefied, nonflammable compressed gases in non-DOT specification cylinders made in compliance with DOT specification 3E with certain exceptions. (Modes 1, 2, 3, 4, and 5.)
6726-X	DOT-E 6726	Born Free Plastics, Inc., Gardena, Calif.	49 CFR part 173, 178.19	To manufacture, mark and sell non-DOT specification reusable blow-molded polyethylene container for shipment of corrosive liquids and oxidizers. (Modes 1 and 2.)
6746-X	DOT-E 6746	The Firestone Tire and Rubber Co., Akron, Ohio.	49 CFR 173.315(a)(1)	To ship a nonflammable gas in certain DOT specification portable tanks. (Modes 1 and 3.)
6793-X	DOT-E 6793	Sea Containers, Inc., New York, N.Y.	49 CFR part 173, 46 CFR 90.05-35, 98.35-3.	To ship certain hazardous materials in a non-DOT specification portable tank. (Modes 1, 2, and 3.)
6806-X	DOT-E 6806	Dow Chemical Co., Midland, Mich.	49 CFR 173.302(a), 175.3	To ship certain flammable gas in a DOT specification 3E-1800 cylinder. (Mode 5.)

Renewals—Continued

Application No.	Exemption No.	Applicant	Regulation(s) affected	Nature of exemption thereof
6858-X	DOT-E 6858	Orval Tank Containers, Inc., Paris, France; Interpool, Ltd., New York, N.Y.	49 CFR 173.119, 173.125, 173.245, 173.346; 46 CFR 90.05-35.	To ship certain hazardous materials in a non-DOT specification stainless steel portable tank. (Modes 1, 2, and 3.)
6922-X	DOT-E 6922	Halocarbon Products Corp., Hackensack, N.J.	49 CFR 173.314(c), 179.300-15.	To ship a certain flammable compressed gas in DOT specification 106A500-X multi-unit tank car tanks. (Modes 1 and 2.)
7020-X	DOT-E 7020	Kerr-McGee Chemical Corp., Oklahoma City, Okla.; Pennwalt Corp., Philadelphia, Pa.	49 CFR 173.154, 173.163(a)(7).	To ship an oxidizing material in bulk rail cars or motor vehicles identified in 49 CFR 173.163(a)(7). (Modes 1 and 3.)
7026-X	DOT-E 7026	Hydraulic Research Textron, Pacoima, Calif.	49 CFR 173.304(a)(1), 175.3, 178.47.	To manufacture, mark and sell non-DOT specification pressure vessel for shipment of a compressed gas. (Modes 1, 4, and 5.)
7457-X	DOT-E 7457	E. I. du Pont de Nemours & Co., Inc., Wilmington, Del.	49 CFR 176.83	To stow class A explosives on deck adjacent to or over a hold containing cotton. (Mode 3.)
7495-X	DOT-E 7495	General American Transportation Corp., Chicago, Ill.	49 CFR 173.315(a)(1)	To manufacture, mark and sell non-DOT specification portable steel tanks for shipment of chlorine. (Modes 1, 2, and 3.)
7516-X	DOT-E 7516	Eurotainer Co., Paris, France.	49 CFR 173.119, 173.125, 173.245, 173.346; 46 CFR 90.05-35.	To ship certain flammable, corrosive poisonous, or combustible liquids in a non-DOT specification portable tank.
7520-P	DOT-E 7520	Dow Chemical Co., Midland, Mich.	49 CFR part 173; 46 CFR 90.05-35.	To become a party to exemption 7520. (See application No. 7520-X.) (Modes 1 and 3.)
7597-X	DOT-E 7597	Drexel Chemical Co., Memphis, Tenn.; Helena Chemical Co., Memphis, Tenn.	49 CFR 173.358, 173.359	To ship certain class B poisons in DOT specification 17E steel drums. (Mode 2.)
7620-X	DOT-E 7620	Eastern Mediterranean (Containers) Co., London, England.	49 CFR 173.346, 173.268, 173.247, 173.119, 173.154, 173.245; 46 CFR 90.05-35.	To become a party to exemption 7620 (see application No. 7620-X.) (Modes 1 and 3.)
7621-X	DOT-E 7621	Great Lakes Chemical Corp., West Lafayette, Ind.	49 CFR 173.353	To ship a poison B liquid in a non-DOT specification ISO portable tank. (Modes 1, 2, and 3.)
7657-X	DOT-E 7657	Welker Engineering Co., Bellaire, Tex.	49 CFR 173.302(a)(1), 173.304(a)(1), (b)(1), 175.3.	To manufacture, mark and sell non-DOT specification cylinders for shipment of compressed gases. (Modes 1 and 4.)
7682-X	DOT-E 7682	Igloo Corp., Houston, Tex	49 CFR part 173, 178.19	To manufacture, mark and sell non-DOT specification polyethylene drums for shipment of corrosive liquids. (Modes 1, 2, and 3.)
7697-X	DOT-E 7697	Kerr-McGee Chemical Corp., Oklahoma City, Okla.	49 CFR 173.850(a)	To ship calcium oxide in DOT specification 56 portable tanks. (Mode 3.)
7700-X	DOT-E 7700	U.S. Department of Agriculture, Forest Service, Washington, D.C.	49 CFR 175.310(d)	To ship a certain flammable liquid in the baggage compartment of helicopters. (Mode 5.)
7710-X	DOT-E 7710	Midway Can Co., St. Paul, Minn.	49 CFR part 173, 178.24, 178.211.	To manufacture, mark and sell DOT 12P fiberboard boxes for shipment of corrosive, flammable, and class B poisonous liquids. (Modes 1 and 2.)
7737-X	DOT-E 7737	Parker Hannifin Corp., Eastlake, Ohio.	49 CFR 173.304(a)(1), 175.3, 178.42.	To manufacture, mark and sell non-DOT specification seamless aluminum cylinders for shipment of compressed gases. (Modes 1, 2, and 4.)
7741-X	DOT-E 7741	Bell Aerospace, Buffalo, N.Y.	49 CFR 173.276(a), 173.302(a), 173.34(d), 175.3, 175.30.	To ship a flammable liquid and compressed gas in non-DOT specification pressure vessels. (Modes 1, 3, and 4.)
7744-X	DOT-E 7744	Dow Corning Corp., Midland, Mich.	49 CFR 172.101, 173,315(a)	To ship a nonflammable gas in non-DOT specification cargo tanks. (Mode 1.)
7768-X	DOT-E 7768	Plasti-Drum Corp., Lockport, Ill.	49 CFR 173.217, 173.245b, 178.19.	To manufacture, mark and sell non-DOT specification removable head polyethylene drums for shipment of certain oxidizers and corrosive solids. (Modes 1, 2, and 3.)
7777-X	DOT-E 7777	Saunders Petroleum Co., Evans, Colo.; Ozark-Mahoning Co., Tulsa, Okla.	49 CFR 173.248	To ship a corrosive liquid in DOT specification 34 polyethylene container, DOT specification 12B corrugated fiberboard box or DOT specification 12P corrugated fiberboard box. (Modes 1, 2, and 3.)
7804-X	DOT-E 7804	Igloo Corp., Houston, Tex	49 CFR 178.35A-1	To manufacture, mark and sell inside polyethylene containers complying with DOT specification 2SL except for density range, for shipment of certain hazardous materials. (Modes 1, 2, and 3.)
7887-P	DOT-E 7887	Centuri Engineering Co., Inc., Phoenix, Ariz.	49 CFR 172.101, 173.111, 175.3	To become a party to exemption 7887. (See application No. 7887-N.) (Modes 1, 2, 3, 4, and 5.)
		New Exemptions		
7951-N	DOT-E 7951	Avoset Food Corp., Oakland, Calif.	49 CFR 173.306(b)(1), 178.33	To ship an aerosol foodstuff in a nonrefillable metal container complying with DOT 2P specification with certain exceptions. (Modes 1, 2 and 3.)
7974-N	DOT-E 7974	Koppers Co., Inc., Pittsburgh, Pa.	49 CFR 173.31(a)(4), 173.346	To ship a class B poison in DOT specification 103CW tank cars. (Mode 2.)

New Exemptions—Continued

Application No.	Exemption No.	Applicant	Regulation(s) affected	Nature of exemption thereof
7978-N	DOT-E 7978	Magnavox Government & Industrial Electronics Co., Fort Wayne, Ind.	49 CFR 172.504	To ship a flammable solid in motor vehicles without placards. (Mode 1.)
7989-N	DOT-E 7989	GTE Sylvania, Needham Heights, Mass.	49 CFR 173.247	To ship a corrosive liquid in non-DOT specification inside stainless steel containers overpacked in stainless steel drums. (Modes 1 and 3.)
7998-N	DOT-E 7998	Dow Chemical Co., Midland, Mich.	49 CFR 173.154	To ship sodium persulfate in non-DOT specification polyethylene-paper bags. (Modes 1 and 2.)
8003-N	DOT-E 8003	Pennwalt Corp., Buffalo, N.Y.	49 CFR 173.154(a)X14)	To ship organic peroxides in DOT specification 12B corrugated fiberboard boxes. (Modes 1 and 3.)
8005-N	DOT-E- 8005	Hugonnet, S.A., Paris, France.	49 CFR 173.266	To ship hydrogen peroxide solution in a non-DOT specification portable tank. (Modes 1, 2, and 3).
8008-N	DOT-E 8008	Wheaton Plasti-Cote, Co., Mays Landing, N.J.	49 CFR 173.305, 173.306(a)	To manufacture, mark and sell non-DOT specification plastic coated glass bottles for shipment of a compressed gas. (Modes 1, 2, 3, and 4.)
8010-N	DOT-E 8010	Superior Lubricant Co., Addison, Tex.	49 CFR 173.286(b) (2), 175.3.	To ship a corrosive material in a DOT specification 12A-20 corrugated fiberboard box. (Modes 1 and 4.)

Emergency Exemptions
Applications Received and Granted

EE8049-N	DOT-E 8049	U.S. Department of Defense, Washington, D.C.	49 CFR 172.407(c), 172.400(a), 46 CFR 146.05-15.	To authorize certain labeling exceptions for military explosives transported by vessel. (Modes 1, 2, and 3.)
EE8061-N	DOT-E 8061	Anchem Products, Inc., Ambler, Pa.	49 CFR 173.314	To make a one-time shipment of a partially filled tank car containing hydrogen chloride. (Mode 2.)

DENIALS

6554-X Request by Bio-Lab, Inc., Conyers, Ga.—To ship certain oxidizing materials in a removable head polyethylene container, denied August 22, 1978 as being unnecessary.

6554-P Request by Hasa Chemicals, Inc., Saugus, Calif.—To become a party to DOT-E 6554 to ship certain oxidizing materials in a removable head polyethylene container, denied August 22, 1978 as being unnecessary.

6563-P Request by Pressure Pak, East Hampton, Conn.—To become a party to DOT-E 6563 authorizing shipment of compressed gases in non-DOT specification cylinders, denied August 14, 1978.

7529-X Request by Airesearch Manufacturing Co. of Arizona, Phoenix, Ariz.—To ship helium, compressed, in non-DOT specification welded steel pressure vessels, denied August 17, 1978.

7531-P Request United Technologies Corp., Sunnyvale, Calif.—To become a party to DOT-E 7531 to ship rocket motors with initiators installed and in a propulsive state, denied August 22, 1978.

8043-N Request by Corning Class Works, Corning, N.Y.—To ship a class B poisonous solid in a foreign-manufactured steel drum, denied August 25, 1978 as being unnecessary.

EE8058-N Request by Lexazu, Scharbau & Co., Bremen, West Germany—For an emergency exemption for the shipment of tetrahydrofuran in DOT-E 7820 portable tanks, denied August 20, 1978.

J. R. GROTHE,
Chief, Exemptions Branch, Office of Hazardous Materials Regulation, Materials Transportation Bureau.

[7035-01]

INTERSTATE COMMERCE COMMISSION

[Decisions Volume No. 33]

DECISION-NOTICE

Decided: September 13, 1978. The following applications are governed by special rule 247 of the Commission's *Rules of Practice* (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date notice of the application is published in the FEDERAL REGISTER. Failure to file a protest, within 30 days, will be considered as a waiver of opposition to the application. A protest under these rules should comply with rule 247(e)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (as specifically noted below), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. A protestant should include a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describe in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or upon applicant if no representative is named. If the protest includes a request for oral hearing, such request shall meet the requirements of section 247(e)(4) of the special rules and shall include the certification required in that section.

Section 247(f) provides, in part, that an applicant which does not intend timely to prosecute its application shall promptly request that it be dismissed, and that failure to prosecute an application under the procedures of the Commission will result in its dismissal.

Further processing steps will be by Commission notice, decision, or letter which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication.*

Any authority granted may reflect administratively acceptable restrictive amendments to the service proposed below. Some of the applications may have been modified to conform to the

Commission's policy of simplifying grants of operating authority.

We find, with the exceptions of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminary, that each common carrier applicant has demonstrated that its proposed service is required by the public convenience and necessity, and that each contract carrier applicant qualifies as a contract carrier and its proposed contract carrier service will be consistent with the public interest and the national transportation policy. Each applicant is fit, willing, and able properly to perform the service proposed and to conform to the requirements of the Interstate Commerce Act and the Commission's regulations. This decision is not a major Federal action significantly affecting the quality of the human environment.

It is ordered, in the absence of legally sufficient protests, filed within 30 days of publication of this decision-notice (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, such duplication shall not be construed as conferring more than a single operating right.

By the Commission, Review Board No. 3, members Parker, Fortier, and Hill.

H. G. HOMME, Jr.,
Acting Secretary.

MC 2860 (Sub-172F), filed August 24, 1978. Applicant: NATIONAL FREIGHT, INC., 71 West Park Avenue, Vineland, NJ 08360. Representative: W. Randall Tye, 1400 Candler Building, Atlanta, GA 30303. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *canned foodstuffs*, from Canajoharie, NY, to points in IN, KY, OH, and WV. (Hearing site: Washington, DC.)

MC 5470 (Sub-155F), filed August 21, 1978. Applicant: TAJON, INC., R.D. 5, Mercer, PA 16137. Representative: Brian L. Troiano, 918 16th Street NW., Washington, DC 20000. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *coke*, in dump vehicles, from Painesville, OH, to points in IN, MI, NY, PA, and WV. (Hearing site: New York, NY.)

MC 144988 (Sub-1F), filed August 17, 1978. Applicant: WILLIE L. BECK, d.b.a. BECK HAULING SERVICE, 5160 Thistle Road, SE, Smyrna, GA 30080. Representative: Willie L. Beck (same address as applicant). To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cotton clothing, cotton piece goods, clothing on hangers, and accessories*, between the facilities of Norstan Industries, Inc., (1) at or near Atlanta, GA, and (2) in AL, FL, NC, SC, and TN, under a continuing contract with Norstan Industries, Inc., of Atlanta, GA. (Hearing site: Atlanta, GA, or Birmingham, AL.)

MC 145103 (Sub-1F), filed August 4, 1978. Applicant: CALHOUN TRANSPORTATION, INC., 319 Jacet Road, Kearny, NJ 07032. Representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, NY 10048. To operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are dealt in or use by manufacturers and distributers of heaters and air conditioners, and building materials, and (2) materials, equipment, and supplies* used in the manufacture and distribution of the commodities named in (1) above, (a) between Evansville, IN, and Minneapolis, MN, on the one hand, and, on the other, points in the United States (except AK and HI), and (b) from Mineral Wells, TX, Columbus and Sidney, OH, Holland and Jackson, MI, Reading, PA, and Edison, NJ, to points in the United States (except AK and HI), under a continuing contract with National Temperature Control Centers, Inc., a subsidiary of ITT Grinnell Corp., of Providence, RI. (Hearing site: Providence, RI, or New York, NY.)

MC 145117F, filed July 25, 1978. Applicant: M. JULIEN BELLAVANCE, d.b.a. J. BELLAVANCE TRANSPORT, 100 Cote Double, Ste-Angele de Monnoir, Quebec, Canada JOL 1PO. Representative: Richard Habel, 666 Sherbrooke Street, Suite 1205, Montreal, Quebec, Canada H3A 1E7. To operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Soybean meal*, in bulk, from Rouses Point, NY, to the port of entry on the international boundary line between the United States and Canada, at or near Rouses Point, NY, restricted to the transportation of traffic having a subsequent movement in foreign commerce destined to the Province of Quebec, Canada, under a continuing contract with Habel Bechard Grain LTD, of Montreal, Quebec, Canada. (Hearing site: Montpelier, VT.)

NOTE.—The restriction and conditions contained in the authority granted in this proceeding are phrased in accordance with the policy statement entitled "Notice to Interested Parties of New Requirements Concerning Applications for Operating Authority to Handle Traffic to and from points in Canada" published in the FEDERAL REGISTER on December 5, 1974, and supplemented on November 18, 1975. The Commission is presently considering whether the policy statement should be modified, and is in communication with appropriate Canadian officials regarding this issue. If the policy statement is changed, appropriate notice will appear in the FEDERAL REGISTER and the Commission will consider all restrictions or conditions which were imposed pursuant to the prior policy statement, regardless of when the condition or restriction was imposed, as being null and void and having no force or effect.

MC 145127F, filed July 31, 1978. Applicant: BESTWAY CARTAGE CORP., 5541 Northwest 82d Avenue, Miami, FL 33166. Representative: Norton F. Hight (same address as applicant). To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between points in Monroe, Palm Beach, Broward, and Dade Counties, FL, restricted to the transportation of traffic having a prior or subsequent movement by air or water. (Hearing site: New York, NY.)

MC 145155 (Sub-2F), filed August 16, 1978. Applicant: TRANS-SWEET, INC., 3401 Rochester Road., Lakeville, NY 14480. Representative: S. Michael Richards, P.O. Box 225, Webster, NY 14580. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sweeteners*, in bulk, in tank vehicles, from Lakeville, NY, to points in CT, MA, MI, NJ, OH, PA, and RI. (Hearing site: Buffalo or Rochester, NY.)

MC 145190 (Sub-1F), filed August 10, 1978. Applicant: D.A.D. TRANSPORT CORP., 3832 New Cummings Road, Chattanooga, TN 37409. Representative: Daniel O. Hands, Suite 200, 205 West Touhy Avenue, Park Ridge, IL 60068. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Confectionery* (except in bulk), in vehicles equipped with mechanical refrigeration, from the facilities of Brock Candy Co., at or near Chattanooga, TN, to points in AL, AR, CT, DE, FL, GA, IL, IN, IA, KY, LA, ME, MD, MA, MI, MN, MS, MO, NJ, NH, NY, NC, OH, OK, PA, RI, SC, TX, VT, VA, WV, WI, and DC; and (2) *materials, equipment, and supplies used in the manufacture and distribution of confectionery*, (except commodities in bulk), in vehicles equipped with mechanical refrigeration, in the reverse direction, restricted in (1) and (2) above to the transportation of traffic originating at the named origins and destined to the indicated destinations. (Hearing site: Chattanooga, TN, or Atlanta, GA.)

NOTE.—Dual operations may be at issue in this proceeding.

MC 145190 (Sub-2F), filed August 21, 1978. Applicant: D. A. D. TRANSPORT CORP., 3832 New Cummings Road, Chattanooga, TN 37409. Representative: Daniel O. Hands, Suite 200, 205 West Touhy Avenue, Park Ridge, IL 60068. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Confectionery, and gum dispensing machines and stands*, from the facilities of Leaf Confectionery, Inc., at Chicago, IL, to points in AL, AR, FL, GA, LA, MS, NC, SC, TN, VA, and WV, restricted to the transportation of traffic originating at the named origin and destined to the indicated destinations. (Hearing site: Chicago, IL.)

NOTE.—Dual operations may be at issue in this proceeding.

MC 145230F, filed August 16, 1978. Applicant: H & S TRUCKING, INC., P.O. Box 127, Wesson, MS 39191. Representative: Robert J. Gill, 29 South La Salle Street, Chicago, IL 60603. To operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are dealt in or used by manufacturers of lawn and snow removal products* (except commodities in bulk), between the facilities of Jacobsen Manufacturing Co., a division of Sextron, at Brookhaven, MS, on the one hand, and, on the other, points in the United States (except AK and HI). (Hearing site: Jackson, MS, or New Orleans, LA.)

MC 145240F, filed August 21, 1978. Applicant: L. D. BRINKMAN TRUCKING CORP., 520 North Wildwood, Irving, TX 75060. Representative: Lawrence A. Winkle, P.O. Box 45538, Dallas, TX 75245. To operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Floor coverings, and materials and supplies* used in the installation of floor coverings; (1) from points in NJ, PA, GA, and MS, to points in TX, OK, AR, LA, MS, MO, CO, UT, AZ, KS, NM, and TN; and (2) between points in TX, OK, AR, LA, MS, KS, MO, CO, UT, AZ, TN, NM, and CA, under a continuing contract with L. D. Brinkman & Co., of Irving, TX. (Hearing site: Dallas, TX, or Washington, DC.)

MC 145270F, filed August 21, 1978. Applicant: METRO MOVING SERVICES, INC., 14533 Grover Street, Omaha, NE 68144. Representative: Norman D. Riffel (same address as applicant). To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, restricted to the transportation of shipments having a prior or subsequent movement in containers beyond the points authorized, and further restricted to the performance of pickup and delivery in connection with the packing, crating, and containerization, or unpacking, uncrating, and decontainerization of such shipments, between points in Harrison, Pottawattamie, Fremont, Shelby, Montgomery, and Page Counties, IA and points in NE. (Hearing site: Omaha, NE.)

PASSENGER AUTHORITY

MC 52330 (Sub-1F), filed August 22, 1978. Applicant: WASHINGTON COACH LINES, INC., P.O. Box 966, Aberdeen, WA 98520. Representative: S. HARRISON KAHN, 1511 K Street, NW., Suite 733, Washington, DC 20005. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *passengers, and their baggage* in same vehicle with passengers, in round-trip special and charter operations, beginning and ending at points in Grays Harbor, Pacific, Mason, Lewis, Thurston, Pierce, and King Counties, WA, and extending to points in the United States (including AK but excluding HI). (Hearing site: Aberdeen or Seattle, WA.)

BROKER AUTHORITY

MC 130514F, filed July 19, 1978. Applicant: DOWNTOWN TRAVEL SERVICE, INC., 10 Post Office Square, Boston, MA 02109. Representative: Jeremy Kahn, Suite 733, Investment Building, Washington, DC 20005. To engage in operations, in interstate or foreign commerce, as a *broker*, at Boston, Dorchester, Revere, Lynn, Plymouth, and Hyannis, MA, in arranging for the transportation, by motor vehicle, of *passengers and their baggage* in the same vehicle with passengers, in special and charter operations, in all-expense tours, between points in the United States, (including AK and HI. (Hearing site: Boston, MA.)

NOTE.—Applicant is cautioned that arrangements for charter parties or groups should be made in conformity with the requirements set forth in *Tauck Tours, Inc., Extension—New York, NY*, 54 M.C.C. 291 (1954).

MC 130520F, filed August 7, 1978. Applicant: GOOD TIME TRAVEL, INC., 6841 Day Drive, Suite 404, Parma, OH 44129. Representative: J.A. Kundtz, 1100 National City Bank Building, Cleveland, OH 44114. To engage in operations, in interstate or foreign commerce, as a *broker* at Parma, OH, in arranging for the transportation, by motor vehicle, of *passengers and their baggage*, in round-trip special and charter operations, beginning and ending at points in Cuyahoga, Geauga, Lake, Lorain, Portage, Stark, and Summit Counties, OH, and extending to points in the United States (including AK but excluding HI). (Hearing site: Cleveland or Columbus, OH.)

NOTE.—Applicant is cautioned that arrangements for charter parties or groups should be made in conformity with the requirements set forth in *Tauch Tours, Inc., Extension—New York, NY*, 54 M.C.C. 291 (1954).

[Volume No. 116]

SEPTEMBER 20, 1978.

PETITIONS, APPLICATIONS, FINANCE MATTERS (INCLUDING TEMPORARY AUTHORITIES), RAILROAD ABANDONMENTS, ALTERNATE ROUTE DEVIATIONS, AND INTRASTATE APPLICATIONS.

Petitions for Modification, Interpretation or Reinstatement of Operating Rights Authority Notice

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminate operating rights authority.

All pleadings and documents must clearly specify the suffix (e.g. M1 F, M2 F) numbers where the docket is so identified in this notice.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this notice. Such protests shall comply with Special Rule 247(e) of the Commission's *General Rules of Practice* (49 CFR 1100.247)* and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

MC 1117 (Sub-15) (MIF) (Notice of filing for petition to modify certificate), filed June 23, 1978. Petitioner: M.G.M. TRANSPORT CORP., 70 Maltese Drive, Totowa, NJ 07512. Representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, NY 10048. Petitioner holds a motor *common carrier* certificate in MC 1117 (Sub E-1), published August 12, 1974, authorizing transportation, as pertinent, over irregular routes, of: (1) *New furniture*, uncrated, as described in Appendix II to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from points in Orange, Rockland, Suffolk, Ulster, Dutchess, Nassau, Putnam, Sullivan, and Westchester Counties, NY, and New York, NY, to points in PA, MD, DE, VA, and DC which are within 350 miles of Paterson, NJ (except from New York, NY, to Newcastle County, DE, and Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties and except from Orange, Rockland, Ulster, Dutchess, Westchester, Putnam, and Sullivan Counties to that portion of PA east of a line beginning at the NY-PA State line, and extending along Interstate Hwy 81 to its junction with PA Hwy 61, then along PA Hwy 61 to

*Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

V 43 / 189 SE 28 78

Reading, PA, then along Interstate Hwy 176 to its junction with PA Hwy 10, then along PA Hwy 10 to the PA-MD State line, and except from Orange and Sullivan Counties to Kent and Newcastle Counties, DE, points in MD and points in PA), (2) *New furniture,* uncrated and *furniture frames,* uncrated, from Philadelphia County, PA, to points in MA, CT, RI, VT, and NH which are within 350 miles of Paterson, NJ, and (3) New furniture, uncrated, from ports of entry in NY on and east of NY Hwy 87 and west of U.S. Hwy 9 to points in DE and points in MD south of the Chesapeake and Delaware Canal and east of the Chesapeake Bay.

By the instant petition, petitioner seeks to modify the above authority by deleting the language "uncrated" from the commodity description "New furniture, uncrated".

NOTE.—Docket No. MC 1117 (Sub-15) has been assigned this modification of an E-letter notice certificate for publication and reference purposes.

MC 1838 (Sub-11) (M1F) (Notice of Filing of Petition to Modify Permit), filed August 21, 1978. Petitioner: S & K TRANS, INC., P.O. Box 208, Akron, NY 14001. Representative: David M. Marshall, 101 State Street, Suite 304, Springfield, MA 01103. Petitioner holds a motor *contract carrier* permit MC 1838 (Sub-11), issued August 11, 1978, authorizing transportation, over irregular routes, of (1) *building materials* (except commodities in bulk, in tank vehicles, and iron and steel articles requiring the use of special equipment), between the facilities used by MacMillan Bloedel Building Materials, located at points in the United States in and east of MN, IA, MO, AR, and LA (except Pine Hill and Opelika, AL), on the one hand, and, on the other, points in the United States in and east of MN, IA, MO, AR, and LA and ports of entry on the international boundary line between the United States and Canada located in ND, MT, ID, and WA; (2) *particleboard,* from Pine Hill, AL, to points in the United States in and east of MN, IA, MO, AR, and LA, and ports of entry on the international boundary line between the United States and Canada, located in ND, MT, ID, and WA. Restriction: All of the service in (1) and (2) above to be performed under a continuing contract or contracts with MacMillan Bloedel Building Materials. By the instant petition, petitioner seeks to add as a service point under part (1) of the permit the facilities of Shepard & Morse Lumber Co. under a continuing contract or contracts with the said Shepard & Morse Lumber Co.

MC 8771 (Sub-3) (M1F) (Notice of Filing of Petition To Modify Certificate), filed July 20, 1978. Petitioner: SAW MILL SUPPLY, INC., 3599 Old Gettysburg Road, P.O. Box 41, Camp Hill, PA 17001. Representative: John R. Sims, Jr., 915 Pennsylvania Building, 425 13th Street NW., Washington, DC 20004. Petitioner holds a motor *common carrier* certificate in MC 8771 (Sub-3), issued May 13, 1943, authorizing transportation, over irregular routes, of *machinery, machinery parts,* and *contractors' equipment* between points and places in NY, NJ, PA, DE, MA, VA, CT, RI, MD, NH, VT, ME, and DC. By the instant petition, petitioner seeks to modify the above authority to permit the transportion of *machinery, machinery parts, contractors equipment, commodities* which because of their size or weight require the use of special equipment, and *self propelled vehicles weighing more than 15,000 pounds each* between the points set forth above.

MC 19227 (Sub-69) (M1F) (Notice of Filing of Petition To Reinstate Certificate), filed May 15, 1978. Petitioner: LEONARD BROS TRUCKING CO., INC., 2515 NW. 20th Street, Miami, FL 33152. Representative: Robert McCaughey (same address as petitioner). Petitioner holds a motor *common carrier,* authority in MC 19227 (Sub-69) issued September 7, 1965, authorizing transportation over irregular routes of: *Jet Thrust units* and *acessories* used in the installation of such commodities, from Redstone Arsenal near Huntsville, AL, to the site of the Thiokol Chemical Corp. plant near Brigham City, UT, and Larson Air Force Base near Moses Lake, WA. Petitioner by the instant petition, seeks reinstatement of the previous authority, which expired September 7, 1970.

MC 36018 (Sub-1) (M1F) (Notice of Filing of Petition To Modify Territorial Description), filed August 18, 1978. Petitioner: COYMAN BROTHERS, INC., Foot of Monachie Road, Hackensack, NJ 07601. Representative: Robert B. Pepper, The Forrest Park Building, 168 Woodbridge Avenue, Highland Park, NJ 08904. Petitioner holds a motor *common carrier* certificate in MC 36018 (Sub-1), issued February 12, 1962, authorizing transportation, over irregular routes, as pertinent, of: *Boilers, boiler tubes, and machinery,* from North Bergen, NJ, to points in CT, MA, and RI, within 200 miles of North Bergen, NJ. By the instant petition, petitioner seeks to modify the above territorial description to read: Between North Bergen, NJ, on the one hand, and, on the other, points in CT, MA, RI, within 200 miles of North Bergen, NJ.

MC 48958 (Sub-118) (M1F) (Notice of Filing of Petition To Modify Certificate by Amendment of Commodity Description), filed August 24, 1978. Petitioner: ILLINOIS-CALIFORNIA EXPRESS, INC., 510 East 51st Avenue, Denver, CO 80216. Representative: Lee E. Lucero (same address as petitioner). Petitioner holds motor *common carrier* certificate in MC 48958 (Sub-118), effective January 31, 1975, which authorizes transportation over irregular routes of: *Refined copper and commidities of unusual value,* between the facilities of American Smelting and Refining Co., located at or near Amarillo, TX, on the one hand, and, on the other, points in CA, AZ, NM, CO, WY, NE, KS, MO, IA, IL, IN, OH, and OK, restricted against tacking or joining with petitioner's other irregular-route authority. By the instant petition, petitioner seeks to amend the commodity description to read: *Copper and commodities of unusual value.*

MC 59150 (Sub-9) (M1F) (Notice of Filing of Petition To Modify Certificate), filed July 18, 1978. Petitioner: PLOOF TRUCK LINES, INC., P.O. Box 3277, 1414 Lindrose Street, Jacksonville, FL 32206. Representative: Martin Sack, Jr., Gulf Life Tower, Jacksonville, FL 32207. Petitioner holds a motor *common carrier* certificate in MC 59150 (Sub-9), issued July 27, 1959, authorizing transportation over irregular routes of: *Lumber* (except plywood and veneer) from points in SC to points in FL. Petitioner by the instant petition, seeks to delete the restriction "except plywood and veneer".

MC 113666 (Sub-57) (M1F) (Notice of Filing of Petition To Modify Certificate), filed August 22, 1978. Petitioner: FREEPORT TRANSPORT, INC., 1200 Butler Road, P.O. Box 98, Freeport, PA 16229. Representative: William H. Shawn, 1730 M Street NW., Washington, DC 20036. Petitioner holds a motor *common carrier* certificate in MC 113666 (Sub-57), issued June 1, 1973, authorizing the transportation of *refractory products, brick* and *materials and supplies* used in the installation and production of refractory products (except liquid commodities in bulk): (1) From Baltimore, Jennings, and Leslie, MD, East Palestine, Parral, Massillon, Negley, and Portsmouth, OH, Ludington, MI, PA, to ports of entry on the United States-Canada boundary line in ME, NH, VT, NY, MI, and MN; (2) from Newell, WV, and points in PA to ports of entry on the United States-Canada boundary line in ME, NH, VT, and MN; (3) from Philadelphia, PA, Tarentum, Childs, Claysburg, Salina, and Sproul, PA, to ports of entry on the United States-Canada boundary line in MI; (4) from Philadelphia, PA, to ports of entry on the United States-Canada boundary line in NY; (5) from ports of entry on the United States-Canada boundary line in ME, NH, VT, NY, MI, and MN, to points in ME, NH, VT,

MA, CT, RI, NY, PA, NJ, DE, MD, WV, VA, NC, TN, KY, OH, IN, IL, MI, WI, MO, IA, and MN. By the instant petition, the petitioner seeks to include NY as a port of entry in paragraph (2).

MC 114211 (Sub-181) (M1F) (Notice of Filing of Petition To Delete Restriction), filed July 11, 1978. Petitioner: WARREN TRANSPORT, INC., 210 Beck Street, Waterloo, IA 50704. Representative: Daniel Sullivan, Suite 1600, 10 South LaSalle Street, Chicago, IL 60603. Petitioner holds a motor *common carrier* certificate in MC 114211 (Sub-181), issued May 2, 1974, authorizing transportation, over irregular routes, of: (1) *Grading, paving, and finishing machinery and equipment, and contractors equipment;* (2) *parts, accessories and attachments* for the commodities in (1) above; and (3) *materials, equipment, and supplies* used in the manufacture or distribution of the commodities described in (1) and (2) above (except commodities in bulk) between Ida Grove, IA, on the one hand, and, on the other, points in the United States (except AK and HI). Restriction: The operations authorized in (1) and (2) above is to the transportation of shipments originating at Ida Grove, IA, and in (3) above to the transportation of shipments destined to Ida Grove, IA. By the instant petition, petitioner seeks to delete the above restrictions.

MC 123383 (Sub-71) (M1F) (Notice of Filing of Petition To Modify Certificate), filed August 18, 1978. Petitioner: BOYLE BROTHERS, INC., Sharp Road, Evesham Township, NJ 08055. Representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, NY 10048. Petitioner holds a motor *common carrier* certificate in MC 123383 (Sub-71), issued September 2, 1975, authorizing transportation, over irregular routes, of: *Plastic articles, and materials and supplies* used in the manufacture and distribution of plastic articles (except commodities in bulk), between the facilities of GAF Corp., located in Gloucester and Camden, NJ, on the one hand, and, on the other, points in LA and points in that part of the United States located on and east of a line beginning at the mouth of the Mississippi River and extending along the Mississippi River to its junction with the western boundary of Itasca County, MN, then northward along the western boundaries of Itasca and Koochiching Counties, MN, to the United States-Canada boundary line. Restricted: To traffic originating at named origins and destined to named destination points. By the instant petition, petitioner seeks to modify the above authority by substituting the facility location of Thorofare (West Deptford Township), NJ, for Camden, NJ.

MC 130138 (M1F) (Notice of Filing of Petition To Modify License), filed June 20, 1978. Petitioner: CHI-AM TOURS, INC., 9 Elizabeth Street, New York, NY 10013. Representative: Robert Goldstein, 8 West 40th Street, New York, NY 10018. Petitioner holds a motor carrier license as a *broker* in MC 130138, issued March 12, 1973, authorizing transportation, over irregular routes, of: *Passengers and their baggage,* in round-trip sightseeing and pleasure tours, in special and charter operations, beginning and ending in that part of New York, NY, in the Borough of Manhattan south of 14th Street, and extending to points in that part of the United States on and east of a line begining at the mouth of the Mississippi River and extending northerly along the Mississippi River to its junction with the western boundary of Itasca County, MN, then northerly along the western boundaries of Itasca and Koochiching Counties, MN, to the United States-Canada boundary line. Applicant is authorized to engage in the above-specified operations as a broker at New York, NY. By the instant petition, petitioner seeks to ad broker locations at Los Angeles and San Francisco, CA.

MC 134404 (Sub-26) (M1F) (Notice of Filing of a Petition To Modify Permit), filed August 16, 1978. Petitioner: AMERICAN TRANS-FREIGHT, INC., P.O. Box 796, Manville, NJ 08835. Representative: Eugene M. Malkin, Suite 6193, 5 World Trade Center, New York, NY 10048. Petitioner holds a motor *common carrier* certificate in MC 134404 (Sub-26), issued March 14, 1977, authorizing transportation, over irregular routes, of: *Calcium carbonate, drugs, chemicals, medicines, and toilet preparations* (except commodities in bulk), (1) from Adams, MA, to Trenton, NJ, (2) from West Haven, CT, to Gloucester City, NJ, and (3) from Trenton, NJ, to West Haven, CT, under a continuing contract(s) with Miles Laboratories, Inc., of Elkhart, IN. By the instant petition, petitioner seeks to modify the above authority by substituting Mechanicsburg, PA, for Gloucester City, NJ.

MC 136408 (Sub-31) (M1F) (Notice of Filing of Petition To Modify Permit), filed August 22, 1978. Petitioner: CARGO CONTRACT CARRIER CORP., P.O. Box 206, Sioux City, IA 51102. Representative: William J. Hanlon, 55 Madison Avenue, Morristown, NJ 07960. Petitioner holds a motor *contract carrier* permit in MC 136408 (Sub-31), issued April 27, 1977, authorizing transportation, over irregular routes, of: *Surgical, health care, and medical products,* between the facilities of Johnson & Johnson in Middlesex County, NJ, Will and Cook Counties, IL, and Grayson County, TX, under a continuing contract(s) with Johnson & Johnson of New Brunswick, NJ. By the instant petition, petitioner seeks to modify the above authority by adding Dallas County, TX, to the territorial description.

MC 139349 (Sub-2) (M2F) (Notice of Filing of Petition To Modify Permit), filed August 18, 1978. Petitioner: EZ FREIGHT LINES, 348 Ocean Avenue, Jersey City, NJ 07305. Representative: Robert B. Pepper, The Forrest Park Building, 168 Woodbridge Avenue, Highland Park, NJ 08904. Petitioner holds a motor *contract carrier* permit in MC 139349 (Sub-2), issued August 8, 1978, authorizing transportation, over irregular routes, as pertinent, of: *Lighting fixtures and lamps, and equipment, materials, and supplies* used in the manufacture and sale of lighting fixtures and lamps (except commodities in bulk), between West Orange, NJ, on the one hand, and, on the other, points in LA, MN, and TX, and those points in that part of the United States east of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary of Itasca County, MN, then northward along the western boundaries of Itasca and Koochiching Counties, MN, to the United States-Canada boundary line, under a continuing contract(s) with Energex Lighting Industries, of West Orange, NJ. By the instant petition, petitioner seeks to modify the above authority by (1) adding Triboro Electric Corp., and Action Tungsram, Inc. as additional contracting shippers, and (2) adding Doylestown, PA, and East Brunswick, NJ, as additional base points to the territorial description.

REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION

NOTICE

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER.

An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such pleading shall comply with Special Rule 247(e) of the Commission's *General Rules of Practice* (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including copies of intervenor's conflicting authorities

V 43 / 189 SE 28 78 UMI

and a concise statement of intervenor's interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced by lack of notice of the authority granted. A copy of the pleading shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

MC 139973 (Sub-35) (Republication), filed October 27, 1977, published in the FEDERAL REGISTER issue of December 22, 1977, and republished this issue. Applicant: J. H. WARE TRUCKING, INC., P.O. Box 398, Fulton, MO 65251. Representative: Larry D. Knox, 600 Hubbell Building, Des Moines, IA 50309. A decision of the Commission, Review Board No. 3, decided August 14, 1978, and served August 31, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of *foodstuffs* (except commodities in bulk), from Jacksonville, IL, to points in ME, NH, VT, MA, RI, VA, DC, CT, NY, PA, NJ, DE, MD, and WV, restricted to the transportation of traffic originating at the above-named origin and destined to points in the above-named States, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to modify the commodity description.

MC 142668 (Sub-5) (Republication), filed February 9, 1978, published in the FEDERAL REGISTER issue of March 2, 1978, and republished this issue. Applicant: AERO DISTRIBUTING CO., INC., 7259 Delta Circle, Mableton, GA 30336. Representative: Kim G. Meyer, P.O Box 872, Atlanta, GA 30301. A decision of the Commission, Review Board No. 2, decided August 1, 1978, and served August 18, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *contract carrier*, by motor vehicle, over irregular routes, in the transportation of *such merchandise* as it is dealt in by home products distributors (except commodites in bulk): (1) From Chicago, IL, to points in MI (except Huron, Sanilac, Lapeer, St. Clair, Oakland, Macomb, Wayne, Lenawee, and Monroe Counties), and (2) from Dubuque, IA, to points in ND, SD, and those points in MN on and west of U.S. Hwy 71, under continuing contracts with Stanley Home Products, Inc., of Easthampton, MA, will be consistent with the public interest and the national transportation policy, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to modify the territorial description.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

NOTICE

The following applications are governed by Special Rule 247 of the Commission's *General Rules of Practice* (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(e)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. All pleadings and documents must clearly specify the "F" suffix where the docket is so identified in this notice. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(e)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission decision which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the* FEDERAL REGISTER *of a notice that the proceeding has been assigned for oral hearing.*

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

MC 115022 (Sub-32F), filed April 14, 1978, and previously noticed in the FEDERAL REGISTER issue of August 10, 1978. Applicant: CHAMBERLAIN MOBILEHOME TRANSPORT, INC., 64 East Main Street, Thomaston, CT 06787. Representative: Bernard J. Hasson, Jr., 927 15th Street NW, Suite 306, Washington, DC 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (a) *Trailers*, designed to be drawn by passenger automobiles, in initial movements; (b) *buildings in sections*, mounted on wheeled undercarriages; and (c) *mobile homes*, in single and double-wide units, from points in AL, AZ, AR, CA, CO, FL, GA, IN, KS, LA, MD, MI, MS, MN, NE, NH, NM, NY, NC, OH, OK, OR, PA, SC, TN, TX, VA, and WI, to points in the United States, including AK, but excluding HI, restricted in (b) and (c) above to the transportation of traffic originating at the indicated origins. (Hearing site: Hartford, CT or Boston, MA.)

MC 119988 (Sub-133F), filed February 6, 1978, and previously noticed in the FEDERAL REGISTER issue of March 16, 1978. Applicant: GREAT WESTERN TRUCKING CO., INC., Highway 103 East, P.O. Box 1384, Lufkin, TX 75901. Representative: Clayte Binion, 1108 Continental Life Building, Fort Worth, TX, 76102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Confectionary*, between Lufkin, TX, on the one hand, and, on the other, points in the United States (except AK and HI); and (2) *machinery, equipment, materials, and supplies*, used in the manufacture and distribution of the commodities named in (1) above, from points in the United States (except AK and HI), to Lufkin, TX, restricted against the transportation of commodities in bulk and to the transportation of traffic originating at or destined to the facilities of Atkinson Candy Co. at Lufkin, TX. Hearing: September 25, 1978 (1 day), at 9:30 a.m. local time, in room 5A15-17, Federal Office Building, 1100 Commerce Street, Dallas, TX.

MC 121626 (Sub-4F), filed April 14, 1978, and previously noticed in the FEDERAL REGISTER issue of August 10, 1978. Applicant: BAYVIEW TRUCKING, INC., 7800 Florin-Perkins Road, Sacramento, CA 95828. Representative: Ann M. Pougiales, 100 Bush Street, 21st Floor, San Francisco, CA 94104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (a) *Such merchandise* as is dealt in by grocery and food business houses, and (b) commodities otherwise exempt under section 203(b)(6) of the Interstate Commerce Act when transported in the same vehicle with the commodities described in (a) above, in vehicles equipped with mechanical refrigeration, between points in CA, on the other hand, and, on the other, El Dorado, NV, and points in Placer, and Sierra Counties, CA, and Washoe and Douglas Counties, NV. (Hearing site: San Francisco, CA, or Reno, NV.)

NOTE.—Common control may be involved. This republication shows all points in CA as the base territory.

MC 140024 (Sub-124F), filed April 15, 1978. Applicant: J. B. MONTGOMERY, INC., 5655 East 52d Avenue, Commerce City, CO 80022. Representative: Charles J. Kimball, 350 Capitol Life Center, 1600 Sherman Street, Denver, CO 80203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alcoholic beverages* (except in bulk) from the port of entry on the International Boundary line between the United States and Canada, located at or near Champlain, NY, to Denver, CO, and points in its Commerical Zone. (Hearing site: Denver, CO.)

NOTE.—Common control may be involved.

MC 143446 (Sub-3F), filed June 21, 1978. Applicant: GARY L. McCALLISTER & MONTE A. McCALLISTER d.b.a. McCALLISTER BROS., P.O. Box 2114, Rock Springs, WY 82901. Representative: Ward A. White, P.O. Box 568, Cheyenne, WY 82001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Bentonite, barite, drilling compounds and completion materials, in sacks and in bulk, and* (2) *machinery, equipment, materials and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission and distribution of natural gas and petroleum, their products and by-products (except complete drilling rigs)*, between points in Grand, Sanpete, Utah, Wasatch, Salt Lake, Davis and Morgan Counties, UT, on the one hand, and, on the other, (1) points in CO located west of U.S. Hwy 85 and north of Interstate Hwy 70, U.S. Hwy 6-24, and (2) points in ID. Hearing: October 16, 1978 (2 weeks), at 9:30 a.m. local time at Denver, CO, in a hearing room location to be later designated.

MC 144493F, filed March 20, 1978, and previously published in the FEDERAL REGISTER issue of May 11, 1978. Applicant: DOYLE EDDINS POPE, d.b.a. D & E HAULING CO., Route 2, Box 146, Quincy, FL 32351. Representative: Doyle Eddins Pope (same address as applicant). Authority sought to operate *as a contract carrier*, by motor vehicle, over irregular routes, transporting: *Clay*, in bulk, in dump vehicles, from points in Grady County, GA, to points in Gadsen County, FL, under a continuing contract or contracts with Floridin Co., at Quincy, FL. (Hearing site: Quincy, FL.)

NOTE.—This republication is to indicate the applicant's actual grant of authority.

FINANCE APPLICATIONS NOTICE

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, or rail carriers or motor carriers pursuant to sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and two copies of protests against the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rules 240(c) or 240(d) of the Commission's *General Rules of Practice* (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant, if no representative is named.

MC F-13725F. Authority sought by Robert M. Constantine and William E. Constantine, Jr., individuals, 1601 Cuba Street, Baltimore, MD 21230, to control (B) Liberty Transfer Co., Inc. and (BB) Bond Transfer Co., Inc., Baltimore, MD, motor contract carriers of specific commodities. Attorney for applicants: S. Harrison Kahn, Kahn and Kahn, Suite 733 Investment Building, Washington, D.C. 20005. Operating rights sought to be controlled. (B) Liberty Transfer Co., Inc. is authorized to operate as a motor contract carrier of paperboard, canned goods, and generally such merchandise as is dealt in by wholesale, retail, and chain grocery and food business houses, and, in connection therewith, equipment, materials and supplies used in the conduct of such business, from, to, and between points in the States of MD, DE, NY, PA, NJ, and DC over regular and irregular routes. (BB) Bond Transfer Co., Inc. is authorized to operate as a motor contract carrier of such commodities as are dealt in by wholesale, retail, and chain grocery and food business houses, and, in connection therewith, equipment, materials, and supplies used in the conduct of such business, via irregular routes between points in portions of the States of PA, WV, MD, DE, VA, and DC, and paperboard between Baltimore, MD, on the one hand, and, on the other, named points in the Commonwealth of Pennsylvania. Robert M. Constantine does not own any stock in or operate as a carrier other than Liberty Transfer Co., Inc. William E. Constantine, Jr. does not own any stock in or operate as a carrier other than Bond Transfer Co., Inc. Applicants have filed a motion to dismiss the application. Application has not been filed for temporary authority under section 210a(b) of the Interstate Commerce Act.

MC F-13727F. Authority sought for purchase by BEAUFORT TRANSFER CO., Box 151, Gerald, MO 63037, of the operating rights of LANGER TRUCK LINE, INC., Route 2, Box 226E, Willard, MO 65781, and for acquisition by OLIN FLOTTMANN, P.O. Box 151, Gerald, MO 63037, of control of such rights through the transaction. Applicants' attorneys: Daniel Johnson, 4304 East-West Highway, Washington DC 20014, and Ernest A. Brooks II, 1301 Ambassador Building, St Louis, MO 63101. Operating rights sought to be transferred: General commodities (with specified exceptions), over specified regular routes, between Springfield, MO and Mt. Vernon, MO, serving all intermediate points; and between Mt. Vernon, Mo, and Wellsville, KS, serving no intermediate points. Vendee is presently authorized to operate as a common carrier under Certificate MC 78400 in the States of MO, AL, AR, CO, IL, IN, IA, KS, KY, LA, MN, MI, MS, NB, ND, MN, OK, SD, TX, TN, WI, and WY. Application has not been filed for temporary authority under section 210a(b).

MC F-13730F. Authority sought for purchase by KUJAK TRANSPORT, INC., Junction Avenue, Winona, MN 55987 of the operating rights of KUJAK BROS. TRANSFER, INC., Junction Avenue, Winona, MN 55987 and for acquisition by Hubert Kujak and Martin Kujak of control of such rights through the acquisition. Applicant's representative: John P. Rhodes, Box 5000, Waterloo, IA 50704. Operating rights sought to be purchased are those contained in MC 109449 and subs thereunder which authorizes transportation of various specific commodities between named points and places in IA, MN and WI. Vendee is a noncarrier whose stockholders are the same as those of vendor. Purpose of the transaction is to transfer the operating rights held by vendor to vendee to accomplish intercorporate simplification. Approval of the transaction will not result in dual operations or duplicating authority. Application has been filed for temporary authority under section 210a(b).

MC F-13731F. Authority sought for control by TYLER TRANSPORTATION CO., 3100 Southland Center, Dallas, TX 75201, and in turn by Tyler Corp., 3100 Southland Center, Dallas, TX 75201, of Thurston Motor Lines, Inc., 600 Johnston Road, Charlotte, NC 28206, a wholly owned subsidiary of Thurston, Inc. through acquisition of stock and purchase of other assets of Thurston, Inc. Representatives: William A. Chesnutt, 1776 F Street NW., Washington, DC 20006, and J. V. Luckadoo, 600 Johnston Road, Charlotte, NC 28206. Operating rights sought to be controlled: General commodities (with usual exceptions, including the restriction against transportation of commodities requiring special equipment) and certain specified commodities over regular and irregular routes in AL, AR, CT, DE, DC, FL, GA, KY, LA, MD, MA, MS, NJ, NY, NC, PA, RI, SC, TN, VA and WV, as more fully described in certificates MC 105457 and subs thereto, and permit MC 3582. This notice does not purport to be a complete description of all of the operating rights of Thurston Motor Lines, Inc. It is believed to be sufficient for purposes of public notice regarding the nature and extent of Thurston's operating rights without stating in full the entirety thereof. Tyler Corp., the party in control of applicant, controls C & H Transportation Co., Inc., 9757 Military Parkway, P.O. Box 270535, Dallas, TX 75227, which in turn controls C & H Freightways, Inc., 406 West Watkins Road, P.O. Box 20465, Phoenix, AZ 85036. Collectively, C & H Transportation Co., Inc. and C & H Freightways, Inc. hold authority to transport principally *articles which because of size or weight require the use of special equipment or special handling*, to, from, or between all points in the United States (except HI), as more fully described in certificates MC 83539 and MC 119918 and subs thereto. C & H Transportation Co., Inc. and Thurston Motor Lines, Inc. each hold certain operating rights technically duplicative of rights held by the other within limited territories. The application proposes that the two carriers will be operated as separate and distinct, autonomous corporations. Approval of this application will not result in any splitting of operating authority. The holding by Thurston Motor Lines, Inc. of common and contract carrier authority was approved in MC F-12530. No temporary authority under section 210a(b) is being sought. This application is related to simulateously filed applications for approval under section 214 for assumption of obligation in respect of securities of others and the issuance of securities in connection with the proposed transaction.

MC F-13732F. Authority sought for purchase by ARNOLD BROS. TRANSPORT, LTD., 851 Lagimodiere Boulevard, Winnipeg, MA, Canada R2J 3K4, of a portion of the operating rights of SHERWOOD HUME TRANSPORTATION, LTD., 734 Main Street East, Milton, ON, Canada L9T 3P6, and for acquisition by Frank E. Arnold and Gerald R. Arnold, also of 851 Lagimodiere Boulevard, Winnipeg, MA, Canada R2J 3K4, of control of such rights through the purchase. Applicants' attorneys: Daniel C. Sullivan, Esq., Suite 1600, 10 South La Salle Street, Chicago, IL 60603, and Robert D. Gunderman, Esq., Suite 710, Statler Hilton, Buffalo, NY 14202. Operating rights sought to be purchased: *Agricultural machinery and implements, parts and attachments*, and *material* used in the assembly and repair of agricultural machinery, between points in IL, IN, IA, KS, MI, MN, MO, NY, OH, PA, VT, and WI, on the one hand, and, on the other, ports of entry on the United States-Canada boundary line located in MN, restricted to the transportation of shipments originating at or destined to points in Canada. Vendee is presently authorized to operate as a *common carrier* of specified commodities, including those stated in the subject authority, between various ports of entry on the United States-Canada boundary and points within the entire continental United States. Vendor is authorized to operate as a *common carrier* of specified commodities between various ports of entry on the United States-Canada boundary line and points within the Eastern and Central United States. Vendor proposes to split its authority and sell the above-noted portion. Vendor will retain that portion which authorizes the transportation of the same commodities between the ports of entry on the United States-Canada boundary line, located in ME, MI, NY and VT and points in the same destination States specified above. Application has not been filed for temporary authority under section 210a(b).

MC F-13733F. Application under section 5(1) of the Interstate Commerce Act for approval of an agreement between common carriers for the pooling of traffic. Applicants: Pacific Motor Trucking Co., 1766 El Camino Real, Burlingame, CA 94010, and Big Pine Trucking Co., Inc., Route 4, Box 1, Bishop, CA 93514, seek to enter into an agreement for the pooling of traffic consisting of general commodities moving in interstate commerce between Los Angeles, CA, and points on U.S. Hwy 395 between Inyokern and Round Valley, CA, and points on U.S. Hwy 6 between Bishop and Benton Station, CA, excluding service at Los Angeles. Pacific Motor Trucking Co. is authorized to operate as a *common carrier* in the States of OR, CA, NV, AZ, NM, and TX. Applicants representative: John MacDonald Smith, Room 813, One Market Plaza, San Francisco, CA, 94105.

Operating Rights Application(s) Directly Related to Finance Proceedings

NOTICE

The following operating rights application(s) are filed in connection with pending finance applications under section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with transfer applications under section 212(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the authorities must be filed with the Commission within 30 days after the date of this Federal Register notice. Such protests shall comply with Special Rule 247(e) of the Commission's *General Rules of Practice* (49 CFR 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative or applicant if no representative is named.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

MC 98571 (Sub-5F), filed August 11, 1978. Applicant: A & B TRANSPORTATION SERVICES, INC., 2645 Nevin Avenue, Los Angeles, CA 90011. Representative: A. David Millner, Post Office Box 1409, 167 Fairfield Road, Fairfield, NJ 07006. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting as follows:

Part I

(A) REGULAR ROUTES

General Commodities (except commodities in bulk, household goods as defined by the Commission and livestock).

Between points in California, serving all intermediate points, as follows:

1. From Stockton to San Ysidro, over Interstate Hwy 5, and return over the same routes, serving as off-route points all points located in the San Diego territory, as defined in part II hereof, and Los Banos.

2. From Riverside to San Diego, over U.S. Hwy 395, return over the same route.

3. From Santa Monica to Redlands, over Interstate Hwy 10, and return over the same route, serving as off-route points all points in the Los Angles basin territory, as defined in part III hereof.

4. From Hermosa Beach to Riverside, over California State Hwy 91, and return over the same route.

5. From Los Angeles to junction with Interstate Hwy 5, near San Juan Capistrano, over California State Hwy 1, and return over the same route.

6. From Oceanside to Lake Henshaw, over California State Hwy 76, and return over the same route.

7. From Bonsall to Fallbrook, and from Fallbrook to the intersection of County Hwy S-13 and U.S. Hwy 395, over County Hwy S-13, and return over the same route.

8. From Escondido to Rincon, over County Hwy S-6, and return over the same route.

9. From the intersection of California State Hwy 78 and Interstate Hwy 5 to San Pasqual, over California State Hwy 78, and return over the same route.

10. From San Luis Obispo to Los Angeles, over U.S. Hwy 101, and return over the same route, serving as off-route points Betteravia, Guadalupe, Oceano, Orcutt, Vandenburg Air Force Base, Los Olivos, Solvang, San Ynez, Somis, and Oxnard.

11. From Los Angeles to Stockton, over U.S. Hwy 99, and return over the same route, serving as off-route points Saugus, Newhall, Rosedale, Shafter, Wasco, Hanford, Visalia, Le Grand, Castle Air Force Base, Planada, Hughson, Winton, and Empire.

12. From Oakland to the intersection of Interstate Hwy 580 and Interstate Hwy 5, over Interstate Hwy 580, and return over the same route, serving as off-route points Livermore, Pleasanton, and San Ramon.

13. From the intersection of Interstate Hwy 580 and Interstate Hwy 205 to the intersection of Interstate Hwy 205 and Interstate Hwy 5, over Interstate 205, and return over the same route, serving the off-route point of Tracy.

14. From Oakland to San Jose, over California State Hwy 17, and return over the same route.

15. From Oakland to San Francisco, over Interstate Hwy 80, and return over the same route.

16. From San Francisco to San Jose, over U.S. Hwy 101, and return over the same route, serving as off-route points all points located in the San Francisco territory, as described in part IV hereof.

(B) ALTERNATIVE ROUTE

For operating convenience only, the following alternative route shall be utilized: From San Francisco to San Luis Obispo, over U.S. Hwy 101, and return over the same route.

RESTRICTIONS

No service is authorized:

a. Between points located north of the Los Angeles basin territory and points located south of the Los Angeles basin territory, or

b. Between any two points both of which are on routes located south of the Los Angeles basin territory and north of the San Diego territory, or

c. Between any two points both of which are within the San Diego territory, or

d. Between any two points both of which are on routes located north of the Los Angeles basin territory, and south of the San Francisco territory, not including Stockton and San Luis Obispo, or

e. Between any two points both of which are within the San Francisco territory.

Part II

SAN DIEGO TERRITORY

The San Diego Territory includes that area embraced by following a line starting at a point approximately four miles north of La Jolla on the Pacific Coast shoreline running east to Miramar on U.S. Hwy 395; then following a line running southeasterly to Lakeside on State Hwy 67; then southerly on County Road S 17 (San Diego County) and its prolongation to State Hwy 94; easterly on State Hwy 94 to Jamul; then due south following a line to the California-Mexico Boundary Line; then westerly along the boundary line to the Pacific Ocean and north along the shoreline to point of beginning.

Part III

LOS ANGELES BASIN TERRITORY

Los Angeles Basin Territory includes that area embraced by the following boundary: Beginning at the point the Ventura County-Los Angeles County Boundary Line intersects the Pacific Ocean; thence northeasterly along said county line to the point it intersects State Hwy 118, approximately two miles west of Chatsworth; easterly along State Hwy 118 to Sepulveda Boulevard; northerly along Sepulveda Boulevard to Chatsworth Drive; northeasterly along Chatsworth Drive to the corporate boundary of the City of San Fernando; westerly and northerly along said corporate boundary of the City of San Fernando to Maclay Avenue; northeasterly along Maclay and its prolongation to the Los Angeles National Forest Boundary; southeasterly and easterly along the Angeles National Forest and San Bernardino National Forest Boundary to Mill Creek Road (State Hwy 38); westerly along Hill Creek Road to Bryant Street; southerly along Bryant Street to and including the unincorporated community of Yucaipa; westerly along Yucaipa Boulevard to Interstate Hwy 10; northwesterly along Interstate Hwy 10 to Redlands Boulevard; northwesterly along Redlands Boulevard to Barton Road; westerly along Barton Road to La Cadena Drive; southerly along La Cadena Drive to Iowa Avenue; southerly along Iowa Avenue to State Hwy 60; southeasterly along State Hwy 60 and U.S. Hwy 395 to Nuevo Road; easterly along Nuevo Road via Nuevo and Lakeview to State Hwy 79; southerly along State Hwy 79 to State Hwy 74; thence westerly to the corporate boundary of the City of Hemet; southerly, westerly and northerly along said corporate boundary to The Atchison, Topeka & Santa Fe right-of-way; southerly along said right-of-way to Washington Road; southerly along Washington Road through and including the unincorporated community of Winchester to Benton Road; westerly along Benton Road to Winchester Road (State Hwy 79) to Jefferson Avenue; southerly along Jefferson Avenue to U.S. Hwy 395; southerly along U.S. Hwy 395 to the Riverside County-San Diego County Boundary Line; westerly along said boundary line to the Orange County-San Diego County Boundary Line; southerly along said boundary line to the Pacific Ocean; northwesterly along the shoreline of the Pacific Ocean to point of beginning including the point of March Air Force Base.

Part IV

SAN FRANCISCO TERRITORY

San Francisco Territory includes all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County Line meets the Pacific Ocean; thence easterly along said Country Line to a point one mile west of the State Hwy 82; southerly along an imaginary line one mile west of and paralleling State Hwy 82 to its intersection with Southern Pacific Co. right-of-way at Arastradero Road; southeasterly along the Southern Pacific Co. right-of-way to Pollard Road, including industries served by the Southern Pacific Co. spur line extending approximately two miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to Division Street; easterly along Division Street to the Southern Pacific Co. right-of-way; southerly along the Southern Pacific right-of-way to the Campbell-Los Gatos City Limits; easterly along said limits and the prolongation thereof to South Bascom Avenue (formerly San Jose-Los Gatos Road); northeasterly along South Bascom Avenue to Foxworthy Avenue; easterly along Fox-

V43/189 SEP 28 1978

V 43/189 SE 28 78

worthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to State Hwy 82; northwesterly along State Hwy 82 to Tully Road; northeasterly along Tully Road and the prolongation thereof to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Hwy 238 (Oakland Road); northerly along State Hwy 238 to Warm Springs; northerly along State Hwy 238 (Mission Blvd.) via Mission San Jose and Niles to Hayward; northerly along Foothill Blvd. and MacArthur Blvd. to Seminary Avenue; easterly along Seminary Avenue to Mountain Blvd.; northerly along Mountain Blvd. to Warren Blvd. (State Hwy 13); northerly along Warren Blvd. to Broadway Terrace; westerly along Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland Boundary Line; northerly along said boundarty line to the Campus Boundary of the University of California; westerly, northerly and easterly along the campus boundary to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to San Pablo Avenue (State Hwy 123); northerly along San Pablo Avenue to and including the City of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco waterfront at the foot of Market Street; westerly along said waterfront and shoreline to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point of beginning. (Hearing site: Washington, DC or Los Angeles, CA.)

NOTE.—This application is directly related to MC-F-12068, Nelson Resource Corp. Control-Great Western Unifreight System, published in a previous section of the FR issue of August 3, 1978. The purpose of this application is to convert a certificate of registration to a certificate of public convenience and necessity.

MC 99667 (Sub-2F), filed August 28, 1978. Applicant: SERVICE OIL CO., INC., 111 East 4th St., P.O. Box 2195, Grand Island, NE 68801. Representative: Donald L. Stern, Suite 610, 7171 Mercy Road, Omaha, NE 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those requiring special equipment) between Ord, NE and points within a 50 mile radius thereof, on the one hand, and, on the other, points in NE, restricted against the transportation of meat or meat products between Ord, NE, and points within a 50 mile radius thereof, on the one hand, and, Omaha, NE, on the other. (Hearing site: Omaha, NE.)

NOTE.—This application is directly related to a proceeding in Eight Way Xpress, Inc.—Control-Tri-Valley Express, Inc. and Service Oil Company docketed MC-F-13703 published in the FEDERAL REGISTER issue of August 31, 1978. The purpose of this application is to convert a certificate of registration to a certificate of public convenience and necessity.

MC 115093 (Sub-16F), filed September 5, 1978. Applicant: MERCURY MOTOR EXPRESS, INC., 2511 North Grady Avenue, Tampa, FL 33623. Representative: Gerald D. Colvin, Jr., 603 Frank Nelson Building, Birmingham, AL 35203. Authority is sought as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), between points in SC, on the one hand, and, on the other, points in NY on and north of NY Hwy 7. (Hearing site: Washington, DC.).

NOTE.—The purpose of this application is to eliminate the gateways of Athens or Sayre, PA, and is a directly related application to a section 5(2) finance proceeding docketed MC-F-13628, published in the FEDERAL REGISTER issue of June 29, 1978.

MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS

NOTICE

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Deviation Rules—Motor Carrier of Property (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of this FEDERAL REGISTER notice.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its request.

MOTOR CARRIERS OF PROPERTY

MC 29555 (Deviation No. 24), BRIGGS TRANSPORTATION CO., North 400, Griggs-Midway Building., St. Paul, MN 55104, filed September 13, 1978. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Des Moines, IA, over Interstate Hwy 35 to Kansas City, MO, and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertient service route as follows: From Des Moines, IA, over U.S. Hwy 6 to junction U.S. Hwy 275 near Council Bluffs, IA, then over U.S. Hwy 275 to junction IA Hwy 2, then over IA Hwy 2 to junction U.S. Hwy 71 near Clarinda, IA, then over U.S. Hwy 71 to Kansas City, MO, and return over the same route.

MC 96498 (Deviation No. 6), BONIFIELD BROS. TRUCK LINES, INC., P.O. Box 1216, Richmond, VA 23209, filed September 18, 1978. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities* with certain exceptions over a deviation route as follows: From junction U.S. Hwy 41 and IN Hwy 64 over U.S. Hwy 41 to Terre Haute, IN, then over IN Hwy 63 to junction U.S. Hwy 41 then over U.S. Hwy 41 to Chicago, IL, and return over same route, for operating convenience only. This notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Evansville, IN, over U.S. Hwy 41 to junction IN Hwy 64 then over IN Hwy 64 to the Wabash River Bridge, then over the Wabash River Bridge to junction IL Hwy 1, then over IL Hwy 1 to Chicago, IL, and return over same route.

MC 108449 (Deviation No. 10), INDIANHEAD TRUCK LINE, INC., Box 3355, St. Paul, MN 55165, filed September 5, 1978. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Mansfield, OH, over U.S. Hwy 30 to junction IL Hwy 1, then over IL Hwy 1 to Chicago, IL, and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Mansfield, OH over U.S. Hwy 42 to junction U.S. Hwy 250, then over U.S. Hwy 250 to junction U.S. Hwy 20, then over U.S. Hwy 20 to Toledo, OH, then over U.S. Hwy 223 to Adrian, MI, then over MI Hwy 34 to Hillsdale, MI, then over MI Hwy 99 to Jonesville, MI, then over U.S. Hwy 12 to Sturgis, MI, then over MI Hwy 66 to the MI-IN State line, then over IN Hwy 9 to junction U.S. Hwy 6, then over U.S. Hwy 6 to junction U.S. Hwy 41, then over U.S. Hwy 41 to Chicago, IL and return over the same route.

MC 110325 (Deviation No. 32), TRANSCON LINES, P.O. Box 92220, Los Angeles, CA 90009, filed September 11, 1978. Carrier's representative, Jerome Biniasz, P.O. Box 92220, Los Angeles, CA 90009. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From the junction of Interstate Hwy 894 and U.S. Hwy 41 over Interstate Hwy 894 to junction WI Hwy 15, then over WI Hwy 15 to junction U.S. Hwy 51, then over U.S. Hwy 51 to junction IL Hwy 2, then over IL Hwy 2 to junction IL Hwy 5, then over IL Hwy 5 to junction IL Hwy 2, then over IL Hwy 2 to junction Interstate Hwy 80, then over Interstate Hwy 80 to junction U.S. Hwy 75, and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From the junction of Interstate Hwy 894 and U.S. Hwy 41 over U.S. Hwy 41 to junction U.S. Hwy 34, then over U.S. Hwy 34 to junction IL Hwy 65, then over IL Hwy 65 to Aurora, IL, then over IL Hwy 31 to junction U.S. Hwy 34, then over U.S. Hwy 34 to junction IL Hwy 92, then over IL Hwy 92 to Moline, IL, then over U.S. Hwy 6 to junction U.S. Hwy 75, then over U.S. Hwy 75 to junction Interstate Hwy 80, and return over the same route.

MC 112713 (Deviation No. 53), YELLOW FREIGHT SYSTEM, INC., P.O. Box 7270, 10990 Roe Ave., Shawnee Mission, KS 66207, filed September 8, 1978. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Jackson, MS over Interstate Hwy 55 to junction Interstate Hwy 12, then over Interstate Hwy 12 to junction Interstate Hwy 10, then over Interstate Hwy 10 to Beaumont, TX and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Jackson, MS over U.S. Hwy 51 to junction U.S. Hwy 61, then over U.S. Hwy 61 to New Orleans, LA, then over U.S. Hwy 61 to Baton Rouge, LA, then over U.S. Hwy 190 to junction U.S. Hwy 167, then over U.S. Hwy 167 to junction U.S. Hwy 90, then over U.S. Hwy 90 to Beaumont, TX and return over the same route.

MOTOR CARRIER INTRASTATE APPLICATION(S)

NOTICE

The following application(s) for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act. These applications are governed by Special Rule 245 of the Commission's *General Rules of Practice* (49 CFR 1100.245), which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the application is filed and shall *not* be addressed to or filed with the Interstate Commerce Commission.

Arkansas Docket No. M-11450, filed: August 28, 1978. Applicant: ARKANSAS EXPRESS, INC., 3600 East 9th Street, Little Rock, AR 72202. Representative: James M. Duckett, 927 Pyramid Life Building, Little Rock, AR 72201. Certificate of Public Convenience and Necessity sought to operate a freight service, as follows: Transportation of: General Commodities (except classes A and B explosives, household goods, commodities in bulk and commodities requiring special equipment), (1) between Little Rock, AR and Gum Springs, AR from Little Rock over U.S. Hwy 67 to Gum Springs, and return over the same route serving all intermediate points; (2) between Pine Bluff, AR and Malvern, AR from Pine Bluff over U.S. Hwy 270 to Malvern, and return over the same route serving no intermediate points; (3) between Malvern, AR and the junction of U.S. Hwy 270 and AR Hwy 171 east of Hot Springs, from Malvern over U.S. Hwy 270 to the junction of U.S. Hwy 270 and AR Hwy 51, thence over AR Hwy 51 to its junction with U.S. Hwy 270, thence over U.S. Hwy 270 to its junction with AR Hwy 171 east of Hot Springs, and return over the same route serving all intermediate points. Applicant proposes to tack all routes at common points of joinder and with existing authority.

Arkansas Docket No. M-11450, filed: August 28, 1978. Intrastate, interstate and foreign commerce authority sought. Hearing: Tuesday, December 5, 6, and 7, 1978, at 9:30 a.m., in Arkansas Transportation Commission hearing room, Justice Building, Little Rock, AR. Requests for procedural information should be addressed to Arkansas Public Service Commission, Justice Building, Little Rock, AR 72201, and should not be directed to the Interstate Commerce Commission.

Michigan Docket No. C-321, case 10, filed June 9, 1978. Applicant: PARKER MOTOR FREIGHT, INC., 1505 Steele Avenue, SW., Grand Rapids, MI 49507. Representative: Rex Eames, 900 Guardian Building, Detroit, MI 48226. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of: *General commodities*, (1) Between Grand Rapids and Ludington, MI, and the commercial zones thereof, as alternate route for operating convenience only. (a) From Grand Rapids over Interstate Hwy 96 to junction with U.S. Hwy 31, then over U.S. Hwy to the junction with U.S. Hwy 10, then over U.S. Hwy 10 to Ludington, and return over the same route. (2) Between Ludington and Cadillac, MI, serving all intermediate points and off-route points within 3 miles thereof, and the commercial zones of all such points. (a) From Ludington over U.S. Hwy 10 to the junction with U.S. Hwy 31, then over U.S. Hwy 31 to junction with MI Hwy 55, then over MI Hwy 55 to Cadillac, and return over the same route. (3) Between Scottville, MI, and the junction of U.S. Hwy 10 and MI Hwy 115, as an alternate route for operating convenience only. (a) From Scottsville, MI over U.S. Hwy 10 to the junction with MI Hwy 115, for joinder with other authorized routes of carrier at the termini or any intermediate point along the above-described route. (4) Between Traverse City and Manistee, MI, and the commercial zones thereof, as an alternate route for operating convenience only. (a) From Traverse City, MI over U.S. Hwy 31 to Manistee, and return over the same route. (5) Between Grand Rapids and Cadillac, MI, and the commercial zones thereof, serving no intermediate points. (a) From Grand Rapids, MI over U.S. Hwy 131 to Cadillac, MI, and return over the same route. (B)(1) Between Grand Rapids and Detroit via Interstate Hwy 96. (2) Between Cadillac and Detroit via U.S. Hwy 131 to its junction with MI Hwy 115, then via MI Hwy 115 to its junction with U.S. Hwy 10, thence via U.S. Hwy 10. (3) Between the junction of U.S. Hwy 10 and U.S. Hwy 23 and the junction of U.S. Hwy 23 and Interstate Hwy 96 via U.S. Hwy 23. (4) Between the junction of Interstate Hwy 75 and U.S. Hwy 10 and Detroit via Interstate Hwy 75. Service over the above routes in paragraph B is authorized to all intermediate points and off-route points within 3 miles thereof and including the commercial zones of such points and the termini points. Service is restricted to the transportation of traffic which carrier either originates at or delivers to its authorized points north of Clare (not including Clare) and excluding service to such points as are on and east of Interstate Hwy 75. Intrastate, interstate, and foreign commerce authority south. Hearing: November 1, 2, and 3, 1978, at 6545 Mercantile Building, Lansing, MI. Requests for procedural information should be addressed to Michigan Public Service Commission, Mercantile Building, 6545 Mercantile Way, P.O. Box 30221, Lansing, MI 48909, and should not be directed to the Interstate Commerce Commission.

V 43/189 SE 28 78

North Carolina Docket No. 78-391-T, filed August 29, 1978. Applicant: SUPERIOR MOTOR EXPRESS, INC., P.O. Box 98, Gold Hill, NC 28071. Certificate of Public Convenience and Necessity sought to operate a *freight service*, as follows: Transportation of *lumber, logs, poles, pilings, pulpwood, cores, crossties, slabs, fence posts, and chips:* Between points and places within the State of SC. Intrastate, interstate, and foreign commerce authority sought. Hearing: Date, time, and place not yet fixed. Requests for procedural information should be addressed to North Carolina Utilities Commission, 430 North Salisbury Street, Dobbs Building, Raleigh, NC 27602, and should not be directed to the Interstate Commerce Commission.

Tennessee Docket No. MC 3777 (Sub-5), filed July 21, 1978. Applicant: AVERITT EXPRESS, INC., P.O. Box 273, Livingston, TN 38570. Representative: Robert L. Baker, 618 United American Bank Building, Nashville, TN 37219. Certificate of Public Convenience and Necessity sought to operate a *freight service* as follows: Transportation of *general commodities* (except classes A and B explosives, used household goods commodities in bulk, and those requiring special equipment), between Livingston and Chattanooga, TN, as follows: (1) From Livingston over TN Hwy 42 to junction with U.S. Hwy 70, then over U.S. Hwy 70 to junction with TN Hwy 111, then over TN Hwy 111 to junction with TN Hwy 8, then over TN Hwy 8 to junction with U.S. Hwy 127, then over U.S. Hwy 127 to Chattanooga and return over the same route, serving no intermediate points except those intermediate points in Overton and Putnam Counties; (2) from Livingston over TN Hwy 42 to Interstate 40, then over Interstate 40 to junction with Interstate 75, then over Interstate 75 to Chattanooga and return over the same route as an alternate route for operating convenience only; and (3) from Livingston over TN Hwy 42 to Interstate 40, then over Interstate 40 to junction with Interstate 24, then over Interstate 24 to junction with TN Hwy 28, then over TN Hwy 28 to junction with U.S. Hwy 41, then southeast over U.S. Hwy 41 to junction with Interstate 24, then over Interstate 24 to Chattanooga and return over the same route as an alternate route for operating convenience only. All of said routes to be used in conjunction with all of the existing authority of Averitt Express, Inc. Restriction: Service at Chattanooga, TN, and its commercial zone is restricted against the handling of traffic originating at, destined to, or interchanged at Nashville and Knoxville, TN, and their respective commercial zones. Intrastate, interstate, and foreign commerce authority sought. Hearing: October 25, 1978, at 9:30 a.m., at the Commission's Hearing Room, C-1 Cordell Hull Building, Nashville, TN. Requests for procedural information should be addressed to Tennessee Public Service Commission, C1-102 Cordell Hull Building, Nashville, TN 37219, and should not be directed to the Interstate Commerce Commission.

Tennessee Docket No. MC 4777 (Sub-6), filed July 21, 1978. Applicant: AVERITT EXPRESS, INC., P.O. Box 273, Livingston, TN 38570. Representative: Robert L. Baker, 618 United American Bank Building, Nashville, TN 37219. Certificate of Public Convenience and Necessity sought to operate a *freight service* as follows: Transportation of *general commodities* (except classes A and B explosives, used household goods, commodities in bulk, and those requiring special equipment) serving the plantsite facilities of Firestone Tire & Rubber Co. at or near La Vergne, TN, as an off-route point in connection with existing regular route authority to serve Nashville, TN. Intrastate, interstate, and foreign commerce authority sought. Hearing: October 17, 1978, at 1:30 p.m., at the Commission's Hearing Room, C-1 Cordell Hull Building, Nashville, TN. Requests for procedural information should be addressed to Tennessee Public Service Commission, C1-102 Cordell Hull Building, Nashville, TN 37219, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[7035-01]

[Docket No. AB-52 (Sub-No. 8)]

ATCHISON, TOPEKA & SANTA FE RAILWAY CO.

Abandonment Between Richmond and Oakland in Contra Costa and Alameda Counties, Calif; Findings

Notice is hereby given pursuant to section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by a decision entered on January 6, 1978, and the decision of the Commission, Division 2, acting as an Appellate Division, served September 1, 1978, as modified, adopted the decision of the Commission, Review Board No. 5, which is administratively final, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Oregon Short Line R. Co.—Abandonment—Goshen*, 354 I.C.C. 584 (1978), the present and future public convenience and necessity permit the abandonment by the Atchison, Topeka & Santa Fe Railway Co. of that portion of its line extending from milepost 0.5 in Richmond, Calif. to milepost 9.7 in Oakland, Calif., a distance of approximately 9.2 miles in Contra Costa and Alameda Counties, Calif., provided, however, that Santa Fe shall keep intact all of the right-of-way and structures underlying the track for a period of 120 days following issuance of the certificate, for the purpose of permitting any responsible public agency or other responsible person to offer to purchase all or part of such right-of-way public use. A certificate of abandonment will be issued to the Atchison, Topeka & Santa Fe Railway Co. based on the above-described finding of abandonment, 30 days after publication of this notice, (October 30, 1978) unless within 30 days from the date of publication, the Commission further finds that:

A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would: (a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or (b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such a period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the Federal Register on March 31, 1976, at 41 FR 13691, as amended by publication of May 10, 1978 at 43 FR 20072. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced decision.

H. G. Homme, Jr.,
Acting Secretary.

[7035-01]

[Docket No. AB-119 (Sub-No. 1)]

FORT WORTH & DENVER RAILWAY CO.

Abandonment Between Sterley and Silverton in Floyd and Briscoe Counties, Tex.; Findings

Notice is hereby given pursuant to section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by a decision entered on January 13, 1978, and the decision of the Commission, Division 1, acting as an Appellate Division, served August 10, 1978, as modified, adopted the decision of the Administrative Law Judge, which is administratively final, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Oregon Short Line R. Co.—Abandonment—Goshen*, 354 I.C.C. 584 (1978), the present and future public convenience and necessity permit the abandonment by the Fort Worth & Denver Railway Co. of that portion of its line of railroad extending milepost 306.4 at Sterley, Tex., to milepost 326.11 near Silverton, Tex., a distance of 19.71 miles in Floyd and Briscoe Counties, Tex. A certificate of abandonment will be issued to the Forth Worth & Denver Railway Co. based on the above-described finding of abandonment, 30 days after publication of this notice (October 30, 1978), unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation or rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the Federal Register on March 31, 1976, at 41 FR 13691, as amended by publication of May 10, 1978 at 43 FR 20072. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced decision.

H. G. Homme, Jr.
Acting Secretary.

[7035-01]

[Docket No. AB-7 (Sub-No. 36)]

STANLEY E. G. HILLMAN, TRUSTEE OF THE PROPERTY OF CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD CO., DEBTOR

Abandonment Near Marion and Menno, in Turner and Hutchinson Counties, SD; Findings

Notice is hereby given pursuant to section 1a of the Interstate Commerce Act 49 (U.S.C. 1a) that by a Certificate and Decision dated August 14, 1978, a finding, which is administratively final, was made by the Commission, Review Board No. 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Oregon Short Line R. Co.—Abandonment—Goshen*, 354 I.C.C. 584 (1978), and for public use as set forth in said decision, the present and future public convenience and necessity permit the abandonment by Stanley E. G. Hillman, Trustee of The Property of Chicago, Milwaukee, St. Paul and Pacific Railroad Co. of its entire line of railroad extending from railroad milepost 0.3 near Marion to railroad milepost 21.1 near Menno, a total length of 21.5 miles located in Turner and Hutchinson Counties, SD. Since the proceeding is now unopposed, a certificate of public convenience and necessity permitting abandonment was issued to Stanley E. G. Hillman, Trustee of The Property of Chicago, Milwaukee, St. Paul and Pacific Railroad Co.

Upon receipt by the carrier of an actual offer of financial assistance, the carrier shall make available to the offeror the records, accounts, appraisals, working papers, and other documents used in preparing Exhibit I (§ 1121.45 of the Regulations). Such documents shall be made available during regular business hours at a time and place mutually agreeable to the parties.

The offer must be filed and served no later than October 13, 1978. The offer, as filed, shall contain information required pursuant to § 1121.38(b) (2) and (3) of the Regulations. If no such offer is received, the certificate of public convenience and necessity authorizing abandonment shall become effective November 13, 1978.

H. G. Homme, Jr.,
Acting Secretary.

[FR Doc. 78-27329 Filed 9-27-78; 8:45 am]

[7035-01]

[Docket No. AB-36 (Sub-No. 6F)]

OREGON SHORT LINE RAILROAD CO.

Abandonment and Abandonment of Service by Union Pacific Railroad Co. Near Rogerson, Idaho, and Wells, Nev., in Twin Falls County, Idaho, and Elko County, Nev.; Findings

Notice is hereby given pursuant to section 1a of the Interstate Commerce Act (49 U.S.C. 1a) that by a Certificate and Decision dated August 21, 1978, a finding, which is administratively final, was made by the Commission, Review Board No. 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Oregon Short Line R. Co.—Abandonment—Goshen*, 354 I.C.C. 584 (1978), the present and furture public convenience and necessity, the abandonment of the Oregon Short Line Railroad, and abandonment of service of the Union Pacific Railroad Co. over a line of railroad extending from railroad milepost 29.35 near Rogerson, Idaho, to the end of the line at railroad milepost 123.46 at Wells, Nev., a distance of 94.11 miles in Twin Falls County, Idaho, and Elko County, Nev., provided, that applicant shall maintain the Wells Branch basis

UMI
V 43/189
SEP 28 1978
UMI

of rates on traffic which prior to abandonment could have been routed and moved via the Wells Branch, unless it should develop that maintenance of that basis of rates would result in unreasonableness, unlawfulness, or discrimination. A certificate of public convenience and necessity permitting abandonment was issued to the Oregon Short Line Railroad Co. and Union Pacific Railroad Co. Since no investigation was instituted, the requirement of § 1121.38(a) of the regulations that publication of notice of abandonment decisions in the FEDERAL REGISTER be made only after such a decision becomes administratively final was waived.

Upon receipt by the carrier of an actual offer of financial assistance, the carrier shall make available to the offeror the records, accounts, appraisals, working papers, and other documents used in preparing exhibit I (§ 1121.45 of the regulations). Such documents shall be made available during regular business hours at a time and place mutually agreeable to the parties.

The offer must be filed and served no later than October 13, 1978. The offer, as filed, shall contain information required pursuant to § 1121.38(b) (2) and (3) of the regulations. If no such offer is received, the certificate of public convenience and necessity authorizing abandonment shall become effective November 13, 1978.

H. G. HOMME, Jr.,
Acting Secretary.

[Finance Docket No. 28839]

SOUTHERN PACIFIC TRANSPORTATION CO. AND OREGON ELECTRIC RAILWAY CO.

Approval of a Coordination Agreement in Salem, Oreg.

Southern Pacific Transportation Co. (SPT), One Market Plaza, San Francisco, Calif. 94105, represented by Charles W. Burkett, General Solicitor, hereby gives notice that on the 29th day of August, 1978, it filed with the Interstate Commerce Commission at Washington, D.C., an application under section 5(2) of the Interstate Commerce Act for a decision approving a coordination agreement between SPT and the Oregon Electric Railway Co. (OE) in the vicinity of the city of Salem, county of Marion, State of Oreg. This application is directly related to Docket No. AB-12 (Sub-No. 57F), *Southern Pacific Transportation Co. Abandonment at Salem in Marion County, Oreg,* filed August 29, 1978.

This application for a coordination agreement has been accepted and assigned Finance Docket No. 28839.

SPT and its rail subsidiaries own or operate properties in the States of California, Oregon, Nevada, Utah, Arizona, New Mexico, Texas, and Louisiana. Southern Pacific Co. owns 100 percent of the outstanding capital stock of Southern Pacific Transportation Co.

OE is a common carrier by railroad operating in the State of Oreg. Burlington Northern, Inc., through lease of Spokane, Portland and Seattle Railway controls all outstanding stock of Oregon Electric Railway Co.

Approval of the coordination agreement between SPT and OE will permit SPT to acquire bridge traffic rights from OE between their interchange tracks at milepost 720.73 and the beginning of the West Salem Branch at milepost 719.74. This usage by SPT is limited to the movement of freight cars in SPT's account by OE. OE would be granted rights to perform switching and car handling as SPT's agent on 2.67 miles of SPT's West Salem Branch. OE will operate the SPT's West Salem Branch between mileposts 721.41 and 719.74. This coordination agreement provides for continued rail service to West Salem if the abandonment of service sought in the directly related application is approved. The city of Salem and the State of OR requested SPT to apply for the related abandonment in order to allow the city and State to upgrade certain streets to accommodate greater volumes of highway traffic.

At the present time, SPT serves its West Salem Branch via track running through the city of Salem, which is proposed for abandonment in the related application. The West Salem Branch would be isolated from the remainder of the SPT rail system. The coordination agreement is designed to provide continued rail service to West Salem.

Interested persons may participate formally in a proceeding by submitting written comments regarding the application. Such submissions shall indicate the proceeding designation (Finance Docket No. 28839), and the original and two copies thereof shall be filed with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, not later than November 13, 1978. Such written comments shall include the following: the person's position, e.g., party protestant or party in support, regarding the proposed transaction; specific reasons why approval would or would not be in the public interest; and a request for oral hearing if one is desired. Additionally interested persons who do not intend to participate formally in a proceeding but who desire to comment thereon, may file such statements and information as they may desire, subject to the filing and service requirements specified herein. Persons submitting written comments to the Commission shall, at the same time, serve copies of such written comments upon the applicant, the Secretary of Transportation and the Attorney General.

H. G. HOMME, Jr.,
Acting Secretary.

MOTOR CARRIER TEMPORARY AUTHORITY

Correction

In FR Doc. 78-23225 appearing on page 36750 in the issue for Friday, August 18, 1978, on page 36752 in the first column, second paragraph, and in the twelfth line of MC 142317 (Sub-2TA) the word "northwest" should be changed to read "northeast".

[7035-01]

ATLANTA AND WEST POINT RAILROAD CO., ET AL.

Decided: September 21, 1978.

AGENCY: Interstate Commerce Commission.

ACTION: Emergency Order (Order to Show Cause).

SUMMARY: On August 3, 1978, the Commission entered an order requiring the above-named railroads to show cause why the Commission should not issue a Service Order requiring other members of the Family Lines to furnish a combined total of 100 diesel-electric locomotives to the Louisville and Nashville Railroad Co. (LN), and to show cause why the Commission should not issue an order requiring the Louisville and Nashville Railroad Co. to furnish cars to non-unit-train shippers of coal equal to forty percent (40%) of their daily mine ratings. A Service Order entitled *Regulations For The Use Of Locomotives* is being issued and the proposed Service Order entitled *Regulations For The Distribution Of Hopper Cars* will be postponed until further order of the Commission.

FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, 202-275-7840, Telex 89-2742.

SUPPLEMENTARY INFORMATION: The Order is printed in full below.

Order to show cause for Atlanta and West Point Railroad Co., Clinchfield Railroad Co., Georgia Railroad, Seaboard Coast Line Railroad Co., Western Railway of Alabama and Louisville and Nashville Railroad Co.

On August 3, 1978, the Commission entered an order requiring the above named railroads (collectively known as the Family Lines) all of which are owned or controlled by the Seaboard Coast Line (SCL) to show cause why the Commission should not issue a Service Order requiring other members of the Family Lines to furnish a combined total of one hundred (100) diesel-electric locomotives to the Louisville and Nashville Railroad Company (LN).

These lines were also required to show cause why the Commission should not issue another order requiring the LN to furnish cars to non-unit-train shippers of coal equal to forty percent (40%) of their daily mine ratings multiplied by the number of working days in the week.

Respondents and other interested parties were allowed ten (10) days from the date of publication in the FEDERAL REGISTER to file replies. The final date for receipt of responses was August 18, 1978. Because of the importance of this proceeding, the Commission has waived that deadline in order to accept several responses that were filed after that date and, although not required to do so, has permitted all interested parties to expand upon the material contained in their responses at an oral argument before the entire Commission on September 7, 1978.

Responses have been received from the Family Lines, from producers of coal, from receivers of coal, from shippers and receivers of other commodities, and from public officials in the States served by the Family Lines.

While exact categorizing of all replies into a favor or oppose position is difficult, the responses generally are as follows:

• • • The Family railroads are opposed to the issuance of either of the proposed Service Orders. LN principally opposes the car distribution order challenging both the jurisdiction of the Commission to enter the proposed order and the desirability of doing so. SCL principally challenges the appropriateness of ordering it and members of the Family Lines other than LN to transfer locomotives to LN. Doing so it alleges would leave other parts of the existing system short of power and create severe dislocations for other shippers, principally phosphate producers in Florida which are as dependent on SCL for transportation as are the coal mines of Eastern Kentucky upon LN.

• • • Shippers of general commodities served by the Family Line members other than the LN oppose the proposal to require delivery of 100 locomotive units to the LN because of their expressed fears that transfer of these locomotives to the LN would result in motive-power shortages on the Family railroad which serves them. These shippers generally take no position with respect to the proposed order affecting the furnishing of cars by the LN to shippers of coal.

A representative of the Florida phosphate industry served exclusively by the SCL in the area east of Tampa, Fla., and south of Lakeland, Fla., argued that transfer of locomotives from the SCL to the LN would result in delayed movements of phosphate fertilizer to the major grain growing regions of the United States, and in export traffic to the south Florida gulf ports. However, neither he nor any representative of the SCL offered any credible evidence to support these opinions.

One shipper of construction aggregates served by the LN, who utilizes the services of several of the other Family railroads as well, opposes both proposed orders. He fears impaired movements of his traffic over the lines of other Family Lines if locomotives are directed to the LN. Equally, as a major user of hopper cars furnished by the LN, he is concerned that a requirement that the LN furnish a minimum of forty percent (40%) of mine ratings to non-unit-train coal mines might deplete the presently inadequate supplies of these cars furnished to him by the LN.

The proposed locomotive order is being modified to phase the transfer of locomotives gradually over an extended period and to require the SCL to report weekly any trains and cars held because of a shortage of motive power. The Commission will closely monitor the impact of this order on the movement of the fertilizer ingredients from Florida, construction aggregates and other commodities. If locomotive shortages there or elsewhere on the Family Lines System become severe, further action may be warranted.

The opinions of the coal operators are divided. Those served by the LN are in favor of the required transfer of 100 locomotives to the LN seeing such an event as being of major significant assistance in more prompt movement of their coal and in increasing the utilization of cars used for transporting coal. These coal shippers are divided in their opinions with respect to the proposed order affecting the supply of cars to non-unit-train mines. Representatives of mines which ship both unit-train and non-unit-train coal were generally opposed to such an order, as were coal shippers who identified themselves only as unit-train coal shippers. Representatives of non-unit-train mines favored the issuance of the proposed order directly affecting car supplies to such mines.

Coal shippers served by Family Line members other than the LN oppose the transfer of locomotive units to the LN. These parties expressed no opinion on the proposed order affecting the LN's practices in furnishing cars.

Of four responses from representatives of utilities receiving coal from mines served by the LN, two favored the proposed transfer of 100 locomotives to the LN while the remaining two took no position on this issue. Three opposed the issuance of a Service Order requiring the LN to furnish cars to non-unit-train coal mines and one, the Tennessee Valley Authority (TVA) favored such an order. The three opponents receive their coal in unit-train shipments. The TVA receives both unit-train and non-unit-train shipments of coal but expects to increases its reliance on non-unit-train shippers in the future.

Public officials, including both United States Senators and two Congressmen, and the Governor of Kentucky, favored the issuance of both proposed orders. The Public Service Commission of North Carolina, the State Corporation Commission of Virginia and one of Virginia's Congressmen opposed the transfer to the LN of locomotives from portions of the Family Lines system operating in their States, but took no position with respect to the proposed order to furnish cars to the non-unit-train coal shippers.

One preliminary matter raised by counsel for LN at the argument deserves comment. At that time he complained of alleged ex parte contacts with the Commission by coal operators and members of the Kentucky Congressional delegation, generally, and of the release of two documents (the so-called Duncan Report and King Memorandum) to some of them, which LN was denied when sought under the Freedom of Information Act. With respect to its generalized complaint about ex parte contacts, LN appears to recognize that such contacts are an indispensible predicate to the Commission's exercise of its emergncy powers under 1(15) of the Act. It does not question the appropriateness of such contacts generally, but asserts that once it is recognized that an adversary process has commenced, all such contacts should be cut off. We do not believe that the process leading up to entry of car service orders can ever be fairly characterized as adversarial, even where, as here, there is a substantial difference of opinion as to how an admitted problem of car service should be dealt with by the Commission. In any event, LN does not contend, nor could it, that it has not been afforded a full and fair opportunity to present its views to the Commission at every stage of the process.

With respect to the matter of release of the Duncan Report and King Memorandum, it should be observed that these are unrelated investigative materials which, with deletions, were erroneously released to counsel for

V 43 / 189
SE 28 78
DMI

one of the Kentucky coal operator groups on July 11, 1978, under the Freedom of Information Act. LN's subsequent FOIA request for release of the documents was denied at the initial level of consideration, as was a subsequent request from the counsel who had previously been furnished edited copies of the documents for the material which had been deleted, on the grounds that the original release was in error and that LN was the target of the investigation. As of the time of the argument, LN had not pursued its right to appeal denial of its FOIA request. We do no believe LN has in any way been prejudiced by this denial, because, as indicated, the documents are directed to matters largely unrelated to these orders. But rather than insisting that LN pursue its right to appeal the initial FOIA request denial, we are today releasing to LN the same materials which have already inadvertently been made available to counsel for the coal operators.

The Family Lines, the representatives of the coal industry, the public utilities and the public officials of the State of Kentucky are in substantial agreement as to the existence of a severe shortage of cars for transporting shipments of coal originating at stations in eastern Kentucky served by the LN. There is also general agreement in the statements furnished by the Family Lines and those furnished by the representatives of the coal industry that non-unit-train coal shippers served by the LN in eastern Kentucky are presently receiving only about twenty percent (20%) of the cars ordered. (Response of Atlanta and West Point Rail Road Co., et al, Appendix A, page A1, and Appendix B, pages B-30 and B-31).

There is, however, as might be expected, substantial disagreement as to the significance of these figures. LN insists that the low ratio of cars supplied to orders is the result of boom conditions in the eastern Kentucky coal industry. It points to the fact that this Commission in its Adequacy of Service Investigation in 1972 (346 I.C.C. at 506) found that LN had a supply of hopper cars in excess of the immediate needs of its shippers and that it now owns more hopper cars than it did then. It also notes that it is presently supplying non-unit-train shippers of coal in Eastern Kentucky approximately the same number of cars as it was supplying in February of this year, at which time the percentage of cars supplied to ordered was 42.9. Further, LN notes that of the approximately 32,000 cars in its hopper fleet, roughly 4,000 are in service for the transportation of aggregates and other commodities, 4,200 are devoted to providing unit-train service, and the remaining 23,800 are being utilized to provide service to non-unit-train shippers of coal. LN intends to add an additional 450 hopper cars to its fleet in the near future.

Finally, LN contends that the problem of adequate supply of coal cars to mines in eastern Kentucky is a long-term problem which is only susceptible to long-range solutions. It insists that nothing can be done for the short-term because of limited track capacity in certain areas, its inability to obtain, by lease or otherwise, additional hopper cars, and its presently weakened financial condition. The only solution it proposed is a 20-30 percent increase on coal freight rates across the board, which would enable it to acquire the necessary capital to make track improvements and buy additional cars.

Shippers of coal, on the other hand, point to severe economic dislocation resulting from LN's inability to furnish them the cars necessary to get their coal to market. According to the shippers, the coal boom was not unforseeable, with the result that LN had an obligation to provide itself with the adequate equipment and facilities to handle increased tonnages of coal. They point out that LN has a transportation monopoly in eastern Kentucky and that is it providing more adequate service to shippers where competition exists. On this basis, they urge the Commission to enter the proposed orders on the ground that they represent at least a reasonable first step toward solving their most immediate and pressing problems.

We cannot accept the position of LN that no amelioration of the critical situation, which has been demonstrated on this record to exist in eastern Kentucky as a result of its continuing inability to supply an adequate number of cars to non-unit-train coal mines, is possible. We have been justly reminded by coal shippers in that area that this Commission was created to protect shippers in the sort of monopoly situation which has been demonstrated to exist with respect to eastern Kentucky coal mines. We would be remiss in our obligation to provide a safe, adequate and efficient transportation system for the benefit of all shippers as mandated by the National Transportation Policy (49 U.S.C. preceding part 1) if we were to ignore non-unit-train coal shippers' legitimate complaints that they are receiving far less than adequate car service. They are entitled to whatever reasonable assistance in obtaining a more adequate supply of equipment this Commission can appropriately afford them. As they have pointed out, the impact of car shortages is cumulative. The dislocations resulting therefrom increase geometrically in proportion to the length of the period during which adequate car service is not provided.

At the same time, we realize that the ultimate solution must of necessity be a long-term one.

We aware, as asserted by LN, that mine ratings may not be as accurate as they could be. However, that must remain a matter to be resolved in a subsequent proceeding. We have also taken into account LN's argument that a substantial increase in the rates on coal would be helpful. This again is a matter which can be fully explored upon the record of a subsequent proceeding if an application for general rate increases on coal is filed. For the near term, however, we are convinced that, for reasons discussed in the balance of this decision, the furnishing of additional locomotives to the LN will enable it to supply additional cars to the single-car shippers out of productivity increases in car utilization made possible by the additional locomotives. We believe that, if the additional locomotives are actually used to meet the needs of these shippers, the result should approximate the figure of forty percent (40%) of mine ratings, which the original show-cause order sought to achieve.

Regulations for the Use of Locomotives

One proposed Service Order would require the Atlanta and West Point Rail Road Company, the Clinchfield Railroad Company, the Georgia Railroad, the Seaboard Coast Line Railroad and the Western Railway of Alabama to furnish a combined total of one hundred (100) locomotives suitable for road-haul service to the Louisville and Nashville Railroad Company in order to assist that line in overcoming a shortage of motive power.

All of these railroads are part of a system of railroads controlled by the Seaboard Coast Line Railroad Co. (SCL) and collectively known as the Family Lines. The number of locomotive units to be furnished to the LN by each other system line is not specified, but the SCL, as the parent company, would be required to furnish sufficient of its own units to meet the required total of 100 locomotive units. No locomotives are proposed to be furnished by any railroad not a part of the Family Lines system.

In its response to various complaints of car shortages in the eastern Kentucky coal fields and of delayed movements of coal in this area and of other traffic at various points on its system, the LN has informed both the Commission and the complaining shippers that it lacks sufficient motive power to move all traffic currently.

Field investigations by the Commission's staff have disclosed substantial delays to loaded cars at various points on the LN. These have been particularly prevalent with respect to coal shipments at Corbin, Kentucky, and at Loyall, Kentucky, both major concentration points for the eastern Kentucky coal prior to main line movements to destination. A portion of these delays has been attributed by the LN to shortages of motive power with which to move these cars to destination. Delays in forwarding ranged upward to 8 days.

The delays to hoppers found by the Commission's field staff and attributed by the carrier to a lack of available motive power, resulted in the loss of substantial numbers of car days and contributed significantly to the shortages of hopper cars on the LN.

On June 23, 1978, Mr. Osborn, then President of the SCL/LN, wrote to Senator Walter Huddleston of Kentucky, informing the Senator of the actions of the LN in leasing locomotives from other railroads and in placing orders for seventy (70) new locomotives for delivery early next year. (Statement of Fred G. Karem, Counsel for Harlan County Coal Operators' Association, Exhibit 4). Although the LN, on page 20 of the respondent's reply states that it believes it presently has an adequate supply of locomotives, its actions in leasing 120 additional locomotives from other railroads and in placing orders for seventy (70) additional lcomotives, leads to serious doubts as to the foundation of that belief. In any event, the leased locomotives are subject to recall when needed by their owners, and while useful in assisting the LN to cope with its current locomotive deficiency, cannot be considered in assessing the railroad's long-time availability of motive power. The proposed service order offers a more extended solution to the LN's need for additional locomotives by providing it with a greater share of the locomotive units operated by the entire Family Lines System than it now has available.

In our discussion of the proposed order applicable to the distribution of freight cars we estimated that the LN can reasonably be expected to transport approximately 72,000 cars of originated coal per month, a level provided by the respondent itself. (Respondents reply, page 17.) The LN estimates that 1,228 locomotives would be required to transport an additional 10,000 cars of coal per month. (Respondents reply, page 22.) It also states that it presently operates 1,199 locomotives, of which 1,079 are owned (page 20) and 120 leased from other railroads (page 21). Of the leased units, 26 were furnished by the SCL and would be subject to the proposed order, while the remainder being leased from non-affiliated lines may be recalled by the owners when needed.

The proposed order requiring the other affiliated Family Lines Railroads to furnish a combined total of 100 locomotive units would credit to these affiliated lines any of their locomotives in use on the LN on the effective date. If all of the ninety four (94) presently leased locomotives owned by unaffiliated lines were called back by their owners, leaving only the 100 locomotives proposed to be supplied by the other Family Line members to supplement the LN's own fleet, that line would operate twenty fewer locomotives than it presently operates, a number that is too few to meet present traffic demands, much less allow for expansion.

While we in no way wish to minimize the favorable results realized by the lease of locomotives from railroads outside of the Family Lines System, reliance upon the continued use of locomotives leased from railroads outside of the system to overcome motive power shortages results in a locomotive supply that can only be described as precarious. Since the oral argument in this proceeding on September 7, 1978, 32 of the 94 locomotives leased by LN were recalled by the owner. Nevertheless, we will allow the SCL credit for each locomotive the LN is able to secure from non Family Lines railroads over and above the number it had leased on August 18, 1978.

There is no credible evidence offered by any participant indicating significant shortages of locomotives on any portion of the Family Lines System other than the LN. The transfer of 100 locomotives from other parts of the system would more equitably distribute motive power throughout the entire system and would tend to equalize among all users of the system the present burden of an inadequate supply of locomotives now borne almost exclusively by shippers served by the LN.

We believe, however, that an orderly and timed transfer of locomotives to the LN is preferable to transfer of the entire group of 100 locomotives within a short time as was originally proposed. Accordingly, the order is revised to provide for delivery of the locomotives to the LN at one month intervals commencing October 15, 1978, and ending December 15, 1978.

We realize that the effects on operations of this transfer of locomotives from the Family Lines to the LN is somewhat speculative. We believe that it can be accomplished without excessive harm to the operations of these lines. However, since some degree of adjusted operations is inevitable, we will require each of the Family Lines railroads to notify the Commission each week of the number of trains and cars held because of a shortage of motive power. These data will provide the Commission with timely information with which to evaluate the results of our order and will provide a basis for any changes that may be required.

We will also allow the LN to return to the other Family Lines railroads one leased locomotive for each newly acquired locomotive the LN places in service.

Finally, the respondents allege that the LN's other facilities in the eastern Kentucky coal fields are operating at peak capacity and cannot absorb the additional traffic that might be hauled by the 100 locomotives proposed to be directed to the LN. No line-by-line analysis or data is furnished other than a statement that there are extensive amounts of double track between Corbin, Kentucky, and Cincinnati, Ohio, while the line south from Corbin to Knoxville is single track. No data is supplied as to the number of trains, cars and tons operated over these lines daily, or over the major coal feeder lines, the eastern Kentucky and Cumberland Valley subdivisions. Rather, we are asked to accept on faith and without evidence, a broad general statement that the LN's lines in this area are operating at capacity.

Regulations for the Distribution of Hopper Cars

In our prior discussion we have indicated our belief that our order directing one hundred (100) additional locomotives to the LN will enable that line to improve its utilization of hopper cars sufficiently to obtain improved allocation of hopper cars to single car coal shippers approximating the levels contemplated by the proposed Service Order entitled *Regulations For The Distriction of Hopper Cars*. Consequently we will defer for the present, the issuance of our suggested order requiring the LN to furnish a minimum of forty percent (40%) of the cars ordered by single-car shippers of coal. However, we will amend the locomotive order to require that the LN furnish a weekly report showing the number of hopper cars ordered by and furnished to each single-car shipper of coal. These reports will be closely monitored by the Commission and, in the event that no significant improvement in the supply of cars to these shippers occurs, we will again give serious consideration to the issuance of a hopper car distribution order.

The Commission's Legal Authority To Issue the Service Orders

In issuing this service order, the Commission is acting under the authority of Section 1(15)(b) of the Interstate Commerce Act:

Whenever the Commission is of opinion that shortage of equipment, congestion of traffic, or other emergency requiring imme-

UMI
V 43/189
SEP 28 78
UMI

diate action exists in any section of the country, the Commission shall have, and it is hereby given, authority, either upon complaint or upon its own initiative without complaint, at once, if it so orders, without answer or other formal pleading by the interested carrier or carriers, and with or without notice, hearing, or the making or filing of a report, according as the Commission may determine: * * * (b) to make such just and reasonable directions with respect to car service without regard to the ownership as between carriers of locomotives, cars, and other vehicles, during such emergency as in its opinion will best promote the service in the interest of the public and the commerce of the people, upon such terms of compensation as between the carriers as they may agree upon, or, in the event of the disagreement, as the Commission may after subsequent hearing find to be just and reasonable * * *

For the reasons set forth above, we find that there is a severe shortage of hopper cars caused in large part, by a shortage of locomotives for transporting coal from non-unit-train coal shippers served by the LN in eastern Kentucky. This severe shortage constitutes an emergency requiring immediate action in the form of this order. By alleviating the car and locomotive shortages experienced by coal shippers, this order will promote car service "in the interest of the public and the commerce of the people."

Respondents argue that the Commission lacks legal authority to issue this service order. We disagree, and find that the Commission has such authority.

It is well settled that the Commission's authority to issue car service orders under section 1(15) is limited only by the requirement that the order be reasonably designed to meet the emergency situation which gave rise to it. (*Interstate Commerce Commission* v. *Oregon Pacific Industries, Inc.*, 420 U.S. 184 (1975), and cases cited therein.) In the absence of compelling legislative history to the contrary, it is our view that the amendment to section 1(12) of the Act cannot have been intended by Congress as a limitation upon our authority to issue emergency car service orders. Respondents' jurisdictional attack is concentrated primarily upon the proposed order for the distribution of hopper cars, which we have decided not to issue at this time.

They admit that the locomotive order seems to be more consonant with section 1(15) than does the proposed hopper car distribution order. However, they contend that the locomotive order will illegally result in a car service problem of greater scope and intensity than the present problem, and that the locomotive order lacks justification and is therefore arbitrary.

We have answered these contentions earlier in this decision. There is no credible evidence of significant shortages of locomotives on any portion of the Family Lines System other than the LN. There is no evidence that the locomotive order will create an emergency on any of the other lines. Furthermore, the gradual introduction of the locomotive transfer requirements will minimize any possible service disruptions on the other lines, and avoid harm to shippers on those lines, while still providing enough motive power to adequately respond to the emergency on the LN.

In summary, the order is a reasonable response to a genuine car-service emergency, and is entirely within the Commission's legal authority under section 1(15)(b). It should be noted that the Commission has broadly interpreted its jurisdiction and powers in the general area of car service in several recent decisions. The most recent such decision was Finance Docket No. 28412, *Winnebago Farmers Elevator Co.* v. *Chicago & North Western Transportation Co.* The entire Commission decided *Winnebago* on March 29, 1978, and denied a petition for a further hearing and a stay on August 14, 1978. The Commission in *Winnebago* found that it had jurisdiction to enforce a carrier's duty, under Section 1(4) of the Interstate Commerce Act, to provide adequate service.

In Ex Parte No. 270 (Sub-No. 2), *Investigation of Railroad Freight Service*, 345 I.C.C. 1224 (1976), the Commission found that it had jurisdiction under sections 1 (including subsections (4), (10), (11), (13), (14), and (15)), 12(1), 13, 15, and 15a of the Interstate Commerce Act, and the provisions of the National Transportation Policy (49 U.S.C. preceding Part 1), to conduct an investigation into deficiencies in rail freight service and to make appropriate findings. More specifically, it noted that Section 1(15) confers upon the Commission "summary and sweeping powers."

FINDING

We find that the respondents have failed to show cause why the proposed service order entitled *Regulations For The Use Of Locomotives* should not be issued. We further find that, until the results of the above described order can be evaluated, there is no present justification for the issuance of the proposed service order entitled *Regulations For The Distribution Of Hopper Cars.*

It is ordered. The proposed Service Order entitled *Regulations For The Use Of Locomotives* be issued, to become effective on date of service and the issuance of proposed service order entitled *Regulations For The Distribution Of Hopper Cars* be postponed until further order of the Commission.

By the Commission. Commissioners O'Neal, Christian, Brown, Stafford, Gresham and Clapp.

Chairman O'Neal and Commissioner Brown also voted to approve a service order requiring the LN to furnish the hopper cars to non-unit-train shippers of coal equal to forty percent (40%) of their mine ratings.

Commissioner Clapp also voted to approve a service order requiring the LN to furnish additional hopper cars to non-unit-train shippers.

7

FEDERAL RESERVE SYSTEM (BOARD OF GOVERNORS).

V 43 / 189

TIME AND DATE: 10 a.m., Wednesday, October 4, 1978.

PLACE: Terrace level, Martin Building Annex, 20th and C Streets NW., Washington, D.C. 20551.

STATUS: Open.

MATTERS TO BE CONSIDERED:

SUMMARY AGENDA

Because of their routine nature, no substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board requests that an item be moved to the discussion agenda.

1. Request by the Massachusetts Commissioner of Banks for an extension of Massachusetts' exemption under the Truth in Lending Act to cover credit transactions involving federally chartered credit unions.
2. Proposed amendments to Regulation F (Securities of Member State Banks) to maintain substantial similarity with rules of the Securities and Exchange Commission. (Proposed earlier for public comment; docket no. R-0146).
3. Authorization for the National Association of Securities Dealers, Inc., to administer professional qualification examinations for municipal securities dealer personnel.

DISCUSSION AGENDA

1. Consideration of issues relating to the Community Reinvestment Act, including:
   a. Preamble and final regulation to implement the act;
   b. Board procedures for public notice of applications for domestic deposit facilities by institutions covered by the act;
   c. Revision to the rules regarding delegation of authority for applications; and
   d. Interpretations regarding the applicability of the act to certain domestic banks and U.S. branches of foreign banks.
2. Proposed simplification of the Reports of Condition and Income for small banks.
3. Request by the Federal Trade Commission and the President's Interagency Task Force on Women Business Owners for the Board to consider amendments to Regulation B (Equal Credit Opportunity).
4. Any agenda items carried forward from a previously announced meeting.

NOTE.—This meeting will be recorded for the benefit of those unable to attend. Cassettes will be available for listening in the Board's Freedom of Information Office, and copies may be ordered for $5 by writing to: Freedom of Information Office, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

CONTACT PERSON FOR MORE INFORMATION:

Mr. Joseph R. Coyne, Assistant to the Board, 202-452-3204.

Dated: September 26, 1978.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

10

SECURITIES AND EXCHANGE COMMISSION.

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94-409, that the Securities and Exchange Commission will hold the following meetings during the week of October 2, 1978, in Room 825, 500 North Capitol Street, Washington, D.C.

An open meeting will be held on Wednesday, October 4, 1978, at 10 a.m. Closed meetings will be held on Tuesday, October 3, 1978, at 10 a.m., and on Wednesday, October 4, 1978, immediately following the open meeting.

The Commissioners, their legal assistants, the Secretary of the Commission, and recording secretaries will attend the closed meetings. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meetings may be considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552b(c)(4)(8)(9)(A) and (10) and 17 CFR 200.402 (a)(8)(9)(i) and (10).

Chairman Williams and Commissioners Loomis, Evans, Pollack and Karmel determined to hold the aforesaid meetings in closed session.

The subject matter of the closed meeting scheduled for Tuesday, October 3, 1978, at 10 a.m., will be:

Access to investigative files by Federal, State or self-regulatory authorities.
Chapter XI proceedings.
Formal orders of investigation.
Freedom of Information Act appeals.
Institution of injunctive action.
Personnel action.
Regulatory matter regarding reports of financial institutions.
Settlement of administrative proceeding of an enforcement nature.
Other litigation matters.

The subject matter of the open meeting scheduled for Wednesday, October 4, 1978, at 10 a.m., will be:

1. Consideration of a request by General Dynamics Corporation (1) to reverse denial by the Division of Corporation Finance to grant General Dynamics a 30-day extension of time within which to file its quarterly report for the period ended July 2, 1978, and (2) to appear before the Commission with respect thereto. For further information, please contact John Bernas at 202-376-2181.
2. Consideration of a proposed release concerning the status of brokers and dealers under the Investment Advisers Act of 1940 and Rule 206A-1(T) under the Advisers Act. For further information, please contact Michael Berenson at 202-755-1815.
3. Consideration of comments on the final proposal of the Legal Ethics Committee of the D.C. Bar Association, dealing with amendments to Cannon 9 of the Code of Professional Responsibility. For further information, please contact Myrna Siegel at 202-755-4868.

The subject matter of the closed meeting, immediately following the open meeting scheduled for Wednesday, October 4, 1978, will be:

Opinion.
Institution of injunctive action.

FOR FURTHER INFORMATION, PLEASE CONTACT: George Yearsich at 202-755-1100.

DEPARTMENT OF JUSTICE

(AAG/A Order No. 12-78)

PRIVACY ACT OF 1974

Privacy Act Issuances—1978 Compilation

Agency: Department of Justice.

Action: Incorporation by reference and full text publication of Privay Act Issuances.

Summary: Federal agencies are required by the Privacy Act of 1974 to give annual notice of records they maintain from which information can be retrieved by any personal identifier. The Department of Justice notices published last year were compiled by the Officer of the Federal Register in the "Privacy Act Issuances—1977 Compilation." Except for those republished below, notices of systems of records published in the 1977 Compilation continue in effect and are incorporated here by reference. (The Director of the Office of the Federal Register granted approval to incorporate by reference on July 13, 1978.)

The Compilation was published on September 30, 1977 (Vol. 5 of Privacy Act Issuances—1977 Compilation," page 53288; 42 FR 53288). It can be examined free of charge at Regional Depository Libraries at 50 locations around the country, at the General Services Administration Federal Information Centers, at 38 central locations around the country, and at the central headquarters of this Department. It can be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 for eight dollars. Upon request, the Office of the Federal Register will furnish a photocopy of the full text of a particular records system published in the 1977 Compilation for a nominal fee.

Published here are:

Part I: a table of contents listing all the systems of records published here in full text;

Part II: the full text of systems of records that the Department amended and published in the Federal Register after publication of the 1977 Compilation;

Part III: the full text of new systems of records that the Department established and published in the Federal Register after publication of the 1977 Compilation;

Part IV: the full text of systems of records which the Department now proposes to amend; and

Part V: notice deleting certain systems of records.

Dates: This document fulfills the annual notice requirements of the Privacy Act for 1978.

For further information contact: Bronson E. Clayton (202-739-4165).

Dated: September 8, 1978.

Kevin D. Rooney,
Assistant Attorney General for Administration.

JUSTICE/PRC-007, Workload Record, Decision Result, and Annual Report System
JUSTICE/USA-005, Civil Case Files

JUSTICE/CIV-002

System name: Civil Division Case File System: Customs Section

System location: 26 Federal Plaza, New York, New York 10007, and U.S. Department of Justice Data Services Center, 10th and Constitution Avenue, N.W., Washington, D.C. 20530.

Categories of individuals covered by the system: Any and all parties and counsel involved in the cases handled by the Customs Section of the Civil Division will have identifying data contained in this system.

Categories of records in the system: 1. The main record of the system is the case file which is retained on each case under the jurisdiction of the Customs Section of the Civil Division and constitutes the official record of the Department of Justice thereon. All record material relating to a case is retained in the file. Each file is assigned the Customs Court number given to the summons filed in that court or, in cases filed prior to October 1, 1970, to reappraisement appeals or to protests filed with the Customs Court.

The number assigned to the file will change to the number assigned by the Court of Customs and Patent Appeals, if that case becomes the subject of an appeal before that court. In addition, the Custom Section retains a log of communications received and communications sent. The correspondence is identified thereon by court (case) number, identification of the kind of communication, and the person receiving it.

2. The case file and communication logs are physically retained at the offices of the Customs Section, 26 Federal Plaza, New York, New York 10007. From these records, the Customs Section inputs certain information for conversion into a data processing system which is maintained at the Department of Justice Data Services Center, 10th and Constitution Avenue, N.W., Washington, D.C. 20530. Included in the information contained in the data processing system is the identity of the parties and their counsel, as well as the merchandise involved, the port of entry and the competing statutory provisions.

3. Alphabetical and numerical indices are maintained as a means of access to the proper file number by the cross-referencing of the names of non-government parties to suits with the appropriate file (court) numbers. These indices are made of index cards and maintained in the Chief Clerk's office in the Customs Section.

Authority for maintenance of the system: The Customs Section case files are maintained under the authority of 28 U.S.C. 2601(b) and 2632(e) and established in accordance with 28 C.F.R. 0.45(c) which gives the Civil Division responsibility for 'all litigation incident to the reappraisement and classification of imported goods, including the defense of all suits in the Court of Customs and Patent Appeals', and with 28 C.F.R. 0.48 which designates the Chief, Customs Section, 'to accept service of notices of appeals to the Court of Customs and Patent Appeals and all pleadings and other papers filed in the Customs Court, when the United States is an adverse Party in any customs litigation'.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Any record pertaining to any case or matter in the Civil Division may be disseminated to any other component of the Department of Justice, including the Federal Bureau of Investigation and the United States Attorney offices, for use in connection with the consideration of that case or matter or any other case or matter under consideration by the Civil Division or any other component of the Department of Justice.

Certain information contained in the record may also be disseminated to the U.S. Customs Service, the Department of the Treasury, the International Trade Commission, the Department of State, or any other agency of the Government whose decision is being challenged in a case assigned to the Customs Section for disposition. A record maintained in this system of records may be disseminated as a routine use of such record as follows: (1) in any case in which there is an indication of a violation or potential violation of law, whether civil, criminal or regulatory in nature, the record in question may be disseminated to the appropriate Federal, state, local or foreign agency charged with the responsibility for investigating or prosecuting such violation or charged with enforcing or implementing such law; (2) in the course of investigating the potential or actual violation of any law, whether civil, criminal or regulatory in nature, or during the course of a trial or hearing, or the preparation for a trial or hearing for such violation, a record may be disseminated to a Federal, state, local or foreign agency, or to an individual or organization, if there is reason to believe that such agency, individual or organization possesses information relating to the investigation, trial or hearing and the dissemination is reasonably necessary to elicit such information or to obtain the cooperation of a witness or an informant; (3) a record relating to a case or matter may be disseminated in an appropriate Federal, state, local or foreign court or grand jury proceeding in accordance with established constitutional, substantive, or procedural law or practice; (4) a record relating to a case or matter may be disseminated to a Federal, state, or local administrative or regulatory proceeding or hearing in accordance with the procedures governing such proceeding or hearing; (5) a record relating to a case or matter may be disseminated to an actual or potential party or his attorney for the purpose of negotiation or discussion of such matters as settlement of the case or matter, plea bargaining, or formal or informal discovery proceedings; (6) a record relating to a case or matter that has been referred by an agency for investigation, prosecution, or enforcement; or that involves a case or matter within the jurisdiction of an agency, or where the agency or officials thereof are a party to litigation or where the agency or officials may be affected by a case or matter, may be disseminated to such agency to notify the agency of the status of the case or matter or of any decision or determination that has been made, or to make such other inquiries and reports as are necessary during the processing of the case or matter; (7) a record relating to a person held in custody pending or during arraignment, trial, sentence or extradition proceedings, or after conviction or after extradition proceedings, may be disseminated to a Federal, state, local or foreign prison, probation, parole, or pardon authority, or to any other agency or individual concerned with the maintenance, transportation, or release of such a person; (8) a record relating to a case or matter may be disseminated to a foreign country pursuant to an international treaty or convention entered into and ratified by the United States or to an executive agreement; (9) a record may be disseminated to a Federal, state, local, foreign, or international law enforcement agency to assist in the general crime prevention and detection efforts of the recipient agency or to provide investigative leads to such agency; (10) a record may be disseminated to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant or other benefit by the requesting agency, to the extent that the information relates to the requesting agency's decision on the matter, (11) a record may be disseminated to the public, news media, trade associations, or organized groups, when the purpose of the dissemination is educational or informational, provided that the record does not contain any information identifiable to a specific individual other than is necessary to identify the matter or where the information has previously been filed in a judicial or administrative office, including the clerk of the court; (12) a record may be disseminated to a foreign country, through the United States Department of State or directly to the representative of such country, to the extent necessary to assist such country in civil or criminal proceedings in which the United States

V 43 / 189 SE 28 78

or one of its officers or agencies has an interest; (13) a record that contains classified national security information and material may be disseminated to persons who are engaged in historical research projects, or who have previously occupied policy-making positions to which they were appointed by the President, in accordance with the provisions 28 CFR 17.60; (14) copies of the summons (protest and reappraisement appeals, where appropriate) and the communication logs are made available to employees of the private contractor who services the data processing system in New York for the purpose of enabling such employees to extract all pertinent information from said documents so that such information may be encoded and converted to punch card form.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: (1) The case files utilize standard file jackets or envelopes and are maintained in standard file cabinets; (2) The alphabetical index cards are maintained in standard file cabinets; (3) The communication logs are maintained in looseleaf binders and, when not being currently referred to, are also maintained in standard file cabinets; (4) The information in the data processing system is maintained on tapes stored in the Data Services Center.

Retrievability: (1) The case files must be retrieved by number. The file number may be ascertained from the alphabetical index when the name of any non-government litigant is known. (2) The information contained in the data processing system may be retrieved through the retrieval tool activated by an attorney making a request for a report to the computer technician who codes the request on a form in the format of the retrieval language. The action words of the retrieval reports are: List-lists the case numbers of the cases which satisfy certain criteria such as plaintiff's name, counsel's name, court, number, merchandise, competing statutory provisions, Government counsel. Write—output and the full history for any case specified by case number. Write*—a limited case history for any case specified by case number. Count-tallying the number of cases in the data base contained in the request.

Safeguards: (1) Information contained in the system is unclassified. However, only attorneys in the Customs Section who have responsibility for the case may properly obtain a case file. Correspondence and telephone calls about particular cases are referred to the attorney having responsibility for the case. In the attorney's absence, another attorney covering for the absent attorney or the Chief of the Section may respond to the telephone call or correspondence. The index files and the communication logs are utilized only by the personnel of the Customs Section in locating or verifying information contained in the system. (2) Information from the data processing system may be obtained only by attorneys on the basis of requests made in writing on a proper form supplied by the Customs Section. The request is made of the computer technician. Normally these requests are mailed to the technician in charge at the Data Services Center, but occasionally the request may be related telephonically by the computer technician.

Retention and disposal: (1) Closed case files are sent to the Federal Records Center for retention in accordance with the authorized Records Disposal Schedule for the classification of the case. Such schedules are approved by the National Archives. After the designated period is passed, the file is destroyed. The communication logs are sent to the Federal Records Center for retention in accordance with the authorized records disposal schedule after five years. After the designated period those records are also destroyed. The index cards, however, are not purged. (2) Periodically, the inactive cases will be purged from the main tape in the data processing system and transferred to the historical tape where the information will be retained indefinitely. There is a provision in the data processing system to delete and remove an entire case history from the main or historical tape. This may be done on request from the Chief of the Customs Section and such removed cases will not be saved or written on any other tape.

System manager(s) and address: Assistant Attorney General, Civil Division, U.S. Department of Justice, 10th and Constitution Avenue, N.W., Washington, D.C. 20530.

Notification procedure: Address inquiries to Assistant Attorney General; Civil Division, U.S. Department of Justice; 10th and Constitution Avenue, N.W., Washington, D.C. 20530.

Record access procedures: A request for information concerning the cases of the Customs Section of the Civil Division should be submitted in writing, with the envelope and letter clearly marked "Privacy Access Request". The request should include the file number and/or the names ot any non-government litigant known to the requestor. The requestor should also provide a return address for transmitting the information. Such access request should be submitted to the System Manager listed above.

Contesting record procedures: Individuals desiring to contest or amend information maintained in the system should direct their request to the Assistant Attorney General, Department of Justice, 10th and Constitution Avenue, N.W., Washington, D.C. 20530. The request should clearly state what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

Record source categories: All litigants involved in the cases of this Division are sources of information. Such information is either contained in the record material in the case files or has been extracted from that record material and put on communication logs and/or index cards.

Systems exempted from certain provisions of the act: None.

JUSTICE/DAG-002

System name: Freedom of Information and Privacy Appeals Index.

System location: Office of the Deputy Attorney General; United States Department of Justice; 10th and Constitution Avenue, N.W., Washington, D.C. 20530.

Categories of individuals covered by the system: The system encompasses all individuals who submit administrative appeals under the Freedom of Information or Privacy Acts and initial requests for access to records located in the Office of the Attorney General, Deputy Attorney General or Associate Attorney General.

Categories of records in the system: The system contains copies of administrative requests, appeals and other related correspondence filed under the Freedom of Information and Privacy Acts and copies are filed sequentially by date of receipt based on a numerical identifier assigned to each appeal. Also included are index cards which list the name of the appellant and the numerical identifier assigned.

Authority for maintenance of the system: The system was established and is maintained to enable the Office of the Deputy Attorney General to comply with the reporting requirements set forth in 5 U.S.C. 552 and 552a.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: These records are maintained for the purpose of processing administrative requests and appeals under the Freedom of Information and Privacy Acts and to comply with the reporting requirements of those Acts.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: These records are stored in file folders in cabinets.

Retrievability: These folders are filed by the number assigned to each.

Safeguards: These records are stored in cabinets in a lockable room.

Retention and disposal: These folders are kept indefinitely.

System manager(s) and address: Director, Office of Privacy and Information Appeals, Office of the Deputy Attorney General: United States Department of Justice; 10th and Constitution Avenue, N.W.; Washington, D.C. 20530.

Notification procedure: Same as the System Manager.

Record access procedures: Same as the System Manager.

Contesting record procedures: Same as the System Manager.

Record source categories: Those individuals who submit certain requests and all appeals under the Freedom of Information and Privacy Acts.

Systems exempted from certain provisions of the act: None.

JUSTICE/DEA-008

System name: Investigative Reporting and Filing System.

System location: Drug Enforcement Administration; 1405 I Street NW.; Washington, D.C. 20537. Also, field offices. Sec. Appendix 1 for list of addresses.

Categories of individuals covered by the system:

A. Drug offenders.
B. Alleged drug offenders.
C. Persons suspected of drug offenses.
D. Confidential informants.
E. Defendants.
F. Witness.
G. Non-implicated persons with pertinent knowledge of some circumstance or aspect of a case or suspect. These are pertinent references of fact developed by personal interview or third party interview and are recorded as a matter for which a probable need for recall will exist. In the regulatory portion of the system, records are maintained on the following categories of individuals: (a) Individuals registered with DEA under the Comprehensive Drug Abuse Prevention and Control Act of 1970; (b) Responsible officials of business firms registered with DEA; (c) Employees of DEA registrants who handle controlled substances or occupy positions of trust related to the handling of controlled substances; (d) Applicants for DEA registration and their responsible employee.

Categories of records in the system: The Investigative Reporting and Filing System includes, among other things, a system of records as defined in the Privacy Act of 1974. Individual records, i.e. items of information on an individual may be decentralized in separate investigative file folders. Such records as well as certain other records on persons and subjects not covered by the act, are made retrievable and are retrieved by reference to the following subsystems.

A. The Narcotics and Dangerous Drugs Information System (NADDIS) consists of two centralized automated indexes and machine records on subjects cited in and extracted from investigative reports. The two indexes represent a name index and a number index which are used to access one or more specific records for examination. The system serves as both an index to the more voluminous written reports upon which it is based and as an autonomous means for developing investigative leads and aids in selecting source materials for studies of a strategic nature. The system is accessible by telecommunications by appropriately equipped DEA headquarters and field offices. Records which comprise the system are also accessed by special computer runs. These runs are typically generated from selection criteria which cannot be utilized (input) via the telecommunications equipment. Bulk products generated via off-line runs may be formated on computer tape, in printout or on microfiche depending on the needs of the user.

Direct references to the discrete file folders in which the source reports are filed are provided within each record. Therefore, the NADDIS records point to the more comprehensive manual reports maintained centrally at Headquarters. Records are retrievable by name and by certain identifying numbers in the on-line mode and by virtually any record data element in the off-line mode.

B. Manual name indicies covering regional and district investigative activities are maintained by DEA field offices. A residual card index is retained at DEA headquarters that predates the automated central index. The items of information on the manual index records are extracted only from investigative reports and point to the more comprehensive information in pertinent investigative file folders. The records in the field office indicies are sub-sets of the central automated and manual indicies. Records are retrievable by name only by this manual technique. Four basic categories of files are maintained within the Investigative Reporting and Filing System. DEA does not maintain a dossier type file in the traditional sense on an individual. Instead, the files are compiled on separate investigations, topics and on a functional basis for oversight and investigative support: (a) Criminal Investigative Case Files; (b) General Investigative Files, Criminal and Regulatory; (c) Regulatory Audit and Investigative Files; (d) Confidential Informant Files.

The basic document contained in these files is a multi-purpose report of investigation (DEA-6) on which investigative activities and findings are rigorously documented. The reports pertain to the full range of DEA criminal drug enforcement and regulatory investigative functions that emanate from the Comprehensive Drug Prevention and Control Act of 1970. Within the categories of files listed above, the general file category includes preliminary investigations of a criminal nature, certain topical or functional aggregations and reports of pre-registrant inspections/investigations. The case files cover targeted conspiracies, trafficking situations and formal regulatory audits and investigations. Frequently the criminal drug cases are the logical extension of one or more preliminary investigations. The distinction between the case file and general file categories, therefore, is based on internal administrative policy and should not be construed as a differentiation of investigation techniques or practices. These files, except for Confidential Informant Files, contain also adopted reports received from other agencies to include items that comprise, when indexed, individual records within the meaning of the Act. The central files maintained at DEA Headquarters include, in general, copies of investigative reports and most of the supporting documents that are generated or adopted by DEA Headquarters and field offices.

Authority for maintenance of the system: This system is established and maintained to enable DEA to carry out its assigned law enforcement and regulatory functions under the Comprehensive Drug Abuse Prevention and Control Act of 1970. (Pub. L. 91-513), Reorganization Plan No. 2 of 1973, and to fulfill United States obligations under the Single Convention on Narcotics Drugs.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: This system may be used as a data source or reference facility for numerous summary, management and statistical reports produced by the Drug Enforcement Administration. Only on rare occasions do such reports contain identifiable individual records. Information contained in this system is provided to the following categories of users as a matter of routine use for law enforcement and regulatory purpose: (a) Other Federal law enforcement and regulatory agencies; (b) State and local law enforcement and regulatory agencies; (c) Foreign law enforcement agencies with whom DEA maintains liaison; (d) The Department of Defense and Military Departments; (e) The Department of State; (f) U.S. intelligence agencies concerned with drug enforcement; (g) The United Nations; (h) Interpol; (i) To individuals and organizations in the course of investigations to elicit information.

In addition, disclosures are routinely made to the following categories for the purpose stated: (a) To federal agencies for national security clearance purposes and to federal and state regulatory agencies responsible for the licensing or certification of individuals in the fields of pharmacy and medicine; (b) To the Office of Management and Budget upon request in order to justify the allocation of resources; (c) To State and local prosecutors for assistance in preparing cases concerning criminal and regulatory matters; (d) To the news media for public information purposes; (e) To respondents and their attorneys for purposes of discovery, formal and informal, in the course of an adjudicatory, rule-making, or other hearing held pursuant to the Controlled Substances Act of 1970.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is subject of the record.

V 43 / 189

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Administration regulations include detailed instructions for the preparation, adoption, handling, dissemination, indexing of individual records, storage, safeguarding of investigative reports and the accounting of disclosure of individual records.

Storage: 1. The Headquarters central files and the field office subsets of the Investigative Reporting and Filing System are maintained in standard file folders. Standard formats are employed. Manual indicies are maintained using standard index record formats.

2. The Narcotics and Dangerous Drugs Information subset is stored electronically on the Department of Justice Information System separate from DEA Headquarters.

Retrievability: Access to individual records is gained by reference to either the automated or manual indicies. Retrievability is a function of the presence of items in the index and the matching of names in the index with search argument names or identifying numbers in the case of the automated system. Files identified from field office indices are held by the field office and Headquarters. Files identified from the automated index may not be held by the interested office, but the originators of such files are identified. In addition a number of telecommunication terminals have been added to the existing network.

Safeguards: The Investigative Reporting and Filing System is reported by both physical security methods and dissemination and access controls. Fundamental in all cases is that access to investigative information is limited to those persons or agencies with a demonstrated and lawful need to know for the information in order to perform assigned functions.

1. Physical security when investigative files are attended is provided by responsible DEA employees. Physical security when files are unattended is provided by the secure locking of material in approved containers or facilities. The selection of containers or facilities is made in consideration of the sensitivity or National Security Classification, as appropriate, or the files and the extent of security guard and/or surveillance afforded by electronic means.

2. Protection of the automated index is provided by physical, procedural and electronic means. The Master file resides on the Department of Justice Computer System and is physically attended or guarded on a full-time basis. Access or observation to active telecommunications terminals is limited to those with a demonstrated need to know for retrieval information. Surreptitious access to an unattended terminal is precluded by a complex sign-on procedure. The procedure is provided only to authorized DEA employees. For certain terminals, access is further restricted by cryptological equipment.

3. An automated log of queries is maintained for each terminal. Improper procedure results in no access. Terminals are signed-off after use. The terminals are otherwise located in locked facilities after normal working hours.

4. The dissemination of investigative information on an individual outside the Department of Justice is made in accordance with the routine uses as described herein or otherwise in accordance with the conditions of disclosure prescribed by the Act. The need to know of the recipient is determined in both cases by DEA as a prerequisite of the release.

Retention and disposal: Records contained within this system except for those in general files are retained for fifty-five (55) years. Records in general files are retained for twenty (20) years.

System manager(s) and address: Assistant Administrator for Enforcement; Drug Enforcement Administration; 1405 Eye Street, NW., Washington, D.C. 20537.

Record source categories: (a) DEA personnel; (b) Cooperating individuals; (c) Suspects and defendants; (d) Federal, State and local law enforcement and regulatory agencies; (e) Other Federal agencies; (f) Foreign law enforcement agencies; (g) Business records by subpoena; (h) Drug and chemical companies; (i) Concerned citizens.

Systems exempted from certain provisions of the Act: The Attorney General has exempted this system from subsections (c) (3) and (4), (d), (e) (1), (2), and (3), (e)(4)(G), (H), (e) (5) and (8), (f), (g), (h) of the Privacy Act pursuant to U.S.C. 552a (j) and (k). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

JUSTICE/LEAA-002

System name: Law Enforcement Education System.

System location: Law Enforcement Assistance Administration, 633 Indiana Avenue NW., Washington, D.C. 20531.

Categories of individuals covered by the system: Recipients of LEAA Law Enforcement Education Loans and Grants.

Categories of records in the system: LEEP Master Computer File; LEEP Promissory Note File; LEAA Form 03.

Authority for maintenance of the system: The system is established and maintained to 42 U.S.C. 3746.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To contractors for coding and statistical analysis, educational institutions for record reconcilliation, IRS and references listed on application for address verification, referees in bankruptcy for claim action, State and local agencies to verify eligibility.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information maintained in the system is stored on computer magnetic tape, discs and folders.

Retrievability: Information is retrievable by name of recipient and social security number.

Safeguards: Computerized information is safeguarded and protected by computer password key and limited access. Noncomputerized data is safeguarded in file room which is locked after business hours. Access is limited to LEAA authorized personnel.

Retention and disposal: Computerized records are kept indefinitely. Uncollected loans/grants are transferred to GAO as soon as determined uncollectable. Cancelled or repaid loan/grants are closed at end of fiscal year, held three years, sent to Federal Records Center and destroyed in accordance with instructions from GAO.

System manager(s) and address: Comptroller; Law Enforcement Assistant Administrator, 633 Indiana Avenue NW., Washington, D.C. 20531.

Notification procedure: Same as above.

Record access procedures: A request for access to a record from this system shall be made in writing, with the envelope and the letter clearly marked "Privacy Access Request." Include in the request the name and personal identifier number Access requests will be directed to the System Manager listed above.

Contesting record procedures: Individuals desiring to contest or amend information maintained in the system should direct their request to System Manager listed above, stating clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

Record source categories: Sources of Information are the recipients of loans/grants and their educational institutions.

Systems exempted from certain provisions of the act: None.

Drug Enforcement Administration Accounting System (DEAA-SII). JUSTICE/DEA-016: Published at 43 Fr 25883 on June 15, 1978. No formal, final adoption notice was issued. Therefore, notice is hereby given that no comments were received and the amended system is adopted.

JUSTICE/DEA-016

System name: Drug Enforcement Administration Accounting System (DEAAS II).

System location: Drug Enforcement Administration, 1405 Eye Street NW., Washington, D.C. 20537. Also field offices. See Appendix 1 for list of addresses.

Categories of individuals covered by the system: All individuals who submit vouchers requesting payment for goods or services rendered, except payroll vouchers for DEA employees. These include vendors, contractors, experts, witnesses, court reporters, travelers, relocated employees, etc.

Categories of records in the system: All vouchers paid except payroll vouchers for DEA employees. In addition, all advance of funds issued to DEA travelers.

Authority for maintenance of the system: The system is established and maintained in accordance with the Budget and Accounting Procedures Act of 1950 as amended, 31 U.S.C. 66 and 31 U.S.C. 200(a).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: After payment of the vouchers, the accounting data is used for the purpose of internal management reporting and external reporting to agencies such as OMB, U.S. Treasury, and the GAO.

Release of Information to the News Media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of Information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of Information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manual voucher files are maintained alphabetically by payee's name. Travel advance information and other budget and accounting data are maintained by an online computerized file. Information on travel advances is stored by employee identification number; other budget and accounting data is maintained by obligation number or other program identifier.

Retrievability: Information from manual voucher files is retrieved by using the name of the payee. Travel advance information is retrieved by employee identification number; other budget and accounting data is retrieved by obligation number or other program identifier.

Safeguards: Information contained in the system is unclassified. It is safeguarded in accordance with organizational rules and procedures. Access to manual voucher files is restricted to employees on a need to know basis. Information that is retrievable by terminals can be retrieved only by authorized employees of the Department of Justice who have been issued user identification numbers.

Retention and disposal: The payment documents are retained at this location for three fiscal years (current and two prior years). The records are then shipped to a Federal Records Center for storage in accordance with the General Record Schedule published by the general Services Administration. In the computerized file for travel advances, only the last two transactions in any particular account are retained in the file. Old transactions are automatically purged as new transactions are entered.

System manager(s) and address: Controller, Drug Enforcement Administration, 1405 Eye Street NW., Washington, D.C. 20537.

Notification procedure: Inquiries should be addressed to Freedom of Information Unit, Drug Enforcement Administration, 1405 Eye Street NW., Washington, D.C. 20537.

Record access procedures: Same as "Notification Procedure" above.

Contesting record procedures: Same as "Notification Procedure" above.

Record source categories: Submitted by the payee involved.

Systems exempted from certain provisions of the act: None.

JUSTICE/FBI-001

System name: National Crime Information Center (NCIC).

System location: Federal Bureau of Investigation; J Edgar Hoover Bldg., 10th and Pennsylvania Avenue NW., Washington, D.C. 20535.

Categories of individuals covered by the system: A. Wanted Persons: 1. Individuals for whom Federal warrants are outstanding. 2. Individuals who have committed or have been identified with an offense which is classified as a felony or serious misdemeanor under the existing penal statutes of the jurisdiction originating the entry and felony or misdemeanor warrant has been issued for the individual with respect to the offense which was the basis of the entry. Probation and parole violators meeting the foregoing criteria. 3. A "Temporary Felony Want" may be entered when a law enforcement agency has need to take prompt action to establish a "want" entry for the apprehension of a person who has committed, or the officer has reasonable grounds to believe has committed, a felony and who may seek refuge by fleeing across jurisdictional boundaries and circumstances preclude the immediate procurement of a felony warrant. A "Temporary Felony Want" shall be specifically identified as such and subject to verification and support by a proper warrant within 48 hours following the initial entry of a temporary want. The agency originating the "Temporary Felony Want" shall be responsible for subsequent verification or re-entry of a permanent want.

B. Individuals who have been charged with serious and/or significant offenses.

C. Missing Persons: 1. A person of any age who is missing and who is under proven physical/mental disability or is senile, thereby subjecting himself or others to personal and immediate danger. 2. A person of any age who is missing under circumstances indicating that his disappearance was not voluntary. 3. A person of any age who is missing and in the company of another person under circumstances indicating that his physical safety is in danger. 4. A person who is missing and declared unemanicipated as defined by the laws of his state of residence and does not meet any of the entry criteria set forth in 1, 2, or 3 above.

Categories of records in the system: A. Stolen Vehicle File: 1. Stolen vehicles. 2. Vehicles wanted in conjunction with felonies or serious misdemeanors. 3. Stolen vehicle parts, including certificates of origin or title.

B. Stolen License Plate File: 1. Stolen or missing license plate.

C. Stolen/Missing Gun File: 1. Stolen or missing guns, 2. Recovered gun, ownership of which has not been established.

D. Stolen Article File.

E. Wanted Person File: Described in "Categories of individuals covered by the system: A. Wanted Persons".

F. Securities File: 1. Serially numbered stolen, embezzled, counterfeited, missing securities. 2. "Securities" for present purposes of this file are currency (e.g. bills, bank notes) and those documents or certificates which generally are considered to be evidence of debt (e.g. bonds, debentures, notes) or ownership of property (e.g. common stock, preferred stock), and documents which represent subscription rights, warrants) and which are of those types traded in the securities exchanges in the United States, except for commodities futures. Also included are warehouse receipts, travelers checks and money orders.

G. Boat File.

H. Computerized Criminal History File: A cooperative Federal-State program for the interstate exchange of criminal history record information for the purpose of facilitating the interstate exchange of such information among criminal justice agencies.

I. Missing Person File: Described in "Categories of individuals covered by the system: C. Missing Persons".

Authority for maintenance of the system: The system is established and maintained in accordance with Title 28, United States Code, Section 534 and Title 28—Judicial Administration, Chapter I—Department of Justice (Order No. 601-75) Part 20—Criminal Justice Information Systems.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Data in NCIC files is exchanged with and for the official use of authorized officials of the Federal Government, the States, cities, and penal and other institutions in accordance with title 28, U.S. code, section 534. The data is exchanged through NCIC lines to Federal criminal justice agencies, criminal justice agencies in the 50 States, the District of Columbia, and Puerto Rico. Additionally, data contained in the various "want files," i.e., the stolen vehicle file, stolen license plate file, stolen/missing gun file, stolen article file, wanted person file, sucurities file, and boat file may be accessed by the Royal Canadian Mounted Police. Dissemination of criminal history record information is set forth in Title 28 of the Code of Federal Regulations—Judicial Administration, Chapter I—Department of Justice (Order No. 601-75)

SEP 28 1978

V 43 / 189 SE 28 78

Part 20—Criminal Justice Information Systems, Subpart C, Section 20.33.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 C.F.R. 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information maintained in the NCIC system is stored electronically for use in a computer environment.

Retrievability: On-line access to data in NCIC is achieved by using the following search descriptors. 1. Vehicle file: (a) Vehicle identification number; (b) License plate number; (c) NCIC number (unique number assigned by the NCIC computer to each NCIC record). 2. License Plate file: (a) License plate number; (b) NCIC number. 3. Gun File: (a) Serial number of gun; (b) NCIC number. 4. Article File: (a) Serial number of article; (b) NCIC number. 5. Wanted Person File: (a) Name and one of the following numerical identifiers date of birth, FBI number (number assigned by the Federal Bureau of Investigation to an arrest fingerprint record), Social Security number (It is noted the requirements of the Privacy Act with regard to the solicitation of Social Security numbers have been brought to the attention of the members of the NCIC system), Operator's license number (driver's license number), Miscellaneous identifying number (military number or number assigned by Federal, state, or local authorities to an individual's record, Originating agency case number, (b) Vehicle or license plate known to be in the possession of the wanted person; (c) NCIC number (unique number assigned to each NCIC record). 6. Securities File. (a) Type, serial number, denomination of security; (b) Type of security and name of owner of security; (c) Social Security number of owner of security, (d) NCIC number. 7. Boat File: (a) Registration document number; (b) Hull serial number; (c) NCIC number. 8. Computerized Criminal History File; (a) Name, sex, race, and date of birth; (b) FBI number, (c) State identification number; (d) Social Security number; (e) Miscellaneous number. 9. Missing Person file—Same as "Wanted Person" File.

Safeguards: Data stored in the NCIC is documented criminal justice agency information and access to that data is restricted to duly authorized criminal justice agencies. The following security measures are the minimum to be adopted by all criminal justice agencies having access to the NCIC Computerized Criminal History File. These measures are designed to prevent unauthorized access to the system data and/or unauthorized use of data obtained from the computerized file.

1. Computer Centers: a. The criminal justice agency computer site must have adequate physical security to protect against any unauthorized personnel gaining access to the computer equipment or to any of the stored data. b. Since personnel at these computer centers can access data stored in the system, they must be screened thoroughly under the authority and supervision of an NCIC control terminal agency. (This authority and supervision may be delegated to responsible criminal justice agency personnel in the case of a satellite computer center being serviced through a state control terminal agency.) This screening will also apply to non-criminal justice maintenance or technical personnel. c. All visitors to these computer centers must be accompanied by staff personnel at all times. d. Computers having access to the NCIC must have the proper computer instructions written and other built-in controls to prevent criminal history data from being accessible to any terminals other than authorized terminals. e. Computers having access to the NCIC must maintain a record of all transactions against the criminal history file in the same manner the NCIC computer logs all transactions. The NCIC identifies each specific agency entering or receiving information and maintains a record of those transactions. This transaction record must be monitored and reviewed on a regular basis to detect any possible misuse of criminal history data. f. Each state control terminal shall build its data system around a central computer, through which each inquiry must pass for screening and verification. The configuration and operation of the center shall provide for the integrity of the data base.

2. Communications: a. Lines/channels being used to transmit criminal history information must be dedicated solely to criminal justice use, i.e., there must be no terminals belonging to agencies outside the criminal justice system sharing these lines/channels. b. Physical security of the lines/channels must be protected to guard against clandestine devices being utilized to intercept or inject system traffic.

3. Terminal Devices Having Access to NCIC: a. All agencies having terminals on the system must be required to physically place these terminals in secure locations within the authorized agency. b. The agencies having terminals with access to criminals history must have terminal operators screened and restrict access to the terminal to a minimum number of authorized employees. c. Copies of criminal history data obtained from terminal devices must be afforded security to prevent any unauthorized access to or use of that data. d. All remote terminals on NCIC Computerized Criminal History will maintain a hard copy of computerized criminal history inquiries with notations of individual making request for record (90 days).

Retention and disposal: Unless otherwise removed, records will be retained in file as follows:

1. Vehicle File: a. Unrecovered stolen vehicle records (including snowmobile records) which do not contain vehicle identification numbers (VIN) therein, will be purged from file 90 days after the end of the license plate's expiration year as shown in the record. Unrecovered stolen vehicle records (including snowmobile records) which contain VIN's will remain in file for the year of entry plus 4. b. Unrecovered vehicles wanted in conjunction with a felony will remain in file for 90 days after entry. In the event a longer retention period is desired, the vehicle must be reentered. c. Unrecovered stolen VIN plates, certificates of origin or title, and serially numbered stolen vehicle engines or transmissions will remain in file for the year of entry plus 4.

2. License Plate File: Unrecovered stolen license plates not associated with a vehicle will remain in file for one year after the end of the plate's expiration year as shown in the record.

3. Gun File: a. Unrecovered weapons will be retained in file for an indefinite period until action is taken by the originating agency to clear the record. b. Weapons entered in file as "recovered" weapons will remain in file for the balance of the year entered plus 2.

4. Article File: Unrecovered stolen articles will be retained for the balance of the year entered plus one year.

5. Wanted Person File: Persons not located will remain in file indefinitely until action is taken by the originating agency to clear the record (except "Temporary Felony Wants", which will be automatically removed from file after 48 hours).

6. Securities File: Unrecovered, stolen, embezzled, counterfeited or missing securities will be retained for the balance of the year entered plus 4, except for travelers checks and money orders, which will be retained for the balance of the year entered plus 2.

7. Boat File: Unrecovered stolen boats will be retained in file for the balance of the year entered plus 4.

8. Missing Person File: Will remain in the file until the individual is located or, in the case of unemancipated persons, the individual reaches the age of emancipation as defined by laws of his state.

9. Computerized Criminal History File: When an individual reaches age of 80.

System manager(s) and address: Director, Federal Bureau of Investigation; J. Edgar Hoover F.B.I. Building, 9th and Pennsylvania Avenue N.W., Washington, D.C. 20535.

Notification procedure: Same as the above.

Record access procedures: It is noted the Attorney General is exempting this system from the access and contest procedures of the Privacy Act. However, the following alternative procedures are available to a requester. The procedures by which an individual may obtain a copy of his Computerized Criminal History are as follows:

If an individual has a criminal record supported by fingerprints and that record has been entered in the NCIC CCH File, it is available to that individual for review, upon presentation of appropriate identification, and in accordance with applicable State and Federal administrative and statutory regulations.

Appropriate identification includes being fingerprinted for the purpose of insuring that he is the individual that he purports to be. The record on file will then be verified as his through comparison of fingerprints.

Procedure 1. All requests for review must be made by the subject of his record through a law enforcement agency which has access to the NCIC CCH File. That agency within statutory or regulatory limits can require additional identification to assist in securing a positive identification.

2. If the cooperating law enforcement agency can make an identification with fingerprints previously taken which are in file locally and if the FBI identification number of the individual's record is available to that agency, it can make an on-line inquiry of NCIC to obtain his record on-line or, if it does not have suitable equipment to obtain an on-line response, obtain the record from Washington, D.C., by mail. The individual will then be afforded the opportunity to see that record.

3. Should the cooperating law enforcement agency not have the individual's fingerprints on file locally, it is necessary for that agency to relate his prints to an existing record by having his identification prints compared with those already on file in the FBI or possibly, in the State's central identification agency.

Contesting record procedures: The subject of the requested record shall request the appropriate arresting agency, court, or correctional agency to initiate action necessary to correct any stated inaccuracy in his record or provide the information needed to make the record complete.

Record source categories: Information contained in the NCIC system is obtained from local, State, Federal and international criminal justice agencies.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c) (3) and (4), (d), (e) (1), (2) and (3), (e)(4) (G), (H), (e)(8) (f), (g) and (m) of the Privacy Act pursuant to 5 U.S.C. 552a(j). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

JUSTICE/FBI—002

System name: The FBI Central Records System.

System location: a. Federal Bureau of Investigation, J. Edgar Hoover FBI Building, 10th and Pennsylvania Avenue NW., Washington, D.C. 20535; b. 59 field divisions (see Appendix); c. 14 Legal Attaches (see Appendix).

Categories of individuals covered by the system: a. Individuals who relate in any manner to official FBI investigations including, but not limited to suspects, victims, witnesses, and close relatives and associates that are relevant to an investigation.

b. Applicants for and current and former personnel of the FBI and persons related thereto that are considered relevant to an applicant investigation, personnel inquiry, or persons related to personnel matters.

c. Applicants for and appointees to sensitive positions in the United States Government and persons related thereto that are considered relevant to the investigation.

d. Individuals who are the subject of unsolicited information, who offer unsolicited information, request assistance, and make inquiries concerning record material, including general correspondence, contacts with other agencies, businesses, institutions, clubs, the public and the news media.

e. Individuals, associated with administrative operations or services including pertinent functions, contractors and pertinent persons related thereto.

(All manner of information concerning individuals may be acquired in connection with and relating to the varied investigative responsibilities of the FBI which are further described in "Categories of Records in the System." Depending on the nature and scope of the investigation this information may include, among other things, personal habits and conduct, financial information, travel and organizational affiliation of individuals. The information collected is made a matter of record and placed in FBI files.)

Categories of records in the system: The FBI Central Records System—The FBI utilizes a central records system of maintaining its investigative, personnel, applicant, administrative, and general files. This system consists of one numerical sequence of subject matter files, an alphabetical index to the files, and a supporting abstract system to facilitate processing and accountability of all important mail placed in file. Files kept in FBI field offices are also structured in the same manner, except they do not utilize an abstract system.

The FBI has 204 classifications used in its basic filing system. They pertain primarily to Federal violations over which the FBI has investigative jurisdiction. However, included in the 204 classifications are personnel, applicant, and administrative matters to facilitate the overall filing scheme. These classifications are as follows (the word "obsolete" following the name of the classification indicates that documents are no longer being filed under this heading (although information is maintained under this heading)):

1. Training Schools; National Academy Matters; FBI National Academy Applicants. Covers general information concerning the FBI National Academy, including background investigations of individual candidates.

2. Neutrality Matters. Title 18, United States Code, Sections 956 and 958-962; Title 22, United States Code, Sections 1934 and 401.

3. Overthrow or Destruction of the Government. Title 18, United States Code, Section 2385.

4. National Firearms Act; Federal Firearms Act; State Firearms Control Assistance Act; Unlawful Possession or Receipt of Firearms. Title 26, United States Code, Sections 5801-5812; Title 18, United States Code, Sections 921-928; Title 18, United States Code, Sections 1201-1203.

5. Income Tax. Covers violations of Federal income tax laws reported to the FBI. Complaints are forwarded to the Commissioner of the Internal Revenue Service.

6. Interstate Transportation of Strikebreakers. Title 18, United States Code, Section 1231.

7. Kidnaping. Title 18, United States Code, Sections 1201 and 1202.

8. Migratory Bird Act. Title 18, United States Code, Section 43; Title 16, United States Code, Sections 703 through 718.

9. Extortion. Title 18, United States Code, Sections 876, 877, 875, and 873.

10. Red Cross Act. Title 18, United States Code, Sections 706 and 917.

11. Tax (Other than Income). This classification covers complaints concerning violations of Internal Revenue laws as they apply to other than alcohol, social security and income and profits taxes, which are forwarded to the Internal Revenue Service.

12. Narcotics. This classification covers complaints received by the FBI concerning alleged violations of Federal drug laws. Complaints are forwarded to the Administrator, Drug Enforcement Administration (DEA), or the nearest district office of DEA.

13. Miscellaneous. Section 125, National Defense Act: Prostitution: Selling Whiskey Within Five Miles Of An Army Camp. 1920 only. Subjects were alleged violators of abuse of U.S. flag, fraudulent enlistment, selling liquor and operating houses of prostitution within restricted bounds of military reservations. Violations of Section 13 of the Selective Service Act (Conscription Act) were enforced by the Department of Justice as a war emergency measure with the Bureau exercising jurisdiction in the detection and prosecution of cases within the purview of that Section.

14. Sedition. Title 18, United States Code, Sections 2387, 2388, and 2391.

15. Theft from Interstate Shipment. Title 18, United States Code, Section 659; Title 18, United States Code, Section 660; Title 18, United States Code, Section 2117.

16. Violation Federal injuction (obsolete). FBI records do not provide an explanation of the nature of this classification.

17. Veterans Administration Matters. Title 18, United States Code, Sections 287, 289, 290, 371, or 1001; and Title 38, United States Code, Sections 787(a), 787(b), 3405, 3501, and 3502.

18. May Act. Title 18, United States Code, Section 1384.

19. Censorship Matter (obsolete). Pub. L. 354, 77th Congress.

20. Federal Grain Standards Act. 1920 only. Subjects were alleged violators of contracts for sale, shipment of interstate commerce, Section 5, U.S. Grain Standards Act.

21. Food and Drugs. This classification covers complaints receive concerning alleged violations of the Food, Drug and Cosmetic Act; Tea Act; Import Milk Act; Caustic Poison Act; and Filled Milk Act. These complaints are referred to the Commissioner of the Food and Drug Administration or the field component of that Agency.

122. Labor Management Relations Act, 1947. Title 29, United States Code, Sections 161, 162, 176-178 and 186.

123. Special Inquiry, State Department, Voice of America (U.S. Information Center) (Pub. L. 402, 80th Congress). This classification covers loyalty and security investigations on personnel employed by or under consideratoin for employment for Voice of America.

124. European Recovery Program (International Cooperation Administration), formerly Foreign Operations Administration, Economic Cooperation Administration or E.R.P., European Recovery Programs; A.I.D., Agency for International Development (obsolete). This classification covers security and loyalty investigations of personnel employed by or under consideration for employment with the European Recovery Program. Pub. L. 472, 80th Congress.

125. Railway Labor Act; Railway Labor Act—Employer's Liability Act. Title 45, United States Code, Sections 151-163 and 181-188.

126. National Security Resources Board, Special Inquiry (obsolete). This classification covers loyalty investigations on employees and applicants of the National Security Resources Board.

127. Sensitive Positions in the United States Government, Pub. L. 266 (obsolete). Pub. L. 266, 81st Congress.

128. International Development Program (Foreign Operations Administration). This classification covers background investigations conducted on individuals who are to be assigned to duties under the International Development Program.

129. Evacuation Claims (obsolete). Pub. L. 886, 80th Congress.

130. Special Inquiry, Armed Forces Security Act (obsolete). This classification covers applicant-type investigations conducted for the Armed Forces security agencies.

131. Admiralty Matter. Title 46, United States Code, Sections 741 to 752 and 781 to 799.

132. Special Inquiry, Office of Defense Mobilization (obsolete). This classification covers applicant-type investigations of individuals associated with the Office of Defense Mobilization.

133. National Science Foundation Act, Applicant (obsolete). Pub. L. 507, 81st Congress.

134. Security Informants. This classification concerns individuals who provide information to the FBI concerning Foreign Counterintelligence matters.

135. PROSAB (Protection of Strategic Air Command Bases of the U.S. Air Force). This classification covered contacts with individuals with the aim to develop information useful to protect bases of the Strategic Air Command.

136. American Legion Contact (obsolete). This classification covered liaison contacts with American Legion officers.

137. Criminal Informants. This classification concerns individuals who furnish information to the FBI concerning criminal violations on a continuing and confidential basis.

138. Loyalty of Employees of the United Nations and Other Public International Organizations. This classification concerns FBI investigations based on referrals from the Civil Service Commission wherein a question or allegation has been received regarding the applicant's loyalty to the U.S. Government as described in Executive Order 10422.

139. Interception of Communications (Formerly, Unauthorized Publication or Use of Communications). Title 47, United States Code, Section 605; Title 47, United States Code, Section 501; Title 18, United States Code, Sections 2510-2513.

140. Security of Government Employees; S.G.E., Fraud Against the Government. Executive Order 10450.

141. False Entries in Records of Interstate Carriers. Title 47, United States Code, Section 220; Title 49, United States Code, Section 20.

142. Illegal Use of Railroad Pass. Title 49, United States Code, Section 1.

143. Interstate Transportation of Gambling Devices. Title 15, United States Code, Sections 1171 through 1180.

144. Interstate Transportation of Lottery Tickets. Title 18, United States Code, Section 1301.

145. Interstate Transportation of Obscene Matter; Broadcasting Obscene Language. Title 18, United States Code, Sections 1462, 1464 and 1465.

146. Interstate Transportation of Prison-Made Goods. Title 18, United States Code, Sections 1761 and 1762.

147. Federal Housing Administration Matters. Title 18, United States Code, Sections 1010, 709, 657 and 1006; Title 12, United States Code, Sections 1715 and 1709.

148. Interstate Transportation of Fireworks. Title 18, United States Code, Section 836.

149. Destruction of Aircraft or Motor Vehicles. Title 18, United States Code, Sections 31 through 35.

150. Harboring of Federal Fugitives, Statistics.

151. (Referral cases received from CSC under Pub. L. 298). Agency for International Development; Department of Energy (Civil Service Commission); National Aeronautics and Space Administration; National Science Foundation; Peace Corps; Action; U.S. Arms Control and Disarmament Agency; World Health Organization; International Labor Organization; U.S. Information Agency. This classification covers referrals from the Civil Service Commission where an allegation has been received regarding an applicant's loyalty to the U.S. Government. These referrals refer to applicants from Peace Corps, Department of Energy, National Aeronautics and Space Administration, Nuclear Regulatory Commission, United States Arms Control and Disarmament Agency and the United States Information Agency.

152. Switchblade Knife Act. Title 15, United States Code, Sections 1241 through 1244.

153. Automobile Information Disclosure Act. Title 15, United States Code, Sections 1231, 1232 and 1233.

154. Interstate Transportation of Unsafe Refrigerators. Title 15, United States Code, Sections 1211 through 1214.

155. National Aeronautics and Space Act of 1958. Title 18, United States Code, Section 799.

156. Welfare and Pension Plans Disclosure Act. Title 29, United States Code, Sections 1021-1029, 1111, 1131, and 1141; Title 18, United States Code, Sections 644, 1027, and 1954.

157. Extremist Matters; Civil Unrest. This classification concerns FBI responsibility for reporting information on civil disturbances or demonstrations. The FBI's investigative responsibility is based on the Attorney General's Guidelines for Reporting on Civil Disorders and Demonstrations Involving a Federal Interest which became effective April 5, 1976.

158. Labor-Management Reporting and Disclosure Act of 1959 (Security Matter) (obsolete). Pub. L. 86-257, Section 504.

159. Labor-Management Reporting and Disclosure Act of 1959 (Investigative Matter). Title 29, United States Code, Sections 501, 503, 504, 522, and 530.

160. Federal Train Wreck Statute. Title 18, United States Code, Section 1992.

161. Special Inquiries for White House, Congressional Committee and Other Government Agencies. This classification covers investigations requested by the White House, Congressional committees or other Government agencies.

162. Interstate Gambling Activities. This classification covers information acquired concerning the nature and scope of illegal gambling activities in each field office.

163. Foreign Police Cooperation. This classification covers requests by foreign police for the FBI to render investigative assistance to such agencies.

164. Crime Aboard Aircraft. Title 49, United States Code, Sections 1472 and 1473.

165. Interstate Transmission of Wagering Information. Title 18, United States Code, Section 1084.

166. Interstate Transportation in Aid of Racketeering. Title 18, United States Code, Section 1952.

167. Destruction of Interstate Property. Title 15, United States Code, Sections 1281 and 1282.

168. Interstate Transportation of Wagering Paraphernalia. Title 18, United States Code, Section 1953.

169. Hydraulic Brake Fluid Act (obsolete); 76 Stat. 437, Pub. L. 87-637.

170. Extremist Informants (obsolete). This classification concerns individuals who provided information on a continuing basis on various extremist elements.

171. Motor Vehicle Seat Belt Act (obsolete). Pub. L. 88-201, 80th Congress.

172. Sports Bribery. Title 18, United States Code, Section 224.

173. Public Accommodations, Civil Rights Act of 1964 Public Facilities, Civil Rights Act of 1964 Public Education, Civil Rights Act of 1964 Employment, Civil Rights Act of 1964. Title 42, United States Code, Section 2000; Title 18, United States Code, Section 245.

174. Explosives and Incendiary Devices; Bomb Threats (Formerly, Bombing Matters; Bombing Matters, Threats). Title 18, United States Code, Section 844

175. Assaulting the President (or Vice President) of the United States. Title 18, United States Code, Section 1751.

176. Anti-riot Laws. Title 18, United States Code, Section 245.

177. Discrimination in Housing. Title 42, United States Code, Sections 3601-3619 and 3631.

178. Interstate Obscene or Harassing Telephone Calls. Title 47, United States Code, Section 223.

179. Extortionate Credit Transactions. Title 18, United States Code, Sections 891-896.

180. Desecration of the Flag. Title 18, United States Code, Section 700.

181. Consumer Credit Protection Act. Title 15, United States Code, Section 1611.

182. Illegal Gambling Business; Illegal Gambling Business, Obstruction; Illegal Gambling Business; Forfeiture. Title 18, United States Code, Section 1955; Title 18, United States Code, Section 1511.

183. Racketeer, Influence and Corrupt Organizations. Title 18, United States Code, Sections 1961-1968.

184. Police Killings. This classification concerns investigations conducted by the FBI upon written request from local Chief of Police or duly constituted head of the local agency to actively participate in the investigation of the killing of a police officer. These investigations are based on a Presidential Directive dated June 3, 1971.

185. Protection of Foreign Officials and Officials Guests of the United States. Title 18, United States Code, Sections 112, 970, 1116, 1117 and 1201.

186. Real Estate Settlement Procedures Act of 1974. Title 12, United States Code, Section 2602; Title 12, United States Code, Section 2606; and Title 12, United States Code, Section 2607.

187. Privacy Act of 1974, Criminal. Title 5, United States Code, Section 552a.

188. Crime Resistance. This classification covers FBI efforts to develop new or improved approaches, techniques, systems, equipment and devices to improve and strengthen law enforcement as mandated by the Omnibus Crime Control and Safe Streets Act of 1968.

189. Equal Credit Opportunity Act. Title 15, United States Code, Section 1691.

190. Freedom of Information/Privacy Acts. This classification covers the creation of a correspondence file to preserve and maintain accurate records concerning the handling of a requests for records submitted pursuant to the Freedom of Information—Privacy Acts.

191. False Identify Matters. This classification covers the FBI's study and examination of criminal elements efforts to create false identities.

192. Hobbs Act—Financial Institutions. Title 18, United States Code, Section 1951.

193. Hobbs Act—Commercial Institutions. Title 18, United States Code, Section 1951; and Title 47, United States Code, Section 506.

194. Hobbs Act—Corruption of Public Officials. Title 18, United States Code, Section 1951.

195. Hobbs Act—Labor Related. Title 18, United States Code, Section 1951.

196. Fraud by Wire. Title 18, United States Code, Section 1343.

197. Civil Actions or Claims Against the Government. This classification covers all civil suits involving FBI matters and most administrative claims filed under the Federal Tort Claims Act arising from FBI activities.

198. Crime on Indian Reservations. Title 18, United States Code, Sections 1151, 1152, and 1153.

199. Foreign Counterintelligence—Terrorism. Attorney General Guidelines on Foreign Counterintelligence. Executive Order 11905.

200. Foreign Counterintelligence Matters. Attorney General Guidelines on Foreign Counterintelligence. Executive Order 11905.

201. Foreign Counterintelligence Matters. Attorney General Guidelines on Foreign Counterintelligence. Executive Order 11905.

202. Foreign Counterintelligence Matters. Attorney General Guidelines on Foreign Counterintelligence. Executive Order 11905.

203. Foreign Counterintelligence Matters. Attorney General Guidelines on Foreign Counterintelligence. Executive Order 11905.

204. Federal Revenue Sharing. This classification covers FBI investigations conducted where the Attorney General has been authorized to bring civil action whenever he has reason to believe that a pattern or practice of discrimination in disbursement of funds under the Federal Revenue Sharing statute exists.

Files kept in FBI Field Offices—Field offices maintain certain records that are not contained at FBI Headquarters that include files, index cards, and related material pertaining to cases in which there was no prosecutive action undertaken; perpetrators of violations not developed during investigation; or investigation revealed allegations were unsubstantiated or not within the investigative jurisdiction of the Bureau. These investigations were closed in field offices and correspondence not forwarded to FBI headquarters.

Duplicate records and records which extract information reported in the main files are also kept in the various divisions of the FBI to assist them in thier day-to-day operation. These records are lists of individuals which contain certain biographic data, including physical description and photograph. They may also contain information concerning activities of the individual as reported to FBIHQ by the various field offices. The establishment of these lists is necessitated by the needs of the Divisions to have immediate access to pertinent information duplicative of data found in the Central Records without the delay caused by a time-consuming manual search of central indices. The manner of segregating these individuals varies depending on the particular needs of the FBI Division. The information pertaining to individuals who are a part of the list is derivative of information contained in the Central Records System. These duplicative records fall into the following categories:

(1) Listings of individual used to assist in the location and apprehension of individuals for whom legal process is outstanding (fugitives);

(2) Listings of individuals used in the identification of particular offenders in cases where the FBI has jurisdiction. These listings include various photograph albums and background data concerning persons who have been formerly charged with a particular crime and who may be suspect in similar criminal activities; and photographs of individuals who are unknown but suspected of involvement in a particular criminal activity, for example, bank surveillance photographs;

(3) Listings of individuals as part of an overall criminal intelligence effort by the FBI. This would include photograph albums, lists of individuals known to be involved in criminal activity, including theft from interstate shipment, interstate transportation of stolen property, and individuals in the upper echelon of organized crime;

(4) Listings of individuals in connection with the FBI's mandate to carry out Presidential directives on January 8, 1943, July 24, 1950, December 15, 1953, and February 18, 1976, which designated the FBI to carry out investigative work in matters relating to espionage, sabotage, and foreign counterintelligence. These listings may include photograph albums and other listings containing biographic data regarding individuals. This would include lists of identified and suspected foreign intelligence agents and informants;

(5) Special indices duplicative of the central indices used to access the Central Records System have been created from time to time in conjunction with the administration and investigation of major cases. This duplication and segregation facilitate access to documents prepared in connection with major cases.

Some of the information contained in the main files has also been extracted and placed in computer to enable various divisions to retrieve information more rapidly by avoiding the need for a manual search for information maintained in the main files. For example, since investigation of major frauds requires the Agent to collect and organize massive volumes of evidence and other investigative information, the FBI is using computers to do this in a more accurate and expeditious manner. Additionally, Agents occasionally seize evidence in computerized form and FBI computers are used to organize and sort the information in preparation for trial.

Also, personnel type information dealing with such matters as attendance and production and accuracy requirements is maintained by some divisions.

(The following chart identifies various listings or indexes maintained by the FBI which have been or are being used by various divisions of the FBI in their day-to-day operations. The chart identifies the list by name, description, and use, and where maintained, i.e., FBI Headquarters and/or Field Office. The number in parenthesis in the field office column indicates the number of field offices which maintain these. The chart indicates, under "status of index," those indexes which are in current use (designated by the word "active") and those which are no longer being used, although maintained (designated by the word "inactive"). There are 24 separate indices which are classified in accordance with existing regulations and are not included in this chart. The following indices are no longer being used by the FBI and are being maintained at FBIHQ pending receipt of authority to destroy: Black Extremist Photo Index; Black Panther Party Photo Index; Black United Front Index; Communist Party Photo Album (National); Communist Party Photo Album (Regional); Fugitive Alert File; Pimp Photo Album; Reserve Index; Security Index; Security Photo Album; Top Hoodlum Album; Top Jewel Thief Index; and Wounded Knee Album.

V 43/189 SE 28 78

Title of Index	Description and use	Status of Index	Maintained at— Headquarters	Field Office
Administrative Index (ADEX)	Consists of cards with descriptive data on individuals who were subject to investigation in a national emergency because they believed to constitute a potential or actual threat to the internal security of the United States. When ADEX was started in 1971, it was made up of people who were formerly on the Security Index, Reserve Index, and Agitator Index. The index is maintained in two separate locations in FBI Headquarters. ADEX was discontinued in January 1976. The computer section of the FBI has in storage on computer tape all the individuals who were on ADEX when it was discontinued.	Inactive	Yes	Yes (29)
Associates of DEA Class I Narcotics Violators Listing.	Consists of a computer listing of individuals whom DEA has identified as associates of Class I Narcotics Violators.	Active	Yes	Yes (59)
Background Investigation Index—Department of Justice.	Consists of cards on persons who have been the subject of a full field investigation in connection with their consideration for employment in sensitive positions with Department of Justice, such as U.S. Attorney, Federal judge, or a high level Departmental position.	Active	Yes	No
Background Investigation Index—White House, Other Executive Agencies, and Congress.	Consists of cards on persons who have been the subject of a full field investigation in connection with their consideration for employment in sensitive positions with the White House, Executive agencies (other than the Department of Justice) and the Congress.	Active	Yes	No
Bank Fraud and Embezzlement Index	Consists of individuals who have been the subject of "Bank Fraud and Embezzlement" investigation. This file is used as an investigative aid.	Active	No	Yes (1)
Bank Robbery Album	Consists of photos of bank robbers, burglarers, and larceny subjects. In some field offices it will also contain pictures obtained from local police departments of known armed robbers and thus potential bank robbers. This index is used to develop investigative leads in bank robbery cases and may also be used to show to witnesses of bank robberies. It is usually filed by race, height, and age. This index is also maintained in one resident agency (a suboffice of a field office).	Active	No	Yes (47)
Bank Robbery Nickname Index	Consists of nicknames used by known bank robbers. The index card on each would contain the real name and method of operation and are filed in alphabetical order.	Active	No	Yes (1)
Bank Robbery Note File	Consists of photographs of notes used in bank robberies in which the suspect has been identified. This index is used to help solve robberies in which the suspect has not been identified but a note was left. The note is compared with the index to try to match the sentence structure and handwriting for the purpose of identifying possible suspects.	Active	Yes	No
Bank Robbery Suspect Index	Consists of a control file or index cards with photos, if available, or bank robbers of burglars. In some field offices these people may be part of the bank robbery album. This index is generally maintained and used in the same manner as the bank robbery album.	Active	No	Yes (33)
Bombing Suspect, Explosives and Incendiary Devices File.	Consists of cards in most cases on people who have the propensity for violence and the potential for using explosives or incendiary devices. It is used in investigating unknown subject bombing cases.	Active	No	Yes (27)
Car Ring Case Photo Album	Consists of photos of subject and suspects involved in a large car theft ring investigation. It is used as an investigative aid.	Active	No	Yes (3)
Car Ring Case Photo Album and Index.	Consists of photos of subjects and suspects involved in a large car theft ring investigation. The card index maintained in addition to the photo album contains the names and addresses appearing on fraudulent title histories for stolen vehicles. Most of these names appearing on these titles are fictitious. Both the photo album and card indexes are used as an investigative aid.	Active	No	Yes (1)
Car Ring Case Toll Call Index	Consists of cards with information on persons who subscribe to telephone numbers to which toll calls have been placed by the major subjects of a large car theft ring investigation. It is maintained numerically by telephone number. It is used to facilitate the development of probable cause for a court-approved wiretap.	Active	No	Yes (2)
Car Ring Theft Working Index	Contains cards on individuals involved in car ring theft cases on which the FBI laboratory is doing examination work.	Active	Yes	No
Cartage Album	Consists of photos with descriptive data of individuals who have been convicted of theft from interstate shipment or interstate transportation of stolen property where there is a reason to believe they may repeat the offense. It is used in investigating the above violations.	Active	No	Yes (3)
Channelizing Index	Consists of cards with the names and case file numbers of people who are frequently mentioned in informant reports. The index is used to facilitate the distributing or channeling of informant reports to appropriate files.	Active	No	Yes (9)
Check Circular File	Consists of fliers filed numerically in a control file on fugitives who are notorious fraudulent check passers and who are engaged in a continuing operation of passing checks. The fliers which include the subject's name, photo, a summary of the subject's method of operation and other identifying data is used to alert other FBI field offices and business establishments which may be the victims of bad checks.	Active	Yes	Yes (43)
Classified Alphabetical Retrieval and Reference Index.	Contains cards on foreign nationals, U.S. citizens and hostile intelligence service targets identified by highly sensitive sources. It is used only for reference and retrieval purposes.	Active	Yes	No

Title of Index	Description and use	Status of Index	Maintained at— Headquarters	Field Office
Computerized Telephone Number File (CTNF) Intelligence.	Consists of a computer listing of telephone numbers (and subscriber's names and addresses) alleged to have been used by extremists and revolutionaries. These numbers were matched with other telepone numbers discovered during investigations to determine possible connections with known extremists and revolutionaries. This information was gathered from telephone company toll records. The index was developed to facilitate FBI efforts to locate persons it classified as extremists and revolutionary. The FBI discontinued using this computerized information in February 1975 but the computer tapes of the following individuals and organizations are in storage: (1) Al Fatah (an Arab terrorist group), (2) Weatherman, (3) New Left, and (4) Black and other ethnic extremists.	Inactive	Yes	No
Computerized Telephone File (CTNF) Organized Crime and Gambling.	Consists of computerized listing of telephone numbers (and subscriber's name and address) utilized by organized crime and gambling figures. These numbers are matched with telephone numbers obtained through subpena in subsequent investigations, usually to determine possible connections with organized crime and gambling figures. Subscriber's name and address to telephone numbers of telephones used by known organized crime and gambling figures are retrievable through this index.	Active	Yes	Yes (27)
Confidence Game (Flim Flam) Album	Consists of photos with descriptive information on individuals who have been arrested for confidence games and related activities. It is used as an investigative aid.	Active	No	Yes (4)
Copyright Matters Index	Consists of cards of individuals who are film collectors and film titles. It is used as a reference in the investigation of copyright matters.	Active	No	Yes (1)
Criminal Intelligence Index	Consists of cards with name and file number of individuals who have become the subject of an antiracketeering investigation. The index is used as a quick way to ascertain file numbers and the correct spelling of names. This index is also maintained in one resident agency.	Active	No	Yes (2)
Criminal Informant Index	Consists of cards containing identity and brief background information on all active and inactive informants furnishing information in the criminal area.	Active	Yes	No
DEA Class I Narcotics Violators Listing.	Consists of a computer listing of narcotic violators—persons known to manufacture, supply, or distribute large quantities of illicit drugs—with background data. It is used by the FBI in their role of assisting DEA in disseminating intelligence data concerning illicit drug trafficking. This index is also maintained in two resident agencies.	Active	Yes	Yes (59)
Deserter Index	Contains cards with the names of individuals who are known military deserters. It is used as an investigative aid.	Active	No	Yes (4)
Evidence Control Index	Consists of cards maintained by the FBI laboratory containing the names of suspects victims, etc., in matters which are currently under examination or have undergone examination within the last 3 years. The index is used to facilitate the efficient management of evidence examinations.	Active	Yes	No
Extremist Informant Index	Consists of cards with identity and background data on all inactive extremist informants. It was used as a reference to aid in the supervision of the informant program. This index has discontinued in November 1976.	Inactive	Yes	No
Extremist Photo Album	Consists of photos mounted on pages containing descriptions of known extremist fugitives and informants. All persons in the Key Extremist program were included in this album. Used for ready reference and fugitive identification. This photo album was discontinued in January 1977.	Inactive	Yes	Yes (20)
False Identities Index	Contains cards with the names of deceased individuals whose birth certificates have been obtained by other persons for possible false identification uses and in connection with which the FBI laboratory has been requested to perform examinations.	Active	Yes	No
False Identities Program List	Consists of a listing of names of deceased individuals whose birth certificates have been obtained after the person's death, and thus whose names are possibly being used for false identification purposes. The listing is maintained as part of the FBI's program to find persons using false identities for illegal purposes.	Active	No	Yes (31)
False Identity Photo Album	Consists of names and photos of people who have been positively identified as using a false identification. This is used as an investigative aid in the FBI's investigation of false identities.	Active	No	Yes (2)
FBI Wanted Persons Index	Consists of cards on persons being sought on the basis of Federal warrants covering violations which fall under the jurisdiction of the FBI. It is used as a ready reference to identify those fugitives.	Active	Yes	No
Foreign Counterintelligence (FCI) Asset Index.	Consists of cards with identity background data on all active and inactive operational and informational assets in the foreign counterintelligence field. It is used as a reference aid of the FCI Asset program.	Active	Yes	No
Fraud Against the Government Index	Consists of individuals who have been the subject of a "fraud against the Government" investigation. It is used as an investigative aid.	Active	No	Yes (1)
Fugitive Bank Robbers File	Consists of fliers on bank robbery fugitives filed sequentially in a control file. FBI Headquarters distributes to the field offices fliers on bank robbers in a fugitive status for 15 or more days to facilitate their location.	Active	Yes	Yes (43)
Fuerzas Amados De Libercion National (FALN) Index.	Consists of cards on people interviewed in connection with or suspected of belonging to this Puerto Rican nationalist terorist group which has claimed responsibility for numerous bombings. It is used to investigate bombings.	Active	No	Yes (3)
Gambling Case Listing	Consists of a listing of persons under investigation for gambling on which the FBI laboratory has provided assistance since 1969.	Active	Yes	No

Title of Index	Description and use	Status of Index	Maintained at— Headquarters	Field Office
General Security Index	Contains cards on all persons that have been the subject of a security classification investigation by the FBI field office. These cards are used for general reference purposes.	Active	No	Yes (1)
Hoodlum License Plate Index	Consists of cards with the license plates numbers and descriptive data on known hoodlums and cars observed in the vicinity of hoodlum homes. It is used for quick identification of such persons in the course of investigation. The one index which is not fully retrievable is maintained by a resident agency.	Active	No	Yes (3)
Identification Order Fugitive Flyer File.	Consists of fliers filed numerically in a control file. When immediate leads have been exhausted in fugitive investigations and a crime of considerable public interest has been committed, the fliers are given wide circulation among law enforcement agencies throughout the United States and are posted in post offices. The fliers contain the fugitive's photograph, fingerprints, and description.	Active	Yes	Yes (49)
Informant Index	Consists of cards with the name, symbol numbers, and brief background information on the following categories of active and inactive informants: top echelon criminal informants, security informants, criminal informants, operational and informational assets, extremist informants (discontinued), plant informant—informants on and about certain military bases (discontinued), and potential criminal informants.	Active	No	Yes (59)
Informants in Other Field Offices, Index of.	Consists of cards with names and/or symbol numbers of informants in other FBI field offices that are in a position to furnish information that may be of value to other field offices. Basic background information would also be included on the index card.	Active	No	Yes (15)
Interstate Transportation of Stolen Aircraft Photo Album.	Consists of photos and descriptive data on individuals who are suspects known to have been involved in interstate transportation of stolen aircraft. It is used as an investigative aid.	Active	No	Yes (1)
IRS Wanted List	Consists of one-page fliers from IRS on individuals with background information who are wanted by IRS for tax purposes. It is used in the identification of persons wanted by IRS.	Active	No	Yes (11)
Jewish Defense League (JDL) Photo Album.	Consists of photos and basic data on JDL members. It is maintained as an investigative aid.	Active	No	Yes (1)
Key Activist Program Photo Album	Consists of photos mounted on pages containing descriptive data on selected individuals advocating civil disobedience and other unlawful and disruptive acts. It was used to intensify the investigative effort on those persons. This index was discontinued in February 1975.	Inactive	Yes	Yes (47)
Key Extremist Program Listing	Contains a listing of selected individuals who were under investigation for extremist activities and on whom investigation was to be intensified. Individuals included those who traveled extensively and called for civil disobedience and unlawful or disruptive acts. It was used to intensify the investigative effort on those persons. This index was discontinued in February 1975.	Inactive	Yes	No
Kidnapping Book	Consists of data, filed chronologically, on kidnappings that have occurred since the early fifties. The victims' names and the suspects, if known, would be listed with a brief description of the circumstances surrounding the kidnapping. The file is used as a reference aid in matching up prior methods of operation in unsolved kidnapping cases.	Active	Yes	No
Klan Membership Index	Consists of cards of members of the United Klans of America, Inc. It is used to readily identify Klan members. One field office has destroyed its Klan index subsequent to our review.	Active	No	Yes (3)
Known Check Passers Album	Consists of photos with descriptive data of persons known to pass stolen, forged, or counterfeit checks. It is used as an investigative aid.	Active	No	Yes (4)
Known Gambler Index	Consists of cards with names, descriptive data, and sometimes photos of individuals who are known bookmakers and gamblers. The index is used in organized crime and gambling investigations. Subsequent to GAO's review, and at the recommendation of the inspection team at one of the two field offices where the index was not fully retrievable, the index was destroyed and thus is not included in the total.	Active	No	Yes (5)
La Cosa Nostra (LCN) Membership Index.	Contains cards on individuals having been identified as members of the LCN index. The cards contain personal data and pictures. The index is used solely by FBI agents for assistance in investigating organized crime matters.	Active	Yes	Yes (55)
Leased Line Letter Request Index	Contains cards on individuals and organizations who are or have been the subject of a national security electronic surveillance where a leased line letter was necessary. It is used as an administrative and statistical aid.	Active	Yes	No
Mail Cover Index	Consists of cards containing a record of all mail covers conducted on individuals and groups since about January 1973. It was used for reference in preparing mail cover requests. This index was discontinued in 1975.	Inactive	Yes	No
Military Deserter Index	Consists of cards containing the names of all military deserters where the various military branches have requested FBI assistance in locating. It is used as an administrative aid.	Active	Yes	No
National Bank Robbery Album	Consists of fliers on bank robbery suspects filed sequentially in a control file. When an identifiable bank camera photograph is available and the case has been under investigation for 30 days without identifying the subject, FBIHQ sends a flier to the field offices to help identify the subject.	Active	Yes	Yes (42)

Title of Index	Description and use	Status of Index	Maintained at— Headquarters	Field Office
National Fraudulent Check File	Contains photographs of the signatures on stolen and counterfeit checks. It is filed alphabetically but there is no way of knowing if the names are real or fictitious. The index is used to help solve stolen check cases by matching checks obtained in such cases against the index to identify a possible suspect.	Active	Yes	No
National Security Electronic Surveillance Card File (Institutions).	Contains cards on individuals and organizations on whom a National Security Electronic Surveillance has been instituted. It is used as an administrative and statistical aid.	Active	Yes	No
National Security Electronic Surveillance Card File (Requests).	Contains cards on individuals and organizations on whom a National Security Electronic Surveillance has been requested. It is used as an administrative and statistical aid.	Active	Yes	No
National Security Index	Consists of cards containing the writing, printing, typewriting, and foreign language writing usually of people known to be involved in revolutionary activities. This index is used to try to associate unsolved matters such as comparing a note left in a bombing, back to the file to identify a possible suspect.	Active	Yes	No
Night Depository Trap Index	Contains cards with the names of persons who have been involved in the theft of deposits made in bank night depository boxes. Since these thefts have involved various methods, the FBI uses the index to solve such cases by matching up similar methods to identify possible suspects.	Active	Yes	No
Organized Crime Photo Album	Consists of photos and background information on individuals involved in organized crime activities. The index is used as a ready reference in identifying organized crime figures within the field offices' jurisdiction.	Active	No	Yes (13)
Photospread Identification Elimination File.	Consists of photos of individuals who have been subjects and suspects in FBI investigations. It also includes photos received from other law enforcement agencies. These pictures can be used to show witnesses of certain crimes.	Active	No	Yes (14)
Prostitute Photo Album	Consists of photos with background data on prostitutes who have prior local or Federal arrests for prostitution. It is used to identify prostitutes in connection with investigations under the White Slave Traffic Act.	Active	No	Yes (4)
Puerto Rican Socialist Part (PSP) Album.	Consists of photos of members in a leadership of influential position who are known to travel on PSP business. It is maintained as a ready reference to assist in the coverage of the travel of these individuals.	Active	No	Yes (1)
Real Estate Listings Computer Printout.	Consists of a computer printout maintained by name of (a particular city's) real estate listings in Multiple Listing Service for 1974-1975. It was used in connection with an investigation.	Inactive	No	Yes, Springfield, Ill.
Revolutionary Communist Party (RCP) Photo Album.	Consists of photos mounted on pages containing descriptions of individuals who are leaders and activists in the RCP. The RCP, formerly the Revolutionary Union, has been identified by the FBI to be a Marxist-Lenisist-Maoist revolutionary organization which calls for a violent revolution in the United States. This index is used as an investigative aid..	Active	Yes	Yes (23)
Revolutionary Union Photo Album (RU).	See description and use for RCP Album. This album was discontinued after the RU changed its name and an updated photo album was created titled (RCP).	Inactive	Yes	Yes (4)
Royal Canadian Mounted Policie (RCMP) Wanted Circular File.	Consists of a control file of individuals with background information of persons wanted by the RCMP. It is used to notify the RCMP if an individual is located.	Active	No	Yes (17)
Seattle Liberation Front (SLF) Photo Album.	Consists of photos with background information on extremists who are fugitives, informants who travel in behalf of the group, members and sympathizers of the SLF. It is used for ready identification of individuals involved.	Active	No	Yes (1)
Security of Government Employees Index.	Contains cards on persons whom the FBI, for security or loyalty purposes, has investigated under Executive Orders 9835 and 10450. The index is used to facilitate the location of the subject's file.	Active	Yes	No
Security Informant Index	Consists of cards containing identity and brief background information on all active and inactive informants furnishing information in the criminal area.	Active	Yes	No
Security Subjects Control Index	Consists of cards containing the names and case file numbers of individuals who have been subject to security investigations check. It is used as a reference source.	Active	No	Yes (1)
Security telephone Number Index	Contains cards with telephone subscriber information subpenaed from the telephone company in any security investigation. It is maintained numberically by the last three digits in the telephone number. It is used for general reference purposes in security investigations.	Active	No	Yes (1)
Selective Service Violators Index	Contains cards on individuals being sought on the basis of Federal warrants for violation of the Selective Service Act.	Active	Yes	No
Skyjack Fugitive Album	Contains photographs with descriptive data of fugitives wanted for skyjacking. It is used as a reference aid in cases where the fugitive may reenter the United States.	Active	Yes	Yes (5)
Sources of Information Index	Consists of cards on individuals and organizations such as banks, motels, local governments that are willing to furnish information to the FBI with sufficient frequency to justify listing for the benefit of all agents. It is maintained to facilitate the use of such sources.	Active	No	Yes (10)
Special Services Index	Contains cards of prominent individuals who are in a position to furnish assistance in connection with FBI investigative responsibilities.	Active	No	Yes (28)
Stolen Checks and Fraud by Wire Index.	Consists of cards on individuals involved in check and fraud by wire violations. It is used as an investigative aid.	Active	No	Yes (1)

V 4 3 / 1 8 9 SE 28 78

V 4 3 / 1 8 9 SEP 28 78

Title of Index	Description and use	Status of Index	Maintained at— Headquarters	Field Office
Stop Notices Index	Consists of cards on names of subjects or property where the field office has placed a stop at another law enforcement agency or private business such as pawn shops in the event information comes to the attention of that agency concerning the subject or property. This is filed numerically by investigative classification. It is used to insure that the agency where the stop is placed is notified when the subject is apprehended or the property is located or recovered.	Active	No	Yes (43)
Surveillance Locator Index	Consists of cards with basic data on individuals and businesses which have come under physical surveillance in the city in which the field office is located. It is used for general reference purposes in antiracketeering investigations.	Inactive	Yes	Yes (2)
Symbionese Liberation Army (SLA) Index.	Contains cards with mixed subject entries such as individuals, weapons, vehicles, etc., thought to have a connection with the SLA. It was used to tabulate and retrieve data relating to SLA activities.	Inactive	Yes	Yes (2)
Telephone Number Index—Gamblers.	Contains information on persons identified usually as a result of a subpena for the names of subscribers to particular telephone numbers or toll records for a particular phone number of area gamblers and bookmakers. The index cards are filed by the last three digits of the telephone number. The index is used in gambling investigations.	Active	No	Yes (2)
Telephone Subscriber and Toll Record Check Index.	Contains cards with information on person identified as the result of a formal request or subpena to the phone company for the identity of subscribers to particular telephone numbers. The index cards are filed by telephone number and would also include identity of the subscriber, billing parties identity, subscribers address, date of request from the telephone company, and file number.	Active	No	Yes (1)
Thieves, Couriers, and Fences Photo Index.	Consists of photos and background information on individuals who are or are suspected of being thieves, couriers, or fences based on their past activity in the area of interstate transportation of stolen property. It is used as an investigative aid.	Active	No	Yes (4)
Toll Record Request Index	Contains cards on individuals and organizations on whom toll records have been obtained in national security related cases and with respect to which FBIHQ had to prepare a request letter. It is used primarily to facilitate the handling of repeat requests on individuals listed.	Active	Yes	No
Top Burglar Album	Consists of photos and background data of known and suspect top burglars involved in the area of interstate transportation of stolen property. It is used as an investigative aid.	Active	No	Yes (4)
Top Echelon Criminal Informant Program (TECIP) Index.	Consists of cards containing identity and brief background information on individuals who are either furnishing high level information in the organized crime area or are under development to furnish such information. The index is used primarily to evaluate, corroborate, and coordinate informant information and to develop prosecutive data against racket figures under Federal, State, and local statutes.	Active	Yes	No
Top Ten Program File	Consists of fliers, filed numerically in a control file, on fugitives considered by the FBI to be 1 of the 10 most wanted. Including a fugitive on the top 10 usually assures a greater national news coverage as well as nationwide circularization of the flier.	Active	Yes	Yes (44)
Top Thief Program Index	Consists of cards of individuals who are professional burglars, robbers, or fences dealing in items likely to be passed in interstate commerce or who travel interstate to commit the crime. Usually photographs and background information would also be obtained on the index card. The index is used as an investigative aid.	Active	No	Yes (27)
Truck Hijack Photo Album	Contains photos and descriptive data of individuals who are suspected truck hijackers. It is used as an investigative aid and for displaying photos to witnesses and/or victims to identify unknown subjects in hijacking cases.	Active	No	Yes (4)
Truck Thief Suspect Photo Album	Consists of photos and background data on individuals previously arrested or are currently suspects regarding vehicle theft. The index is used as an investigative aid.	Active	No	Yes (1)
Traveling Criminal Photo Album	Consists of photos with identifying data of individuals convicted of various criminal offenses and may be suspects in other offenses. It is used as an investigative aid.	Active	No	Yes (1)
Veterans Administration (VA)/Federal Housing Administrative Matters (FHA) Index.	Consists of cards of individuals who have been subject of an investigation relative to VA and FHA matters. It is used as an investigative aid.	Active	No	Yes (1)
Wanted Fliers File	Consists of fliers, filed numerically in a control file, on badly wanted fugitives whose apprehension may be facilitated by a flier. The flier contains the names, photograph, aliases, previous convictions, and a caution notice.	Active	Yes	Yes (46)
Weatherman Fugitive Lead Index	Consists of cards of individuals contacted in connection with attempts to apprehend Weatherman fugitives.	Active	No	Yes (1)
Weatherman Photo Album	Consists of photos and descriptions of individuals associated with "Weatherman" activities for use as a reference aid in "Weatherman" investigations.	Active	Yes	Yes (51)
Wheeldex	Contains the nicknames and case file numbers of organized crime members. It is used in organized crime investigations.	Active	No	Yes (1)
White-Collar Crime Index—SBA Loans.	Consists of a computer printout of individuals who received an SBA loan in one county because of a flood in 1973. This was used to help determine which loan to investigate for possible fraud.	Inactive	No	Yes, Springfield, Ill.
White House Special Index	Contains cards on all potential White House appointees, staff members, guests, and visitors that have been referred to the FBI by the White House security office for a records check to identify any adverse or derogatory information. This index is used to expedite such checks in view of the tight time frame usually required.	Active	Yes	No
Witness Protection Program Index	Contains cards on individuals who have been furnished a new identity by the U.S. Justice Department because of their testimony in organized crime trials. It is used primarily to notify the U.S. Marshal's Service when information related to the safety of a protected witness comes to the FBI's attention.	Active	Yes	Yes (39)

Authority for maintenance of the system: Federal Records Act of 1950, the Constitution of the United States, various provisions of U.S. Code, Executive Orders and Presidential directives.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The records contained in this system are utilized by the FBI in support of its mission to conduct investigations within its jurisdiction and for various administrative purposes. Information from these files is disseminated to appropriate Federal, State, local, and foreign agencies where the right and need to have access to this information exists—For example, to assist in the general crime prevention and detection efforts of the recipient agency. Information is also disseminated to these agencies and to individuals and organizations, where such dissemination is necessary to elicit information from such agencies and individuals. Information from this system is also disseminated during appropriate legal proceedings. For example, witness interviews are made available to defendants pursuant to the Jencks Act during Federal criminal trails. In the event that a system of records maintained by this agency to carry out its functions indicated a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, State, local, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto. A record from this system of records may be disclosed as a "routine use" to a Federal, State or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit. A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license grant or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter. For example, in discharging its obligations under Executive Order 10450, this agency would disseminate record information as a direct result of a name check request submitted by another government agency. A record relating to an actual or potential civil or criminal violation of title 17, United States Code, may be disseminated to a person injured by such violation to assist him/her in the institution or maintenance of a suit brought under such title. Background and descriptive information on Federal fugitives is disseminated to the general public and the news media in an effort to bring about the apprehension of these wanted individuals. News releases are also disseminated to the public and the news media concerning apprehensions of FBI fugitives and other notable accomplishments. Additionally, public source information is distributed on a continuing basis, upon request, to the general public and representatives of the media. Upon specific approval of the Director, information may be disseminated from this system to individuals in the private sector in extenuating circumstances in order to protect life or property. Information which relates to foreign counter-intelligence matters may be disseminated to individuals in the private sector with the specific authority of the Attorney General where he deems it necessary in order for the Federal Bureau of Investigation (FBI) to fulfill its statutory responsibilities to investigate espionage in the United States. The FBI has received inquiries from private citizens and Congressional offices in behalf of constituents seeking assistance in locating such individuals as missing children or heirs to estates. Where the need is acute and where it appears FBI files may be the only lead in locating the individual, consideration will be given to furnishing relevant information to the inquiring individual. Information will be provided only in those instances where it can be determined from the information at hand that the individual being sought would want the information to be furnished, e.g. an heir to a large estate. Information with regard to missing children will not be provided where they have reached their majority. The decision to make any dissemination under these circumstances can be made only by the Director, and this authority cannot be delegated.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Files are maintained in hardcopy form, computer tape, and microfilm.

Retrievability: The FBI General Index must be searched to determine what information, if any, the FBI may have in its files. The index cards are on all manner of subject matters, but primarily a name index of individuals. It should be noted the FBI does not index all individuals that furnish information or names developed in an investigation. Only that information that is considered pertinent and relevant and essential for future retrieval, is indexed. In certain major cases most persons contacted are indexed in order to facilitate the proper administrative handling of a large volume of material. The FBI is in the process of automating its "Central Records System" and, therefore, the retrieval of certain data will be accomplished by utilizing certain computer peripheral equipment such as CRT (Cathode Ray Tube) video screens, and printers. This will basically involve certain personnel information, general index information, and the abstracting system. Automation in no way changes the "Central Records System"; it only facilitates access more effectively and efficiently.

Safeguards: Records are maintained in a restricted area and are accessed only by FBI employees. All FBI employees receive a complete background investigation prior to being hired. All employees are cautioned about divulging confidential information or any information contained in FBI files. Failure to abide by this provision violates Department of Justice regulations and may violate certain statutes providing maximum severe penalties of a ten thouand-dollar fine or 10 years' imprisonment or both. Employees that resign or retire are also cautioned about divulging information acquired in the job.

Retention and disposal: The Bureau, by its investigative mandate, collects and maintains information from a wide variety of sources. The records support the Bureau's investigative and administrative needs and its obligation to act as a clearinghouse under Executive Order 10450 regarding the security of Government employees. An active destruction program includes microfilming of certain files over 10 years old and researching files, to determine whether they contain sufficient historical, research, investigative, or intelligence value to warrant their retention. The Code of Federal Regulations, Title 41, and Title 44 of the U.S. Code set forth Records Management procedures to be followed by government agencies in relation to their records. All agencies are required to retain any material made or received during the course of public business which has been preserved or is appropriate for preservation. Accordingly, disposition of records material must be in accordance with established regulations. Subsequent destruction is accomplished through authority granted by National Archives and Records Service, GSA, utilizing either the General Records Schedules or a specific request for record destruction which is approved by the Archivist. Records are also destroyed or returned to source as a result of Court Order. Subsequent to January 27, 1975, a Congressional moratorium on all destruction, and a later decision rendered on further retention of security and intelligence material, has substantially reduced the tangible effects of the destruction program.

System manager(s) and address: Director; Federal Bureau of Investigation; Washington, D.C. 20535.

Notification procedure: Same as above.

Record access procedures: A request for access to a record from the system shall be made in writing with the envelope and the letter clearly marked "Privacy Access Request". Include in the request your full name, complete address, date of birth, place of birth, notarized signature, and other identifying data you may wish to furnish to assist in making a proper search of our records. Also include the general subject matter of the document or its file number. The requester will also provide a return address for transmitting the information. Access requests will be directed to the Director, Federal Bureau of Investigation, Washington, D.C. 20535.

Contesting record procedures: Individuals desiring to contest or amend information maintained in the system should also direct their

V 43/189 SE 28 78

request to the Director, Federal Bureau of Investigation, Washington, D.C. 20535, stating clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

Record source categories: The FBI, by the very nature and requirement to investigate violations of law within its investigative jurisdiction and its responsibility for the internal security of the United States, collects information from a wide variety of sources. Basically it is the result of investigative efforts and information furnished by other Government agencies, law enforcement agencies, and the general public, informants, witnesses, and public source material.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c) (3) and (4), (d), (e) (1), (2) and (3), (e) (4) (G) and (H), (e) (5) and (8), (f), (g) and (m) of the Privacy Act pursuant to 5 U.S.C. 552a (j) and (k). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

JUSTICE/FBI—009

System name: Identification Division Records System.

System location: Federal Bureau of Investigation: J. Edgar Hoover Bldg.; 10th and Pennsylvania Avenue, N.W.; Washington, D.C. 20535.

Categories of individuals covered by the system: A. Individuals fingerprinted as a result of arrest or incarceration by Federal, State or local law enforcement agencies.

B. Persons fingerprinted as a result of Federal employment applications, military service, alien registration and naturalization purposes and individuals desiring to have their fingerprints placed on record with the FBI for personal identification purposes.

Categories of records in the system: A. Criminal fingerprint cards and related criminal justice information submitted by authorized agencies having criminal justice responsibilities.

B. Civil fingerprint cards submitted by Federal agencies and civil fingerprint cards submitted by persons desiring to have their fingerprints placed on record for personal identification purposes.

C. Identification records sometimes referred to as 'rap sheets' which are compilations of criminal history information pertaining to individuals who have criminal fingerprint cards maintained in the system.

D. An alphabetical name index pertaining to each individual whose fingerprints are maintained in the system. The criminal records and the civil records are maintained in separate files and each file has an alphabetical name index related to the data contained therein.

Authority for maintenance of the system: The system is established, maintained and used under authority granted by 28 U.S.C. 534 and P.L. 92-544 (86 Stat. 1115). The authority is also codified in 28 C.F.R. 0.85 (b), and (j).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The FBI operates the Identification Division Records System to perform identification and criminal history record information functions for federal, state, local, and foreign criminal justice agencies, and for noncriminal justice agencies, and other entities where authorized by Federal statute, state statute pursuant to Public Law 92-544 (86 Stat. 1115), Presidential executive order, or regulation of the Attorney General of the United States. In addition, identification assistance is provided in disasters and for other humanitarian purposes. Dissemination is also conducted in accordance with Public Law 94-29, known as the Securities Acts Amendments of 1975.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 C.F.R. 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (MARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information in the system is stored manually in file cabinets either in its natural state or on microfilm. In addition, some of the information is stored electronically in converting the manual system to an automated system.

Retrievability: (1) All information in the system is retrievable by technical fingerprint classification index and positive identification is effected only by comparison of the unique characteristics obtained from fingerprint impressions submitted for search against the fingerprint cards maintained within the system.

(2) An auxiliary means of retrieval is through the alphabetical same indexes which contain names of the individuals, their birth date, other physical descriptors and the individuals' technical fingerprint classifications and FBI numbers, if such have been assigned.

(3) The name of an individual and his FBI number may assist in retrieval of information about that individual from within the system. Since July, 1971, all individuals whose fingerprints have been placed in the criminal file have been assigned unique FBI numbers. Prior to July, 1971, all individuals who had two or more fingerprint cards in the criminal file were assigned FBI numbers.

Safeguards: Information in the system is unclassified. Disclosure of information from within the system is made only to authorized recipients upon authentication and verification of the right to access the system by such persons and agencies. The physical security and maintenance of information within the system is provided by FBI rules, regulations and procedures.

Retention and disposal: (1) The Archivist of the United States has approved the destruction of records maintained in the criminal file when the records indicate individuals have reached 80 years of age and the destruction of records maintained in the civil file when the records indicate individuals have reached 75 years of age.

(2) Fingerprint cards and related arrest data in the system are destroyed seven years following notification of the death of an individual whose record is maintained within the system.

(3) Fingerprint cards submitted by state and local criminal justice agencies are returned upon requests of the submitting agencies. The return of a fingerprint card under this procedure results in the deletion from the system of all arrest information related to that fingerprint card.

(4) Fingerprint cards and related arrest data are removed from the Identification Division Records System upon receipt of Federal court orders for expunctions when accompanied by necessary identifying information. Recognizing lack of jurisdiction of local and state courts over an entity of the Federal Government, the Identification Division Records System, as a matter of comity, returns fingerprint cards and related arrest data to local and state criminal justice agencies upon receipt of orders of expunction directed to such agencies by local and state courts when accompanied by necessary identifying informations.

System manager(s) and address: Director, Federal Bureau of Investigation, 10th and Pennsylvania Avenue N.W., Washington, D.C. 20535.

Notification procedure: Address inquiries to the System Manager. The Attorney General has exempted the Identification Division Records System from compliance with subsection (d) of the Act.

Record access procedures: The Attorney General has exempted the Identification Division Records System from compliance with subsection (d) of the Act. However, pursuant to 28 C.F.R. 16.30-34, and Rules and Regulations promulgated by the Department of Justice on May 20, 1975 at 40 Fed. Reg. 22114 (Section 20.34) for Criminal Justice Information Systems, an individual its permitted access to his identification record maintained in the Identification Divison Records System and procedures are furnished for correcting or challenging alleged deficiencies appearing therein.

Contesting record procedures: Same as the above.

Record source categories: See Categories of Individuals.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c)(3) and (4), (d), (c)(1), (2) and (3), (c)(4)(G), (H), (e)(5) and (8), (f), (g) and (m) of the Privacy Act pursuant to 5 U.S.C. 552a (j). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b), (c) and (e) and have been published in the Federal Register.

JUSTICE/INS-001

System name: The Immigration and Naturalization Service Index System, which consists of the following subsystems:

A. Agency information control record index.
B. Alien address reports index and records.
C. Alien enemy index and records.
D. Automobile decal parking identification system for employees.
E. Centralized index and records (Master Index).
F. Congressional Mail Unit Correspondence control index.
G. Document vendors and alters index.
H. Enforcement indexes.
1. Group one. (a) contact index. (b) Informant index. (c) Anti-smuggling index (general). (d) Criminal, immoral, narcotic, racketeer, and subversive index. (e) Suspect third party index.
2. Group two. (a) Air detail office index. (b) Anti-smuggling information centers, Canadian and Mexican borders. (c) Border Patrol Academy index. (d) Boarder Patrol sectors general index. (e) Fraudulent Document Center index.
3. Enforcement correspondence control index.
I. Examinations indexes.
1. Application and petition system.
2. Correspondence control index.
3. Service lookout system.
J. Extension training program enrollees.
K. Finance Section indexes.
1. Accounts with creditors.
2. Accounts with debtors.
L. Freedom of Information correspondence control index.
M. Intelligence indexes.
N. Microfilmed manifest records.
O. Naturalization and citizenship indexes.
1. Naturalization and citizenship docket cards.
2. Examiners docket lists of petitioners for naturalization.
3. Master docket list of petitions for naturalization pending one year or more.
P. Personnel investigations index and records.
Q. Property issued to employees.
R. Security access clearance index.
S. White House and Attorney General correspondence control index.
T. Health record system.
U. Personal data card system.
V. Compassionate cases system.
W. Emergency reassignment index.
X. Alien documentation, identification and telecommunications (ADIT) system.

System location: A. Central Office: 425 Eye Street NW., Washington, D.C. 20536.

B. Regional Offices: (1) Burlington, Vt.; (2) Fort Snelling, Twin Cities, Minn.; (3) Dallas, Tex.; (4) San Pedro, Calif.

C. District offices in the United States: (1) Anchorage, Alaska; (2) Atlanta, Ga.; (3) Baltimore, Md.; (4) Boston, Mass.; (5) Buffalo, N.Y.; (6) Chicago, Ill.; (7) Cleveland, Ohio; (8) Dallas, Tex.; (9) Denver,

Colo.; (10) Detroit, Mich.; (11) El Paso, Tex.; (12) Hartford, Conn.; (13) Helena, Mont.; (14) Honolulu, Hawaii; (15) Houston, Tex.; (16) Kansas City, Mo.; (17) Los Angeles, Calif., (18) Miami, Fla.; (19) Newark, N.J.; (20) New Orleans, La.; (21) New York, N.Y.; (22) Omaha, Nebr.; (23) Philadelphia, Pa.; (24) Phoenix, Ariz.; (25) Portland, Maine; (26) Portland, Oreg.; (27) St. Albans, Vt.; (28) St. Paul, Minn.; (29) San Antonio, Tex.; (30) San Diego, Calif.; (31) San Francisco, Calif.; (32) San Juan, P.R.; (33) Seattle, Wash.; (34) Washington, D.C.;

D. District offices in foreign countries: (1) Hong Kong, B.C.C.; (2) Mexico City, Mexico; (3) Rome, Italy.

E. Sub-offices: (1) Agana, Guam; (2) Albany, N.Y.; (3) Cincinnati, Ohio; (4) Hammond, Ind.; (5) Harlingen, Tex.; (6) Las Vegas, Nev.; (7) Louisville, Ky.; (8) Memphis, Tenn.; (9) Milwaukee, Wis.; (10) Norfolk, Va.; (11) Oklahoma City, Okla.; (12) Pittsburgh, Pa.; (13) Providence, R.I.; (14) Reno, Nev.; (15) St. Louis, Mo.; (16) Salt Lake City, Utah; (17) Spokane, Wash.;

F. Border Patrol Sector Headquarters: (1) Blaine, Wash.; (2) Buffalo, N.Y.; (3) Chula Vista, Calif.; (4) Del Rio, Tex.; (5) Detroit, Mich.; (6) El Centro, Calif.; (7) El Paso, Tex.; (8) Grand Forks, N. Dak.; (9) Havre, Mont.; (10) Houlton, Maine; (11) Laredo, Tex.; (12) Livermore, Calif., (13) Marfa, Tex.; (14) McAllen, Tex.; (15) Miami, Fla.; (16) New Orleans, La.; (17) Ogdensburg, N.Y.; (18) Spokane, Wash.; (19) Swanton, Vt.; (20) Tucson, Ariz.; (21) Yuma, Ariz.

G. Border Patrol Academy, Los Fresnos, Tex.; Federal Law Enforcement Training Center (FLETC), Glynco, Ga.

H. Charlotte Amalie, St. Thomas, V.I.

I. Sub-offices in foreign countries: (1) Athens, Greece; (2) Frankfurt, Germany; (3) Naples, Italy; (4) Palermo, Palermo, Italy; (5) Rome, Italy; (6) Tokyo, Japan; (7) Vienna, Austria.

J. El Paso Intelligence Center (EPIC), El Paso, Tex.

Addresses of offices are listed in the telephone directories of the respective cities listed above under the heading "United States Government, Immigration and Naturalization Service."

Categories of individuals covered by the system: A. Agency information control record index (Location A, supra). Individuals named or referenced in documents classified for national security reasons.

B. Alien address reports index and records (Location A, supra). Aliens required to report addresses each January.

C. Alien enemy index and records (Location A, supra).

1. Alien enemies who were interned during World War II.

2. Americans of Japanese ancestry (Nisei) who returned to Japan and, during World War II, either accepted employment by the Japanese Government or became naturalized in Japan.

D. Automobile decal parking identification for employees (Location B-4, supra). Current INS employees who have the privilege of parking their cars on government premises.

E. Centralized index and records (Master Index) (Locations A, C, D, E, and I, supra).

1. Individuals covered by provisions of the immigration and nationality laws of the United States.

2. Individuals who are under investigation, were investigated in the past, or who are suspected of violating the criminal or civil provisions of treaties, statutes, Executive orders, and Presidential proclamations administered by the Immigration and Naturalization Service, and witnesses and informants having knowledge of such violations.

F. Congressional Mail Unit correspondence control index (Location A, supra).

1. Individuals named in correspondence received, including INS employees and past employees; Federal, State, and local officials; and members of the general public.

2. Individuals named in reports or correspondence received, as individuals investigated in the past or under active investigation, or suspected of violations of the criminal or civil provisions of statutes enforced by INS, including Presidential proclamations and Executive orders relating thereto, and witnesses and informants having knowledge of violations.

G. Document vendors and alterers index (Location B-4; duplicates in several INS offices in the Western and Southern regions). Individuals who are alleged immigration law violators involved in the supply of fraudulent documents.

H. Enforcement indexes.

1. Group one (Locations A, B, C, and E, supra): (a) Contact index; (b) Informant index; (c) Anti-smuggling index (general); (d) Criminal, immoral, narcotic, racketeer and subversive indexes; (e) Suspect third party index.

(1) Individuals who are in a position to know, learn of, and assist in locating aliens illegally in the United States; (2) individuals who have significant knowledge of foreign or domestic organizations subversive in nature and are willing to appear as Government witnesses or cooperate with INS on a continuing basis; (3) individuals who are known or suspected of being professional arrangers, transporters, harborers, and smugglers of aliens; who operate or conspire to operate with others to facilitate the surreptitious entry of an alien over a coastal or land border of the United States; and witnesses having knowledge of such matters; (4) individuals who are known or suspected of being habitual or notorious criminals, immorals, narcotic violators or racketeers, or subversive functionaries or leaders; (5) individuals who are known or believed to be engaged in fraud operations involving the preparation and submission of visa petitions and other applications for benefits administered by INS; or the preparation and submission of applications for immigrant visas and/or Department of Labor certifications, or the filing of false United States birth registrations for alien children to enable them to pose as citizens or to enable parents who are immigrant visa applicants to evade the labor certification requirements.

2. Group two. (a) Air detail office index (Location J. supra). Individuals who are pilots and/or owners of private aircraft flying between the United States and foreign countries; individuals who engage in or are suspected of being engaged in illegal activity such as alien smuggling or entry without inspection.

(b) Anti-smuggling information centers, Canadian and Mexican borders (Locations: northern border, F-19, supra; southern border, J, supra). Individuals who are known or suspected of being smugglers or transporters of illegal aliens.

(c) Border Patrol Academy index (Location G, supra). Students or former students at the Border Patrol Academy; INS officers attending advanced training classes at the Academy or the Federal Law Enforcement Training Center (FLETC).

(d) Border Patrol sectors general index (Locations F, supra). Past or present INS employees; individuals who are law violators, witnesses, contacts, informants, members of the general public, Federal, state, county, and local officials.

(e) Fraudulent Document Center index (Location J, supra). Individuals who are members of the general public, notaries public, state and local birth registration officials and employees, immigration law violators, vendors of documents, donors of documents, midwives, and witnesses. Also included in the system are names and information about fictitious persons used by counterfeiters or alterers of citizenship documents.

3. Enforcement correspondence control index (Location A, supra). (a) Individuals named in correspondence received, including employees, past employees, and others; (b) individuals named in documents, reports, or correspondence as individuals under current or past investigation, suspended of violation of the criminal or civil provisions of the statutes enforced by INS, including Executive orders and Presidential proclamations, and witnesses and informants having knowledge of violations.

I. Examinations indexes (Location A supra; duplicates in some local offices):

1. Application and petition index: individuals who have filed or assisted in filing petitions to classify aliens for the issuance of immigrant visas.

2. Correspondence control index: members of the general public.

3. Service lookout system: violators or suspected violators of the criminal or civil provisions of statutes enforced by INS.

J. Extension training program enrollees (Location A, supra). INS employees and other Federal agency employees enrolled in extension training program courses administered by INS.

K. Finance Section indexes (Locations A and B, supra): (1) Accounts with creditors; (2) Accounts with debtors.

(a) Individuals who are indebted to the United States Government for goods, services, or benefits or for administrative fines and assessments.

(b) Employees who have received travel advances or overpayments from the United States Government, who are in arrears in their accounts, or who are liable for damage to Government property.

(c) Vendors who have furnished supplies, material, equipment, and services to the Government.

(d) Employees, witnesses and special deportation attendants who have performed official travel.

(e) Employees and other individuals who have a valid claim against the Government.

L. Freedom of Information correspondence control index (Locations A, B, C, D, E, F, G, H, and I, supra). Individuals who request access to or copies of records maintained by INS, under the provisions of the Freedom of Information Act (5 U.S.C. 552).

M. Intelligence indexes (Locations A and B, supra). Individuals who have or are suspected of having violated the criminal or civil provisions of the statutes enforced by INS.

N. Microfilmed manifest records (Locations A, C-26, C-10, C-20, and C-29, supra). Individuals who have arrived or departed by aircraft or vessel at a United States port.

O. Naturalization and citizenship indexes (Locations C and E, supra, except E-6, E-7, E-8, and E-13).

1. Naturalization and citizenship docket cards. Individuals seeking benefits under Title III of the Immigration and Nationality Act of 1958, as amended.

2. Examiners' docket lists of petitioners for naturalization. Petitioners for naturalization and their beneficiaries.

3. Master docket list of petitioners for naturalization pending one year or more. Petitioners for naturalization and their beneficiaries.

P. Personnel investigations index and records (Location A, supra). Employees, former employees, other Government agency employees designated to perform immigration functions, witnesses, informants, and certain other persons having contacts with INS operations.

Q. Property issued to employees (Locations A, B, C, E, and F, supra). INS employees who have been issued property for use in performance of official duties.

R. Security access clearance index (Location A, supra). Current INS employees who have been cleared for access to documents and materials classified in the interest of national security.

S. White House and Attorney General correspondence control index (Location A, supra). Individuals named in or originating correspondence referred to INS by staff of the White House or Attorney General.

T. Health record system (Location A, supra). Persons at Location A who have requested health services or required emergency treatment.

U. Personal data card system (Locations A and B, supra). Employees and former employees of INS.

V. Compassionate cases system (Locations A and B, supra). INS employees who have requested transfers for personal reasons.

W. Emergency reassignment index (Locations B, C, E, and F, supra). INS employees who would be reassigned to other duty stations in case of emergency.

X. Alien documentation, identification, and telecommunications (ADIT) system (Location A, supra). Aliens lawfully admitted for permanent residence, commuters and other authorized frequent border crossings, and nonimmigrant persons other than transients.

Categories of records in the system: A. Agency information control record index. This system contains reference and locater data on the following kinds of documents:

1. Top secret and secret materials classified as national security information, including all copies prepared from controlled documents originated, received, or transmitted by INS officers.

2. Confidential material originated by other agencies and referred to INS, including all copies prepared from controlled documents.

3. All investigative reports, responses to security checks, and intelligence material received from sources within the Department of Justice and other Federal intelligence sources.

B. Alien address report index and records. This system contains an index and copies of Form I-53, Alien Address Report, required to be filed January 1 of each year by aliens in the United States.

C. Alien enemy index and records. This system contains a microfilm index and files containing various forms, reports, and other information.

D. Automobile decal parking identification system for employees. This System contains a list by number of each Department of Justice decal car sticker issued to local INS employees.

E. Centralized index and records (Master Index). The system consists of index records and related records and files containing various forms, applications and petitions for benefits under the immigration and nationality laws, reports of investigation, statements, reports, correspondence, and memorandums. Records which may be accessed electronically are limited to index and file locater data including name, identifying number, date and place of birth, date and port of entry, coded status transaction data, and location of relating records or files.

F. Congressional Mail Unit correspondence control index. This system contains a locater record for each report or piece of correspondence received, reflecting the name of the individual and the number of the subject file in which specific information concerning the individual is maintained.

G. Document vendors and alterers index. This system consists of "mug book" photos of alleged immigration law violators involved in the supply of fraudulent documents, and data relating to the pictured violators including name, aliases, vital statistics, method of operation, list of convictions, present location, and source material.

H. Enforcement indexes. 1. Group one. (a) Contact index; (b) Informant index; (c) Antismuggling index (general); (d) Criminal, immoral, narcotic, racketeer and subversive indexes; (e) Suspect third party index. These systems of records are maintained on Form G-598, Contact Record; Form G-169, Informant Record; Form G-170, Smuggler Information Index Card; and other index cards containing reference and file locater data on the individuals, including in some cases biographic data, address, and a brief description of activities.

2. Group two. (a) Air detail office index. The primary record in the system is Form I-92A, Report of Private Aircraft Arrival, which is executed by the inspecting official upon arrival of a private aircraft from foreign territory. There are also index cards, forms, investigative reports, records, and correspondence on aircraft arrivals, failures to report for inspection, and known or suspected alien smuggling operations using aircraft; and microfiche indexes containing names of owners of aircraft of United States registery.

(b) Anti-smuggling information centers, Canadian and Mexican borders. This system contains Form G-170, Smuggler Information Index Card, other index cards, and correspondence relating to antismuggling activities. These indexes are in loose leaf form and are distributed to Border Patrol offices in the border areas.

(c) Border Patrol Academy index. This system contains general information and correspondence regarding each student's academic progress in training. The information is maintained on the following forms: SW-91, Probationary Achievement Report; SW-91A, Scholastic Grade Worksheet; SW-91B, IOBTC Achievement Report-Immigration Inspector; SW-91C, IOBTC Achievement Report-Investigator; SW-96, Class Rating Form; SW-128, Training Data; SW-282, Registration Information Form; SW-446, Conduct and Efficiency Report of Probationary Employee-5 1/2 and 10 Months Exam Grades.

(d) Border Patrol sectors general index. This system contains indexes, forms, reports, and records relating to activities of the Border Patrol, including Form I-44, Record or Apprehension of Seizure; Form I-326, Prosecution Reports; Form I-263A and I-263B, Record of Sworn Statement; Form I-195, Criminal Prosecution Control Card; Form I-263W, Record of Sworn Statement-Witness; Form I-236, Prosecution Reports; Form G-170, Smuggler Information Index Card; Form G-296, Report of Violation of Section 239, Immigration and Nationality Act; Form G-330, Notice of Action Information; Form G-445, Conduct and Efficiency Evaluation of Probationary Appointees; Form G-598, Contact Record. This system also contains copies of correspondence and memorandums between INS offices and outside agencies and individuals, as well as photographs of some violators of the immigration laws of individuals suspected of being involved in immigration law violations.

(e) Fraudulent Document Center index. This system contains birth certificates, baptismal certificates. and other identification documents used by aliens to support their fraudulent claims to United States citizenship. Most of the documents are genuine; however, there are also counterfeit and altered documents in the system. Also contained in the system are cross indexes, investigative reports, and records of individuals involved in fraud schemes or whose documents have been put to fraudulent usage.

3. Enforcement correspondence control index. This system contains reference and locater information on documents, reports, and correspondence received in the offices of the Associate Commissioner, Enforcement. Records are maintained on Form G-617, Correspondence Control Card, and Form CO-147, Call-up Index—Domestic Control.

I. Examinations indexes. 1. Application and petition system. This system contains petitioners' names, date and place of birth, names of prior spouses, immigration "A" number if an alien, and date of marriage if married; beneficiarys' names, date and place of birth, immigration "A" number if any, names of spouses, and nationality code, and the names, dates, and places of birth of any children; name of the person administering the oath or preparing the form, if other than a Government employee.

2. Correspondence control index. This system contains reference and locater information on documents, reports and correspondence received in the office of the Associate Commissioner, Examinations. Records are maintained on Form G-617, Correspondence Control Card.

3. Service lookout system. This system contains names and reference data on violators, alleged violators, and suspected violators of the criminal or civil provisions of the statutes enforced by INS.

J. Extension training program enrollees. This system contains correspondence and records of each enrollee's test scores; dates of actions such as mailing of lesson materials, test results, and certificates of completion; and dates of receipt of tests.

V 43 / 189 SE 28 78

K. Finance Section indexes. 1. Accounts with creditors. Records are vendors' invoices, purchase orders, travel vouchers, and claims filed by appropriation for the fiscal year from which payment is chargeable.

2. Accounts with debtors. Records consist of bills for inspection services performed under the Act of March 2, 1931; fees; fines, penalties, and deportation expenses assessed pursuant to the Immigration and Nationality Act; and employee indebtedness for travel advances, for the unofficial use of Government facilities and services, for damage to or loss of Government property, and for erroneous or overpayment of compensation for travel expenses.

L. Freedom of Information correspondence control index. Records are kept on Form G-617, Correspondence Control Card, and include reference and locator information on each request for information received under the Freedom of Information Act.

M. Intelligence indexes. Records include reference and locator information on documents, reports, bulletins, and correspondence; records are categorized by name, violation, and activity.

N. Microfilmed manifest records. The system contains microfilmed indexes and arrival and departure manifests with brief biographical data and facts of arrival and departure. Arrival records for certain ports date from 1891, and departure records date from 1900. Records are not complete, as some records were destroyed and not microfilmed.

O. Naturalization and citizenship indexes. 1. Naturalization and citizenship docket cards. Docket cards are 3X5 or 5X8 index cards for each applicant, beneficiary, or petitioner, recording type of application, date of receipt, file and/or petition number, court number where petition for naturalization was filed, and reference number of the individual's case file.

2. Examiners' docket lists of petitioners for naturalization. Records are maintained on Form N-476, Examiner's Docket List, and record court of naturalization jurisdiction, petition number, petition filing date, court number, name of petitioner, name of beneficiary, proposed recommendation by the naturalization examiner, reasons for continuance, and reference number of the individual's case file.

3. Master docket lists of petitions for naturalization pending one year or more. Records are maintained on Form N-476, Examiner's Docket List, and contain reference and locater information on petitions pending for one year or longer.

P. Personnel investigations index and records. Index records for closed cases or cases under active investigation contain reference and locater information including names, locations, and allegations. Two relating sets of temporary work folders contain reports, documents, and correspondence.

Q. Property issued to employees. Records are maintained on Form G-570, Record-Receipt—Property Issued to Employees, which lists name, description of property, serial number, dates issued and returned, employee's initials, and supervisor's initials.

R. Security access clearance index. Records are kept on 3X5 index cards listing employee's name, dates when clearances were granted, and levels of clearance. Related records and reports are maintained by the Office of Management and Finance, Department of Justice.

S. White House and Attorney General correspondence control index. Records are maintained on Form G-617, Correspondence Control Card, and contain reference and locater information on correspondence addressed to the President and the Attorney General which has been referred to INS for appropriate attention.

T. Health record system. Records are kept on 5X7 index cards listing name, date, and treatment given.

U. Personal data card system. Records are kept on Form G-74, Personal Data Card, for each employee or former employee. Information includes name, date of birth, height, weight, sex, blood type, photograph, and color of hair and eyes.

V. Compassionate cases system. Records are kept on 3X5 index cards containing employees' name, position, grade, present location, date of request, date circulated to committee, disposition, and (when applicable) new location of employee. Relating records include the employee's request; Form G-410, Employee Qualification-Skills Inventory; local and regional recommendations, medical statements (where applicable), records of committee actions, and response to employee.

W. Emergency reassignment index. Records are kept on Form G-560, Emergency Activity Project Assignment. Information includes name, age, grade, title, official station, residence, telephone number, and emergeny assignment activity.

X. Alien documentation, identification and telecommunications (ADIT) system. Records consist of formatted data base records of personal and biographical information such as name, date of birth, picture and fingerprint coordinates, height, mother's first name, father's first name, city/town/village of birth.

Authority for maintenance of the system: A. General, applicable to all Service index system, includes but is not limited to: Sections 103, 265 and 290 and Title III of the Immigration and Nationality Act, hereinafter referred to as the Act (66 Stat. 163), as amended (8 U.S.C. 1103; U.S.C. 135; 8 U.S.C. 1360), and the regulations pursuant thereto.

B. Specific, applicable to some of the indexes, including but not limited to:

1. Executive Order 11652, and 28 CFR 17.79-Agency control information record index, and Access clearance information system.
2. 31 U.S.C. 66a—Finance Section indexes.
3. Title III of the Act, as amended (8 U.S.C. section 1401 through 1503), and the regulations promulgated thereunder—Naturalization and citizenship indexes.
4. Sections 235 and 287 of the Act, as amended (8 U.S.C. 1225; and 8 U.S.C. 1357), and the regulations promulgated pursuant thereto—Personnel investigations.
5. Section 231 of the Act, as amended (8 U.S.C. 1221)—Microfilmed manifest records.
6. 40 U.S.C. 483—Property management system.
7. 5 U.S.C. 4113—Extension training program.
8. 5 U.S.C. 552. The Freedom of Information Act requires certain record keeping; this system was established and is maintained in order to enable INS to comply with this requirement.
9. 5 U.S.C. 301—Health Record System, Personal Data Card System, and Compassionate Cases System.
10. Executive Order 11490—Emergency Reassignment Index.
11. Section 204, 214, and 290 of the Act, as amended (8 U.S.C. 1154, 1184,1360)—Application and petition system.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: This system of records is used to serve the public by providing data for responses, when authorized, to written inquiries, complaints, and so forth. It is also used to administer the management, operational, and enforcement activities of the Service. The records are used by officers and employees of the Service and the Department of Justice in the administration and enforcement of the immigration and nationality laws, and related statutes, including the procesing of applictions for benefits under these laws, detecting violations of these laws, and for referrals for prosecution.

A. Relevant information contained in this system of records maintained by the Service to carry out its functions may be referred, as a routine use, to clerks and judges of courts exercising naturalization jurisdiction for the purpose of filing petitions for naturalization and to enable such courts to determine eligibility for naturalization or grounds for revocation of naturalization.

B. Relevant information contained in this system of records maintained by the Service to carry out its functions may be referred, as a routine use, to the Department of State in the processing of petitions or applications for benefits under the Immigration and Nationality Laws Act, and all other immigration and nationality laws, including treaties and reciprocal agreements.

C. Relevant information contained in this system of records maintained by the Service to carry out its functions may be provided, as a routine use, to other federal, state, and local government law enforcement and regulatory agencies, foreign governments, the Department of Defense, including all components thereof, the Department of State, the Department of the Treasury, the Central Intelligence Agency, the Selective Service System, the United States Coast Guard, the United Nations, INTERPOL, and individuals and organizations during the course of investigation in the processing of a matter or a proceeding within the purview of the immigration and nationality laws, to elicit information required by the Service to carry out its functions and statutory mandates.

D. In the event that this system of records maintained by the Service to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular progam statute, or by regulation, rule or order issued pursuant thereto, the relevant records in this system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto.

E. In the event that this system of records maintained by the Service to carry out its functions indicates a violation or potential violation of the immigration and nationality laws, or of a general statute within Service jurisdiction, or by regulation, rule, or order issued pursuant thereto, the relevant records in this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal and to opposing counsel in the course of discovery.

F. A record from this system of records may be disclosed, as a routine use, to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

G. A record from this system of records may be disclosed, as a routine use, to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to a decision of this Service concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

H. Indication of a violation or potential violation of the laws of another nation, whether civil or criminal, may be referred to the appropriate foreign agency charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing such laws; indication of any such violation or potential violation may also be referred to international organizations engaged in the collection and dissemination of intelligence concerning criminal activity.

I. Relevant information contained in this system of records may be disclosed, as a routine use, to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

J. A record from this system may be disclosed to other Federal agencies for the purpose of conducting national intelligence and security investigations.

K. Information contained in this system or records may be disclosed to an applicant, petitioner, or respondent or to his or her attorney or representative (as defined in 8 CFR 1.1(j)) in connection with any proceeding before the Service.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Generally, index records and cards are stored in manually operated index manchines, file drawers, and boxes; other information is stored manually as paper records in file folders at locations A, B, C, E, F, and H, supra. Inactive files are stored at Federal Records Centers. Exceptions are as follows:

A. Alien address report index and records: Forms I-53, Alien Address Report, are microfilmed in the order in which they are received. An index is maintained on microfiche and on computer-readable magnetic tape.

B. Alien documentation, identification, and telecommunications (ADIT) system information is stored on magnetic tape and disks. Original forms completed by the individuals are filed with other records described for the subsystem "Centralized index and records."

C. Alien enemy index: Index records are maintained on microfilm. Actual files are stored in Federal Records Centers.

D. Centralized index and records: Most records are paper documents stored in file folders. Those index records which can be accessed electronically are stored on magnetic disk and tape.

E. Enforcement indexes: Original index cards and records are stored in manually operated file drawers and machines. Some records are also maintained in the automated system published in a notice entitled "JUSTICE/DEA-INS-111, Automated Intelligence Records Systems (Pathfinder)."

F. Examinations indexes: (1) Application and petition system records are stored on magnetic media at the Department of Justice Data Management Service. Original paper forms completed by the individuals are filed with other records in the subsystem called "Centralized index and records." (2) Service lookout system records are maintained on magnetic tape and in printed looseleaf reference books at ports of entry.

Retrievability: Generally, records are indexed and retrievable by name and/or "A" or "C" file number. Exceptions are as follows:

A. Air detail office index system: Aircraft data is filed in numerical sequence, within each calendar year.

B. Intelligence indexes: Records are retrieved by name within organization, activity, or type of violation.

C. Examiners' docket lists of petitioners for naturalization, and Master docket lists of petitions for naturalization pending one year or more, are filed chronologically for each court exercising naturalization jurisdiction. Relating records are filed by petition number.

Access controls: Records are safeguarded in accordance with Department of Justice rules and procedures. INS offices are located in buildings under security guard, and access to premises is by official identification. All records are stored in spaces which are locked outside of normal office hours. Many records are stored in cabinets or machines which are locked outside of normal office hours. Access to automated systems is controlled by restricted password for use of remote terminals in secured areas.

Retention and disposal: Several general rules apply to many subsystems of records:

A. Alien registration records are retained for 100 years from the closing date or date of last action.

B. Correspondence control cards (forms G-617) are normally retained for one year following the year in which created.

C. Correspondence portions of subject files are normally retained no longer than two years. Records are then either microfilmed or destroyed by burning.

D. Records in policy portions of subject files are retained indefinitely.

E. Indexes and records not specifically mentioned are retained only so long as they serve a useful purpose.

F. Records are destroyed by shredding, burning, or as provided in disposal schedules.

Exceptions to the general practices are as follows:

A. Alien documentation, identification, and telecommunications (ADIT) system records are maintained until naturalization, death, or other material change in status of the individual, or until the registration card is relinquished.

B. Air detail office index: Forms I-92A are retained for five years.

C. Border Patrol trainee examination papers are destroyed six months after the trainee officer completes his probationary year.

D. Centralized index records stored on magnetic disk and tape are updated periodically and maintained for the life of the relating record. Original index cards are microfilmed, then destroyed.

E. Compassionate cases system records are retained for three years after completion of action.

F. Congressional Mail Unit correspondence control index records are retained for three years.

G. Emergency reassignment index records are destroyed upon the transfer, separation, retirement, or death of the employee.

H. Enforcement indexes relating to law violators and witnesses are retained for three years. Routine investigations records are destroyed when the investigation is closed. Correspondence control records are destroyed after final action on the subject matter.

I. Examinations indexes: (1) Application and petition system records are deleted from the automated data base five years after the date of last activity. Inactive records will be stored on magnetic tape for an additional five years. (2) Service lookout system records are deleted five years after insertion, unless removed at an earlier date or reinserted by the listing agency.

J. Finance Section indexes: accounts with creditors and debtors are retained for two years from the close of the fiscal year to which they relate and then are transferred to Federal Records Centers for storage and disposition.

K. Freedom of Information correspondence control index cards and records of requests under appeal or litigation are retained until completion of the action. Other index records of FOIA requests are retained for one year following the year in which created.

L. Health records are retained for six years after the date of the last entry.

M. Intelligence indexes: records are maintained indefinitely.

N. Naturalization examiners, docket lists and master docket lists are retained for two years. Naturalization and citizenship docket cards are purged after applications are rejected, closed, granted, or denied; or petitions for naturalization are granted, denied, or nonfiled.

O. Microfilmed manifest records are retained permanently.

P. Personal data cards are retained for three years after the employee is separated (Location A, supra). In regional offices (Location B, supra), records are destroyed after the employee is separated.

Q. Personnel investigations records are destroyed at the close of the fiscal year following the year of investigation. However, Operation Clean Sweep records are being retained until the program is terminated. Records of criminal investigations are retained as long as the information serves a useful purpose.

R. Security access clearance index records are destroyed upon the separation, death, or retirement of the employee.

S. White House and Attorney General correspondence control index cards are retained for one year beyond the expiration of the term of the President.

System manager(s) and address: A. The system manager, Servicewide, is the Associate Commissioner, Management (Location A, supra).

B. The Associate Commissioner, Management, is the sole manager of the following subsystems:

1. Agency information control record index.
2. Alien address reports index and records.
3. Alien documentation, identification and telecommunications (ADIT) system.
4. Alien enemy index.
5. Centralized index and records (Master Index).
6. Congressional Mail Unit correspondence control index.
7. Document vendors and alterers index.
8. Enforcement correspondence control index.
9. Examinations indexes: (1) Application and petition system; (2) Correspondence control index; (3) Service lookout system.
10. Finance Section indexes.
11. Freedom of Information correspondence control index.
12. Health record system.
13. Intelligence indexes.
14. Micofilmed manifest records.
15. Property issued to employees.
16. Security access clearance index.
17. White House and Attorney General correspondence control index.

C. The following officials are system managers for special subsystems:

1. Automobile decal parking identification for employees: Deputy Regional Commissioner (Location B-4, supra).
2. Enforcement indexes, group one (Contact index; Informant index; Antismuggling index (general); Criminal, immoral, narcotic, racketeer and subversive indexes; Suspect third party index): the ranking Service officer of the offices in which the indexes are maintained (Locations A, B, C, and E, supra).
3. Enforcement indexes, group two: (a) Air detail office index: Deputy Director (Location J, supra). (b) Antismuggling information centers: (1) Canadian border, Chief Patrol Agent (Location F-19, supra); (2) Mexican Border, Deputy Director (Location J, supra). (c) Border Patrol Academy index: Chief Patrol Agent (Location G, supra). (d) Border Patrol sectors general index: Chief Patrol Agent (Location F, supra). (e) Fraudulent Document Center index (Location J, supra).
4. Compassionate cases system: Associate Commissioner, Management (Location A, supra); Regional Commissioners (Location B, supra).
5. Emergency reassignment index: Regional Commissioners (Location B, supra); District Directors (Location C, supra); Officers in charge (Location E, supra); Chief Patrol Agents (Location F, supra).
6. Extension training program enrollees: Chief, Employee Development Branch, Office of Assistant Commissioner, Personnel (Location A, supra).
7. Naturalization and citizenship indexes: (a) Naturalization and citizenship docket cards, and Examiners' docket lists of petitioners for naturalization: District Directors (Location C, supra); Officers in Charge (Location E, supra, except E-6, E-7, E-8, and E-13). (b) Master docket lists of petitions for naturalization pending one year or more: The Associate Commissioner, Management (Location A, supra); Regional Commissioners (Location B, supra); District Directors (Location C, supra); Officers in charge (Location E, supra, except E-6, E-7, E-8, and E-13).
8. Personal data card system: Associate Commissioner, Management (Location A, supra); Regional Commissioners (Location B, supra).

Notification procedure: A. Inquiries should be addressed to the system managers listed above, except for the following subsystems:

1. Finance Section indexes: address inquiries to the INS office at which business was conducted.
2. Freedom of Information correspondence control index: address inquiries to the INS office nearest the requester's place of residence, or (if known) the INS office where the record is located.

B. Systems totally exempt from disclosure pursuant to 5 U.S.C. 552a (j) and (k) are listed below:

1. Agency information control record index.
2. Document vendors and alterers index.
3. Emergency reassignment index.
4. Enforcement indexes, group one: (a) Contact index. (b) Informant index. (c) Anti-smuggling index (general). (d) Criminal, immoral, narcotic, racketeer, and subversive indexes. (e) Suspect third party index.
5. Enforcement indexes, group two: Anti-smuggling information centers, Canadian and Mexican borders.
6. Examinations indexes: Service lookout system.
7. Intelligence indexes.

Record access procedures: In all cases, requests for access to a record from any record subsystem shall be in writing or in person. If a request for access is made in writing, the envelope and letter shall be clearly marked "Privacy Access Request." The requester shall include a description of the general subject matter and if known, the relating file number. To identify a record relating to an individual, requester should provide the individual's full name; date and place of birth; alien, citizen, or employee identification number; and, if appropriate, the date and place of entry into or departure from the United States. The requester shall also provide a return address for transmitting the information.

Most of the subsystems of records contain information which the Attorney General has exempted from disclosure pursuant to 5 U.S.C. 552a (j) and (k), and records which are classified pursuant to Executive order. Each requester will be accorded access to the records relating to himself only to the extent that such records are not within the scope of exemptions and are not classified.

Contesting record procedures: Any individual desiring to contest or amend information maintained in the system should direct his request to the INS office nearest his residence or to the office in which he believes a record concerning him may exist. The request should state clearly what information is being contested, the reasons for contesting it, and the proposed amendment to the information.

Record source categories: Basic information contained in INS records is supplied by individuals on Department of State and INS applications and reports. Other information comes from inquiries and/or complaints from members of the general public and members of the Congress; referrals of inquiries and/or complaints directed to the White House or Attorney General; INS reports of investigation, sworn statements, correspondence and memorandums; official reports, memorandums, and written referrals from other government agencies, including Federal, state, and local, and from various courts and regulatory agencies; information from foreign government agencies and international organizations; and personnel and administrative applications and forms.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c) (3) and (4); (d); (e) (1), (2), and (3); (e)(4) (G), (H), and (I); (e) (5) and (8); (f); (g); and (h) of the Privacy Act. These exemptions apply to the extent that information in the subsystems is subject to exemption pursuant to 5 U.S.C. 552a (j) and (k). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c), and (e) and have been published in the Federal Register as additions to Title 28, Code of Federal Regulations (28 CFR 16.99).

JUSTICE/LEAA—002

System name: Law Enforcement Education System

System location: Law Enforcement Assistance Administration; 633 Indiana Avenue, N.W.; Washington, D.C. 20531.

Categories of individuals covered by the system: Recipients of LEAA Law Enforcement Education Loans and Grants.

Categories of records in the system: LEEP Master Computer File; LEEP Promissory Note File; LEAA Form 03.

Authority for maintenance of the system: The system is established and maintained pursuant to 42 U.S.C. 3746.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To contractors for coding and statistical analysis, educational institutions for record reconciliation, IRS and references listed on application for address verification, referees in bankruptcy for claim action, State and local agencies to verify eligibility.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 C.F.R. 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information maintained in the system is stored on computer magnetic tape, discs and folders.

Retrievability: Information is retrievable by name of recipient and social security number.

Safeguards: Computerized information is safeguarded and protected by computer password key and limited access. Noncomputerized data is safeguarded in file room which is locked after business hours. Access is limited to LEAA authorized personnel.

Retention and disposal: Computerized records are kept indefinitely. Uncollected loans/grants are transferred to GAO as soon as determined uncollectable. Cancelled or repaid loan/grants are closed at end of fiscal year, held three years, sent to Federal Records Center and destroyed in accordance with instructions from GAO.

System manager(s) and address: Comptroller; Law Enforcement Assistance Administration; 633 Indiana Avenue, N.W.; Washington, D.C. 20531.

Notification procedure: Same as above.

Record access procedures: A request for access to a record from this system shall be made in writing, with the envelope and the letter clearly marked "Privacy Access Request." Include in the request the name and personal identifier number. Access requests will be directed to the System Manager listed above.

Contesting record procedures: Individuals desiring to contest or amend information maintained in the system should direct their request to System Manager listed above, stating clearly and concisely what information is being contested, the reason for contesting it, and the proposed amendment to the information sought.

Record source categories: Sources of Information are the recipients of loans/grants and their educational institutions.

Systems exempted from certain provisions of the act: None.

JUSTICE/LEAA—008

System name: Civil Rights Investigative System.

System location: Law Enforcement Assistance Administrative; 633 Indiana Avenue NW.; Washington, D.C. 20531.

Categories of individuals covered by the system: Complaints of discrimination by individuals affected by the agency program for which the agency has compliance responsibility, grantees, subgrantees, contractors, subcontractors, employees, and applicants.

Categories of records in the system: Civil Rights Complaint Control Logs; Civil Rights Litigation Reference Files.

Authority for maintenance of the system: 42 U.S.C. 3766(c); E.O. 11246 (3 C.F.R. 173) as amended by E.O. 11375.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Investigation of complaints and to obtain compliance with Civil Rights laws: Users of the data are State Planning Agencies, State Governors and Attorneys General, Criminal Justice Agencies, Office of Federal Contract Compliance, Equal Employment Opportunity Commission, Office of Federal Revenue Sharing, and a United States Commission on Civil Rights; Department of Health, Education, and Welfare; States Civil Rights Offices; and Law Enforcement Assistance Administration researchers for purposes of evaluation technical assistance and training.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 C.F.R. 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information in the system is stored in file folders and on index cards.

Retrievability: Information is retrieved by name of respondent and complainants.

Safeguards: Information is kept in locked file cabinets and combination safe. Access is limited to investigative personnel.

Retention and disposal: Complaint control logs are destroyed upon completion of action on the inquiry or complaint. Complaint case files thereafter are not retrievable by name, number, or other information identifiable to the individual. Other investigative information is destroyed four years after the investigation is completed.

System manager(s) and address: Office of Civil Rights Compliance; Law Enforcement Assistance Administration; 633 Indiana Avenue NW.; Washington, D.C. 20531.

Notification procedure: Same as the above.

Record access procedures: A request for access to a record containing civil rights investigatory material shall be made in writing with the envelope and letter clearly marked "Privacy Access Request" to the Civil Rights System Manager listed above.

Contesting record procedures: Individuals desiring to contest or amend information maintained in the system should direct their request to the System Manager listed above, stating clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

Record source categories: The information contained in this system was received from individual complainants, witnesses, grant files, respondents, official State and Federal records.

Systems exempted from certain provisions of the act: None.

JUSTICE/OMF-015

System name: EEO (Equal Employment Opportunity) Volunteer Representative Roster.

System location: U.S. Department of Justice; 10th and Constitution Avenue, N.W.; Washington, D.C. 20530.

Categories of individuals covered by the system: Employees of the Department of Justice who have volunteered to serve as EEO representatives.

Categories of records in the system: The roster provides the representative's name, position, title, organization, office address and telephone number.

Authority for maintenance of the system: The roster was established and is maintained pursuant to the following authorities: 5 CFR Part 713, 28 CFR 42.2(a), and Department of Justice Order 1713.5 (October 30, 1973).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The roster is used by Department personnel and applicants for Department jobs who have filed or contemplate filing discrimination complaints based on race, color, religion, sex, national origin, age, or physical limitation.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 C.F.R. 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of person privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the member or staff requests the information

on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained in file folders.

Retrievability: Information from the roster is retrieved by name.

Safeguards: Access to the roster is limited to those persons whose official duties require such access and to Justice Department employees and applicants for employment with the Department who have filed or contemplate filing discrimination complaints.

Retention and disposal: Information contained in the roster is retained for the duration of an individual's services as a volunteer EEO representative.

System manager(s) and address: Director Equal Opportunity Programs Staff; Office of Management and Finance; U.S. Department of Justice; 10th and Constitution Avenue, N.W.; Washington, D.C. 20530.

Notification procedure: Same as System Manager.

Record access procedures: Same as Notification.

Contesting record procedures: Same as Notification.

Record source categories: Information in the file is voluntarily provided by employees who wish to serve as volunteer EEO representatives.

Systems exempted from certain provisions of the act: None.

JUSTICE/PRC—001

System name: Docket, Scheduling and Control.

System location: Records are maintained at each of the Regional Offices for inmates incarcerated in and persons under supervision in each region, except for the National Appeals Board docket maintained in Washington. All requests for records should be made to the appropriate regional office or Headquarters at the following addressed: United States Parole Commission, Scott Plaza II, Industrial Highway, 6th Floor, Philadelphia, Pa. 19113; United States Parole Commission, 3500 Greenbriar Parkway, Building 300, Atlantic, Ga. 30331; United States Parole Commission, 320 First Street, Washington, D.C. 20537, ATTN: National Appeals Board, United States Parole Commission, KCI Bank Building, 8800 Northwestern 112th Street, Kansas City, Mo. 64153. United States Parole Commission, 3883 Turtle Creek Boulevard, Suite I, Dallas, Tex. 75219. United States Parole Commission, 330 Primrose Drive, 5th Floor Burlingame, Calif. 94010.

Categories of individuals covered by the system: Current and former inmates under the custody of the Attorney General who have become eligible for parole. Former inmates includes those presently under supervision as parolees or mandatory releases and those against who a revocation warant has been issued.

Categories of records in the system: (a) Docket sheets—Each region and the National Appeals Board in Washington maintain a cumulative series of docket sheets in time sequence showing Commission action. Principal data elements are name and register number of inmate, offense, sentence, and previous and present Action. The appeal docket includes the date and type of appeal in addition to much of the above data. These provide a continual running record of the basic data elements per inmate and former inmate. (b) Hearing schedules—When inmates become eligible for parole through operation of law, their names appear on an eligibility list prepared by the Bureau of Prisions, for initial parole hearings. Inmates denied parole are "continued" by the Commission to future dates for review hearings or records reviews. There is a legal requirement for record reviews of certain inmates at the one-third point of their sentences. Other types of hearings and reviews are provided for in the Code of Federal Regulations as part of parole rescission or revocation procedures. All of the different types of hearings and reviews are placed on schedules for panels of examiners to process when they visit the various institutions or hold 'local' hearings. The data elements are similar to those on the docket but indicate the number and type of hearing or review to be held instead of the result.

Authority for maintenance of the system: 18 U.S.C. 4201-4218, 5005-5041, 28 CFR Part O, Subpart V, and 28 CFR Part 2.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (a) The dockets provide the basis of answering basic inquiries, mostly from within the Parole Commission, as to when a hearing came up for an individual and what action was taken. The schedules indicate to examiners and prision staff the specific hearings and reviews to be prepared for and held.

(b) In the event that material in this system indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, the relevant records may be referred to the appropriate agency, whether Federal, State, local or foreign, charged with responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

(c) A record from this system of records may be disclosed to a Federal, State or local agency maintaining civil, criminal or other relevant information if necessary to obtain information relevant to an agency decision concerning parole matters.

(d) A record from this system may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

(e) Internal users—Employees of the Department of Justice who have a need to know the information in the performance of their duties.

(f) External users—As noted above, on occasion employees of Federal, State and local enforcement, correctional, prosecutive, or other agencies, and courts may have access to this information.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the U.S. Parole Commission unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the U.S. Parole Commission, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and in response to a communications from the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information stored in the system is on sheets of paper, one item per line, stored in folders or binders. An experimental program to store such data on tape, disk, or microfiche using ADP technology, is in the beginning stages.

Retrievability: Name, register number, date, institution, Commission action.

Safeguards: Copies of dockets and schedules are not disseminated outside of Commission offices and Bureau of Prisons installations. They are available only to Commission and bureau employees on a "need to know" basis. Information therefrom may be given outside the Department as indicated in the "Routine Uses." If so, a letter will be written covering the item disclosed, date, and identity of the recipient. If information must be given over the phone due to urgency, the caller will be identified beforehand and details of the call recorded.

Retention and disposal: Records in this system are kept for five (5) years after the effective date of the schedule or date of the last item recorded on the docket. They are then shredded.

System manager(s) and address: Herman Levy, Attorney-Management Analyst, United States Parole Commission, 320 First Street NW., Room 342; Washington, D.C. 20537.

Notification procedure: Address inquiries to Regional Director at appropriate location. For general inquiries, address system manager. The Attorney General has exempted this system from compliance with the provisions of subsection (d), under the provisions of subsection (j).

Record source categories: 1) Bureau of Prisons files; 2) Parole Commission and Bureau of Prison's employees; 3) Court Records, 4) Parole Commission inmate files.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c) (3) and (4), (d), (e) (2) and (3), (e)(4) (G) and (H), (e)(8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a(j)(2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

JUSTICE/PRC—002

System name: Freedom of Information Act Record System.

System location: Records may be retained at any of the Regional Offices as indicated in the Inmate and Supervision Files System and the Headquarter's Office. All requests for records may be made to the Central Office, United States Parole Commission, 320 First Street NW., Washington, D.C. 20537, ATTN: Executive Assistant to Chairman, or to the appropriate Regional Office.

Categories of individuals covered by the system: Current and former inmates under the custody of the Attorney General, including former inmates on supervision.

Categories of records in the system: (1) Administrative requests and responses to requests for information and records under 5 U.S.C. 552, and appeals from denials of data; (2) Final orders of Commission following all parole rescission and revocation hearings, record reviews, and appeals are maintained in the Freedom of Information Act reading room at Commission headquarters with names and register numbers removed to protect individual privacy of inmates and persons on supervision. Final decisions in labor and pension cases are maintained in said reading room.

Authority for maintenance of the system: 5 U.S.C 552.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The system is used: (a) to maintain records concerning the processing and determination of requests for information made pursuant to the Freedom of Information Act 5 U.S.C. 552; and make final orders available in a reading room pursuant to 5 U.S.C. 552; (b) to provide documentation of receipt and processing requests for information made pursuant to the Freedom of Information Act if needed for processing contested denials of release of data; (c) to furnish information to employees of the Department of Justice who have a need for information from the system in performance of their duties; (d) to maintain a count of requests and method of compliance as required by Freedom of Information Act.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the U.S. Parole Commission unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the U.S. Parole Commission not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and in response to a communication from the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information maintained in the system is stored on documents.

Retrievability: Documents are indexed by name and/or register number. Final orders in the reading room are indexed by type, and within each type the source (Region or National Appeals Board).

Safeguards: Information is stored in file cabinets in rooms supervised by day and locked at night and are made available to Commission personnel and other Department of Justice employees on a "need to know" basis. Each requestor may see his own file. The public may use the reading room.

Retention and disposal: Records in this system are retained for a period of ten (10) years after expiration of sentence, then destroyed by shredding.

System manager(s) and address: General Counsel, United States Parole Commission. 320 First Street NW., Washington, D.C. 20537.

Notification procedure: Same as the above.

Record access procedures: Same as the above.

Contesting record procedures: Same as the above.

Record source categories: (1) Inmates and persons on supervision; (2) Department of Justice employees.

Systems exempted from certain provisions of the act: None.

Inmate and Supervision Files, JUSTICE/PRC-003: Published at 43 FR 35404 on August 9, 1978. The U.S. Parole Commission proposed a new routine use. Comments are due by September 8, 1978.

JUSTICE/PRC-003

System name: Inmate and Supervision Files.

System location: Records are maintained at each of the Commission's Regional Offices for inmates incarcerated in and persons under supervision in each region. Records are housed temporarily at the Commission's Headquarters Office located at 320 First Street, Washington, D.C. 20537 when used by the National Appeals Board or other Headquarter's personnel. Prior to the first parole hearing, the inmate's file is maintained at the institution at which he is incarcerated. All requests for records should be made to the appropriate regional office at the following addresses: U.S. Parole Commission, Scott Plaza II, Industrial Highway, Sixth Floor, Philadelphia, Pa. 19113. U.S. Parole Commission, 3500 Greenbriar Parkway, Building 0300, Atlanta, Ga. 30331. U.S. Parole Commission, KCI Bank Building, 8800 112th Street NW., Kansas City, Mo. 64153. U.S. Parole Commission, 3883 Turtle Creek Boulevard, Suite I, Dallas, Tex. 75219. U.S. Parole Commission, 330 Primrose Drive, Fifth Floor, Burlingame, Calif. 94010.

Categories of individuals covered by the system: Current and former inmates under the custody of the Attorney General. Former inmates include those presently under supervision as parolees or mandatory releasees.

Categories of records in the system: 1. Computation of sentence and supportive documentation.

2. Correspondence concerning pending charges, and wanted status, including warrants.

3. Requests from other Federal and non-Federal law enforcement agencies for notification prior to release.

4. Records of the allowance, forfeiture, withholding and restoration of good time.

5. Information concerning present offense, prior criminal background, sentence, and parole from the U.S. Attorneys, the Federal Courts, and Federal prosecuting agencies.

6. Identification Data, physical description, photograph and fingerprints.

7. Order of designation of institution of original commitment.

8. Records and reports of work and housing assignments.

9. Program selection, assignment and performance adjustment/progress reports.

10. Conduct records.

11. Social background.

12. Educational data.

13. Physical and mental health data.

14. Parole Commission applications, appeal documentation, orders actions, examiner's summaries, transcripts or tapes of hearings, guideline evaluation documents, parole or mandatory release certificates, statements of third parties for or against parole, special reports on youthful offenders and adults required by statute and related documents.

15. Correspondence regarding release planning, adjustment and violations.

16. Transfer orders.

17. Mail and visit records.

18. Personal property records.

19. Safety reports and rules.

20. Release processing forms and certificates.

21. Interview request forms from inmates.

22. General correspondence.

23. Copies of inmate court petitions and other court documents.

24. Reports of probation officers, Commission correspondence with former inmates and others, and Commission orders and memoranda dealing with supervision and conditions of parole or mandatory release.

25. If an alleged parole violation exists, correspondence requesting a revocation warrant, warrant application, warrant, instructions as to service, detainers and related documents.

Authority for maintenance of the system: 18 U.S.C. 4201-4218, 5005-5041, 28 CFR Part O, Subpart V, and 28 CFR Part 2.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (a) The file is the "working tool" used by Parole Commission examiners to frame the ques-

tions at the inmates initial hearing. After that hearing, it is placed in the appropriate regional office where it provides the principle information source for decisions necessary during the pre-release stage (before parole), the review hearing or record review, and the post release stage (when supervision takes place). It is sent temporarily to Commission Headquarters when appeals come before the National Appeals Board or when needed by counsel and others on the Headquarters Staff. It is used by employees at all levels including Commission members to provide the information for decision making in every area of Commission responsibility. Files of released inmates are used to make statistical studies of subjects related to parole and revocation.

(b) The system is used to provide information source to officers and employees of the Department of Justice who have a need for the information in the performance of their duties.

(c) The system is used to provide information source for disclosure of information that are matters solely of general public record, such as offense, sentence data, release date, etc. Names are not disclosed when information is so provided.

(d) The system is used to provide informational source for responding to inquiries from Federal inmates involved, their families or representatives, or Congressional inquiries.

(e) Internal Users—Employees of the Department of Justice who have a need to know information in the performance of their duties.

(f) External Users—U.S. Probation Officers, who supervise parolees and mandatory releasees and U.S. District Court judges on rare occasions when Commission action is attacked in litigation. Very rarely, to enforcement authorities outside of the Department of Justice.

(g) In the event that material in this system indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, the relevant records may be referred to the appropriate agency, whether Federal, State, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order, issued pursuant thereto.

(h) A record from the this system may be disclosed to a Federal, State or local agency maintaining civil, criminal or other relevant information if necessary to obtain information relevant to an agency decision relating to current or former inmates under supervision.

(i) A record from this system may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant or other benefit by the requesting agency to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

(j) A record from this system may be disclosed to a person or to persons who may be exposed to harm through contact with a particular parolee or mandatory releasee if it is deemed by a Commissioner to be reasonably necessary to give notice that such danger exists.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the U.S. Parole Commission unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the U.S. Parole Commission, not otherwise required to be released pursuant to 5 USC 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and in response to a communication from the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 USC 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information maintained in the system is stored on papers fastened into file jackets and a minimal amount is on cards stored in card file drawers. Active files and card indices are located in each region; inactive files are at the Washington Federal Records Center and the card index to inactive files is at Board Headquarters in Washington. An experimental program to store such data on tape, disk or microfiche using ADP technology is in the beginning stages.

Retrievability: All data is indexed by name and/or register number. When ADP technology is used in the future, such data may be available by Social Security Number, FBI identification number, or other indices.

Safeguards: Within the Department of Justice, routine use is made available to employees only on a "need to know" basis. Files are stored in rooms which are supervised by day and locked at night. Data from files for recipients outside of the Parole Commission and Bureau of Prisons is conveyed by letter so that a record exists. When files are sent they are covered by a letter with a follow-up on return of the file. Such disclosure is infrequent, and is within the Federal enforcement-prosecution-judicial area only.

Retention and disposal: Records in this system are retained for a period of ten (10) years after expiration of sentence, then destroyed by electronic means or shredding.

System manager(s) and address: Herman Levy, Attorney-Management Analyst, United States Parole Commission, 320 First Street NW., Room 342, Washington, D.C. 20537.

Notification procedure: Address inquiries to Regional Director at appropriate location. For general inquiries, address System Manager. The Attorney General has exempted this system from compliance with the provisions of Subsection (d) under the provisions of Subsection (j).

Record source categories: 1. Individual inmate; 2. Federal law enforcement agencies and personnel; 3. State and Federal probation services; 4. Non-Federal law enforcement agencies; 5. Educational institutions; 6. Hospital or medical sources; 7. Relatives, friends and other interested individuals or groups in the community; 8. Former or future employers; 9. Evaluations, observations, reports, and findings of institution supervisors, counselors, board and committees, Parole Commission examiners, Parole Commission Members; 10 Federal Court records; 11. U.S. Bureau of Prisons personnel and records.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c) (3) and (4), (d), (e) (2) and (3), (e)(4) (G) and (H), (e)(8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 55a(j)(2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

JUSTICE/PRC—004

System name: Labor and Pension Case, Legal File and General Correspondence System.

System location: All Labor and Pension cases, and Legal file and some general correspondence material is located at: Commission Headquarters, 320 First Street NW., Washington, D.C. 20537. The balance of the general correspondence material is located at the Commission's Regional Offices, the addresses of which are specified in the Inmate and Supervision System.

Categories of individuals covered by the system: All applicants for exemptions under 29 U.S.C. 504 and 29 U.S.C. 1111, all persons litigating with the U.S. Parole Commission, all persons corresponding with the Commission on subjects not amenable to being filed in an inmate or supervision file identified by an individual, and all Congressmen inquiring about constituents.

Categories of records in the system: The Commission processes applications of persons convicted of certain crimes for exemptions to allow their employment in the Labor field under 29 U.S.C. 504 of by Employee Benefit Plans under 29 U.S.C. 1111. The files contain memoranda, correspondence, and legal documents with information of a personnel nature, i.e., family history, employment history, income and wealth, etc., and of a criminal history nature, i.e., record of arrests and convictions, and details as to the crime which barred employment. The final decision of the Commission in each case is a public document under the Freedom of Information Act. The Counsel's Office of the Parole Commission maintains work files for each inmate or person on supervision who is litigating with the Commission. These files contain personnel and criminal history type data regarding inmates, and internal communications among attorneys, Members and others developing the Commission's legal position in these cases. Files of the Commission's correspondence with Congressmen who inquire about groups of constituents who have paroles or revocations pending or other subjects are maintained in the Chairman's Office and in the regions. Files of correspondence, notes, and memoranda concerning parole revocation and related problems are also maintained in those locations. Some of this material duplicates material in the inmate files and contains personnel-criminal history type information about individuals.

Authority for maintenance of the system: These files are maintained pursuant to 18 U.S.C. 4201-4218, 5005-5041, 28 CFR Part O, Subpart V, 28 CFR Parts 2 and 4, 29 U.S.C. 504, 1111, and all statutory sections and procedural rules allowing inmates, persons under supervision, or others to litigate with the Parole Commission.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Within the Parole Commission material in this system is used respectively by Counsel's Office staff and Commission Members in processing exemption applications. The legal file material is used by Counsel's Office staff in asserting the litigation position of the Commission. The general correspondence is used by the Commission personnel in responding to Congressmen, and by Commission Members and others in transacting the day-to-day business of the Commission. Final pension and labor case decisions are used by the Commission, the Justice, and Labor Departments, and the public to establish precedents in this field of litigation in the event that material in this system indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, the relevant records may be referred to the appropriate agency, whether Federal, State, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto. A record from this system of records may be disclosed to a Federal, State or local agency maintaining civil, criminal or other relevant information if necessary to obtain information relevant to an agency decision relating to pension or labor matters. A record from this system may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the U.S. Parole Commission unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the U.S. Parole Commission, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and in response to a communication from the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: All data is on documents or other papers in bound files. Labor and pension case material is in Counsel's Office or the Chairman's Office at Headquarters, except for final decisions which are in the Freedom of Information Act reading room. Legal files are in Counsel's Office at Headquarters, general correspondence is in the Chairman's Office, the office of his staff at Headquarters, and the offices of each regional director. Files are in file cabinets.

Retrievability: Labor, pension, and legal file material is indexed or filed by name of applicant or litigant, respectively. General correspondence is indexed or filed by subject, time sequence or individuals to whom the items refer.

Safeguards: Material is available only to Commission employees on a "need to know" basis. Storage locations are supervised by day and locked at night. Only disclosure made therefrom is to other agencies of the Department of Justice, the U.S. Probation Office, Federal enforcement agencies or the Congress. Disclosure to Congressmen in response to inquiries concerning constituents is subject to the exemptions of the Freedom of Information Act. The Commission Decisions in labor and pension cases are public information under the Freedom of Information Act.

Retention and disposal: Records are maintained for 10 years and are shredded or destroyed electronically thereafter.

System manager(s) and address: Herman Levy; Attorney/Management Analyst, United States Parole Commission, 320 First Street NW., Room 342, Washington, D.C. 20537.

Record source categories: a. Applicants for exemptions under 29 U.S.C. 504 and 29 U.S.C. 1111; b. U.S. Department of Labor; c. Administrative Law Judges and others connected with labor or pension cases; d. Litigants proceeding against Parole Commission; e. The Commission's legal staff and other Commission personnel; f. Congressmen and others making inquiries of Commission; g. Commission Members and employees responding to inquiries, corresponding with others, preparing speeches, policy statements and other means of contact with other branches of the Federal Government, State, and local governments, and the public.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c) (3) and (4), (d), (c) (2) and (3), (4) (G) and (H), (c) (8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a(j)(2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

JUSTICE/PRC—005

System name: Office Operation and Personnel System.

System location: At each regional office as indicated in the "Inmate and Supervision File System Report" and at the U.S. Parole Commission, 320 First Street NW., Washington, D.C. 20537.

Categories of individuals covered by the system: Present and former Commission Members and employees of the U.S. Parole Commission.

Categories of records in the system: Personnel records, leave records, property schedules, budgets and actual expense figures, obligation schedules, expense and travel vouchers, and the balance of the usual paperwork to run a Government office efficiently.

Authority for maintenance of the system: All statutory sections, CFR sections, and CSC, GSA, and OMB directives establishing procedures for government personnel, financial, and operational functions.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Day-to-day activity involving personnel, financial. Procurement, maintenance, recordkeeping, mail delivery, and management functions.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the U.S. Parole Commission, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and in response to a communication from the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are in paper files or on computer printouts. They are stored in operations areas of offices.

Retrievability: Data of a personal nature is in employee personnel files, used by Commission personnel on a "need to know" basis. Each employee has a right to see his own file on request. Other files are used by Commission personnel on a "need to know" basis.

Safeguards: Files are supervised by appropriate personnel during the working day and are in locked rooms at night.

Retention and disposal: Subject to applicable CSC, OMB, DOJ, and GSA regulations.

System manager(s) and address: Executive Assistant to the Chairman, U.S. Parole Commission, 320 First Street NW., room 354B, Washington, D.C. 20537.

Notification procedure: Same as the above.

Record access procedures: Same as the above.

Contesting record procedures: Same as the above.

Record source categories: Parole Commission employees, Office of Management and Finance. All other contributing Government agencies.

Systems exempted from certain provisions of the act: None.

JUSTICE/PRC—006

System name: Statistical, Educational and Developmental System.

V 4 3 / 1 8 9 SE 28 78

System location: Parole Commission Headquarters, 320 First Street, 3d Floor, Washington, D.C. 20537.

Categories of individuals covered by the system: Any inmate or former inmate under custody of the Attorney General including former inmates supervised as parolees or mandatory releasees.

Categories of records in the system: All records as described in the Workload Record, Decision Result, and Annual Report System plus data on additional input forms known as Revocation Data Sheets, Parole Decision Information Sheet, certain follow-up forms and the Salient Factor Worksheet Form. These forms include criminal history-type data elements regarding specific individuals selected from the above category of individual. This data is either organized and processed by hand or is input into a computer through punchcard, and has been used to provide the following one-time reports in pamphlet-text form: a) Administrative Review of Parole Selection and Revocation decisions; b) Parole Decisionmaking, a Salient Factor Score; c) Effect of Representation at Parole Hearings; d) Parole Decisionmaking—Structuring Discretion; e) Time Served and Release Performance—A Federal Sample and certain additional reports, all available in the public reading room. The data base collected as described in this and the preceding system will be used to prepare studies on similar or related subjects in the future. It has recently been used to develop revocation guidelines similar to parole guidelines. Items collected for this data base may change depending on the subject matter of new studies to be undertaken by the Commission.

Authority for maintenance of the system: 18 U.S.C. 4201-4218, 5005-5041, 28 CFR Part O, Subpart V, 28 CFR Part 2.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: a. Internal—Develop methodology for a more scientific determination of parolability and revocability, methodology to comply with changing concepts of due process, and methodology to select persons to be released from prison who will be less likely to recidivate.

b. External—Add to the general body of knowledge in the parole area of criminology, and provide educational material for other parole boards, and members of the criminal justice and academic communities interested in this subject. Published pamphlets in text form are prepared on subjects of interest in this area of criminology and are circulated freely. They contain no references to individuals, either by name, address, register number or other means of identification. They do not contain recognizable fact situations, descriptions, or other writings through which identification of any individual within the present or former jurisdiction of the Parole Commission can be made.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the U.S. Parole Commission unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the U.S. Parole Commission not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and in response to a communication from the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Data is in input forms, IBM card decks and on computer tape. It is stored as described in the preceding system description. Pamphlet text reports are public documents stored in offices, libraries, and in bookshelves, and in the public reading room.

Retrievability: Information by name, register number or FBI identification number may be retrieved from the input forms, card decks, or tape. This material is used only by authorized parole board research personnel on a "need to know" basis and is data processed only by authorized Bureau of Prisons personnel. Material is not retrieved in identifiable form except that computer produced "hard copy" may be used as a temporary expedient to prepare a report. The final pamphlet text reports and material resulting from studies are used by Commission personnel for internal purposes and the public externally. None of this material contains any reference to an individual. One source form, the Salient Factor Worksheet, which contains information retrievable as to one individual is made available to that individual if requested under the Freedom of Information Act.

Safeguards: See "Safeguards" of preceding system regarding input forms, IBM cards or tape. Reports in pamphlet form are not safeguarded.

Retention and disposal: See "Retention and Disposal" of preceding system. The studies in pamphlet form are not disposed of on schedule. Some will be maintained perpetually in archives.

System manager(s) and address: Research Director, U.S. Parole Commission, 320 First Street NW., Room 366, Washington, D.C. 20537.

Record source categories: a. Commission inmate files; b. Docket Sheets; c. Commission Notices of Action, orders and documentation following hearings; d. Commission warrant applications and warrants; e. General Commission records and data; f. Enforcement agency records regarding former inmates.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c) (3) and (4), (d), (e) (2) and (3), (e)(4) (G) and (H), (e)(8), (f), and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c), and (e) and have been published in the Federal Register.

JUSTICE/PRC—007

System name: Workload Record, Decision Result, and Annual Report System.

System location: U.S. Parole Commission Headquarters, 320 First Street, 3d Floor, Washington, D.C. 20537.

Categories of individuals covered by the system: Any inmate and parolee or mandatory releasee who has been the subject of a decision for the period covered in the report for which the data is used (prior month, prior quarter, or prior year).

Categories of records in the system: Certain original input forms indicate the inmate or person under supervision by name and register number and give the date and specific statistical detail as to the decision made. They include criminal history type of information regarding the persons in question. Types of decisions covered in order of the form numbers above are after hearing or record review, after recommendation, after Regional Appeal, after National Appeal, and after a decision reopening and modifying. The data is input into a computer through punchcards and is used to provide the following: (a) A monthly report of workload containing number and type of hearings per region further broken out by institutions within regions and type of sentence; (b) A quarterly report on decision results indicating, among other statistics, number and type of decisions within, above, and below guidelines broken out by examiners making the decisions; (c) Together with hand posted data on other items of statistical value, this data is being used to create the Annual Report of the Commission.

Authority for maintenance of the system: 18 U.S.C. 4201-4218, 5005-5041, 28 CFR Part O, Subpart V, 28 CFR Part 2.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (a) These records are used internally to analyze work product, the performance of evaluators, and various types of procedures and hearings and to evaluate the guidelines themselves.

(b) These records are used to prepare an annual report to the Attorney General, and Congress and the public indicating in quantitative and qualitative terms Commission activity and accomplishment.

(c) In the event that material in this system indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, the relevant records may be referred to the appropriate agency, whether Federal, State, local, or foreign charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation or order issued pursuant thereto.

(d) A record from this system of records may be disclosed to a Federal, State, or local agency maintaining civil, criminal or other relevant information if necessary to obtain information relevant to Parole Commission matters.

(e) A record from this system may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant or other benefit by the

requesting agency, to the extent that information is relevant and necessary to the requesting agency's decision on the matter.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the U.S. Parole Commission unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the U.S. Parole Commission not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and in response to a communication from the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper input forms are stored in folders only until information from them is punched into cards. Data is stored principally on punch cards and plans are being developed to convert it to tape storage. Monthly and quarterly reports in the form of computer printouts are filed in folders. Annual report is in book form and stored in library shelves.

Retrievability: Data in this system can be retrived by inmate's name and register number from the original input forms, IBM card decks, and planned tape substitute for card decks. It is only retrieved by region, by examiner, by type of decision made or hearing held, by relation to the guidelines and other similar means except for individual case retrievability in the guideline section of the quarterly report. Except for this, there is no output from this system now produced in which any information is identifiable by the name or register number of any person. Such identification exists in the input and storage data area.

Safeguards: Data on forms and IBM cards and/or tape retrievable by individual is stored in the Research Sections Office in cabinets. Research personnel (all selected Commission employees) supervise this data by day and use it on a "need to know" basis. The room where it is stored is locked outside of office hours, and the entire Headquarters building is guarded and secured. Monthly and quarterly reports are for use of the Chairman, his Executive Assistant and Commission Members and professional personnel. No information thereon is retrievable as pertaining to any individual except certain breakouts by Parole Commission employee examiners and by inmate in the guideline section of the quarterly reports. These printouts are stored in the Commission Headquarters offices, all of which are supervised by day, locked at night, and are in a secured building. The Annual Report contains no information identifiable by individual and is a public document.

Retention and disposal: Completed input forms—1. Until data is keypunched into IBM cards—usually 1 month after forms are completed. They are then destroyed; 2. IBM card decks or planned tape substitute—10 years after preparation, cards will be destroyed—tape degaussed; 3. Printouts of annual and quarterly reports—10 years; 4. Annual Reports—Some copies retained perpetually in Archives.

System manager(s) and address: Executive Assistant to the Chairman, Room 354-B, U.S. Parole Commission, 320 First Street NW., Washington, D.C. 20537.

Record source categories: (a) Commission inmate files; (b) Docket sheets; (c) Commission notices of action, orders and documentation following hearings; (d) Commission warrant applications and warrants; (e) General Commission records and data.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c) (3) and (4), (d), (e) (2) and (3), (c)(4) (G) and (H), (e)(8), (f), and (g) of the Privacy Act pursuant to 5 U.S.C. 552a(j)(2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

JUSTICE/USA—005

System name: Civil Case Files.

System location: Ninety-four United States Attorneys' Offices (See attached Appendix).

Categories of individuals covered by the system: (a) Individuals beings investigated in anticipation of Civil suits; (b) Individuals involved in Civil suits; (c) Defense Counsel(s); (d) Information sources; (e) Individuals relevant to the development of Civil suits.

Categories of records in the system: (a) All Civil Cases Files (USA-34); (b) Docket Cards (USA-116); (c) Civil Debtor Cards—(USA-117b); (d) Civil Case Activity Card (USA-164); (e) Civil Debtor Activity Card (USA-166); (f) 3 X 5 Index Cards; (g) Caseload Printouts; (h) General Correspondence re: Civil Cases; (i) Reading Files re: Civil Cases; (j) Information Source File; (k) Attorney Assignment sheets; (l) Telephone records; (m) Miscellaneous Investigative files; (n) Lands Condemnation files (Appraisal and Negotiator Reports); (o) Tax Case Resource File; (p) Material in Civil File related to Criminal cases arising out of Civil Proceedings; (q) Search Warrants; (r) Files uniques to District; (s) Civil Miscellaneous Correspondence File.

Authority for maintenance of the system: These systems are established and maintained pursuant to 5 U.S.C. 301 and 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: A record maintained in this system of records may be disseminated as a routine use of such record as follows:

(a) in any case in which there is an indication of a violation or potential violation of law, civil, or regulatory in nature, the record in question may be disseminated to the appropriate Federal, State, local or foreign agency charged with the responsibility for investigating, defending or pursuing such violation, civil claim or remedy, or charged with enforcing, defending or implementing such law;

(b) in the course of investigating the potential or actual violation or civil liability of any government action or law, civil, or regulatory in nature, or during the course of a trial or hearing or the preparation for a trial or hearing for such civil action, a record may be disseminated to a Federal, State, local, or foreign agency, or to an individual or organization, if there is reason to believe that such agency, individual, or organization possesses information relating to the investigation or civil action trial, or hearing and the dissemination is reasonably necessary to elicit such information or to obtain the cooperation of a witness or an agency;

(c) a record relating to a case or matter may be disseminated in an appropriate Federal, State, local, or foreign court or grand jury proceeding in accordance with established constitutional, substantive, or procedural law or practice;

(d) a record relating to a case or matter may be disseminated to a Federal, State, or local administrative or regulatory proceeding or hearing in accordance with the procedures governing such proceeding or hearing;

(e) a record relating to a case or matter may be disseminated to an actual or potential party or his attorney for the purpose of negotiation or discussion on such matters as settlement of the case or matter, or informal discovery proceedings;

(f) a record relating to a case or matter that has been referred by an agency for investigation, civil action, or enforcement, or that involves a case or matter within the jurisdiction of an agency, may be disseminated to such agency to notify the agency of the status of the case or matter or of any decision or determination that has been made, or to make such other inquiries and reports as are necessary during the processing of the case or matter;

(g) a record relating to a case or matter may be disseminating to a foreign country pursuant to an international treaty or convention entered into and ratified by the United States or to an executive agreement;

(h) a record may be disseminated to a Federal, State, local, foreign, or international law enforcement agency to assist in the general crime prevention and detection efforts of the recipient agency or to provide investigative leads to such agency or to assist in general civil matters or cases;

(i) a record may be disseminated to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance as is required, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information relates to the requesting agency's decision on the matter;

(j) a record may be disseminated to the public, news media, trade associations, or organized groups, when the purpose of the dissemination is educational or informational, such as descriptions of types or courses of action or distinctive or unique modus operandi, provided that the record does not contain any information identifiable to a specific individual other than such modus operandi;

(k) a record may be disseminated to a foreign country, through the United States Department of State or directly to the representative of such country, to the extent necessary to assist such country in general crime prevention, the pursuit of general civil, regulatory or admin-

V 4 3 / 189
SE 28 78

istrative civil actions or to provide investigative leads to such country, or assist in the location and/or returning of witnesses and other evidence;

(l) a record that contains classified national security information and material may be disseminated to persons who are engaged in historical research projects, or who have previously occupied policy making provisions to which they were appointed by the President, in accordance with the provisions codified in 28 CFR 17.60.

(m) a record relating to an actual or potential civil or criminal violation of title 17, United States Code, may be disseminated to a person injured by such violation to assist him in the institution or maintenance of a suit brought under such title.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of this record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: All information, except that specified in this paragraph, is recorded on basic paper/cardboard material, and stored within manila file folders, within metal file cabinets, electric file/card retrievers or safes. Some material is recorded and stored on magnetic tape, card or other data processing type storage matter for reproduction later into conventional formats.

Retrievability: Information is retrieved primarily by name of person, case number, complaint number or court docket number. Information within this system of records may be accessed by various U.S. Attorneys' offices by means of cathode-ray tube terminals (CRT's).

Safeguards: Information in the system is both confidential and nonconfidential and located in file cabinets in the United States Attorney offices. Some materials are located in locked file drawers and safes, and others in unlocked file drawers. Offices are locked during nonworking hours and are secured by either Federal Protective Service, United States Postal Service, or private building guards. Information that is retrievable by CRT's within various U.S. Attorneys' offices requires user identification numbers which are issued to authorized employees of the Department of Justice.

Retention and disposal: Records are maintained and disposed of in accordance with Department of Justice retention plans.

System manager(s) and address: System Manager for the system in each office is the Administrative Officer/Assistant, for the U.S. Attorney for each district. (See attached appendix.)

Notification procedure: Address inquiries to the System Manager for the judicial district in which the case or matter is pending. (See attached appendix.)

Record access procedures: The major part of the information maintained in this system is exempt from this requirement under 5 U.S.C. 552a (j)(2), (k)(1) and/or (k)(2). To the extent that this system is not subject to exemption, it is subject to access. A determination as to examination shall be made at the time a request for access is received. A request for access to a record from this system shall be made in writing, with the envelope and the letter clearly marked "Privacy Access Request." Include in the request the name of the individual involved, his birth date and place, or any other identifying number or information which may be of assistance in locating the record and the name of the case or matter involved, if known. The requester will also provide a return address for transmitting the information. Access requests will be directed to the System Manager. (See attached appendix.)

Contesting record procedures: The major part of the information maintained in this system is exempt from this requirement under 5 U.S.C. 552(a) (j)(2), (k)(1) and/or (k)(2). To the extent that this system is not subject to exemption, it is subject to contest. A determination as to exemption shall be made at the time a request for contest is received. Individuals desiring to contest or amend information maintained in the system should direct their request to the System Manager (see attached appendix) stating clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

Record source categories: Sources of information contained in this system include, but are not limited to investigative reports of Federal, State, and local law enforcement, civil litigation, regulatory and administrative agencies; client agencies of the Department of Justice; other non-Department of Justice investigative agencies; forensic reports; statements of witnesses and parties; verbatim transcripts of deposition and court proceedings; data, memoranda and reports from the court and agencies thereof; and the work product of Assistant United States Attorneys, Department of Justice attorneys and staff, and legal assistants working on particular cases.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c) (3) and (4), (d), (e) (1), (2) and (3), (e)(4) (G) and (H), (e)(5) and (8), (f), (g) and (h) of the Privacy Act pursuant to 5 U.S.C. 552a(j)(2) and (k) (1) and (2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

PART III

New systems of records established after publication of the 1977 Compilation are listed below. They are reprinted in full text following the listing.

JUSTICE/CIV-004, Swine Flu Administrative Claim File System

JUSTICE/CRS-001, Management Information System (MIS)

JUSTICE/CRM-025, Tax Disclosure Index File and Associated Records

JUSTICE/INS-002, Application and Petition Tracking System (APTS)

JUSTICE/INS-003, Position Accounting/Control System (PACS)

Swine Flu Administrative Claim File System, JUSTICE/CIV-004: Published at 43 FR 38120, on August 25, 1978. If no comments are received by October 25, 1978 the new system will be adopted.

JUSTICE/CIV-004

System name: Swine Flu Admininstrative Claim File System.

System location: Civil Division, U.S. Department of Justice 521 12th Street NW., No. 804, Washington, D.C. 20530.

Categories of individuals covered by the system: Any and all parties making administrative claims for damages resulting from the administration of the swine flu vaccine, whose claims have been referred by the Department of Health, Education, and Welfare for handling by the Civil Division, will have identifying data contained in this system.

Categories of records in the system: (1) The main record of the system is the administrative claim file which is retained on each claim under the jurisdiction of the Civil Division and constitutes the official record of the Department of Justice. All record material relating to a claim is retained in the file. Each claim is assigned a number in sequential order from the date of the filing. (2) Alphabetical and numerical indices are utilized as a means of access to the proper file by the cross-referencing of the names of all claimants with the file number. Index cards are used in these indices. (3) A Docket Card Index is maintained on each claim in order to follow the progress of all swine flu claims and to obtain statistical data for periodic and fiscal reports. However, all information contained on the cards has been taken from the record material contained in the official file.

Authority for maintenance of the system: General authority to maintain the system is contained in 5 U.S.C. 301 and 44 U.S.C. 3101. The particular system was established by authority of 28 CFR 0.77(f) which authority was delegated to the Civil Division pursuant to a memorandum from the Deputy Attorney General, dated July 17, 1974.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Any record pertaining to any swine flu administrative claim in the Civil Division may be disseminated to any other component of the Department of Justice, including the FBI and the United States Attorneys' Offices, for use in connection with the consideration of that claim or matter or any other claim, case or matter under consideration by the Civil Division or any other component of the Department of Justice. A record maintained in this system of records may be disseminated as a routine use of such record as follows: (1) a record relating to a claim or

matter that has been referred by the Department of Health, Education, and Welfare for investigation, or that involves a claim or matter within the jurisdiction of an agency, or where the agency or officials thereof are a party to litigation or where the agency or officials may be affected by a claim or matter may be disseminated to such agency to notify the agency of the status of the claim or matter or any decision or determination that has been made, or to make such other inquiries and reports as are necessary during the processing of the claim or matter; (2) a record may be disseminated to the public, news media, trade associations, or organized groups, when the purpose of the dissemination is educational or informational, provided that the record does not contain any information identifiable to a specific individual other than that necessary to identify the matter and is not an unwarranted invasion of privacy or where the information has previously been filed in a judicial or administrative office, including the clerk of the court; (3) in any claim in which there is an indication of a violation or potential violation of law, whether civil, criminal or regulatory in nature, the record in question may be disseminated to the appropriate federal, state, local or foreign agency charged with the responsibility for investigating or prosecuting such violation or charged with enforcing or implementing such law; (4) in the course of investigating the potential or actual violation of any law, whether civil, criminal or regulatory in nature, or during the course of a trial or hearing, or the preparation for a trial or hearing for such violation, a record may be disseminated to a federal, state local or foreign agency, or to an individual or organization, if there is reason to believe that such agency, individual or organization possesses information relating to the investigation, trial or hearing and the dissemination is reasonably necessary to elicit such information or to obtain the cooperation of a witness or an informant; (5) a record relating to a claim or matter may be disseminated in an appropriate federal, state, local, or foreign court or grand jury proceeding in accordance with established constitutional, substantive, or procedural law or practice; (6) a record relating to a claim or matter may be disseminated to a federal, state, or local administrative or regulatory proceeding or hearing in accordance with the procedures governing such proceeding or hearing; (7) a record relating to a claim or matter may be disseminated to an actual or potential party or his attorney for the purpose of negotiation or discussion of such matters as settlement of the claim or matter, or for formal or informal discovery proceedings.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information of Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: (1) The claim files utilize standard file jackets and are retained in standard file cabinets; (2) the alphabetical and numerical index cards, as well as the docket cards, are retained in standard file cabinets.

Retrievability: The files and docket cards must be retrieved by file number. The file number can be ascertained from the alphabetical index if the name of the administrative claimant is known.

Safeguards: Information contained in the system is unclassified. No personalized information about a claim or claimant will be given to anyone other than the claimant, his attorney, or authorized representative. Requests for such information will not be given by telephone unless the caller can provide sufficient information to identify himself as one authorized to receive personalized information. Nonpersonal or generalized information will be given to any requester. Information in the system is regarded as sensitive pursuant to Department rules and procedures. Department rules and procedures are in force to insure that only Departmental attorneys and their authorized agents have access to the information.

Retention and disposal: When a claim file is closed by the legal section, it is sent to the Federal Records Center for retention in accordance with the authorized Record Disposal Schedule for the classification of the case. Such schedules are approved by the National Archives. After the designated period has passed, the file is destroyed. However, the index and docket cards are not purged and are retained for as long as practicable.

System manager(s) and address: Assistant Attorney General, Civil Division, U.S. Department of Justice, 10th and Constitution Avenue NW., Washington, D.C. 20530.

Notification procedure: Address inquiries to Chief, Torts Section, Civil Division, U.S. Department of Justice, 10th and Constitution Avenue NW., Washington, D.C. 20530.

Record access procedures: A request for information concerning the swine flu administrative claims of the Civil Division should be submitted in writing, with the envelope and letter clearly marked "Privacy Act Request". The request should include the file number and/or names of any claimants known to the requester. The requester should also provide a return address for transmitting the information. Such access requests should be submitted to the System Manager listed above. Requests may also be made by telephone. In such cases the caller will be referred to the attorney of record. The attorney, in turn, may require an official written request.

Contesting record procedures: Individuals desiring to contest or amend information maintained in the system should direct their request to the System Manager listed above. The request should clearly state what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

Record source categories: All swine flu claimants are sources of information. Such information is either contained in the record material in the case files or has been extracted from that record material and put onto docket and index cards.

Systems exempted from certain provisions of the act: None.

Management Information System (MIS) JUSTICE/CRS-001: Published at 43 FR 33351 on July 31, 1978. If no comments are received by September 29, 1978, the new system will be adopted.

JUSTICE/CRS-001

System name: Management Information System.

System location: Community Relations Service, U.S. Department of Justice, 550 11th Street NW., Washington, D.C. 20530.

Categories of individuals covered by the system: Conciliators and Mediators of the Community Relations Service of the U.S. Department of Justice.

Categories of records in the system: The file contains the names of CRS employees, their case assignments, and the time allocated to each assignment. In addition, information reflecting the current status and handling of the case is included within the system.

Authority for maintenance of the system: The file is established to effect the purposes of 42 U.S.C. 2000g-1, 2000g-3 (1970).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The file is used by CRS personnel as a basis for preparing daily, weekly, and monthly activity reports for internal management. It is also used by the Administrative Office to prepare time efficiency analyses on CRS personnel. In addition, the file will be consulted in order to prepare budget requests and reports to the Associate Attorney General, the Attorney General, and to Congress.

Release of Information to the News Media and the Public: Information from the system of records may be made available to the news media and the public, unless such release would violate 42 U.S.C. 2000g-2, or would constitute an unwarranted invasion of personal privacy.

Release of Information to Members of Congress: Information contained in the system, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of, and at the request of, the individual who is the subject of the record unless such release would violate 42 U.S.C. 2000g-2.

Release of Information to the National Archives and Records Service: A record from the system of records may be disclosed to the National Archives and Records Service (NARS) for records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906, unless such disclosure would violate 42 U.S.C. 2000g-2.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Automated records are maintained on magnetic disk at the Department of Justice Data Management Service, and on tape at the Community Relations Service, 550 11th Street NW., Washington, D.C.

Retrievability: Information is retrieved by a variety of key words including, but not limited to, the name of the employee, geographic location, and subject matter of the record.

Safeguards: Information maintained in the system is safeguarded and protected in accordance with Department rules and procedures governing the handling of computerized information. Only individuals specifically authorized by the Director of CRS will have access to the computer through a single terminal located in an office occupied during the day and locked at night. Access to the information in the system will be limited to those CRS employees whose official duties require such information.

Retention and disposal: Records classified by the subject's name are retained until 60 days after the record subject leaves the employment of the Community Relations Service and are then deleted from the system.

System manager(s) and address: Deputy Director, Community Relations Service, U.S. Department of Justice, Todd Building, 550 11th Street NW., Washington, D.C. 20530.

Notification procedure: Address inquiries to Office of Chief Counsel, Community Relations Service, U.S. Department of Justice, 550 11th Street NW., Washington, D.C. 20530.

Record access procedures: In all cases, requests for access to a record shall be in writing, by mail or in person. If request for access is made by mail, the envelope and letter shall be clearly marked "Privacy Act Request." The requester shall include a description of the record requested and, if known, the case file number(s). To identify a record relating to an individual, the requester must provide the individual's full name, date and place of birth, employee identification number, and date of employment and duty assignment station(s) while employed by the Community Relations Service.

Contesting record procedures: Any individual desiring to contest or amend information maintained in the system should direct his or her request to the Deputy Director, Community Relations Service, U.S. Department of Justice, Todd Building, 550 11th Street NW., Washington, D.C. 20530. The request should state clearly what information is being contested, the reason for contesting, and the proposed amendment to the information.

Record source categories: The records are prepared by the conciliator/mediator or, in exceptional cases, by his or her supervisor.

Systems exempted from certain provisions of the act: None.

JUSTICE/CRM-025

System name: Tax Disclosure Index File and Associated Records.

System location: U.S. Department of Justice, Criminal Division, 10th & Constitution Avenue, N.W., Washington, D.C. 20530.

Categories of individuals covered by the system: Taxpayers about whom the Criminal Division has requested and/or obtained disclosure of tax material from the Internal Revenue Service pursuant to 26 U.S.C. 6103.

Categories of records in the system: The system contains all requests for tax material, any such material provided by the Internal Revenue Service or duplicated or extracted by the Criminal Division from such material, and related records necessary to the application for and/or safeguarding of such material received on or after January 1, 1977.

Authority for maintenance of the system: This system is established and maintained pursuant to 26 U.S.C. 6103(p)(4).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: A record maintained in this system of records may be disseminated as a routine use of such record (A) to any officer or employee of the Criminal Division who is personally and directly engaged in preparation for any proceeding (or investigation which may result in such proceeding) pertaining to the enforcement of a specifically designated Federal criminal statute not involving tax administration or to the enforcement of a Federal criminal statute in any matter involving tax administration; and (B) to any person outside of the Criminal Division where such dissemination is or reasonably appears to be in furtherance of proper preparation for any proceeding (or investigation which may result in such proceeding) pertaining to the enforcement of a specifically designated Federal criminal statute not involving tax administration or to the enforcement of a Federal criminal statute in any manner involving tax administration. Such dissemination shall be permittted to the extent authorized under 26 U.S.C. 6103(h), 26 U.S.C. 6103(i), 26 CFR 404.6103(h)(2)-1, 26 CFR 404.1603(i)-(1), and Rule 6(e), FR Crim. P. The above mentioned routine uses include the following:

(1) dissemination to an attorney of the Criminal Division assigned responsibility with respect to an above-mentioned proceeding or an investigation which may result in such proceeding;

(2) dissemination to an officer or employee of the Department of Justice with supervisory or clerical responsibility with respect to an above-mentioned proceeding, or an investigation which may result in such proceeding;

(3) dissemination to an officer or employee of another Federal agency (as defined at 5 U.S.C. 551(1)) with investigative, supervisory, or clerical responsibility working under the direction and control of such attorneys of the Department of Justice as are assigned responsibility with respect to an above-mentioned proceeding, or an investigation which may result in such proceeding;

(4) dissemination to a taxpayer to whom such record relates, or to such taxpayer's legal representative, to properly interview, consult, depose, or interrogate or otherwise obtain information relevant to an above-mentioned proceeding, or an investigation which may result in such proceeding, from such taxpayer or his legal representative;

(5) dissemination during the course of an investigation which may result in an above-mentioned proceeding to any witness who may be called on to give evidence in such a proceeding to properly interview, consult, depose, or interrogate or otherwise obtain relevant information from such potential witness;

(6) dissemination to any person having special knowledge or technical skills (such as handwriting analysis, photographic development, sound recording enhancement, or voice identification) to properly obtain the services of such person in an above-mentioned proceeding, or an investigation which may result in such proceeding;

(7) dissemination to an officer or employee of the Department of Justice, another Federal agency (as defined at 5 U.S.C. 551(1)), or a foreign government to properly utilize international contacts and judicial assistance in an above-mentioned proceeding, or an investigation which may result in such proceeding;

(8) dissemination to an officer or employee of the Internal Revenue Service to obtain additional disclosure pursuant to 26 U.S.C. 6103 in an above-mentioned proceeding, or an investigation which may result in such proceeding;

(9) dissemination to a Federal grand jury;

(10) dissemination to an officer or employee of the Department of Justice to obtain a court order to compel testimony pursuant to 18 U.S.C. 6002 and 6003 in any above-mentioned proceeding, or an investigation which may result in such proceeding;

(11) dissemination to any party to an above-mentioned proceeding, to properly conduct negotiations concerning, or obtain authorization for, disposition of the proceeding, in whole or in part, or to obtain stipulations of fact in connection with the proceeding;

(12) dissemintion to a judicial or administrative body (such as the United States Parole Commission) in an above-mentioned proceeding or in preparation therefore, or in any post-conviction proceeding resulting from an above-mentioned proceeding;

(13) dissemination to a court reporter in an above-mentioned proceeding, or as required, in preparation therefore.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: A record contained in this system is stored manually on index cards and in file jackets.

Retrievability: A record is retrieved by name of the taxpayer in indices maintained in individual sections of the Criminal Division.

Safeguards: Records are safeguarded om accordance with Department of Justice rules and procedures. Buildings in which records are located are under security guard, and access to premises is by official identification. Records are stored in spaces which are locked outside of normal office hours and in safe type filing cabinets which are locked when not being accessed. Access to such cabinets is limited to Division personnel whose duties and responsibilities require such access and to whom access may be permitted. A record of access is kept which indicates the name of each person who gains access to material from the secured area and the date and time of each access.

Retention and disposal: Records not retained are returned to the Internal Revenue Service or rendered undisclosable in accordance with 26 U.S.C. 6103(p)(4)(f)(ii) Currently there are no provisions for disposal of records contained in this system that are not returned to the Internal Revenue Service or are otherwise rendered undisclosable.

System manager(s) and address: Assistant Attorney General, Criminal Division, U.S. Department of Justice, 10th Street and Constitution Avenue, NW., Washington, D.C. 20530.

Notification procedure: The major part of this system is exempted from this requirement under 5 U.S.C. 552a(j)(2). Inquiry concerning the system should be addressed to the system manager listed above.

Record access procedures: The major part of this system is exempted from this requirement under 5 U.S.C. 552a(j)(2). To the extent that this system of records is not subject to exemption, it is subject to access and contest. A determination as to exemption shall be made at the time a request for access is received. A request for access to a record contained in this system shall be made in writing, with the envelope and the letter clearly marked 'Privacy Access Request.' Include in the request the name of the individual involved, his birth date and place or any other identifying number or information which may be of assistance in locating the record, the name of the case or matter involved, if known, and the name of the judicial district involved, if known. The requestor will also provide a return address for transmitting the information. Access requests will be directed to the system manager listed above. Records in this system are exempt from the access provisions of the Act in accordance with the applicable exemption notice.

Contesting record procedures: Taxpayers desiring to contest or amend information maintained in the system should direct their request to the system manager listed above, stating clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought. Records in this system are exempt from the contesting provisions of the Act in accordance with the applicable exemption notice.

Record source categories: Sources of information contained in this system are the Internal Revenue Service, Federal investigative agencies, Federal prosecutors, and personnel of the Criminal Division, Department of Justice.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c)(3) and (4), (d), (e)(1), (2) and (3), (e)(4)(G), and (H) and (I), (e)(5) and (8), (f), and (g) of the Privacy Act pursuant to 5 U.S.C. 552a(j)(2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

JUSTICE/INS-002

System name: Application/Petition Tracking System (APTS).

System location: District offices of the Immigration and Naturalization Service, as detailed in JUSTICE/INS—001.

Categories of individuals covered by the system: Individuals who have filed applications or petitions for benefits under the Immigration and Nationality Act, as amended.

Categories of records in the system: Name of applicant or petitioner, date and country of birth, alien identification number, form number of application or petition, date filed or received in INS office, control number, status, and location of relating file or records.

Authority for maintenance of the system: Section 103 of the Immigration and Nationality Act, as amended (8 U.S.C. 1103).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information in this system will be used by employees of the Immigration and Naturalization Service to determine the status of the pending application or petition and to locate relating files and other records promptly. This system of records is used to serve the public by providing data for responses, when authorized, to inquiries, complaints, and so forth.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in a system of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information in this system of records is maintained on magnetic disk.

Retrievability: Records are retrieved by the name or alien identification number of the applicant or petitioner, or the control number of the application or petition. Access to the system is restricted to employees of the Immigration and Naturalization Service responsible for the control, processing, and adjudication of petitions and applications. Method of access is by keyboard terminals located in areas restricted to authorized INS personnel.

Safeguards: This system of records is safeguarded and protected in accordance with Department of Justice and INS rules and procedures.

Retention and disposal: Records will be deleted from the automated data base ninety (90) days after final decision on the application or petition.

System manager(s) and address: Associate Commissioner, Management, Central Office, Washington, D.C.; District Directors in district offices in the United States where this system of records is located.

Notification procedure: Inquiries should be addressed to the District Director of the Immigration and Naturalization Service office where the application or petition was filed. If the filing location is not known, inquiries may be addressed to the Associate Commissioner, Management, Central Office, Immigration and Naturalization Service, 425 Eye Street NW., Washington, D.C. 20536.

Record access procedures: In all cases, requests for access to a record from this system of records shall be in writing or in person. If request for access is made in writing, the envelope and letter shall be clearly marked "Privacy Access Request." The requester shall include a description of the general subject matter and, if known, the relating file number. To identify a record relating to an individual, the requester should provide the individual's full name; date and place of birth; alien, citizen, or employee identification number; and, if appropriate, the date and place of entry into or departure from the United States. The requester shall also provide a return address for transmitting the information.

Contesting record procedures: Any individual desiring to contest or amend information maintained in the system should direct his request to the INS office nearest his residence or the office in which he believes a record concerning him may exist. The request should state clearly what information is being contested, the reasons for contesting it, and the proposed amendment to the information.

Record source categories: All information is entered from the original application or petition forms completed by the individuals, with the addition of the date of filing or receipt by INS, a control number assigned at the time of receipt, section assignments, and status information updated by each division or unit handling the pending matter.

Systems exempted from certain provisions of the act: None.

Position Accounting/Control System (PACS), JUSTICE/INS-003: Published at 43 FR 7061 on February 17, 1978. No formal, final adoption notice was issued. Therefore, notice is hereby given that no comments were received and the new system is now adopted.

JUSTICE/INS-003

System name: Position Accounting/Control System (PACS).

System location: Central Office, Immigration and Naturalization Service, 425 I Street NW., Washington, D.C.

Categories of individuals covered by the system: Employees of the Immigration and Naturalization Service.

Categories of records in the system: A. Position data: position number; category code; organization code; position title; pay plan; series; grade; description; accounting classification code; active/inactive code; fund control number; amount authorized; hours authorized; new program element code; input control number; input transaction code; date position created or vacated; SF-52 date; announcement date and number; Entered on Duty (EOD) date; projected vacant date; date last classified; date Position Management Committe (PMC) approved; date position last audited or reviewed; date of transaction; position appeal date, if any; union covereage code; appealed to code; position freeze code; competitive level code; remarks code.

B. Payroll data: Social Security Account Number (SSAN); pay period number; payroll subobject code; last pay period amount and hours; cumulative amount and hours; accrual amount and hours; prior month YTD amount and hours; payroll current/prior/manual (C/P/M) code.

C. Personnel data: position number; organization code; position title; payplan; series; grade; description; accounting classification code; incumbent's name, Social Security Account Number, next

V 4 3 - 1 8 9

Quality Step Incrrease (QSI) date; nature of action; transaction date; FLSA exemption code; and effective date.

Authority for maintenance of the system: Section 103 of the Immigration and Nationality Act, as amended (8U.S.C. 1103); Delegation of Authority to Departments (5 U.S.C. 301); Position Management Systems and Employment Ceilings, Bureau of the Budget Circular No. A-64 (June 28, 1965; January 2, 1970).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information in this system is used for reports to INS managers of position authorization and cost data by geographic area, organizational unit, program activity, and budget allocation, including the composition of the INS work force (on-board strength and vacancies); status of each vacancy; turnover and occupany rate statistics; aggregate position data by grade level, organization unit, program activity, type of position, etc.; actual costs for each position and projected position costs for the next fiscal year; and authorization of positions through funds control and periodic review mechanisms.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in a system of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Automated records are maintained on magnetic disk and tape at the Department of Justice Data Management Service. All other records re maintained as paper documents at the Central Office, 425 I Street NW., Washington, D.C. and four regional personnel offices.

Retrievability: Records are retrieved by position number, organization code, accounting classification code, or program element code.

Access controls: Access to the system is restricted to employees of the Immigration and Naturalization Service responsible for position accounting and management. Biweekly reports are distributed only to authorized INS personnel. Remote terminals for additional access are located in areas restricted to authorized INS personnel.

Safeguards: The data in the automated system of records is safeguarded and protected in accordance with Department of Justice and INS rules and procedures. Paper forms are stored in metal file cabinets which are locked outside of normal duty hours.

Retention and disposal: records are deleted from the automated data base within 60 days after termination of the position authorization. Employee personnel information in the automated data base is deleted when the position becomes vacant. The data base is updated biweekly to maintain accurate, current information on position status and characteristics.

System manager: Associate Commissioner, Management.

Notification procedure: Inquiries should be addressed to the Associate Commissioner, Management, Immigration and Naturalization Service, 425 I Street NW., Washington, D.C. 20536.

Record access procedures: In all cases, requests for access to a record shall be in writing, by mail or in person. If request for access is made by mail, the envelope and letter shall be clearly marked "Privacy Access Request." The requester shall include a description of the subject matter and, if known, the relating file number. To identify a record relating to an individual, requester should provide the individual's full name, date and place of birth, employee identification number, and, if known, position number. The requester shall also provide a return address for transmitting the information.

Contesting record procedures: Any individual desiring to contest or amend information maintained in the system should direct his request to the Associate Commissioner, Management. The request should state clearly what information is being contested, the reasons for contesting it, and the proposed amendment to the information.

Record source categories: Position management data is obtained from official records in INS personnel offices. Payroll data is obtained from the computerized Department of Justice Payroll System (JUSTICE/OMF—003). Personnel management data is obtained from the Department of Justice Personnel System (JUNIPER).

Systems exempted from certain provisions of the act: None.

PART IV

Systems of records which the Department now proposes to amend are listed below. They are reprinted in full text following the listing. Interested persons are invited to submit comments to the Administrative Counsel, Office of Management and Finance, Room 1118, Department of Justice, Washington, D.C. 20530. All comments must be received by October 30, 1978. If no comments are received within thirty days, the amendments will be adopted as set forth. No oral hearings are contemplated.

JUSTICE/ATR-008: Review indicates that information of a sensitive nature cannot be accessed by individual identifier and, therefore, there is no need to exempt this system of records from the provisions of the Privacy Act.

The entire system, amended to show that this system is not exempted from any provision of the Privacy Act, is reprinted below.

JUSTICE/ATR-008

System name: Freedom of Information/Privacy Requester/Subject Index File.

System location: U.S. Department of Justice, 10th and Constitution Avenue, N.W., Washington, D.C. 20530.

Categories of individuals covered by the system: Individuals who have requested information under the Freedom of Information and Privacy Acts from files maintained by the Antitrust Division and individuals about whom material has been requested under the above acts.

Categories of records in the system: This system contains an index record of every request under the Freedom of Information and Privacy Acts made to the Antitrust Division since November, 1974, including all request letters and our responses.

Authority for maintenance of the system: Authority for maintaining this system exists under 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: This index is maintained for ready reference by Division personnel for the identification of the subject matter of and persons originating Freedom of Information and Privacy Act requests. Such reference is utilized in aid of access to files, maintained by the Freedom of Information and Privacy Unit, for purposes of reference to requests on appeal, questions concerning pending or terminated requests, and compliance with requests similar or identical to past requests.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information in this system is maintained on index cards.

Retrievability: Information in the system is retrieved by reference to the names of present and past requesters and names of individuals about whom information is requested undeer the Freedom of Information and Privacy Act.

Safeguards: Information contained in the system is unclassified. During duty hours access to this system is monitored and controlled by Antritrust Division personnel in the area where the system is maintained. The area is locked during non-duty hours.

Retention and disposal: Indefinite.

System manager(s) and address: Freedom of Information and Privacy Acts Control Officer, Antitrust Division, U.S. Department of Justice, 10th and Constitution Avenue, N.W., Washington, D.C. 20530.

Notification procedure: Address inquiries to the Assistant Attorney General, Antitrust Division, U.S. Department of Justice, 10th and Constitution Avenue, N.W., Washington, D.C. 20530.

Record access procedures: Request for access to a record from this system should be made in writing and be clearly identified as a 'Privacy Access Request.' Included in the request should be the name of the individual having made the Freedom of Information request and/or the individual about whom the records were requested. Requesters should indicate a return address. Requests will be directed to the System Manager shown above.

Contesting record procedures: Individuals desiring to contest or amend information maintained in the index should direct their request to the System Manager and state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

Record source categories: Source of the information maintained in the system are those records derived from the receipt and processing of Freedom of Information and Privacy Act requests.

Systems exempted from certain provisions of the act: None.

Registry of Names of Interested Persons Desiring Notification of Submissions Under Section 5 of the Voting Rights Act, JUSTICE/CRT-004: Revisions to this system of records effect a change in the system location and correction of a typographical error under the category entitled, "Routine uses of records. . . ." The text reprinted below reflects these modifications.

JUSTICE/CRT-004

System name: Registry of Names of Interested Persons Desiring Notification of Submissions under Section 5 of the Voting Rights Act.

System location: U.S. Department of Justice; Civil Rights Division; 10th and Constitution Avenue, NW., Washington, D.C. 20530.

Categories of individuals covered by the system: Persons who have requested that the Attorney General send them notice of submissions under Section 5 the of Voting Rights Act of 1965, 42 U.S.C. 1973c.

Categories of records in the system: The Registry contains the name, address and the telephone numbers of interested persons and, where appropriate, the area or areas with respect to which notification was requested by such persons.

Authority for maintenance of the system: 28 C.F.R. 51.13; 42 U.S.C. 1973c; 5 U.S.C. 301 and 28 U.S.C. 509, 510.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Registry is used to identify persons interested in receiving notice of Section 5 submissions and to comply with their requests. The Registry may be used to notify the persons listed therein of any proposed changes in the 'Procedures for the Administration of Section 5 of the Voting Rights Act of 1965,' 28 C.F.R. 51-1 et seq., and to solicit their comments with respect to any such proposed changes.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 C.F.R. 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Names are stored in a card file system.

Retrievability: Records in this system are retrievable by the names of interested persons or organizations.

Safeguards: Information in the system is safeguarded in accordance with Departmental rules and procedures governing access, production and disclosure of any materials contained in its official files.

Retention and disposal: An individual or organizational name is retained in the Registry until such time as that person or organization requests that the name be deleted.

System manager(s) and address: Chief; Voting Section; Civil Rights Division; U.S. Department of Justice; Washington, D.C. 20530.

Notification procedure: Address inquiries to: Assistant Attorney General; Civil Rights Division; U.S. Department of Justice; Washington, D.C. 20530.

Record access procedures: This system contains no information about any individual other than as described in Category of Record above. Persons whose names appear on the Registry may have access thereto or have their names and other information pertaining to them deleted or modified upon a request of the same nature as indicated in 28 C.F.R. 51.13.

Contesting record procedures: Same as the above.

Record source categories: Sources of information in the Registry are those persons or organizations whose names appear therein by

V 43/189 SEP 28 78 (1M)

virtue of their having requested inclusion in the Registry pursuant to 28 C.F.R. 51.13.

Systems exempted from certain provisions of the act: None.

Files on Employment Civil Rights Matters Referred by the Equal Employment Opportunity Commission, JUSTICE/CRT-007: Revisions to this system of records effect a change in the system location and clarify information concerning storage of the records. The latter change has been italicized for public convenience. The text reprinted below reflects these modifications.

JUSTICE/CRT-007

System name: Files on Employment Civil Rights Matters Referred by the Equal Employment Opportunity Commission.

System location: U.S. Department of Justice; Civil Rights Division, 10th and Constitution Avenue NW.; Washington, D.C. 20530.

Categories of individuals covered by the system: Persons seeking employment or employed by a state or a political subdivision of a state who have filed charges alleging discrimination in employment with the Equal Employment Opportunity Commission (hereinafter EEOC) which have resulted in a determination by EEOC that there is probable cause to believe that such discrimination has occurred, and attempts by EEOC at conciliation have failed.

Categories of records in the system: The system may contain copies of charges filed with EEOC; copies of EEOC's "determination" letters, letters of transmittal from and to EECO, analyses or evaluations summarizing the charge and other materials in the EEOC file, internal memoranda, attorney notes, and copies of 'right to sue' letters issued by the Civil Rights Division.

Authority for maintenance of the system: The system is maintained pursuant to 44 U.S.C. 3101 and in order to accomplish the Civil Rights Division's responsibility under 28 CFR 0.50 to enforce Federal Statutes affecting civil rights including 42 U.S.C. 2000e-5(f) and 2000e-6.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The system is used by employees and officials of the Department to make decisions regarding prosecution of alleged instances of employment discrimination, to issue 'right to sue' letters on behalf of individuals; to make policy and planning determinations; to prepare annual budget requests and justifications; to prepare statistical reports on the work product of the Employment and Education Sections and to carry out other authorized internal functions of the Department. If the Department has determined to initiate an investigation or litigate a matter referred by EEOC, the records pertaining to that matter are not contained in this system. Such records and their routine uses are described under the notice for the system named: Central Civil Rights Division Index File and Associated Records.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information in the system is stored manually on index cards and file jackets which are maintained by the *Employment Section, Civil Rights Division. If the charge relates to a public educational agency or institution and was filed before September 1977, such information may be maintained by the Education Section, Civil Rights Division.*

Retrievability: Information is retrieved primarily by using the appropriate Department of Justice file number, or the name of the charging party, or the state in which the alleged discrimination occurred.

Safeguards: Information in the system is unclassified. It is safeguarded and protected in accordance with departmental rules and procedures.

Retention and disposal: There are no provisions for the disposal of the records in the system although such procedures are under active consideration.

System manager(s) and address: Assistant Attorney General, Civil Rights Division, U.S. Department of Justice, Washington, D.C. 20530.

Notification procedure: Same as the above

Record access procedures: A request for access to a record from this system shall be made in writing with the envelope and letter clearly marked 'Privacy Access Request.' The request should indicate the state where the alleged employment discrimination took place and the employer to which the charge was related. The requester will also provide a return address for transmitting the information. Access requests will be directed to the System Manager listed above.

Contesting record procedures: Individuals desiring to contest or amend information maintained in the system should direct their request to the System Manager listed above, stating clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought. Disclosure of part of the materials in this system may be prohibited by 42 U.S.C. 2000e-(e) and 44 U.S.C. 3508. Part of this system is exempted from access and contest under 5 U.S.C. 552(k)(2).

Record source categories: Sources of information in this system are charging parties, information compiled and maintained by EEOC, and employees and officials of the Department of Justice responsible for the disposition of the referral request.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsection (d) of the Privacy Act pursuant to 5 U.S.C. 552a(k)(2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b), (c) and (e) and have been published in the Federal Register.

Files on Correspondence Relating to Civil Rights Matters from Persons Outside the Department of Justice, JUSTICE/CRT-008: Revisions to this system of records effect changes in the system location, storage, and retrievability categories. The method of storing and retrieving the records has expanded to include a word processing system which will store names and dates pertaining to citizen correspondence and permit easy retrieval. The changes in the storage and retrievability categories have been italicized for public convenience. The text reprinted below reflects the modifications.

JUSTICE/CRT—008

System name: Files on Correspondence Relating to Civil Rights Matters from Persons Outside the Department of Justice.

System location: U.S. Department of Justice; Civil Rights Division; 10th and Constitution Avenue NW.; Washington, D.C. 20530.

Categories of individuals covered by the system: Persons communicating in written form in person or by telephone, including complaints, requests for information or action, or expressions of opinion regarding civil rights matters.

Categories of records in the system: The system contains original correspondence regarding civil rights matters from persons, cover letters or notes from persons referring original correspondence to the Department, attorney or other employee notes regarding the correspondence, and copies of Civil Rights Division's responses to the original correspondence.

Authority for maintenance of the system: This system of records is maintained pursuant to 44 U.S.C. 3101 and in the ordinary course of fulfilling the responsibilities assigned to the Civil Rights Division under the provisions of 28 CFR 0.50.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

A. The system is used by employees and officials of the Department to respond to incoming correspondence, to compile statistics for use in preparing budget requests, to insure proper disposition of incoming mail, to determine the status and content of responses to correspondence, to respond to inquiries from Division personnel, Office of Legislative Affairs and Congressional offices regarding the status of correspondence, and to carry out other authorized functions of the Department.

B. Information in the system regarding individual pieces of correspondence may be provided to Members of Congress upon request in instances where the Member making the request referred the correspondence in question to the Department.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records in the system are primarily index cards and original letters or copies thereof. They are stored manually *and by automated office equipment.*

Retrievability: Information may be retrieved through use of a card index file system *and/or automated office equipment* which is subdivided into indexes (1) arranged according to the name of citizens that corresponded with the Department and (2) arranged according to the name of Members of Congress or White House staff Members who have referred correspondence to the Department.

Safeguards: Information in the system is unclassified. It is safeguarded and protected in accordance with Departmental rules and procedures.

Retention and disposal: There are no provisions for disposal of the records in this system although such procedures are currently under active consideration.

System manager(s) and address: Assistant Attorney General; Civil Rights Division; U.S. Department of Justice; Washington, D.C. 20530.

Notification procedure: Same as the above.

Record access procedures: A request for access to a record from this system shall be made in writing, with the envelope and the letter clearly marked 'Privacy Access Request.' The request should include the name of the correspondent, his address or the name of the Member of Congress or White House staff member who referred the correspondence to the Department, if known, the Department of Justice file number, if known, and the date of the correspondence. The requester will also provide a return address for transmitting the information. Access requests will be directed to the System Manager listed above.

Contesting record procedures: Individuals desiring to contest or amend information maintained in the system should direct their request to the System Manager listed above, stating clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

Record source categories: Sources of information contained in this system are the original correspondents, persons referring original correspondence to the Department, and employees and officials of the Department responsible for the disposition of the correspondence.

Systems exempted from certain provisions of the act: None.

Civil Rights Division Employees Travel Reporting, JUSTICE/CRT-009: Revisions to this system of records effect a change in the system location and a correction in the form number assigned to a travel authorization form in the category of records maintained. The text reprinted below reflects these changes.

JUSTICE/CRT-009

System name: Civil Rights Division Employees Travel Reporting

System location: U.S. Department of Justice, 10th & Constitution Avenue NW., Washington, D.C. 20530.

Categories of individuals covered by the system: Employees of the Civil Rights Division who have traveled on official assignments for the Civil Rights Division.

Categories of records in the system: The system contains information, concerning travel expenditures, which was recorded by Division employees on travel authorization forms (Form OBD-1) and travel voucher forms (Form OBD-157) and submitted to the Fiscal Unit of the Civil Rights Division, from Fiscal Year 1972 to the present.

Authority for maintenance of the system: This system is maintained in the ordinary course of meeting the responsibilities assigned the Civil RIghts Division under 28 CFR 0.50, 0.51.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The records in this system are used to make monthly reports to the Executive Office, Civil Rights Division, and to the Fiscal Unit, Civil Rights Division, for use in controlling and reviewing Division expenditures. Copies of individual's reports may be disclosed to the individual when appropriate forms are not submitted following a return from travel status.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records in the system are stored on magnetic tape and on computer punch cards, and on monthly reports printed on computer. Individual vouchers and travel authorization forms are stored in file jackets.

Retrievability: Records in this system are retrievable by the names of present and former Division employees who have filed travel authorization forms or travel voucher forms.

Safeguards: Information in the system is unclassified. It is safeguarded and protected in accordance with Departmental rules and procedures.

Retention and disposal: There are no provisions for disposal of the records in the system.

System manager(s) and address: Executive Officer, Civil Rights Division, United States Department of Justice, Washington, D.C. 20530.

Notification procedure: Same as the above.

Record access procedures: Requests by former employees for access to records in this system may be made in writing with the envelope and letter clearly marked 'Privacy Act Request'. The request should clearly state the dates on which official travel was taken. The requestor should also provide a return address for transmitting the information. Access requests will be directed to the System Manager. Present employees may request access by contacting the System Manager directly.

Contesting record procedures: Individuals desiring to contest or amend information maintained in the system should direct their request to the System Manager listed above, stating clearly and concisely what information is being contested, the reason for contesting it, and the proposed amendment to the information sought.

Record source categories: Sources of information are the Civil Rights Division employees filing travel authorization and travel voucher forms.

Systems exempted from certain provisions of the act: None.

Controlled Substances Act Registration Records, JUSTICE/DEA-005: Revisions to this system of records effect changes in the retrievability and the retention and dosposal categories. The retrievability category is amended to reflect that applications are now filed by the date processed rather than by the date the application was submitted; that the names are not indexed within each batch; and that the microfiche system is now maintained by state. The retention and disposal category is amended to reflect that records retired to the Federal Records Center are now destroyed after eight years instead of after five years. The text reprinted below reflects these modifications.

V 43 / 189 SEP 28 78

JUSTICE/DEA-005

System name: Controlled Substances Act Registration Records (CSA).

System location: Drug Enforcement Administration; 1405 I Street, NW., Washington, D.C. 20537. Also, field offices. See Appendix 1 for list of addresses.

Categories of individuals covered by the system: Records are maintained on the following categories of individuals registered under the Controlled Substances Act including registrants doing business under their individual name rather than a business name: (A) Physicians and related practitioners; (B) Dentists; (C) Veterinarians; (D) Persons conducting research with controlled substances; (E) Importers of controlled substances; (F) Exporters of controlled substances; (G) Manufacturers of controlled substances; (H) Distributors of controlled substances; (I) Pharmacies.

Categories of records in the system: The Controlled Substances Act Registration Records are maintained in a manual system which contains the original of the application for registration under 224, 224a, 224b, 225, 226, 227, 268, and 363, order forms (DEA-222's) and any correspondence concerning a particular registrant. In addition, the same basic data is maintained in an automated system for quick retrieval.

Authority for maintenance of the system: The Drug Enforcement Administration is required under the Comprehensive Drug Abuse Prevention and Control Act of 1970 (Public Law 91-513) to register all handlers of controlled substances.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Controlled Substances Act Registration Records produce special reports as required for statistical analytical purposes. Disclosures of information from this system are made to the following categories of users for the purposes stated: (A) Other Federal law enforcement and regulatory agencies for law enforcement and regulatory purposes; (B) State and local law enforcement and regulatory agencies for law enforcement and regulatory purposes; (C) Persons registered under the Controlled Substances Act (Public Law 91-513) for the purpose of verifying the registration of customers and practitioners.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: The automated portion of this system is maintained on magnetic tape and the manual portion is by batch.

Retrievability: The automated system is retrieved by name and registration number. The manual portion is filed in batches by date the application was processed. A microfiche system of the names by State is maintained for quick reference purposes. In addition, a number of telecommunication terminals have been added to the existing network.

Safeguards: This system of records is maintained in DEA Headquarters which is protected by twenty-four hour guard service and electronic surveillance. Access to the building is restricted to DEA employees and those persons transacting business within the building who are escorted by DEA employees. Access to the system is restricted to DEA personnel on a need-to-know basis. A specific computer program is necessary to extract information. Information that is retrievable by terminals requires user identification numbers which are issued to authorized employees of the Department of Justice.

Retention and disposal: Records in the manual portion of the system are retired to the Federal Records Center after one year and destroyed after eight years. The automated data is stored in the Department of Justice Computer Center and destroyed after five years.

System manager(s) and address: Director, Office of Compliance and Regulatory Affairs, Drug Enforcement Administration; 1405 I Street, N.W., Washington, D.C. 20537.

Notification procedure: Inquiries should be addressed to Freedom of Information Unit, Drug Enforcement Administration; 1405 I Street, N.W., Washington, D.C. 20537. Inquiries should include inquirer's name, date of birth, and social security number.

Record access procedures: Same as the above.

Contesting record procedures: Same as the above.

Record source categories: Information contained in this system of records is obtained from: (A) Registrants under the Controlled Substances Act (Public Law 91-513); (B) DEA Compliance Investigators.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c)(3), (d), (e)(4)(G) and (H), (f) of the Privacy Act pursuant to 5 U.S.C. 552a(k). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b), (c), and (e) and have been published in the Federal Register.

International Intelligence Data Base, JUSTICE/DEA-007: Revisions to this system of records effect a change in the routine use of the records. The Cabinet Committee on International Narcotics Control has been deleted as a routine user. The Committee has been replaced by committees and working groups under the Strategy Council on Drug Abuse. Changes have been italicized for public convenience. The text reprinted below reflects this change.

JUSTICE/DEA—007

System name: International Intelligence Data Base

System location: Drug Enforcement Administration, 1405 I Street NW., Washington, D.C. 20537. Also, field offices. See Appendix 1 for list of addresses.

Categories of individuals covered by the system: Known and suspected drug traffickers.

Categories of records in the system: (A) Intelligence reports; (B) Investigative reports; (C) Subject files.

Authority for maintenance of the system: This system is maintained for law enforcement and intelligence purposes pursuant to the Comprehensive Drug Abuse Prevention and Control Act of 1970, Reorganization Plan No. 2 of 1973 and the Single Convention on Narcotic Drugs.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: This system is maintained to further criminal investigations through the collation, analysis and dissemination of intelligence information. This system produces the following reports: a) Tactical, operational and strategic intelligence reports; b) Major organizational reports; c) Network analysis; d) Trafficker profiles; e) Intelligence briefs on prior experience with individuals, firms, countries, etc.; f) Country profiles; g) Country Intelligence Action Plans; h) Current Situational reports; i) Special reports as requests; j) Drug patterns and trends and drug trafficking from source to U.S. distributors.

In addition, information is provided to the following categories of users for law enforcement purposes on a routine basis: A) Other Federal law enforcement agencies; B) State and local law enforcement agencies; C) Foreign law enforcement agencies with whom DEA maintains liaison; D) U.S. Intelligence and Military Intelligence Agencies involved in drug enforcement; E) U.S. Department of State; F) *Committees and working groups under the Strategy Council on Drug Abuse.*

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of Information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in

records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: These records are maintained in standard case files and on index cards.

Retrievability: The system is indexed by name and subject category and retrieved by use of a card file index.

Safeguards: This system of records is maintained at DEA Headquarters which is protected by twenty-four hour guard service and electronic surveillance. Access to the building is restricted to DEA employees and those persons transacting business within the building who are escorted by DEA employees. In addition, all records contained in this system are stored in GSA approved security containers. Access to the System is restricted to authorized DEA personnel with Secret Clearance or above.

Retention and disposal: The Records contained in this system are currently retained for an indefinite period.

System manager(s) and address: Assistant Administrator for Intelligence; Drug Enforcement Administration, 1405 I Street NW., Washington, D.C. 20537.

Notification procedure: Inquiries should be addressed to Freedom of Information Unit, Drug Enforcement Administration, 1405 I Street NW., Washington, D.C. 20537. Inquiries should include inquirer's name, date of birth, and social security number.

Record access procedures: Same as Notification Procedure.

Contesting record procedures: Same as Notification Procedure.

Record source categories: A) Other Federal Agencies; B) State and local law enforcement agencies; C) Foreign law enforcement agencies; D) Confidential informants.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c)(3) and (4), (d), (e)(1), (2) and (3), (e)(4)(G), (H), (e)(5) and (8), (f), (g), and (h) of the Privacy Act pursuant to 5 U.S.C. 552a(j) and (k). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b), (c), and (e) and have been published in the Federal Register.

Office of Internal Security Records, JUSTICE/DEA-010: A new routine use (E) is added to provide for the release of information to Federal, state and local governmental agencies who are conducting suitability for employment investigations on current or prospective employees. The new routine use has been italicized for public convenience. The text reprinted below reflects the new routine use.

JUSTICE/010

System name: Office of Internal Security Records.

System location: Drug Enforcement Administration, 1405 I Street NW., Washington, D.C. 20537. Also, field offices. See Appendix 1 for list of addresses.

Categories of individuals covered by the system: A) DEA employees, past and present; B) Applicants for employment with DEA; C) Drug offenders, alleged drug offenders, and persons suspected of drug offenses; D) Offenders, alleged offenders, and persons suspected of committing Federal and state crimes broadly characteristized as corruption or integrity offenses; E) Confidential informants; F) Witnesses; G) Non-implicated persons with pertinent knowledge of circumstances or aspects of a case or suspect. These are pertinent references of fact developed by personal interview or third party interview and are recorded as a matter for which a probable need will exist.

Categories of records in the system: A) Investigative reports with supporting memoranda and work papers relating to investigations of individuals and situations. B) General files which include, among other things, supporting memoranda and work papers and miscellaneous memoranda relating to investigations of and the purported existence of situations and allegations about individuals. C) Audit and inspection reports of inspections of DEA offices, personnel, and situations. D) Zero files containing general correspondence and memoranda relating to the subject matter of the categories of individuals covered by the system.

Authority for maintenance of the system: Reorganization Plan No. 1 of 1968 and 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information contained in this system is provided to the following categories of users as a matter of routine uses for law enforcement and regulatory purposes: A. Other Federal law enforcement and regulatory agencies; B. State and local law enforcement and regulatory agencies; C. Foreign law, enforcement agencies with whom DEA maintains liaison; D. The Department of State; E. The Department of Defense and Military Departments; F. U.S. Intelligence agencies concerned with drug enforcement; G. The United Nations; H. Interpol; I. To individuals and organizations in the course of investigations to elicit information.

In addition, disclosures are routinely made to the following categories for the purposes stated: A. To Federal agencies for national security clearance purposes and to Federal and state regulatory agencies responsible for the licensing or certification of individuals in the fields of pharmacy and medicine; B. To the Office of Management and Budget upon request in order to justify the allocation of resources; C. To state and local prosecutors for assistance in preparing cases concerning criminal and regulatory matters; D. To the news media for public information purposes; *E. To Federal, State and local governmental agencies who are conducting suitability for employment investigations on current or prospective employees.*

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: These records are maintained in standard investigation folders.

Retrievability: These records are retrieved by use of a card index maintained alphabetically by employee name.

Safeguards: These records are maintained at DEA Headquarters which is protected by twenty-four hour guard service and electronic surveillance. Access to the building is restricted to DEA employees and those persons transacting business within the building who are escorted by DEA employees. Access to the system is restricted to employees of the Office of Internal Security and upper level management officials. The records are stored in safe-type combination lock file cabinets.

Retention and disposal: These records are maintained for 55 years.

System manager(s) and address: Chief Inspector, Drug Enforcement Administration, 1405 I Street NW., Washington, D.C. 20537.

Notification procedure: Inquiries should be addressed to Freedom of Information Unit, Drug Enforcement Administration, 1405 I Street NW., Washington, D.C. 20537. Inquiries should include inquirer's name, date of birth, and social security number.

Record access procedures: Same as Notification Procedure.

Contesting record procedures: Same as Notification Procedure.

Record source categories: A) DEA Investigations; B) Federal, State and local law enforcement agencies; C) Cooperating individuals.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c)(3) and (4), (d), (e)(1), (2) and (3), (e)(4)(G), (H), (e)(5) and (8), (f), (g), (h) of the Privacy Act pursuant to 5 U.S.C. 552a(j) and (k). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b), (c) and (e) and have been published in the Federal Register.

DEA Employee Profile System, JUSTICE/DEA-027: The system manager for this system has changed. This change is reflected in the text reprinted below.

JUSTICE/DEA-027

System name: DEA Employee Profile System (DEPS)

System location: Drug Enforcement Administration, 1405 I Street, NW., Washington, D.C. 20537.

Categories of individuals covered by the system: DEA employees.

Categories of records in the system: The following eight categories of information will be maintained in the system:

1. Personal identification

V 43/189 SE 28 78

2. Work experience
3. Language & geographical areas
4. Formal education
5. Special skills
6. Record of training
7. Consideration for vacancies
8. Awards

Authority for maintenance of the system: This system is maintained to effectively place and assign employees to positions to further the mandates of the Comprehensive Drug Abuse Prevention and Control Act of 1970.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The records will be used principally by the Personnel Management Division. Selected data will be forwarded by this personnel section to the Career Development Board and operational units throughout DEA for the purpose of:

1. Identifying employees with particular skills or qualifications for assignment to special projects.
2. Identification of candidates for overseas assignments who have specific language skills.
3. Insuring that the Career Development Board will be reviewing the entirety of an applicant's background.
4. Calculating DEA's human resources on hand and to project more accurately future resource needs and capabilities.

Information from this system will not be disseminated outside of DEA.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: These records will be maintained on magnetic tape and a disk storage device.

Retrievability: The information in this system can be retrieved by the individual's name, special skills information, special knowledge information or by some combination of the above information.

Safeguards: The records of the system will be maintained at DEA Headquarters which is protected by twenty-four hour guard service and electronic surveillance. Access to the building is restricted to DEA employees and those transacting business within the building who are escorted by DEA employees. In addition, the area where the tapes and disks are stored is a secured area and access is restricted to those employees who have business in the area and those non-DEA people who are transacting business within the area and escorted by a DEA employee. Inquiries to the system are only made by the written request of the Chief, Personnel Management Division.

Retention and disposal: Records in this system are retained as long as the individual is employed by DEA.

System manager(s) and address: Chief, Personnel Management Division, Drug Enforcement Administration, 1405 I Street NW., Washington, D.C. 20537.

Notification procedure: Inquiries should be addressed to Freedom of Information Unit, Drug Enforcement Administration, 1405 I Street NW., Washington, D.C. 20537. Inquiries should include inquirer's name, date of birth, and social security number.

Record access procedures: Same as Notification Procedure.

Contesting record procedures: Same as Notification Procedure.

Record source categories:

1. DEA employee
2. Servicing personnel Office
3. The Justice Uniform Personnel System (Juniper)

Systems exempted from certain provisions of the act: None.

The following Drug Enforcement Administration (DEA) list of record location addresses has been revised:

JUSTICE/DEA—999

DEA Appendix 1—List of record location addresses. Copies of all or part of any system of records published by the Drug Enforcement Administration pursuant to 5 U.S.C. 552a may be maintained at the DEA field offices listed below. However, procedures for processing inquiries concerning DEA systems of records have been centralized in DEA Headquarters. Inquiries concerning all DEA systems of records should be addressed to:

Bureau Mailing Lists, JUSTICE/FBI-003: This system is revised to more accurately describe the nature of the system. The modifications to the system notice constitute amplifications rather than an alternation or expansion of the scope of the records. The clarifications incorporated into the system notice have been italicized for public convenience. The text reprinted below reflects these modifications.

JUSTICE/FBI—003

System name: Bureau Mailing Lists.

System location: Federal Bureau of Investigation, J. Edgar Hoover Bldg., 10th and Pennsylvania Ave., NW., Washington, D.C. 20535, 59 field divisions and 13 Legal Attaches (See Appendix to 002).

Categories of individuals covered by the system: *With regard to lists maintained at FBI Headquarters,* individuals who have requested receipt of Bureau material and who meet established criteria (basically law enforcement or closely related areas). *With regard to lists maintained in field divisions or Legal Attaches, individuals and organizations who may be in position to furnish assistance to the FBI's law enforcement efforts.*

Categories of records in the system: Name, address and business affiliation, if appropriate.

Authority for maintenance of the system: Title 5 U.S. Code, Section 301 and Title 44, U.S. Code, Section 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For mailing of FBI material *whenever necessary. For example, various fugitive publications are furnished to local law enforcement agencies.*

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the member's behalf when the member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from this system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Computerized and 3 x 5 index card. *In field divisions most mailing lists are maintained on addressograph.*

Retrievability: ID number in computer, alphabetically for card index *and addressograph.*

Safeguards: *Computer records are maintained in limited access space by the Technical Services Division. Manual records are likewise maintained in limited access space and available only to FBI personnel.*

Retention and disposal: Revised on a monthly basis. *In field divisions the lists are revised at least annually and when necessary.*

System manager(s) and address: Director, FBI, Washington, D.C. 20535.

Notification procedure: Director, FBI, Washington, D.C. 20535

Record access procedures: Inquiry addressed to Director, FBI, Washington, D.C. 20535.

Contesting record procedures: Same as the above.

Record source categories: *The mailing list information is based either on information supplied by the individual or public source data.*

Systems exempted from certain provisions of the act: None.

Electronic Surveillance (Elsur Indices), JUSTICE/FBI-006: This system is revised to more accurately describe the nature of the system. The modifications to the system notice constitute amplifications rather than an alteration or expansion of the scope of the records. The clarifications incorporated into the system notice have been italicized for public convenience. The text reprinted below reflects these modifications.

JUSTICE/FBI—006

System name: Electronic Surveillance (Elsur) Indices.

System location: Federal Bureau of Investigation, J. Edgar Hoover Bldg., 10th and Pennsylvania Ave., NW., Washington, D.C. 20535. *Those field offices which have conducted electronic surveillances also maintain this index. See appendix to System 002.*

Categories of individuals covered by the system: Individuals who have been the targets of direct electronic surveillance coverage by the FBI, who have participated in conversations monitored by an FBI electronic installation, *or who have been known* to have owned, leased, or licensed premises on which the FBI has conducted an electronic surveillance, *and names of persons mentioned during conversations between persons being monitored. Not all field office electronic surveillance indices contain this last category of individuals.*

Categories of records in the system: The Elsur Indices are maintained on 3 x 5 cards, where set forth the name of each person monitored or the proprietor of premises on which an electronic surveillance was conducted by the FBI since January 1, 1960, a source number to identify the electronic surveillance, the date the conversation occurred, the location of the field office which conducted the monitoring, and the address and/or telephone number where the electronic surveillance occurred.

Authority for maintenance of the system: The Elsur Indices were initiated in October, 1966, at the instructions of the Department of Justice. The authority for the maintenance of these records is Title 5, Section 301, USC, which grants the Attorney General the authority

V 4 3 / 1 8 9

to issue rules and regulations prescribing how Department of Justice information can be employed. Title 18, USC, Section 2519, also sets forth recordkeeping requirements.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Elsur Indices are utilized: (1) To respond to judicial inquiries about possible electronic surveillance coverage of witnesses, defendants, or attorneys involved in Federal court proceedings, and (2) To enable the Government to certify whether a person regarding whom court-order authority is being sought for electronic coverage has ever been so covered in the past. The actual users of the indices are always *employees* of the FBI.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: a record from a system of records may be disclosed as a routine use to the National Archives and Records Service (N.A.R.S.) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: he records are maintained manually on 3 x 5 cards.

Retrievability: *Names* are indexed alphabetically. *Telephones monitored are indexed by telephone number. Locations monitored in which a person has been known to have a proprietary interest are indexed by address.*

Safeguards: They are maintained in a guarded room at all times, with a special locking system for off-duty hours when they are not in use.

Retention and disposal: Until advised to the contrary by the Department, the courts or Congress, these indices will be maintained indefinitely.

System manager(s) and address: Director, Federal Bureau of Investigation, Washington, D.C. 20535.

Notification procedure: Same as the above.

Record access procedures: Inquiry addressed to Director, FBI, Washington, D.C. 20535.

Contesting record procedures: Same as the above.

Record source categories: See Category of Individual.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c) (3) and (4), (d), (e) (1), (2) and (3), (e)(4) (G), (H), (e) (5) and (8), (f), (g) and (m) of the Privacy Act pursuant to 5 U.S.C. 552a (j). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

Controlled Substance Act Nonpublic Records, JUSTICE/OMF-002: Revisions to this system of records effect editorial changes which are necessary because of a recent internal reorganization. Other minor editorial corrections are also reflected in the text reprinted below.

JUSTICE/OMF—002

System name: Controlled Substances Act Nonpublic Records.

System location: U.S. Department of Justice, 10th and Constitution Avenue NW., Washington, D.C. 20530.

Categories of individuals covered by the system: Persons who have been convicted for the first time of violating Section 404(a) of the Controlled Substances Act (Public Law 91-513), i.e. persons who have knowingly or intentionally possessed a controlled substance except as authorized by the act.

Categories of records in the system: Arrest records of law enforcement agencies, which include personal data, photographs, fingerprints, copies of court orders, DOJ-330 Request for Non-Public Records and/or DOJ-329 Certificate of Expungement.

Authority for maintenance of the system: This system is established and maintained in accordance with the Controlled Substances Act, Public Law 91-513 Sec. 404, 21 U.S.C. 844.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: These records are retained by the Department of Justice and are available only to a Federal court upon a Federal court order issued to the Attorney General demanding such records for use by said court in determining whether or not a person qualified under Public Law 91-513 Sec. 404(b), 21 U.S.C. 844(b).

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is detrmined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: These records are stored in locked file cabinets.

Retrievability: These records are indexed by the name of the offender.

Safeguards: Access to these records is restricted to the Chief, Records Maintenance and Disposition Section and the assistant to the Chief.

Retention and disposal: Although these records will ultimately be destroyed by shredding, the establishment of a disposal schedule is still pending.

System manager(s) and address: Director, Administrative Programs Management Staff, Office of Management and Finance, U.S. Department of Justice, 10th & Constitution Avenue NW., Washington, D.C. 20530.

Notification procedure: Same as the System Manager.

Record access procedures: Same as the System Manager.

Contesting record procedures: Same as the System Manager.

Record source categories: Law enforcement agencies and courts.

Systems exempted from certain provisions of the act: The Attorney General has exempted the system from subsection (d) of the Privacy Act pursuant to 5 U.S.C. 552a(j)(2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

Department of Justice Payroll System, JUSTICE/OMF-003: Revisions to this system of records effect changes in the system location and system manager(s) and address categories which are necessary because of a recent internal reorganization. In addition, other minor editorial changes are reflected in the text reprinted below.

JUSTICE/OMF—003

System name: Department of Justice Payroll System.

System location: Categories of records within the Payroll System of Records are kept at the following locations: (1) Justice Employee Data Service; 425 I Street, N.W.; Washington, D.C. 20530; (2) Justice Data Management Service; 425 I Street, N.W.; Washington, D.C. 20530; (3) at various time and attendance recording and processing stations around the world; (4) at computerized record off-site backup facilities; and (5) at various Federal Records Centers.

Categories of individuals covered by the system: (1) Current DOJ employees with the exception of those employed within the FBI and; (2) Many past DOJ employees with the exception of those that served within the FBI.

Categories of records in the system: A. Payroll Master Employee Records: These are machine-readable records containing information on current pay and leave status for individuals serviced by the automated payroll accounting system.

B. Bond, Allotment and Check Mailing Records: These are machine-readable records containing information on Savings Bond deductions, savings account allotments, and net check mailing requested by the employee.

C. History of Earning Records: These are machine-readable records containing information on earnings, leave and other pay related activities during a two-year period.

D. Automated Retirement Records: These are machine-readable records containing information relevant to the Civil Service Retirement System. These records will be used to automatically generate Individual Retirement Records (SF-2806) upon an employee's separation.

E. Revised Social Security Numbers Records: These are machine-readable records containing the new and old social security number for employees whose current social security number is different from that previously entered into the automated system.

F. Employee Pay Records: These are manila folders containing all source documents, correspondence and other papers in support of an active employee's pay, leave and allowances.

G. Active Retirement Records: These are manual records maintained on active employees to facilitate timely compliance with requirements of the Civil Service Retirement System. Upon separation, the original SF-2806 is forwarded to the Civil Service Commission and a copy is filed in the Employee Pay Record (F above). This category of records will eventually be replaced by the automated retirement records (D above).

H. Former Employee Pay Records: These records are the Employee Pay Records (F above) for employees that have been separated, transferred or retired. In addition to information contained in the Employee Pay Records, these records include information related to the retirement, separation or transfer.

I. Employee Death Records: These records are the Employee Pay Records (F above) for employees that died while on active duty with Department of Justice. In addition to information contained in the Employee Pay Records, these records include information related to the employee's death and the settlement of pending pay and allowances.

J. Returned Check Records: These records are a manual log for recording and controlling checks issued to employees that were returned to the Justice Employee Data Service because they were undelivered, erroneous or cancelled prior to conversion to cash.

K. Time and Attendance Report: These records contain information on an employee's attendance and use of leave in a particular pay period. They are also used to indicate leave adjustments and balances. The standard form number is DOJ-296.

Authority for maintenance of the system: The head of each executive agency is responsible for establishing and maintaining an adequate payroll system, covering pay, leave, and allowances, as a part of the system of accounting and internal control of the Budget and Accounting Procedures Act of 1950, as amended, 31 U.S.C. 66, 66a and 200(a).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Purpose: The purpose of each use of categories of records within the DOJ Payroll System of Records is to enable the administration of the payroll function and related financial matters in accordance with applicable laws and regulations and to comply with the requirements of the Comptroller General.

System Uses:

A. Authorize, prepare and document payment to all Department employees covered by the DOJ Payroll System entitled to be paid, with consideration given to all authorized deductions from gross pay.

B. Specify and document proper disposition of all authorized deductions from gross pay.

C. Prepare adequate and reliable payroll reports needed for (1) management, (2) budget, (3) support of payments, (4) the conduct and accounting of payroll related employee services, (5) control and documentation of payroll system operation, and (6) to meet external reporting requirements.

D. Support effective communications on payroll matters between the Department of Justice and its present and former employees.

E. Support proper coordination of pay, leave and allowance operations with personal functions and other related activities.

F. Support adequate control over all phases and segments of the payroll system including leave accounting.

G. Support appropriate integration of the payroll system with the Departmental accounting system.

H. Records maintained in this system shall include providing a copy of an employee's Department of the Treasury Form W-2, Wage and Tax Statement of the State, City, or other local jurisdiction which is authorized to tax the employee's compensation. The record will be provided in accordance with a withholding agreement between the State, City, or other local jurisdiction and the Department of the Treasury pursuant to 5 USC 5516, 5517, and 5520 or in the absence thereof, in response to a written request from an appropriate official of the taxing jurisdiction to the System Manager listed below. The request must include a copy of the applicable statute authorizing the taxation of compensation and should indicate whether the authority of the jurisdiction to tax the employee is based on place of residence, place of employment, or both. However, the social security numbers will only be provided to state or local taxing authorities which meet the criteria of the Privacy Act.

I. Provide permanent record of actions taken pertinent to the administration of pay leave and allowances.

J. Support legal investigations of suspected fraud.

Categories of Users: Records are accessed by users on a need or right to know basis. A category of users may have potential access under more than one use above.

A. Present or former employees serviced by the DOJ Payroll System.

B. Justice Employees Data Service Staff.

C. Department of the Treasury disbursing offices.

D. Department of Justice budget and accounting offices.

E. Department of Justice personnel offices.

F. Employee supervisors.

G. Employee administrative offices.

H. Federal, state and local taxing authorities.

I. Federal Employees Health Benefits carriers.

J. Employee organization offices participating in dues allotment program.

K. Financial organizations participating in savings account allotment program.

L. Financial organizations participating in net pay to checking account program.

M. State human resource offices administering unemployment compensation programs.

N. General Accounting Office and internal audit staffs.

O. Federal, state or local law enforcement agencies (in support of legal investigations of suspected fraud).

P. Other Federal agencies requiring information as specified in applicable laws or regulations, e.g., Civil Service Commission).

Q. Heirs, executors and legal representatives of beneficiaries.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 C.F.R. 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service. A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Various categories of records are stored on different mediums. Categories A, B and E are on magnetic discs. Categories C and D are on magnetic tape. All other records are maintained in paper form.

Retrievability: Categories of records on magnetic media are retrievable by employee social security number which is maintained to comply with Internal Revenue requirements. Records in paper form are retrievable by employee name and social security number.

Safeguards: The principal current safeguard for payroll records is guard force screening of individuals entering buildings within which records are kept. More stringent security practices and procedures are under development.

Retention and disposal: Payroll records retention and disposal are in accordance with General Schedule 2 promulgated by the General Services Administration.

System manager(s) and address: Director; Central Management Services Staff; Office of Management and Finance; U.S. Department of Justice; 10th and Constitution Avenue, N.W., Washington, D.C. 20530.

SEP 28 1978 (IMI

V 43 / 189

Notification procedure: A request for notification of the existence of records upon an individual shall be made in writing by the individual or legal designate, with the envelop and the letter clearly marked 'Privacy Notification Request'. Include in the request the name of the system of records, the individual's full name and social security number while employed with the Department of Justice, the organization within which employed (if available), and whether the individual is a current or former employee. The requestor shall include a return address for the notification response. If the request is submitted by other than the subject individual, indicate the authority under which the information is sought. The request must be signed by the subject individual and, if applicable, by the legal designee. Address inquires to the System Manager.

Record access procedures: A request for access to records from this system shall be made in writing by the subject individual or legal designee, with the envelope and the letter clearly marked 'Privacy Access Request'. Include in the request the name of the system of records, the legal name and social security number of the data subject, the organization within which the individual is a current or former employee. The requestor shall also provide a return address for transmitting the information. Access requests will be directed to the System Manager listed above.

Contesting record procedures: Individuals desiring to contest or amend information maintained in the system of records should direct their request to the System Manager listed above, stating clearly and concisely what information is being contested, the reason for contesting it, and the proposed amendment to the information sought. If the request is submitted by other than the subject individual, indicate the authority under which the information is sought. The request must be signed by the subject individual and, if applicable, by the legal designee.

Record source categories: Information contained within the DOJ Payroll System of Records is obtained from the following sources:

A. Subject Individual: Information collected from the subject individual generally consists of that necessary to administer allotments, deductions or other services requested by the individual.

B. Personnel Office: Information collected from the personnel office generally consists of employment status information which provides the legal basis upon which valid payments are computed.

C. Time and Attendance Clerk: Information collected from this clerk generally consists of an accounting of the individual's presence or absence from the duty station and the usage of leave.

D. Supervisor or Administrative Officer: Information collected from these officers generally consists of leave authorizations and information concerning the individual's duty station.

E. Financial Institutions or Employee Organizations: Information collected from institutions or organizations generally consists of that necessary to insure the timely and accurate forwarding to the institution or organization of monies allotted to an account at the institution or organization by the subject individual.

F. Previous Federal Employer: Information collected from the previous employer within the Federal government generally consists of leave status information at the time of separation.

G. Other Federal Agencies: Information collected from other Federal agencies generally consists of program information necessary to properly administer pay, leave, and allowances.

H. Other Officials: Information collected from other officials consists of that necessary to administer the payroll function. This may include authorization for special payments, death certificate or other documents as necessary.

Systems exempted from certain provisions of the act: None.

Legal and General Administration Accounting System JUSTICE/OMF-007: The system manager for this system has changed. This change is reflected in the text reprinted below.

JUSTICE/OMF—007

System name: Legal and General Administration Accounting System (LAGA).

System location: U.S. Department of Justice; 10th and Constitution Avenue, N.W.; Washington, D.C. 20530.

Categories of individuals covered by the system: All individuals who submit vouchers requesting payment for goods or services rendered, except payroll vouchers for DOJ employees. These include vendors, contractors, experts, witnesses, court reporters, travelers, relocated employees, etc.

Categories of records in the system: All vouchers paid except payroll vouchers for DOJ employees.

Authority for maintenance of the system: The system is established and maintained in accordance with the Budget and Accounting Procedures Act of 1950 as amended 31 U.S.C. 66(a) and 31 U.S.C. 200(a).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: After payment of the vouchers, the accounting data is used for the purpose of internal management reporting and external reporting to agencies such as OMB, U.S. Treasury, and the GAO.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 C.F.R. 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Prior to FY 76, voucher files were maintained alphabetically by payee's name. After FY 76, vouchers are filed by batch, controlled by schedule on which paid.

Retrievability: Information is retrieved primarily by using the name of the payee.

Safeguards: Information contained in the system is unclassified. It is safeguarded in accordance with organizational rules and procedures.

Retention and disposal: The payment documents are retained at this location for three fiscal years (current year and two prior years). The records are then shipped to a Federal Records Center for storage in accordance with the General Record Schedule published by the General Services Administration.

System manager(s) and address: Director; Financial Management Staff; Office of Management and Finance; U.S. Department of Justice; 10th & Constitution Avenue, N.W.; Washington, D.C. 20530.

Notification procedure: Same as the System Manager.

Record access procedures: Same as the System Manager.

Contesting record procedures: Same as the System Manager.

Record source categories: Submitted by the payee involved.

Systems exempted from certain provisions of the act: None.

Security Clearance Information System (SCIS), JUSTICE/OMF-008: Revisions to this system of records effect changes to the storage, retrievability, and system manager(s) and address categories. The storage and retrievability categories are revised to reflect that certain information will be stored and retrieved from a data base which has been reported by the Civil Service Commission for systems of records maintained by all Federal agencies on personnel matters. The system manager(s) and address category is revised to reflect a change which occurred as a result of a recent internal reorganization. Changes are incorporated in the text reprinted below. The changes to the storage and retrievability categories have been italicized for public convenience.

JUSTICE/OMF—008

System name: Security Clearance Information System (SCIS).

System location: U.S. Department of Justice; 10th and Constitution Avenue, N.W.; Washington, D.C. 20530.

Categories of individuals covered by the system: Current employees of the Department of Justice (excluding FBI) who have been investigated and cleared for employment, and for access to data classified for National Security reasons; B. Former employees of the Department of Justice (excluding FBI) who had been investigated and cleared for employment and for access to data classified for National Security reasons (maintained for a maximum of two years from date of termination).

Categories of records in the system: The system contains two subsystems; (a) a Clearance Index Reference Record for identifying the individuals in Categories of Individuals above listing the status of the investigations, the dates of clearances, level of clearances and when appropriate, dates of termination of employment; and (b) a Character File containing (1) Standard form 86 (U.S. Civil Service Commission), Security Investigation Data for Sensitive Position; (2) Copies of investigative reports from the Civil Service Commission and/or Federal Bureau of Investigation; (3) Correspondence related to the request for the investigation, results of the investigation, and clearance approvals for access to classified national security information and waivers; and (4) other information relating to the trustworthiness of the employee.

Authority for maintenance of the system: The system is established and maintained in accordance with Presidential Executive Orders 10450 (clearance for Federal employment) and 12065 (access to data classified for National Security reasons).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (a) The investigative material compiled in this system is used for the purpose of determining the suitability, eligibility and/or qualifications of applicants for employment in the Department of Justice (except the FBI) and for sensitive positions involving access to classified information. In the event of employee tranfers to other Government Agencies, this information could be reviewed by investigators of the gaining agency to expedite the employees transfer is necessary.

(b) The clearance status of the employees is certified to security officials and investigators of other U.S. Government Agencies or Departments, for liaison purposes involving access to classified material during meetings, conferences or training courses.

(c) The personal data in the system is reviewed by Central Intelligence Agency for the purposes of granting Special Intelligence access clearances to Department employees. These clearances are within the purview of the Director, Central Intelligence.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 C.F.R. 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system or records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: *Information contained on the Clearance Index Reference Record has been added to the automated Department of Justice personnel data base which has been reported by the Civil Service Commission under the designation of CSC/GOVT-3 at 42 FR 48738 on September 23, 1977. In conjunction with the manual Character File, the automated data is used to certify clearances on DOJ employees.*

Retrievability: All data is retrieved by searching under the employee's name/*social security account number/organization/type of clearance.*

Safeguards: Information contained in the system is unclassified. It is safeguarded and protected in accordance with Departmental rules and procedures governing the protection of personnel records.

Retention and disposal: Clearance Index Reference Record cards are maintained for the tenure of employment and for a maximum of two years after termination. An employee's Character File is maintained for the tenure of employment at which time the investigation reports are returned to the investigating agency or destroyed by shredding.

System manager(s) and address: Director; Administrative Programs Management Staff; Office of Management and Finance; U.S. Department of Justice; 10th and Constitution Avenue N.W., Washington, D.C. 20530.

Notification procedure: Same as the System Manager.

Record access procedures: A request for access to a record from this system shall be made in writing, with the envelope and the letter clearly marked 'Privacy Access Request'. Include in the request the name, title and organization of the employee and the general subject matter of the inquiry. The requestor will also provide a return address for transmitting a reply. Access requests will be directed to the System Manager listed above.

Contesting record procedures: Individuals desiring to contest or amend information maintained in the system should direct their request to the System Manager listed above, stating clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

Record source categories: Sources of information contained in this system are (a) applicants for employment and employees in the Department of Justice (except FBI) and (b) those individuals (informants) contacted by the Investigators for the Civil Service Commission and Special Agents of the Federal Bureau of Investigation who furnished information in the background investigation.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from sections (d)(1) of the Privacy Act pursuant to 5 U.S.C. 522a (k)(5). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 533 (b), (c) and (e) and have been published in the Federal Register.

Justice Data Management Service Center Utilization Report, JUSTICE/OMF-009: Revisions to this system of records effect changes in the system name, system location and system manager(s) and address categories which are necessary because of a recent internal reorganization. In addition, other minor editorial changes are reflected in the text reprinted below.

JUSTICE/OMF—009

System name: Justice Data Management Service Center Utilization Report.

System location: Justice Data Management Service Center, 425 I Street NW., Washington, D.C. 20530.

Categories of individuals covered by the system: Personnel submitting computer jobs to run at the Justice Data Management Service.

Categories of records in the system: The data describes the recource utilization of the individual jobs submitted. Certain information is also recorded which pertains to the entire computer system rather than individual jobs.

Authority for maintenance of the system: These records are kept for adminstrative convenience pursuant to 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information is used to recover costs associated with running computer jobs, to analyze the utilization of the Justice Data Management Service computer systems, detect inefficiencies and areas having high potential benefit from optimization.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy..

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member or staff requesting the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Utilization reports are provided to a designated manager for each organization which uses the Justice Data Management Service.

Retrievability: Information may be retrieved by name of the individual submitting computer runs.

Safeguards: The machine readable (magnetic tape) data is kept in the Justice Data Management Service tape library. Utilization reports are controlled by the designated individual of each using agency.

Retention and disposal: The machine readable data is kept indefinitely. Utilization reports are controlled by the designated individual of each using agency.

System manager(s) and address: Director: Central Management Services Staff; U.S. Department of Justice; Office of Management and

SEP 28 1978

V 43 / 189 SE 28 78

Finance; 10th and Constitution Avenue NW., Washington, D.C. 20530.

Notification procedure: Same as above.

Record access procedures: A request for access to a record from this system may be made in person or in writing, specifying the name of the individual submitting a computer run and the date and name of the computer run.

Contesting record procedures: Requests for correction should be addressed to the System Manager.

Record source categories: Information is collected by the IBM 360/370 Operating System and program modules developed by personnel of the Department of Justice.

Systems exempted from certain provisions of the act: None.

Document Information System (DIS), JUSTICE/OMF-010: Revisions to this system of records effect changes in the system name, system location and system manger(s) and address categories which necessary because of a recent internal reorganziation. In addition, other minor editorial changes are reflected in the text reprinted below.

JUSTICE/OMF—010

System name: Document Information System. (DIS)

System location: U.S. Department of Justice; 10th and Constitution Avenue N.W., Washington, D.C. 20530.

Categories of individuals covered by the system: Employees of the Department of Justice who have been designated by the Attorney General as authorized to classify documents. Employees of the Department of Justice who have been delegated classifying authority by designation of the Attorney General. Individuals (mostly aliens) about whom documents exist which have been classified in the interest of national security.

Categories of records in the system: The system contains records of all documents classified by Department of Justice employees. The system also contains a record on all Department of Justice employees (from January 1, 1973 to present) who have or have had the authority to classify documents.

Authority for maintenance of the system: The system was established and is maintained pursuant to Executive Order 11652.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The system is routinely used by the Interagency Classification Review Committee, the Department of Justice Security Staff, and the Department of Justice Review Committee.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 C.F.R. 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information is stored in machine readable form on magnetic tape. A copy of the data capture form is maintained in the originating office for two weeks, then destroyed. The original data capture form is maintained at the Department until data contained therein has been successfully processed, then the form is destroyed.

Retrievability: Information is retrieved in any form for all routine uses. Information may be retrieved for non-routine uses with the approval of the Director, Central Management Services Staff, and in accordance with the provisions of the Privacy Act.

Safeguards: Access to information contained in the system is controlled by the Director, Central Management Services Staff. Access is normally limited to routine users and members of the Central Management Services Staff, on a "need-to-know" basis.

Retention and disposal: Records contained in the system are retained indefinitely. The system of records is never purged and no disposal schedule is required.

System manager(s) and address: Director, Central Management Services Staff; Office of Management and Finance; U.S. Department of Justice; 10th and Constitution Avenue, N.W., Washington, D.C. 20530.

Notification procedure: Address inquiries to the System Manager.

Record access procedures: Same as the System Manager.

Contesting record procedures: Same as the System Manager.

Record source categories: Employees of the Department who have been designated by the Attorney General as classifying officials and employees who have been delegated classifying authority.

Systems exempted from certain provisions of the act: None.

Justice Data Management Service Center Tape Library System, JUSTICE/OMF-011: Revisions to this system of records effect changes in the system name, system location and system manager(s) and address categories which are necessary because of a recent internal reorganization. In addition, other minor editorial changes are reflected in the text reprinted below.

JUSTICE/OMF—011

System name: Justice Data Management Service Center Tape Library System.

System location: Justice Data Management Service; 425 I Street, N.W.; Washington, D.C. 20530.

Categories of individuals covered by the system: Personnel submitting computer jobs which create magnetic tape data sets.

Categories of records in the system: The data describes the contents of the magnetic tape volumes.

Authority for maintenance of the system: These records are kept for administrative convenience pursuant to 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information is used to control and protect the data recorded on magnetic tapes.

Release of information to the news media: Information permitted to be released to news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Reports can be obtained by any Justice Data Management Service user by submitting a computer job requesting the report.

Retrievability: Information can be obtained by name of the individual who submitted the job which created the tape resident data sets.

Safeguards: The machine readable data is kept within the Justice Data Management Service. Reports are controlled by the tape librarian and by the individuals receiving the reports.

Retention and disposal: Reports are controlled by the tape librarian and by the individuals receiving the reports.

System manager(s) and address: Director; Central Management Services Staff; U.S. Department of Justice; Office of Management and Finance; 10th and Constitution Avenue, N.W.; Washington, D.C. 20530.

Notification procedure: Same as the System Manager.

Record access procedures: A request for access/correction to a record from this system may be made in person or in writing specifying the serial number of the tape in question. Request should be addressed to the System Manager.

Contesting record procedures: Same as the above.

Record source categories: Information is collected by the IBM 360/370 Operating System and other program modules.

Systems exempted from certain provisions of the act: None.

Inter-Divisional Information System (IDIS), JUSTICE/OMF-016 (a non-operational, deactivated system): Revisions to this system of records effect changes in the system location and system manager(s) and address categories which are necessary because of a recent internal reorganization. In addition, other minor editorial changes are reflected in the text reprinted below.

JUSTICE/OMF—016

System name: Inter-Divisional Information Systems (IDIS) (a non-operational, deactivated system).

System location: U.S. Department of Justice; 10th and Constitution Avenue NW.; Washington, D.C. 20530.

Categories of individuals covered by the system: Individuals who were allegedly involved or connected with civil disturbances or other activities.

Categories of records in the system: IDIS, consisted of two subsystems. The incident subsystem was used to establish a record of various events, such as meetings and demonstrations. The subject subsystem provides individual's names, biographical sketches, and organizational affiliation(s). Some cross referencing between the two subsystems exists.

Authority for maintenance of the system: The system is currently being maintained by reason of an agreement between the Department of Justice and members of the Committee on the Judiciary of the United States Senate.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: There are no present or anticipated operational uses of IDIS records by Department of Justice personnel. IDIS material is exclusively used to respond to inquiries from citizens who are the subject of the files and also may be used by litigants involved in court proceedings.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information is maintained on index cards and computer produced reports stored in locked cabinets.

Retrievability: Index cards of the subject subsystem are filed alphabetically by individual name.

Safeguards: IDIS information is maintained in secured storage devices in a locked room, rendered inaccessible for any operational use and accessible by a limited number of employees who must repond to Freedom of Information Act requests and to decrees in court proceedings.

Retention and disposal: IDIS information will be maintained until such time as the legislative and executive branches of government agree to its disposal.

System manager(s) and address: Director; Central Management Services Staff; U.S. Department of Justice; Office of Management and Finance; 10th and Constitution Avenue NW., Washington, D.C. 20530.

Notification procedure: Address inquiries to the System Manager.

Record access procedures: Access to information maintained in IDIS will be granted in accordance with the procedures set forth in 28 CFR 16.41. Requests for access will be directed to the System Manager.

Contesting record procedures: Requests for correction of IDIS data will be processed in accordance with the procedures set forth in 28 CFR 16.53. Requests for correction will be directed to the System Manager.

Record source categories: Information in IDIS was derived from FBI reports and teletypes; U.S. Attorney Offices; the Bureau of Alcohol, Tobacco, and Firearms, U.S. Department of Treasury; citizen complaints; wire service clippings; and articles in periodicals.

Systems exempted from certain provisions of the act: None.

Department of Justice Controlled Parking Records, JUSTICE/OMF-017: Revisions to this system of records effect editorial changes which are necessary because of a recent internal reorganization. Other minor editorial corrections are also reflected in the text reprinted below.

JUSTICE/OMF—017

System name: Department of Justice Controlled Parking Records.

System location: U.S. Department of Justice; 10th Street and Constitution Avenue, N.W., Washington, D.C. 20530.

Categories of individuals covered by the system: Department of Justice employees who have applied for vehicle parking space which is assigned and controlled by the Department of Justice, per Department of Justice Order 2540.2D, Dec. 20, 1977.

Categories of records in the system: This system contains copies of Form DOJ-362, Department of Justice Parking Space Application (DOJ Space), and Form DOJ-OT-60, Department of Justice Parking Space Application (DOJ Carpool Space), which have been completed and submitted by Department of Justice employees.

Authority for maintenance of the system: This system is established and maintained in accordance with Federal Energy Office (FEO) memorandum of January 17, 1974, Federal Management Circular 74-1 of January 21, 1974, and Federal Energy Office memorandum of April 5, 1974, as reflected in Federal Property Management (Temporary) Regulation D-47 of May 22, 1974. Operating procedures are contained in Department of Justice Order 2450.2D, Dec. 20, 1977.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: These records are used to assign, identify and control the use of vehicle parking space for which the Department of Justice is responsible.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: These records are stored in a locked file cabinet.

Retrievability: These records are indexed alphabetically, by the last name of the applicant, within the organizational element.

Safeguards: Information contained in this system is unclassified and is disseminated on a need to know basis by the Office of the Director, Administrative Programs Management Staff, Office of Management and Finance.

Retention and disposal: Although these records are currently retained as long as applicants remain as employees of the Department of Justice, the establishment of a disposal schedule is still pending.

System manager(s) and address: Director; Administrative Programs Management Staff; Office of Management and Finance; U.S. Department of Justice; 10th Street and Constitution Avenue, N.W.; Washington, D.C. 20530.

Notification procedure: Same as System Manager.

Record access procedures: Same as System Manager.

Contesting record procedures: Same as System Manager.

Record source categories: Applications from employees.

Systems exempted from certain provisions of the act: None.

V 43/189 SE 28 78

Executive Clemency Files, JUSTICE/OPA—001: The Office of the Pardon Attorney proposes to add one new routine use, modify another routine use, and delete a portion of the address of the Office of the Pardon Attorney and make other minor editorial changes to the system of records.

The new routine use will enable the Pardon Attorney to refer to any governmental agency for appropriate action information from Executive clemency files which indicates a violation or apparent violation of law, whether civil, criminal or regulatory in nature. The routine use pertaining to the preparation of public notices reflecting the President's action in clemency matters has been expanded to permit the release of information concerning denial of petitions of general public interest. Recitation of the system location street address has been omitted to avoid misinformation in view of the anticipated relocation of the Office of the Pardon Attorney in the coming year. The new and modified routine uses have been italicized for public convenience.

While retained in the Office of the Pardon Attorney, U.S. Department of Justice, Executive Clemency Files are files of the President of the United States which are compiled and maintained to provide for the exercise of his constitutional responsibilities pursuant to Article II, Section 2, and are not subject to the provisions of the Privacy Act of 1974. However, in compliance with the spirit of the Act, the Office of the Pardon Attorney (1) hereby notifies the public that guidelines approved by the President for handling requests for Executive clemency and disclosure of materials submitted or furnished in connection with Executive clemency are published in 28 CFR Part I and (2) publishes the following amended system notice.

JUSTICE/OPA—001

System name: Executive Clemency Files.

System location: Office of the Pardon Attorney; U.S. Department of Justice; Washington, D.C. 20530.

Categories of individuals covered by the system: Applicants for Executive clemency.

Categories of records in the system: The system contains the individual petitions for Executive clemency (OPA-6 or 6-15) submitted by the applicants and accompanying oath and character affidavits (DOJ-1973-06), investigatory material, evaluative reports, interagency and intra-agency correspondence and memoranda relating to individual petitions for clemency. The system includes Presidential Clemency Board files transferred to the Office of the Pardon Attorney upon termination of the Board's existence on September 15, 1975.

Authority for maintenance of the system: The system is established and maintained in accordance with the United States Constitution, Article II, section 2, Executive Order of the President dated June 16, 1893, Order No. 288-62, 27 FR 11002, November 10, 1962, as codified in 28 CFR 1.1 et seq. and E.O. 11878 dated September 10, 1975.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Executive clemency files are used to (a) enable the Attorney General to investigate each petition for Executive clemency, to review each petition and information developed by his investigation thereof and to advise the President whether, in his judgment, the request for clemency is of sufficient merit to warrant favorable action by the President; (b) prepare notices to the public of the name of each grantee of clemency, date of Presidential action, nature of clemency granted, nature of grantee's offense, date and place of sentencing, description of sentence imposed, and names of character affiants and interested members of congress; *and disclose similar information to that specified above with respect to denials of general public interest if the disclosure does not constitute an unwarranted invasion of privacy;* (c) prepare bound and indexed volumes containing photocopies of the official warrent of clemency granted each recipient of clemency as a public and official record of Presidential action; (d) upon request of the President and members of his staff, to make available to them individual clemency files; (e) upon specific request, to advise the requestor whether a named person has applied for, been granted or denied clemency, the date thereof and the nature of the clemency granted or denied; (f) upon specific request, to make closed files available for historical research purposes when in the public interest and in conformity with Department of Justice policy; *and (g) upon request or otherwise, to make any information which indicates a violation or apparent violation of law, whether civil, criminal or regulatory in nature, available to the appropriate agency, whether Federal, state, local or foreign.*

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information maintained in the system is stored in the Office of the Pardon Attorney and in Archives.

Retrievability: Information is retrieved by reference to the file number assigned to the name of each applicant for clemency.

Safeguards: Information contained in the system is safeguarded and protected in accordance with Department of Justice Rules Governing Petitions for Executive Clemency, specifically, 28 CFR 1.6. Executive clemency files are maintained in the Office of the Pardon Attorney and are not commingled with Department of Justice records.

Retention and disposal: Records are stored in the Office of the Pardon Attorney and closed cases are transferred to the Federal Archives Records Center when five years old. Except for the "letter of advice" furnished to the President in connection with clemency applications and Presidential responses and cases designated by the Pardon Attorney as having significant public interest, records are destroyed after 25 years.

System manager(s) and address: Pardon Attorney; Office of the Pardon Attorney; Department of Justice; Washington, D.C. 20530.

Notification procedure: Address inquiries to the Pardon Attorney; Department of Justice; Washington, D.C. 20530.

Record access procedures: While the Attorney General has exempted Executive Clemency files from the access provisions of the Privacy Act, requests for discretionary releases of records contained in the system shall be made in writing with the envelope and letter clearly marked "Privacy Access Request." Include in the request the general subject matter of the document and the name of the clemency applicant in whose file it is contained. The requestor will also provide a return address for transmitting the information. Access requests will be directed to the System Manager listed above.

Contesting record procedures: While the Attorney General has exempted Executive Clemency files from the correction (contest and amendment) provisions of the Privacy Act, requests for the discretionary correction (contest and amendment) of records contained in this system should be directed to the System Manager listed above, stating clearly and concisely what information is being contested, the reasons for contesting it and the proposed amendment to the information sought.

Record source categories: Sources of information contained in this system are the individual applicants for clemency, Federal Bureau of Investigation or other official investigatory reports, Bureau of Prisons records, armed forces reports, probation or parole reports and reports from individual or non-Federal organizations, both solicited and unsolicited.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsection (d) of the Privacy Act pursuant to 5 U.S.C. 552a(j)(2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

The following systems of records maintained by the Bureau of Prisons are revised to reflect a change in the retention and disposal periods from ten years after expiration of the subject inmate's sentence to thirty years after expiration of a sentence. The longer retention period is needed from time to time in order to continue providing information concerning former prison inmates to those former inmates, their families, governmental agencies, and under certain circumstances, to the general public. The texts reprinted below reflect this modification.

JUSTICE/BOP-001

System name: Custodial and Security Record System.

System location: Records may be retained at any of the Bureau's facilities, the Regional Offices and the Central Office. All requests for records may be made to the Central Office: U.S. Bureau of Prisons, 320 First Street NW., Washington, D.C. 20534.

Categories of individuals covered by the system: Current and former inmates unde the custody of the Attorney General.

Categories of records in the system: (Conduct Records; 2) Escape Information; 3) Assault Information; 4) Disturbance Information; 5) Investigative Reports; 6) Social Data; 7) Bus Movements; 8) Transfers; 9) Emergency Plans; 10) Daily Activity Sheet; 11) Intelligence Information; 12) Segregation Reports and Log Book; 13) Special Offender List; 14) Physical Health Data; 15) Personal Property Records; 16) Identification and Sentence Data; 17) Records of Work and Housing Assignments; 18) Visiting and Mail Records; 19) Confidential Informant Information from Inmates, Staff, and Others; 20) Work and Study Release Information; 21) FBI Referral Record; 22) Rectal and X-ray Examination Record; 23) Phone Call Record.

Authority for maintenance of the system: This system is established and maintained under authority of 18 U.S.C. 4003, 4042, 4082.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of this system are (a) to provide information source and documented records of the protection given Federal inmates, and security in Federal penal facilities; (b) to provide information source to officers and employees of the Department of Justice who have a need for the information in the performance of their duties; (c) to provide information source to state and federal law enforcement officials for investigations, possible criminal prosecutions, civil court actions, or regulatory proceedings; (d) to provide information source for responding to inquiries from federal inmates involved or Congressional inquiries; (e) to provide information source for contracting or consulting correctional agencies who provide services to federal inmates; (f) to provide information relating to federal offenders to federal and state courts, court personnel, and probation officials.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information maintained in the system is stored on documents.

Retrievability: Documents are indexed by name and/or register number.

Safeguards: Information is safeguarded in accordance with Bureau of Prisons rules governing access and release.

Retention and disposal: Records in this system are retained for a period of thirty (30) years after expiration of sentence, then destroyed by shredding.

System manager(s) and address: Chief, Management and Information Systems Group; U.S. Bureau of Prisons; 320 First Street NW., Washington, D.C. 20534.

Notification procedure: Address inquiries to: Director; Bureau of Prisons, 320 First Street NW., Washington, D.C. 20534. The major part of this system is exempt from this requirement under 5 U.S.C. 552a (j). Inquiries concerning this system should be directed to the System Manager listed above.

Record access procedures: The major part of this system is exempt from this requirement under 5 U.S.C. 552a (j). To the extent that this system of records is not subject to exemption, it is subject to access and contest. A determination as to exemption shall be made at the time a request for access is received.

Contesting record procedures: Same as the above.

Record source categories: 1) Inmates; 2) Federal Law Enforcement Agencies; 3) State and Federal Probation Services; 4) Non-Federal Law Enforcement Agencies; 5) Educational Institution (Study Release); 6) Relatives, friends, and other interested community individuals; 7) Former or Future Employers; 8) Evaluation, Observations, and Findings of Institutional Staff; 9) Foreign Law Enforcement Agencies.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c)(3) and (4), (d), (e)(2) and (3), (e)(4)(H), (e)(8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b), (c) and (e) and have been published in the Federal Register.

JUSTICE/BOP—003

System name: Industrial Inmate Employment Record System.

System location: Records may be retained at any of the Bureau's facilities, the Regional Offices and the Central Office. All requests for records may be made to the Central Office: U.S. Bureau of Prisons; 320 First Street N.W., Washington, D.C. 20534.

Categories of individuals covered by the system: Current and former inmates under the custody of the Attorney General.

Categories of records in the system: 1) Inmate assignment records; 2) Time and Attendance Reports; 3) Work Performance Reports; 4) Payroll Records.

Authority for maintenance of the system: This system is established and maintained under authority of 31 U.S.C. 841; 18 U.S.C. 4002, 4121 et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of this system are: (a) to determine compensation of inmates pursuant to 18 U.S.C. 4002, 4126, 4125, 4121 et seq.; (b) to record employment history of an inmate within the Federal Prison Industries, Inc.; (c) to record disbursement of Federal Prison Industries, Inc., funds for payroll purposes; (d) to evaluate effectiveness of industrial training of inmates; (e) to evaluate authenticity of Federal Prison Industries, inc., accounting records; (f) to provide information source to officers and employees of the Department of Justice who have need for information in the performance of their duties; (g) to provide information sources to state and federal law enforcement officials for investigations, possible criminal prosecution, civil court actions, or regulatory proceedings; (h) to provide information relating to federal offenders to federal and state courts, court personnel, and probation officials.

Release of information to the news media: Information permitted to be released to news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information maintained in the system is stored on documents, magnetic tape, magnetic disk, tab cards, and microfilm.

Retrievability: 1) Documents, Tab Cards and Microfilm—Information is indexed by name and/or register number. 2) Magnetic Tape and Disk—information is indexed by Name, Register Number, Social Security Number, and FBI Number.

Safeguards: Information is safeguarded in accordance with Bureau of Prisons rule governing access and release.

Retention and disposal: Records in this system are retained for a period of thirty (30) years after expiration of sentence, then destroyed by shredding.

System manager(s) and address: Chief, Management and Information Systems Group; U.S. Bureau of Prisons; 320 First Street, N.W.; Washington, D.C. 20534.

Notification procedure: Address inquiries to: Director, Bureau of Prisons; 320 First Street, N.W.; Washington, D.C. 20534. The major part of this system is exempt from this requirement under 5 U.S.C. 552a (j). Inquiries concerning this system should be directed to the System Manager listed above.

Record access procedures: The major part of this system is exempt from this requirement under 5 U.S.C. 552a (j). To the extent that this system of records is not subject to exemption, it is subject to access and contest. A determination as to exemption shall be made at the time a request for access is received.

Contesting record procedures: Same as the above.

Record source categories: 1) The inmate; 2) Bureau of Prisons/ Federal Prison Industries staff members; 3)U.S. Treasury Department.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c)(3) and (4), (d), (e)(2) and (3), (e)(4)(H), (e)(8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

JUSTICE/BOP—004

System name: Inmate Administrative Remedy Record System.

System location: Records may be retained at any of the Bureau's facilities, the Regional Offices and the Central Office. All requests for records may be made to the Central Office: U.S. Bureau of Prisons, 320 First Street NW., Washington, D.C. 20534.

Categories of individuals covered by the system: Current and former inmates under the custody of the Attorney General.

Categories of records in the system: 1) ARS records include information on the current offense and sentence; 2) Prior criminal record; 3) Social background; 4) Institution adjustment; 5) Institution program data; 6) Medical information; 7) Personal property data.

Authority for maintenance of the system: The system is established and maintained under authority of 18 U.S.C. 4042.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of this system are: (a) to maintain records of receipt, processing and responses to grievances filed by inmates; (b) to provide source of information for reconsideration or amendment of Federal Prison System policy with regard to its operation; (c) to maintain source of information as to the exhaustion of administrative remedies for purposes of civil suits filed against the Federal Prison System by inmates; (d) to provide source of information for purposes of defending civil actions. filed against the Federal Prison System by inmates; (e) to provide source of infomration for statistical reports furnished to Federal Courts for purpose of determining effectiveness of the Administrative Remedy Program in reducing the baclog of cases in Federal Court; (f) furnished to employees of the Department of Justice who have a need for the information in the performance of their duties; (g) furnished to appropriate law enforcement authorities, state and federal, for investigation and possible criminal prosecution, civil court action, or regulatory proceedings.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of reords may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information maintained in the system is stored on documents.

Retrievability: Documents are indexed by name and/or register number.

Safeguards: Information is safeguarded in accordance with Bureau of Prisons rules governing access and release.

Retention and disposal: Records in this system are retained for a period of thirty (30) years after expiration of sentence, then destroyed by shredding.

System manager(s) and address: Chief, Management and Information Systems Group, U.S. Bureau of Prisons, 320 First Street NW., Washington, D.C. 20534.

Notification procedure: Address inquiries to: Director, Bureau of Prisons; 320 First Street NW., Washington, D.C. 20534. The major part of this system is exempt from this requirement under 5 U.S.C. 552a (j). Inquiries concerning this system shoud be directed to the System Manager listed above.

Record access procedures: The major part of this system is exempt from this requirement under 5 U.S.C. 552a (j). To the extent that this system of records is not subject to exemption, it is subject to access and contest. A determination as to exemption shall be made at the time a request for access is received.

Contesting record procedures: Same as the above.

Record source categories: 1) ARS records sources include inmates, employees; 2) U.S. Department of Justice and its Bureaus; 3) U.S. Courts.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c) (3) and (4), (d), (e) (2) and (3), (e)(4)(H), (e)(8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

JUSTICE/BOP—005

System name: Inmate Central Records System.

System location: Records may be retained at any of the Bureau's facilities, the Regional Offices and the Central Office. All requests for records may be made to the Central Office: U.S. Bureau of Prisons; 320 First Street, N.W., Washington, D.C. 20534.

Categories of individuals covered by the system: Current and former inmates under the custody of the Attorney General.

Categories of records in the system: 1) Computation of sentence and supportive documentation; 2) Correspondence concerning pending charges, and wanted status, including warrants; 3) Requests from other federal and non-federal law enforcement agencies for notification prior to release; 4) Records of the allowance, forfeiture, withholding and restoration of good time; 5) Information concerning present offense, prior criminal background, sentence and parole from the U.S. Attorneys, the Federal Courts, and federal prosecuting agencies; 6) Identification data, physical description, photograph and fingerprints; 7) Order of designation of institution of original commitment; 8) Records and reports of work and housing assignments; 9) Program selection, assignment and performance adjustment/progress reports; 10) Conduct Records; 11) Social background; 12) Educational data; 13) Physical and mental health data; 14) Parole Board orders, actions and related forms; 15) Correspondence regarding release planning, adjustment and violations; 16) Transfer orders; 17) Mail and visit records; 18) Personal property records; 19) Safety reports and rules; 20) Release processing forms and certificates; 21) interview request forms from inmates; 22) General correspondence; 23) Copies of inmate court petitions.

Authority for maintenance of the system: This system is established and maintained under authority of 18 U.S.C. 4003, 4042, 4082.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of this system are (a) to provide documented records of the classification, care, subsistence, protection, discipline and programs, etc., of persons committed to the custody of the Attorney General; (b) to provide information source to officers and employees of the Department of Justice who have a need for the information in the performance of their duties; (c) to provide information source to state and federal law enforcement officials for investigations, possible criminal prosecutions, civil court actions, or regulatory proceedings; (d) to provide information source for disclosure of information that are matters solely of general public record, such as name, offense, sentence data, release date, and etc; (e) to provide information source for disclosure to contracting or consulting correctional agencies that provide correctional services for federal inmates; (f) to provide informational source for responding to inquiries from federal inmates involved or Congressional inquiries; (g) Internal Users—Employees of the Department of Justice who have a need to know information in the performance of their duties; (h) External Users—State and Federal

law enforcement officials for the purposes of investigation, possible criminal prosecution, civil court actions, and regulatory proceedings; state correctional agencies providing services to federal inmates; (i) to provide information relating to federal offenders to federal and state courts, court personnel, and probation officials.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information maintained in the system is stored on documents, magnetic tape, magnetic disk, tab cards, and microfilm.

Retrievability: 1) Documents, Tab Cards and Microfilm—Information is indexed by name and/or register number. 2) Magnetic Tape and Disk—information is indexed by Name, Register Number, Social Security Number, and FBI Number.

Safeguards: Information is safeguarded in accordance with Bureau of Prisons rule governing access and release.

Retention and disposal: Records in this system are retained for a period of thirty (30) years after expiration of sentence, then destroyed by shredding.

System manager(s) and address: Chief, Management and Information Systems Group; U.S. Bureau of Prisons; 320 First Street, N.W.; Washington, D.C. 20534.

Notification procedure: Address inquiries to: Director; Bureau of Prisons; 320 First Street, N.W.; Washington, D.C. 20534. The major part of this system is exempt from this requirement under 5 U.S.C. 552a (j). Inquiries concerning this system should be directed to the System Manager listed above.

Record access procedures: The major part of this system is exempt from this requirement under 5 U.S.C. 552a (j). To the extent that this system of records is not subject to exemption, it is subject to access and contest. A determination as to exemption shall be made at the time a request for access is received.

Contesting record procedures: Same as the above.

Record source categories: 1) Individual inmate, 2) Federal law enforcement agencies and personnel, 3) State and federal probation services; 4) Non-federal law enforcement agencies; 5) Educational institutions; 6) Hospital or medical sources; 7) Relative, friends and other interested individuals or groups in the community; 8) Former or future employers; 9) Evaluations, observations, reports, and findings of institution supervisors, counselors, boards and committees.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c)(3) and (4), (d), (e)(2) and (3), (e)(4)(H), (e)(8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

JUSTICE/BOP—007

System name: Inmate Physical and Mental Health Record System.

System location: Records may be retained at any of the Bureau's facilities, the Regional Offices and the Central Office. All requests for records may be made to the Central Office: U.S. Bureau of Prisons; 320 First Street NW.; Washington, D.C. 20534.

Categories of individuals covered by the system: Current and former inmates under the custody of the Attorney General.

Categories of records in the system: 1) Medical history and examination (past and present); 2) Dental history and examination (past and present); 3) Medical information concerning deaths of inmates; 4) Offense; 5) Mental Health and Drug Abuse interview and testing data, generated in Bureau of Prisons; 6) Mental Health information generated outside Bureau of Prisons by other corrections agencies, mental hospitals, private therapists, etc.; 7) Information as per 5 and 6 above on unsentenced individuals committed under Title 18, sections 4244 and 4246; 8) Mental Health Treatment progress notes and observations made by other staff members; 9) Urine surveillance reports of drug program participants.

Authority for maintenance of the system: The system is established and maintained under authority of 18 U.S.C. 4003, 4042, 4082.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of this system are: (a) to provide documented records of the diagnosis, treatment, and cure of illnesses of persons committed to the custody of the Attorney General pursuant to 18 U.S.C. 4082; (b) to provide documented records and background medical, mental; or dental history to contracting, or consulting physicians, psychologists and psychiatrists, and dentists, or other specialists, for diagnosis, treatment and cure of federal inmates; (c) to provide information source to officers and employees of the Department of Justice who have a need for the information in the performance of their duties; (d) to provide information source for disclosure to state and federal law enforcement officials for investigations, possible criminal prosecutions, civil court actions, or regulatory proceedings; (e) to provide information source for responding to inquiries from federal inmates or Congressional inquiries; (f) to provide information relating to federal offenders to federal and state courts, court personnel, and probation officials; (g) to provide medical information relevant to the treatment being provided by physicans, psychiatrists, psychologists, state and federal medical facility personnel, other medical agencies and etc., providing treatment for a pre-existing condition for ex-federal offenders.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information maintained in the system is stored on documents, magnetic tape, magnetic disk, tab cards, and microfilm.

Retrievability: 1) Documents, Tab Cards, and Microfilm—Information is indexed by name and/or register number—2) Magnetic Tape and Disk—Information is indexed by name, register number, social security number, and FBI number.

Safeguards: Information is safeguarded in accordance with Bureau of Prisons rules governing access and release.

Retention and disposal: Records in this system are retained for a period of thirty (30) years after expiration of sentence, then destroyed by shredding.

System manager(s) and address: Chief, Management and Information Systems Group, U.S. Bureau of Prisons; 320 First Street NW.; Washington, D.C. 20534.

Notification procedure: Address inquiries to: Director, Bureau of Prisons; 320 First Street NW.; Washington, D.C. 20534. The major part of this system is exempt from this requirement under 5 U.S.C. 552a (j). Inquiries concerning this system shoud be directed to the System Manager listed above.

Record access procedures: The major part of this system is exempt from this requirement under 5 U.S.C. 552a (j). To the extent that this system of records is not subject to exemption, it is subject to access and contest. A determination as to exemptions shall be made at the time a request for access is received.

Contesting record procedures: Same as the above.

Record source categories: 1) Individual; 2) Hospital and/or medical sources; 3) Pre-sentence reports; 4) Other mental health care giving agencies; 5) Observation reports from other Bureau of Prisons staff.

V 43/189 SE 28 78

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c)(3) and (4), (d), (e)(2) and (3), (e)(4)(H), (e)(8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b), (c) and (e) and have been published in the Federal Register.

JUSTICE/BOP—008

System name: Inmate Safety and Accident Compensation Record System.

System location: Records may be retained at any of the Bureau's facilities, the Regional Offices and the Central Office. All requests for records may be made to the Central Office: U.S. Bureau of Prisons, 320 First Street NW., Washington, D.C. 20534.

Categories of individuals covered by the system: Current and former inmates under the custody of the Attorney General.

Categories of records in the system: Inmate accident/injuries data sustained by: a) Work related accidents, b) Recreational injuries; c) Vehicle accidents; d) Assaults; e) Other non-work accident/injuries.

Authority for maintenance of the system: This system is established and maintained under authority of 18 U.S.C. 4042, 4126.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of this system are: (a) to provide a documented record of inmate accidents, injuries, for the purpose of measuring safety programs effectiveness; (b) to provide information source for compliance with the Occupational Safety and Health Act; (c) to provide documented records of inmate accidents, injuries, and disabilities for adjudication of claims by inmates filed pursuant to the Inmate Accident Compensation System, 18 U.S.C. 4126; Chapter III, Federal Prisons Industries, 28 CFR, Part 301; (d) furnished to employees of the Department of Justice who require information from these records for performance of their duty; (e) to provide background information and litigation reports to United States Attorneys for purpose of defending civil actions filed against the Bureau of Prisons; (f) furnished to consultant physicians, and physicians treating inmates following release from custody for the purpose of providing prior medical history in conjunction with further treatment of the individual inmate; (g) to provide documented records for disclosure to appropriate law enforcement authorities, state or federal, for investigation and possible criminal prosecution, civil court action, or regulatory proceeding; (h) to provide information source for responding to inquiries from the inmate involved or Congressional inquiries; (i) to provide information relating to federal offenders to federal and state courts, court personnel, and probation officials.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff request the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information maintained in the system is stored on documents.

Retrievability: Documents are indexed by name and/or register number.

Safeguards: Information is safeguarded in accordance with Bureau of Prisons rules governing access and release.

Retention and disposal: Records in this system are retained for a period of thirty (30) years after expiration of sentence, then destroyed by shredding.

System manager(s) and address: Chief, Management and Information Systems Group, U:S. Bureau of Prisons, 320 First Street NW., Washington, D.C. 20534.

Notification procedure: Address inquiries to: Director Bureau of Prisons; 320 First Street NW., Washington, D.C. 20534. The major part of this system is exempt from this requirement under 5 U.S.C. 552a (j). Inquiries concerning this system shoud be directed to the System Manager listed above.

Record access procedures: The major part of this system is exempt from this requirement under 5 U.S.C. 552a (j). To the extent that this system of records is not subject to exemption, it is subject to access and contest. A determination as to exemptions shall be made at the time a request for access is received.

Contesting record procedures: Same as the above.

Record source categories: 1) ARS records sources include inmates, employees; 2) U.S. Department of Justice and its Bureaus; 3) U.S. Courts.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from substances (c)(3) and (4), (d), (e)(2) and (3), (3)(4)(H), (e)(8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b), (c) and (e) and have been published in the Federal Register.

JUSTICE/BOP—005

System name: Inmate Safety and Accident Compensation Record System.

System location: Records may be retained at any of the Bureau's facilities, the Regional Offices and the Central Office. All requests for records may be made to the Central Office: U.S. Bureau of Prisons; 320 First Street, N.W.; Washington, D.C. 20534.

Categories of individuals covered by the system: Current and former inmates under the custody of the Attorney General.

Categories of records in the system: Inmate accident/injuries data sustained by: a) Work related accidents; b) Recreational injuries; c) Vehicle accidents; d) Assaults; e) Other non-work accident/injuries.

Authority for maintenance of the system: This system is established and maintained under authority of 18 U.S.C. 4003, 4042, 4082.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of this system are: (a) to provide a documented record of inmate accidents, injuries, for the purpose of measuring safety programs effectiveness; (b) to provide information source for compliance with the Occupational Safety and Health Act; (c) to provide documented records of inmate accidents, injuries, and disabilities for adjudication of claims by inmates filed pursuant to the Inmate Accident Compensation System, 18 U.S.C. 4126; Chapter III, Federal Prisons Industries, 28 C.F.R., Part 301; (d) furnished to employees of the Department of Justice who require information from these records for performance of their duty; (e) to provide background information and litigation reports to United States Attorneys for purpose of defending civil actions filed against the Bureau of Prisons; (f) furnished to consultant physicians treating inmates following release from custody for the purpose of providing prior medical history in conjunction with further treatment of the individual inmate; (g) to provide documented records for disclosure to appropriate law enforcement authorities, state or federal, for investigation and possible criminal prosecution, civil court action, or regulatory proceeding; (h) to provide information source for responding to inquiries from the inmate involved or Congrressional inquiries; (i) to provide information relating to federal offenders to federal and state courts, court personnel, and probation officials.

Release of information to the news media: Information permitted to be released to news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information maintained in the system is stored on documents, magnetic tape, magnetic disk, tab cards, and microfilm.

Retrievability: Documents are indexed by name and/or register number.

Information is safeguarded in accordance with Bureau of Prisons rule governing access and release.

Retention and disposal: Records in this system are retained for a period of thirty (30) years after expiration of sentence, then destroyed by shredding.

System manager(s) and address: Chief, Management and Information Systems Group; U.S. Bureau of Prisons; 320 First Street, N.W.; Washington, D.C. 20534.

Notification procedure: Address inquiries to: Director; Bureau of Prisons; 320 First Street, N.W.; Washington, D.C. 20534. The major part of this system is exempt from this requirement under 5 U.S.C. 552a (j). Inquiries concerning this system should be directed to the System Manager listed above.

Record access procedures: The major part of this system is exempt from this requirement under 5 U.S.C. 552a (j). To the extent that this system of records is not subject to exemption, it is subject to access and contest. A determination as to exemption shall be made at the time a request for access is received.

Contesting record procedures: Same as the above.

Record source categories: 1) The inmate; 2) Bureau of Prisons staff members; 3) Medical staff members and medical consultants; 4) U.S. Probation Officers; 5) Attorneys; 6) Relatives of inmates; 7) Inquiries and replies to Congressmen; 8) U.S. Attorneys.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c)(3) and (4), (d), (e)(2) and (3), (e)(4)(H), (e)(8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b), (c) and (e) and have been published in the Federal Register.

JUSTICE/BOP-009

System name: Federal Tort Claims Act Record System.

System location: Records may be retained at any of the Bureau's facilities, the Regional Offices and the Central Office. All requests for records may be made to the Central Office: U.S. Bureau of Prisons; 320 First Street NW.; Washington, D.C. 20534.

Categories of individuals covered by the system: Current and former inmates under the custody of the Attorney General.

Categories of records in the system: 1) Administrative Tort claims and supporting documents; 2) Personal data; 3) Investigative reports; 4) Medical reports; 5) Property records; 6) Litigation reports; 7) Reports made in preparation of litigation; 8) Social and Criminal Background; 9) Employment History; 10) Correspondence; 11) Litigation Pleadings and Court Decisions.

Authority for maintenance of the system: The system is established and maintained under authority of 28 U.S.C. 2671 et seq. FTCA.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of this system are: (a) to provide information source for purposes of adjudicating claims for personal injury and property damages pursuant to the Federal Tort Claims Act, 28 U.S.C. 2675; (b) to provide information source for purposes of preparing reports concerning litigation in United States Courts under the Federal Tort Claims Act, 28 U.S.C. 2671 et seq; (c) to provide information source that is furnished to counsel for claimants under the Federal Tort Claims Act; (d) to provide information source that is furnished to medical officials when requested by claimants under the Federal Tort Claims Act; (e) to provide information source that is disclosed to employees of the Department of Justice who have a need for the information in the performance of their duties; (f) to provide information source to state and federal law enforcement officials for the purpose of investigations, possible criminal prosecutions, civil court actions, or regulatroy proceedings; (g) to provide information relating to federal offenders to federal and state courts, court personnel, and probation officials.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress: Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Service: A record from a system of records may be disclosed as a routine use to the National Archives and Records Service (NARS) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information maintained in the system is stored on documents.

Retrievability: Documents are indexed by name and/or register number.

Safeguards: Information is safeguarded in accordance with Bureau of Prisons rules governing access and release.

Retention and disposal: Records in this system are retained for a period of thirty (30) years after expiration of sentence, then destroyed by shredding.

System manager(s) and address: Chief, Management and Information Systems Group; U.S. Bureau of Prisons; 320 First Street NW.; Washington, D.C. 20534.

Notification procedure: Address inquiries to: Director, Bureau of Prisons; 320 First Street NW.; Washington, D.C. 20534. The major part of this system is exempt from this requirement under 5 U.S.C. 552a (j). Inquiries concerning this system shoud be directed to the System Manager listed above.

Record access procedures: The major part of this system is exempt from this requirement under 5 U.S.C. 552a (j). To the extent that this system of records is not subject to exemption, it is subject to access and contest. A determination as to exemptions shall be made at the time a request for access is received.

Contesting record procedures: Same as the above.

Record source categories: 1) Inmates; 2) Department of Justice Employees; 3) U.S. Probation Service; 4) Contract and Consulting Physicians Including Hospitals; 5) Attorneys; 6) Relatives and friends of Inmates; 7) Congress; 8) State and Federal Law Enforcement Agencies.

Systems exempted from certain provisions of the act: The Attorney General has exempted this system from subsections (c)(3) and (4), (d), (e)(2) and (3), (e)(4)(H), (e)(8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b), (c) and (e) and have been published in the Federal Register.

Part V

Notice is hereby given that the following systems of records are deleted for the reasons stated below.

JUSTICE/ATR—009

Consumer Inquiry Index: Published at 42 FR 53396, September 30, 1977. This system is deleted because documents in this index have been rearranged so that it is no longer possible to access records by personal identifier. Therefore, the index is no longer a system of records within the scope of the Privacy Act.

JUSTICE/CRT—003

Files of Pending Applications for Clerical or Research Analyst Positions with the Civil Rights Division: Published at 42 FR 53327, September 30, 1977. This system is deleted because all applicant files for clerical or research analyst positions are now maintained in the Department's Personnel and Training Staff. The files as maintained by the Personnel and Training Staff do not constitute a system of records.

JUSTICE/CRT—005

Records Obtained by Office of Special Litigation Concerning Residents of Certain State Institutions: Published at 42 FR 53328, September 30, 1977. This system is deleted because the records have been incorporated into the Central Civil Rights Division Index File and Associated Records, JUSTICE/CRT—001.

JUSTICE/CRT—006

Files of Federal Programs Section, Civil Rights Division: Published at 42 FR 53329 on September 30, 1977. This system is deleted

V 43/189 SE 28 78

because the records have been incorporated into the Central Civil Rights Division Index File and Associated Records, JUSTICE/CRT—001.

JUSTICE/DEA—019

Specialized Automated Intelligence Files (NIMROD): Published at 42 FR 53308 on September 30, 1977. The NIMROD system is deleted because it consisted of data on microfiche generated entirely from the NADDIS index which is reported as a part of the Investigative Reporting and File System, JUSTICE/DEA—008. A search of the NADDIS index would produce the identical data. Therefore, the NIMROD system is no longer maintained as a system of records.

JUSTICE/OMF—014

Directory of Organization, Functions, and Staff for Office of Management and Finance: Published at 42 FR 53426 on September 30, 1977. This system is deleted because it is no longer operational.

[8320-01]

VETERANS ADMINISTRATION

PRIVACY ACT OF 1974

Notice of Incorporation by Reference

Agency: Veterans Administration.

Action: Incorporation by reference of Privacy Act issuances.

Summary: Federal agencies ar required by the Privacy Act of 1974 to give annual notice of certain records they maintain. The notices published last year were compiled by the Office of the Federal Register into "Privacy Act Issuances—1977 Compilation." The purpose of this document is to incorporate by reference the notices that appear in "Privacy Act Issuances—1977 Compilation" and to publish in full the systems that this agency has amended since publication of the 1977 Compilation.

Dates: This document fulfills the annual notice requirements of the Privacy Act for 1978.

For further information contact: Mrs. Maureen diNunzio, Chief, Records Management Division (63), Veterans Administration, Central Office, 810 Vermont Avenue, NW, Washington, DC 20420 (202-389-3648).

APPROVAL OF THE DIRECTOR

The notices of systems of records of this agency which appear in "Privacy Act Issuances—1977 Compilation" are incorporated by reference. The Director of the Office of the Federal Register granted approval to incorporate by reference these Privacy Act issuances on July 13, 1978. Published below is the full text of systems of records that this agency has amended since publication of the 1977 Compilation.

38VA28

System name: Veterans and Beneficiary Identification and Records Locator System-VA

System location: VA Data Processing Center, 1615 E. Woodward Street, Austin, Texas 78772, and VA Central Office, 810 Vermont Ave., N.W., Washington, D.C. 20420.

Categories of individuals covered by the system: Basic file: Veterans who have applied for VA benefits: Compensation, Pension, Education, U.S. Government Life Insurance, National Service Life Insurance, or burial allowance (under Title 38, United States Code, Chapters 11, 15, 19, 23, 31, and 34). Veterans' beneficiaries (spouse, child or parent) who are receiving VA benefits: Dependency and Indemnity Compensation. Pension or Education (under Title 38, United States Code, Chapters 13, 15, and 35). Veterans who receive pensions from Railroad Retirement Board. Veterans discharged from military service since January 1973. Service members who have established accounts from which future applications for VA educational benefits under Title 38, United States Code, Chapter 32 may be based.

Adjunct file: Microfilm copies of former manual Central Index and claim number registers; partial file of pensioners with service prior to 1930; personnel with service between 1940 and 1948 with VA insurance; and partial lists of other armed forces personnel.

Categories of records in the system: Veteran's service data, VA file numbers and records location and corss-references to beneficiaries.

Authority for maintenance of the system: Title 38, United States Code Chapter 3, Section 210(c)(1).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

1. Inquiry of record by the Railroad Retirement Board to obtain veteran's VA claim file number and folder location in order to get necessary information from VA Compensation, Pension or Education records in accordance with the Railroad Retirement Act of 1937 (Section 2281(i)).

2. Inquiry of record by the National Personnel Records Center (NPRC) and U.S. Army Reserve Components Personnel and Administration Center (RCPAC) to obtain the veteran's VA claim file number and folder location so that service records on file at the VA may be returned when necessary to assist in rebuilding lost military service records or for review for possible discharge up-grade or correction.

3. Inquiry of record by the National Research Council, National Academy of Sciences to obtain data for use in medical studies on veterans for VA and other agencies as approved by the Chief Medical Director.

4. Inquiry of record by the Treasury Department or the U.S. Marine Corps Finance Center to obtain veteran's claim or insurance file number and folder location in order to get necessary data to return U.S. Savings Bonds in safekeeping.

5. Inquiry of record by Federal, State and local government agencies to assist agencies in the performance of their duties and in the development of programs that will be beneficial to claimants.

6. In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, State, local or foreign, charged with the responsibility of investigation or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

7. Inquiry of record by accredited service organization representatives and other approved agents and attorneys to obtain the veteran's VA claim or insurance file number and folder location in order to aid veterans in the preparation, presentation and prosecution of claims under the laws administered by the VA.

8. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

9. A record containing the name(s) of present or former members of the armed services and/or their dependents may be released from this system of records under certain circumstances: (1) to any nonprofit organization if the release is directly connected with the conduct of programs and the utilization of benefits under Title 38, and (2) to any criminal or civil law enforcement governmental agency or instrumentality charged under applicable law with the protection of the public health or safety if a qualified representative of such organization, agency or instrumentality has made a written request that such name(s) be provided for a purpose authorized by law; provided, further, that the record(s) will not be used for any purpose other than that stated in the request and that the organization, agency or instrumentality is aware of the penalty provision of 38 U.S.C. 3301(f).

10. Inquiry of record by research facilities to obtain data necessary to assist in medical studies on veterans for the Veteran Administration and other agencies, as approved by the Chief Medical Director, provided that the name of the veteran and other pertinent identifying data is furnished by the requester.

11. To the Department of Justice and United States Attorneys in defense or prosecution of litigation involving the United States.

12. Disclosure may be made to NARS (National Archives and Records Service) GSA (General Services Administration) in records management inspections conducted under authority of 44 U.S.C. 2904 and 2906.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Basic file is on magnetic disk with security copies of data on magnetic tape. Adjunct file is on microfilm and paper.

Retrievability: Name only; name and one or more numbers (Service serial number, social security number, VA claim file number, VA insurance file number); name and date of birth or service dates; number only.

Safeguards: Access to the authorized VA Data Processing Center (DPC), Austin, Texas, is restricted to authorized Federal employees and authorized representatives of vendors. Access to the computer room within the DPC is further restricted to especially authorized Federal employees and vendor personnel. Protection is provided by an alarm system as well as guard service. Data in the system may be accessed from authorized remote terminals via a telecommunications network maintained by General Services Administration (GSA) or one dedicated for VA use. The system recognizes authorized users by a station identifier transmitted in the data message. In addition, data in the system may be accessed by machine-readable input submitted to the DPC.

Adjunct file is accessible to personnel assigned to Identification and Records Development Service, VA Central Office and to Analysis and Control Division, VA DPC, Austin, Texas, for official use only.

Retention and disposal: Records are retained permanently.

System manager(s) and address: DIRECTOR, ADMINISTRATIVE SERVICES DIVISION (23), VA Central Office, Washington, D.C. 20420.

Notification procedure: Individuals seeking information concerning the existence of a record pertaining to themselves must submit a written request or apply in person to the nearest VA Regional Office or Center. Addresses for VA regional offices and centers may be found in VA Appendix 1 at the end of this document. All inquiries

V 4 3 / 1 8 9

must reasonably identify the benefit or system of records involved, i.e., Education, Compensation and Pension. Inquiries should include the individual's full name, VA file number and return address. If the VA file number is not available then as much of the following information as possible should be forwarded: branch of service, dates of service, service number, social security number and date of birth.

Record access procedures: Veterans, beneficiaries, service personnel or duly authorized representatives seeking information regarding access to and contesting of VA records may write, call or visit the nearest VA regional office or center.

Contesting record procedures: (See Record Access Procedures above.)

Record source categories: Records are obtained from VA regional offices, Railroad Retirement Board, other VA computer systems and microfilm copies of former manual central index.

49VA21

System name: Veterans, Dependents and Beneficiaries Compensation and Pension Records—VA.

System location: Records are maintained at the VA regional offices, the Records Processing Center, St. Louis, and Federal Archives and Records Centers. Active records are generally maintained by the regional office having jurisdiction over the domicile of the claimant, and the servicing Data Processing Center at Hines, Illinois with subsidiary accounts receivable records located at the Data Processing Center at St. Paul, Minnesota. Address locations are listed in VA Appendix 1 at the end of this document.

Categories of individuals covered by the system: 1. Veterans who have applied for compensation for service-connected disability under Title 38, United States Code, Chapter 11.

2. Veterans who have applied for non-service-connected disability, under Title 38, United States Code, Chapter 15.

3. Veterans entitled to burial benefits under Title 38, United States Code, Chapter 23.

4. Widows, widowers and children who have claimed pension based on non-service-connected death under Title 38, United States Code, Chapter 15.

5. Widows, widowers and children who have claimed Death Compensation based on service-connected death under Title 38, United States Code, Chapter 11.

6. Widows, widowers and children who have claimed Dependency and Indemnity Compensation for service-connected death under Title 38, United States Code, Chapter 13.

7. Parents who have applied for Death Compensation based on service-connected death under Title 38, United States Code, Chapter 11.

8. Parents who have applied for Dependency and Indemnity Compensation for service-connected death under Title 38, United States Code, Chapter 13.

Categories of records in the system: Military service and medical information; applications for Compensation and Pension benefits; adjudicative actions taken to determine eligibility; medical information from VA and private hospitals and doctors; information relating to dependency, income, education, family and social relations and occupation; payment data and claimant or payee name and address.

Authority for maintenance of the system: Title 38, United States Code, Chapter 3, Section 210(c)(1), Title 38, United States Code, Chapters 11, 13, 15, and 23.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: 1. Transfer of payment data for preparation of benefit checks to the Treasury Department for delivery of monies due VA beneficiaries.

2. Disclosure of VA records as deemed necessary and proper to accredited service organizations, agents, and attorneys recognized under a power of attorney or declaration of representation to assist in the preparation, presentation, and prosecution of claims.

3. Transfer of information to aid collection agencies in order to conduct a credit check to determine the likelihood of success in a collection action from claimants of debts owed to VA.

4. Further transfer of collection information to the General Accounting Office for obtaining a judgment against an individual debtor or otherwise collecting debts owed to the VA.

5. In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, State, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

6. A record from this system of records may be disclosed as a "routine use" to a Federal, State or local agency maintaining civil, criminal or other relevant information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

7. A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

8. Transfer of statistical and other data to Federal, State, and local government agencies and national health organizations to assist in the development of programs that will be beneficial to claimants and to protect their rights under law and assure that they are receiving all benefits to which they are entitled.

9. A record containing medical history, diagnoses, findings, or treatment may be released from this system of records in response to a request from the superintendent of a State hospital for psychotic patients, a commissioner or head of a State department of mental hygiene, or head of a State, county or city health department, or any fee basis physician or institution in connection with authorized treatment as a VA beneficiary, provided that the name of the individual to whom the record pertains is given and that the information will be treated as confidential, as is customary in civilian professional medical practice.

10. A record from this system of records may be disclosed to a State unemployment compensation agency, in response to its request, to the extent required to determine eligibility for their benefit.

11. A record from this system of records may be disclosed to the following agencies relative to military or naval service and as to both current and historical benefit payments made by the VA: Departments of the Army, Navy and Air Force; Marine Corps; Department of Transportation (Coast Guard); Department of Health, Education and Welfare, PHS (Public Health Service), Commissioned Corps; Department of Commerce, NOAA (National Oceanic and Atmospheric Administration), Commissioned Officer Corps.

12. A record from this system of records may be disclosed to a third party to the extent necessary in the development of a potential beneficiary's claim for VA benefits (i.e., individual identifiers and other similar identifying information).

13. A record containing the name(s) and address(es) of present or former members of the armed services and/or their dependents may be released from this system of records under certain circumstances: (1) to any nonprofit organization if the release is directly connected with the conduct of programs and the utilization of benefits under Title 38, and (2) to any criminal or civil law enforcement governmental agency or instrumentality charged under applicable law with the protection of the public health or safety if a qualified representative of such organization, agency or instrumentality has made a written request that such name(s) or address(es) be provided for a purpose authorized by law; provided, further, that the record(s) will not be used for any purpose other than that stated in the request and that the organization, agency or instrumentality is aware of the penalty provision of 38 U.S.C. 3301(f).

14. The amount of pension, compensation, dependency and indemnity compensation, educational assistance allowance, retirement pay and subsistence allowance, of any beneficiary, may be released from this system of records to any person who applies for such information.

15. A record from this system of records may be disclosed to a fiduciary (including those acting in a fiduciary capacity) recognized or appointed by the VA to the extent necessary to fulfill the fiduciary's function.

16. Relevant information from this system of records may be disclosed, as a routine use: In the course of presenting evidence to a Court, magistrate, or administrative tribunal in matters of guardianship, inquests, and commitments; to private attorneys representing veterans rated incompetent in conjunction with issuance of Certificates of Incompetency; and to probation and parole officers in connection with Court required duties.

17. Relevant information from this system of records, including the nature and amount of a financial obligation, may be disclosed as a routine use, in order to assist the Veterans Administration in the collection of upaid financial obligations owed the VA, to a debtor's employing agency or commanding officer so that the debtor-employee may be counseled by his or her Federal employer or commanding officer. This purpose is consistent with 5 U.S.C. 5514, 4 CFR 102.5, and section 206 of Executive Order 11222 of May 8, 1965 (30 FR 6469).

18. Relevant information from this system of records, including available identifying data regarding the debtor, such as name of debtor, last known address of debtor, name of debtor's spouse, social security account number of debtor, VA insurance number, VA loan number, VA claim number, place of birth and date of birth of debtor, name and address of debtor's employer or firm and dates of employment, may be disclosed to other Federal agencies, State probate courts, State drivers license bureaus, and State automobile title and license bureaus as a routine use in order to obtain current address, locator and credit report assistance in the collection of unpaid financial obligations owed the U.S. This purpose is consistent with the Federal Claims Collection Act of 1966 (Pub. L. 89-508, 31 U.S.C. 951-953) and 4 CFR Parts 101-105.

19. Release of information to a guardian ad litem in relation to his or her representation of a claimant in any legal proceeding.

20. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

21. To the Department of Justice and United States Attorneys in defense or prosecution of litigation involving the United States.

22. Disclosure may be made to NARS (National Archives and Records Service) GSA (General Services Administration) in records management inspections conducted under authority of 44 U.S.C. 2904 and 2906.

23. Disclosure of medical record data, excluding name and address (unless name and address is furnished by the requester) for research purposes determined to be necessary and proper, to epidemiological and other research facilities approved by the Chief Medical Director.

24. The name(s) and address(es) of present or former personnel of the armed services and/or their dependents may be disclosed to the Department of Health, Education, and Welfare, or agency thereof, or other Federal Agency, at the written request of the head of the agency or designee of the head of that agency, for the purpose of conducting government research necessary in order to accomplish a statutory purpose of that agency.

25. Inquiry of record by research facilities to obtain data necessary to assist in medical studies on veterans for the Veterans Administration and other agencies, as approved by the Chief Medical Director, provided that the name of the veteran and other pertinent identifying data is furnished by the requester.

26. Information from this system of records which directly affects payment or potential payment of benefits to contesting claimants, including parties claiming an apportioned share of benefits may be coequally disclosed to each affected claimant upon rquest from that claimant in conjunction with the claim for benefits sought or received.

27. A record from this system of records may be released to the Social Security Administration, Bureau of Supplemental Security Income, as required for their determination of eligibility for or amounts of benefits, or to verify other amounts of benefits, or to verify other information with respect thereto.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper documents, microfilm, magnetic tape, disk.

Retrievability: (a) All VA Compensation and Pension manual records are indexed by name and VA file number. (b) All automated records are indexed by name, VA file number, payee number and type of benefit.

Safeguards: Physical Security: Access to VA working spaces and claims folder storage areas is restricted to VA employees on a "need to know" basis. Generally, VA file areas are locked after normal duty hours and are protected from outside access by the Federal Protective Service. Employee file records and file records of public figures or otherwise senative files are stored in separate locked files. Strict control measures are enforced to ensure that disclosure is limited to a "need to know" basis.

Retention and disposal: Individual case folders and records are retained indefinitely.

System manager(s) and address: DIRECTOR, COMPENSATION AND PENSION SERVICE (21), VA Central Office, Washington, D.C. 20420.

Notification procedure: 1. Individuals seeking information concerning the existence of a record pertaining to themselves must submit a written request or apply in person to the nearest VA regional office. Addresses for VA regional offices and centers may be found in VA Appendix 1 at the end of this document.

2. All inquiries must reasonably identify the benefit or system of records involved; i.e., Compensation and Pension. Inquiries should include the individual's full name, VA file number and return address. If the VA file number is not available, the following information should be forwarded, if known: Veteran's full name, branch of service, dates of service, service number, social security number, and date of birth.

Record access procedures: Veterans, beneficiaries, service organization personnel or other duly authorized representatives seeking information regarding access to and contesting of VA records may write, call or visit the nearest Veterans Administration regional office or center.

Contesting record procedures: (See Record Access Procedures above.)

Record source categories: 1. The claimant, his accredited representative or his fiduciary. 2. The service department. 3. VA hospitals and doctors, or private hospitals and doctors if written authorization is obtained from th claimant. 4. Training establishments. 5. Other Federal agencies. 6. County Clerks, Courts, and other third parties, when assistance is requested by claimant.

50VA22

System name: Veterans, Dependents, Beneficiaries and Armed Forces Personnel Education and Rehabilitation Record-VA

System location: Education records are maintained at the VA regional offices, Records Processing Center and Federal Archives and Records Centers. Active records will generally be maintained by the regional office having jurisdiction over the area in which the claimant resides, and at the servicing Data Processing Center at Hines, Illinois with subsidiary accounts recivable records located at the Data Processing Center at St. Paul, Minnesota. Address locations are listed in VA Appendix 1 at the end of this document.

Categories of individuals covered by the system: 1. Veterans who have applied for VA educational benefits under Title 38, United State Code, Chapter 31 and 34.

2. Spouse or widow(er) who has applied for VA educational benefits under Title 38, United States Code, Chapter 35.

3. Children who have applied for VA educational benefits under Title 38, United States Code, Chapter 35.

4. Service members who have applied for VA educational benefits under Title 38, United States Code, Chapter 34.

5. Service members who have applied for VA educational benefits under Title 38, United States Code, Chapter 32.

Categories of records in the system: Active duty separation information, medical records relating to treatment in service, applications, education and training, marital status and dependency information, current payment data and educational status relative to VA benefits. Counseling and Rehabilitation records are also maintained as necessary.

Authority for maintenance of the system: Title 38, United States Code, Chapter 3, Section 210(c)(1) and Chapters 31, 32, 34, 35, and 36.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: 1. Transfer of payment information to the Treaury Department to ensure delivery of benefit checks to VA beneficiaries.

2. Transfer of information to collection agencies in order to conduct a credit check to determine the likelihood of success in a collection action against individuals who owe debts to the VA.

3. Further transfer of necessary collection information to the General Accounting Office, for use in procedures incident to obtaining a judgment against the individual.

4. Forwarding of computer generated VA forms to VA approved educational institutions in order to certify individual's reenrollment and allow payment.

5. In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, State local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

6. A record from this system of records may be disclosed as a "routine use" to a Federal, State or local agency maintaining civil,

criminal or other relevant information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefits.

7. A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

8. Transfer of information regarding the induction, reentrance and dismissal of a disabled veteran from the vocational rehabilitation program to inform the training establishment of the actions taken.

9. Written and oral disclosure to VA approved Vocational Rehabilitation Training Establishments regarding the extent and nature of a claimant's disabilities with respect to any limitations to be imposed on the vocational program to ensure that the trainee receives the maximum benefit from training. A vast amount of discretion with respect to each disclosure is practiced.

10. Transfer of statistical and other data to Federal, State and local government agencies and national health organizations to assist in the development of programs that will be beneficial to claimants, to protect their rights under law, and to assure that they are receiving all benefits to which they are entitled.

11. The transfer of payment information to officials of schools and training establishments having VA beneficiaries when it can be determined that such a request is part of a legitimate attempt to assist the veteran or other eligible person to ascertain that correct amounts were paid. However, such information will not be provided as a routine use to school officials when the request is clearly an attempt to seek assistance in collection attempts against the veteran or eligible person.

12. Transfer to schools and other training establishments of VA edcuation forms for completion by school and subsequent submission to the VA for processing of education and vocational rehabilitation training claims.

13. Transfer of VA education letters and form letters to schools and other training establishments which may, by necessity, contain identifying data about a veteran or eligible person in order to obtain further information from the school necessary to discharge VA responsibilities toward the veteran or eligible person.

14. Transfer of identifying information, such as name, file number and address to a school or training establishment official in order to obtain information necessary to pay the veteran or eligible person correct amounts in an expedited manner. (An example of the above is a telephone call to an OJT establishment to find out the number of hours worked.)

15. Transfer of necessary information concerning veterans and other eligible persons to State and local agencies and prospective employers for employment and/or training.

16. A record containing the name(s) and address(es) of present or former members of the armed services and/or their dependents may be released from this system of records under certain circumstances: (1) to any non-profit organization if the release is directly connected with the conduct of programs and the utilization of benefits under Title 38, and (2) to any criminal or civil law enforcement governmental agency or instrumentality charged under applicable law with the protection of the public health or safety if a qualified representative of such organization, agency or instrumentality has made a written request that such name(s) or address(es) be provided for a purpose authorized by law; provided, further, that the record(s) will not be used for any purpose other than that stated in the request and that the organization, agency or instrumentality is aware of the penalty provision of 38 U.S.C. 3301(f).

17. Relevant information from this system of records, including the nature and amount of a financial obligation, may be disclosed as a routine use, in order to assist the Veterans Administration in the collection of unpaid financial obligations owed the VA, to a debtor's employing agency or commanding officer so that the debtor-employee may be counseled by his or her Federal employer or commanding officer. This purpose is consistent with 5 U.S.C. 5514, 4 CFR 102.5, and section 206 of Executive Order 11222 of May 8, 1965 (30 FR 6469).

18. Relevant information from this system of records, including available identifying data regarding the debtor, such as name of debtor, last known address of debtor, name of debtor's spouse, social security account number of debtor, VA insurance number, VA loan number, VA claim number, place of birth and date of birth of debtor, name and address of debtor's employer or firm and dates of employment, may be disclosed to other Federal agencies, State probate courts, State drivers license bureaus, and State automobile title and license bureaus as a routine use in order to obtain current address, locator and credit report assistance in the collection of unpaid financial obligations owed the U.S. This purpose is consistent with the Federal Claims Collection Act of 1966 (Pub. L. 89-508, 31 U.S.C. 951-953) and 4 CFR Parts 101-105.

19. A record from this system of records may be disclosed to a State unemployment compensation agency, in response to its request, to the extent required to determine eligibility for their benefit.

20. A record from this system of records may be disclosed to the following agencies relative to military, naval, or air service and as to both current and historical benefit payments made by the VA: Departments of the Army, Navy, and Air Force; Marine Corps; Department of Transportation (Coast Guard); Department of Health, Education, and Welfare, PHS (Public Health Service), Commissioned Corps; Department of Commerce, NOAA (National Oceanic and Atmospheric Administration), Commissioned Officer Corps.

21. A record from this system of records may be disclosed to a third party to the extent necessary in the development of a potential beneficiary's claim for VA benefits (i.e. individual identifiers and other similar identifying information).

22. Disclosure of VA records as deemed necessary and proper to accredited service organizations, agents and attorneys recognized under a power of attorney or declaration of representation to assist in the preparation, presentation and prosecution of claims.

23. A record from this system of records may be disclosed to a fiduciary (including those acting in a fiduciary capacity) recognized or appointed by VA to the extent necessary to fulfill the fiduciary's function.

24. A record containing medical history, diagnoses, findings, or treatment may be released from this system of records in response to a request from the superintendent of a State hospital for psychotic patients, a Commissioner or head of a State department of mental hygiene or head of a State, county, or city health department or any fee basis physician or institution in connection with authorized treatment as a VA beneficiary, provided that the name of the individual to whom the record pertains is given and that the information will be treated as confidential, as is customary in civilian professional medical practice.

25. Relevant information from this system of records may be disclosed, as a routine use: In the course of presenting evidence to a court, magistrate, or administrative tribunal, in matters of guardianship, inquests and commitments; to private attorneys representing veterans rated incompetent in conjunction with issuance of Certificates of Incompetency; and to probation and parole officers in connection with Court required duties.

26. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

27. The amount of pension, compensation, dependency and indemnity compensation, educational assistance allowance, retirement pay and subsistence allowance, of any beneficiary, may be released from this system of records to any person who applies for such information.

28. To the Department of Justice and United States Attorneys in defense or prosecution of litigation involving the United States.

29. Disclosure may be made to NARS (National Archives and Records Service) GSA (General Services Administration) in records management inspections conducted under authority of 44 U.S.C. 2904 and 2906.

30. Disclosure of medical record data, excluding name and address (unless name and address is furnished by the requester) for research purposes determined to be necessary and proper, to epidemiological and other research facilities approved by the Chief Medical Director.

31. The name(s) and address(es) of present or former personnel of the armed services and/or their dependents may be disclosed to the Department of Health, Education, and Welfare, or agency thereof, or other Federal agency, at the written request of the head of the agency or designee of the head of that agency, for the purpose of conducting government research necessary in order to accomplish a statutory purpose of that agency.

32. Inquiry of record by research facilities to obtain data necessary to assist in medical studies on veterans for the Veterans Administration and other agencies, as approved by the Chief Medical Director, provided that the name of the veteran and other pertinent identifying data is furnished by the requester.

33. Information from this system of records which directly affects payment or potential payment of benefits to contesting claimants, including parties claiming an apportioned share of benefits, may be coequally disclosed to each affected claimant upon request from that claimant in conjunction with the claim for benefits sought or received.

34. A record from this system of records may be released to the Social Securyt Administration, Bureau of Supplemental Security Income, as required for their determination of eligibility for or amounts of benefits, or to verify other information with respect thereto.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper documents, microfilm, magnetic tape, disk.

Retrievability: (a) All VA education manual records are indexed by name and Va file number. (b) All automated records are indexed by name, VA file number, payee number and type of benefit.

Safeguards: Physical Security: Access to VA working spaces and claims folder storage areas is restricted to VA employees on a "need to know" basis. Generally, VA file areas are locked after normal duty hours and are protected from outside access by the Federal Protective Service. Employee file records and file records of public figures or otherwise sensitive files are sorted in separate locked files. Strict control measures are enforced to ensure that disclosure is limited to a "need to know" basis.

Retention and disposal: Education Records: Individual case folders and automated records are retained indefinitely.

System manager(s) and address: DIRECTOR, EDUCATION AND REHABILITATION SERVICE (22), VA Central Office, Washington, D.C. 20420.

Notification procedure: 1. Individuals seeking information concerning the existence of a record pertaining to themselves must submit a written request or apply in person to the nearest VA regional office. Addresses for VA regional offices and centers may be found in VA Appendix I at the end of this document.

2. All inquiries must reasonably identify the benefit or system of records involved; i.e., Education. Inquiries should include the individual's full name, VA file number and return address. If the Va file number is not available, the following information should be forwarded, if known: Branch of service, dates of service, service number, social security number, and date of birth.

Record access procedures: Veterans, beneficiaries, service personnel or duly authorized representatives seeking information regarding access to and contesting of VA records may write, call or visit the nearest Veterans Administration regional office of center.

Contesting record procedures: (See Record Access Procedures above.)

Record source categories: Educational system records are obtained from: 1. The claimant. 2. The service department. 3. Training establishments. 4. State approving agencies. 5. Other Federal agencies. 6. County Clerks, Courts, other third parties, etc. upon request for assistance by claimant.

58VA21/22

System name: TARGET-Compensation, Pension, Education and Rehabilitation Records-VA

System location: Records are maintained at the VA regional offices, the VA Records Processing Center, St. Louis, Missouri, and at Federal Archives and Records Centers. Active records are generally maintained by the regional office having jurisdiction over the domicile of the claimant, and the servicing Data Processing Center at Hines, Illinois with subsidiary accounts receivable records located at the Data Processing Center at St. Paul, Minnesota. Address locations are listed in VA Appendix I at the end of this document.

Categories of individuals covered by the system: 1. Veterans who have applied for compensation for service-connected disability under Title 38, United States Code, Chapter 11. 2. Veterans who have applied for non-service-connected disability, under Title 38, United States Code, Chapter 15. 3. Veterans entitled to burial benefits under Title 38, United States Code, Chapter 23. 4. Widows, widowers and children who have claimed pension based on non-service-connected death under Title 38, United States, Chapter 15. 5. Widows, widowers and children who have claimed death compensation based on service-connected death under Title 38, United States Code, Chapter 11. 6. Widows, widowers and children who have claimed dependency and indemnity compensation for service-connected death under Title 38, United States Code, Chapter 13. 7. Parents who have applied for death compensation based on service-connected death under Title 38, United States Code, Chapter 11. 8. Parents who have applied for dependency and indemnity compensation for service-connected death under Title 38, United States Code, Chapter 13. 9. Veterans who have applied for VA educational benefits under Title 38, United States Code, Chapters 31 and 34. 10. Spouse or widow(er) who has applied for VA educational benefits under Title 38, United States Code, Chapter 35. 11. Children who have applied for VA educational benefits under Title 38, United States Code, Chapter 35. 12. Service members who have applied for VA educational benefits under Title 38, United States Code, Chapter 34. 13. Service members who have applied for VA educational benefits under Title 38, United States Code, Chapter 32.

Categories of records in the system: Military service and active duty separation information; medical records relating to treatment in service; medical information from VA and private hospitals and doctors; applications for compensation, pension, education and rehabilitation benefits and training; information relating to dependency, income, education, occupation, martial status, and educational status relative to VA benefits; payment data; counseling and rehabilitation records; claimant or payee name and address.

Authority for maintenance of the system: Title 38, United States Code, Chapter 3, Section 210(c)(1) and Chapters 11, 13, 15, 23, 31, 32, 34, 35, and 36.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: 1. Transfer of payment information to the Treasury Department to ensure delivery of benefit checks to VA beneficiaries.

2. Transfer of information to collection agencies in order to conduct a credit check to determine the likelihood of success in a collection action against individuals who owe debts to the VA.

3. Transfer of necessary collection information to the General Accounting Office, for use in procedures incident to obtaining a judgment against the individual.

4. Forwarding of computer generated VA forms to VA approved educational institutions in order to certify an individual's reenrollment and allow payment.

5. Transfer of information regarding the induction, reentrance and dismissal of a disabled veteran from a vocational rehabilitation program to inform the training establishment of the actions taken.

6. Written and oral disclosure to a VA approved vocational rehabilitation training establishment regarding the extent and nature of a claimant's disabilities with respect to any limitations to be imposed on the vocational program to insure that the trainee receives the maximum benefit from training. A vast amount of discretion with respect to each disclosure is practiced.

7. Transfer to schools and other training establishments of VA education forms for completion by the school and subsequent submission to the VA for processing of education and vocational rehabilitation training claims.

8. The transfer of payment information to officials of schools and training establishments having VA beneficiaries when it can be determined that such a request is part of a legitimate attempt to assist the veteran or other eligible person to ascertain that correct amounts are paid. However, such information will not be provided as a routine use to school officials when the request is clearly an attempt to seek assistance in collection attempts against the veteran or eligible person.

9. Transfer of VA education letters and form letters to schools and other training establishments which may, by necessity, contain identifying data about a veteran or eligible person in order to obtain further information from the school necessary to discharge VA responsibilities toward the veteran or eligible person.

10. Transfer of identifying information, such as name, file number, and address to a school or training establishment official in order to obtain information necessary to pay the veteran or eligible person correct amounts in an expedited manner. (An example of the above is a telephone call to an On-the-Job-Training establishment to find out the number of hours worked.)

11. Transfer of necessary information concerning veterans and other eligible persons to State and local agencies and prospective employers for employment and/or training.

12. A record containing medical history, diagnoses, findings, or treatment may be released from this system of records in response to a request from the superintendent of a State hospital for psychotic patients, a commissioner or head of a State department of mental hygiene, or head of a State, County, or city health department, or any fee basis physician or institution in connection with authorized treatment as a VA beneficiary, provided that the name of the individual to whom the record pertains is given and that the information will be treated as confidential, as is customary in civilian professional medical practice.

V 4 3 / 1 8 9

13. A record from this system of records may be disclosed to a State unemployment compensation agency, in response to its request, to the extent required to determine eligibility for their benefit.

14. A record from this system of records may be disclosed to the following agencies relative to military, naval, or air service and as to both current and historical benefit payments made by the VA: Departments of the Army, Navy, and Air Force; Marine Corps; Department of Transportation (Coast Guard); Department of Health, Education, and Welfare, PHS (Public Health Service), Commissioned Corps; Department of Commerce, NOAA (National Oceanic and Atmospheric Administration), Commissioned Officer Corps.

15. A record from this system of records may be disclosed to a third party to the extent necessary in the development of a potential beneficiary's claim for VA benefits (i.e., individual identifiers and other similar identifying information).

16. A record containing the name(s) and address(es) of present or former members of the armed services and/or their dependents may be released from this system of records under certain circumstances: (1) to any nonprofit organization if the release is directly connected with the conduct of programs and the utilization of benefits under Title 38, and (2) to any criminal or civil law enforcement governmental agency or instrumentality charged under applicable law with the protection of the public health or safety if a qualified representative of such organization, agency or instrumentality has made a written request that such name(s) or address(es) be provided for a purpose authorized by law; provided, further, that the record(s) will not be used for any purpose other than that stated in the request and that the organization, agency or instrumentality is aware of the penalty provision of 38 U.S.C. 3301(f).

17. The amount of pension, compensation, dependency and indemnity compensation, educational assistance allowance, retirement pay and subsistence allowance, of any beneficiary, may be released from this system of records to any person who applies for such information.

18. Disclosure of VA records as deemed necessary and proper to accredited service-organizations, agents and attorneys recognized under a power of attorney or declaration of representation to assist in the preparation, presentation and prosecution of claims.

19. A record from this system of records may be disclosed to a fiduciary (including those acting in a fiduciary capacity) recognized or appointed by the VA to the extent necessary to fulfill the fiduciary's function.

20. Relevant information from this system of records may be disclosed, as a routine use: in the course of presenting evidence to a Court, magistrate, or administrative tribunal, in matters of guardianship, inquests, and commitments; to private attorneys representing veterans rated incompetent in conjunction with issuance of Certificates of Incompetency; and to probation and parole officers in connection with Court required duties.

21. Transfer of statistical and other data to Federal, State and local government agencies and national health organizations to assist in the development of programs that will be beneficial to claimants, to protect their rights under law and to assure that they are receiving all benefits to which they are entitled.

22. In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, State, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

23. A record from this system of records may be disclosed as a "routine use" to a Federal, State or local agency maintaining civil, criminal or other relevant information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefits.

24. A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

25. Relevant information from this system of records, including the nature and amount of a financial obligation, may be disclosed as a routine use, in order to assist the Veterans Administration in the collection of unpaid financial obligations owed the VA, to a debtor's employing agency or commanding officer so that the debtor-employee may be counseled by his or her Federal employer or commanding officer. this purpose if consistent with 5 U.S.C. 5514, 4 CFR 102.5, and section 206 of Executive Order 11222 of May 8, 1965 (30 FR 6469).

26. Relevant information from this system of records, including available identifying data regarding the debtor, such as name of debtor, last known address of debtor, name of debtor's spouse, social security account number of debtor, VA insurance number, VA loan number, VA claim number, place of birth and date of birth of debtor, name and address of debtor's employer or firm and dates of employment, may be disclosed to other Federal agencies, State probate courts, State drivers license bureaus, and State automobile title and license bureaus as a routine use in order to obtain current address, locator and credit report assistance in the collection of unpaid financial obligations owed the U.S. This purpose is consistent with the Federal Claims Collection Act of 1966 (Pub. L. 89-508, 31 U.S.C. 951-953 and 4 CFR Parts 101-105.

27. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

28. Release of information to a guardian ad litem in relation to his or her representation of a claimant in any legal proceeding.

29. To the Department of Justice and United States Attorneys in defense or prosecution of litigation involving the United States.

30. Disclosure may be made to NARS (National Archives and Records Service) GSA (General Service Administration) in records management inspections conducted under authority of 44 U.S.C. 2904 and 2906.

31. Disclosure of medical record data, excluding name and address (unless name and address is furnished by the requester) for research purposes determined to be necessary and proper, to epidemiological and other research facilities approved by the Chief Medical Director.

32. The name(s) and address(es) of present or former personnel of the armed services and/or their dependents may be disclosed to the Department of Health, Education, and Welfare, or agency thereof, or other Federal agency, at the written request of the head of the agency or designee of the head of that agency, for the purpose of conducting government research necessary in order to accomplish a statutory purpose of that agency.

33. Inquiry of record by research facilities to obtain data necessary to assist in medical studies on veterans for the Veterans Administration and other agencies, as approved by the Chief Medical Director, provided that the name of the veteran and other pertinent identifying data is furnished by the requester.

34. Information from this system of records which directly affects payment of potential payment of benefits to contesting claimants, including parties claiming an apportioned share of benefits, may be coequally disclosed to each affected claimant upon request from that claimant in conjunction with the claim for benefits sought or received.

35. A record from this system of records may be released to the Social Security Administration, Bureau of Supplemental Security Income, as required for their determination of eligibility for or amounts of benefits, or to verify other information with respect thereto.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper documents, microfilm, microfiche, magnetic tape and magetic disk.

Retrievability: (a) Manual records are indexed by name and VA file number. (b) Automated records are indexed by name, VA file number, payee number and type of benefit.

Safeguards: 1. Physical Security: (a) Access to working spaces and claims folder file storage areas in VA regional offices and centers is restricted to VA employees on a "need to know" basis. Generally, file areas are locked after normal duty hours and are protected from outside access by the Federal Protective Service. Employee file records and file records of public figures or otherwise sensitive files are stored in separate locked files. Strict control measures are enforced to ensure that disclosure is limited to a "need to know" basis. Access to data telecommunication terminals is by authorization controlled by the site secruity officer. The security officer is assigned responsibility for privacy-security measures, especially for review of violations logs, information logs and control of password and badge distribution.

(b) Access to data processing centers is restricted to center employees, custodial personnel and Federal Protective Service personnel. Access to computer rooms is restricted to authorized operational personnel through electronic locking devices. All other persons gaining access to computer rooms are escorted.

2. System Security: (a) At Veterans Administration Regional Offices and Veterans Administration Centers, the terminal equipment has key locks, magnetic badge readers and audible alarms. Electronic keyboard locks are activated on security errors.

(b) At the data processing centers, identification of magnetic tape and disks containing data is rigidly enforced using labeling techniques. Access to programs is controlled at three levels: programming, auditing and operations.

Retention and disposal: 1. Individual case folders and records are retained indefinitely. 2. Automated files containing temporary working data are retained until a claim is processed to determination. 3. All other automatic files are retained indefinitely.

System manager(s) and address: DIRECTOR, COMPENSATION AND PENSION SERVICE (21) VA Central Office, Washington, D.C. 20420; DIRECTOR, EDUCATION AND REHABILITATION SERVICE (22) VA Central Office, Washington, D.C. 20420.

Notification procedure: Individuals seeking information concerning the existence of a record pertaining to themselves must submit a written request or apply in person to the nearest VA regional office. Addresses for VA regional offices and centers may be found in VA Appendix 1 at the end of this document. All inquiries must reasonably identify the benefit or system of records involved; e.g., Compensation and Pension. Inquiries should include the individual's full name, VA file number and return address. If the VA file number is not available, the following information should be forwarded, if known: veteran's full name, branch of service, dates of service, service number, soical security number, and date of birth.

Record access procedures: Veterans, beneficiaries, service organization personnel or other duly authorized representatives seeking information regarding access to and contesting of VA records may write, call or visit the nearest Veterans Administration regional office or center.

Contesting record procedures: (See Record Access Procedures above). 1. The claimant, his or her accredited representative or his or her fiduciary; 2. the military service department; 3. VA hospitals and doctors, or private hospitals and doctors if written authorization is obtained from the claimant; 4. Training establishments; 5. State approving agencies; 6. Other Federal agencies; 7. County Clerks, Courts and other third parties, when assistance is requested by claimant.

Availability of 1977 Compilation

"Privacy Act Issuances—1977 Compilation": is available from Regional Depository Libraries at 50 locations around the country and can be examined at these libraries free of charge. The 1977 Compilation is also available at the General Services Administration Federal Information Centers, which are located at 38 central points around the country and may be examined at the Veterans Administration Central Office, 810 Vermont Avenue NW., Washington, D.C. 20420 in room 132, the Central Office Veterans Services Unit. It is also available for purchase from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Upon request, the Office of the Fedeal Register will furnish a photocopy of the full text of a particular records system published in the 1977 Compilation for a nominal fee.

Location of Notices in 1977 Compilation

Notices of this agency's systems of record appear in Volume II of the 1977 Compilation at 42 FR 49726, September 27, 1977. The price of this volume is 6 dollars and 75 cents.

Approved: September 7, 1977.

By direction of the Administrator.

RUFUS H. WILSON,
Deputy Administrator.

RURAL ABANDONED MINE PROGRAM

Final Rules and Regulations

V 43 / 189 SE 28 78

[3410-16]

Title 7—Agriculture

CHAPTER VI—SOIL CONSERVATION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER D—LONG-TERM CONTRACTING

PART 632—RURAL ABANDONED MINE PROGRAM

AGENCY: Soil Conservation Service (SCS), U.S. Department of Agriculture (USDA).

ACTION: Final rule.

SUMMARY: This rule establishes final Soil Conservation Service (SCS) rules and regulations for implementation of the Rural Abandoned Mine Program as authorized by Pub. L. 95-87, 91 Stat. 460 (30 U.S.C. 1236). The program provides long-term Federal technical and financial assistance to land users for the reclamation, conservation, and development of certain abandoned coal-mined lands.

EFFECTIVE DATE: October 2, 1978.

FOR FURTHER INFORMATION CONTACT:

David P. Overholt, Director, Conservation Operations Division, Soil Conservation Service, U.S. Department of Agriculture, P.O. Box 2890, Washington, D.C. 20013, phone: 202-447-7145.

SUPPLEMENTARY INFORMATION: Title IV of Pub. L. 95-87 establishes an Abandoned Mine Reclamation Fund and provides for four reclamation programs—Federal, State, Indian, and rural lands. The Secretary of the Interior is administratively responsible for all abandoned mine programs except the rural land program. The U.S. Department of Agriculture, through the Soil Conservation Service (SCS), is responsible for the Rural Abandoned Mine Program.

Proposed rules and regulations for the Rural Abandoned Mine Program were published by SCS in the FEDERAL REGISTER on April 11, 1978 (43 FR 15312). A draft program environmental impact statement and a draft regulatory impact analysis of the proposed program also were made available for public inspection on April 14, 1978.

To maximize public benefits and treat as much of the eligible land and water as possible at minimum Federal cost, SCS intends to conduct the program in strict accord with the funding priorities specified in the law and this rule. Therefore, applications for program assistance that are of low priority will not be funded until the first priority reclamation work is completed. Reclamation work that provides the most public benefits within a priority category will have precedence over reclamation that would produce lesser public benefits. Reclamation solely for the benefit of the land owner or user will not be funded until all applications that have public benefits are funded.

SCS received 116 comments from 31 agencies and organizations on the proposed program in public hearings and letters. Seven comments definitely favored the proposed program, and none strongly objected to the program as proposed. All comments were given full consideration in developing the final rule. The full text of every comment received is on file and available for public inspection in Room 6134, South Building, U.S. Department of Agriculture, Washington, D.C.

Most comments offered specific suggestions for clarifications and improved editing. These comments were accepted and are incorporated in the final rule. In addition, SCS made several changes in the organization and content in response to comments provided by the U.S. Department of Agriculture.

These changes include total exclusion of Federal lands from program eligibility, the addition of subpriorities within each priority category, the addition of provisions to preserve or surrender crop history and allotments, and the addition of language in the cost-share rates to provide maximum flexibility in establishing rate levels that will achieve program purposes and appropriate levels of participation.

The most substantive public comments and their responses are as follows:

(1) Two comments suggested that the purpose of the Rural Abandoned Mine Program should be broadened to include reclamation of all abandoned mined lands.

Response: This suggestion was rejected because section 406 of Pub. L. 95-87 is subject to the requirements of section 404, which defines eligible lands and water as those "mined for coal or which were affected by such mining, wastebanks, coal processing, or other coal mining process • • •." Only reclamation activities carried out on noncoal-mined lands under the requirements of section 409 of the law, filling of voids and sealing of tunnels, which are not applicable to this program, may be done without regard to section 404.

(2) Six comments expressed concern that the proposed rules did not provide for coordination between this program and the State reclamation programs. One of these commentators also indicated that more public participation should be required through public hearings and notices.

Response: SCS has reworded § 632.3 to clarify SCS responsibility for coordination and to expand the program areas included in the coordination. In addition, SCS believes coordination within a State will occur primarily through the State reclamation committee, which includes a representative of the State reclamation agency. Reclamation committees will also provide opportunities for public participation on both the State and local levels. However, SCS does not believe public hearings or public notices are required for every reclamation plan or contract with individual land users. Exceptions are made if an environmental impact statement is to be prepared or if reclamation is proposed by public entities. A record of SCS decisions concerning reclamation performed under the program is available for public inspection.

(3) Four comments questioned the use of remining as a reclamation technique because it appears to conflict with the requirements of title V of Pub. L. 95-87 concerning active mining operations.

Response: SCS agrees. The use of remining as a reclamation technique has been deleted from the final rules. If the surface rights of abandoned coal-mined lands are under lease or easement to be remined, they are not eligible for reclamation under this program. These lands will be reclaimed under the regulations 30 CFR, Parts 715, 716, and 717, for active mining.

(4) Fourteen comments expressed concern that the term "inadequately reclaimed" as defined and used to describe eligible lands and waters would permit the reclamation of abandoned coal-mined lands that were naturally reclaimed.

Response: SCS agrees. "Inadequately reclaimed" has been redefined to indicate that inadequately reclaimed areas must, in their present condition, be continuing to substantially degrade the environment, damage or prevent beneficial use, or create dangers to public health and safety to be eligible for reclamation.

(5) Ten comments questioned the criteria for designating States for program participation. Several also indicated that too much emphasis was placed on the SCS inventory of abandoned coal-mined lands, and one suggested that only States with approved State reclamation plans should be designated.

Response: These criteria were included in the proposed rules to provide the flexibility to implement any of the program alternatives being considered in the draft program environmental impact statement. In the final environmental impact statement, SCS has selected the alternative that allows the program to operate in all States that have eligible lands and waters. Current inventories are used only to identify the States and counties that are potentially eligible to participate in the program. However, SCS rejected the suggestion to limit the program to States having approved State reclamation plans. Some States with abandoned coal-mined lands no longer have active coal mining, other States may not be able to develop and receive approval of a State plan for several years, and some States may not have enough abandoned coal-mined lands to justify preparing a State plan. In many of these situations, except for emergency reclamation by the Office of Surface Mining, the Rural Abandoned Mine Program may be the only program available to correct continuing environmental degradation or public health and safety hazards in these States.

(6) Four comments indicated that reclamation standards were not specific enough and questioned the adequacy of SCS standards and specifications for reclamation activities.

Response: SCS standards for all conservation practices, including reclamation, are developed in consultation with universities, reasearch institutions, companies, and individuals and are based on research and practical experience (7 CFR, Part 653, § 653.2). SCS is cooperating with the Office of Surface Mining in developing standards for abandoned land reclamation. SCS technical staffs continually revise and update existing standards and specifications to insure consistency with State and Federal requirements and proven technology. These standards and specifications, as applicable, are found in SCS field office technical guides and are based on the guidelines contained in the SCS National Handbook of Conservation Practices. In addition, many conservation practices use to treat conservation problems are applicable to reclamation. SCS recognizes the need for flexibility to prepare special designs on a case-by-case basis to treat unique problems on coal-mined lands. As needed, SCS will also use professional services from the private sector to prepare special designs.

(7) One comment suggested that a section should be added to the final rules to insure adequate protection of historic properties.

Response: SCS guidelines for complying with the Advisory Council on Historic Preservation procedures are contained in 7 CFR Part 656. These apply to all SCS activities. It is not our purpose to duplicate those requirements in these rules.

(8) One comment suggested that the procedures should indicate how areas proposed for reclamation are to be evaluated for their importance to rare and endangered species and other wildlife values. Concern was also expressed that the program would reclaim abandoned lands for agricultural uses at the expense of wildlife values.

Response: SCS considers wildlife values in environmental assessments. These assessments are used to help identify acceptable treatment alternatives for the land user's consideration. The land user selects the postreclamation land use within the limits of program requirements and technical feasibility. Abandoned lands that have natural vegetation and wildlife values also will be preserved by the change in the definition of inadequately reclaimed lands. See response (4). SCS policy for considering rare, threatened, and endangered species is contained in 7 CFR, Part 650, § 650.22.

(9) Two comments suggested that new subsections be added to emphasize restoration of the visual quality of abandoned lands.

Response: SCS agrees. Restoration of visual quality is an important public benefit that can result from reclamation. Paragraph 632.15(d) has been reworded to indicate more clearly practices for improving visual quality are eligible for cost sharing.

(10) One comment indicated that the program should be subject to the requirements of the Office of Management and Budget Circular A-95.

Response: Reclamation by individual land users on private lands is excluded from A-95 notification and review. However, the A-95 procedures are applicable when reclamation is carried out by public entities on public lands. In these situatons, SCS, under existing policy, is to follow established A-95 review procedures.

(11) One comment expressed concern that the cost-share payments made to land users for carrying out reclamation activities would be taxable as income and program participation would be seriously reduced.

Response: SCS agrees. A preliminary ruling by the Internal Revenue Service indicates that cost-share payments made to land users under this program are considered to be taxable income.

(12) One comment expressed concern that prohibiting channelization would seriously limit the ability of SCS to reclaim adequately certain abandoned lands. Three other comments indicated that the definition of a stream as used in conjunction with channelization would permit channelization.

Response: It is not the intent of SCS to channelize streams under this program. Channelization is prohibited by law; however, the law does not define channelization. SCS has deleted the definition of a stream and defined channelization as the overall widening, deepening, realining, or construction of a protective lining over all or part of the perimeter of the channel of a perennial stream. This definition would permit the stabilization of eroding streambanks within the boundaries of eligible lands with vegetation or riprap and would permit the removal of excessive debris or sediment without complete disruption of the stream.

A final program environmental impact statement was made available by the Environmental Protection Agency on July 7, 1978. This environmental impact statement discloses the significant cumulative environmental impacts of the selected program alternative.

A final regulatory impact analysis of the selected program alternative was made available for public inspection and review on September 12, 1978.

Both of these documents are on file for public inspection in Room 6134, South Building, U.S. Department of Agriculture, Washington, D.C.

Dated: September 21, 1978.

B. M. DAVIS,
Administrator,
Soil Conservation Service.

Title 7 of the Code of Federal Regulations is amended by adding a new part 632 to read as follows:

Subpart A—General

632.1 Purpose and scope.
632.2 Objectives.
632.3 Responsibilities.
632.4 Definitions.

Subpart B—Qualifications

632.10 Applicability.
632.11 Availability of funds.
632.12 Funding priorities.
632.13 Eligible lands and water.
632.14 Eligible land users.
632.15 Eligible uses and treatment of reclaimed lands.
632.16 Methods of applying planned land use and treatment.
632.17 Cost-share rates.
632.18 Special projects.
632.19 Crop history and allotments.

Subpart C—Participation

632.20 Application for assistance.
632.21 Reclamation plan.
632.22 Contracts.
632.23 Access to land unit and records.

Subpart D—Cost-Share Procedures

632.30 Applicability.
632.31 Cost-share payment.

Subpart E—Appeals and Violations

632.40 Appeals.
632.41 Violations.
632.42 Violation procedures.

Subpart F—Environment

632.50 Environmental assessment.
632.51 Accord with environmental laws and orders.
632.52 Identifying typical classes of action.

AUTHORITY: Section 406, Pub. L. 95-87; 91 Stat. 460 (30 U.S.C. 1236).

V 43 / 189 SE 28 78

Subpart A—General

§ 632.1 Purpose and scope.

(a) The purpose of this part is to set forth the Soil Conservation Service (SCS) rules and regulations to carry out the Rural Abandoned Mine Program under section 406, Pub. L. 95-87; 91 Stat. 460 (30 U.S.C. 1236).

(b) The Rural Abandoned Mine Program:

(1) Through the SCS delivery system, assists land users to voluntarily develop reclamation plans and apply conservation treatment for the reclamation, conservation, and development of eligible coal-mined lands and water, and

(2) Provides cost sharing through long-term contracts according to an approved reclamation plan, to land users for establishing land use and conservation treatment on these lands.

§ 632.2 Objectives.

(a) The objectives of the program are to protect people and the environment from the adverse effects of past coal-mining practices and to promote the development of the soil and water resources of unreclaimed mined lands by:

(1) Stabilizing mined lands.

(2) Controlling erosion and sediment on mined areas and areas affected by mining.

(3) Reclaiming lands and water for useful purposes.

(4) Enhancing water quality or quantity where it has been disturbed by past coal-mining practices.

§ 632.3 Responsibilities.

(a) The Rural Abandoned Mine Program is administered by the U.S. Department of Agriculture (USDA) through SCS in accordance with the delegation of responsibility contained in § 601.1(h) of this chapter.

(1) The Administrator of SCS is responsible for national program management and administration and for coordinating program operations with the Office of Surface Mining (OSM), U.S. Department of the Interior.

(2) State conservationists (Responsible Federal Officials) are responsible for program operations within a State including program coordination with the State reclamation agency and the representatives of OSM.

(b) The primary public contacts for program assistance are the district conservationists located in local SCS field offices.

(c) SCS is assisted by other USDA agencies in accordance with existing authorities and agreements in carrying out the program.

(d) SCS is to coordinate Rural Abandoned Mine Program activities with SCS programs and the other reclamation programs authorized by Pub. L. 95-87 that are carried out by the Office of Surface Mining of the U.S. Department of the Interior, State reclamation agencies, and Indian tribes. Coordination includes program development, development of reclamation standards, preparation of special reports, requests for funding, and related actions required to achieve coordination between programs.

(e) SCS is to consult with State and local reclamation committees to obtain recommendations on program operation, evaluation of applications for reclamation assistance, and public participation. The SCS State Conservationist is to use existing reclamation committees or encourage the organization of a new State committee for this purpose. The State Conservationist is to serve as a member when the committee is functioning for the purposes of this program. Representatives of the Office of Surface Mining, State reclamation agency, State water quality agency, State conservation agency, and other agencies or groups are to be invited to participate as members. Individual citizens may participate through the State committee. Local committees, if needed, are to be organized on a multicounty, county, conservation district, or other appropriate area with a local membership structure similar to the State committee. The district conservationist is to be a member of a local reclamation committee organized to provide program guidance.

§ 632.4 Definitions.

Abandoned mined lands. Unreclaimed coal-mined lands that existed before August 3, 1977, and for which there is no continuing reclamation responsibility on the part of a mine operator, permittee, or agent under State or Federal law or on the part of the State as a result of a bond forfeiture. See § 632.13.

Average costs. The calculated cost, determined by recent actual costs and current cost estimates, considered necessary for a land user to carry out a conservation practice or an identifiable unit of a conservation practice.

Conservation district. A legal subdivision of State government responsible for developing and carrying out programs of soil and water conservation with which the Secretary of Agriculture cooperates under the Soil Conservation and Domestic Allotment Act of 1935.

Conservation treatment. Specific conservation or reclamation practices applied to the land according to current standards and specifications in SCS technical guides.

Contract. A binding agreement between SCS and the land user that includes the reclamation plan and provides for cost sharing the conservation treatment.

Contracting officer. The SCS official authorized to enter into and administer contracts for the Rural Abandoned Mine Program.

Cost. The monetary amount actually paid or obligated to be paid by the land user for equipment use, materials, and services for carrying out a conservation practice or identifiable unit. If the land user uses his own resources, it includes the computed value of his labor, equipment use, and materials.

Cost-share payments. Payments made to or on behalf of land users at established rates as specified in contracts for carrying out a conservation practice or an identifiable unit of such practices according to the contract.

Financial burden. The land user's cost of reclamation that cannot be expected to be recovered within the contract period and that would probably prevent participation in the program. The land user must sign a statement to substantiate financial burden.

Identifiable unit. A component of a conservation practice that can be clearly identified as a step in carrying out the conservation practice.

Inadequately reclaimed. Lands or water that are mined for coal or are affected by mining conducted before August 3, 1977, which continue in their present condition to substantially degrade the quality of the environment, prevent or damage beneficial use of land or water resources, or endanger the health or safety of the public.

Landrights. An interest acquired by fee simple title, easements, and rights-of-way to occupy or use land, buildings, structures, or other improvements.

Land user. Any person, partnership, firm, company, corporation, association, trust, estate, other entity, or agent that owns or has management control of the surface rights of the land during the contract period or owns water rights on eligible lands. Also included are State or local public entities that own or control eligible land and water.

Main benefits. The principal values or benefits that can be identified and/or quantified as a result of reclamation. Main offsite benefits are those values that accrue to surrounding land users or the public in general as a result of the reclamation. Main onsite benefits are those that accrue to the participant. Examples of principal values or benefits include but are not limited to human lives and property protected, reduction of erosion or sediment damage, elimination of public safety or health hazards, improvement of water quality, improved visual quality, improved fish or wildlife habitat, or restoration of beneficial uses of reclaimed areas.

Reclamation committee. A committee on a local or State level consisting of representatives of Federal and State agencies and other organizations or individuals that have responsibilities or interest in abandoned mine reclamation. The committee provides guidance to SCS on the operation of the Rural Abandoned Mine Program.

Reclamation plan. A conservation and development plan as referred to in Pub. L. 95-87, consisting of a written record of land user decisions on proposed use, conservation treatment, and maintenance of eligible lands and water that will protect, enhance, and maintain the resource base. A reclamation plan contains pertinent soils data, a planned land use map or drawing, a record of use and treatment decisions including a schedule of conservation treatment, and other resource data as appropriate.

Specified maximum costs. The maximum amount of cost-share money that is to be paid to a land user for carrying out a conservation practice or an identifiable unit of a conservation practice.

Standards and specifications. Requirements that establish the acceptable quality level for planning, designing, and installing a conservation practice on it achieves its intended purpose. SCS standards and specifications are contained in the SCS field office technical guides and are designed to be sound and practicable under local conditions. Technical guides are on file in local SCS field offices.

Water rights. Any interest acquired in, priority established for, or permission obtained for the use of water.

Subpart B—Qualifications

§ 632.10 Applicability.

This program applies to any county or other designated area within a State that had abandoned or inadequately reclaimed coal-mined lands within its borders before August 3, 1977.

§ 632.11 Availability of funds.

(a) The provisions of the program are subject to the annual appropriation by Congress of funds from the Abandoned Mine Reclamation Fund and the transfer of as much as 20 percent of these funds from the Office to Surface Mining to SCS for program operation.

(b) Allotments of Rural Abandoned Mine Program funds to state conservationists are to reflect the national program needs, the geographic areas from which the funds were derived, the funding priority assigned to applications for program assistance, including benefits expected to be derived, and the practicability and feasibility of the reclamation work proposed.

§ 632.12 Funding priorities.

(a) Priorities for selecting reclamation work within a State are determined by the primary purpose of the reclamation and are to be funded in the following order:

(1) *Priority 1.* Protection of public health, safety, general welfare, and property from extreme danger of adverse effects of coal-mining practices. Extreme danger means a condition that could be expected to cause substantial physical harm to persons, property, or the environment and to which persons or improvements on real property are exposed.

(2) *Priority 2.* Protection of public health, safety, and general welfare from the adverse effects of coal-mining practices that do not constitute an extreme danger.

(3) *Priority 3.* Restoration of the land and water resources and the environment where previously degraded by the adverse effects of coal-mining practices, including measures for the conservation and development of soil, water (excluding channelization), woodland, fish and wildlife, recreation resources, and agricultural productivity. First consideration in this priority is to be the reduction of offsite damage affecting the public. Second consideration is to be given to restoring to beneficial uses for the main benefit of the land user.

(b) Eligible and feasible applications for program assistance within each priority category (§ 632.12(a)) are to be funded in the following order:

(1) Individual persons or public entities who owned the eligible area before May 2, 1977, and who neither consented to nor exercised control over the mining operation.

(2) Individual persons who would actively use the area, if reclaimed, for agricultural or silvicultural purposes.

(3) All other participants.

§ 632.13 Eligible lands and water.

Lands and water eligible for reclamation are those that were mined for coal or were affected by coal-mining processes and were abandoned or inadequately reclaimed before August 3, 1977. These lands and water are not eligible if:

(a) There is continuing reclamation responsibility on the part of a mine operator, permittee, or agent under State or Federal law or on the part of the State as a result of bond forfeiture. However, if the amount of the bond forfeiture was insufficient to reclaim the area covered by the bond, the area will be considered eligible.

(b) They are under Federal ownership and control.

(c) The surface rights are under easement or lease to be remined for coal or other minerals.

§ 632.14 Eligible land users.

Landowners holding surface land and water rights, residents, tenants, or their agents who own or have management control of eligible land and/or water are eligible to participate in the program. Residents or tenants who do not own the land must have control of the land for the period of the proposed contract and have the written consent of the landowner. Land users may participate by operating as persons, partnerships, associations, corporations, estates, trusts, or non-Federal public entities, and by acting individually or jointly with other eligible land users. However, joint participation with other eligible land users is required if the primary purpose of reclamation is enhancement of water quality or quantity.

§ 632.15 Eligible uses and treatment of reclaimed lands.

(a) Reclaimed lands and water may be used for cropland, hayland, pasture land, rangeland, woodland, wildlife land, natural areas, noncommercial recreation land, and the supporting uses associated with these land uses. Other land uses proposed by public entities for public use and benefit such as open space, conservation uses, natural areas, and recreation sites may be approved by the SCS State conservationist in accordance with the priorities stated in § 632.12. However, development of public sites, such as the installation of recreation facilities, is not eligible for cost sharing.

(b) Reclaimed land use is determined by the objectives of the land user, compatibility of the land use with surrounding land use, and the practicability and feasibility of restoring the soil and water resources to support the use selected.

(c) The maximum acreage of eligible lands and water that may be offered for contract under one ownership is 320 acres for the life of the program.

(d) Conservation treatment eligible for Federal cost sharing includes the combination of practices needed and feasible to achieve:

(1) Protection of life, property, and elimination of public health and safety hazards, including land stabilization.

(2) Restoration of the environment where degraded by past mining, including water quality, visual quality, recreation resources, fish and wildlife habitat, and erosion and sediment control.

(3) A site that can be developed for a beneficial use as specified in § 632.15(a). Examples of eligible treatment that may be cost shared include but are not limited to: Land shaping and grading, critical area planting or other plantings for stabilization, improving visual quality, wildlife food

and cover, diversions or terraces, waterways or lined ditches, grade stabilization structures, sediment basins, and special practices for sealing shafts and tunnels, correcting subsidence problems, or other unusual situations. Practices not eligible for cost sharing are those that are solely applied to develop a reclamation site (including sites develped by public entities for public use), increase the production of crops, or for the recurring maintenance of applied reclamation.

(e) Applied conservation treatment is to meet the applicable Federal and State standards for the reclamation and conservation treatment of abandoned or inadequately reclaimed coal-mined lands and water. Where needed, these standards are incorporated in local SCS technical guides as the SCS standards and specifications applicable to the program. Special practices as specified in § 632.15(d) are to be developed in cooperation with appropriate State or Federal agencies having the expertise or responsibility for the practices.

(f) SCS State conservationists, in consultation with the State reclamation committee, are to:

(1) Develop a list of practices that are eligible for cost sharing, and

(2) Maintain, as applicable, lists of average costs of applying conservation treatment to eligible lands and waters.

§ 632.16 Methods of applying planned land use and treatment.

(a) Land users may arrange to apply the planned land uses and conservation treatment specified in the contract by one or more of the following methods:

(1) By performing the required treatment with his own labor and equipment.

(2) By hiring a qualified contractor to install the required treatment.

(3) By requesting SCS to award and administer a contract to perform the required treatment in accordance with 41 CFR Chapters I and IV.

(b) State conservationists are to develop criteria specifying the conditions for which SCS will award and administer a contract. Criteria will consider: Type of equipment required, type and amount of conservation treatment required, costs of the required reclamation, needs of the land user, and the applicable cost-share rate. If the Federal share is less than 100 percent, a land user must put up his estimated share of the cost before SCS awards the contract.

§ 632.17 Cost-share rates.

(a) Cost-share rates paid by the Federal Government are to be established and issued as instructions by the SCS Administrator in accordance with the following criteria:

(1) For 120 acres or less, the cost-share rate is to provide up to 80 percent of the costs of land use and conservation treatment depending on the income-producing potential of the land after reclamation. However, this rate may be increased to a level required to obtain participation if the main benefits of reclamation are offsite (in the public interest) and there is a declaration of financial burden by the participant.

(2) The rate on acreage in excess of 120 acres up to 320 acres maximum is to be reduced by up to 0.5 percent per acre. This reduced rate applies to the entire acreage offered for contract.

§ 632.18 Special projects.

(a) The SCS State conservationist may approve the following types of special projects subject to the eligibility requirements, funding priorities, and cost-share rates as stated in §§ 632.12, 632.13, 632.14, 632.15, and 632.17:

(1) Field trials or demonstration projects recommended by the State reclamation committee.

(2) Projects to enhance water quality and quantity where past coal-mining practices disturbed local water supplies and where joint action by a group of eligible land users in cooperation with Federal and State agencies is needed to restore the water resource.

§ 632.19 Crop history and allotments.

(a) Most crop history and allotments on eligible lands were discontinued at the time of mining. However, if eligible lands are classified as cropland at the time the contract is signed, the cropland crop history and allotment, if any, may be:

(1) Preserved for a period not to exceed twice the length of the contract as provided in 7 CFR, Part 719, or

(2) Voluntarily surrendered by the land user.

Subpart C—Participation

§ 632.20 Application for assistance.

(a) Land users must submit an application for program assistance through the local conservation district or SCS field office. SCS is to announce dates for receiving applications through local media. Applications are to be reviewed by the conservation district and/or local reclamation committee, which is to verify eligibility and recommend funding priorities to the SCS district conservationist. The SCS district conservationist is to assign funding priorities according to the recommendations unless he determines that applications are incomplete, ineligible, or unfeasible. Low priority applications that cannot be serviced within specific time periods established by the State conservationist are to be returned to the applicant with an appropriate explanation. These applicants may reapply at a later date if they are still interested.

(b) Eligible applicants are serviced within each subpriority according to the following criteria:

(1) The specific type, amount, and relative importance of benefits to be derived. (Public benefits and offsite environmental improvement will take precedence over onsite benefits.)

(2) Feasibility and practicability of reclaiming for the proposed uses.

(3) Land user's ability to proceed.

(4) Date of the application.

§ 632.21 Reclamation plan.

(a) *Responsibility.* Land users are responsible for developing a reclamation plan that will serve as a basis for a contract. Normally, a land user will need the technical services of SCS and the conservation district or another professional to develop an acceptable plan.

(b) *Objectives and priorities.* The reclamation plan is to provide for the appropriate program objectives and priorities as stated in §§ 632.2 and 632.12 and meet the definition of a reclamation plan as defined in § 632.4.

(c) *Review.* (1) In areas served by conservation districts, reclamation plans are to be reviewed and signed by the district board to insure that planned land use and treatment is compatible with surrounding land uses and that proposed assistance is consistent with the district plan of work and priorities. In areas not served by conservation districts, the land use compatibility review may be performed by the local reclamation committee.

(2) If reclamation plans include lands within or adjacent to Federal lands, the plan is to be reviewed with the appropriate Federal land management agency to insure that the planned land use is compatible with that of the surrounding area.

(3) Land users are responsible for insuring that the proposed land use and treatment is compatible with local land use ordinances.

(d) *Approval.* Proposed land use, conservation treatment, and sequence of application contained in the plan are to be agreed to by both SCS and the land user. The district conservationist is to sign the reclamation plan to indicate technical approval.

§ 632.22 Contracts.

(a) *Cost-sharing contracts.* A land user who has an approved reclamation plan may enter into a contract with SCS to receive Federal cost-share assistance. All land users are to sign the contract. A land user is required to furnish evidence of management control, such as a long-term lease, recorded deed, or land contract, and must have the written consent of the landowner. The SCS contracting officer is to sign the contract after determining that all documents meet program requirements.

(b) *Effect of contract.* A land user who signs a contract is obligated to apply or arrange for the application of the land use and conservation treatment as scheduled in the reclamation plan according to approved standards and specifications. A land user may request SCS to award and administer a contract to apply the conservation treatment as scheduled in the reclamation plan in accordance with § 632.16(a)(3).

(c) *Permits, landrights, and water rights.* The land user is responsible for obtaining the permits, surface landrights, and water rights that may be required to perform the planned work. SCS is to assist land users in identifying the specific permit, landright, or water right required.

(d) *Operation and maintenance.* During the contract period the land user is responsible for the operation and maintenance of applied conservation treatment. Operation and maintenance requirements are to be included in the contract.

(e) *Period of contract.* The contract period is to be no less than 5 nor more than 10 years. A contract is to extend for at least 3 years after the application of the last cost-shared conservation treatment to insure adequate establishment of vegetation and other treatment. Exceptions to the 3-year provision may be granted by the state conservationist for unusual circumstances.

(f) *Transfer of contract.* (1) If during the contract period all or part of the right and interest in the land is transferred by sale or other action, the contract is terminated on the land unit that was transferred and the land user:

(i) Forfeits all right to any future cost-share payments on the transferred land unit, and

(ii) Must refund cost-share payments that have been made on the transferred land unit not to exceed the difference between the estimated value of the land at the time of entering into the contract and at the time of transfer, unless the new land user becomes a party to the contract as provided in paragraph (f)(2) of this section.

(2) If the new land user becomes a party to the contract:

(i) He is to assume all obligations of the previous land user on the transferred land unit.

(ii) The contract with the new land user is to remain in effect with the original terms and conditions.

(iii) The contract is to be modified in writing to show the changes caused by the transfer. If the modification is not acceptable to the contracting officer, the provisions of paragraphs (f)(1) (i) and (ii) of this section apply.

(3) The transfer of all or part of a land unit by a land user does not affect the rights and obligations of other land users who have signed the contract.

(g) *Modification of contract.* (1) A contract previously entered into with a land user may be modified only with the approval of the State conservationist or as authorized under established policies. No contract may be modified unless it is determined that the modification is desirable to carry out the program.

(2) Contracts may be modified to add, delete, substitute, or reapply conservation treatment if:

(i) Applied conservation treatment failed to achieve the desired results through no fault of the land user,

(ii) Applied treatment deteriorated because of conditions beyond the control of the land user, or

(iii) Other treatment is substituted that will achieve the desired results.

(h) *Joint contract.* A land user may enter a contract jointly with other land users subject to the 320 acres maximum limitation per landowner. However, joint participation is permitted only if it will result in better land use and treatment than individual participation or if it is required by §§ 632.14 and 632.18(a)(2).

(i) *Termination of contract.* Contracts may be terminated by mutual consent of the signatories only if the State conservationist determines that the termination is authorized under established policies and is in the public interest. In this case, the State conservationist is to determine the amount of refund.

§ 632.23 Access to land unit and records.

Any authorized SCS employee or agent is to have the right of access to land under application or contract and the right to examine any program records to ascertain the accuracy of any representations made in the application or contract. This includes the right to furnish technical assistance and to inspect work done under the contract.

Subpart D—Cost-Share Procedures

§ 632.30 Applicability.

This subpart contains procedures for making cost-share payments to a land user when land use and conservation treatment is applied as specified in § 632.16(a)(1) or (2).

§ 632.31 Cost-share payment.

(a) *Amount of cost-share payment.* Cost-share payments are to be made at rates specified in the contract. The cost-share payment is to be determined by one of the following methods:

(1) Average cost.

(2) Actual cost but not more than the average cost.

(3) Specified maximum cost. If the average cost or the specified maximum cost at the time of starting the installation of a conservation practice or identifiable unit is less than the cost specified in the contract, payment is to be made at the lower rate. If the cost at the start of installation is higher, payment may be made at the higher rate. A contract modification is necessary if SCS determines that the higher cost is a significant increase in the total cost-share obligation. If costs are significant, cost-share payment is not to be made until the modification reflecting the increase is approved. If the higher costs are not significant, cost-share payments may be made if funds are available.

(b) *Time of payment.* Cost-share payments are to be made to the land user after a practice or an identifiable unit has been satisfactorily applied. The land user is to submit claims for payment to the district conservationist no later than September 30 of the year after application. Late claims require approval of the State conservationist before payment can be made. A claim is to show the proportion of each land user's contribution to the applied practice or identifiable unit.

(c) *Approval.* The district conservationist must certify that a practice or identifiable unit has been satisfactorily applied before SCS can make cost-share payments.

(d) *Ineligible claim.* A land user is not eligible to receive cost-share payments for a practice or an identifiable unit that was not carried out under program requirements.

(e) *Authorization for payment.* (1) Materials or services needed to carry out contracts are to be obtained by land users. Contracts may provide for part or all of the cost-share payment for a practice or identifiable unit to be made directly to suppliers of materials or services. The materials or services must be delivered or performed before payment is made.

(2) The contracting officer is to authorize payment for materials or services not exceeding:

(i) The cost share of the material or service used, or

(ii) The total cost share of the practices or identifiable unit if requested by the land user.

(3) The land user who purchases materials or services to carry out a contract is responsible for them until the

V 43/189 SE 28 78

V 43 / 189 SEP 28 78

district conservationist determines that the material or service was used for the intended purpose. If a material or service cost-shared by SCS is used for a purpose other than to carry out the contract, the land user is indebted to the United States for the cost of the misused material or service. This indebtedness is to be repaid to SCS as a refund or withheld from cost-share payments otherwise due the land user under the contract.

(4) SCS has the right to inspect materials or services and to take samples for testing. Inspections by SCS will not be necessary if SCS considers State inspection regulations adequate.

(5) Materials or services must meet the quality standards as specified. SCS may make exceptions for materials or services that do not meet the standards only if they will satisfactorily serve the intended purpose. SCS is to deduct from the cost-share payment the difference between the price of the materials or services specified and the actual value of the different materials or services.

(f) *Division of cost-share payments.* Federal cost-share payments made directly to suppliers of materials or services are credited to the land user who was issued the authorization. The remainder of the cost share is credited to the land user who carried out the remainder of the practice or identifiable unit. If more than one land user contributed to carrying out a practice or identifiable unit, the cost-share payment is to be divided proportionately according to the contribution made by each of the land users. Furnishing a landright or water right is not a contribution for cost-share payment purposes.

(g) *Other aid.* Non-Federal public entities may furnish all or part of the cost of applying a practice or identifiable unit with no reduction in the Federal cost share.

(h) *Assignments and claims.* Land users may not assign cost-share payments except as provided under the authority of 31 U.S.C., section 203, as amended by 41 U.S.C., section 15. Federal cost-share payments due any land user are not subject to claims for advances except as provided in this section.

Subpart E—Appeals and Violations

§ 632.40 Appeals.

(a) *Before signing a contract.* A land user may orally request the contracting officer or the district conservationist to reconsider decisions that would affect the contract before it is signed. However, requests for reconsideration of eligible conservation treatment, cost-share rate, average costs, or specified maximum costs are not to be honored.

(1) If oral agreement is not reached, the land user may make a written request within 30 days after receiving notice of the oral decision. The contracting officer or the district conservationist is to notify the land user of the decision within 30 days after receiving the written request.

(2) If a land user is dissatisfied with the decision of the contracting officer or the district conservationist, he may file a written appeal with the State conservationist within 30 days after receipt of the decision. The State conservationist's decision is final. The land user is to be notified of the decision within 30 days after the appeal is filed.

(3) If the land user fails to comply with the time limits for reconsideration or appeal as provided in paragraphs (a) (1) and (2), the decision of the contracting officer or the district conservationist is final.

(b) *After the contract is signed.* Disputes pertaining to questions of fact under a contract, except contract violations, that are not settled by written agreement are to be referred to the State conservationist for a decision within 30 days after refusal to sign the written agreement. The following applies on disputes:

(1) The State conservationist is to notify the land user, in writing, that the dispute will be considered on a specified date. This date is to be not less than 30 days after the land user receives the notice.

(2) Within 30 days after receiving the State conservationist's notice, the land user may file a request to appear and present oral and other evidence. If the land user does not request an appearance, the State conservationist is to decide the dispute on the evidence available to him. The State conservationist is to inform the land user of his decision in writing.

(3) Land users may appeal decisions of the State conservationist to the Administrator within 30 days after receiving the decision. The State conservationist is to submit the record before him, which is to include his decision, to the Administrator within 20 days after the land user's appeal is received by the Administrator. He may also file a brief or statement with the Administrator. The Administrator's decision is final. The land user is to be notified of this decision in writing.

(c) *Filing of documents.* A document is considered filed when it is received in the office of the person concerned.

§ 632.41 Violations.

(a) *Actions causing violation.* The following actions constitute violation of a contract by a land user:

(1) Knowingly or negligently damaging or causing conservation treatment to be impaired.

(2) Adopting land use or treatment that tends to defeat the program purposes during the period of the contract.

(3) Failing to comply with the terms of the contract.

(4) Filing a false claim.

(5) Misusing an authorization.

(b) *Effect of violation.* (1) *Contract to be terminated.* (i) By signing a contract, the land user agrees to forfeit all rights to further cost-share payments under a contract and to refund cost-share payments received not to exceed the difference between the estimated value of the land at time of entering into the contract and the value at time of termination, if the contracting officer, with approval of the State conservationist, determines that:

(A) There was a violation of the contract during the time the land user had control of the land, and

(B) The violation was of a nature as to warrant termination of the contract.

(ii) The land user is to be obligated to refund cost-share payments and cost shares paid under authorizations not to exceed the difference between the estimated value of the land at time of entering into the contract and the value at time of termination.

(2) *Contract not terminated.* (i) By signing a contract, the land user agrees to refund cost-share payments received under the contract or to accept payment adjustment if the contracting officer, with the approval of the State conservationist, determines that:

(A) There was a violation of the contract during the time the land user had control of the land, and

(B) The nature of the violation does not warrant termination of the contract.

(ii) Payment adjustments may include decreasing the rate of a cost share, deleting a cost-share commitment from the contract, or withholding cost-share payments earned but not paid. The land user who signs the contract may be obligated to refund cost-share payments and cost shares paid under authorizations.

§ 632.42 Violation procedures.

(a) *Scope.* This section prescribes the regulations dealing with contract violations. The Administrator reserves the right to revise or supplement any of the provisions of this section at any time if the action does not adversely affect the land user, or if the land user has been officially notified before this action is taken. No cost-share payment shall be made pending the decision on whether a contract violation has occurred.

(b) *Determination by contracting officer.* On notificaion that a contract violation may have occurred, the contracting officer is to:

(1) Determine, with the approval of the State conservationist, that a violation did not occur or that the violation was of such a nature that no penalty of forfeiture, refund, or payment adjustment is necessary. No notice is issued to the land user, and no further action is to be taken; or

(2) Determine that a violation did occur, but the land user agrees to accept the penalty. If the land user agrees in writing to accept a penalty of forfeiture, refund, payment adjustment or termination, no further action is to be taken. The land user's agreement to accept the penalty must be approved by the contracting officer and State conservationist.

(c) *Notice of possible violation.* (1) When the State conservationist is notified that a contract violation may have occurred that may warrant a penalty of forfeiture, refund, payment adjustment, or termination, he is to notify, in writing, each land user who signed the agreement of the alleged violation. This notice may be personally delivered or sent by certified or registered mail. A land user is considered to have received the notice at the time of personal receipt acknowledged in writing, at the time of the delivery of a certified or registered letter, or at the time of the return of a certified or registered letter where delivery was refused.

(2) The notice setting forth the nature of the alleged violation is to give the land user an opportunity to appear at a hearing before a hearing officer designated by the State conservationist. The land user's request for a hearing is to be submitted in writing and must be received in the SCS field office within 30 days after receipt of the notice. The land user is to be notified in writing by the hearing officer of the time, date, and place for the hearing. The land user is to have no right to a hearing if he does not file a written request for a hearing, or if he or his representative does not appear at the appointed time, unless the hearing officer, at his discretion, permits an appearance. A request for a hearing filed by a land user is considered to be a request by all land users who signed the contract.

(d) *Hearing.* A public hearing is to be conducted to obtain the facts about the alleged violation. The hearing officer is to limit the hearing to relevant facts and evidence and is not to be bound by the strict rules of evidence as required in courts of law. Witnesses may be sworn in at the discretion of the hearing officer.

(1) The land user or his representative is to be given full opportunity to present oral or documentary evidence about the alleged violation. Likewise, the United States may submit statements and evidence. Individuals not otherwise represented at the hearing may be permitted, at the discretion of the hearing officer, to give information of evidence. The hearing officer, at his discretion, may permit witnesses to be cross-examined.

(2) The hearing officer is to make a record of the hearing so that the testimony can be summarized. A summary of the testimony may be made if both the land user and the State conservationist agree. A transcript of the hearing is to be made if requested by either the State conservationist or the land user within 10 days of the hearing. If a transcript is requested by the land user, the land user may be assessed the cost of a copy of the transcript.

(3) The hearing officer is to close the hearing after a reasonable period of time if the land user or his representative is not present at the scheduled time. The hearing officer may, at his discretion, accept information and evidence submitted by others present for the hearing.

(4) The hearing officer is to furnish the State conservationist with a written report setting forth his findings, conclusions, and recommendations. The report is to include the summary of testimony or transcript made of the hearing and any other information that would aid the State conservationist in reaching his decision.

(e) *Decision by State conservationist.* The State conservationist is to make a decision after considering the hearing officer's report, including recommendations of the conservation district board if any, and any other information available to him, including, if applicable, the amount of the forfeiture, refund, or payment adjustment. The decision is to state whether the violation is of such a nature as to warrant termination of the contract. The State conservationist is to notify, in writing, each land user who signed the contract of his decision. The State conservationist may authorize or require the reopening of any hearing before a hearing officer for any reason at any time before his decision.

(f) *Appeal to Administrator.* Any land user affected by a decision of the State conservationist has the right of appeal to the Administrator. The appeal and any briefs or statements must be received in the Office of the Administrator within 30 days after the land user has received notice of the State conservationist's decision. The State conservationist is to file a brief or statement in the Office of the Administrator within 20 days after the land user's brief or statement is received there. The appeal is to be limited to the records and the issues made before the State conservationist. The Administrator's decision is final. The decision is to be determined by the record before him and the issues presented in the appeal, and the land user is to be notified in writing.

(1) If the decision provides for termination of the contract, it is to state that the contract is terminated, that all rights to further cost-share payments under the contract are forfeited, and that cost-share payments received under the contract are to be refunded, but the refund is not to exceed the difference between the estimated value of the land at time of entering into the contract and the value at time of termination. The decision is to state the amount of refund and method of payment.

(2) If the decision does not provide for termination of the contract, the land user may be required to make a refund of cost-share payments or to accept payment adjustments. The decision is to state the amount of refunds of cost-share payments or payment adjustments. In determining amounts of refund or payment adjustments, the following are to be considered:

(i) The extent of the violation.

(ii) Whether the violation was deliberate or the result of negligence or was caused by circumstances beyond the control of the land user.

(iii) The effect on the program if no refund or payment adjustment is required.

(iv) The extent to which the land user benefited by the violation.

(v) The effect of the violation on the contract as a whole.

(vi) Other considerations including the appropriateness and reasonableness of the refund or payment adjustment.

Subpart F—Environment

§ 632.50 Environmental assessment.

(a) Environmental assessment is an integral part of planning used by SCS in developing each reclamation plan under this program. Planning includes site inventory and analysis, evaluation of reasonable alternatives, and identification of significant environmental impacts. Major points in planning when SCS or the land user can make decisions concerning further action are:

(1) After an evaluation of the application for program assistance to verify eligibility, land user objectives, and priorities for funding.

(2) After a site-specific inventory and analysis to evaluate feasible treatment alternatives, costs, and environmental impacts.

(3) After development of an acceptable reclamation plan as a basis for contract.

(4) Before the signing of a mutually acceptable contract for financial cost-share assistance.

V 43/189 SE 28 78 (IM)

(b) The scope and complexity of the assessment is to be consistent with the scope and complexity of the proposed reclamation.

(c) An interdisciplinary team, consisting of SCS and/or other cooperating agency personnel as needed, is used in making the assessment.

(d) The Responsible Federal Official (RFO) is to use the environmental assessment to make a decision concerning the need to prepare an environmental impact statement (EIS) in accordance with § 632.52.

§ 632.51 Accord with environmental laws and orders.

(a) A final program EIS is available in compliance with section 102(2)(c) of the National Environmental Policy Act of 1969 (NEPA). This statement discloses the cumulative program impacts that significantly affect the quality of the human environment.

(b) The program is to be conducted in accordance with other laws and Executive orders concerning environmental protection.

(c) Channelization of streams is prohibited under this program. Channelization as used herein means the overall widening, deepening, realining, or constructing a nonvegetative protective lining over all or part of the perimeter of a perennial stream channel as described in SCS Channel Modification Guidelines, Part B, Items 4, 5, 6, and 7, as published in the FEDERAL REGISTER on March 1, 1978 (43 FR 8278).

§ 632.52 Identifying typical classes of action.

(a) The RFO will analyze the environmental assessment of the proposed action to determine which of the following classes of action applies. This determination will be recorded and will be available to the public on request.

(1) *Actions not requiring a site-specific EIS.* All proposed actions and their impacts that are determined to be adequately discussed in the program EIS or determined not to be major Federal actions will not require a site-specific EIS. However, if the assessment reveals that these proposed actions will have significant adverse effects on the quality of the human environment, the RFO will:

(i) Modify the action to eliminate or mitigate the significant adverse impacts, or

(ii) Withdraw further Federal assistance if significant adverse impacts cannot be eliminated or mitigated.

(2) *Actions requiring a site-specific EIS.* A site-specific EIS is required for proposed actions if their impacts are not adequately discussed in the program EIS, and the proposal is determined to be a major Federal action significantly affecting the quality of the human environment in accordance with § 650.7(b) of this chapter. When a decision is made to prepare an EIS, a Notice of Intent will be published in the FEDERAL REGISTER. The content and format of the EIS is to be consistent with the format of the program EIS and use scoping and tiering techniques to focus on the significant environmental issues.

(3) *Actions excluded from the EIS requirements.* Those actions taken to prevent loss of life or property under the extreme danger provisions of priority 1 as described in § 632.12. These actions are determined by a limited environmental assessment that reasonably identifies the possible loss of life or property.

DEPARTMENT OF HEALTH, EDUCATION AND WELFARE

Health Resources Administration

■

LIST OF HEALTH MANPOWER SHORTAGE AREAS

Designated Under Section 332 of Public Health Service Act

V 43/189 SE 28 78 LIMI

[4110-83]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Resources Administration

LIST OF HEALTH MANPOWER SHORTAGE AREAS DESIGNATED UNDER SECTION 332 OF PUBLIC HEALTH SERVICE ACT

1. *Purpose.* This notice provides an updated list of those primary medical manpower shortage areas designated by the Secretary of Health, Education, and Welfare through August 31, 1978, under the authority of section 332 of the Public Health Service Act.

2. *Background.* Section 332 of the Public Health Service Act, as amended by Pub. L. 94-484 (the Health Professions Educational Assistance Act of 1976), provides that the Secretary of Health, Education, and Welfare shall designate health manpower shortage areas in accordance with criteria established under section 332(b). Health manpower shortage areas are defined in section 332(a) to include (1) urban and rural geographic areas, (2) population groups, and (3) facilities with shortages of health manpower. Section 332(d) requires that the Secretary publish a list of the designated geographic areas, population groups, and facilities. Regulations implementing this authority provide that periodic updates of the list be published. The Health Resources Administration's Bureau of Health Manpower has been assigned the responsibility for designating these areas.

This is the second list of health manpower shortage areas designated under section 332. The first list was published July 17, 1978, and included six different types of manpower shortage areas (primary medical care, dental, vision care, podiatry, pharmacy, and veterinary manpower). This list represents an update for designated primary medical manpower shortage areas only, and contains all such areas which had been designated by August 31, 1978.

Public or nonprofit entities in (or with a demonstrated interest in) these areas are eligible to apply for assignment of National Health Service Corps personnel to provide health services in or to the areas. These areas are also eligible service areas for Public Health Service loan repayment and scholarship programs, and entities located in the areas are eligible to apply for (or receive preference for) certain grant programs under the Public Health Service Act.

3. *Development of list.* Criteria for the designation of health manpower shortage areas in accordance with section 332(b) were published by the Department of Health, Education, and Welfare as Interim-Final Regulations in the FEDERAL REGISTER of January 10, 1978 (43 FR 1586). Data available to the Bureau of Health Manpower on counties and small areas throughout the country were then compared with these criteria, and preliminary listings were developed of those areas which tentatively appeared to meet the criteria. These preliminary listings were submitted to the appropriate Health Systems Agencies (HSA's), State Health Planning and Development Agencies (SHPDA's) and Governors for their review and recommendations. In addition, the many requests received for designation of particular areas, population groups, or facilities were also submitted to the appropriate HSA's, SHPDA's, and Governors for review and recommendations.

Each request for designation was reviewed by the Bureau of Health Manpower together with any recommendations received concerning such designations, and a determination was made as to whether or not the areas involved met the shortage criteria. The results of these determinations were then provided by letter to the requesting agency or individual, with copies to other appropriate agencies and to interested organizations and persons. Where a review resulted in designation of one of more areas, this letter constituted the official notice of designation. The same procedure was applied in reviewing agencies' responses to the listings sent to them for review.

The list below represents, for primary medical care manpower, a compilation of those areas, population groups and facilities already formally designated by letter by the Bureau of Health Manpower between January 10 (the date of the publication of the Interim-Final Regulations and criteria in the FEDERAL REGISTER) and August 31, 1978.

4. *Format of list.* The list of areas is arranged by State. Within each State, the list is first presented by county. In those cases where a portion (or portions) of a county has been designated, the service area(s) involved are listed under the county name. Following the county listing, a list of these service areas is presented showing their component parts in terms of census tracts (C.T.), towns, townships, minor civil division (M.C.D.) or census county division (C.C.D.).

Where population groups or facilities have been designated, these are listed under the county name(s) in which the population resides or the facility is located.

Beside each designated area, the appropriate "degree of shortage" group is indicated, corresponding to the criteria for these groupings contained in the Interim-Final Regulations. (Group I represents areas with the highest degree of shortage, Group II with the next highest degree of shortage, etc.)

In addition to the specific listings shown here, all members of Indian tribes within the meaning of the definition in section 4(d) of Pub. L. 94-437, the Indian Health Care Improvement Act of 1976, are automatically designated as population groups with a health manpower shortage.

5. *Supplemental list of National Health Service Corps (NHSC)—staffed sites previously designated under section 329(b).* Under section 407(c) of Pub. L. 94-484, areas which had been designated under section 329(b) of the Public Health Service Act as of September 30, 1977, and in which National Health Service Corps (NHSC) personnel were providing health services on that date, are automatically designated as health manpower shortage areas under section 332, until the end of the assignment period of those personnel. A supplementary list of such areas follows the list of primary medical manpower shortage areas designated using the new criteria.

The designation of any area listed on this supplemental list will lapse at the end of the current assignment period, unless prior to that time, it is determined that the area satisfies the new criteria and notification of redesignation under section 332 is made.

The format for this list of areas is also by State. Within each State, the name of the previously designated area is given, followed by the name of the clinic or other facility staffed, and the community and county in which the facility is located. Any facility for which the previous designation could not be identified was not included in this list.

6. *Future updates of list of designated areas.* The list below consists of those primary medical manpower shortage areas designated by August 31, 1978. Updates of the lists of dental and other shortage areas will be published at a later date. Additions to and deletions from these lists are made continuously, by letter to affected agencies and persons; further updates of all the lists will be published periodically in the FEDERAL REGISTER. (In particular, it should be noted that some additional primary medical manpower shortage areas have been designated between August 31 and the date of this notice, and the appropriate agencies and persons notified of the designation. Although officially designated, these areas are not included in the list below.)

Any designated area listed below is subject to withdrawal from designation if new information is presented to and confirmed by the Bureau of Health Manpower indicating that the situation in the area has changed, or that erroneous or incomplete data were used in making the original designation.

For further information on these designations, to request additional designations, or to request withdrawal of any designation, please contact: Division of Manpower Analysis, Bureau of Health Manpower, Health Resources Administration, Attention: Shortage Area Designation Staff, Center Building, Room 4-41, 3700 East-West Highway, Hyattsville, Md. 20782.

All requests for designation or withdrawal should be based on the criteria as published in the Interim-Final Regulations, which appeared in the FEDERAL REGISTER on January 10, 1978.

Dated: September 20, 1978.

HENRY A. FOLEY,
Administrator,
Health Resources
Administration.
